Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 28, 1975.

Board of Governors of the Federal Reserve System, October 24, 1975.

[SEAL] ROBERT SMITH, III,
Assistant Secretary of the Board.

[FR Doc.75-29541 Filed 11-3-75;8:45 am]

BANCORPORATION OF MONTANA

Order Approving Acquisition of Bank

Bancorporation of Montana, Great Falls, Montana ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the System's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of The First State Bank of Thompson Falls, Thompson Falls, Montana ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act (40 FR 41563, September 8, 1975). The time for filing comments and views has expired, and none has been received. The Federal Reserve Bank of Minneapolis has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls twelve banks in Montana with deposits of $137 million representing 5.2 percent of total commercial bank deposits in Montana and is the fourth largest banking organization in the State.[1] Bank, with total deposits of $9.2 million, is the second largest of two banks in the relevant banking market and controls 49 percent of market deposits.[2] Acquisition of Bank would increase Applicant's share of State deposits to 5.6 percent and Applicant would remain as the State's fourth largest banking organization. Applicant's acquisition of Bank will have no appreciable effect on the concentration of banking resources in the State.

Bank is the only bank in the city of Thompson Falls (population 3,250), located in the extreme northwestern portion of the State. The area, characterized by mountainous terrain, is isolated from the major population centers of Montana. Applicant's nearest banking subsidiary is located approximately 100 road miles from Bank. No meaningful competition exists between any of Applicant's banking subsidiaries and Bank nor, in view of the distances involved and Montana's restrictive statutes concerning branch banking, does it appear that any significant future competition would be eliminated. Furthermore, it is unlikely that Applicant would enter the Thompson Falls market on a de novo basis because although market deposits within the relevant market have grown faster than the Montana average, the area is sparsely populated and isolated from any major population center or significant source of commerce. Therefore, on the basis of the record, it is concluded that consummation of the proposal will not have a significant adverse effect on existing or potential competition in any relevant area and that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank are regarded as generally satisfactory, particularly in light of Applicant's commitment to improve the capital position of certain of its subsidiary banks. Therefore, considerations relating to banking factors of the application are consistent with approval.

Applicant proposes to offer trust services to the community in question through one of its subsidiaries and also proposes to introduce expanded bank card services, including convenience checks and overdraft facilities to the community. Therefore, considerations relating to the convenience and needs of the community to be served lend weight toward approval of the application. On the basis of the record, it is this Reserve Bank's judgment that the proposed acquisition is in the public interest and should be approved.

For the reasons summarized above, the Federal Reserve Bank of Minneapolis hereby approves the application. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board of Governors or by the Federal Reserve Bank of Minneapolis pursuant to delegated authority.

By order of the Federal Reserve Bank of Minneapolis, acting pursuant to delegated authority for the Board of Governors, effective October 16, 1975.

[SEAL] L. G. GABLE,
Vice President.

[FR Doc. 75-29542 Filed 11-3-75; 8:45 am]

CITIZENS BANCORPORATION

Order Denying Formation of Bank Holding Co.

Citizens Bancorporation, Charles City, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 per cent or more of the voting shares of The Citizens National Bank of Charles City, Charles City, Iowa ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a non-operating company with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank ($14.6 million in deposits).[1] Bank is the third largest of five banks operating in the Charles City banking market[2] and controls approximately 19 percent of the total commercial bank deposits therein. Upon acquisition of Bank, Applicant would control the 215th largest bank in Iowa, holding .14 percent of total deposits in commercial banks in the State. Since the purpose of the proposed transaction is to effect a transfer of the ownership of Bank from individuals to a corporation owned by the same individuals, consummation of the proposal herein would not eliminate existing or potential competition, nor have an adverse effect on other area banks.

Applicant's principal is also a principal in The Kanabec Credit Company, Mora, Minnesota, a registered one-bank holding company, which owns 84 percent of The Kanabec State Bank, Mora, Minnesota. In addition, this individual and his brother together own 88 percent of The Sibley County Bank, Henderson, Minnesota. Since both of these banks are located in banking markets separate from the relevant market in this case, and the closest one is approximately 140 miles from Bank, consummation of the proposal would eliminate no existing competition. Therefore, competitive considerations are consistent with approval of the application.

The Board has indicated on previous occasions that it believes that a holding company should provide a source of strength to its subsidiary bank(s) and that every proposed formation and acquisition will be closely examined with this consideration in mind. With respect to the present proposal, Applicant would incur substantial debt which Applicant proposes to service over a 12-year period through dividends from Bank. In the Board's view, the projected earnings of Applicant do not appear to provide Applicant with the necessary financial flexibility to service its debt as well as to serve as a financial source of strength to Bank and to meet unexpected problems. Furthermore, the Board notes with concern the highly leveraged condition of The Kanabec Credit Company as well as the high level of debt incurred by Applicant's principal in acquiring The Sibley County Bank and Bank. This situation could impair the ability of Applicant's principal to aid Applicant in the event it incurs problems servicing its acquisition debt while at the same time maintaining an adequate capital account at Bank. While the Board recognizes that denial herein cannot affect present relationships, the Board believes that it should not approve a holding company debt structure that could impair the financial condition of Bank, nor would the public interest be served by such Board action. Therefore, on the basis of these and other facts of record, the Board has determined that considerations relating to financial factors lend weight toward denial of the application.

Applicant has proposed some changes which could benefit the community, including certain fiduciary services, a strengthened agricultural lending program, and the future use of electronic terminal devices. However, the introduction of these services is not dependent upon formation of Applicant as a bank holding company and, in any event, does not outweigh the aforementioned adverse banking factors connected with this proposal.

On the basis of all of the circumstances concerning this application, the Board concludes that the financial considerations involved in this proposal present adverse circumstances bearing upon the financial condition and prospects of both Applicant and Bank. Such adverse factors are not outweighed by any procompetitive effects or by benefits which would result in serving the convenience and needs of the community. Accordingly, it is the Board's judgment that approval of the application would not be in the public interest and that the application should be denied.

On the basis of the record, the application is denied for the reasons summarized above.

By order of the Board of Governors,[3] effective October 24, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-29543 Filed 11-3-75;8:45 am]

DALE SPRAGUE ENTERPRISES, INC.

Formation of Bank Holding Co.

Dale Sprague Enterprises, Inc., Blue Mound, Kansas has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 per cent or more of the voting shares of Farmers State Bank, Blue Mound, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Dale Sprague Enterprises, Inc. has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to engage de novo in the activities of a general insurance agency. Notice of the application was published on July 17, 1975 in The Mound City Republic, a newspaper circulated in Linn County, Kansas.

Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 28, 1975.

Board of Governors of the Federal Reserve System, October 24, 1975.

[SEAL] ROBERT SMITH, III,
Assistant Secretary of the Board.

[FR Doc.75-29544 Filed 11-3-75;8:45 am]

FIRST AMTENN CORP.

Order Denying Acquisition of Bank

First Amtenn Corporation, Nashville, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of The First National Bank of Sparta, Sparta, Tennessee ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in Tennessee, controls eight banks with aggregate deposits of approximately $1.2 billion, representing 9.4 percent of the total deposits in commercial banks in the State.[1] Acquisition of Bank would increase Applicant's share of State deposits by 0.26 percent and would not significantly increase the concentration of banking resources in Tennessee.

Bank holds deposits of approximately $32 million, representing 66 percent of the total deposits in commercial banks in the relevant market,[2] and ranks as the larger of two banks operating in the market. Applicant's subsidiary bank closest to Bank is located 60 miles away in Tullahoma, Tennessee. It does not appear that any meaningful competition presently exists between Applicant's banking subsidiaries and Bank. Furthermore, it does not appear that any significant competition would develop in the foreseeable future between Applicant and Bank in view of the distances involved and Tennessee law, which prohibits Applicant from entering the relevant market de novo prior to 1980. Moreover, consummation of the proposed transaction could have a salutory effect on competition by permitting Bank's sole competitor in the market, a branch office of Commerce Union Bank of Nashville,

[1] All banking data are as of December 31, 1974, and reflect holding company formations and acquisitions approved through September 30, 1975.

[2] The relevant market for purposes of analyzing the competitive effects of the subject proposal is approximated by all of White County, Tennessee.

[1] All banking data are as of December 31, 1974, and reflect holding company formations and acquisitions approved by the System through September 1975.

[2] Market is approximated by the cities of Thompson Falls and Plains, Montana, and the immediate surrounding area.

[1] All banking data are as of December 31, 1974.

[2] The Charles City banking market is approximated by Floyd County, except for the town of Nora Springs, and includes the town of Nashua in Chickasaw County.

[3] Voting for this action: Vice Chairman Mitchell and Governors Bucher, Coldwell, and Jackson. Absent and not voting: Chairman Burns and Governors Holland and Wallich.

V 40 213 NOV 4 75 XUM

Nashville, Tennessee, to reorganize itself into a bank with branching powers. Therefore, the Board concludes that consummation of the proposal would not have any significantly adverse effects on existing or potential competition in any relevant area, and that the competitive considerations are consistent with approval of the application.

As indicated on previous occasions, the Board believes that a holding company should be a source of financial and managerial strength to its subsidiary bank(s), and that the Board will closely examine the condition of the applicant in each case with this consideration in mind. The subject proposal is not an exchange of shares but contemplates an acquisition debt of more than $6.6 million, including an immediate cash outlay of almost $1 million. The funds required to service this debt would be a significant cash drain on Applicant. In the Board's view, the projected earnings of Applicant do not provide Applicant with the necessary funds to meet this proposed increase in its annual debt servicing requirements while at the same time maintaining and strengthening the capital at its subsidiary banks. Under these circumstances, the Board believes that Applicant should concentrate its financial and managerial resources toward strengthening its existing subsidiaries before seeking further expansion of its banking interests. Accordingly, the Board concludes that considerations relating to the financial and managerial resources and future prospects weigh against approval of the application.

With respect to convenience and needs considerations, Applicant proposes to expand the services presently offered by Bank. While these considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application, they do not outweigh the adverse findings with respect to the financial factors involved in Applicant's proposal.

Based upon the foregoing and other considerations reflected in the record, the Board concludes that the financial considerations involved in the proposal present adverse factors bearing on the financial condition and future prospects of Applicant and Bank. Such adverse factors are outweighed by any procompetitive effects or by the benefits which would result in serving the convenience and needs of the community. Accordingly, it is the Board's judgment that approval of the application would not be in the public interest and that the application should be, and hereby is, denied.

By order of the Board of Governors,[1] effective October 28, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-29545 Filed 11-3-75;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Bucher, Holland, Coldwell and Jackson. Absent and not voting: Governors Mitchell and Wallich.

FIRST FINANCIAL CORP.

Order Approving Acquisition of Bank

First Financial Corporation, Tampa, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of The First American Bank of Pensacola, Pensacola, Florida ("Bank").

Notice of the application affording opportunity for interested persons to submit comments and views has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been received. This Federal Reserve Bank has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventh largest banking organization in Florida, controls sixteen banks which have deposits of $1.08 billion or 4.5 percent of deposits in all commercial banks of the State. (Banking data are as of December 31, 1974, and reflect acquisitions and formations approved by the Board through August 19, 1975). Acquisition of Bank, having deposits of $26.3 million, would increase Applicant's share of Florida's commercial bank deposits by less than one percent, and would not change Applicant's rank among other banking organizations in the State in aggregate commercial bank deposits. No undue concentration of banking resources in Florida would result.

Applicant is seeking to make its initial entry into the Pensacola banking market, consisting of Escambia and Santa Rosa counties in the northwest portion of the State. Applicant, in acquiring Bank, the sixth largest bank in the market with deposits representing 6.4 percent of commercial bank deposits in the market, will not be gaining a dominant position.

Applicant's closest subsidiary bank is at Quincy, Florida, 180 miles east of Bank. No competition exists between Applicant's banking subsidiaries and Bank, and it is not likely that future competition would develop between them. The acquisition would have no adverse competitive effects.

The financial and managerial resources of Applicant, its subsidiaries and Bank are generally satisfactory; future prospects appear favorable. The proposed acquisition would allow Bank to make available to the public international services, access to qualified personnel for financial advice, and trust services. Considerations relating to convenience and needs of the community to be served lend weight toward approval of the application. It is this Federal Reserve Bank's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Federal Reserve Bank of Atlanta acting under delegated authority for the Board of Governors of this Federal Reserve System, effective October 21, 1975.

[SEAL] KYLE K. FOSSUM,
First Vice President.

[FR Doc.75-29546 Filed 11-3-75;8:45 am]

FOREIGN-TRADE ZONES BOARD

[Order No. 106]

LAKE CALUMET HARBOR AREA, CHICAGO, ILL.

Resolution and Order Approving Application of the Chicago Regional Port District for a Foreign-Trade Zone

Proceedings of the Foreign-Trade Zones Board, Washington, D.C.

RESOLUTION AND ORDER

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended, (19 U.S.C. 81a–81u) the Foreign-Trade Zones Board has adopted the following Resolution and Order:

The Board, having considered the matter hereby orders:

After consideration of the application of the Chicago Regional Port District, a municipal corporation, filed with the Foreign-Trade Zones Board (the Board) on April 8, 1975, requesting a grant of authority for the establishing, operating and maintaining of a foreign-trade zone in Chicago's Lake Calumet Harbor area, Chicago, Illinois, the Board finding that the requirements of the Foreign-Trade Zones Act, as amended, and the Board's regulations are satisfied, and that the proposal is in the public interest, approves the application.

Since the proposal involves an industrial park type zone that envisages the construction of buildings by parties other than the grantee, this approval includes authority to the grantee to permit the erection of such buildings, pursuant to § 400.815 of the Board's regulations, as are necessary to carry out the zone proposal: *Providing*, That prior to its granting such permission it shall have the concurrences of the local District Director of Customs, the District Army Engineer, when appropriate, and the Board's Executive Secretary. Further, the grantee shall notify the Executive Secretary for approval prior to the commencement of any manufacturing operation within the zone. The Secretary of Commerce, as Chairman and Executive Officer of the Board, is hereby authorized to issue a grant of authority and appropriate Board order.

GRANT

TO ESTABLISH, OPERATE, AND MAINTAIN A FOREIGN-TRADE ZONE IN THE LAKE CALUMET HARBOR AREA, CHICAGO, ILLINOIS

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment, operation, and maintenance of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes", as amended, (19 U.S.C. 81a–81u) (hereinafter referred to as "the Act") the Foreign-Trade Zones Board (hereinafter referred to as "the Board") is authorized and empowered to grant to corporations the privilege of establishing, operating, and maintaining foreign-trade zones in or adjacent to ports of entry under the jurisdiction of the United States;

Whereas, the Chicago Regional Port District, a municipal corporation, (hereinafter referred to as "the Grantee"), has made application (filed April 8, 1975) in due and proper form to the Board requesting the establishment, operation, and maintenance of a foreign-trade zone in the Lake Calumet Harbor area, Chicago, Illinois;

Whereas notice of said application has been given and published, and full opportunity has been afforded all interested parties to be heard; and

Whereas, the Board has found that the requirements of the Act and the Board's regulations (15 CFR Part 400) are satisfied;

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing, operating, and maintaining a foreign-trade zone, designated on the records of the Board as Zone No. 22, at the location mentioned above and more particularly described on the maps and drawings accompanying the application requesting authority for a foreign-trade zone in the Lake Calumet Harbor area of Chicago, Illinois, marked as Exhibits IX and X, said grant being subject to the provisions, conditions, and restrictions of the Act and the regulations issued thereunder, to the same extent as though the same were fully set forth herein, and also to the following express conditions and limitations, to-wit:

Operation of the foreign-trade zone shall be commenced by the Grantee within a reasonable time from the date of issuance of the grant, and prior thereto the Grantee shall obtain all necessary permits from Federal, State, and municipal authorities.

The Grantee shall allow officers and employees of the United States free and unrestricted access to and throughout the foreign-trade zone in the performance of their official duties.

The Grantee shall notify the Executive Secretary of the Board for approval prior to the commencement of any manufacturing operation within the zone.

The grant shall not be construed to relieve the Grantee from liability for injury or damage to the person or property of others occasioned by the construction, operation, or maintenance of said zone, and in no event shall the United States be liable therefore.

The grant is further subject to settlement locally by the District Director of Customs and the District Army Engineer with the Grantee regarding compliance with their respective requirements for the protection of the revenue of the United States and the installation of suitable facilities.

In witness whereof, the Foreign-Trade Zones Board has caused its name to be signed and its seal to be affixed hereto by its Chairman and Executive Officer, Rogers C. B. Morton, at Washington, D.C., this 29th day of October 1975, pursuant to Order of the Board.

FOREIGN-TRADE ZONES BOARD,
ROGERS MORTON,
Chairman and Executive Officer.

ATTEST: JOHN J. DAPONTE, JR.,
Executive Secretary.

[FR Doc.75-29548 Filed 11-3-75;8:45 am]

INTERNATIONAL TRADE COMMISSION

[AA1921-148]

VINYL CLAD FENCE FABRIC FROM CANADA

Determination of No Injury or Likelihood Thereof

OCTOBER 24, 1975.

On July 24, 1975, the United States International Trade Commission received advice from the Department of the Treasury that vinyl clad fence fabric from Canada is being, or is likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on July 29, 1975, the Commission instituted investigation No. AA1921-148 under section 201(a) of said act to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such vinyl clad fence fabric into the United States.

Notice of the institution of the investigation and of a public hearing to be held in connection therewith was published in the FEDERAL REGISTER of August 4, 1975 (40 FR 32796). The hearing was held on September 9, 1975.

In arriving at its determination, the Commission gave due consideration to written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission[1] has unanimously determined that an industry in the United States is not being injured, or is not likely to be injured, or is not prevented from being established, by reason of the importation of vinyl clad fence fabric from Canada that is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF CHAIRMAN WILL E. LEONARD AND COMMISSIONER CATHERINE BEDELL[2]

The Antidumping Act, 1921, as amended, requires that the U.S. International Trade Commission find two conditions satisfied before an affirmative determination shall be made. The first condition is that an industry in the United States is being, or is likely to be, injured, or an industry in the United States is prevented from being established.[3] Second, the requisite injury must be "by reason of" the importation into the United States of the merchandise which the Department of the Treasury (Treasury) has determined is being, or is likely to be, sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended.

On the basis of the subject investigation (Inv. No. AA1921-148), we have determined that an industry in the United States is not being nor is likely to be injured by reason of the importation of vinyl clad fence fabric from Canada sold or likely to be sold at LTFV. We have made a negative determination because we do not find the first condition referred to above—an industry is being, or is likely to be, injured—satisfied by the evidence obtained in this investigation.[4]

Imported article and U.S. industry. The imported merchandise in this proceeding for which the Treasury found sales at LTFV is vinyl clad fence fabric. Vinyl clad fence fabric competes with other types of fencing, particularly galvanized steel chain link fencing, although the vinyl clad product has special physical properties and esthetic appeal distinct from galvanized steel chain link fencing.

With respect to what industry is allegedly injured or likely to be injured, the Commission said (at p. 4) in Lock-In Amplifiers and Parts Thereof From the United Kingdom, Investigation No. AA-1921-146, USITC Publication 736 (July 1975):

> The Antidumping Act states that there must be injury to, or likelihood of injury to, or the prevention of the establishment of, "an industry" in the United States in order for relief to be forthcoming. The use of the indefinite article "an," rather than the definite article "the," allows the Commission to examine the impact of the LTFV sales on more than one industry, if it deems such course of action is appropriate. If any industry is injured by LTFV imports, the statute is satisfied. Out of practical considerations and in its sound discretion, the Commission has usually looked at the industry in the United States that would most likely be impacted by LTFV imports to assess injury. If no injury were found to such an industry, and no evidence of injury to another possible industry has been obtained, the Commission has usually concluded that there was no injury to an industry. The industry most likely to be impacted has usually been defined in terms of the domestic facilities devoted to the production of the article most comparable to the LTFV article.

[1] Commissioner Parker did not participate in the decision.

[2] Vice Chairman Daniel Minchew concurs in the result.

[3] Prevention of the establishment of an industry is not an issue in the instant case, and it will not be discussed further.

[4] Failure of the first condition to be met makes consideration of the second condition unnecessary.

V 40 213 NOV 4 75 NM XUM

Without determining that it is properly a distinct industry,[6] we have examined in this case the impact of LTFV sales on the domestic facilities of the U.S. producers that are devoted to the production of vinyl clad fence fabric. We find that the facilities producing this article are not injured, nor are they likely to be injured, and, further, that there is no evidence of injury by reason of the LTFV sales to any other facilities which could be construed to comprise an industry.

No injury. Evidence developed by the Commission in connection with this investigation clearly indicates that no domestic industry has been injured. U.S. producers' shipments of vinyl clad fence fabric increased annually during 1970–74, rising from 7,583 tons to 12,374 tons, an increase of 63 percent. During this same period, exports to the United States by the Canadian producer that supplied the preponderance of the LTFV imports declined from 20 percent of U.S. consumption in 1970 to 10.4 percent in 1974, the year in which Treasury found LTFV sales. It was demonstrated that certain established U.S. producers of this product lost part of their market share in 1974 as other, new and smaller U.S. producers increased their market share. This is evidenced by the fact that one producer which made its first shipments of vinyl clad fencing in 1973 increased its share of U.S. producers' total shipments from less than 2 percent in 1973 to about 12.5 percent in 1974. It is also noted that the U.S. producers were confronted with increased quantities of competitively priced fair value imports from Canada during each of the years 1972–74.

Individual U.S. producers' prices for an item of vinyl clad fence fabric (2 inch mesh x 9 gauge x 4 feet high x 50 foot rolls), which is representative of the pricing for the great bulk of total industry shipments, increased during 1973–74 by amounts ranging from 60 percent to over 100 percent. Since late 1973 the prices charged by the principal supplier of the LTFV imports have been as high as or higher than those of any of the 6 domestic producers that supplied the Commission with pricing data. Such large price increases by domestic producers and the consistently higher or equal prices of the imported article establish that there has been no price depression and also refute any claim of price suppression.

Three firms which in the aggregate account for well over two-thirds of total U.S. producers' sales of vinyl clad fence fabric provided the Commission with financial information; two of these firms provided the information on the total operations of their establishments in which vinyl clad fence fabric is produced, and the other firm provided information on its total operations. The net operating profit to net sales ratio of these firms on their combined operations increased from 3.3 percent in 1972 to 10.6 percent in 1973 and to 13.5 percent in 1974, the year in which Treasury found LTFV sales.

Two firms provided the Commission separate data on the profitability of their vinyl clad fence fabric operations. One of these firms reported its net operating profit to net sales ratio on these operations declined slightly in 1973 as compared to 1972 and then increased sharply in 1974. The other firm reported its ratio of net profit to net sales increased in 1973 as compared to 1972 and then declined in 1974. Despite these fluctuations both producers reported substantial operating profits on their vinyl clad fence fabric operations in each of the years 1972–74.

No likelihood of injury. The Report of the Senate Committee on Finance (S. Rept. No. 93–1298) on the bill which became the Trade Act of 1974 remarked (at p. 180) on Commission practice under the Antidumping Act, 1921, in the following manner:

> The Commission's affirmative determinations that an industry "is likely to be injured" by less-than-fair-value imports are based upon evidence showing that the likelihood is real and imminent and not on mere supposition, speculation, or conjecture.

There is no evidence in this investigation that shows any industry is likely to be injured in any real and imminent sense. There is evidence of a strong anticipated growth in the U.S. market for vinyl clad fence fabric, and it is anticipated that U.S. producers of vinyl clad fence fabric will have increased production and sales in view of such growth. The Canadian firm which has supplied the bulk of the LTFV imports has a limited capacity to increase its shipments to the United States. Further, as indicated above, the trend of LTFV imports of vinyl clad fence fabric has been downward over the last several years.

Conclusion. Accordingly, for the reasons indicated, we have determined that an industry is not being injured nor is likely to be injured by reason of imports of vinyl clad fence fabric from Canada that are being, or are likely to be, sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

CONCURRING STATEMENT OF REASONS OF COMMISSIONERS MOORE AND ABLONDI

The facts in this case are not in dispute, and they present a classic example of what the Senate Committee on Finance, in its Report on the Trade Act of 1974, has described as "technical dumping." Therefore, we have made a negative determination.

In its Report on the Trade Act of 1974, the Senate Finance Committee provided a lengthy definition of "technical dumping" and described the circumstances under which the U.S. International Trade Commission should apply such definition.

A portion of the relevant language of the Finance Committee Report is as follows:

> • • • the Antidumping Act does not proscribe transactions which involve selling an imported product at a price which is not lower than that needed to make the product competitive in the U.S. market, even though the price of the imported product is lower than its home market price. Such so-called "technical dumping" is not anti-competitive, hence, not unfair; it is procompetitive in effect.[8]

Thus, technical dumping occurs when LTFV (less than fair value) imported products are sold in the U.S. market at prices equal to or higher than the prices paid for comparable domestic products. This absence of underselling by competitive LTFV imports has on numerous occasions been characterized by the Commission in antidumping investigations as "technical dumping."

The term "technical dumping" has appeared frequently in Commission determinations under the Antidumping Act, 1921, as amended. For example, in Rayon Staple Fiber from France the Commission stated, "Thus the case involved purely 'technical' dumping prices."[9] The concept was further recognized and articulated in Technical Vanillin from Canada, in which the majority of Commissioners stated:

> The importation of an article sold "at less than fair value" is not ipso facto injurious. The sole exporter of Canadian technical vanillin has sold its product • • • to U.S. consumers at delivered prices equal to or higher than the delivered (or their equivalent) prices offered by the predominant U.S. producer of technical vanillin. • • • The importation of Canadian technical vanillin under such circumstances cannot be considered as injurious or likely to injure an industry in the United States.[9]

How the dumping margin arose. Sales of vinyl clad fence fabric in the Canadian market were made on an F.O.B. delivered basis to all Canadian customers in Canadian currency. At the time of exportation, the Canadian currency was converted to U.S. currency at exchange rates certified by the Federal Reserve Bank of New York. During the period of the Treasury Department's investigation (May through October 1974) the United States dollar was worth less than the Canadian dollar, i.e., one Canadian dollar was worth between $1.02 and $1.03. During this period, when the value of the Canadian dollar exceeded the value of the United States dollar, the sale price in the United States of vinyl clad fence fabric exported by the primary Canadian LTFV exporter was lower than its home market sale price when expressed in United States dollars. According to the Treasury Department file received by the Commission in this investigation, the small dumping margins (2.0 to 4.0 percent) resulted primarily from an unfavorable currency exchange rate which existed from May through October 1974.

Application of "technical dumping" to the facts in this case. The LTFV imports are made to the same specifications (e.g., wire and mesh size, thickness in vinyl coating) as the domestically produced vinyl clad fence fabric. In addition, the LTFV imports have been selling in the same market served by the domestic producers and, in some instances, sales have been made to the same domestic distributors. The imports, however, have not had an anticompetitive price advantage over the prices of articles sold by U.S. producers in the domestic market. In fact, during the period of the Treasury Department's investigation the LTFV imported vinyl clad fence fabric was sold consistently at delivered prices equal to or higher than comparable vinyl clad fence fabric sold by domestic producers. Such LTFV sales therefore do not fall within the ambit of discriminatory sales which might adversely affect domestic competition and thereby cause injury to an industry in the United States within the meaning of the Antidumping Act, 1921, as amended.

Conclusion. Based on the facts developed during this investigation, we have concluded this clearly is a case involving technical dumping; that is, the LTFV imports were sold in the U.S. market at prices equal to or exceeding prices paid for comparable domestic merchandise. Such sales are not anticompetitive, but, as the Senate Finance Committee has pointed out, they are "procompetitive in effect."

Therefore, we concur with our colleagues in the determination that there is no injury or likelihood of injury to an industry in the United States by reason of LTFV sales of vinyl clad fence fabric from Canada.

By order of the Commission.

KENNETH R. MASON,
Secretary.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ECONOMICS

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name. Advisory Panel for Economics.
Date. November 21–22, 1975.
Time. 9:00 a.m. each day.
Place. Room 321, National Science Foundation, 1800 G Street NW., Washington, D.C.
Type of meeting. Closed.
Contact person. Dr. James H. Blackman, Program Director for Economics, Room 205, National Science Foundation, Washington, D.C. 20550, telephone 202/632–5968.
Purpose of Advisory Panel. To provide advice and recommendations concerning support for research in Economics.
Agenda. To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing. The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552 (b), (4), (5), and (6).
Authority to close meeting. The determination made on February 21, 1975, by the Director of the National Science Foundation pursuant to provisions of section 10(d) of Public Law 92–463.

GAIL A. MCHENRY,
Acting Committee Management Officer.

NATIONAL ENDOWMENT FOR THE ARTS AND THE HUMANITIES

FELLOWSHIP PANEL ADVISORY COMMITTEE

Meeting

OCTOBER 23, 1975.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463) notice is hereby given that a meeting of the Fellowships Panel will be held at Washington, D.C. on December 1, 8, 12, 15, 17, and 19, 1975, from 9 a.m. to 5:30 p.m.

The purpose of the meeting is to review Summer Stipend applications submitted to the National Endowment for the Humanities for 1976 summer grants.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 6 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call area code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

[FR Doc.75–29623 Filed 11–3–75;8:45 am]

NATIONAL MAGNET LABORATORY VISITING COMMITTEE

Meeting

In accordance with the Federal Advisory Committee Act, Public Law 92–463, the National Science Foundation announces the following meeting:

Name. National Magnet Laboratory Visiting Committee.
Date. November 20 and 21, 1975.
Time. 9:15 a.m. each day.
Place. Francis Bitter National Magnet Laboratory, 170 Albany Street, Cambridge, Massachusetts.
Type of meeting. Part open—Open on November 20; closed on November 21.
Contact person. Dr. William T. Oosterhuis, Staff Association for Special Projects, Division of Materials Research, Room 408, National Science Foundation, Washington, D.C. 20550, telephone (202) 632–7334.
Summary minutes—(Open Portion). May be obtained from the Committee Management Coordination Staff, Management Analysis Office, National Science Foundation, Rm. 248, Washington, D.C. 20550.
Purpose of Committee. To provide the Foundation with specific guidance as to how the National Magnet Laboratory may best serve as a national facility responsive to the needs of the scientific community.

NOVEMBER 20—OPEN

Agenda. Welcoming Remarks—Vice President for Research, Massachusetts Institute for Technology (MIT). Introduction—Director, National Magnet Laboratory (NML). Current Program and Future Plans of the Magnet Research and Development Groups—NML Staff Member.
Singlet-Triplet Anticrossings in the He, H_2 and D_2—Representatives from the Bell Laboratories.
Shear Viscosities of Liquid Crystals—Professor, University of Rhode Island.
Alcator—NML Staff Member.
Nuclear Magnetic Resonance Program—NML Staff Member.
General Tour (primarily for new members)—Vice President for Research, MIT.
Raman Scattering—NML Staff Members.
MHD Disk Generator—Professor, Dept. of Aeronautics and Astronautics, MIT.
Recent Spin—Polarized Tunneling Measurements in Superconductors and Ferromagnets—NML Staff Member.
Electronic Properties of Active Sites of Metalloprotein Synthetic Analogs—NML Staff Member.
Recent Studies of the Magnetic Fields of the Human Body—NML Staff Member.
Tour with Demonstrations and Discussions at Scheduled Stops.

NOVEMBER 21—CLOSED

Evaluate the management and the programs of the Laboratory.
Reason for closing. The committee will be reviewing, discussing, and evaluating the management operations and scientific programs of the Laboratory. This review concerns matters which fall within the exemptions of 5 U.S.C. 552(b), (4), (5), and (6).
Authority to close meeting. The determination made in February 21, 1975, by the Director of the National Science Foundation pursuant to provisions of section 10(d) of Pub. L. 92–463.

GAIL A. MCHENRY,
Acting Committee Management Officer.

OCTOBER 29, 1975.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON REGULATORY GUIDES

Change of Agenda

Discussion of Regulatory Guide 1.96, Rev. 1, "Design of Main Steam Isolation Valve Leakage Control Systems for Boiling Water Nuclear Power Plants," at the November 5, 1975 meeting of the ACRS Regulatory Guides Subcommittee has been postponed. This was listed as Item No. 3 on the agenda for that portion of the above meeting which will be open to the public, published at 40 FR 49156, October 21, 1975.

All other matters pertaining to the meeting remain unchanged.

Dated: October 30, 1975.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc.75-29552 Filed 11-3-75;8:45 am]

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK AND NIAGARA MOHAWK POWER CORP.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. DPR-59 issued to the Power Authority of the State of New York and Niagara Mohawk Power Corporation, located in Scriba, Oswego County, New York. The amendment is effective as of its date of issuance.

This amendment authorizes 25 miscellaneous Appendix A and two Appendix B Technical Specification changes. The Appendix A changes relate to the correction of typographical errors, clarification of the specifications, and make the specifications consist with the Final Safety Analysis Report (FSAR). The Appendix B changes establish consistency in the Site Radiological Environmental Monitoring Program for the two plants on the site (Facility License No. DPR-59 and License No. DPR-63), and achieve consistency with Appendix A in the administrative controls of the Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated March 13, 1975, (2) Amendment No. 3 to License No. DPR-59, with Change No. 3 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Oswego City Library, 120 East Second Street, Oswego, New York.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 24th, October 1975.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Reactor Licensing.

[FR Doc.75-29549 Filed 11-3-75;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 4.9, Revision 1, "Preparation of Environmental Reports for Commercial Uranium Enrichment Facilities," provides assistance to applicants for the development of environmental reports dealing with the construction, operation, and decommissioning of uranium enrichment facilities. This revision reflects comments received from the public.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 4 Regulatory Guides currently being developed include the following:

Cooling Water System—Protection of Aquatic Organisms (Entrapment).
Cooling Water System—Protection of Aquatic Organisms (Entrainment).
Cooling Water System—Protection of Aquatic Organisms (Cold Shock).
Effluent Monitoring Guide for UF$_6$ Conversion Facilities.
Effluent Monitoring Guide for Uranium Mills.
Effluent Monitoring Guide for Fuel Fabrication Facilities.
Effluent Monitoring Guide for Irradiated Fuel Reprocessing.
Analytical Models for Estimating Radioisotope Concentration in Different Water Bodies.
Methods for Estimating Atmospheric Dispersion of Gaseous Effluents from Routine Releases.
Calculation of Releases of Radioactive Materials in Liquid and Gaseous Effluents from Boiling Water Reactors.
Calculation of Releases of Radioactive Materials in Liquid and Gaseous Effluents from Pressurized Water Reactors.
Calculation of Annual Average Doses to Man from Routine Releases of Reactor Effluents for the Purpose of Implementing Appendix I.
Land Use Assessment—Agriculture.
Nuclear Power Stations—Guide to Terrestrial Studies.
Preparation of Early Site Review Reports for Nuclear Power Stations.
Assessment of Environmental Impacts of Renewals and Amendments of Licenses for Nuclear Fuel Cycle Facilities.
Environmental Technical Specifications for Nuclear Power Plants.

(5 U.S.C. 552(a))

Dated at Rockville, Md., this 28th day of October 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

[Docket No. 50-244]

ROCHESTER GAS & ELECTRIC CORP.

Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-18 issued to Rochester Gas & Electric Corporation (the licensee), for operation of the R. E. Ginna Nuclear Power Plant, located in Wayne County, New York.

In accordance with the licensee's application for a license amendment dated September 22, 1975, the amendment would increase the shutdown margin requirements in the Technical Specifications for certain conditions of reactor operation. This increase is the result of recent reanalyses of the main steam line break accident. The licensee has committed to use the most restrictive of the proposed shutdown margin requirements for all operating conditions until the NRC review of this application and the resulting amendment are completed.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By December 4, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Arvin E. Upton, Esquire, LeBoeuf, Lamb, Leiby & MacRae, 1757 N Street, NW., Washington, D.C. 20036, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated September 22, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Lyons Public Library, 67 Canal Street, Lyons, New York 14489 and the Rochester Public Library, 115 South Avenue, Rochester, New York 14627. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 23d day of October 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[FR Doc.75-29473 Filed 11-3-75;8:45 am]

[Dockets Nos. 50-266, 50-301]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Proposed Issuance of Amendments to Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating Licenses Nos. DPR-24 and DPR-27 issued to Wisconsin Electric Power Company and Wisconsin Michigan Power Company (the licensees), for operation of the Point Beach Nuclear Plant, Units 1 and 2, located in the Town of Two Creeks, Manitowoc County, Wisconsin.

The amendment would revise the provisions in the Technical Specifications related to maintaining steam generator tube integrity by changing the primary to secondary leak rate limits and by adding steam generator tube surveillance requirements in accordance with the licensee's applications for amendments dated August 30, 1974 and August 14, 1975.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By December 4, 1975 licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendments to the subject facility operating licenses. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Bruce W. Churchill, Esq., Shaw, Pittman, Potts & Trowbridge, 910 17th Street, NW., Washington, D.C. 20006, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the applications for amendments dated August 30, 1974 and August 14, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Manitowoc Public Library, 808 Hamilton Street, Manitowoc, Wisconsin 54220. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 29th day of October 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

Filing of Application for an Order Declaring That Company Has Ceased To Be an Investment Company

OCTOBER 29, 1975.

Notice is hereby given that Capital Investors Corporation, Capital Building, Front & Ryman Streets, Missoula, Montana 59801; ("Applicant"), a Montana corporation which is a closed-end, nondiversified, management investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application on August 14, 1975, and an admendment thereto on October 15, 1975, for an order of the Commission declaring that the Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that it was licensed on October 12, 1962 by the Small Business Administration ("SBA") as a small business investment company ("SBIC") under the Small Business Investment Act of 1958; and that the surrender of said license was accepted by the SBA on July 8, 1975.

Applicant further states that, on April 25, 1975, it and Western Venture Resources, Inc. ("Western"), a privately owned SBIC, entered into a Purchase Agreement ("Agreement") whereby Applicant would sell substantially all of its assets to Western and Western would assume substantially all of the liabilities of the Applicant. Applicant represents that its shareholders approved the Agreement at a Special Meeting on May 20, 1975, and voted to dissolve the corporation on June 17, 1975.

Applicant further represents that it has filed a notice of intent to dissolve with the Secretary of State of Montana and that the filing of the final Articles of Dissolution is contingent upon receipt of a tax clearance certificate from the Department of Revenue, State of Montana. Applicant states that pending final dissolution, it will hold only cash proceeds and certain accounts receivable until the distribution of these proceeds to the shareholders at which time its corporate existence will terminate. Applicant represents that any net proceeds remaining after winding-up its affairs will be distributed to shareholders.

Applicant states that it has ceased all investment activity and no longer proposes to engage in the business of investing, re-investing or trading in securities. Applicant further states that its outstanding securities, other than short-term paper, are currently held beneficially by less than 100 persons, that no corporate holder of its securities has invested more than five percent (5 percent) of its assets in said securities, and that it is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 24, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being

served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

CENTURY PETROLEUM CORP.

Temporary Suspension Order; Opportunity for Hearing

In the matter of the following offering sheet(s) filed by Century Petroleum Corporation:

(File No. 20-2093A1) on May 14, 1975 covering non-producing working interests in the Century Petroleum Corporation—Century No. 1-Adolph Kuffman.

(File No. 20-2093A3) on July 10, 1975 covering non-producing working interests in the Century Petroleum Corporation—Century No. 3-Earl L. Brown.

(File No. 20-2093A4) on July 22, 1975 covering non-producing working interests in the Century Petroleum Corporation—Century No. 4-Earl L. Brown.

(File No. 20-2093A5) on August 15, 1975 covering non-producing working interests in the Century Petroleum Corporation—Century No. 5-Earl L. Brown.

(File No. 20-2093A6) on September 22, 1975 covering non-producing working interests in the Century Petroleum Corporation—Century No. 6-Vance N. Harms.

Century Petroleum Corporation having filed the above offering sheets with the Securities and Exchange Commission pursuant to Regulation B of the general rules and regulations under the Securities Act of 1933, as amended, for the purpose of obtaining an exemption from registration with respect to a proposed public offering of securities as specified in said offering sheet; and

The Commission having reason to believe, after filing of the offering sheets that:

1. No exemption is available for this offering under Regulation B according to Rule 306(a)(2) (17 CFR 230.306(a)(2)) because William J. Briggs, now president of Century Petroleum Corporation, was restrained and enjoined permanently on February 14, 1975, by the Supreme Court of the State of New York, in and for the County of New York, from offering or selling securities within and from the State of New York, including securities in the form of working interests in oil leases, without complying with Article 23-A of the General Business Law; and further was restrained and enjoined from violating the provisions of Article 23-A of the General Business Law of the State of New York.

2. No exemption is available for this offering under Regulation B because the offering sheet used failed to comply with Rules 330 (a) and (b) of Regulation B (17 CFR 230.330 (a) and (b)) by failing to disclose that on February 14, 1975, William J. Briggs, now president of Century Petroleum Corporation, was restrained and enjoined permanently by the Supreme Court of the State of New York, in and for the County of New York, from offering or selling securities within and from the State of New York, including securities in the form of working interests in oil leases without complying with Article 23-A of the General Business Law; and further was restrained and enjoined from violating the provisions of Article 23-A of the General Business Law of the State of New York.

It is ordered, Pursuant to Rule 334(a) of the general rules and regulations promulgated by the Commission under the Securities Act of 1933, as amended, that the exemption available pursuant to Regulation B under section 3(b) of said Act with respect to said offering sheet be, and hereby is, temporarily suspended pending a final hearing thereon with respect to the objections hereinbefore enumerated.

It is further ordered, That each person, on whose behalf said offering sheet was filed, be, and hereby is, given notice that each such person is entitled to a hearing before the Commission, or an officer or officers of, and designated by, the Commission, for the purpose of determining such matters; that upon receipt of a written request from such a person within thirty days after the date of this order the Commission will, for the purpose of determining such matters, set the matter for hearing at a place to be designated by the Commission, within thirty days after receipt of such request; and that notice of the time and place of such hearing will thereupon be promptly given by the Commission.

Notice is directed to Rule 336(b) which provides that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that if such a person does request a hearing pursuant to Rule 336 of Regulation B that such person shall file an answer to the allegations contained in this order within 15 days of requesting such a hearing.

Notice is directed to Rule 7(c) of the Commission's rules of practice which provides that any allegation not denied shall be deemed to be admitted.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

and Exchange Commission pursuant to Regulation B of the general rules and regulations under the Securities Act of 1933, as amended, for the purpose of obtaining an exemption from registration with respect to a proposed public offering of securities as specified in said offering sheet; and

The Commission having reason to believe, after filing of the offering sheets that:

1. No exemption is available for this offering under Regulation B according to Rule 306(a)(2) (17 CFR 230.306(a)(2)) because Dallas Oil & Gas, Inc., and Ray Griffin, president of Dallas Oil & Gas, Inc. were restrained and enjoined permanently on February 14, 1975, by the Supreme Court of the State of New York, in and for the County of New York, from offering or selling securities within and from the State of New York, including securities in the form of working interests in oil leases, without complying with Article 23–A of the General Business Law; and further were restrained and enjoined from violating the provisions of Article 23–A of the General Business Law of the State of New York.

2. No exemption is available for this offering under Regulation B because the offering sheet used failed to comply with Rules 330(a) and 330(b) of Regulation B (17 CFR 230.330(a) and (b)) by failing to disclose that on February 14, 1975, Dallas Oil & Gas, Inc. and Ray Griffin, president of Dallas Oil & Gas, Inc., were restrained and enjoined permanently by the Supreme Court of the State of New York, in and for the County of New York, from offering or selling securities within and from the State of New York, including securities in the form of working interests in oil leases, without complying with Article 23–A of the General Business Law; and further were restrained and enjoined from violating the provisions of Article 23–A of the General Business Law of the State of New York.

It is ordered, Pursuant to Rule 334(a) of the general rules and regulations promulgated by the Commission under the Securities Act of 1933, as amended, that the exemption available pursuant to Regulation B under section 3(b) of said Act with respect to said offering sheet be, and hereby is, temporarily suspended pending a final hearing thereon with respect to the objections hereinbefore enumerated.

It is further ordered, That each person, on whose behalf said offering sheet was filed, be and hereby is, given notice that each such person is entitled to a hearing before the Commission, or an officer or officers of, and designated by, the Commission, for the purpose of determining such matters; that upon receipt of a written request from such a person within 30 days after the date of this order from the Commission will, for the purpose of determining such matters, set the matter for hearing at a place to be designated by the Commission, within 30 days after receipt of such request; and that notice of the time and place of such hearing will thereupon be promptly given by the Commission.

Notice is directed to Rule 336(b) which provides that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that if such a person does request a hearing pursuant to Rule 336 of Regulation B that such person shall file an answer to the allegations contained in this order within 15 days of requesting such a hearing.

Notice is directed to Rule 7(c) of the Commission's rules of practice which provides that any allegation not denied shall be deemed to be admitted.

By the Commission.

[811–2384]

DELTA CAPITAL CORP.

Proposal To Terminate Registration

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act") to declare by order upon its own motion that Delta Capital Corporation, c/o Noah E. Hurley, 312 Ellison Road, Sommerset, New Jersey 08873 ("Delta"), registered under the Act as an open-end, diversified management investment company has ceased to be an investment company as defined in the Act.

Materials in the Commission's records indicate that Delta was organized as a Delaware corporation on February 21, 1973. Delta filed a Notification of Registration on Form N–8A on June 11, 1973 and a Registration Statement on Form N–8B on July 9, 1973.

Materials in the Commission's records indicate that none of Delta's securities have ever been offered or sold to the public and that Delta never became an operating investment company. Materials in the Commission's records also indicate that Delta has been dissolved as a corporation by the State of Delaware under the laws of which it was organized.

Section 8(f) of the Act provides, in pertinent part, that when the Commission on its own motion, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 24, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Delta at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

KHMER REPUBLIC AND VIETNAM (SOUTH)

Notice of Intention To Terminate Designations of Certain Countries as Beneficiary Developing Countries for Purposes of the Generalized System of Preferences

Notice is hereby given on behalf of the President of his intention to terminate the status of the Khmer Republic and Vietnam (South) as beneficiary developing countries for purposes of the Generalized System of Preferences under Title V of the Trade Act of 1974 (19 U.S.C. 2461–2465), and to issue an Executive order amending Executive Order 11844 of March 24, 1975 by deleting from the list of beneficiary developing countries designated therein: "Khmer Republic" and "Vietnam (South)". The House of Representatives and the Senate have been notified of this intention.

Section 504(b) of the Trade Act provides that the President shall "withdraw, or suspend the designation of any country as a beneficiary developing country if, after such designation, he determines that as the result of changed circumstances such country would be barred from designation as a beneficiary developing country under section 502(b)." It has been determined that the Khmer Republic and Vietnam (South) no longer meet the eligibility criteria set forth in section 502(b) of the Trade Act, particularly section 502(b)(1), which denies eligibility "if such country is a communist country, unless (A) the products of such country receive nondiscriminatory treatment, (B) such country is a contracting party to the general agreement on tariffs and trade and a member of the international monetary fund, and (C) such country is not dominated or controlled by international communism."

An additional public announcement of the contents of this notice will be made by my office, in view of the fact that the United States does not maintain diplomatic relations or other communications with the Khmer Republic and Vietnam (South).

FREDERICK B. DENT,
Ambassador.

VETERANS ADMINISTRATION

SPECIAL MEDICAL ADVISORY GROUP

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92–463 that a meeting of the Special Medical Advisory Group, authorized by 38 U.S.C. 4112(a), will be held in the Administrator's Conference Room at the Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, D.C., on November 24 and 25, 1975. The purpose of the Special Medical Advisory Group is to advise the Administrator and the Chief Medical Director relative to the care and treatment of disabled veterans, and other matters pertinent to the Veterans Administration's Department of Medicine and Surgery. At the forthcoming meeting, committee members will review and discuss various aspects of the Veterans Administration's health care system, including programs of patient care, medical and prosthetics research, and health manpower education and training.

The general session will convene at 9 a.m. on November 24, and break into subcommittee meetings following the noon hour. The November 25 session will commence at 8:30 a.m., and will also be open to the public (up to seating capacity of the room) until 11 a.m. Due to space limitations, it will be necessary for those wishing to attend to contact Mr. Robert E. Lindsey, Committee Management Officer for the Special Medical Advisory Group, Room 808 Veterans Administration Central Office, prior to 4:30 p.m., November 20, 1975. (Phone 202–389–2588)

Commencing at 11 a.m., November 25 and until adjournment, the meeting will be closed for a report and recommendations of the Subcommittee on Academic Affairs, followed by an executive session of the Special Medical Advisory Group. The Subcommittee reviews grant applications and makes recommendations essential in the decision-making role of the agency. The closed portion of the meeting involve: discussion, examination, reference to, and oral review of site visits, staff and consultant critiques of grant applications, and similar documents which are exempt from disclosure under the intragency memoranda exemption (exemption (5)) to section 552(b) of title 5, United States Code. The portion of the meeting which neces-

Occupational Safety and Health Administration

[Dockets SCP 7, 8]

STANDARDS COMPLETION PROJECT

Availability of Draft Technical Standards

On March 18, 1974, the Assistant Secretary of Labor for Occupational Safety and Health announced the joint OSHA/NIOSH Standards Completion Project. The purpose of the project is to issue completed standards for all of the toxic materials listed in Tables Z-1, Z-2, and Z-3 of 29 CFR 1910.1000 (formerly Tables G-1, G-2, and G-3 of 29 CFR 1910.93), with the exception of some substances which are or will be the subjects of NIOSH Criteria Documents. These exceptions will be the subject of separate rulemaking proceedings, outside of the Standards Completion Project.

Section 1910.1000 lists exposure limits for certain hazardous or toxic substances. The new standards will establish requirements for monitoring employee exposure, medical surveillance, methods of compliance, handling and use of each substance, employee training, recordkeeping, sanitation, and housekeeping, among other things. In addition, the proposals are also designed to enable employers to better understand and comply with existing OSHA standards. The exposure limits listed in § 1910.1000 are not at issue in the proposals, and no changes to these limits will be proposed or made in the standards issued as part of the Standards Completion Project.

Drafts of the technical content of proposed standards for the following substances, designated Set G, Standards Completion Project, have been prepared:

butadiene
dioxane
heptane
methylcyclohexane
naphtha (coaltar)
octane
pentane
petroleum distillates (naphtha)
propylene dichloride
turpentine

Also prepared are drafts of the technical content of proposed standards for the group of substance designated Set H. These substances are:

Benzyl Chloride
Bromoform
Chlorobromomethane
1,2-Dichloroethylene
Methyl Iodide
Ethyl Bromide
Difluorodibromomethane
Hexachloronaphthalene

These draft technical standards reflect only the technical intent of NIOSH and OSHA and do not necessarily contain the specific language which will appear in the proposed standards. Copies of the draft technical standards on the above listed substances are available for inspection or for purchase, at the standard copying fee, at the Occupational Safety and Health Administration, U.S. Department of Labor, Room N3620, 200 Constitution Avenue, NW., Washington, D.C. 20210. Copies are also available at any of the following OSHA Regional and Area Offices:

U.S. Department of HEW, National Institute for Occupational Safety and Health, 300 South Wacker Drive, Chicago, Illinois 60607.

It is anticipated that standards for the above listed substances will be proposed by OSHA in the near future. At that time, a formal comment period will be provided for the proposals. However, interested persons wishing to submit written data, views, and arguments on the draft technical standards at this time may submit them to the Docket Officer, Standards Completion Project, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3620, 200 Constitution Avenue NW., Washington, D.C. 20210. Comments on Set G should be directed to Docket SCP–7. Those for Set H should be directed to Docket SCP–8. The communications will be available for public inspection and copying at the above location. Information submitted in response to the Notice of Intent to Prepare an Environmental Impact Statement, published in the FEDERAL REGISTER on September 20, 1974 (39 FR 33943), need not be resubmitted.

Signed at Washington, D.C., this 30th day of October 1975.

JOHN T. DUNLOP,
Secretary of Labor.

Office of Employee Benefit Security

ANNUAL RETURN/REPORT FORMS

Extension of Comment Period

In the FEDERAL REGISTER of September 30, 1975, (40 FR 45134) the Department of Labor and the Department of the Treasury, Internal Revenue Service, published the proposed annual return/report forms to be filed by a plan administrator of an employee pension or welfare benefit plan or an employer as required by section 104 of the Employee Retirement Income Security Act of 1974 and section 6058(a) of the Internal Revenue Code of 1954. As a result of the large number of comments received on the forms, including numerous requests for an extension of the comment period, and further consideration of some of the issues raised in the forms and instructions, the period for commenting on the proposed forms is hereby extended. The notice accompanying the publication of the proposed forms provided for a comment period closing on October 30, 1975; however, this period is now extended until November 19, 1975.

In addition to recommendations regarding the proposed forms and instructions, the Department of Labor is soliciting comments on an additional issue. In light of further consideration of the reporting requirements for small plans, the Department of Labor is considering requiring that all plans regardless of size (contrary to the instructions printed with the proposed forms), engage an independent qualified public accountant to conduct an audit of the plan's books and records and prepare an opinion as required under section 103(a)(3)(A) of the Act.

Copies of the FEDERAL REGISTER issue containing the proposed forms may be obtained by writing or calling Distribution Manager A:FM:P, Room 1237, Internal Revenue, Building, 1111 Constitution Avenue NW., Washington, D.C. 20224, Telephone (202) 964–3132, or Public Information Office, Room N5641, New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C. 20216, Telephone (202) 523–7408.

Three copies of any comments or recommendations should be sent to the Chairman, Tax Forms Coordinating Committee, Room 1515, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

Issued in Washington, D.C., this 31st day of October 1975.

JAMES D. HUTCHINSON,
Administrator for Pension and Welfare Benefit Programs.

ALVIN D. LURIE,
Assistant Commissioner (Employee Plans and Exempt Organizations), Internal Revenue Service.

Office of the Secretary

[TA–W–119]

ANACONDA CO., HASTINGS-ON-HUDSON, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–119: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers formerly producing copper wire and cable at the Hastings-on-Hudson, New York plant of the Wire and Cable Division, Anaconda Company, New York, New York.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40887) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Anaconda Company, its customers, U.S. International Trade Commission, the Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 36.8 percent in the first half of 1975 compared to the like period in 1974. Employment of production workers ceased in June 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Hastings-on-Hudson plant declined 38.5 percent in the first half of 1975 compared to the first half of 1974. Sales declined 64.4 percent in the first half of 1975 compared to the first half of 1974. Production at the plant ceased in June 1975.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of insulated power wire and cable like or directly competitive with that produced at the Hastings-on-Hudson plant have decreased, relative to domestic consumption and production, from 15.0 percent and 17.2 percent respectively in 1970 to 4.3 percent and 4.4 percent respectively in 1974. The ratios of imports of all insulated wire and cable to domestic production and consumption declined from less than 3 percent in 1970 to less than 2 percent in 1974.

Mayor customers of the Hastings-on-Hudson plant, primarily electric utility companies, reduced purchases of the major product of that plant, paper-insulated power cable, due to adverse domestic economic conditions. No customers transferred purchases of copper wire and cable from domestic manufacturers to foreign producers.

When sales of the major products manufactured at Hastings-on-Hudson declined due to adverse domestic economic conditions, Anaconda Company closed that plant, ceased production of major product lines of power cable, and transferred remaining product lines to other domestic facilities.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with copper wire and cable produced at the Hastings-on-Hudson plant of the Wire and Cable Division, Anaconda Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 24th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc.75–29577 Filed 11–3–75;8:45 am]

[TA–W–123]

CLAROSTAT MANUFACTURING CO., ORANGE, VA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–123; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on that date which was filed by the International Union of Electrical Radio and Machine Workers on behalf of workers formerly producing fixed and variable resistors at the Orange, Virginia plant of the Clarostat Manufacturing Company of Dover, New Hampshire.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40887) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Clarostat Manufacturing Company, its customers, the Department of Comerce, U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

A significant number or proportion of the workers at the Orange, Virginia plant of Clarostat Manufacturing Company became totally or partially separated in the fourth quarter of 1974 and in the first half of 1975. Employment declined 41 percent in the fourth quarter of 1974 compared to the same period in 1973. Employment declined 51 percent in the first quarter of 1975 compared to the same period in 1974. The plant closed in April 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production of fixed and variable resistors at the Orange, Virginia plant declined 13 percent and 61 percent, respectively from 1973 to 1974. Production of fixed and variable resistors declined 37 percent and 71 percent, respectively in the first quarter of 1975 compared to the first quarter of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at the Clarostat Manufacturing Company's Orange, Virginia plant increased in recent years. In 1975 the Clarostat Manufacturing Company began importing electrical products like those made at Clarostat's Orange, Virginia facility.

Imports of fixed and variable wirewound resistors increased from 9.0 million units and 18.5 million units respectively, in 1973 to 18.0 million units and 47.0 million units, respectively in 1974.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in the production of fixed and variable wirewound resistors was caused by the increase of competitive imports and by the transfer of production from the Orange, Virginia plant to an offshore facility. The company closed its Orange, Virginia plant because it could not compete at a profitable level with imports. The company transferred its production of fixed and variable wirewound resistors offshore to reduce production costs and remain price-competitive with imports. Offshore production began in September 1974. Company imports were received beginning in April 1975 and increased through September 1975.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with those produced at the Orange, Virginia plant of the Clarostat Manufacturing Company were the major factor contributing importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All hourly, piecework, and salaried workers of the Clarostat Manufacturing Company's Orange, Virginia plant who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 24th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc.75–29579 Filed 11–3–75;8:45 am]

[TA–W–122]

KAY-TOWNES, INC., ROME, GA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–122: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed by the International Union of Radio, Electrical and Machine Workers on behalf of workers formerly producing antennas and antenna related components at the Romefi Georgia plant of Kay-Townes, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40889) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Kay-Townes, Incorporated, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

V 40 213 NOV 4 75 XUM

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 56 percent in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at the Rome plant of Kay-Townes, Incorporated declined 33 percent in the first half of 1975 compared to the first half of 1974. Production declined 57 percent in the first half of 1975 compared to the first half of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

A survey of domestic antenna producers and Kay-Townes major customers revealed that there are no known imports of antennas like or directly competitive with those produced by Kay-Townes, Inc.

Evidence developed in the Department's investigation indicates that separations at the Kay-Townes plant of workers producing antennas and antenna related components resulted from decreased orders due to depressed economic conditions. Over 90 percent of production at Kay-Townes consists of antennas and antenna related components.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with antennas produced at Kay-Townes, Incorporated did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 24th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-118]

JAYSON SHOE MANUFACTURING COMPANY, INC., BIRCH TREE, MO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-118; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed by workers formally producing infants and children's footwear at the Birch Tree, Missouri plant of Jayson Shoe Manufacturing Company, Inc., Clayton, Missouri.

The notice of investigation was published in the FEDERAL REGISTER (40 F.R. 40888) on September 4, 1975. No public hearings was requested and none was held.

In information upon which the determination was made was obtained principally from officials of Jayson Shoe Manufacturing Co., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers employed by Jayson Shoe declined 14 percent from 1973 to 1974 and declined 35 percent in the first 7 months of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales of footwear produced by Jayson Shoe declined 30 percent from 1973 to 1974 and declined 33 percent in the first 7 months of 1975 compared to the like period in 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with children's and misses' footwear, which represented approximately 90 percent of the firms' production, increased as a ratio to domestic consumption and production from 27.9 percent and 38.7 percent respectively in 1970 to 37.8 percent and 60.7 percent respectively in 1974.

The evidence developed in the Department's investigation indicates that increased import competition contributed importantly to the closing of the Birch Tree plant and the Jayson Shoe Manufacturing Company headquarters in Clayton, Missouri. Since 1972 several major customers reduced their purchases from Jayson Shoe and switched to lower-priced, more popularly styled imported shoes. The company ceased all production at its Birch Tree plant and closed the Clayton office because it could not compete at a profitable level with imports.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with children's and misses' footwear produced at the Birch Tree plant of Jayson Shoe Manufacturing Co., Inc. contributed importantly to the total or partial separation of the workers of that plant and of the company's headquarters staff. In accordance with the provisions of the Act, I make the following certification:

All hourly and piecework workers engaged in employment related to the production of footwear at the Birch Tree, Missouri plant of Jayson Shoe Manufacturing Company, Incorporated who became totally or partially separated from employment on or after October 3, 1974 and all hourly and salaried workers at the Clayton, Missouri headquarters of Jayson Shoe Manufacturing Company's engaged in support activities related to the production of footwear at the Birch Tree plant who became totally or partially separated from employment on or after March 29, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 24th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-121]

MURATA MANUFACTURING CORP., ROCKMART, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-121; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers formerly producing ceramic capacitors at the Rockmart, Georgia plant of Murata Manufacturing Corporation.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40889) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Murata Manufacturing Corporation, its customers, industry analysts, information and publications of the U.S. Department of Commerce, the U.S. International Trade Commission, the Electronics Industry Association, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 13 percent in the last half of 1974 compared to the like period in 1973. The average number of production workers declined 74 percent in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at the Rockmart plant of Murata Manufacturing Corporation declined 32 percent by quantity in the fourth quarter of 1974 compared to the third quarter of 1974. Production declined 55 percent by quantity in the first half of 1975 compared to the first half of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at the Rockmart plant increased from 1,021 million units in 1973 to 1,110 million units in 1974. In the context of declining demand for fixed ceramic capacitors that developed in 1974, imports which sold at a substantially lower price than domestic output increased their share of the U.S. market. The ratios of imports to domestic production and consumption increased from 38.6 percent and 28.4 percent, respectively in 1973 to 50.9 percent and 34.5 percent, respectively in 1974.

Company imports in the third quarter of 1974 comprised 51 percent of total Murata capacitor supplies in the United States. In the first and second quarters of 1975 imports increased to 69 percent and 82 percent, respectively of total Murata capacitor supplies in the United States.

The evidence developed by the Department's investigation indicates that the separation of workers engaged in employment related to the production of fixed ceramic capacitors was caused by the increase of competitive imports.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with fixed ceramic capacitors produced at the Rockmart plant contributed importantly to the total or partial separation of the workers of that plant. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than 6 months before April 3, 1975, the effective date of the new program. In accordance with the provisions of the Act, I make the following certification:

All hourly and salaried workers engaged in employment related to the production of fixed ceramic capacitors at the Rockmart, Georgia plant of Murata Manufacturing Corporation who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 23d day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

INTERSTATE COMMERCE COMMISSION

[Notice 905]

ASSIGNMENT OF HEARINGS

OCTOBER 30, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-F-12343, National Machinery Haulers, Inc.—Purchase—Larry L. Fenner Transport, Inc. and MC 140504 National Machinery Haulers, Inc., now assigned November 4, 1975 is canceled and the application is dismissed.

MC 113362 Sub 283, Ellsworth Freight Lines, Inc., now assigned November 4, 1975 at New York, New York, is canceled and the application is dismissed.

F.D. 28008, Chicago, Milwaukee, St. Paul & Pacific Railroad Company—Discontinuance of Train Nos. 2118 and 2125—Between Walworth, Wisconsin and Solon Mills, Illinois, now being assigned December 9, 1975 (2 days) at Chicago, Illinois and continued to December 11, 1975 (8:00 P.M. Local Time) at Walworth, Wisconsin; in hearing rooms to be designated later.

MC 110563 Sub 151, Coldway Food Express, Inc.; MC 114273 Sub 231, CRST, Inc.; MC 114284 Sub 65, Fox Smythe Transportation Co., Inc.; MC 117815 Sub 239, Pulley Freight Lines, Inc.; MC 118142 Sub 77, M. Bruenger & Co., Inc.; MC 118178 Sub 22, Bill Meeker; MC 119741 Sub 51, Green Field Transport Company, Inc.; MC 127042 Sub 153, Hagen, Inc.; MC 127304 Sub 12, Clear Water Truck Company, Inc.; MC 134755 Subs 49, 50, 52, Charter Express, Inc.; and MC 136786 Sub 73, Robco Transportation, Inc., now assigned November 3, 1975 at Wichita, Kansas, will be held in *Room 406, Bankruptcy Courtroom, Federal Building, 3rd and Market Streets*, instead of at the *Internal Revenue Service Building, Rooms 118 & 120, South Main St.*

[SEAL] ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATION FOR RELIEF

OCTOBER 30, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before November 19, 1975.

FSA No. 43068—*Insulating Material from Fruita, Colorado.* Filed by Western

V 40 213 NOV 4 75 XUM

Trunk Line Committee, Agent, (No. A–2718), for interested rail carriers. Rates on insulating material, viz.: calcium silicante and fibre combined, in carloads, as described in the application, from Fruita, Colorado, to points in Illinois, Indiana, Kentucky, and western trunkline territory.

Grounds for relief—Market competition, short-line distance formula and grouping.

Tariff—Supplement 10 to Western Trunk Line Committee, Agent, tariff W–200–E, I.C.C. No. A–4936. Rates are published to become effective on November 28, 1975.

By the Commission.

[Notice 108]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

NOVEMBER 4, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before November 24, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75874. By order of October 7, 1975, the Motor Carrier Board approved the transfer to Michael L. Wherley, doing business as Leonard's Moving and Storage, York, Pa., of portion of Certificate No. MC 1540 issued July 27, 1965, to J. D. Leonard, Inc., York, Pa., authorizing the transportation of household goods, between York, Pa., and points within 25 miles thereof, on the one hand, and, on the other, points in Maryland, Delaware, New York, New Jersey, and the District of Columbia; and between York, Pa., and points within 25 miles thereof, other than Harrisburg and Lancaster, Pa., on the one hand, and, on the other, points in Virginia, West Virginia, Ohio, Michigan, Indiana, and Illinois. Christain V. Graff, 407 North Front St., Harrisburg, Pa. 17101, attorney for applicants.

No. MC–FC–75925. By order of October 29, 1975, the Motor Carrier Board approved the transfer to Nathan's Express Co., Inc., Providence, R.I., of Certificate No. MC 93422 (Sub-No. 2) issued May 8, 1952, to Nathan Slobodinsky, Hattie Rice, Executrix, D/B/A Nathan's Express, Providence, R. I., authorizing the transportation of cotton piece goods from Webster, Mass., to Providence, R.I. Leo J. Daily, Nolan & Daily, 70 Main St., Coventry, R.I. 02816, attorney for applicants.

No. MC–FC–76030. By order entered October 20, 1975, the Motor Carrier Board approved the transfer to Thomas Frank Keltner, doing business as Keltner Van and Storage Co., Lancaster, Calif., of the operating rights set forth in Certificate No. MC 135366, issued December 28, 1971, to Charles E. Postle, doing business as Rosamond Van & Storage, Rosamond, Calif., authorizing the transportation of used household goods, between specified points in California, subject to certain restrictions. Thomas F. Keltner, 44952 North Yucca Ave., Lancaster, Calif. 93534, for transferee and Charles Edwin Postle, 2828 Sierra Highway, Rosamond, Calif. 93560, for transferor.

No. MC–FC–76118. By order of October 29, 1975, the Motor Carrier Board approved the transfer to Lou Bole Carpet Carriers, Inc., Brooklyn, N.Y., of the operating rights in Certificate No. MC 138065 (Sub-No. 2) issued August 1, 1975, to Louis Bologna, doing business as Lou Bole Carpet Carriers, Brooklyn, N.Y., authorizing the transportation of floor covering, and materials, supplies, and equipment used in the installation thereof, except commodities in bulk, between New York, N.Y., on the one hand, and, on the other, points in Rockland and Westchester Counties, N.Y., Fairfield County, Conn., and a specified portion of New Jersey. Michael R. Werner, 2 West 45th Street, New York, N.Y. 10036, attorney for applicants.

[Notice 124]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 30, 1975.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 200 (Sub-No. 276TA), filed October 20, 1975. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Ave., Kansas City, Mo. 64106. Applicant's representative: Rodger J. Walsh, Suite 1200, Temple Bldg., 903 Grand Ave., Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except in bulk), from Buffalo and Geneseo, N.Y., to Crosby, Laredo, and Odessa, Tex.; and from Crosby, Tex., to Buffalo and Geneseo, N.Y., for 150 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Lucidol Division, Pennwalt Corporation, 1740 Military Road, Buffalo, N.Y. 14240. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, 600 Federal Bldg., 911 Walnut St., Kansas City, Mo. 64106.

No. MC 11727 (Sub-No. 7TA) (Correction), filed July 9, 1975, published in the FEDERAL REGISTER issue of July 25, 1975, and republished as corrected this issue. Applicant: JAMES H. RUSSELL, INC., 3 Rocky Hill Road, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bottles and accessories therefor*, from Cliffwood, N.J., to Merrimack, N.H., and from Cartaret and Jersey City, N.J. to Nashua and Merrimack, N.H., for 180 days. Supporting shipper: Midland Glass Company, Inc., P.O. Box 557, Cliffwood, N.J. 07721. Send protests to: Gerald H. Curry, District Supervisor, 187 Westminister St., Providence, R.I. 02903. The purpose of this republication is to correct the territorial description.

No. MC 87909 (Sub-No. 22TA), filed October 20, 1975. Applicant: ARROW MOTOR FREIGHT LINE, INC., 2707 Territorial Road, St. Paul, Minn. 55114. Applicant's representative: John P. Rhodes, 2125 Commercial St., Waterloo, Iowa 50704. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), over regular routes between Marshalltown, Iowa, Junctions Iowa Highways 14 and 175, and Eldora, Iowa, serving no intermediate points, from Marshalltown, Iowa over Iowa Highway 14 to junction Iowa Highway 175, thence over Iowa Highway 175 to Eldora, Iowa and return over the same route serving Marshalltown, Iowa in conjunction with carriers existing authorized operations, restricted to transportation of shipments interlined with Takin Bros. Freight Line, Inc., which have originated at or are destined to points outside Iowa, and to shipments originating in Marshalltown, Iowa destined to points outside Iowa presently served by carrier, in direct or interline service. (Purpose of this application is to allow carrier to interchange and originate shipments at Marshalltown, Iowa now exchanged with Takin Bros. Freight Line, Inc., at other points on its existing routes), for 180 days. Supporting shipper: Takin Bros. Freight Line, Inc., P.O. Box 5000, 2125 Commercial St., Waterloo, Iowa 50704. Send protests to: Raymond T. Jones, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Bldg., and U.S. Courthouse, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 107478 (Sub-No. 20TA), filed October 15, 1975. Applicant: OLD DOMINION FREIGHT LINE, P.O. Box 2006, High Point, N.C. 27261. Applicant's representative: Francis W. McInerny, 1000 16th St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) Agricultural *machinery and articles* used in the farming and forestry industries, from Tarboro, N.C., to points in North Dakota, South Dakota, Nebaska, Kansas, Oklahoma, Texas, Louisiana, Arkansas, Missouri, Minnesota, Wisconsin, Iowa, Illinois, Michigan, Indiana, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, West Virginia, Ohio, Pennsylvania, Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, Maine, and the District of Columbia, with no transportation from compensation on return except as otherwise authorized; and (b) *Materials* and *supplies* used in the manufacture of agricultural machinery and articles used in the farming or forestry industries, (except commodities in bulk, in tank vehicles), from points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Louisiana, Arkansas, Missouri, Iowa Minnesota, Wisconsin, Illinois, Michigan, Indiana, Kentucky, Tenessee, Mississippi, Alabama, Georgia, Florida, West Virginia, Ohio, Pennsylvania, Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, Maine, and the District of Columbia, to Tarboro, N.C. Restriction: Said authority is restricted to the transportation of shipments originating at or destined to the plantsites or storage facilities of the Long Manufacturing Company at Tarboro, N.C., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Long Manufacturing Company, Inc., P.O. Box 1139, Tarboro, N.C. 27886. Send protests to: Archie W. Andrews, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 26896, Raleigh, N.C. 27611.

No. MC 111401 (Sub-No. 453TA), filed October 20, 1975. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., Enid, Okla. 73701. Applicant's representative: Victor R. Comstock, P.O. Box 632, Enid, Okla. 73701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid caustic* soda, in bulk, from Houston, Tex., to Laredo, Tex., and Brownsville, Tex., for export into Mexico, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: ICC Solvent Chemical Sales Corp., E. M. Vogel, Regional Manager, 3701 Kirby St., 828, Houston, Tex. 77006. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240 Old Post Office Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 112822 (Sub-No. 391TA), filed October 20, 1975. Applicant: BRAY LINES INCORPORATED, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, cooking oils, animal litter, bleaching, cleaning, laundry and scouring compounds, and related materials and supplies*, when moving in mixed loads (except commodities in bulk), from the plantsite and facilities of The Clorox Company, at or near Houston, Tex., to the plantsites and facilities of The Clorox Company, at or near Atlanta, Ga., Kansas City, Kans., and Tampa, Fla., for 180 days. Supporting shipper: The Clorox Company, Beverly R. Mitchell, Asst. T.M., 7901 Oakport St., Oakland, Calif. 94621. Send protests to: Marie Spillars, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 114569 (Sub-No. 126TA), filed October 15, 1975. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: Herbert R. Nurick, P.O. Box 1166, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, equipment and machinery*, used in the manufacturing, production, distribution or sale of, and moving in mixed loads with, *confectionery, cocoa, chocolate, and products related thereto* (except in bulk), in vehicles equipped with mechanical refrigeration, from Derry Township, Dauphin County, Pa., to Oakdale, Calif., restricted to traffic originating at Derry Township, Dauphin County, Pa., and destined to the facilities of Hershey Foods Corporation, at Oakdale, Calif., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Hershey Foods Corporation, 19 E. Chocolate Ave., Hershey, Pa. 17033. Send protests to: Robert P. Amerine, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 114569 (Sub-No. 127TA), filed October 17, 1975. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: Stanley C. Geist (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motorcycles, recreational vehicles and machines, accessories and parts*, and (2) *Equipment, materials and supplies* used in the manufacture, distribution or sale of the commodities named in (1) above (except commodities in bulk), moving in both shipper or carrier-owned trailers, between Lincoln, Nebr., on the one hand, and, on the other, points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, Texas, Oklahoma, Kansas, South Dakota, North Dakota, Wyoming, Colorado, New Mexico, and Arizona, restricted to traffic moving from or to facilities utilized by Kawasaki Motors Corp., U.S.A., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kawasaki Motors Corp., U.S.A., 1062 McGaw Ave., Santa Ana, Calif. 92705. Send protests to: Robert P. Amerine, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 116063 (Sub-No. 141TA), filed October 20, 1975. Applicant: WESTERN-COMMERCIAL TRANSPORT, INC., 2929 West Fifth St., P.O. Box 270, Fort Worth, Tex. 76101. Applicant's representative: W. H. Cole (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils*, in bulk, in tank vehicles, from the facilities of Wilson & Co., Inc., at Oklahoma City, Okla., to Cincinnati, Ohio, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Wilson & Co., Inc., 4545 North Lincoln Blvd., Oklahoma City, Okla. 73105. Send protests to: H. C. Morrison, Sr., District Supervisor, Room 9A27, Federal Bldg., 819 Taylor St., Fort Worth, Tex 76102.

No. MC 116740 (Sub-No. 7TA), filed October 20, 1975. Applicant: LEE N. HICKOX, Box 134, Flora, Ill. 62839. Applicant's representative: Robert T. Law-

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT

Revocation, Redesignation and Issuance of Regulations

V 40 213 NOV 4 75 XUM

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER Y—INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT PROGRAMS

CONTRACTS AND GRANTS UNDER INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT; EDUCATION CONTRACTS UNDER JOHNSON-O'MALLEY ACT

Revocation, Redesignation and Issuance of Regulations

OCTOBER 24, 1975.

This notice is published in the exercise of rulemaking authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 40982 of the September 4, 1975, FEDERAL REGISTER (40 FR 40982), there was published a notice of proposed rulemaking to amend Chapter I of Title 25 of the Code of Federal Regulations by revoking Part 33 under Subchapter E and by adding new Parts 401 through 407 under a new Subchapter Y. The amendment was proposed under the authority in the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638; 88 Stat. 2203).

I. REDESIGNATION

Parts 401 through 407 are being redesignated upon the request of the Office of the FEDERAL REGISTER because these Parts were incorrectly numbered when published as proposed regulations. The Office of the Federal Register has assigned only Parts 1 through 299 to Chapter I of Title 25 of the Code of Federal Regulations which can be issued by the Bureau of Indian Affairs. The Parts beginning with 300 on up are assigned to other Chapters and other offices. Since the Bureau cannot use Part numbers 401 through 407, these Parts are redesignated as follows:

A. Part 401 is redesignated as Part 271. Sections 401.1 through 401.26 are redesignated as §§ 271.1 through 271.26. A new § 271.27 is added and § 401.27 is redesignated as § 271.28. Remaining §§ 401.31 through 401.84 are redesignated as §§ 271.31 through 271.84.

B. Part 402 is redesignated as Part 272. Sections 402.1 through 402.55 are redesignated as §§ 272.1 through 272.55.

C. Part 403 is redesignated as Part 273. Sections 403.1 through 403.44 are redesignated as §§ 273.1 through 273.44. Section 403.45 is deleted. Sections 403.46 through 403.54 are redesignated as §§ 273.45 through 273.53. Remaining §§ 403.61 through 403.73 are redesignated as §§ 273.61 through 273.73.

D. Part 404 is redesignated as Part 274. Sections 404.1 through 404.53 are redesignated as §§ 274.1 through 274.53.

E. Part 405 is redesignated as Part 275. Sections 405.1 through 405.4 are redesignated as §§ 275.1 through 275.4.

F. Part 406 is redesignated as Part 276. Sections 406.1 through 406.16 are redesignated as §§ 276.1 through 276.16.

G. Part 407 is redesignated as Part 277. Sections 407.1 through 407.53 are redesignated as §§ 277.1 through 277.53.

The purpose of the regulations is to implement the Indian Self-Determination and Education Assistance Act. (Pub. L. 93–638; 88 Stat. 2203). Part 271 (formerly Part 401) contains regulations under which tribal organizations, upon the request of an Indian tribe, can contract for the operation of all or parts of authorized Bureau of Indian Affairs programs for the benefit of Indians and Alaska Natives. Under Part 272 (formerly Part 402), tribal governing bodies may receive grants for strengthening tribal governments; planning, training, evaluation, or other activities to improve a tribe's capacity to contract; acquiring land for those purposes; and planning, designing, monitoring, and evaluating Federal programs serving the tribe or Alaska Native group.

Under Part 273 (formerly Part 403), a State, school district, or Indian corporation may contract for supplemental programs or operational support for education. The regulaitons in Part 273 replace the regulations in Part 33 and reflect the changes made to the Johnson-O'Malley Act (the Act of April 16, 1934 (48 Stat. 596), as amended by the Act of June 4, 1936 (49 Stat. 1458, 25 U.S.C. 452–456) by the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638; 88 Stat. 2203). Tribal organizations can contract for supplemental programs or operational support for education under Part 271 upon the request of an Indian tribe.

Part 274 (formerly Part 404) contains regulations under which tribal organizations may receive contracts or services for school construction for previously private schools that are controlled or managed by an Indian tribe or tribal organization.

Part 275 (formerly Part 406) informs the Indian tribes of ways in which they can obtain the use of Government employees in operating all or parts of Bureau of Indian Affairs programs under contract.

Part 276 (formerly Part 406) contains the administrative requirements for grants available under Part 272. These administrative requirements are basically the same as those in Federal Management Circular 74–7 which applies to the administration of grants with States and local governments. Federal Management Circular 74–7 is being revised to also apply to Indian tribes.

Under Part 277 (formerly Part 407), a State education agency or school district may contract for acquiring sites for, or for constructing, acquiring, or renovating, school facilities needed for educating Indians residing on an Indian reservation or other trust land.

The regulations have been developed in consultation with national, regional, tribal, and Alaska Native organizations served by the Bureau of Indian Affairs.

Based on two series of nationwide Indian and Alaska Native consultation sessions, the Bureau of Indian Affairs has attempted to spell out clearly the regulatory requirements necessary to implement Pub. L. 93–638. A concerted effort has been made to incorporate into the regulations three principal perspectives: The intent of Congress and the President as reflected in the legislation; the continuing Federal responsibility and trust relationships toward Indian tribes; and the expressed wishes and desires of tribal and Alaska Native leaders and members. The Bureau of Indian Affairs believes that such a posture has been achieved in these regulations.

Public Law 93–638 is a significant piece of legislation for Indian and Alaska Native people. The implementing regulations buttress the spirit and substance of this legislation by emphasizing the following elements: The role of tribal and Alaska Native governments as the key decision-makers in the self-determination process; the expanded powers and responsibilities of Indian Education Committees in public school assistance programs serving Indian and Alaska Native children; the recognition of the desirability of tribally-controlled and operated schools as an alternative to Federal and public learning systems; the availability of grants to strengthen tribal and Alaska Native governments and to enhance their eventual capability to operate a Bureau program under contract or to redesign a Bureau program for operation by the Bureau; and the use of Federal personnel for expanding the human resource base of tribal and Alaska Native governing bodies.

An important feature of the legislation is the change it makes in the contract relationship by directing the Bureau to contract a program to a tribal organization upon the request of a tribe unless the Bureau can make a finding to support declination in accordance with criteria set out in the Act. Unlike the ordinary relationship between the government and a prospective contractor, under this legislation the burden of proof is on the Bureau to show that the contract should not be entered into. Both the statute and the regulations stipulate, unless substantial evidence in support of a specific declination criteria exists, the Bureau will enter into the proposed contract.

The public was given until October 4, 1975, to submit written comments, suggestions, or objections regarding the proposed amendment. All comments received with respect to the proposed amendment were given due consideration.

II. CHANGES MADE DUE TO COMMENTS RECEIVED

As a result of comments received, the following changes in the regulations are made in addition to language changes for clarification:

A. PART 271:

1. The phrase "Revolving Funds for Loans; Indian Loan Guarantee and Insurance Funds" is added to § 271.2(d) to make it clear that programs and activities enumerated as line items in the Bureau's budget under those subactivities are considered a "business related function".

2. The definition of "Indian tribe" in § 271.2(i) is changed to make clear the involvement of the United States Government.

3. The definition of "previously private school" in § 271.2(j) is revised to conform to the definition in Part 273.

4. In § 271.2(p), the phrase "tribal governing body" is added for clarification.

5. Section 271.2(q) is changed to make it clear that the subactivity of "minerals, mining, irrigation, and power" is included in the definition of "Tribal governmental function."

6. Section 271.2(r) is revised to make it clear that intertribal organizations are considered "tribal organizations."

7. Section 271.2(s) is revised to clarify what is a "trust resource".

8. Section 271.2(t) is revised to strengthen the definition of "trust responsibility" and limit the definition to the purposes of the regulations.

9. Paragraphs (e) and (f) are added to § 271.3 to insure consultation with cognizant Indian organizations and give tribal groups an opportunity to suggest changes annually or at their own initiative.

10. An additional paragraph (h) is added to § 271.4 to make it clear that the eligibility criteria for services for individuals is not changed by the regulations, but that there is a means by which eligibility criteria may be waived.

11. Section 271.13 is changed to eliminate the need for an application form.

12. An additional paragraph (i) (5) is added to § 271.14 which requires staffing information to be given in the application.

13. An additional paragraph (b) (4) is added to § 271.15 to make it clear that applications for contracts that are not within the purview of § 271.1(a) may be declined.

14. Section 27115(c) (4) is revised to emphasize the positive effect of a tribal governing body's resolution on the matter of community support.

15. Section 271.15(c) (5) (ii) and § 271.15(c) (6) (i) (A) are revised to permit an agreement to develop a personnel system rather than requiring the system to be in place.

16. Sections 271.16(a), 271.20, 271.62, 271.82, 271.83 (a) and (b), and 271.84 are revised to recognize any limitations that a tribal governing body might include in its resolution requesting a contract.

17. A new paragraph (b) (3) is added to § 271.16 to permit Bureau records to be physically located at the contract site when copying such records is not practicable or feasible due to their volume.

18. Paragraph (c) (2) (vii) of § 271.18 is expanded to emphasize the rights of the tribal governing body to set limitations on tribal organizations by resolution.

19. Several changes are made in § 271.20 to permit recontracting applications to go directly to the Area Director, to permit more time to consider such applications and to make it clear that tribes may withdraw from multi-tribal contracts.

20. An additional paragraph (b) is added to § 271.21 which requires applications for contracts to be submitted at least 120 days in advance of the proposed contract starting date when the proposed contract may result in the displacement of Bureau personnel, to give the Bureau sufficient time to comply with appropriate Civil Service Commission requirements.

21. Section 271.22(e) (2) is revised to permit applicants to request additional time to respond to the Superintendent's written recommendations to avoid possible declination.

22. Section 271.23(b) (1) is revised to set a limit on the time the Bureau can take to negotiate a contract.

23. Section 271.23(b) (2) is revised to make both the time and the place of the meeting under that section at the mutual agreement of the parties.

24. Section 271.25(b) is revised to clarify when, how and to whom recommendations are to be furnished.

25. Section 271.25(d) (1) is revised to set a time limitation on negotiating a contract when an Area Director's recommendation to decline is not accepted by the Commissioner.

26. Former § 401.27 is redesignated as § 271.28 and a new § 271.27 is added to provide a mechanism for the Commissioner to extend technical assistance to tribes in the event of declination.

27. Section 271.32 is revised to more clearly delineate what are considered contractable trust resources programs or portions thereof.

28. Paragraphs (a) and (e) (1) of § 271.41 are revised to take into consideration modifications or supplements to Chapter 2000 of the Treasury Fiscal Requirements Manual that might occur and to permit letters of credit to be used when the advance payment requirement is $120,000 rather than $250,000.

29. Section 271.42(b) is revised to make it clear that when equipment is transferred to a contractor it must meet certain standards at the time of transfer.

30. An additional paragraph (d) is added to § 271.44 to make it clear that a tribal governing body can establish its own Indian preference requirements to the extent that such requirements are not inconsistent with the intent of the regulations.

31. Section 271.46 is revised to conform to the requirements of the Federal Records Act and to require that records used or created under the contract are returned to the Bureau for proper disposition.

32. Section 271.47(a) is revised to make it clear that examination of records are restricted to those that are contract-related.

33. Section 271.49(a) and (b) is revised to make reports, required thereunder, contract-related.

34. Section 271.49(a) (3) is revised to permit a tribal organization to submit its report when, in a multi-tribal situation, all of the tribes have not endorsed the report within a certain time.

35. Section 271.54(a) is revised to clarify what is included in the Bureau's direct operational costs and that such costs do not form a basis for reducing a tribal organization's allowable indirect costs.

36. Section 271.55(c) is revised to require savings under a retroceded contract to be carried over to provide services and benefits by the Bureau.

37. A new § 271.56 is added to conform the regulations to the requirements of the Privacy Act (5 U.S.C. 552a).

38. Section 271.65(c) is revised to provide for the appeal under this section to be sent to the Director, Office of Hearings and Appeals.

39. Section 271.72 is revised to permit tribes that so desire to retrocede from a multi-tribal contract, to delineate the conditions under which such retrocession may occur, and to state the rights of both the retroceding and non-retroceding tribes.

40. Section 271.73 is revised to permit a tribal governing body to submit its application to contract for a retroceded program directly to the Area Director or Commissioner, as appropriate.

41. Section 271.74 is revised to make it clear that when reassumption of a program is contemplated because of violation of rights, there must be a pattern or practice of such violation.

42. Section 271.74(b) and (c) are revised to emphasize a tribal organization's right to a hearing and decision and to provide for the Commissioner reviewing an Area Director's decision to reassume a contract before the reassumption can take place.

43. Section 271.75 is revised to require the Bureau to give a tribal organization an opportunity to present a plan to overcome deficiencies in contract performance before action to cancel can be taken and the right to have an Area Director's decision reviewed by the Commissioner before any proposed cancellation action can occur. In addition, paragraph (h) (formerly § 401.75(e)) is revised to clarify the funding level for a program under a contract cancelled for cause.

44. Section 271.76(a) is revised to permit the Bureau to operate the program under a retroceded contract at either the level intended by the contract or as operated previously by the Bureau.

45. Section 271.77(b) is revised to make the position and ceiling reserve applicable only to those contracts initially entered into on or after the effective date of the regulations.

46. Section 271.81 (c) is revised to require the hearing official to issue a decision within 30 days of the hearing.

47. Section 271.83 (a) is changed to provide for an appeal to the Director, Office of Hearings and Appeals, as provided in Subpart G of 43 CFR Part 4.

V 40213
NOV 4 75
XUM

B. PART 272

1. The definition of "tribal government", "tribal governing body", and "tribal council" is added as paragraph (q) of § 272.2. Existing paragraphs (q) and (r) of former § 402.2 are redesignated as paragraphs (r) and (s) of § 272.2. This change is made for consistency with Part 271.

2. The definitions of "Indian tribe," "resolution," "trust resources," and "trust responsibilities" given in paragraphs (j), (l), (r), and (s) of § 272.2 are revised to be consistent with the definitions in Part 271.

3. Comments were received pertaining to the need for more specific procedures in § 272.4 which provides for revising or amending the regulations in Part 272. As a result, new paragraphs (e) and (f) are added to this section to provide for more extensive and far-reaching consultation with tribes and Indian organizations in this regard.

4. Comments expressing concern about potential but unintentional limitations on the use of grants were received. Accordingly, language changes are made in paragraphs (a), (b), and (d) of § 272.12 providing "sight examples" rather than using phrases such as "this includes but is not limited to".

5. Many comments received expressed concern about § 272.15(b) (2) and (3). The major concern in this regard was the $20,000 maximum limitation on initial planning grants to be used to develop larger grant applications. Accordingly, language is added to clarify the source of funds for these initial planning grants. Also, it should be noted that this $20,000 limitation does not apply to the final grant application itself but rather to the cost of developing such an application. Another change is that the approving officer shall take action on an initial planning grant application within 30 days instead of "with a minimum of delay."

C. PART 273:

1. The definitions of "Indian tribe" and "tribal organization" in paragraphs (g) and (v) of § 273.2 are revised to be consistent with the definitions in Part 271.

2. The definition for "previously private school" in § 273.2(n) is changed by deleting the phrase "early childhood" and substituting "age 3 years" to establish a specific base age that is less ambiguous than the deleted term. Also deleted from this section is the last sentence to clarify that such schools could be other than former sectarian facilities.

3. The definition of "reservation" in § 273.2(o) is revised to give statutory reference for Alaska Native regions and to delete the restrictive words "public domain."

4. A definition of "tribal government," "tribal governing body," and "tribal council" is added as § 273.2(u) to conform to the definitions in Part 271.

5. Paragraphs (d) and (e) are added to § 273.3 to conform to 25 CFR 271.3.

6. The term "early childhood" is also deleted in § 273.12 and the phrase "age 3 years" is substituted to establish a base age. The term "except those who are enrolled in Bureau or sectarian operated schools" is added after "grade(s) 12" to denote that these educational facilities are not included as eligible applicants.

7. Section 273.13(b)(1)(iv) is corrected to read "70%" instead of "75%," due to a misprint. Also, the last sentence of this paragraph, referring to the 51% eligible Indian enrollment, is deleted as the Commissioner has the delegated authority to waive any part(s) of these regulations.

8. A change is made to § 273.13(b)(1) by adding (v), (vi) and (vii) to strengthen the basis for contractor accountability.

9. Sections 273.15(a), 273.16(c) and 273.17(d) are deleted. The deleted paragraphs related to the matter of establishing Indian Education Committees where majority Indian school boards already exist. Since the Act was silent on this issue, i.e. it neither required nor prohibited an Indian Education Committee where a majority Indian school board already existed, the Bureau is not including this element in the regulations. Majority Indian school boards may make provisions for such parental involvement.

10. Section 273.16(a)(4) is changed by inserting "Commissioner through the" before the word "appropriate" and by inserting "or suspension" after the word "cancellation." This change is made to permit suspension of a program as an alternative to cancellation under certain circumstances.

11. Section 273.18(j), which requires that the education plan list special programs which are or will be operated and which gives examples of such programs, is deleted and will be considered for inclusion in the program guidelines to be developed. Subsequent paragraphs are redesignated.

12. Section 273.18(g), which requires certain written information be provided as part of the education plan, is revised to clarify the material that is to be provided as part of the plan.

13. The term "February 1" is substituted in § 273.21 in place of "January 15" to give consideration for election to Pueblo Councils. The same change is made in §§ 273.25(b) and 273.28(b).

14. Section 273.24(b) is amended by deleting the word "promptly" and inserting the phrase "within 20 days" after the word "request" to specify the response time allowed.

15. In § 273.25(a), the phrase "and any additional information requested in § 273.24(b)" is inserted in place of the phrase "except as given in paragraph (b) of this section." This change is made to clarify the change made in § 273.24(b). The same change is made to § 273.28(a).

16. Section 273.31 is completely revised to establish a policy for gradual phase-out of operational support and add a hold-harmless provision for supplemental assistance.

17. The last sentence of § 273.32 is added to provide some flexibility for Indian Education Committees to approve de minimus participation by non-eligible students in programs contracted under Part 273.

18. Section 273.35 is completely revised to provide for meeting the full costs of peripheral dormitory students attending local public schools.

19. Additions are made to § 273.38 to assure equal treatment of Indian children. The additions are at the end of the first sentence and at the end of the section.

20. A new phrase is added at the end of § 273.44(a) and in § 273.44(b) after the word "may" to emphasize the role of tribal governing bodies on their reservations.

21. Former § 403.45 on wage and labor standards is deleted as not being applicable to contracts under this part.

22. A new paragraph (d) is added to § 273.45 on Indian preference to conform to 25 CFR 271.44.

23. Section 273.47 is revised to refer to Federal Records Act requirements.

24. The term "and to the tribe(s)" is added in § 273.50(c) after the phrase "Indian Education Committee(s)" to assure tribal notification.

25. A new § 273.54 is added to include the Privacy Act requirements in the regulations.

D. PART 274:

1. The definition of "average daily membership" in former § 404.3(a) is deleted as the term is not used in the text. Subsequent paragraphs in the section are redesignated.

2. The definitions of "Indian tribe" and "tribal organization" in paragraphs (j) and (r) of § 274.3 are revised to be consistent with the definitions in Part 271.

3. A definition of "tribal government," "tribal governing body," and "tribal council" is added as § 274.3(q) to conform to the definition in Part 271.

4. The definition in § 274.3(n) for "previously private school" is changed by deleting the phrase "early childhood" and substituting "age 3 years" to establish a specific base age that is less ambiguous than the deleted term. Also deleted from this section is the last sentence to clarify that such schools could be other than former sectarian facilities.

5. New paragraphs (d) and (e) are added to § 274.5 to conform to 25 CFR 271.3.

6. Section 274.11(b) is changed by adding new language for this paragraph as a condition of eligibility so Federal monies for construction are used only for facilities on tribal or government land. The term "early childhood" is also deleted in § 274.11(c) for consistency with § 274.3(n).

7. The term "No later than" is inserted to begin the sentence in § 274.22(a) to provide flexibility of operations.

8. Section 274.34 is revised to assure compliance and that funds are used for the purpose of the Act.

9. A new phrase is added at the end of § 274.36(a) and in § 274.36(b) after the word "may" to emphasize the role of tribal governing bodies on their reservations.

10. A new paragraph (d)(4) is added to § 274.36 to allow records to be physically located at the contract site where copying is not practical or feasible because a large volume is involved.

11. A new paragraph (d) is added to § 274.38 on Indian preference to conform to 25 CFR 271.44.

E. PART 275:

1. The definition of "tribal government" and "tribal council" in paragraph (j) of § 275.2 is changed to include "tribal governing body" to comply with the definition in Part 271.

2. The definitions of "Indian tribe" and "tribal organization" in paragraphs (f) and (k) are revised to be consistent with the definitions in Part 271.

3. In § 275.3(a)(1) (formerly § 405.3(a)), the word "shall" is changed to "may" in the second sentence to make it clear that the agreement is optional and not required.

4. The paragraphs in § 275.3 are redesignated because the requirements in paragraph (c)(4) relate to more than agreements under the 1834 Act.

5. Section 275.3(b) (formerly § 405.3(c)(4)) is revised to clarify that the contracts referred to are contracts under Part 271 and that the application must be submitted, instead of notifying the Area Director, at least 120 days in advance.

F. PART 276:

1. The definitions of "Indian tribe" and "tribal organization" in paragraphs (j) and (r) of § 276.2 are revised to be consistent with the definitions in Part 271. The definition of "letter of credit" in paragraph (j) of this section is revised to reflect a memorandum of understanding between the Departments of Interior and Treasury.

2. A definition of "tribal government," "tribal governing body," and "tribal council" is added as § 276.2(q) to conform to the definition in Part 271.

3. A new paragraph (c) is added to § 276.13 to further clarify Indian preference procedures.

4. Section 276.15 is revised by adding procedures for grant rescission as recommended by the Library of Congress.

G. PART 277:

1. The last sentence of § 277.2(b) is amended to clarify the language. In addition, the phrase "designated by the Commissioner" is inserted after "officer" to denote that authority for construction contracts for school facilities will not be delegated to Bureau of Indian Affairs Area Directors but will remain vested in the Commissioner.

2. The definition of "average daily membership" in former § 407.3(a) is deleted as the term does not appear in the text. Subsequent paragraphs in the section are redesignated.

3. The definitions in § 407.3 (h), (k), and (l) are deleted as they presently appear in the Pub. L. 81-815 regulations issued by the Department of Health, Education, and Welfare and are not required here.

4. The definition of "Indian tribe" in § 277.3(g) (formerly § 407.3(j)) is revised to conform to the same definition in Part 271.

5. A definition of "tribal government," "tribal governing body," and "tribal council" is added as § 277.3(o) to conform to the definition in Part 271.

6. New paragraphs (d) and (e) are added to § 277.4 to conform to 25 CFR 271.3.

7. Section 274.11(a) is amended by deleting the term "State education agency or" and that portion of the sentence after the word "Indians." These changes are in conformity with the current regulations for Pub. L. 81-815 issued by the Department of Health, Education, and Welfare.

8. In § 277.12(a), the term "Indian Education Committee" is substituted for the term "public school officials", as stated in the Act. Further, in § 277.12(c), the term "and the Indian Education Committee" is inserted after the word "officials" to maintain consistency with paragraph (a) of that section.

9. The word "Regional" is deleted in § 277.13(a) in consultation with the Department of Health, Education, and Welfare as is the phrase in § 277.13(b)(1)(i) after the word "purposes".

10. Deletions are made in § 277.22(e). The term "local education agency" is substituted for the phrase "tribe to obtain its approval". Also deleted is the phrase after the word "adequacy". These changes are in conformity with Pub. L. 81-815 regulations issued by the Department of Health, Education, and Welfare.

11. Section 277.24 is revised to assure compliance and that funds are used for the purposes of the Act.

12. A new phrase is added at the end of § 277.26(a) and in § 277.26(b) after the word "may" to emphasize the role of tribal governing bodies on their reservations.

13. A new paragraph (d) is added to § 277.28 on Indian preference to conform to 25 CFR 271.44.

14. The last sentence of § 277.31(e) is deleted and new language inserted upon the advice of the Department of Health, Education, and Welfare regarding public school policies.

III. CHANGES NOT ADOPTED

Certain other comments have been carefully considered but have not been accepted. The following suggestions were not adopted for the reasons given:

A. PART 271

1. Various comments were received regarding the definition of "Indian," "Indian tribe," "tribal organization" and "trust responsibility". Although the definitions contained in the regulations may not resolve each commentator's concern, it is felt that the definitions are consistent with the Act and generally in conformity with what was expressed during the consultation sessions required by the Act.

2. Two commentators expressed the opinion that tribal organizations should be allowed to contract for Bureau programs under other authorities when the tribal governing body does not request a contract. Although the Bureau recognizes that other contracting authorities are available to it, it does not believe that the mandate of the Act would be served if it contracts for Bureau programs under these other authorities because the tribal governing body involved does not request the contract under the regulations promulgated to implement the Act.

3. Comments were received that were critical of the Bureau's restricting contracting under the Act to non-profit cost reimbursable contracts. The Bureau believes that the requirements found in section 106 of the Act concerning the amount of funds to be provided under a contract and how savings under a contract can be utilized, can best be served through non-profit cost reimbursable contracts.

4. One commentator objected to the Bureau's perception of the role of the tribal governing body in the contracting process and felt the role of the Indian people and community was being subverted thereby, citing the language in section 102 of the Act whereby requests for contracts must be submitted by Indian tribes in support of this contention. The Bureau does not agree with this analysis and feels that the Act clearly mandates the role of the tribal governing body in the contracting process.

5. One commentator observed that in certain States only Certified Public Accountants can be licensed under State law and suggested that provision be made in the regulations for the certification of accountants in such States under rules and regulations that would be developed by the Secretary. The Bureau does not believe that such action would be feasible or practical and, therefore, has taken no action on this comment.

6. One commentator felt that the retrocession procedure of the regulations, as they relate to a tribal governing body's right to request retrocession of a contract when the contractor is not the tribal governing body, violates the contractor's right to due process. The Bureau believes that the tribe that requests a contract also has the right to request retrocession of the contract and that the procedures set forth in the regulations concerning the tribal organization's rights in this situation do not violate due process.

7. Several commentators suggested that the regulations should provide for the payment of a tribal organization's legal expenses when a hearing or appeal is involved. The Bureau feels that these suggestions were well made, but does not believe it is authorized to provide for such payments.

8. Several commentators took exception to the requirement for contractors to make a monthly report regarding the contract to the members of the tribe(s) being served under the contract. The Bureau believes that the people receiving contract services should receive this information on a regular basis without having to make a specific request for it.

V 40 N 213 NOV 4 75 XUM

9. Some concern was expressed over the regulations dealing with appeals. The Bureau is giving this matter further consideration and will utilize the comments submitted in its consideration.

10. Several commentators expressed the opinion that the equal opportunity provisions of the regulations were not not applicable to Indian tribes in view of Title VII of the Civil Rights Act. The Bureau does not believe that the arguments submitted in support of this position are so clear as to require a change in the regulations at this time. Counsel has, however, been sought and the results will be considered when received.

B. PART 272:

1. Many comments pertained to "tribal organizations" and recommended that "tribal organizations" be permitted to apply for or request grants on the same basis as tribal governing bodies as per §§ 272.11 and 272.16. The Bureau's position in this regard is that a tribal governing body should be the prime grantee with all of the authority and responsibility this designation infers. In effect, the Bureau believes that "tribal organizations" should not have equal status with tribal governing bodies in this grant program and that the regulations as written reaffirm the basic authority and responsibility of tribal governing bodies for tribal business affairs. Tribal governing bodies may, of course, subgrant or subcontract with tribal organizations as per § 272.26.

2. Other comments recommended that authority for the approval, execution and administration of grants be extended to the Agency or Superintendent level. The Bureau agrees that input at the the Agency or Superintendent level is and has provided for this input in § 272.15 and § 272.18. However, the Bureau has determined that it is administratively and technically difficult for any given Agency or Superintendent to assume these responsibilities and that the Area or Commissioner levels are better equipped by virtue of available staff and technical expertise to function in this regard. Also, this is consistent with the approval, execution and administration procedures prescribed in Part 271 on contracts.

C. PART 273

1. Several respondents objected to the inclusion of "previously private schools" as participants under this Part. The Bureau of Indian Affairs does not agree with these respondents as the Act requires that such schools be included, as stated in Title II, Section 208.

2. Various comments were also received regarding the composition, scope of duties, powers, and responsibilities of the Indian Education Committee. The Bureau takes the position that the present regulations reflect the legislative intent and statutory provisions of the Act relative to this Committee.

3. Suggestions were made to alter, in one form or another, the allocation and distribution of funds under this Part. The Bureau takes the position that operational support taken off the top will be phased-out, as stated in § 273.31, over a three year period. The allocation of funds for supplementary programs or operational support will be determined so as to assure an equitable distribution for eligible Indian students with the proviso that each State in FY 1977 will receive no less than 75 percent of its FY 1975 supplementary program assistance.

4. Some commentators raised issues regarding the internal operation of tribal governing bodies relating to such matters as Indian preference, the Indian Education Committee, etc. The Bureau of Indian Affairs takes the position that these issues fall within the purview of the governing bodies of tribes to be resolved in their dealings with their constituents.

D. PART 274:

1. Several comments were received regarding the requirement of vesting land title in the tribe or in the United States in order to qualify for construction monies. The Bureau of Indian Affairs declares this requirement is a policy decision to protect the integrity and expenditure of Federal funds.

2. Some commentators raised questions related to the minimum or projected enrollment figure of 25 pupils in elementary grades. The Bureau believes an enrollment figure lower than this number would not prove economically feasible in construction.

E. PART 275:

There were no major suggestions received regarding Part 275 which were not adopted.

F. PART 276:

1. Some comments were received which pertained to Part 276, Uniform Administrative Requirements for Grants. With the exception of changes to §§ 276.13 and 276.15, no significant changes were made in Part 276. This is because the standards and requirements contained in Part 276, including Appendices A and B, conform with Federal Management Circular 74-7, "Uniform administrative requirements for grants-in-aid to State and local governments". These administrative standards and requirements are minimal and are in use government-wide, including grant programs provided to Indians by other Federal agencies.

G. PART 277:

1. Several comments were received regarding language directly affecting either Pub. L. 81-815 or its regulations. The Bureau of Indian Affairs takes the position that the regulations for Pub. L. 93-638 affecting public school construction, i.e. Part 277, in no way modify the procedures, criteria, and regulatory mechanisms inherent in Pub. L. 81-815 as administered by the Department of Health, Education and Welfare.

H. GENERAL COMMENTS APPLYING TO ALL PARTS:

1. Several comments were received suggesting that the regulations issued by the Bureau of Indian Affairs, Department of Interior, and by the Indian Health Service, Department of Health, Education and Welfare, to implement Pub. L. 93-638 be the same. Since the early planning stages of the regulations, Bureau of Indian Affairs and Indian Health Service staffs have consulted continually on making both sets of regulations as consistent as possible. We will work further with the Indian Health Service and other Department of Health, Education and Welfare representatives on possible revisions and amendments to the regulations to achieve greater uniformity and consistency. No amendments will be made without appropriate Indian consultation or which would detract from the legislative intent or statutory provisions of the Act.

Accordingly, Chapter I of Title 25 of the Code of Federal Regulations is amended by revoking Part 33 under Subchapter E and by adding new Parts 271 through 277 under a new Subchapter Y as set forth below.

IV. EFFECT ON OTHER DOCUMENTS

A. On the effective date of these regulations, the tribal contracting guidelines published beginning on page 6377 of the February 11, 1975, FEDERAL REGISTER (40 FR 6377) are hereby revoked. These guidelines are no longer needed since all contracting with tribal organizations for the operation of all parts of Bureau programs will be done in accordance with 25 CFR Part 271 and 41 CFR Part 14H-70.

B. On the effective date of these regulations, the All Purpose Tribal Contract issued by memorandum dated May 7, 1974, is hereby revoked.

C. Part 20 of the Bureau of Indian Affairs Manual on Indian involvement programs will be revoked by a release memorandum to be issued in the near future. The revocation will be made effective on the effective date of these regulations.

D. Except for Part 14H-70, Chapter 14H of Title 41 of the Code of Federal Regulations which contains the Bureau of Indian Affairs procurement regulations will be revised as soon as possible after the effective date of the regulations in 25 CFR Parts 271 through 277.

Effective date. The revocation of Part 33 and the addition of Parts 271 through 277 shall become effective on December 4, 1975.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

SUBCHAPTER Y—INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT PROGRAMS

PART 271—CONTRACTS UNDER INDIAN SELF-DETERMINATION ACT

Subpart A—General Provisions

Sec.
271.1 Purpose and scope.
271.2 Definitions.
271.3 Revision or amendment of regulations.
271.4 Statement of policy.

Subpart B—Application Process

271.11 Eligible applicants.
271.12 Contractable functions or programs.
271.13 Application information.
271.14 Content of application.
271.15 Criteria for declining to contract.
271.16 Access to Bureau records.

Sec.
271.17 Pre-application technical assistance.
271.18 Tribal request for initial contracts.
271.19 Status of contracts in effect before effective date of regulations.
271.20 Recontracting.
271.21 Submission of requests to contract.
271.22 Review and action by Superintendent.
271.23 Review and action by Area Director.
271.24 Area Office recommendation to decline.
271.25 Review and action by Commissioner.
271.26 Appeal of Commissioner's decision to decline.
271.27 Technical assistance after declination.
271.28 Failure of Bureau Agency or Area Office officials to act.

Subpart C—Additional Requirements for Trust Responsibilities

271.31 Applicability.
271.32 Contractable functions or programs.
271.33 Content of application.
271.34 Criteria for declining to contract.

Subpart D—General Contract Requirements

271.41 Advance payments.
271.42 Use of government property.
271.43 Wage and labor standards.
271.44 Indian preference.
271.45 Liability and motor vehicle insurance.
271.46 Recordkeeping.
271.47 Records—access to and retention.
271.48 Freedom of information.
271.49 Annual reporting.
271.50 Penalties.
271.51 Federal contracting laws and regulations.
271.52 Term of contract.
271.53 Performing personal services.
271.54 Contract funds.
271.55 Savings under contract.
271.56 Privacy Act requirements.

Subpart E—Contract Revision or Amendment

Sec.
271.61 Requesting revision or amendment.
271.62 Review and action by contracting officer.
271.63 Contracting officer's recommendation to decline.
271.64 Review and action by Area Director or Commissioner.
271.65 Appeal of Area Director's or Commissioner's decision to decline.
271.66 Revisions or amendments proposed by Bureau.

Subpart F—Retrocession and Reassumption

271.71 Retrocession.
271.72 Full retrocession procedures.
271.73 Tribal assumption of retroceded contracts.
271.74 Reassumption.
271.75 Cancellation for cause.
271.76 Bureau operation of retroceded and reassumed contracts.
271.77 Authorized position and end-of-year employment ceiling reserve for Bureau operation of retroceded, reassumed or cancelled contracts.

Subpart G—Hearings and Appeals

271.81 Hearings.
271.82 Appeals from decision or action by Area Director.
271.83 Appeals from decision or action by Commissioner.
271.84 Appeals from Bureau decision to cancel contract for cause.

AUTHORITY: Sec. 102, Public Law 93-638, 88 Stat. 2203, unless otherwise noted.

Subpart A—General Provisions

§ 271.1 Purpose and scope.

(a) The purpose of the regulations in this Part is to give the application and approval process for non-profit contracts with the Bureau under section 102 of Title I of the Indian Self-Determination and Education Assistance Act (Public Law 93-638, 88 Stat. 2203). Title I is known as the Indian Self-Determination Act. Contracts under the Act include "tribal governmental functions" as defined in § 271.2(q), "business related functions" as defined in § 271.2(d), and certain contractable trust resources programs or parts of programs as set forth in § 271.32. The nature of contracts with Indian entities which do not fall within the purview of the Act, including contracts which may provide for profit, and the conditions for entering into such contracts, are set forth in the regulations implementing the Act of June 25, 1910 (36 Stat. 861, 25 U.S.C. 47), commonly referred to as the "Buy Indian" Act.

(b) Section 104 of Title I of the Act provides authority for making grants for certain purposes. It is the Bureau's policy to make grants for the purpose specified in Section 104 of the Act in lieu of contracts. Part 272 of this chapter gives the procedures and requirements for obtaining grants under section 104 of the Act.

(c) Nothing in these regulations shall be construed as:

(1) Affecting, modifying, diminishing, or otherwise impairing the sovereign immunity from suit enjoyed by an Indian tribe;

(2) Authorizing or requiring the termination of any trust responsibility of the United States with respect to the Indian people; or

(3) Permitting significant reduction in services to Indian people as a result of this Part.

(d) Nothing in these regulations shall be construed to mandate a tribe to apply for a contract or contracts with the Bureau to plan, conduct, and administer all or parts of any Bureau program. Such applications under these regulations are strictly voluntary.

§ 271.2 Definitions.

As used in this part: (a) "Act" means the Indian Self-Determination and Education Assistance Act (Public Law 93-638, 88 Stat. 2203).

(b) "Area Director" means the official in charge of a Bureau of Indian Affairs Area Office.

(c) "Bureau" means the Bureau of Indian Affairs.

(d) "Business related function" means all programs authorized to be administered by the Bureau for the benefit of Indians enumerated as line items in the Bureau's annual budget request under Tribal Resources Development as the Sub-activities of Business Enterprise Development, Credit and Indian Action Teams; Revolving Funds for Loans; Indian Loan Guaranty and Insurance Funds; and also programs or parts of programs connected with construction projects but exclusive of the actual construction of the project.

(e) "Commissioner" means the Commissioner of Indian Affairs.

(f) "Days" means calendar days.

(g) "Economic enterprise" means any commercial, industrial, agricultural, or business activity that is at least 51 percent Indian owned, established or organized for the purpose of profit.

(h) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(i) "Indian" means a person who is a member of an Indian tribe.

(j) "Previously private school" means a school (other than a Federal school formerly operated by the Bureau) that is operated primarily for Indian students in any grade or grades from age 3 years through grade(s) 12; and, which at the time of application is controlled, and sanctioned or chartered by the governing body(s) of an Indian tribe(s).

(k) "Recontracting" means the entering into a contract with a tribal organization which holds a contract for the same program.

(l) "Resolution" means the formal manner in which the tribal government expresses its legislative will in accordance with its organic documents. In the absence of such organic document, a written expression adopted pursuant to tribal practices will be acceptable.

(m) "Secretary" means the Secretary of the Interior.

(n) "Superintendent" means the official in charge of a Bureau of Indian Affairs Agency Office.

(o) "Tribal Chairman" means tribal chairman, governor, chief or other person recognized by the tribal government as its chief executive officer.

(p) "Tribal government, "tribal governing body" and "tribal council" means the recognized governing body of an Indian tribe.

(q) "Tribal governmental function" means all programs authorized to be administered by the Bureau for the benefit of Indians enumerated as line items in the Bureau's annual budget requests under the Activities of Education and Indian Services, the Subactivities of Direct Employment and Road Maintenance, and those programs related to Irrigation and Power Operation and Maintenance identified as a part of the subactivity minerals, mining, irrigation and power under the Activity of Tribal Resources Development.

(r) "Tribal organization" means the recognized governing body of any In-

V 40 213
NOV 4 75
XUM

dian tribe; or any legally established organization of Indians or tribes which is controlled, sanctioned, or chartered by such governing body or bodies or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities; *Provided*, That a request for a contract must be made by the tribe that will receive services under the contract; *Provided further*, That in any case where a contract is let to an organization to perform services benefiting more than one Indian tribe, the approval of each such Indian tribe shall be a prerequisite to the letting of such contract.

(s) "Trust resources" means natural resources, land, water, minerals, funds or property, asset, or claim, including any intangible right or interest on any of the foregoing, which is held by the United States in trust for any Indian tribe or any Indian individual or which is held by any Indian tribe or Indian individual subject to a restriction on alienation imposed by the United States.

(t) "Trust responsibility" means, for the purposes of this part only, the retect, manage, develop and approve authorized transfers of interests in trust resources held by Indian tribes and Indian individuals to a standard of the highest degree of fiduciary responsibility.

§ 271.3 Revision or amendment of regulations.

In order to make any substantive revisions or amendments to the regulations in this Part, the Secretary shall take the following actions:

(a) Consult with Indian tribes and national and regional Indian organizations to the extent practicable about the need for revision or amendment and consider their views in preparing the proposed revision or amendment.

(b) Present the proposed revision or amendment to the Committees on Interior and Insular Affairs of the United States Senate and House of Representatives.

(c) Publish the proposed revisions or amendments in the Federal Register as proposed rulemaking to provide adequate notice to, and receive comments from, all interested parties.

(d) After consideration of all comments received, publish the regulations in the FEDERAL REGISTER in final form not less than 30 days before the date they are made effective.

(e) Annually consult with Indian tribes and national and regional Indian organizations about the need for revision or amendment, and consider their views in preparing the revision or amendment.

(f) Nothing in this section shall preclude Indian tribes or national or regional Indian organizations from initiating request for revisions or amendments subject to paragraphs (a), (b), (c) and (d) of this section.

§ 271.4 Statement of policy.

(a) The Congress has recognized the obligation of the United States to respond to the strong expression of the Indian people for self-determination by assuring maximum Indian participation in the direction of educational as well as other Federal services to Indian communities so as to render such services more responsive to the needs and desires of those communities.

(b) The Congress has declared its commitment to the maintenance of the Federal Government's unique and continuing relationship with and responsibilities to the Indian people through the establishment of a meaningful Indian self-determination policy which will permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services.

(c) It is the policy of the Bureau to facilitate the efforts of Indian tribes to plan, conduct, and administer programs, or portions thereof, which the Bureau is authorized to administer for the benefit of Indians and to facilitate the coordination of all Federal and other programs on Indian reservations.

(d) It is the policy of the Bureau to continually encourage Indian tribes to become increasingly knowledgeable about Bureau programs and the opportunities Indian tribes have regarding them; however, it is the policy of the Bureau to leave to Indian tribes the initiative in making requests for contracts and to regard self-determination as including the decision of an Indian tribe not to request contracts.

(e) It is the policy of the Bureau not to impose sanctions on Indian tribes with regard to contracting or not contracting; however, the special resources made available to facilitate the efforts of those Indian tribes which do wish to contract should be made known to all tribes, as should the current realities of funding and Federal personnel limitations.

(f) Contracting is one of several mechanisms by which Indian tribes can exercise their right to plan, conduct, and administer programs or portions thereof which the Secretary is authorized to administer for the benefit of Indians. Another mechanism afforded Indian tribes is the use of a grant, as provided in Part 272 of this chapter, or other resources, to plan the manner in which it wishes the Bureau to operate a program or portion thereof.

(g) Contracting by its very nature places Bureau officials in the dual position of assisting Indian tribes, in many instances, by furnishing technical assistance in preparation of contract proposals, and of carrying out their fiscal and administrative responsibilities as officials of the Federal Government. It is recognized that very often these two positions are in opposition to each other. The Act and these regulations are designed to address this problem to the degree practicable. The Commissioner, Area Directors and Superintendents, as line officers of the Bureau, are expected to balance these two positions within the framework of the regulations in this Part.

(h) The regulations in this Part are not meant to and do not change the eligibility criteria which individuals must meet to be eligible for any program currently operated by the Bureau. The eligibility criteria for each Bureau program is given in the Part of Chapter I, Title 25 of the Code of Federal Regulations which deals with that program. A contractor shall use the existing Bureau eligibility criteria in operating all or parts of a Bureau program under a contract under this part unless a waiver is obtained from the Commissioner. The Commissioner may not waive eligibility criteria established by statute. The Commissioner may waive eligibility criteria established by regulation in Chapter I, Title 25 of the Code of Federal Regulations.

Subpart B—Application Process

§ 271.11 Eligible applicants.

Any tribal organization is eligible to apply for a contract or contracts with the Bureau to plan, conduct, and administer all or parts of Bureau programs under section 102 of the Act. However, before the Bureau can enter into a contract with a tribal organization, it must be requested to do so by the Indian tribe or tribes to be served by the contract in accordance with § 271.18.

§ 271.12 Contractable Bureau programs.

Tribal organizations are entitled to contract with the Bureau to plan, conduct, and administer all or parts of any program which the Bureau is authorized to administer for the benefit of Indians. All or parts of any program include:

(a) Any part of a Bureau program which is divisible from the remainder of the program so long as the contract does not significantly reduce benefits to Indians served by the non-contracted part(s) of the program. However, to the extent that it is within the Bureau's existing authority and the program or part thereof involves only one tribe and one Bureau Agency or Area Office, the benefits provided to Indians by the non-contracted part(s) of the program may be reduced at the request of the tribe. When the program or part thereof serves more than one tribe, the benefits provided by the non-contracted part(s) of the program may be reduced when all of the tribes served consent to a reduction.

(b) A single employee position only when the functions to be performed provide a direct service to Indians and meets the criteria in paragraph (a) of this section.

(c) Programs or parts of programs or services that are authorized but not currently operated or provided by the Bureau.

(d) Operation of, or services provided by, previously private schools.

(e) All of the foregoing paragraphs of this section apply to trust resources programs or portions thereof. Additional criteria for contractable trust resources programs, or portions thereof, are given in § 271.32.

§ 271.13 Application information.

Application instructions and related materials may be obtained from Superintendents, Area Directors, and the Commissioner.

§ 271.14 Contents of contract application.

Application for a contract under this Part shall contain the following information in sufficient detail to permit evaluation of the application in light of the declination criteria set forth in § 271.15. No further detail is, or shall be, required.

(a) Full name, address and telephone number of the tribal organization which is applying for the contract.

(b) Full name of tribe(s) with which the tribal organization is affiliated.

(c) Full name of tribe(s) directly benefiting or receiving services from the proposed contract.

(d) Documentation of the tribal request to contract as required in § 271.18.

(e) Date of submission to the Bureau and the name of the office where the application was submitted.

(f) Signature by the authorized representative of the tribal organization and the date thereof.

(g) Estimated number of Indian people who will receive benefits or services from the contract, based on available data including tribal records.

(h) Descriptive narrative of what functions, Bureau programs, or portions of programs the tribal organization wants to contract for.

(i) Plan of operations, which shall include but is not limited to:

(1) A statement of tribal goals and objectives to be obtained by the contract.

(2) The organization, methods and procedures to be used to accomplish the tribal goals and objectives.

(3) The means to measure progress and accomplishment.

(4) The budget showing the amount and sources of funding and other resources required for the contract.

(5) Staffing plan, including extent, if any, that Bureau personnel may be utilized. (See Part 275 of this chapter for staffing options the applicant may wish to consider).

(6) The evaluation criteria and control systems the tribal organization will use to assure that the quality and quantity of actual performance conforms to the requirements of the plan.

(j) Statement of tribal organization's substantive knowledge of the program, part of a program or functions to be contracted.

(k) Description of personnel system and position descriptions for key personnel.

(l) Listing of equipment, facilities, and buildings needed to carry out the contract and how the tribal organization intends to obtain them.

(m) Certification by a licensed accountant that the bookkeeping and accounting procedures the tribal organization presently uses meet the standards of Appendix B of Part 276 of this chapter. In place of the certification, the tribal organization may submit a written agreement to establish a bookkeeping and accounting system that meets the standards of Appendix B of Part 276 of this chapter and to have the bookkeeping and accounting system certified before the Bureau disburses any funds under a contract awarded as a result of the application. When a certification has been submitted in connection with a previous application, the applicant may state this fact instead of submitting a new certification.

(n) Proposed system for managing property and keeping records or agreement to establish within 90 days of contract execution, a satisfactory system for managing property and keeping records.

(o) Advance payment required by the tribal organization for contract.

(p) Term of contract requested and proposed starting date of contract.

§ 271.15 Criteria for declining to contract.

(a) The Commissioner may decline to contract only for the specific causes given in paragraph (b) of this section. The burden of proof is on the Commissioner to demonstrate, through substantial evidence, that one of the specific grounds for declination exists and that, therefore, the application must be declined.

(b) The Commissioner may decline to contract when:

(1) The services to be provided to the intended Indian beneficiaries of the particular program or function to be contracted will not be satisfactory.

(i) It will be presumed by the Bureau that the program plan and budget set forth by the tribal organization provides a basis for the delivery of satisfactory services to the Indian people unless it can be demonstrated by the Bureau by substantial evidence that the program will yield results which will be deleterious to the welfare of the Indian people to be served.

(ii) The service to be provided shall be deemed satisfactory if the contract application indicates that the applicant has or will establish procedures to assure that services and assistance shall be provided to the Indians affected by the contract in a fair and uniform manner. Such procedures include eligibility criteria for a tribal member to receive services; recordkeeping adequate to verify the fairness and uniformity of services in case of formal complaints; an adequate complaint procedure available to all Indians affected; and those rights the individual will retain following the complaint.

(2) Adequate protection of trust resources is not assured. Criteria for determining if there is adequate protection of trust resources are given in § 271.34.

(3) The proposed project or function to be contracted cannot be properly completed or maintained by the proposed contract.

(4) The application is not within the purview of § 271.1(a).

(c) In arriving at his finding, the Commissioner shall consider whether the tribal organization would be deficient in performance under the contract with respect to the factors listed in this paragraph.

(1) Equipment, buildings and facilities. No higher standards with regard to buildings, facilities, or equipment shall be applied to tribal organizations than have previously been applied to the Bureau. As provided in § 271.42, the Bureau shall make available the use of all equipment which has been allocated to the operation of the program by the Bureau in the past, unless the Bureau proves the provision of the equipment will seriously interfere with the Bureau's ability to provide services to Indian people in non-contracted programs. Where equipment is shared by the programs to be contracted and other non-contracted programs, equipment-sharing or other suitable arrangements shall be stated in the contract.

(2) Bookkeeping and accounting procedures. It must be clearly demonstrated by the Bureau that the tribal organization which will undertake the contract does not have or cannot set in place, using the contract funds, an accounting and bookkeeping system which will be adequate.

(3) Substantive knowledge of the program to be contracted.

(i) Where the tribal organization proposing to contract is the tribal governing body and the program or function to be contracted is a tribal governmental function, there shall be an absolute presumption that the tribal governing body has substantive knowledge of the program or function to be contracted.

(ii) Where the tribal organization proposing to contract is not the tribal governing body or the program or function to be contracted is not a tribal governmental function, the tribal organization shall be presumed to have substantive knowledge of the program to be contracted if the tribal organization meets one or more of the following conditions:

(A) The tribal organization has adequately managed a similar program before through grant or contract.

(B) The tribal organization which is to manage the project possesses by virtue of its knowledge and/or experience substantive knowledge of the program to be contracted.

(C) The tribal organization has been a consumer of such services in the past and thus has developed an understanding of the issues involved with the program sufficient to enable it to effectively carry out the contract operation; and, the tribal organization can secure through the resources of the contract, Bureau staff or other resources, the training in the particular subject area which will develop its substantive knowledge of the program.

(4) Community support. Before the Bureau can enter into a contract there must be a request made in accordance with § 271.18. The tribal governing body's resolution under § 271.18 shall be presumed to demonstrate that there is community support for the proposed contract. Unless it can be demonstrated by substantial evidence that there is a lack of community support for

V 40 213 NOV 4 75 XUM

the contract and the lack of support will result in unsatisfactory services, inadequate protection of trust resources or impossibility of service maintenance, the tribal governing body's resolution shall be deemed conclusive. Those asserting that there is a lack of community support for a proposed contract must demonstrate that they have exhausted their tribal remedies before the matter is considered by the Bureau. In any event, there will be no finding by the Bureau of a lack of community support that would result in deficiencies in performance under the contract until those asserting it have exhausted all their tribal remedies.

(5) Adequacy of trained personnel. The adequacy of trained personnel available to the tribal organization to carry out the proposed contract will be presumed if any of the following conditions exist:

(i) If the tribal organization has a personnel system that prescribes minimum occupational qualification standards, procedures for the selection of personnel on the basis of such standards, and the personnel to be used under the proposed contract are to be employed under the personnel system.

(ii) If there is no tribal personnel system, it will be assumed that the personnel to be employed under the proposed contract are adequately trained if the tribal organization has established position descriptions for key personnel to be employed under the contract and agrees to establish a personnel system similar to the one described in paragraph (c) (5) (i) of this section.

(6) Other necessary components of contract performance.

(i) All other necessary components of contract performance will be deemed to be met unless a tribal organization:

(A) Does not agree to develop an adequate personnel system that provides selection standards which insure equal access to all qualified tribal members;

(B) Has not agreed to establish and maintain a property management system which will adequately account for and protect government property.

(C) Has not agreed to keep such records as required pursuant to § 271.46, make reports required by § 271.49, or to make such reports and information available to Indian clients as required by § 271.48.

(D) Has not submitted a completed contract application.

(ii) All "other necessary components" have been specifically identified in this section. No other components shall be defined which may serve as a basis for declination unless they are added to these regulations by revision or amendment of the regulations.

(d) Program plans and designs of tribal organizations for contract operation of Bureau programs or parts may be inconsistent with other Parts of this chapter if a waiver is obtained from the Commissioner. Inconsistencies between such plans and designs and Bureau manuals, guidelines or other procedures that are appropriate to programs or parts of programs operated by the Bureau are not grounds for declination.

(e) Tribes may request a waiver from the Commissioner of regulations in this chapter as given in § 1.2 of this chapter.

(f) Bureau officials may not decline to enter into a contract with a tribal organization because of any objection that could be overcome through the contract.

§ 271.16 Access to Bureau records.

(a) Upon the request of a tribal organization, the Superintendent or Area Director shall make available any information requested and such other information as the tribal organization may need to prepare a contract application or carry out a contract. Tribal organizations, other than the governing body of an Indian tribe (except when operating under a contract authorized under the Act), shall seek such information through that tribe's chairman or other official(s) designated by the tribal governing body, unless the tribal resolution under § 271.18(d) (1) or subsequent resolution sets forth another procedure. Requests for information are subject only to the limits of the Freedom of Information Act (5 U.S.C. 552) as amended by the Act of November 21, 1974 (Public Law 93–502, 88 Stat. 1561), the Privacy Act (5 U.S.C. 552a) and other applicable laws. Information to be made available shall include, but not be limited to:

(1) Data on program services to intended beneficiaries;

(2) Reports on Bureau program operations for the past three years;

(3) Present Bureau staffing pattern and grade levels, existing vacancies and position descriptions;

(4) Data on the amount of funds which have been provided for the direct operation of the specific program(s) or portions thereof by the Bureau during the past fiscal year and proposed contract period;

(5) Existing appraisals, inventories, and assessment of trust resources.

(b) The tribal organization shall have access to Bureau records as follows:

(1) The tribal organization shall have access to needed Bureau records at the appropriate Bureau office for review and making copies of selected records.

(2) If the tribal contractor needs a reasonable volume of identifiable Bureau records, the Bureau will furnish the copies to the tribal organization.

(3) Where a large volume of records are needed and copying is not practical or feasible, the records may be physically located at the contract site provided that Bureau official is designated by the Commissioner or Area Director as custodian of the records.

(c) Failure of the Bureau to provide such access may be appealed under the provisions set out in 43 CFR 2.17.

§ 271.17 Pre-application technical assistance.

(a) Upon the request of a tribe, Bureau Agency and Area Offices shall provide technical assistance to a tribal organization to assist them in:

(1) Determining the appropriateness of contracting.

(2) Developing an effective program design and plan of operations.

(3) Preparing technical parts of the contract application.

(4) Such other ways as may be requested.

(b) Upon the request of a tribe, to the extent that funds are available, the Bureau may make technical assistance available to the tribal organizations from sources including, but not limited to:

(1) Technical assistance organizations under contract with the Bureau.

(2) Grants under Part 272 of this chapter.

(3) Other technical assistance resources funded by the Bureau.

(c) Upon the request of a tribe, the Bureau will also assist tribal organizations in obtaining technical assistance from other Federal agencies.

§ 271.18 Tribal request for initial contract.

(a) Before the Bureau can enter into a contract with a tribal organization, it must be requested to do so by the tribe to be served under the contract. The tribe's request shall be in the form of a resolution by the tribal governing body. If the tribal organization is applying for a contract to perform services benefiting more than one tribe, an authorizing resolution from each tribal governing body must be obtained before submitting the application to the Bureau for approval. A tribal governing body may pass a single resolution authorizing a tribal organization to apply for, negotiate, and execute more than one contract if the resolution specifies for each contract the same information required in paragraphs (b) and (c) of this section.

(b) The resolution of the tribal governing body shall authorize the applicant tribal organization to apply for, negotiate and contract with the Bureau, subject to the specific terms, conditions and limitations of the resolution and applicable tribal laws, codes, and regulations. The resolution shall include the results of the vote (the number for and against), the date the resolution was approved, and signature of the person authorized to certify the accuracy of the information contained in the resolution.

(c) The tribal governing body's request (resolution) should include the following:

(1) When the tribal organization is the tribal governing body:

(i) A brief statement of the contract scope.

(ii) The tribal official authorized to negotiate the contract and any amendments thereto.

(iii) The tribal official authorized to execute the contract and any amendments thereof.

(iv) The expiration date of the authorities granted by the resolution.

(v) The extent and procedure, if any, for review of the contract and any amendments thereto by the tribal governing body before execution.

(vi) The proposed date for contract commencement.

(vii) The proposed term of the contract.

(2) When the tribal organization is other than the tribal governing body:

(i) The name of the tribal organization.

(ii) A brief statement of the contract scope.

(iii) The extent and procedure for review by the tribal governing body of the contract and any amendments thereto prior to execution by the tribal organization.

(iv) The tribal office or official to which the Bureau should send copies of contract documents and correspondence.

(v) The proposed term of the contract.

(vi) The proposed date for contract commencement.

(vii) Any limitations on authorities granted the tribal organization, including authorities granted to or vested in the tribal organization and/or tribal governing body in regard to:

(A) Access to Bureau records under § 271.16.

(B) Recontracting under § 271.20.

(C) Appeals of a decision of the Commissioner under § 271.26.

(D) Requests to revise or amend a contract under §§ 271.61 and 271.62.

(E) Requests for contract retrocession under §§ 271.71 and 271.72.

(F) Right to appeal under § 271.82 § 271.83 or § 271.84.

(d) Any procedures given in this section concerning the manner in which a tribal governing body passes a tribal resolution shall apply except where inconsistent with the tribe's organic documents or in the absence of such organic documents the tribal practice.

§ 271.19 Status of contracts in effect before effective date of regulations.

(a) Contracts between the Bureau and tribal organizations, which were entered into before the effective date of these regulations and are still in effect, shall continue until expiration of that Contract. Any revisions or amendments requested during the contract period shall be subject to the provisions of Subpart E of this Part.

(b) Upon completion of contracts in effect before the effective date of the regulations, one of the following will occur:

(1) Where the tribal organization was authorized to enter into its existing contract by a tribal resolution, even if the resolution was passed before the effective date of these regulations, the tribal organization shall have the right to recontract subject to the provisions given in § 271.20.

(2) Where the tribal organization did not have a tribal resolution authorizing it to enter into the existing contract, it shall not be entitled to recontract, but must obtain a tribal request as provided in § 271.18 and submit an application as provided in § 271.14.

§ 271.20 Recontracting.

The Bureau will recontract for the same function(s) or programs as the original contract at the written request of the tribal organization designated in the tribal resolution. Requests for recontracting shall be made as follows unless restricted by the resolution under § 271.18(c) (2) or subsequent resolutions:

(a) If the original contract provided services to only one Indian tribe, written applications to recontract shall be sent by the tribal organization to the Area Office as follows:

(1) Directly, when the tribal organization involved is the governing body of the tribe.

(2) Through the governing body of the tribe for review when the tribal organization is not the governing body of the tribe. Submission shall be made to the governing body at least 120 days before the original contract expires. Copies of the submission shall be sent to the Superintendent and Area Director at the time of submission to the tribal governing body. The tribal organization shall promptly notify the Area Director in writing of the date the tribal governing body received the application. If, within 45 days after receiving the application, the tribal governing body does not provide the Area Director with a formal resolution objecting to the application to recontract, the absence of receipt of such resolution shall constitute the tribe's request to recontract.

(b) If the original contract provided services to more than one Indian tribe, the tribal organization must give a copy of the written application to recontract to each tribal governing body 120 days before the original contract expires. The tribal organization shall promptly notify the Bureau office, where the application is to be submitted under § 271.21, in writing of the date the tribal governing bodies received copies of the application. If, within 45 days after receiving copies of the application, none of the tribal governing bodies provide the appropriate Bureau office with a formal resolution objecting to the application to recontract, the absence of receipt of such resolutions shall constitute the tribe's request to recontract. If one or more of the tribal governing bodies involved object to the contract, they may withdraw from the contract. In such case those withdrawing can stipulate how they wish the previously contracted services to be rendered and the remainder may be recontracted at the option of the tribes involved.

§ 271.21 Submission of requests to contract.

(a) Tribal requests to contract and contract applications shall be submitted to the Bureau, as follows:

(1) To the Superintendent when the tribe(s) or Indians to be served by the contract are within the jurisdiction of that Agency office.

(2) To the Area Director when the tribe(s) or Indians to be served by the contract are within the jurisdiction of more than one Agency office in the same Bureau Area.

(3) To the Commissioner when the tribe(s) or Indians to be served by the contract are within the jurisdiction of more than one Area Office.

(b) An application for a contract under this Part may be submitted at any time. However, when the proposed contract may result in the displacement of Bureau personnel, the application must be submitted to the appropriate Bureau official at least 120 days before the contract's proposed starting date so the Bureau can comply with all Civil Service Commission requirements which apply to separation and/or reassignment of Federal employees.

§ 271.22 Review and action by Superintendent.

The Superintendent shall take the following actions after receiving the contract application:

(a) Within five days of receipt, the Superintendent shall notify the applicant and the tribal governing body, if different from the applicant, that the application was received.

(b) Within 15 days of receipt, the Superintendent shall review the application for completeness and request any additional information from the applicant or from the requesting tribe that is needed to satisfy the requirements of § 271.14.

(c) Within 30 days of receipt, the Superintendent shall make recommendations in writing to the applicant and the tribal governing body which he feels are needed to avoid possible declination and shall indicate the technical assistance available from the Agency Office to correct any deficiencies.

(d) The Superintendent shall provide the technical assistance offered in the written recommendation as requested by the tribal organization and tribal governing body.

(e) The Superintendent shall forward the application to the Area Office with his comments and recommendations as follows:

(1) Within 30 days after receiving the application when the Superintendent has no recommendations to make to the applicant.

(2) Within 10 days after making written recommendations to the applicant when the applicant does not respond, or request additional time in which to respond or refuses the technical assistance offered.

§ 271.23 Review and action by Area Director.

Upon receipt of the contract application, the Area Director will review the application and the Superintendent's recommendations or, where the application was submitted directly to the Area Director as provided for in § 271.21, obtain the appropriate Superintendents' recommendations within 10 days and then proceed as follows:

(a) Notify the applicant and the tribal governing body, if different from the applicant, that the application was received, within five days of its receipt.

(b) Within 30 days, review the contract application, the recommendations of the Superintendent, any responses from the contract applicant or the tribal governing body and the criteria for declination set forth in § 271.15 to determine if there are any declination issues that must be addressed, and at the completion of the review, take one of the following actions as appropriate:

(1) If there are no declination issues, the Area Director will notify the contract

V 40 213
NOV 4 75
XUM

applicant in writing of this fact, and shall negotiate and award the contract within 30 days of notifying the applicant, unless a later date is requested by the applicant, and furnish a copy of any documents to be used by the Bureau during negotiations.

(2) If it is felt that there are declination issues that must be resolved, the Area Director will notify the applicant and/or tribal governing body of this fact in writing. The notice shall include a list of the declination issues identified by the Area Director, the reason(s) for such identification, a copy of any documents used in arriving at the issues, recommendations for resolving the issues and the technical assistance available for this purpose. The notice shall also request a meeting with the applicant and/or tribal governing body to discuss the issues and seek agreement on a course of action to resolve them. The meeting shall be held within 15 days of the applicant's and/or tribal governing body's receipt of the notice or at a time and place mutually agreed to by the parties.

(i) If the applicant accepts the technical assistance, it shall be provided in accordance with the applicant's request. At such time as the issues are thus resolved, the Area Director will so advise the applicant and offer to enter into negotiations within 15 days of resolution or at the applicant's convenience.

(ii) If the applicant declines the Area Director's offer of technical assistance and the matter is not otherwise resolved, the Area Director shall proceed in accordance with § 271.24.

(iii) If the applicant does not respond within 30 days of receipt of the Area Director's recommendations and offer of assistance, and does not request additional time in which to respond, the Area Director shall proceed in accordance with § 271.24.

(iv) If the applicant does not agree with the Area Director's recommendations and the matter is not resolved within 30 days of the Area Director's receipt of the applicant's response to the Area Director's recommendations, the Area Director shall proceed in accordance with § 271.24.

§ 271.24 Area Director's recommendation to decline.

(a) If the Area Director, the applicant and the tribal governing body fail to resolve the declination issues, the Area Director shall prepare a written recommendation to decline.

(b) This recommendation shall contain, at a minimum, the following information:

(1) Identification of specific objections, categorized under one or more of the declination factors set forth in § 271.15.

(2) Specific recommendations on actions required by the applicant or tribe to overcome objections.

(3) Description of the nature, scope, and source of the technical assistance which has been provided or offered by the Bureau to assist the tribal organization to overcome declination objections.

(4) Copies of all correspondence between the Agency, Area and applicant and/or tribe, and all responses thereto, including any reports of meetings between the parties relative to the application.

(5) Copy of original application.

(c) The Area Director shall send the written recommendation to the Commissioner within 15 days after the time periods provided in § 271.23(b)(2)(iii) and (iv). At the same time, he shall send a copy of the written recommendation to the tribal organization and tribal governing body.

(d) Within 15 days of receipt of the Area Director's recommendation to decline, the applicant may notify the Commissioner and the Area Director that it accepts the offer of technical assistance described in paragraph (b)(3) of this section, thereby staying the declination process. To reconstitute the application process the applicant must notify the Area Director, at which time the Area Director shall proceed in accordance with § 271.23.

§ 271.25 Review and action by Commissioner.

(a) Within five days after receiving a contract application submitted directly under § 271.21 or a contract application and the Area Director's recommendations to decline, the Commissioner shall notify the applicant and the tribal governing body(s) in writing of the receipt of the application.

(b) Within 20 days after an application is received by the Commissioner under § 271.21, the Commissioner shall direct and the appropriate Area Director(s) shall furnish written recommendations to the Commissioner, the tribal governing body(s) and the applicant.

(c) Within 15 days after receiving the Area Directors' recommendations, the Commissioner shall review the application, the Area Directors' recommendations, and the declination criteria in § 271.15.

(d) Within 15 days after receiving the Area Directors' recommendations, the Commissioner shall notify the applicant, the appropriate tribal governing bodies, and the Area Director(s) of one of the following:

(1) When the Commissioner does not accept the Area Director's recommendations to decline, notice shall be given that the recommendations are not accepted and that the Bureau shall negotiate and award the contract within 45 days, unless the applicant requests additional time.

(2) When the Commissioner accepts the Area Directors' recommendations and believes that the Bureau should not contract as requested, notice shall be given that the Commissioner plans to issue a declination notice and that the applicant has the following rights:

(i) The applicant may submit a written rebuttal to the Commissioner's plan to issue a declination notice.

(ii) The applicant may request a meeting with the Commissioner or his representative under paragraph (e) of this section.

(iii) The applicant must use these rights within 30 days after receiving the notice required in paragraph (d)(2) of this section.

(e) If the applicant requests a meeting with the Commissioner under paragraph (d)(2)(ii) of this section, the Commissioner shall:

(1) Select a site for a meeting between the applicant and the Commissioner or his representative from the Bureau's headquarters.

(2) Authorize payment of transportation costs and per diem under terms he may make to allow adequate representation of the applicant and the appropriate tribe(s), if the meeting is more than 50 miles from the office of the applicant.

(3) Notify the applicant and the appropriate tribe(s) of the time, location and other terms of the meetings.

(4) Hold the meeting within 30 days of the request, unless the applicant requests a later date.

(f) (1) If the Commissioner determines the application should be declined, the declination notice shall be issued as follows:

(i) Within 15 days after receiving the applicant's rebuttal submitted under paragraph (d)(2)(i) of this section or

(ii) After the conclusion of the meeting under paragraph (e) of this section.

(iii) Within 45 days after notifying the applicant under paragraph (d)(2) of this section when the applicant has not used the rights under paragraph (d)(2) of this section.

(2) The declination notice shall be in writing and shall contain:

(i) Identification of specific objections, categorized under one or more of the declination criteria set forth in § 271.15.

(ii) Specific recommendations on actions required by the applicant to overcome objections and a description of the nature, scope, and source of the technical assistance which will be available to overcome declination objections.

(iii) Copies of all correspondence between the Bureau, applicant and/or tribe(s), and all responses thereto, including any reports of meetings between the parties relative to the application.

(iv) Copy of original application.

(v) The appeal rights of the applicant and/or the tribal governing body under § 271.83.

§ 271.26 Appeals of Commissioner's decision to decline.

The tribal organization and/or the tribal governing body shall have 60 days to appeal to the Board of Indian Appeals, Department of Interior, Washington, D.C., the decision by the Commissioner to decline to contract. Provided, that the tribal organization is authorized by the tribal governing body in the request under § 271.18(c)(2) or subsequent resolution to make such an appeal. The appeal shall be made as provided in § 271.83.

§ 271.27 Technical assistance after declination.

If the Commissioner's decision to decline to contract is not appealed or is upheld on appeal, the Commissioner shall immediately offer technical assistance to the tribal governing body for the purpose of overcoming the declination issues. Within 30 days of the tribal governing body's acceptance of this offer, the Commissioner will make technical assistance available to the tribal governing body for the development of a plan for overcoming the objections that resulted in the decision to decline.

§ 271.28 Failure of Bureau Agency or Area Office to act.

Whenever a Bureau Agency or Area Office official fails to take action on a contract application within the time limits established in this Part, the tribal organization that submitted the application, may, at its option, request action by the next higher Bureau official. In such cases, the official that failed to act shall immediately forward the application and all material pertinent thereto to the official to whom the request for action was made.

Subpart C—Additional Requirements for Trust Responsibilities

§ 271.31 Applicability.

This Subpart gives additional requirements applicable to the application and approval process for contracts under this Part which involve the Bureau's trust responsibilities in the area of natural resources, such as assessments, irrigation, real estate, forestry, range management, wildlife and parks, water inventories, and hunting and fishing.

§ 271.32 Contractable functions or programs.

Contractable trust resources programs, or portions thereof, include the following:

(a) Assessments; inventories of existing resources in trust for individuals and for tribes.

(b) Soil and moisture conservation: basic soil and water conservation, watershed protection, flood prevention, cooperative surveys and investigations, and resource conservation and development.

(c) Irrigation: development, construction, recordkeeping, rehabilitation, operations and maintenance.

(d) (1) Real estate: land use planning and zoning, maintenance of land records, preparation of abstracts of title, research programs to determine heirship and inventory of estates, collection of technical data and studies to be used in determinations of tribal claims to real property, collection of data leading to ascertainment of surface and subsurface resources, administration of leases.

(2) Advice and technical assistance provided individual landowners in connection with lease negotiations initially will be made concurrently by the contractor and an appropriately designated Federal official.

(e) Forestry: forest management and planning, including the making of inventories, management plans and maintenance, tribal or individual Indian consultation services, administration of timber sales and Indian permit cutting, conduct of timber stand improvement projects, protection of the forest against wildfire, trespass, disease, or insect infestation, and participation in cooperative programs with other Federal, State, or tribal organizations related to programs of the Bureau. Activities which already are provided Indian forests from non-Bureau sources, as part of the management of a forested area larger than the reservation, are not contractable under provisions of this Part. Advice and technical assistance provided individual landowners in connection with forestry programs will be made concurrently by the contractor and an appropriately designated Federal official.

(f) Range management: development of contract stipulations for agricultural leases/permits (land use stipulations or conservation standards necessary to define each use shall be incorporated in and made a part of such lease or permit); supervision of compliance, fee collection, watershed management, game and fish management, outdoor recreation, wildfire prevention and control.

(g) Wildlife and parks: conservation, use, and development of wildlife (including fisheries resources), and preservation of natural beauty, historical sites, and archeological remains.

(h) Water inventories and other appropriate programs for protection of water rights.

(i) Hunting and fishing: programs to regulate and enforce on- and off-reservation hunting and fishing and programs to provide data supporting litigation concerning hunting and fishing issues.

§ 271.33 Content of application.

In addition to the information required in § 271.14, the following additional information shall be included in the contract application when a trust resource or responsibility is involved:

(a) A statement of the impact of proposed activity on trust resources related to:

(1) Maintenance of inventory levels and values to tribes and to individuals; and,

(2) Income to individuals and tribe. The statement must also demonstrate a thorough assessment of the trust resources issues, positive steps to protect the trust resources, provisions that limit or eliminate potential for conflicts-of-interest, and that no delegation of trust responsibility is requested.

(b) A statement of the special skills and qualifications required of personnel attached to program activity impacting on trust resources and trust responsibility.

§ 271.34 Criteria for declining to contract.

If a contract application includes a project or function which is related to the Bureau's performance of a trust responsibility in the area of natural resources as given in § 271.32, the Commissioner shall decline to contract if he finds that:

(a) The contract application provides for or would necessarily require the delegation to the tribal organization of a trust responsibility vested by law in the Secretary or the Commissioner.

(b) The contract application provides for the termination of a trust responsibility.

(c) The contract application provides for completion or maintenance of the project or function to a lesser standard than under Bureau administration. However, a tribal proposal to raise performance standards shall not be used as a reason for declination.

(d) The proposed activity requires special skills for its performance and the proposed key staff does not meet Civil Service Commission or excepted qualification standards, other accepted professional standards appropriate to the discipline involved, or are not otherwise recognized as technically qualified.

Subpart D—General Contract Requirements

§ 271.41 Advance payments.

(a) At the request of a tribal contractor, the Bureau contracting officer shall make advance payments under contracts as provided in this section. The requirements given in this section and in Chapter 2000 of the Treasury Fiscal Requirements Manual, as modified or supplemented, apply to making the advance payments.

(b) Any request for advance payment by a tribal contractor shall specify the amount(s) required and the dates such advance(s) will be required and shall be supported by a schedule of estimated expenditures.

(c) An initial advance will be limited to the amount of estimated expenditures for a sufficient period of time required to effect payment, based on experience in the locality. The initial advance may be made in amounts and at times determined suitable to satisfy the minimum essential needs of the contractor.

(d) Later advances may be made at times and in amounts determined necessary to insure availability of funds for timely payment of the tribal contractor's obligations and to minimize the time between withdrawal from the Treasury and expenditure. Requests for advances after an initial advance shall be accompanied and supported by a report of expenditures to date and the amount of funds on hand.

(e) Advance payments shall be made as follows:

(1) When the annual advance to a tribal contractor is expected to exceed $120,000 in the aggregate and the contract term is for at least one year, the letter-of-credit method normally shall be used. The requirements contained in Chapter 2000 of the Treasury Fiscal Requirements Manual, as modified or supplemented, shall apply to making these advance payments.

(2) Except as provided in paragraph (e)(1) of this section, advance payments shall be made by check made payable to the tribal contractor and handled as follows:

(i) Advance payments may be made directly to the tribal contractor when the contractor is a tribal governing body, a non-profit Indian organization serving as a governmental instrumentality of an

V 40 213 NOV 4 75 XUM

Indian tribe or an intertribal council. However, when the contractor is not one of the above, the advance payment may be made directly if all of the following conditions exist:

(A) The advance payment does not exceed $2500.

(B) It is the only advance payment involved in the contract.

(C) The performance time is less than 90 days.

(D) The advance payment does not exceed 85% of the amount of the contract.

(ii) Checks for advance payments which cannot be made directly to the tribal contractor, as given in paragraph (e) (2) (i) of this section, shall be marked for deposit in a special bank account established for the contract. No part of the funds deposited in the special bank account shall be mingled with other funds of the tribal contractor before the funds are withdrawn to meet obligations under the contract.

(f) Tribal contractors shall not be held accountable for interest earned on funds advanced pending disbursement. However, bank balances must be maintained at the minimum level consistent with program requirements. Requests for advances shall be reviewed to insure that excess funds are not advanced.

(g) Sub-advances may be made when predetermined as a part of contracted programs or when specifically authorized in writing by the contracting officer. Sub-advances will not be made to individuals except for approved travel. In such cases, the sub-advances shall not exceed the minimum required for one trip and shall be settled by voucher or repayment within 30 days.

§ 271.42 Use of Government property.

(a) In carrying out a contract made under this Part, the Superintendent, Area Director or Commissioner shall, wherever possible, permit a tribal contractor to use existing buildings, facilities, and related equipment and other personal property owned by the Bureau within his jurisdiction. To the extent possible, arrangements on the use of Bureau property shall be provided for in the contract agreement. In determining whether real or personal property can be provided, the Bureau shall determine whether it can provide comparable services for any of the uncontracted part(s) of the program.

(b) Requests for the use of Bureau property which arise after signing of the contract shall be submitted to the relevant Bureau official by the tribal organization. Such requests should be granted and the contract appropriately amended unless such use will seriously interfere with the administration of existing Bureau programs. The property at the time of transfer must conform to the minimum standards established by the Occupational Safety and Health Act of 1970 (84 Stat. 1590), as amended (29 U.S.C. 651).

§ 271.43 Wage and labor standards.

(a) All laborers and mechanics employed by tribal contractors or subcontractors in the construction, alteration, or repair of buildings or other facilities in connection with contracts under this Part shall be paid wages not less than those on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act of March 3, 1931 (46 Stat. 1494), as amended. However, this requirement doees not apply where the tribal contractor is the recognized governing body of the tribe or a non-profit Indian organization serving as a governmental instrumentality of an Indian tribe and the construction, alteration, or repair work is being performed by the tribal organization or the tribe with its own employees.

§ 271.44 Indian preference.

(a) Any contract made by the Bureau with a tribal organization shall provide that the tribal contractor shall, to the greatest extent feasible, give preference in and opportunities for employment and training to Indians.

(b) Any contract made by the Bureau with a tribal organization shall provide that the tribal contractor shall, to the greatest extent feasible, give preference in the award of subcontracts to Indian organizations and to Indian-owned economic enterprises.

(c) All subcontractors employed by the tribal organization shall, to the extent possible, give preference to Indians for employment and training and shall be required to include in their bid submission a plan to achieve maximum use of Indian personnel.

(d) In the performance of contracts under this Part 271 and subject to the provisions of Part 14 H–70 of Title 41, a tribal governing body may develop its own Indian preference requirements to the extent that such requirements are not inconsistent with the purpose and intent of paragraphs (a), (b), and (c) of this section.

§ 271.45 Liability and motor vehicle insurance.

(a) Tribal organizations shall obtain public liability insurance under contracts entered with the Bureau under this Part. However, where the contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, the contract may be exempted from this requirement.

(b) Notwithstanding paragraph (a) of this section, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the tribal organization to provide liability insurance, regardless of how small the risk.

§ 271.46 Recordkeeping.

A tribal contractor will be required to maintain a record-keeping system which will allow the Bureau to meet its legal records program requirements under the Federal Records Act (44 U.S.C. 3101 et seq.) and to facilitate contract retrocession or reassumption under Subpart F of this part. Such a record system shall:

(a) Fully reflect all financial transactions involving the receipt and expenditure of funds provided under the contract in a manner which will provide accurate, current and complete disclosure of financial status; correlation with budget or allowable cost schedules; and clear audit facilitating data.

(b) Reflect the amounts and sources of funds other than contract funds which may be included in the operation of a program.

(c) Provide for the creation, maintenance and safeguarding of records of lasting value, including those involving individual rights, such as permanent student records and transcripts.

(d) Provide for orderly retirement of records used or created under the contract. Such records shall be returned to the Bureau for disposition according to the General Records Schedules and the Bureau Records Control Schedules.

§ 271.47 Records—access to and retention.

(a) During the term of a contract under this Part and for three years after the project or undertaking is completed, the Comptroller General, the Secretary and the Commissioner or any of their duly authorized representatives shall have access, for audit and examination purposes, to any of the tribal contractor's books, documents, papers, and records which, are related or pertinent to the contract or any subcontract, with the following exceptions:

(1) The records shall be retained beyond the three year period if audit findings have not been resolved.

(2) When records are transferred to or maintained by the Bureau, the three year retention requirement does not pertain to the contractor for those records.

(b) The tribal contractor will be responsible for maintaining all documents such as invoices, purchase orders, cancelled checks, balance sheets and all other records relating to financial transactions in a manner which will facilitate auditing. The tribal contractor will be responsible for maintaining files of correspondence and other documents relating to the administration of the program or project properly separated from general records or cross-referenced to general files.

§ 271.48 Freedom of information.

(a) Unless otherwise required by law, the Bureau shall not place restrictions on tribal contractors which will limit public access to the tribal contractors' records except when records must remain confidential.

(b) A tribal contractor under this Part shall make all reports and information concerning the contract, including the report required under § 271.49, available to the Indian people which the contractor serves or represents. Reports and information may be withheld from disclosure only when both of the following conditions exist:

(1) The reports and information fall within one of the following exempt categories:

(i) Specifically required by statute or Executive Order to be kept secret.

(ii) Related solely to internal personnel rules and practices of the Bureau.

(iii) Commercial or financial information obtained from a person or firm on a privileged or confidential basis.

(iv) Memoranda or letters between agencies of the Federal Government which would not be available by law to a party other than the Federal Government in litigation with the Federal Government.

(v) Personnel, medical, and similar files where disclosure would be a clearly unwarranted invasion of personal privacy.

(vi) Investigatory records compiled for law enforcement purposes when production of the records would:

(A) Interfere with enforcement proceedings;

(B) Deprive a person of a right to a fair trial;

(C) Be an unwarranted invasion of personal privacy;

(D) Disclose the identity of a confidential source and confidential information furnished only by the confidential source;

(E) Disclose investigative techniques and procedures; or

(F) Endanger the life or physical safety of law enforcement personnel.

(vii) Contained in or related to examination, operating, or condition reports prepared for the use of an agency of the Federal Government responsible for the regulation or supervision of financial institutions.

(viii) Geological and geophysical information and data concerning wells.

(2) Disclosure is prohibited by statute or Executive Order or sound grounds exist for using the exemption given in paragraph (b) (1) of this section.

(c) A request to inspect or copy reports and information shall be in writing and must reasonably describe the reports and information requested. The request may be delivered or mailed to the tribal contractor. Within ten working days after receiving the request, the tribal contractor shall determine whether to grant or deny the request. The requester shall be notified immediately of the determination.

(d) The time limit for making a determination may be extended up to an additional ten working days for good reason. The requester shall be notified in writing of the extension, reasons for the extension, and date on which the determination is expected to be made.

§ 271.49 Annual reporting.

(a) For each fiscal year during which a tribal organization receives or expends funds pursuant to a contract under this Part, the tribe which requested the contract must submit a report to the Commissioner. The report shall include, but not be limited to, an accounting of the amounts and purposes for which the contract funds were expended, the tribe's evaluation of the contract performance using the criteria submitted in the contract application, and information on the conduct of the program or services involved. The report shall include any other contract-related information requested by the Commissioner and may be submitted as follows:

(1) When the contract is with the governing body of an Indian tribe, the tribe shall submit the report to the Area Director.

(2) When the contract is with a tribal organization other than the governing body of the tribe, the tribe has the option of having the tribal organization prepare the report and submit it to the tribe for review and approval before the tribe submits it to the Area Director or Commissioner as appropriate.

(3) When the contract benefits more than one tribe, the tribal organization shall prepare and submit the report to each of the tribes benefiting under the contract. Each tribe shall endorse the report before submitting it to the Area Director or Commissioner as appropriate. Should any of the tribes fail to endorse the report within 75 days of its receipt, the tribal organization may submit the report with the endorsements that have been received.

(b) The annual report shall be submitted to the Area Director or Commissioner as appropriate within 90 days after the end of the fiscal year in which the contract was performed. However, upon receipt of a written request, the period for submitting the report may be extended by the Area Director or the Commissioner if there is just cause for such extension.

(c) In addition to the yearly reporting requirement given in paragraphs (a) and (b) of this section, the contract shall provide that the tribal contractor will make available monthly, to members of the tribe(s) affected, an accounting of the amounts and the purposes for which the contract funds were expended during the previous monthly period in the following manner:

(1) By posting a notice containing such information on or before the tenth of each month, at a conspicuous place readily accessible to members of the tribe(s) affected; or,

(2) By such other means as is mutually agreed to by the tribal contractor and the Bureau.

(d) In addition to the requirements contained in paragraphs (a), (b) and (c) of this section, the tribal contractor shall furnish other contract-related reports when and as required by the Area Director or Commissioner.

§ 271.50 Penalties.

If any officer, director, agent, or employee of, or connected with, any contractor or subcontractor under this Part embezzles, willfully misapplies, steals, or obtains by fraud any of the funds or property connected with the contract or subcontract, he shall be subject to the following penalties:

(a) If the amount involved does not exceed $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) If the amount involved exceeds $100, he shall be fined not more than $10,000 or imprisoned for not more than two years, or both.

§ 271.51 Federal contracting laws and regulations.

(a) Contracts with a tribal organization under this Part shall comply with the Bureau procurement regulations contained in 41 CFR Part 14H–70, except as provided in paragraph (b) of this section.

(b) The Commissioner may waive any Federal contracting laws, executive orders, regulations, rules and other administrative requirements which he determines are not appropriate for the purposes of the contract involved or are inconsistent with the Act. Regulations and clauses which are deemed inconsistent or inappropriate for inclusion in contracts entered into under the Act may be waived, modified or supplemented in 41 CFR Part 14H–70 of the Bureau's procurement regulations. Requests for waivers may be made as follows:

(1) Tribal organizations may submit written requests for a waiver or modification of contract regulations on specific contracts to the Commissioner through, or jointly with, the contracting officer. The contracting officer will promptly transmit the request and his recommendations on it to the Commissioner, who shall issue a ruling within 15 days after receipt of the request.

(2) When the waiver or modification requested is determined by the Commissioner to apply in general, it will be made a part of 41 CFR Part 14H–70. When the Commissioner determines that the request for modification or waiver should not apply in general but is warranted for the contract to which the request pertains, the tribal organization and the contracting officer will be so advised in writing.

(3) If the request for waiver or modification is determined by the Commissioner not to be appropriate, the tribal organization will be notified in writing.

(c) Contracts will be negotiated on a non-competitive basis without advertising when the contracts are requested by a tribal governing body in accordance with § 271.18.

(d) A tribal organization is not required to furnish performance and payment bonds before carrying out a contract under this Part for the construction of public buildings or works as required by the Miller Act of August 24, 1935 (49 Stat. 793), as amended. However, the tribal organization shall require each of its subcontractors to furnish both performance and payment bonds as follows:

(1) A performance bond with a surety or sureties satisfactory to the approving official, and in an amount he deems adequate, for the protection of the United States.

(2) A payment bond with a surety or sureties satisfactory to the approving official for the protection of all persons supplying labor and material in carrying out the contract. Whenever the total amount payable by the terms of the contract is not more than $1,000,000, the payment bond shall be one-half the total amount payable by the terms of the contract. Whenever the total amount payable by the terms of the contract is more

V 40 213 NOV 4 75 XUM

than $1,000,000 but not more than $5,000,000, the payment bond shall be 40 percent of the total amount payable by the terms of the contract. Whenever the total amount payable by the terms of the contract is more than $5,000,000, the payment bond shall be $2,500,000.

§ 271.52 Term of contract.

(a) The term of contracts under this Part shall not exceed one year except that contracts may be made for a longer term up to three years, subject to availability of funds under the following circumstances:

(1) The services provided under the contract can reasonably be expected to be continuing in nature and, as a result, a longer contract term would be advantageous.

(2) The Indian tribe(s) to be served by the contract request that the term be more than one year. The tribal organization will indicate the desired term of the contract on the application form. When the Indian tribe(s) request that the contract be approved as provided in § 271.18, that will also be deemed a request for the longer term indicated in the application.

(b) Contracts made for a term of more than one year may be renegotiated annually to reflect factors, including, but not limited to, cost increases beyond the control of the tribal contractor. Proposed changes in the services provided under the contract which reflect changes in program emphasis may be considered during the annual renegotiation if the changes fall within the general scope of the contract. Such changes may be initiated by either the tribal contractor or the Bureau but must be agreed to by both.

§ 271.53 Performing personal services.

Any contract made under this Part may include provisions for the performance of personal services which would otherwise be performed by Federal employees. Such services include, but are not limited to, performing the following functions in accordance with the contract and applicable rules and regulations:

(a) Determining the eligibility of applicants for assistance, benefits, or services.

(b) Determining the extent or amount of assistance, benefits, or services to be provided.

(c) Determining the provisions of such assistance, benefits, or services.

§ 271.54 Contract funds.

The tribal organization shall be entitled to be funded for direct and indirect costs under the contract as follows:

(a) Direct costs under contracts for operations of programs or parts shall not be less than the Bureau would have provided if the Bureau operated the program or part during the contract. Direct costs shall include the Bureau's direct costs for planning, administering, and evaluating the program or part and shall not be used to reduce indirect costs otherwise allowable to the tribal organization.

(b) Direct costs under contracts for operation of programs or parts operated by the Bureau before contract operations shall be not less than the funds that are programmed and available for the program or part at the time of the contract application, except as limited in paragraph (g) of this section.

(c) Direct costs under contracts for the operation of programs or parts authorized to be operated by the Bureau, but not operated by the Bureau, for the benefit of the Indians to be served under the contract shall be determined by mutual agreement based on a comparison of similar programs operated by the applicant, the requesting tribe, other tribes, the Bureau, other governmental, public or private organizations.

(d) Direct costs for programs or parts to be contracted at the Agency Office level shall be based on the funds available at that level.

(e) Direct costs for programs or parts to be contracted at the Area Office level shall be based on funds available at that level.

(f) Allowability of costs under contracts shall be determined under Appendix A of Part 276 of this chapter.

(g) Funds provided under contract for direct or indirect costs shall not cause a reduction in funds provided for other programs or parts not under contract, except as agreed to by the affected tribe(s) and within the existing authorities of the Bureau.

§ 271.55 Savings under contract.

(a) If it becomes apparent during the contract term that the estimated amount of a contract under this Part will be in excess of actual expenditures under the contract, the identified savings shall be used to provide additional services or benefits under the contract.

(b) When both the tribal organization and the Bureau agree that it is not practicable to spend the savings during the contract term and the contract funds were appropriated pursuant to the Act of November 2, 1921 (42 Stat. 208), the savings may be carried over into the succeeding fiscal year contract, except as otherwise specifically provided in appropriation acts. Savings carried over into a succeeding fiscal year shall be added to the contract amount for that fiscal year. The savings shall not reduce the amount that would have been made available if there had been no savings.

(c) If there are savings under a contract that is retroceded as provided in § 271.71, the savings shall be used by the Bureau to operate the program or part of a program covered by the retroceded contract. The savings shall be carried over and used for such operations during the succeeding fiscal year, except as otherwise specifically provided in appropriation acts.

§ 271.56 Privacy Act requirements.

(a) When a tribal contractor operates a system of records to accomplish a Bureau function, the contractor shall comply with Subpart D of 43 CFR Part 2 which implements the Privacy Act (5 U.S.C. 552a). Examples of the tribal contractor's responsibilities are:

(1) To continue maintaining those systems of records declared by the Bureau to be subject to the Privacy Act as published in the FEDERAL REGISTER.

(2) To make such records available to individuals involved.

(3) To disclose an individual's record to third parties only after receiving permission from the individual to whom the record pertains. 43 CFR 2.56 lists exceptions to this procedure.

(4) To establish a procedure to account for access, disclosures, denials, and amendments to records.

(5) To provide safeguards for the protection of the records.

(b) The tribal contractor may not:

(1) Discontinue or alter any established systems of records without prior approval of the appropriate Bureau systems manager.

(2) Deny requests for notification or access of records without prior approval of the appropriate Bureau systems manager.

(3) Approve or deny requests for amendments of records without prior approval of the appropriate Bureau systems manager.

(4) Establish a new system of records without prior approval of the Department of Interior and the Office of Management and Budget.

(5) Collect information about an individual unless it is relevant or necessary to accomplish a purpose of the Bureau as required by statute or Executive Order.

(c) The tribal contractor is subject to the penalties provided in subsection (i) of 5 U.S.C. 552a.

Subpart E—Contract Revision or Amendment

§ 271.61 Requesting revision or amendment.

(a) Any contract made under this Part may be revised or amended as deemed necessary to carry out the purposes of the program, project or function being contracted.

(b) The contractor shall submit proposed revisions and amendments to the Bureau as follows:

(1) To the contracting officer in the Area Office when the tribe(s) or Indians served by the contract are within the jurisdiction of that Area Office.

(2) To the contracting officer in the Bureau's headquarters in Washington, D.C. when the tribe(s) or Indians served are within the jurisdiction of more than one Area Office.

(c) The contractor shall send copies of all requests for revisions or amendments to the designated representative of the tribal governing body at the same time as they are sent to the appropriate contracting officer.

§ 271.62 Review and action by contracting officer.

Upon receipt of the proposed revision or amendment from the contractor, the contracting officer shall, unless the tribal resolution under § 271.18(c)(2) or any subsequent amendment restricts such action, proceed as follows:

(a) Within five days, notify in writing the contractor and the tribal governing body(s) if different from the contractor, of receipt of the proposed revision or amendment and that the tribal governing body(s) shall have 15 days from receipt of the notice to send any written objections to the contracting officer. If the tribal governing body(s) object to the proposed revision or amendment, the contracting officer shall so notify the contractor and the proceedings under this subpart shall cease.

(b) Within 30 days after the tribal governing body(s) received the notice, if no objections are received, review the proposed revision or amendment and the criteria for declination given in § 271.15. At the completion of the review, the following action will be taken as appropriate:

(1) If there are no declination issues, the contracting officer will notify the contractor and the tribal governing body(s) in writing of this fact and revise or amend the contract within 30 days of issuing the notice or at their convenience.

(2) If it is felt that there are declination issues that must be resolved, the contracting officer will notify the contractor and the tribal governing body(s) of this fact and the extent of the issues, recommend a course of action to resolve the issues and offer technical assistance to resolve the issues within 30 days after issuing the notice.

(i) If the contractor and the tribal governing body(s) accept the technical assistance, it shall continue in accordance with their request. At such time as the issues are thus resolved the contracting officer will so advise the contractor and the tribal governing body(s) and revise or amend the contract within 15 days of resolution or at their convenience.

(ii) If the contractor and the tribal governing body(s) decline the contracting officer's offer of technical assistance and the matter is not otherwise resolved, the contracting officer shall proceed in accordance with § 271.63.

(iii) If the contractor and the tribal governing body(s) do not respond within 30 days of receipt of the contracting officer's recommendations and offer of assistance and do not request additional time in which to respond the contracting officer shall proceed in accordance with § 271.63.

(iv) If the contractor and the tribal governing body(s) do not agree with the contracting officer's recommendations and the matter is not resolved within 30 days of the contracting officer's receipt of their response to the contracting officer's recommendations, the contracting officer shall proceed in accordance with § 271.63.

§ 271.63 Contracting officer's recommendation to decline.

(a) If the contracting officer, the contractor, and the tribal governing body fail to resolve the declination issues, the contracting officer shall prepare a written recommendation to decline.

(b) This recommendation shall contain, at a minimum, the following information:

(1) Identification of specific objections, categorized under one or more of the declination factors set forth in § 271.15.

(2) Specific recommendations on actions required by the contractor or tribe(s) to overcome objections.

(3) Description of the nature, scope, and source of the technical assistance which has been provided or offered by the Bureau to assist the contractor and the tribal governing body(s) to overcome the declination objections.

(4) Copies of all correspondence between the contracting officer and contractor and tribal governing body(s) and all responses thereto, including any reports of meetings between the parties relative to the proposed revision or amendment.

(5) Copy of original proposed revision or amendment.

(c) The contracting officer shall make written recommendations to:

(1) The Area Director when the tribe(s) or Indians served by the contract are within the jurisdiction of that Area Office.

(2) The Commissioner when the tribes or Indians served are within the jurisdiction of more than one Area Office.

§ 271.64 Review and action by Area Director or Commissioner.

(a) Within five days after receiving a proposed revision or amendment and the contracting officer's recommendations to decline, the Area Director or Commissioner as given in § 271.61 shall notify the contractor and the tribal governing body(s) in writing of the receipt of the proposed revision or amendment.

(b) Within 15 days after receiving the contracting officer's recommendations, the Area Director or Commissioner shall review the application, the contracting officer's recommendations, and the declination criteria in § 271.15.

(c) Within 15 days after receiving the contracting officer's recommendations, the Area Director or Commissioner shall notify the contractor, the appropriate tribal governing body(s), and the contracting office of one of the following:

(1) When the Area Director or Commissioner does not accept the contracting officer's recommendations to decline, notice shall be given that the recommendations are not accepted and that the Bureau shall revise or amend the contract as requested by the contractor and the tribal governing body(s).

(2) When the Area Director or Commissioner accepts the contracting officer's recommendations and believes the Bureau should not revise or amend the contract as requested, notice shall be given that the Area Director or Commissioner plans to issue a declination notice and that the contractor and the tribal governing body(s) have the following rights:

(i) The contractor and the tribal governing body(s) may submit a written rebuttal to the Area Director's or Commissioner's plan to issue a declination notice.

(ii) The contractor and the tribal governing body(s) may request to appear before the Area Director or Commissioner or their representatives under paragraph (d) of this section.

(iii) The contractor and the tribal governing body(s) must exercise these rights within 30 days after receiving the notice required in paragraph (c)(2) of this section.

(d) If the contractor and the tribal governing body(s) request to appear before the Area Director or Commissioner under paragraph (c)(2)(ii) of this section, the Area Director or Commissioner shall:

(1) Select a site for a meeting between the contractor, the tribal governing body(s), and the Area Director or Commissioner. The Area Director or Commissioner may designate a representative from his office to attend the meeting.

(2) Authorize payment of transportation costs and per diem under terms he may make to allow adequate representation of the contractor and the appropriate tribe(s), if the meeting is more than 50 miles from the office of the contractor.

(3) Notify the contractor and the appropriate tribe(s) of the time, location and other terms of the meeting.

(4) Hold the meeting within 30 days of the request, unless the contractor and the tribal governing body(s) request a later day.

(e) (1) The Area Director or Commissioner shall issue a declination notice as follows:

(i) Within 15 days after receiving the contractor's and tribal governing body(s)' rebuttal submitted under paragraph (c)(2)(i) of this section or after the conclusion of the meeting under paragraph (d) of this section.

(ii) Within 45 days after issuing the notice under paragraph (c)(2) of this section when the contractor and tribal governing body(s) have not used the rights under paragraph (c)(2) of this section.

(2) The declination notice shall be in writing and shall contain:

(i) Identification of specific objections, categorized under one or more of the declination criteria set forth in § 271.15.

(ii) Specific recommendations on actions required by the contractor or tribe to overcome the objections.

(iii) Description of the nature, scope, and source of the technical assistance which has been provided or offered by the Bureau to assist the contractor and the tribal governing body(s) to overcome declination objections.

(iv) Copies of all correspondence between the Bureau, the contractor and/or tribe, and all responses thereto, including any reports or meetings between the parties relative to the application.

(v) Copy of original proposed revision or amendment.

(vi) The appeal of rights of the contractor and the tribal governing body(s)

V 40 213 NOV 4 75 XUM

under § 271.82 or § 271.83 as given in § 271.65.

§ 271.65 Appeal of Area Director's or Commissioner's decision to decline.

(a) The contractor and/or the tribal governing body(s) shall have 60 days to appeal the decision by the Area Director or Commissioner to decline to amend the contract.

(b) An appeal from an Area Director's decision to decline to amend the contract shall be made to the Commissioner as provided in § 271.82.

(c) An appeal from the Commissioner's decision to decline to amend the contract shall be made to Director, Office of Hearings and Appeals, Department of Interior, Washington, D.C., as provided in § 271.83.

§ 271.66 Revisions or amendments proposed by Bureau.

(a) Where the Bureau proposes a revision or amendment to a specific contract, it shall notify the contractor and the tribal governing body(s) in writing of the following:

(1) The specific revision or amendment which is proposed.

(2) The rationale for the proposal.

(b) All amendments proposed by the Bureau must be agreed to, in writing, by the contractor, the tribal governing body(s) and the Bureau. If such agreement cannot be obtained, the proposed amendment shall not be adopted by the Bureau.

Subpart F—Retrocession and Reassumption

§ 271.71 Retrocession.

(a) Tribal governing bodies not only have a right to contract for Bureau programs or portions thereof, as they choose, but also have a right to return responsibility for the operation of a contracted program or portion thereof to the Bureau for any reason they deem appropriate. Retrocession specifically recognizes the Federal Government's unique and continuing relationship with and responsibility to Indian people.

(b) When a tribal organization experiences specific problems with the operation of a contract and is considering the possibility of retrocession, it may request the Bureau to assist it to avoid retrocession. In the event of such a request, the Bureau will:

(1) Meet with appropriate officials of the tribal organization and the tribe, where the tribal governing body is not the contractor, to develop a plan to avoid retrocession.

(2) Provide, to the extent possible, special technical assistance to assist the tribal organization to satisfactorily operate the program and enable it to avoid retrocession.

§ 271.72 Full retrocession procedures.

(a) Whenever an Indian tribe requests retrocession of a contract, retrocession shall be effective upon a date specified by the Commissioner or Area Director as appropriate but no later than 120 days after the date of the request from the tribe(s), except when the tribe(s) and the Commissioner mutually agree on a later date.

(b) When the contract is with a tribal organization other than the tribal governing body and the tribal resolution required under § 271.18(c)(2) does not vest in the tribal governing body the sole right to request retrocession, the tribal governing body shall consult with the tribal organization and, if so requested, offer it an opportunity to be heard in accordance with tribal procedures before requesting retrocession of the contract.

(c) When the contract is with a tribal organization which is performing services benefiting more than one Indian tribe, all or any of the tribes may request a retrocession in accordance with the procedures provided for in the tribal resolution required for the initial contract § 271.18(c)(2). When all of the tribes request retrocession, the retrocession shall be accomplished as provided for in this section. When one or more, but not all of the tribes request retrocession, the contract will continue until the end of the contract term or the fiscal year, whichever comes first. In such case the Bureau shall assess its available resources and capabilities to provide such services independently of and in addition to that being provided under the contract and inform the tribes requesting retrocession of the level of services that will be available to them upon retrocession. The fact that these services may necessarily be at a reduced level will not constitute cause to cancel the existing contract providing services to tribes not retroceding. The existing contract will be modified as appropriate to reflect the nonparticipation to the tribes no longer being served. The Bureau will, however, provide sufficient resources to maintain the existing level of services under the contract to the tribes that did not request retrocession.

(d) Within 15 days after receipt by the Commissioner or Area Director of a request for retrocession, representatives of the tribe(s), the tribal organization when appropriate, and the Commissioner or Area Director as appropriate shall meet and take the following actions:

(1) Mutually agree on a plan for orderly transfer of responsibilities.

(2) Mutually agree on a plan for inventorying and accounting for materials and supplies on hand, equipment, facilities and real property.

(3) Establish an accounting of funds, current and anticipated obligations, and costs of operation until the retrocession date.

(4) Identify all records relating to the contract and to the contracted function.

(e) On the date of retrocession, the tribal contractor will deliver to the Bureau all property that was acquired with contract funds and all materials, supplies and records of whatever nature which have been identified as necessary for the continuation of the program, project or function.

(f) Within 60 days after retrocession, the tribe(s) and the Bureau will jointly develop a report to the Commissioner outlining the reasons why retrocession was requested.

(g) Retrocession of a contract by an Indian tribe shall be without prejudice to:

(1) Any other contract to which it is a party.

(2) Any other contracts it may request.

(3) Any future request to contract for the programs or services covered by the retroceded contract, insofar as the conditions which led to retrocession are no longer a factor and the tribal organization is the same one that held the retroceded contract.

§ 271.73 Tribal assumption of retroceded contracts.

Wherever an Indian tribe chooses to retrocede a contract operated by a tribal organization other than the tribal governing body, the tribal governing body pursuant to § 271.18 may contract for the program. In such a case, the tribal governing body shall submit a contract application pursuant to § 271.14; *Provided*, That the tribal governing body may submit the contract application directly to the Area Director or Commissioner, as appropriate.

§ 271.74 Reassumption.

(a) A contract made under this Part may be terminated, and control or operation of the program or function assumed by the Commissioner or Area Director as appropriate, in whole or in part, when the Commissioner or Area Director determines that the tribal organization's performance under the contract involves:

(1) The violation of the rights of any persons can be identified as a pattern or practice, or

(2) The endangerment of the health, safety and welfare of any persons, or

(3) Gross negligence or mismanagement in the handling or misuse of funds provided under the contract.

(b) If the Commissioner or Area Director as appropriate finds there is an immediate threat to safety, he may, upon written notice to the tribal organization, immediately suspend the contract and resume control or operation of the program. In such an event, the Commissioner or Area Director will hold a hearing within 10 days. The hearing shall be conducted as provided in § 271.81. The decision issued pursuant to § 271.81(c) shall include a statement of the corrective action needed to be taken by the tribal organization before it can assume operation of the contract.

(c)(1) If there is no immediate threat to safety, the Commissioner or Area Director as appropriate shall provide written notice to the tribal organization of intent to terminate the contract. The notice shall give the reasons for the proposed termination, the corrective measures necessary, and a reasonable time period in which corrective action must be taken. The Commissioner or Area Director shall also hold a hearing in accordance with § 271.81 within 10 days of issuance of the notice.

(2) When the decision resulting from the hearing held pursuant to § 271.81 is adverse to the tribal organization, the decision shall as a minimum state the corrective action that must be taken, state the technical assistance the Bureau will provide the tribal organization and give the tribal organization at least 60 days in which to take corrective action. Within 30 days of the tribal organization's receipt of an Area Director's decision, it may request the Commissioner to review the decision. If the Commissioner determines that staying the Area Director's decision will not result in an immediate threat to safety, he may provide additional time for taking corrective action. If the Commissioner determines the Area Director's decision is not correct, he may advise the Area Director to rescind the hearing decision.

(d) A decision to terminate the contract and reassume control or operation may be appealed as provided in § 271.82 or §271.83, as appropriate.

(e) The Commissioner may decline to enter into a new contract and may retain control of the program or function until he is satisfied that the conditions which caused the contract to be terminated have been corrected.

§ 271.75 Cancellation of contract for cause.

(a) Any contract with a tribal organization entered into under this Part may be cancelled for cause when the tribal organization fails to perform within the terms and conditions of the contract.

(b) Before cancellation of the contract, the Area Director or Commissioner shall advise the tribal organization and the tribal governing body(s) if different than the tribal organization in writing of the following:

(1) The reasons why the Area Director or Commissioner is considering cancelling the contract.

(2) That the tribal organization will be given at least 45 days to present an acceptable plan to overcome the deficiencies in its contract performance.

(3) That the Bureau will furnish technical advice an assistance to help overcome the deficiencies in the contract performance, when requested.

(c) When the contract is with other than the governing body of the Indian tribe, the tribe(s) receiving services or benefits under the contract will be notified when a cancellation for cause is contemplated. The notice shall include the reasons why a cancellation for cause is contemplated and any supporting documents used by the Area Director to reach his conclusions. The notice shall also offer to hold a meeting with the tribe(s) to discuss the issues and explore any options available to the tribe(s). The Area Director and the tribe(s) will mutually consider the relevant issues before the Area Director proceeds with any cancellation action.

(d) If the tribal organization does not present an acceptable plan to overcome the deficiencies in its contract performance within 45 days of its receipt of the notice of deficiencies or does not request the Commissioner to review the Area Director's decision as provided in paragraphs (e) and (f) of this section, the Area Director will cancel the contract for cause. The contracting officer will notify the tribal organization, in writing, of the cancellation. The notice shall give the reasons for the cancellation and the right of the tribal organization to appeal under § 271.84.

(e) When the Area Director determines the contract should be cancelled for cause the decision shall state as a minimum: The reasons for the decision; the actions that must be taken to achieve satisfactory performance; the technical assistance the Bureau will provide 60 days to correct its performance deficiencies; and the tribal organization's right of appeal under § 271.84. The decision shall also advise the tribal organization that it may request the Commissioner to review the decision and that such request must be made within 30 days of receipt of the decision.

(f) The Commissioner's review will be conducted and the tribal organization advised of the results within 30 days of receiving the request. If the Commissioner concurs in the Area Director's decision, the tribal organization will be so advised in writing and of its right to appeal the Area Director's decision pursuant to § 271.84. If the Commissioner decides that the Area Director's decision is not supported by the record, he will so advise both the Area Director and the tribal organization and the cancellation action will cease. In no case shall an Area Director cancel a contract until the review requested by a tribal organization has been completed by the Commissioner and results thereof have been received.

(g) When a contract is cancelled for cause, the Bureau will either perform the work with its own forces or by another contract, as appropriate. When the Bureau does not have sufficient forces on hand to immediately perform the work, it may, for temporary periods of the shortest duration possible, contract with a contractor that is not a tribal organization. However, in such cases, the advice of the tribe(s) will be obtained to determine how they desire the services to be rendered.

(h) Excess costs resulting from a cancellation that are required to operate the program will be provided by the Bureau to the extent that funds are available for that fiscal year. However, if current funds are not sufficient to maintain the program at its planned level, the program may be reduced until funds become available for the remainder of the fiscal year, at which time the program will be resumed at its planned level.

(i) Any tribal organization that has a contract cancelled for cause must demonstrate that the causes which led to the cancellation have been cured before it will be considered for another contract. In addition, there must be a new resolution and a new request from the Indian tribe(s) that will receive services or benefits under the contract.

§ 271.76 Bureau operation of retroceded, reassumed or cancelled for cause contracts.

(a) The Bureau shall provide to the tribe(s) and Indians served by a contract which is retroceded, reassumed, or cancelled for cause not less than the same quantity and quality of service that would have been provided at the level intended by the contract or operated previously by the Bureau.

(b) The Bureau shall provide to the tribe(s) and Indians served by a contract which is retroceded, reassumed, or cancelled for cause not less than the same quantity and quality of permanent and temporary personnel that meet the U.S. Civil Service qualifications that would have been provided at the level intended by the contract or previously operated by the Bureau. The procedures in § 271.-77 will be followed to obtain personnel to operate programs or parts of programs previously under contract with a tribal organization but returned for operation by the Bureau because the contract was either retroceded, reassumed or cancelled for cause.

(c) This section shall apply to all contracts for the operation of Bureau programs or parts of programs in effect at the time of the effective date of these regulations entered into under the authority of the Buy Indian Act (25 U.S.C. 47), and any contracts under this Part.

(d) Actions under this section shall not cause a reduction in the quality and quantity of services to tribe(s) or Indians not served by contracts which are retroceded, reassumed or cancelled for cause.

§ 271.77 Authorized position and end-of-year employment ceiling reserve for Bureau operation of retroceded, reassumed or cancelled contracts.

(a) When authorized permanent and other positions and permanent and other end-of-year employment ceiling are not required for the operation of all or parts of a Bureau program because the program or parts of a program are under contract with a tribal organization under this Part, the positions and ceilings shall be reserved. The positions and ceiling reserved shall be available only for the same program or parts of a program at the same locations if the Bureau must operate the program or parts of a program because a tribe has retroceded the contract or because the Bureau has reassumed or cancelled the contract for cause.

(b) The Bureau shall establish a position and ceiling reserve for all contracts for the operation of all or parts of Bureau programs initially entered into on or after the effective date of these regulations.

Subpart G—Hearings and Appeals

§ 271.81 Hearings.

Hearings required by § 271.74 shall be conducted as follows:

(a) The tribal organization and the Indian tribe(s) shall be notified, in writing, of the hearing. The notice shall give

V 40 213 NOV 4 75 N XUM

the date, time, place, and purpose of the hearing.

(b) A written record of the hearing shall be made. The record shall include written statements submitted at the hearing or within five days following the hearing.

(c) Within 30 days of the hearing, the Commissioner or Area Director as appropriate shall issue a written decision on the issues considered during the hearing.

§ 271.82 Appeals from decision or action by Area Director.

A tribal organization (unless restricted by the tribal resolution under § 271.18 (c) (2) or subsequent resolutions) or tribal governing body may appeal any decision made or action taken by an Area Director under this Part. Such appeal shall be made to the Commissioner as provided in Part 2 of this chapter.

§ 271.83 Appeals from decision or action by Commissioner.

(a) A tribal organization (unless restricted by the tribal resolution under § 271.18(c) (2) or subsequent resolutions) or tribal governing body may appeal the Commissioner's decision to decline to contract or to decline to amend a contract under §§ 271.25 or 271.64 to the Director, Office of Hearings and Appeals, Department of the Interior, as provided in Subpart G of 43 CFR Part 4.

(b) A tribal organization (unless restricted by the tribal resolution under § 271.18(c) (2) or subsequent resolutions) or tribal governing body may appeal any other decision made, action taken, or action not taken within the time limits required by this Part, by the Commissioner if authorized and as provided in Part 2 of this chapter. A decision by the Commissioner concerning funding levels for a program or part of a program to be contracted is considered to be an exercise of the Commissioner's discretionary authority and, therefore, is final for the Secretary.

§ 271.84 Appeals from Bureau decision to cancel contract for cause.

A tribal organization (unless restricted by the tribal resolution under § 271.18 (c) (2) or subsequent resolutions) may appeal the Bureau's decision to cancel for cause any contract made under this Part. Such appeal shall be made to the Director of the Office of Hearings and Appeals as provided in Subpart G of 43 CFR Part 4.

PART 272—GRANTS UNDER INDIAN SELF-DETERMINATION ACT

Subpart A—General Provisions

Sec.
272.1 Purpose and scope.
272.2 Definitions.
272.3 Effect on existing Indian rights.
272.4 Revision or amendment of regulations.
272.5 Statement of policy.

Subpart B—Application Process

272.11 Eligibility requirements.
272.12 Purpose of grants.
272.13 Obtaining application instructions and materials.
272.14 Content of application.
272.15 Assistance in completing form.
272.16 Request from tribal governing body.
272.17 Grant approval limitations.
272.18 Submitting application to Agency.
272.19 Agency Office review and recommendation.
272.20 Deadline for Agency Office action.
272.21 Area Office review and action.
272.22 Deadline for Area Office action.
272.23 Central Office review and decision.
272.24 Deadline for Central Office action.
272.25 Grant execution and administration.
272.26 Subgrants and subcontracts.
272.27 Acceptance of tribal plans for the operation of Bureau programs.

Subpart C—General Grant Requirements

272.31 Applicability.
272.32 Reports and availability of information to Indians.
272.33 Matching share.
272.34 Performing personal services.
272.35 Fair and uniform services.
272.36 Penalties.

Subpart D—Grant Revision, Cancellation, or Assumption

272.41 Revisions or amendments of grants.
272.42 Assumption.

Subpart E—Hearings and Appeals

272.51 Hearings.
272.52 Appeals from decision or action by Superintendent.
272.53 Appeals from decision or action by Area Director.
272.54 Appeals from decision or action by Commissioner.
272.55 Failure of Agency or Area Office to act.

AUTHORITY: Sec. 104, Pub. L. 93-638, 88 Stat. 2203, unless otherwise noted.

Subpart A—General Provisions

§ 272.1 Purpose and scope.

The purpose of the regulations in this Part is to provide the application and approval procedures for the award by the Bureau of grants under section 104(a) of Title I of the Indian Self-Determination and Education Assistance Act (Public Law 93-638, 88 Stat. 2203). Title I is known as the Indian Self-Determination Act.

§ 272.2 Definitions.

As used in this Part:

(a) "Act" means the Indian Self-Determination and Education Assistance Act (Public Law 93-638, 88 Stat. 2203).

(b) "Applicant" means a tribal governing body applying for a grant under this Part.

(c) "Area Director" means the official in charge of a Bureau of Indian Affairs Area Office.

(d) "Bureau" means the Bureau of Indian Affairs.

(e) "Commissioner" means the Commissioner of Indian Affairs.

(f) "Days" means calendar days.

(g) "Economic enterprise" means any commercial, industrial, agricultural or business activity that is at least 51 per cent Indian owned, established or organized for the purpose of profit.

(h) "Grant" means a written agreement between the Bureau and a tribal governing body where the Bureau provides funds to carry out specified programs, services or activities and where the administrative and programmatic provisions are specified.

(i) "Grantee" means the tribal governing body which is responsible for administration of the grant.

(j) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(k) "Indian" means a person who is a member of an Indian tribe.

(l) "Resolution" means the formal manner in which the tribal government expresses its legislative will pursuant to its organic documents. In the absence of such organic documents a written expression adopted pursuant to tribal (current) practices will be acceptable.

(m) "Secretary" means the Secretary of the Interior.

(n) "Superintendent" means the official in charge of a Bureau of Indian Affairs Agency Office.

(o) "Subcontracts" means contracts undertaking some of the obligations of primary grants.

(p) "Subgrants" means secondary grants undertaking some of the obligations of primary grants.

(q) "Tribal government", "tribal governing body" and "tribal council" means the recognized governing body of an Indian tribe.

(r) "Trust resources" means natural resources, land, water, minerals, funds or property, asset, or claim, including any intangible right or interest in any of the foregoing, which is held by the United States in trust for any Indian tribe or Indian individual subject to a restriction on alienation imposed by the United States.

(s) "Trust responsibility" means for the purposes of this Part only the responsibility assumed by the United States Government, by virtue of treaties, statutes and other means, legally associated with the role of trustee, to protect, manage, develop and approve authorized transfers of interest in trust resources held by Indian tribes and Indian individuals to a standard of the highest degree of fiduciary responsibility.

§ 272.3 Effect on existing Indian rights.

The regulations in this Part are not meant to and do not:

(a) Affect, modify, diminish, or otherwise impair the sovereign immunity from suit enjoyed by an Indian tribe; or

(b) Authorize, require or permit the termination of any existing trust responsibility of the United States with respect to the Indian people.

§ 272.4 Revision or amendment of regulations.

Before making any substantive revisions or amendments to the regulations in this part, the Secretary shall take the following actions:

(a) Consult with Indian tribes and national and regional Indian organizations to the extent practicable about the need for revision or amendment and consider their views in preparing the proposed revision or amendment.

(b) Present the proposed revision or amendment to the Committees on Interior and Insular Affairs of the United States Senate and House of Representatives.

(c) Publish any proposed revisions or amendments in the FEDERAL REGISTER as proposed rulemaking to provide adequate notice to, and receive comments from all interested parties.

(d) After consideration of all comments received, publish the regulations in the FEDERAL REGISTER in final form not less than 30 days before the date they are made effective.

(e) Annually consult with Indian tribes and national and regional Indian organizations about the need for revision or amendment, and consider their views in preparing the revision or amendment.

(f) Nothing in this section shall preclude Indian tribes or national or regional organizations from initiating requests for revisions or amendments, subject to paragraphs (a), (b), (c) and (d) of this section.

§ 272.5 Statement of policy.

(a) The Indian Self-Determination and Education Assistance Act (Pub. L. 93-638) is intended to facilitate increased self-determination for American Indians by providing a means through which they may plan, conduct and administer programs and services to Indian people. These programs and services are essentially those authorized by the Act of April 16, 1934 (Johnson-O'Malley Act); the Act of November 2, 1921 (Snyder Act) and other subsequent Acts.

(b) A most important aid available to assist Indians in achieving this objective of increased self-determination is the grant authority provided in section 104 of the Act. This grant authority will assist Indian tribes in improving their governing capabilities, increase their ability to effectively administer programs under contract, and enable them to provide direction to the Federal programs intended to serve Indian people.

(c) Under this grant authority the Bureau of Indian Affairs will administer a program of Indian self-determination grants which shall be subject to Parts 272 and 276 of this chapter. In the administration of this grant program, it shall be the Bureau's policy that approval of applications for these grants shall include a determination that there is a direct and reasonable relationship between the applicant's proposal and the provisions of section 104a of the Act and of § 272.12.

(d) In accordance with this policy, it shall be the responsibility of the applicant to establish that such a grant will improve the tribe's governing capabilities, enhance the tribe's ability to administer Federal programs under contract, or enable the tribe to provide direction to Bureau programs and to other Federal programs serving it.

(e) Emphasis on planning and training in relation to the purposes of a grant given in paragraph (d) of this section is considered in keeping with the intent of section 104(a) of the Act. Applications which include these elements are encouraged.

Subpart B—Application Process

§ 272.11 Eligibility requirements.

The governing body of any Indian tribe or tribes may apply for a grant under this Part.

§ 272.12 Purposes of grants.

Grants are for the purpose of: (a) Strengthening and improving administration of tribal government. Examples in this specific regard are as follows:

(1) Developing the capability of the executive, legislative, and judicial branches of tribal government in such areas as administration of planning, financial management, or merit personnel systems.

(2) Improvement of tribally funded programs or activities.

(3) Development, construction, improvement, maintenance, preservation, or operation of tribal facilities or resources.

(4) Training of tribal officials and employees in areas relating to the planning, conduct and administration of tribal programs.

(5) Design and implementation of new tribal government operations.

(6) Development of policy-making, legislative and judicial skills.

(b) Planning, training, evaluation or other activities designed to improve the capacity of an Indian tribe to enter into a contract or contracts pursuant to section 102 of the Act and the additional costs associated with the initial years of operation under such a contract or contracts. Examples of use of grants by Indian tribes, as indicated in this paragraph, are as follows:

(1) Evaluation of programs and services currently being provided directly by the Bureau in order to determine:

(i) Whether it is appropriate for the Indian tribe to enter into a contract pursuant to section 102 of the Act for a program or a portion of a program.

(ii) Whether the Indian tribe can improve the quality or quantity of the service now available.

(iii) Whether certain components should be redesigned but the program should continue to be operated by the Bureau.

(iv) Whether the program as currently administered by the Bureau is adequate to meet tribal needs and, therefore, the Indian tribal organization does not wish to contract or modify the program.

(2) Planning or redesigning a Bureau program before the Indian tribe contracts for it, and development of an operational plan for carrying out the anticipated contract in order to facilitate the transition of the program from Bureau to tribal operation.

(3) Training of tribal officials and employees in areas related to the conduct and administration of programs of the Bureau which the Indian tribe may wish to operate under contract.

(4) Costs associated with contracting to enable tribal contracting. Examples of such costs include curriculum development in support of tribal contracting of schools, in-service training programs to develop the skills of employees of the Indian tribe on a continuing basis, special on-the-job training activities in support of tribal members being prepared to assume program responsibilities.

(c) Acquisition of land in connection with paragraphs (a) and (b) of this section. Procedures for acquisition of land are prescribed in § 276.11 of this chapter.

(d) Planning, designing, monitoring, and evaluating Federal programs serving the Indian tribe. An example of this regard is assisting the tribal government to influence Federal programs presently offered or those that could be offered to the tribe to assure that they are responsive to the needs of Indian tribes. A tribal government may monitor and evaluate the operations of such programs which now serve tribal members and replan and redesign those programs to better respond to their needs. Bureau programs which are planned, replanned, designed or redesigned in accordance with this paragraph shall be implemented by the Bureau as prescribed in § 272.27.

(e) Funds made available for grants for the purposes described above may be applied as matching shares for other Federal or non-Federal grant programs as prescribed in § 272.33.

§ 272.13 Obtaining application instructions and materials.

Application instructions and related application materials may be obtained from Superintendents, Area Directors, and the Commissioner.

§ 272.14 Content of application.

Application for a grant under this Part shall include:

(a) Name and address of Indian tribal governing body(s) applying for a grant.

(b) Descriptive name of project.

(c) Federal funding needed.

(d) Population directly benefiting from the project.

(e) Length of project.

(f) Beginning date.

(g) Project budget categories or items.

(h) Program narrative statement.

(i) Certification or evidence of request by Indian tribe.

(j) Name and address of Bureau office to which application is submitted.

(k) Date application is submitted to Bureau.

(l) Additional information pertaining to grant applications for funds to be used as matching shares will be requested as prescribed in § 272.33.

§ 272.15 Assistance in developing and completing grant applications.

(a) Technical assistance and support necessary to develop and complete grant applications under this Part shall be provided by the Superintendents, Area Di-

V 40 N 213 NOV 4 75 XUM

rectors and their designated representatives upon request of the applicant.

(b) Applicants may apply for initial planning grants to cover the costs of developing and completing larger grant applications. Such initial planning grants will be made from funds which may be budgeted for grants under this part for tribal governing bodies. Applications for these initial planning grants shall be made as follows:

(1) An application for an initial planning grant may be accomplished by submission of a tribal request as prescribed in § 272.16, together with an accompanying letter from the tribal governing body requesting an initial planning grant in a specific amount. This letter shall include a brief description of the proposed initial planning project, its purpose or objective as related to development or completion of a larger grant application, and the initial planning project budget categories or items.

(2) This initial planning grant shall be no more than 10% of total grant funds which may be budgeted for grants under this part for the tribal governing body, up to a maximum of $20,000.

(3) An application for an initial planning grant shall be submitted directly to the appropriate officer having grant approval authority as prescribed in § 272.17(a) or (b) and shall be acted upon by that officer within 30 days.

§ 272.16 Request from tribal governing body.

The Bureau shall not make a grant under this Part unless specifically and officially requested to do so by a tribal governing body. This request may be in the form of a tribal resolution, an endorsement included in the grant application or such other forms as the tribal constitution or current practice requires.

§ 272.17 Grant approval limitations.

(a) Area Office approval. Authority for approval of a grant application under this Part shall be with the Area Director when the intent, purpose and scope of the grant proposal pertains solely to an Indian tribe or tribes located within that Area Director's administrative jurisdiction.

(b) Central Office approval. Authority for approval of a grant application under this Part shall be with the Commissioner when the intent, purpose and scope of the grant proposal pertains to Indian tribes representing different Area Office administrative jurisdictions but located within the Commissioner's overall administrative jurisdiction.

(c) Grant approvals under this section shall be subject to availability of funds. These funds will include those which are:

(1) Directly appropriated for implementation of this Act.

(2) Appropriated under other Acts for Bureau programs which are related to the purposes prescribed in § 272.12. However, this does not include funds appropriated for Indian Business Development Fund grants which are administered under Part 80 of this chapter.

§ 272.18 Submitting application to Agency Office.

An application for a grant under this Part shall be initially submitted to the appropriate Superintendent for review and recommendation as prescribed in § 272.19. This does not include applications for initial planning grants to develop and complete larger grant applications. Such initial planning grant applications are submitted and acted upon as prescribed in § 272.15(b).

§ 272.19 Agency Office review and recommendation.

(a) Recommendation for approval or disapproval of a grant under this Part shall be made by the Superintendent when the intent, purpose and scope of the grant proposal pertains to or involves an Indian tribe or tribes located within that Superintendent's administrative jurisdiction.

(b) Upon receipt of an application for a grant under this Part, the Superintendent shall:

(1) Acknowledge in writing receipt of the application within 10 days of its arrival at the Agency Office.

(2) Review the application for completeness of information and promptly request any additional information which may be required to make a recommendation.

(3) Assess the completed application for appropriateness of purpose as prescribed in § 272.12, and for overall feasibility.

(4) Inform the applicant, in writing and before any final recommendation, of any special problems or impediments which may result in a recommendation for disapproval; offer any available technical assistance required to overcome such problems or impediments; and solicit the applicant's written response.

(5) Recommend approval or disapproval following full assessment of the completed application and forward the application and recommendation to the Area Director for further action.

(6) Promptly notify the applicant in writing as to the final recommendation. If the recommendation is for disapproval, the Superintendent will include in the written notice to the applicant the specific reasons therefor.

(7) In instances where a joint application is made by tribes representing more than one Agency Office administrative jurisdiction, copies of the application shall be provided by the applicants to each involved Superintendent for review and recommendation as prescribed in this section.

§ 272.20 Deadline for Agency Office action.

Within 30 days of receipt of an application for a grant under this Part, the Superintendent shall take action as prescribed in § 272.19. Extension of this deadline will require consultation with and written consent of the applicant.

§ 272.21 Area Office review and action.

(a) Upon receipt of an application for a grant requiring Area Office approval, the Area Director shall:

(1) Review the application following the applicable review procedure prescribed in § 272.19.

(2) Review the Superintendent's recommendation as pertains to the application.

(3) Approve or disapprove the application.

(b) In instances where a joint application is made by tribes representing more than one Area Office administrative jurisdiction, the Area Director shall add his recommendation for approval or disapproval to that of the Superintendent and shall forward the application and recommendations to the Commissioner for further action.

(c) Upon taking action as prescribed in paragraph (a) or (b) of this section, the Area Director shall promptly notify the applicant in writing as to the action taken. If the action taken is disapproval or recommendation for disapproval of the application, the Area Director will include in the written notice the specific reasons therefor.

§ 272.22 Deadline for Area Office action.

Within 30 days of receipt of an application for a grant under this Part, the Area Director shall take action as prescribed in § 272.21. Extension of this deadline will require consultation with and written consent of the applicant.

§ 272.23 Central Office review and decision.

Upon receipt of an application for a grant requiring Central Office approval, the Commissioner shall:

(a) Review the application following the applicable review procedures prescribed in § 272.19.

(b) Review Agency and Area Office recommendations as pertain to the application.

(c) Approve or disapprove the application.

(d) Promptly notify the applicant in writing as to the approval or disapproval of the application. If the application is disapproved, the Commissioner will include in the written notice the specific reasons therefor.

§ 272.24 Deadline for Central Office action.

Within 30 days of receipt of an application for a grant under this Part the Commissioner shall take action as prescribed in § 272.23. Extension of this deadline will require consultation with and written consent of the applicant.

§ 272.25 Grant execution and administration.

(a) Grants approved pursuant to § 272.17(a) shall be executed and administered at the Area Office level.

(b) Grants approved pursuant to § 272.17(b) shall be executed and administered at the Central Office level provided that the Commissioner may designate an Area Office to execute or administer such a grant.

§ 272.26 Subgrants and subcontracts.

The grantee may make subgrants or subcontracts under this part provided

that such subgrants or subcontracts are for the purpose for which the grant was made and that the grantee retains administrative and financial responsibility over the activity and the funds.

§ 272.27 Acceptance of tribal plans for the operation of Bureau programs.

Any Bureau program, excluding any trust resources program, which is planned, replanned, designed or redesigned by a tribe under a grant provided under this part, or from any other resource, shall be implemented by the Bureau if requested by the tribe through resolution. However, before implementation the program shall meet the following requirements:

(a) Funding, staffing and other resources are available to implement the plan.

(b) The implementation of the plan would not cause a reduction in the quality or quantity of services to Indians.

(c) The plan meets the administrative planning requirements of the Bureau. However, the plan need not meet the planning requirements for the particular program.

(d) The plan provides a basis for the delivery of satisfactory services to Indian people, unless it can be demonstrated by the Bureau by substantial evidence that the plan will yield results which will be deleterious to the welfare of the Indian people to be served.

(e) The Commissioner may waive any regulatory requirements given elsewhere in this chapter or any other requirements not inconsistent with law. Inconsistencies between tribal plans and Bureau manual, guidelines, or other non-regulatory procedures are not constraints on the tribal plans.

Subpart C—General Grant Requirements

§ 272.31 Applicability.

The general requirements for grant administration in this Subpart are applicable to all Bureau grants provided to tribal governing bodies under this Part, except to the extent inconsistent with an applicable Federal statute or regulation.

§ 272.32 Reports and availability of information to Indians.

Any tribal governing body receiving a grant under this Part shall make information and reports concerning that grant available to the Indian people which it serves or represents. Access to these data shall be requested in writing and shall be made available by the tribe within 10 days of receipt of that request, subject to any exceptions provided for in the Freedom of Information Act (5 U.S.C. 552), as amended by the Act of November 21, 1974 (P.L. 93-502; 88 Stat. 1561).

§ 272.33 Matching share.

(a) Specific Federal laws notwithstanding, grant funds provided to tribal governing bodies under this Part may be used as matching shares for any other Federal or non-Federal grant programs which contribute to the purposes specified in § 272.12.

(b) Superintendents, Area Directors, and their designated representatives will, upon tribal request, assist tribes in obtaining information concerning other Federal grantor agencies with matching fund programs and will, upon tribal request, provide technical assistance to tribes in developing applications for submission to those Federal grantor agencies.

§ 272.34 Performing personal services.

Any grant provided under this Part may include provisions for the performance of personal services which would otherwise be performed by Federal employees.

§ 272.35 Fair and uniform services.

Any grant provided under this Part shall include provisions to assure the fair and uniform provision by the grantee of services and assistance to all Indians included within or affected by the intent, purpose and scope of that grant.

§ 272.36 Penalties.

If any officer, director, agent, or employee of, or connected with, any recipient of a grant, subgrant, contract or subcontract under this Part, embezzles, willfully misapplies, steals, or obtains by fraud any of the money, funds, assets, or property which are the subject of such a grant, subgrant, contract, or subcontract, he shall be subject to the following penalties:

(a) If the amount involved does not exceed $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) If the amount involved exceeds $100, he shall be fined not more than $10,000 or imprisoned for not more than two years, or both.

Subpart D—Grant Revision, Cancellation, or Assumption

§ 272.41 Revisions or amendments of grants.

(a) Requests for budget revisions or amendments to grants awarded under this Part shall be made as provided in § 276.14 of this chapter.

(b) Requests for revisions or amendments to grants provided under this Part, other than budget revisions referred to in paragraph (a) of this section, shall be made to the Bureau officer responsible for approving the grant in its original form. Upon receipt of a request for revisions or amendments to grants, the responsible Bureau officer shall follow precisely the same review procedures and time specified in § 272.19.

§ 272.42 Assumption.

(a) When the Bureau cancels a grant for cause as specified in § 276.15 of this chapter, the Bureau may assume control or operation of the grant program, activity or service. However, the bureau shall not assume a grant program, activity or service that it did not administer before tribal grantee control unless the tribal grantee and the Bureau agree to the assumption.

(b) When the Bureau assumes control or operation of a grant program cancelled for cause, the Bureau may decline to enter into a new grant agreement until satisfied that the cause for cancellation has been corrected.

Subpart E—Hearings and Appeals

§ 272.51 Hearings.

Hearings referred to in § 276.15 of this chapter shall be conducted as follows:

(a) The grantee and the Indian tribe(s) affected shall be notified, in writing, at least 10 days before the hearing. The notice should give the date, time, place, and purpose of the hearing.

(b) A written record of the hearing shall be made. The record shall include written statements submitted at the hearing or within 5 days following the hearing.

(c) The hearing will be conducted on as informal a basis as possible.

§ 272.52 Appeals from decision or action by Superintendent.

(a) A grantee may appeal any decision made or action taken by a Superintendent under this Part. Such appeal shall be made to the Area Director as provided in Part 2 of this chapter.

(b) The appellant shall provide its own attorney or other advocates to represent it during the appeal process.

§ 272.53 Appeals from decision or action by Area Director.

(a) A grantee may appeal any decision made or action taken by an Area Director under this Part. Such appeal shall be made to the Commissioner as provided in Part 2 of this chapter.

(b) The appellant shall provide its own attorney or other advocates to represent it during the appeal process.

§ 272.54 Appeals from decision or action by Commissioner.

(a) A grantee may appeal any decision made or action taken by the Commissioner under this Part only as provided in Part 2 of this chapter.

(b) The appellant shall provide its own attorney or other advocates to represent it during the appeal process.

§ 272.55 Failure of Agency or Area Office to act.

Whenever a Superintendent or Area Director fails to take action on a grant application within the time limits established in this Part, the applicant may at its option, request action by the next higher Bureau official who has grant approval authority as prescribed in this Part. In such instances, the Superintendent or Area Director who failed to act shall immediately forward the application and all related materials to that next higher Bureau official.

PART 273—EDUCATION CONTRACTS UNDER JOHNSON-O'MALLEY ACT

Subpart A—General Provisions

Sec.
273.1 Purpose and scope.
273.2 Definitions.
273.3 Revision or amendment of regulations.
273.4 Policy of maximum Indian participation.

V 40 213 NOV 4 75 N XUM

Subpart B—Application Process

Sec.
273.11 Eligible applicants.
273.12 Eligible students.
273.13 Proposals eligible for contracts.
273.14 Preparing the education plan.
273.15 Establishment of Indian Education Committee.
273.16 Powers and duties of Indian Education Committee.
273.17 Programs approved by Indian Education Committee.
273.18 Additional requirements for education plan.
273.19 Obtaining application forms.
273.20 Content of application to contract.
273.21 Tribal request for contract.
273.22 Application approval officials.
273.23 Submitting application to Area Office.
273.24 Area Office review and decision.
273.25 Deadline for Area Office action.
273.26 Submitting application to Central Office.
273.27 Central Office review and decision.
273.28 Deadline for Central Office action.
273.29 Negotiating the contract.

Subpart C—Funding Provisions

273.31 Distribution formula.
273.32 Pro rata requirement.
273.33 Use of funds for operational support.
273.34 Use of other Federal, State and local funds.
273.35 Capital outlay or debt retirement.
273.36 Eligible subcontractors.
273.37 Use of funds outside of schools.
273.38 Equal quality and standard of education.

Subpart D—General Contract Requirements

273.41 Special program provisions to be included in contract.
273.42 Civil Rights Act violations.
273.43 Advance payments.
273.44 Use and transfer of Government property.
273.45 Indian preference.
273.46 Liability and motor vehicle insurance.
273.47 Recordkeeping.
273.48 Audit and inspection.
273.49 Freedom of information.
273.50 Annual reporting.
273.51 Penalties.
273.52 State school laws.
273.53 Applicable procurement regulations.
273.54 Privacy Act requirements.

Subpart E—Contract Revision or Cancellation

273.61 Contract revision or amendment.
273.62 Cancelling a contract for cause.

Subpart F—Appeals

273.71 Contract appeal.
273.72 Appeal from decision to cancel contract for cause.
273.73 Other appeals.

AUTHORITY: 25 U.S.C. 452–456; sec. 202, Pub. L. 93–638, 88 Stat. 2203, unless otherwise noted.

Subpart A—General Provisions

§ 273.1 Purpose and scope.

(a) The purpose of the regulations in this Part is to set forth the application and approval process for education contracts under the Johnson-O'Malley Act. Such contracts shall be for the purpose of financially assisting those efforts designed to meet the specialized and unique educational needs of eligible Indian students, including programs supplemental to the regular school program and school operational support, where such support is necessary to maintain established State educational standards.

(b) The application and approval process in this part applies specifically to contracts with a State, school district, or Indian corporation.

(c) Contracts with tribal organizations for supplemental and operational support will be entered into only upon the request of an Indian tribe(s), and shall be subject to the provisions of Part 271 of this chapter and 41 CFR Part 14H–70, except as provided in § 273.11.

(d) Nothing in these regulations shall be construed as:

(1) Affecting, modifying, diminishing, or otherwise impairing the sovereign immunity from suit enjoyed by an Indian tribe;

(2) Authorizing or requiring the termination of any existing trust responsibility of the United States with respect to the Indian people; or,

(3) Permitting significant reduction in services to Indian people as a result of this Part.

(e) Nothing in these regulations shall be construed to mandate an Indian tribe to request a contract or contracts. Such requests are strictly voluntary.

§ 273.2 Definitions.

As used in this Part:

(a) "Area Director" means the official in charge of a Bureau of Indian Affairs Area Office.

(b) "Bureau" means the Bureau of Indian Affairs.

(c) "Commissioner" means the Commissioner of Indian Affairs.

(d) "Days" means calendar days.

(e) "Economic enterprise" means any commercial, industrial, agricultural, or business activity that is at least 51 percent Indian owned, established or organized for the purpose of profit.

(f) "Education plan" means a comprehensive plan for the programmatic and fiscal services of and accountability by a contractor for the education of eligible Indian students under this Part.

(g) "Indian tribe" means any Indian Tribe, Band, Nation Rancheria, Pueblo, Colony or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(h) "Indian corporation" means a legally established organization of Indians chartered under State or Federal law and which is not included within the definition of "tribal organization" given in paragraph (u) of this section.

(i) "Indian Education Committee" means one of the entities specified by § 273.15.

(j) "Indian" means a person who is a member of an Indian tribe.

(k) "Johnson-O'Malley Act" means the Act of April 16, 1934 (48 Stat. 596), as amended by the Act of June 4, 1936 (49 Stat. 1458, 25 U.S.C. 452–456), and further amended by the Act of January 4, 1975 (88 Stat. 2203).

(l) "Operational support" means those expenditures for school operational costs in order to meet established State educational standards or State-wide requirements.

(m) "Pub. L. 93–638" means the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638; 88 Stat. 2203).

(n) "Previously private school" means a school (other than a Federal school formerly operated by the Bureau) that is operated primarily for Indian students from age 3 years through grades 12; and, which at the time of application is controlled, sanctioned, or chartered by the government body(s) of an Indian tribe(s).

(o) "Reservation" or "Indian Reservation" means any Indian tribe's reservation, Pueblo, Colony, or Rancheria, including former reservations in Oklahoma, Alaska Natives regions established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and Indian allotments.

(p) "School district" or "local education agency" means that subdivision of the State which contains the public elementary and secondary educational institutions providing educational services and is controlled by a duly elected board, commission, or similarly constituted assembly.

(q) "Secretary" means the Secretary of the Interior.

(r) "State" means a State of the United States of America or any political subdivision of a State.

(s) "Superintendent" means the official in charge of a Bureau of Indian Affairs Agency Office.

(t) "Supplemental programs" means those programs designed to meet the specialized and unique educational needs of eligible Indian students which may have resulted from socio-economic conditions of the parents, from cultural or language differences or other factors, and as provided by § 273.34(b).

(u) "Tribal government", "tribal governing body" and "tribal Council" means the recognized governing body of an Indian tribe.

(v) "Tribal organization," means the recognized governing body of any Indian tribe or any legally established organization of Indians or tribes which is controlled, sanctioned, or chartered by such governing body or bodies, or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities; *Provided*, That a request for a contract must be made by the Indian tribe that will receive services under the contract; *Provided further*, That in any case where a contract is let to an organization to perform services benefiting more than one Indian tribe, the approval of each such Indian tribe shall be a prerequisite to the letting of such contract.

§ 273.3 Revision or amendment of regulations.

In order to make any substantive revision or amendments to regulations in this part, the Secretary shall take the following actions:

(a) Consult with Indian tribes and national and regional Indian organizations to the extent practicable about the need for revision or amendment and consider their views in preparing the proposed revision or amendment.

(b) Publish the proposed revisions or amendments in the Federal Register as proposed rulemaking to provide adequate notice to, and receive comments from, all interested parties.

(c) After consideration of all comments received, publish the regulations in the Federal Register in final form not less than 30 days before the date they are made effective.

(d) Annually consult with Indian tribes and national and regional Indian organizations about the need for revision or amendment, and consider their views in preparing the revision or amendment.

(e) Nothing in this section shall preclude Indian tribes or national or regional Indian organizations from initiating request for revisions or amendments subject to paragraphs (a), (b), and (c) of this section.

§ 273.4 Policy of maximum Indian participation.

The meaningful participation in all aspects of educational program development and implementation by those affected by such programs is an essential requisite for success. Such participation not only enhances program responsiveness to the needs of those served, but also provides them with the opportunity to determine and affect the desired level of educational achievement and satisfaction which education can and should provide. Consistent with this concept, maximum Indian participation in the development, approval and implementation of all programs contracted under this Part shall be required.

Subpart B—Application Process

§ 273.11 Eligible applicants.

(a) Any State, school district, tribal organization or Indian corporation is eligible to apply for contracts for supplemental or operational support programs. For the purposes of this Part, previously private schools as defined in § 273.2(n) are considered tribal organizations.

(b) States, school districts, or Indian corporations shall apply for contracts for supplemental or operational support programs as required in this Part.

(c) Tribal organizations must comply with the following requirements to obtain contracts for supplemental programs or operational support:

(1) The application submitted by the tribal organization shall meet the requirements in § 273.20 in addition to those in § 271.14 of this chapter.

(2) The requirements in §§ 271.1 through 271.27, 271.41 through 271.52, 271.54, 271.61 through 271.66, and 271.81 through 271.84 shall apply to such contracts with tribal organizations.

(3) The provisions in §§ 271.71 through 271.77 of this chapter concerning retrocession and reassumption of programs do not apply to a tribal organization retroceding a contract for supplemental programs or operational support as the Bureau does not operate education programs authorized to be contracted under the Johnson-O'Malley Act. However, the tribal organization may retrocede such a contract and the Bureau will then contract with a State, school district, or Indian corporation under this Part for the supplemental programs or operational support.

(4) The requirements in §§ 273.12 through 273.18, 273.20, 273.21, 273.31 through 273.39, 273.41, 273.51 and 273.52 shall apply to such contracts with tribal organizations.

(5) The requirements in 41 CFR Part 14H–70 shall apply to such contracts with tribal organizations.

§ 273.12 Eligible students.

Indian students, from age 3 years through grade(s) 12, except those who are enrolled in Bureau or sectarian operated schools, shall be eligible for benefits provided by a contract pursuant to this Part if they are ¼ or more degree Indian blood and recognized by the Secretary as being eligible for Bureau services. Priority shall be given to contracts (a) which would serve Indian students on or near reservations and (b) where a majority of such Indian students will be members of the tribe(s) of such reservations (as defined in § 273.2(o)).

§ 273.13 Proposals eligible for contracts.

(a) Any proposal to contract for funding a program which meets the definition of a supplemental program given in § 273.2(t) will be considered an eligible proposal under this Part.

(b)(1) To contract for operational support, a public school district shall be required to establish as part of the proposal that:

(i) It cannot meet the applicable minimum State standards or requirements without such funds.

(ii) It has made a reasonable tax effort with a mill levy at least equal to the State average in support of educational programs.

(iii) It has fully utilized all other sources of financial aid, including all forms of State aid and Pub. L. 874 payments. The State aid contribution per pupil must be at least equal to the State average.

(iv) There is at least 70 percent eligible Indian enrollment within the school district.

(v) It shall clearly identify the educational needs of the students intended to benefit from the contract.

(vi) It has made a good faith effort in computing State and local contributions without regard to contract funds pursuant to this part.

(vii) It shall not budget or project a deficit by using contract funds pursuant to this Part.

(2) The requirements given in paragraph (b)(1) of this section do not apply to previously private schools.

(c) At his discretion, the Commissioner may consider as eligible a proposal to contract under which a school district will be reimbursed for the full per capita costs of educating Indian students who meet all of the following:

(1) Are members of recognized Indian tribes.

(2) Do not normally reside in the State in which the school district is located.

(3) Are residing in Federal boarding facilities for the purpose of attending public schools within the school district.

§ 273.14 Preparing the education plan.

A prospective contractor in consultation with its Indian Education Committee(s) shall formulate an education plan and submit it to the appropriate Area Director as a part of the application to contract required by § 273.20. Such plan shall become a part of any contract awarded. The education plan shall contain:

(a) The education programs approved by the Indian Education Committee(s) as required in § 273.17.

(b) Other requirements for the education plan given in § 273.18.

§ 273.15 Establishment of Indian Education Committee.

(a) When a school district to be affected by a contract(s) for the education of Indians pursuant to this Part has a local school board not composed of a majority of Indians, the tribal governing body(s) of the Indian tribe(s) affected by the contract(s) under this Part shall specify one of the following entities to serve as the Indian Education Committee for the purpose of this Part:

(1) An Indian Education Committee to be elected from among the parents (including persons acting *in loco parentis* except school administrators or officials) of eligible Indian students enrolled in the school(s) affected by a contract(s) under this Part; or

(2) A local Indian committee established pursuant to section 305(b)(2)(B)(ii) of the Act of January 23, 1972 (86 Stat. 235) and existing prior to January 4, 1975; or

(3) An Indian advisory school board or Indian Education Committee established pursuant to the Johnson-O'Malley Act and existing prior to January 4, 1975.

(b) When the local school board is not composed of a majority of Indians and the tribal governing body(s) of the Indian tribe(s) affected by a contract(s) under this Part determine which of the entities provided for in paragraph (a) of this section is to serve as the Indian Education Committee for the purpose of this Part, it shall notify the Area Director of

V 40 213
NOV 4 75
XUM

such determination by January 15 preceding the school year for which the contract will be let.

(c) The Indian Education Committee established under paragraph (a) of this section and its members shall establish procedures under which the Committee shall serve. Such procedures shall be set forth in the Committee's organizational documents and by-laws. Each Committee shall file a copy of its organizational documents and by-laws with the appropriate Area Director, together with a list of its officers and members as soon as practicable after the Committee is organized.

(d) The existence of an Indian Education Committee shall not limit the continuing participation of the rest of the Indian community in all aspects of programs contracted under this part.

§ 273.16 Powers and duties of Indian Education Committee.

(a) Consistent with the purpose of the Indian Education Committee, each such Committee shall be vested with the authority to:

(1) Participate fully in the planning, development, implementation, and evaluation of all programs, including both supplemental and operational support, conducted under a contract or contracts pursuant to this Part. Such participation shall include further authority to:

(i) Recommend curricula, including texts, materials, and teaching methods to be used in the contracted program or programs.

(ii) Approve budget preparation and execution.

(iii) Recommend criteria for employment in the program.

(iv) Nominate a reasonable number of qualified prospective educational programmatic staff members from which the contractor would be required to select.

(v) Evaluate staff performance and program results and recommend appropriate action to the contractor.

(2) Approve and disapprove all programs to be contracted under this Part. All programs contracted pursuant to this Part shall require the prior approval of the appropriate Indian Education Committee.

(3) Secure a copy of the negotiated contract(s) which include the program(s) approved by the Indian Education Committee.

(4) Recommend to the Commissioner through the appropriate Bureau contracting officer cancellation or suspension of a contract(s) which contains the program(s) approved by the Indian Education Committee if the contractor fails to permit such Committee to exercise its powers and duties as specified by this section.

(b) The organizational papers and by-laws of the Indian Education Committee may include additional powers and duties which would permit the Committee to:

(1) Participate in negotiations concerning all contracts under this Part.

(2) Make an annual assessment of the learning needs of Indian children in the community affected.

(3) Have access to all reports, evaluations, surveys, and other program and budget related documents determined necessary by the Committee to carry out its responsibilities, subject only to the provisions of § 273.49.

(4) Request periodic reports and evaluations regarding the Indian education program.

(5) Hear grievances related to programs in the education plan.

(6) Meet regularly with the professional staff serving Indian children and with the local education agency.

(7) Hold committee meetings on a regular basis which are open to the public.

(8) Have such additional powers as are consistent with these regulations.

§ 273.17 Programs approved by Indian Education Committee.

(a) All programs contracted under this Part shall:

(1) Be developed and approved in full compliance with the powers and duties of the Indian Education Committee as set out in § 273.16 and as may be contained in the Committee's organizational documents and by-laws.

(2) Be included as a part of the education plan provided for in § 273.14.

(b) No program contracted pursuant to this Part shall be changed from the time of its original approval by the Indian Education Committee to the end of the contract period without the prior approval, in writing, of the Committee.

(c) Programs developed or approved by the Indian Education Committee pursuant to this Part may, at the option of such Committee, include funds for the performance of Committee duties, including the following:

(1) Members' attendance at regular and special meetings, workshops and training sessions, as the Committee deems appropriate.

(2) Such other reasonable expenses incurred by the Committee in performing its primary duties, including the planning, development, implementation and evaluation of the program.

§ 273.18 Additional requirements for education plan.

In addition to incorporating the programs approved by the Indian Education Committee(s) as required by § 273.14(a), the education plan prepared by the prospective contractor shall:

(a) Contain educational goals and objectives which adequately address the educational needs of the Indian students to be served by the contract.

(b) Incorporate the program or programs developed and approved by the Indian Education Committee(s). As provided in § 273.17(b), changes in such programs must have prior written approval of the Indian Education Committee(s).

(c) Contain procedures for hearing grievances from Indian students, parents, community members, and tribal representatives relating to the program(s) contracted under this Part. Such procedures shall provide for adequate advance notice of the hearing.

(d) Identify established State standards and requirements which shall be maintained in operating programs and services contracted under this Part.

(e) Describe how the State standards and requirements will be maintained.

(f) Provide that the contractor shall comply in full with the requirements concerning meaningful participation by the Indian Education Committee as required by § 273.4.

(g) Provide that education facilities receiving funds shall be open to visits and consultations by the Indian Education Committee(s), tribal representatives, Indian parents in the community, and by duly authorized representatives of the Federal and State governments.

(h) Outline procedures of administrative and fiscal management to be used by the contractor.

(i) Contain justification for requesting funds for operational support. The public school district must establish in its justification that it meets the requirements given in § 273.13(b). The information given should include records of receipt of local, State, and Federal funds.

(j) Include budget estimates and financial information needed to determine program costs to contract for services. This includes, but is not limited to, the following:

(1) State and district average operational cost per pupil.

(2) Other sources of Federal funding the applicant is receiving, the amount received from each, the programs being funded, and the number of eligible Indian students served by such funding.

(3) Administrative costs involved, total number of employees, and total number of Indian employees.

(4) Costs which parents normally are expected to pay for each school.

(5) Supplemental and operational funds outlined in a separate budget, by line item, to facilitate accountability.

(6) Total number of employees for each special program and number of Indian employees for that program.

(k) State the total enrollment of school or district, by age and grade level.

(l) State the eligible Indian enrollment—total and classification by tribal affiliation(s) and by age and grade level.

(m) State the total number of school board members and number of Indian school board members.

(n) List Government equipment needed to carry out the contract.

(o) State the period of contract term requested.

(p) Include the signature of the authorized representative of applicant.

(q) Provide written information regarding:

(1) Program goals and objectives related to the learning needs of potential target students.

(2) Procedures and methods to be used in achieving program objectives, including ways whereby parents, students and communities have been involved in determining needs and priorities.

(3) Overall program implementation including staffing practices, parental and community involvement, evaluation of program results, and dissemination thereof.

(4) Determination of staff and program effectiveness in meeting the stated needs of target students.

§ 273.19 Obtaining application forms.

Application forms, instructions, and related application materials are available from Agency Superintendents, Area Directors and the Commissioner. Use of standard application forms will facilitate processing of applications. However, they are not required if the information required by § 273.20 is given in the application to contract.

§ 273.20 Content of application to contract.

An application for a contract under this Part shall be in writing and shall contain the following:

(a) Name, address, and telephone number of the proposed contractor.

(b) Name, address, and telephone number of the tribe(s) to be served by the contract.

(c) Descriptive narrative of the contract proposal.

(d) The education plan required by § 273.14.

(e) A separate budget outlining the Johnson-O'Malley funds for operational support and/or supplemental programs, by line item, to facilitate accountability.

(f) A clear identification of what educational needs the Johnson-O'Malley funds requested for operational support will address.

(g) Documentation of the requirements for operational support in § 273.13 (b)(1).

§ 273.21 Tribal request for contract.

(a) An Indian tribal governing body(s) that desires that a contract be entered into with a tribal organization must so notify the Area Director no later than February 1 preceding the school year for which the contract will be let.

(b) If the tribal governing body's notice is not received by the date given in paragraph (a) of this section, the Area Director may contract with the State, school district, or Indian corporation under this Part.

§ 273.22 Application approval officials.

(a) Each Area Director is authorized to approve the contract(s) submitted by the State, school district, or Indian corporation under this Part which will provide services to Indian children within the jurisdiction of that Area Office.

(b) When a proposed contract(s) will provide services to Indian children within the jurisdiction of more than one Area Office, the contract must be approved by the Commissioner.

§ 273.23 Submitting application to Area Office.

When services under the proposed contract will be provided to Indian children within the jurisdiction of a single Area Office, the completed application shall be submitted to the Area Director of that Area Office.

§ 273.24 Area Office review and decision.

Upon receiving a contract application, the Area Director shall:

(a) Notify the applicant in writing that the application has been received. This notice shall be made within fourteen (14) days after the Area Office receives the application.

(b) Review the application for completeness and request within 20 days any additional information from the applicant which will be needed to reach a decision.

(c) On receiving an application for operational support, make formal written determination and findings supporting the need for such funds. In arriving at such a determination, the Area Director must be assured that each local education agency has made a good faith effort in computing State and local contributions without regard to funds requested pursuant to this Part.

(d) Assess the completed application to determine if the contract proposal is feasible and if the proposal and the application comply with the appropriate requirements of the Johnson-O'Malley Act and of the regulations in this Part.

(e) Approve or disapprove the application after fully reviewing and assessing the application and any additional information submitted by the applicant.

(f) Promptly notify the applicant in writing of the decision to approve or disapprove the application. If the application is disapproved, the notice will give the reasons for disapproval and the applicant's right to appeal pursuant to Part 2 of this chapter.

§ 273.25 Deadline for Area Office action.

(a) The Area Director shall approve or disapprove an application for a contract within sixty (60) days after the Area Office receives the application and any additional information requested in § 273.24(b). The sixty (60) day deadline can be extended after obtaining the written consent of the applicant.

(b) An application under this Part cannot be approved before February 1 preceding the school year for which the contract will be let.

§ 273.26 Submitting application to Central Office.

When services under the proposed contract will be provided to Indian children within the jurisdiction of two or more Area Offices, the completed application shall be submitted to the Commissioner through the respective Area Offices.

§ 273.27 Central office review and decision.

Upon receiving a contract application, the Commissioner shall:

(a) Notify the applicant in writing that the application has been received. This notice shall be made within fourteen (14) days after the Central Office receives the application.

(b) Review the application for completeness and request within 20 days any additional information from the applicant which will be needed to reach a decision.

(c) On receiving an application for operational support, make formal written determination and findings supporting the need for such funds. In arriving at such a determination, the Commissioner must be assured that each local education agency has made a good faith effort in computing State and local contributions without regard to funds requested pursuant to this Part.

(d) Assess the completed application to determine if the contract proposal is feasible and if the proposal and the application comply with the appropriate requirements of the Johnson-O'Malley Act and of the regulations in this Part.

(e) Approve or disapprove the application after fully reviewing and assessing the application and any additional information submitted by the applicant.

(f) Promptly notify the applicant in writing of the decision to approve or disapprove the application. If the application is disapproved, the notice will give the reasons for disapproval and the applicant's right to appeal pursuant to Part 2 of this chapter.

§ 273.28 Deadline for Central Office action.

(a) The Commissioner shall approve or disapprove an application for a contract within sixty (60) days after the Central Office receives the application, and any additional information requested in § 273.27(b). The sixty (60) day deadline can be extended after obtaining the written consent of the applicant.

(b) An application under this Part cannot be approved before February 1 preceding the school year for which the contract will be let.

§ 273.29 Negotiating the contract.

After the proposal for a contract has been approved by the Area Director or Commissioner as provided in § 273.22, the contract will be negotiated by a Bureau contracting officer assisted by Bureau education personnel.

Subpart C—Funding Provisions

§ 273.31 Distribution formula.

(a) Funds for both supplemental programs and operational support shall be apportioned among the States on a substantially equal basis, based upon the number of eligible Indian students for whom funds are sought, with allowances being made for the actual cost of delivering educational services in each State; except that, any State or contractor who meets criteria in this Part and received operational support in FY 1976 may continue to receive such funds in FY 1977 and FY 1978 in addition to those described above. However, the amount of such assistance each year will be equal to that State or contractor's prior year operational support allocation reduced by one-third of its FY 1976 operational support allocation. Further, in FY 1977 no State shall receive less than 75% of the supplemental program assistance they received in FY 1975.

(b) Except as described in paragraph (a) of this section, all other funds shall

V 40 213 NOV 4 75 XUM

be distributed among the contractors within each State so that each contractor will receive approximately the same amount for each eligible Indian student to be served under the contract.

(c) The Commissioner may make exceptions to the provisions of paragraphs (a) and (b) of this section based upon the special cultural, linquistic, social or educational needs of the communities involved, including the actual cost of education in the community.

§ 273.32 Pro rata requirement.

All monies provided by a contract pursuant to this Part, shall be expended only for the benefit of eligible Indian students. Where students other than eligible Indian students participate in programs contracted under this part, money expended under such contract shall be prorated to cover the participation of only the eligible Indian students, except where the participation of non-eligible students is so incidental as to be de minimus. Such de minimus participation must be approved by the Indian Education Committee.

§ 273.33 Use of funds for operational support.

All funds for school operational support shall be used to meet established State educational standards or Statewide requirements.

§ 273.34 Use of other Federal, State and local funds.

(a) Contract funds under this part shall supplement, and not supplant, Federal, State and local funds. Each contract shall require that the use of these contract funds will not result in a decrease in State, local, or Federal funds which would be made available for Indian students if there were no funds under this Part.

(b) State, local and other Federal funds must be used to provide comparable services to non-Indian and Indian students prior to the use of Johnson-O'Malley funds for the provision of supplementary program services to Indian children.

(c) Funds for operational support shall be used only as prescribed in § 273.33.

§ 273.35 Capital outlay or debt retirement.

In no instance shall contract funds provided under this part be used as payment for capital outlay or debt retirement expenses; except that, such costs are allowable if they are considered to be a part of the full per capita cost of educating eligible Indian students who reside in Federal boarding facilities for the purpose of attending public schools.

§ 273.36 Eligible subcontractors.

No contract funds under the Johnson-O'Malley Act shall be made available by the Bureau directly to other than tribal organizations, States, school districts and Indian corporations. However, tribal organizations, States, school districts, and Indian corporations receiving funds under this part may use the funds to subcontract for necessary services with any appropriate individual, organization or corporation.

§ 273.37 Use of funds outside of schools.

Nothing in these regulations shall prevent the Commissioner from contracting with Indian corporations who will expend all or part of the funds in places other than the public or private schools in the community affected.

§ 273.38 Equal quality and standard of education.

Contracts with State education agencies or school districts receiving funds under the provisions of this part shall provide educational opportunities to all Indian children within that school district on the same terms and under the same conditions that apply to all other students provided that it will not affect the rights of eligible Indian children to receive benefits from the supplemental programs as provided for in this part. School districts receiving funds under this part must insure that Indian children receive all aid from the State, and other proper sources other than this contract, which other schools in the district and other school districts similarly situated in the State are entitled to receive. In no instance shall there be discrimination against Indians or schools enrolling such Indians.

Subpart D—General Contract Requirements

§ 273.41 Special program provisions to be included in contract.

All contracts under this Part shall contain the following:

(a) The education plan required by §§ 273.14 and 273.18 and, as part of the education plan, the education programs approved by the Indian Education Committee(s) under § 273.17.

(b) Any formal written determination and findings made by the Area Director or Commissioner supporting the need for operational support as required by §§ 273.24(c) and 273.27(c).

(c) The provision that State, local, and other Federal funds shall be used to provide comparable services to non-Indian and Indian students prior to the use of Johnson-O'Malley funds for the provision of supplementary program services to Indian children, as required in § 273.34(b).

§ 273.42 Civil Rights Act violations.

In no instance shall there be discrimination against Indians or schools enrolling such Indians. When informed by a complainant or through its own discovery that possible violation of Title VI of the Civil Rights Act of 1964 exists within a State school district receiving funds under this Part, the Department of the Interior shall, in accordance with Federal requirements, notify the Department of Health, Education, and Welfare of the possible violation of Title VI. The Department of Health, Education, and Welfare will conduct an investigation into the matters alleged, pursuant to a Memorandum of Understanding between the Department of the Interior and the Department of Health, Education, and Welfare. If the report of the investigation conducted by the Department of Health, Education, and Welfare discloses a failure or threatened failure to comply with this Part, and if the noncompliance cannot be corrected by informal means, compliance with this Part may be effected by the suspension or termination of or refusal to contract or to continue financial assistance under the Johnson-O'Malley Act or by any other means authorized by law. As delineated in 43 CFR 17.1, 17.8, and 17.9, such other means may include reference to the Department of Justice with a recommendation that appropriate legal proceedings be brought by the United States to secure compliance or by formal hearing before the Commissioner or, at his discretion, before an administrative law judge designated in accordance with section 11 of the Administrative Procedure Act. The Secretary, may, by agreement with one or more other Federal departments, provide for the conduct of consolidated or joint hearings as prescribed in 43 CFR 17.8(e).

§ 273.43 Advance payments.

Advance payments to States, school districts and Indian corporations will be made in accordance with the applicable provisions of 41 CFR 1 as supplemented by 41 CFR 14 and 41 CFR 14H except 41 CFR Part 14H–70.

§ 273.44 Use and transfer of Government property.

(a) The use of Government-owned facilities for school purposes may be authorized when not needed for Government activities. Transfer of title to such facilities (except land) may be arranged under the provisions of the Act of June 4, 1953 (67 Stat. 41) subject to the approval of the tribal government if such property is located on a reservation.

(b) In carrying out a contract made under this Part, the Area Director or Commissioner may, with the approval of the tribal government, permit a contractor to use existing buildings, facilities, and related equipment and other personal property owned by the Bureau within his jurisdiction under terms and conditions agreed upon for their use and maintenance. The property at the time of transfer must conform to the minimum standards established by the Occupational Safety and Health Act of 1970 (84 Stat. 1590), as amended (29 U.S.C. 651). Use of Government property is subject to the following conditions:

(1) When nonexpendable Government property is turned over to public school authorities or Indian corporations under a use permit, the permittee shall insure such property against damage by flood, fire, rain, windstorm, vandalism, snow, and tornado in amounts and with companies satisfactory to the Federal officer in charge of the property. In case of damage or destruction of the property by flood, fire, rain, windstorm, vandalism, snow or tornado, the insurance money collected shall be expended only for repair or replacement of property. Otherwise, insurance proceeds shall be paid to the Bureau.

(2) If the public school authority is self-insured and can present evidence of that fact to the Area Director or Commissioner, insurance for lost or damaged property will not be required. However, the public school authority will be responsible for replacement of such lost or damaged property at no cost to the Government or for paying the Government enough to replace the property.

(3) The permittee shall maintain the property in a reasonable state of repair consistent with the intended use and educational purposes.

(c) The contractor may have access to existing Bureau records needed to carry out a contract under this Part, as follows:

(1) The Bureau will make the records available subject to the provisions of the Freedom of Information Act (5 U.S.C. 552), as amended by the Act of November 21, 1974 (Pub. L. 93–502, 88 Stat. 1561).

(2) The contractor may have access to needed Bureau records at the appropriate Bureau office for review and making copies of selected records.

(3) If the contractor needs a small volume of identifiable Bureau records, the Bureau will furnish the copies to the contractor.

§ 273.45 Indian preference.

(a) Any contract made by the Bureau with a State, school district or Indian corporation shall provide that the contractor shall, to the greatest extent feasible, give preference in and opportunities for employment and training to Indians.

(b) Any contract made by the Bureau with a State, school district or Indian corporation shall provide that the contractor shall, to the greatest extent feasible, give preference in the award of subcontracts to Indian organizations and Indian-owned economic enterprises.

(c) All subcontractors employed by the contractor shall, to the extent possible, give preference to Indians for employment and training and shall be required to include in their bid submission a plan to achieve maximum use of Indian personnel.

(d) In the performance of contracts under this Part 273 and subject to the provisions of Part 14H of Title 41, a tribal governing body may develop its own Indian preference requirements to the extent that such requirements are not inconsistent with the purpose and intent of paragraphs (a), (b) and (c) of this section.

§ 273.46 Liability and motor vehicle insurance.

(a) States, school districts and Indian corporations shall obtain public liability insurance under coptracts entered into with the Bureau under this Part. However, where the Bureau contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, the contractor may be exempted from this requirement.

(b) Notwithstanding paragraph (a) of this section, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the State, school district, or Indian corporation to provide liability insurance, regardless of how small the risk.

(c) If the public school authority is self-insured and can present evidence of that fact to the Area Director or Commissioner, liability and motor vehicle insurance will not be required.

§ 273.47 Recordkeeping.

A contractor will be required to maintain a recordkeeping system which will allow the Bureau to meet its legal records program requirements under the Federal Records Act (44 U.S.C. 3101 et seq.). Such a record system shall:

(a) Fully reflect all financial transactions involving the receipt and expenditure of funds provided under the contract in a manner which will provide accurate, current and complete disclosure of financial status; correlation with budget or allowable cost schedules; and clear audit facilitating data.

(b) Reflect the amounts and sources of funds other than Bureau contract funds which may be included in the operation of the contract.

(c) Provide for the creation, maintenance and safe guarding of records of lasting value, including those involving individual rights, such as permanent records and transcripts.

(d) Provide for orderly retirement of permanent records in accordance with General Records Schedules and the Bureau Records Control Schedule, when there is no established system set up by the State, school district, or Indian corporation.

§ 273.48 Audit and inspection.

(a) During the term of a contract under this Part and for three years after the project or undertaking is completed, the Comptroller General and the Secretary, or any of their duly authorized representatives, shall have access, for audit and examination purposes, to any of the contractor's books, documents, papers, and records which, in their opinion, may be related or pertinent to the contract or any subcontract.

(b) The contractor will be responsible for maintaining all documents such as invoices, purchase orders, cancelled checks, balance sheets and all other records relating to financial transactions in a manner which will facilitate auditing. The contractor will be responsible for maintaining files of correspondence and other documents relating to the administration of the contract properly separated from general records or cross-referenced to general files.

(c) The contractor receiving funds under this Part shall be responsible for contract compliance.

(d) The records involved in any claim or expenditure that has been questioned shall be further maintained until final determination has been made on the questioned expenditures.

(e) All contracts, non-confidential records concerning all students served by the program, reports, budgets, budget estimates, plans, and other documents pertaining to preceding and current year administration of the contract program shall be made available by the contractor and local school officials to each member of the Indian Education Committee and to members of the public upon request. The contractor or local school official shall provide, free of charge, single copies of such documents upon request.

§ 273.49 Freedom of information.

(a) Unless otherwise required by law, the Bureau shall not place restrictions on contractors which will limit public access to the contractor's records except when records must remain confidential.

(b) A contractor under this Part shall make all reports and information concerning the contract available to the Indian people which the contract affects. Reports and information may be withheld from disclosure only when both of the following conditions exist:

(1) The reports and information fall within one of the following exempt categories:

(i) Specifically required by statute or Executive Order to be kept secret.

(ii) Commercial or financial information obtained from a person or firm on a privileged or confidential basis.

(iii) Personnel, medical, social, psychological, academic achievement and similar files where disclosure would be a clearly unwarranted invasion of personal privacy.

(2) Disclosure is prohibited by statute or Executive Order or sound grounds exist for using the exemption given in paragraph (b)(1) of this section.

(c) A request to inspect or copy reports and information shall be in writing and must reasonably describe the reports and information requested. The request may be delivered or mailed to the contractor. Within ten (10) working days after receiving the request, the contractor shall determine whether to grant or deny the request. The requester shall be notified immediately of the determination.

(d) The time limit for making a determination may be extended up to an additional ten (10) working days for good reason. The requester shall be notified in writing of the extension, reasons for the extension, and date on which the determination is expected to be made.

§ 273.50 Annual reporting.

(a) A contractor under this Part shall make a detailed annual report to the approving official before September 15 of each year and covering the previous school year. The report shall include, but not be limited to, an accounting of the amounts and purposes for which the contract funds were expended, information on the conduct of the program, a quantitative evaluation of the effectiveness of the contract program in meeting the

V 40 213
NOV 4 75
XUM

stated objectives contained in the applicant's educational plans, and a complete accounting of actual receipts at the end of the contract period:

(b) In addition to the yearly reporting requirement given in paragraph (a) of this section, the contractor shall furnish other contract-related reports when and as required by the Area Director or Commissioner.

(c) A contractor under this Part shall send copies of the reports required by paragraphs (a) and (b) of this section to the Indian Education Committee(s) and to the tribe(s) under the contract at the same time as the reports are sent to the Bureau.

§ 273.51 Penalties.

If any officer, director, agent, or employee of, or connected with, any contractor or subcontractor under this Part embezzles, willfully misapplies, steals, or obtains by fraud any of the funds or property connected with the contract or subcontract, he shall be subject to the following penalties:

(a) If the amount involved does not exceed $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) If the amount involved exceeds $100, he shall be fined not more than $10,000 or imprisoned for not more than two years, or both.

§ 273.52 State school laws.

In those States where Public Law 83–280, 18 U.S.C. 1162 and 28 U.S.C. 1360 do not confer civil jurisdiction, State employees may be permitted to enter upon Indian tribal lands, reservations, or allotments if the duly-constituted governing body of the tribe adopts a resolution of consent for the following purposes:

(a) Inspecting school conditions in the public schools located on Indian tribal lands, reservations, or allotments.

(b) Enforcing State compulsory school attendance laws against Indian children, parents or persons standing in loco parentis.

§ 273.53 Applicable procurement regulations.

States, school districts, or Indian corporations wanting to contract with the Bureau under this part must comply with the applicable requirements in the Federal Procurement Regulations (41 CFR Part 1), as supplemented by the Interior Procurement Regulations (41 CFR Part 14), and the Bureau of Indian Affairs Procurement Regulations (41 CFR Part 14H), except 41 CFR Part 14H–70.

§ 273.54 Privacy Act requirements.

(a) When a contractor operates a system of records to accomplish a Bureau fucntion, the contractor shall comply with Subpart D of 43 CFR Part 2 which implements the Privacy Act (5 U.S.C. 552a). Examples of the contractor's responsibilities are:

(1) To continue maintaining those systems of records declared by the Bureau to be subject to the Privacy Act as published in the FEDERAL REGISTER.

(2) To make such records available to individuals involved.

(3) To disclose an individual's record to third parties only after receiving permission from the individual to whom the record pertains. 43 CFR 2.56 lists exceptions to this procedure.

(4) To establish a procedure to account for access, disclosures, denials, and amendments to records.

(5) To provide safeguards for the protection of the records.

(b) The contractor may not:

(1) Discontinue or alter any established systems of records without prior approval of the appropriate Bureau systems manager.

(2) Deny requests for notification or access of records without prior approval of the appropriate Bureau systems manager.

(3) Approve or deny requests for amendments of records without prior approval of the appropriate Bureau systems manager.

(4) Establish a new system of records without prior approval of the Department of Interior and the Office of Management and Budget.

(5) Collect information about an individual unless it is relevant or necessary to accomplish a purpose of the Bureau as required by statute or Executive Order.

(c) The contractor is subject to the penalties provided in subsection (i) of 5 U.S.C. 552a.

Subpart E—Contract Revision or Cancellation

§ 273.61 Contract revision or amendment.

Any contract made under this Part may be revised or amended as deemed necessary to carry out the purposes of the program being contracted. A contractor may make a written request for a revision or amendment of a contract to the Bureau contracting officer. However, no program approved by the Indian Education Committee shall be altered from the time of its original approval to the end of the contract period without the written approval of the Committee.

§ 273.62 Cancelling a contract for cause.

(a) Any contract entered into under this Part may be cancelled for cause when the contractor fails to perform the work called for under the contract or fails to permit an Indian Education Committee to perform its duties pursuant to this Part.

(b) Before cancelling the contract, the Bureau will advise the contractor in writing of the following:

(1) The reasons why the Bureau is considering cancelling the contract.

(2) The contractor will be given an opportunity to bring its work up to an acceptable level.

(c) If the contractor does not overcome the deficiencies in its contract performance, the Bureau shall cancel the contract for cause. The Bureau will notify the contractor, in writing, of the cancellation. The notice shall give the reasons for the cancellation and the right of the contractor to appeal under Subpart C of 43 CFR Part 4.

(d) When a contract is cancelled for cause, the Bureau will attempt to perform the work by another contract.

(e) Any contractor that has a contract cancelled for cause must demonstate that the cause(s) which led to the cancellation have been remedied before it will be considered for another contract.

Subpart F—Appeals

§ 273.71 Contract appeal.

A contractor may appeal an adverse decision or action of a Bureau contracting officer regarding a contract under this Part as provided in Subpart C of 43 CFR Part 4.

§ 273.72 Appeal from decision to cancel contract for cause.

A contractor may appeal the decision of a Bureau official to cancel a contract under this Part for cause. The appeal shall be made as provided in Subpart C of 43 CFR Part 4.

§ 273.73 Other appeals.

Any decision or action taken by a Bureau official under this Part, other than those given in §§ 273.71 and 273.72, may be appealed as provided in Part 2 of this chapter.

PART 274—SCHOOL CONSTRUCTION CONTRACTS OR SERVICES FOR TRIBALLY OPERATED PREVIOUSLY PRIVATE SCHOOLS

Subpart A—General Provisions

Sec.
274.1 Purpose.
274.2 Scope.
274.3 Definitions.
274.4 Effect on existing Indian rights.
274.5 Revision or amendment of regulations.

274.11 Eligible applicants.
274.12 Obtaining Application forms.
274.13 Contents of application.
274.14 Assistance in completing applications.
274.15 Tribal request.
274.16 Where to submit application.
274.17 When to submit application.
274.18 Agency Office review and action.
274.19 Area Office review and action.
274.20 Priorities for providing construction contracts or services.
274.21 Central Office review and action.
274.22 On-site inspection and cost estimate.
274.23 Preparing a commitment-to-fund listing.
274.24 Performing construction work.
274.25 Reapplication.
274.26 Funding provisions.

Subpart C—General Contract Requirements

274.31 Applicability.
274.32 Architectural design.
274.33 Facilities construction.
274.34 Selecting initial equipment.
274.35 Payment to contractors.
274.36 Use and transfer of Government property.
274.37 Wage and labor standards.
274.38 Indian preference.
274.39 Liability and motor vehicle insurance.
274.40 Recordkeeping.
274.41 Audit and inspection.
274.42 Freedom of information.
274.43 Reporting.
274.44 Repayment of funds.
274.45 Penalties.
274.46 Applicable procurement regulations.
274.47 Contract revision or amendment.
274.48 Cancelling a contract for cause.
274.49 Privacy Act requirements.

Subpart D—Appeals

274.51 Contract appeal.
274.52 Appeal from decision to cancel contract for cause.
274.53 Other appeals.

AUTHORITY: Sec. 204 and 208, Pub. L. 93–638, 88 Stat. 2203, unless otherwise noted.

Subpart A—General Provisions

§ 274.1 Purpose.

The purpose of the regulations in this Part is to give the application and approval process for obtaining a contract or services from the Bureau for school construction for previously private schools now controlled and operated by tribes or tribally approved Indian organizations under sections 204 and 208 of Title II of the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638, 88 Stat. 2203).

§ 274.2 Scope.

The Act authorizes the expenditure of funds authorized and appropriated under Part B of the Act to contract or provide services for school construction for tribally operated previously private schools. After an application has been completed and approved by the tribe, the application is forwarded through Bureau channels to the Commissioner for ranking by priority. If a project is within the funding priority, the Bureau contracting officer offers to negotiate a contract with the applicant subject to approval by the requesting tribe(s) for architectural-engineering design, facilities construction and purchase of equipment to provide educational facilities meeting Bureau space standards and construction code regulations. Subject to approval by the requesting tribe(s), the applicant then has the following options:

(a) Enter into a contract with the Bureau under which the applicant performs all or part of the necessary work with the Bureau performing the rest.

(b) Request that the Bureau perform or arrange for the performance of all the necessary work.

§ 274.3 Definitions.

As used in this Part:

(a) "Act" means the Indian Self-Determination and Education Assistance Act (Public Law 93–638, 88 Stat. 2203).

(b) "Area Director" means the official in charge of a Bureau of Indian Affairs Area Office.

(c) "Attendance area" means, in relation to a particular school, the area in which the children who are normally served by that school reside.

(d) "Bureau" means the Bureau of Indian Affairs.

(e) "Commissioner" means the Commissioner of Indian Affairs.

(f) "Contractor" means an applicant who has been awarded a contract under this Part.

(g) "Days" means calendar days.

(h) "Economic enterprise" means any commercial, industrial, agricultural, or business activity that is at least 51 percent Indian owned, established or organized for the purpose of profit.

(i) "Existing school facilities" means all facilities constructed as school buildings and used continuously for classroom purposes. Excluded are basement rooms, hallways, or other space, the use of which for school purposes (in view of the character, inaccessibility or other equally cogent reasons) seriously restricts the educational objective, or has impaired or will impair the health or safety of the school children.

(j) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(k) "Indian" means a person who is a member of an Indian tribe.

(l) "Initial equipment" means any movable equipment necessary and appropriate to equip minimum school facilities. Such term does not include equipment purchased to replace any equipment which is obsolete or worn out and which was purchased with funds under the Act.

(m) "Minimum school facilities" means classroom and auxiliary rooms and initial equipment necessary to operate an approved educational program for the membership of the school at normal capacity in accordance with criteria established by the Bureau.

(n) "Previously private school" means a school (other than a Federal school formerly operated by the Bureau), that is operated primarily for Indian students from age 3 years through grade(s) 12; and, which at the time of application is controlled, sanctioned, or chartered by the governing body(s) of an Indian tribe(s).

(o) "Secretary" means the Secretary of the Interior.

(p) "Superintendent" means the official in charge of a Bureau of Indian Affairs Agency Office.

(q) "Tribal government", "tribal governing body", and "tribal council" means the recognized governing body of an Indian tribe.

(r) "Tribal organization" means the recognized governing body of any Indian tribe; or any legally established organization of Indians or tribes which is controlled, sanctioned, or chartered by such governing body or bodies or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities; *Provided*, That a request for a contract or services must be made by the Indian tribe that will receive services under the contract or from the Bureau by other means; *Provided further*, That in any case where a contract or services will affect more than one Indian tribe, the approval of each such Indian tribe shall be prerequisite to the approval of the application for the contract or services.

§ 274.4 Effect on existing Indian rights.

Nothing in these regulations shall be construed as:

(a) Affecting, modifying, diminishing, or otherwise impairing the sovereign immunity from suit enjoyed by an Indian tribe;

(b) Authorizing or requiring the termination of any existing trust responsibility of the United States with respect to the Indian people; or

(c) Permitting significant reduction in services to Indian people as a result of this Part.

§ 274.5 Revision or amendment of regulations.

In order to make any substantive revisions or amendments to regulations in this Part, the Secretary shall take the following actions:

(a) Consult with Indian tribes and national and regional Indian organizations to the extent practicable about the need for revision or amendment and consider their views in preparing the proposed revision or amendment.

(b) Publish the proposed revisions or amendments in the Federal Register as proposed rulemaking to provide adequate notice to, and receive comments from, all interested parties.

(c) After consideration of all comments received, publish the regulations in the FEDERAL REGISTER in final form not less than 30 days before the date they are made effective.

(d) Annually consult with Indian tribes and national and regional Indian organizations about the need for revision or amendment, and consider their views in preparing the revision or amendment.

(e) Nothing in this section shall preclude Indian tribes or national or regional Indian organizations from initiating request for revisions or amendments subject to paragraph (a), (b), and (c), of this section.

Subpart B—Application Process

§ 274.11 Eligible applicants.

Any tribal organization which meets all of the following criteria is eligible to apply for a contract with or services from the Bureau for school construction:

(a) The tribal organization must control and manage the previously private school for which the organization is applying for a contract or services under this Part.

(b) Title to the land on which the construction for the previously private school is located must be vested in the tribe or the United States; or, a lease for the useful life of the improvement must be entered into with the tribe or the United States for the ground on which it is located.

V 40 213 NOV 4 75 XUM

(c) The previously private school controlled and managed by the tribal organization must have a minimum current enrollment or projection of 25 students through grade(s) 8 and/or 50 students in grades 9 through 12.

§ 274.12 Obtaining application forms.

Application forms, instructions and related application materials are available from Agency Superintendents, Area Directors and the Commissioner. Use of standard application forms will facilitate processing of applications. However, they are not required if the information contained in § 274.13 is stated in the applicant tribe's request for a contract or services.

§ 274.13 Contents of application.

An application for funding under this Part shall be in writing and shall contain the following information:

(a) Full name, address and telephone number of the tribal organization which is applying for the contract or services.

(b) Full name of tribe(s) with which the tribal organization is affiliated.

(c) Full name of tribe(s) directly benefiting or receiving services from the proposed contract or from the Bureau by other means.

(d) Documentation of the tribal request in the form of a resolution as outlined in § 274.15.

(e) Date of submission to the Bureau and the name of the office where the application was submitted.

(f) Signature by the authorized representative of the tribal organization and the date thereof.

(g) Outline of the educational program including:

(1) Narrative description of elementary programs with educational philosophy.

(2) Narrative description of secondary programs with educational philosophy. If application is for secondary facility, include course offering with each course outlining enrollment, class size, class meetings per week, minutes per class and fraction of year taught.

(3) What will happen to the education of the students now, in 1 to 3 years and in 4 to 10 years if the proposed facilities are not constructed? Discuss all available options, including but not limited to:

(i) Off-reservation boarding schools.

(ii) On-reservation boarding schools.

(iii) Public, Bureau or other day schools.

(iv) Temporary facilities.

(h) Outline geographic attendance boundaries and include:

(1) Map of attendance area with description.

(2) Description of other Federal, public and/or private schools within the above attendance boundary.

(3) Discussion of impact the project will have on the schools listed in paragraph (h) (2) of this section and on feeder schools.

(4) Bus routes and/or change in bus routes caused by construction of facilities.

(i) Outline school enrollment characteristics and data including:

(1) Present total enrollment and enrollment by grade.

(2) Enrollment for the past six years by total and by grade.

(3) Estimate of enrollment by year for the next five years by total and by grade.

(4) Source and/or reasons for any student population growths.

(5) Number of students residing in attendance area but enrolled in other schools, number of students attending school but residing outside attendance area, and number of people by age group residing in attendance area between one and twenty-five. The data should be current as of the time of application.

(j) Outline project description and justification data including:

(1) Function of proposed new facility, i.e., kitchen dining building for 300 students grades K–8, etc.

(2) Data such as capacity, date constructed, square footage and condition of existing facility described in paragraph (j) (1) of this section which needs to be replaced.

(3) Problems which may be encountered such as lack of adequate construction site, disputed jurisdiction, flood plain, soil conditions, archeological clearance, lack of electric power or water.

(4) Justification for project (Choose one and explain):

(i) The facility has been destroyed by a natural disaster.

(ii) The facility is unsafe or unsanitary. Documentation in the form of an engineering and/or safety report must be included for facilities that are unsafe or unsanitary. Also, there are no local educational facilities available that can provide seats for the unhoused students.

(iii) The same conditions exist as given in paragraph (j) (4) (ii) of this section for unsafe or unsanitary facilities except that other facilities can be used to seat the unhoused students temporarily.

(iv) Unhoused pupils due to enrollment and population changes.

(v) The facility is functionally obsolete. It will not meet the education program or other requirements for such reasons as poor arrangtment of rooms, inadequate spaces and need for structural and utility changes.

(vi) The facility is functionally obsolete due to age. Operation and maintenance is costly and the facility is impractical to maintain.

(vii) The facility will make it possible for children to attend school nearer their home.

(5) A current overall plan for constructing Bureau facilities, prepared by the Bureau and approved by the tribes affected.

(6) Attendance area school construction plans and memoranda of agreement. Attach any school construction plans for the applicable attendance area for all Federal, public or private schools and any memoranda of agreement concerning such plans. If there are none, a current status report shall be submitted.

§ 274.14 Assistance in completing applications.

An applicant may obtain assistance in completing the application forms from the Agency or Area Offices. The Superintendent, Area Director, or Commissioner shall make any information available to the applicant needed to prepare the application except as restricted from disclosure by the Freedom of Information Act (5 U.S.C. 552), as amended by the Act of November 21, 1974 (Pub. L. 93–502; 88 Stat. 1561).

§ 274.15 Tribal request.

(a) Before the Bureau can approve a tribal organization's application for a contract or services, it must be requested to do so by the Indian tribe to be affected by the contract or services. The Indian tribe's request shall be in the form of a resolution by the tribal governing body. If the tribal organization is applying for a contract or services which will affect more than one tribe, an authorizing resolution from each tribal governing body must be obtained before submitting the application to the Bureau for approval.

(b) The resolution of the tribal governing body shall also specify the tribal organization which is to operate the school. The resolution shall include the results of the vote (the number for and against), the date the resolution was approved, and signature of the person authorized to certify the accuracy of the information contained in the resolution.

(c) The tribal governing body's request (resolution) should include the following:

(1) When the tribal organization is the tribal governing body, the expiration date of the authorities granted by the resolution.

(2) When the tribal organization is other than the tribal governing body:

(i) The name of the tribal organization.

(ii) The tribal office or official to which the Bureau should send copies of documents and correspondence.

(iii) Any limitations on authorities granted the tribal organization.

(3) The tribal governing body's approval or disapproval of the Bureau's current overall educational facilities construction plan which includes the new construction proposed by this project to ensure:

(i) Coordination of facility construction with public school projects.

(ii) Coordination of facility construction with other agencies.

(iii) Approval and support of the proposed project.

(d) Any procedures given in this section concerning the manner in which a tribal governing body passes a tribal constitution, law, code, ordinance, or other written document. In such cases, the tribal law or procedures shall be cited in the resolution and shall take precedence.

§ 274.16 Where to submit application.

(a) The completed application with documentation of the tribal request(s) shall be delivered or mailed to the Superintendent having jurisdiction over the tribe(s) requesting the contract or services.

(b) When the contract or services requested in the application will benefit more than one tribe under the jurisdiction of more than one Agency Office within one Area, the application and documentation of the tribal requests shall be delivered or mailed to the Area Director involved.

(c) When the contract or services requested in the application will benefit more than one tribe under the jurisdiction of more than one Area Office, the application and documentation of the tribal requests shall be delivered or mailed to the Commissioner.

§ 274.17 When to submit application.

Applications may be submitted by a tribal organization to the Bureau at any time to be placed on the Bureau's priority listing.

§ 274.18 Agency Office review and action.

(a) The Superintendent has 30 days from receipt of an application to notify the applicant in writing of its receipt, review the application for completeness, and request any needed information from the applicant.

(b) When the Superintendent has determined that the application is complete, he will forward the completed application with documentation of the tribal request(s) to the Area Director having jurisdiction over that Agency Office with a written statement that the application is complete.

§ 274.19 Area Office review and action.

Within 30 days after receiving an application directly or from the Superintendent, the Area Director will take the following actions:

(a) Notify the applicant in writing that the application was received in the Area Office.

(b) Review each application submitted directly to the Area Office as provided in § 274.16(b) for completeness and obtain any needed information from the applicant.

(c) Assign each proposed project an Area Office priority. The Area Office will include an updated priority index with each application or group of applications transmitted to the Commissioner for appropriate action.

(d) Forward each application and documentation of tribal request(s) to the Commissioner.

§ 274.20 Priorities for funding construction.

As prescribed in §§ 274.19(c) and 274.21(b), the Area Director and Commissioner shall evaluate and assign priorities on the basis of the application data submitted as required by § 274.13 including:

(a) Education program required by § 274.13(g).

(b) Geographic attendance boundaries given in § 274.13(h).

(c) Enrollment characteristics given in § 274.13(i).

(d) Project description and justification required by § 274.13(j).

§ 274.21 Central Office review and action.

Within 30 days after receiving an application directly or from the Area Director, the Commissioner will take the following actions:

(a) Notify the applicant in writing that the application was received in the Central Office.

(b) Review each application submitted directly to the Commissioner as given in § 274.16(c) for completeness, request any needed information from the applicant, and assign the proposed project a priority.

(c) Update the Bureauwide priority listing of all approved projects in order of priority with the project with the highest priority listed first. As new applications are received, they will be added to the priority listing according to their ranking.

(d) Notify each applicant in writing of the project's priority ranking on the Bureauwide list. The applicant will be notified of any subsequent changes to that ranking if new applications were received with a higher ranking.

§ 274.22 On-site inspection and cost estimate.

(a) No later than three months before the new fiscal year begins, the Commissioner or his representative shall conduct an on-site inspection for projects high on the priority listing, beginning with the project ranked highest on the Bureauwide priority listing. The on-site inspection is to determine which buildings are to be retained, demolished or remodeled and to gather initial information required for development of the planning document.

(b) From this information, a tentative cost estimate for design, construction and equipment will be made for budget purposes in cooperation with the tribal organization.

§ 274.23 Preparing a commitment-to-fund listing.

As each high priority project is given an on-site inspection and a tentative cost estimate is made, the project will be placed on a commitment-to-fund listing. Projects will be added as long as the total of the tentative cost estimates is less than the amount of funds appropriated for previously private school construction for the new fiscal year. Each applicant will be notified in writing when the project has been placed on the commitment-to-fund listing.

§ 274.24 Performing construction work.

When a project has been placed on the commitment-to-fund listing, the applicant will be given the following options, subject to approval by the requesting tribe(s):

(a) To negotiate a contract with the Bureau to perform all of the work or part of the work needed for the project with the Bureau performing the rest. Such contracts shall comply with the requirements in Subpart C of this Part and with 41 CFR Part 14H–70.

(b) To have the Bureau perform or arrange for the performance of all the work needed.

§ 274.25 Reapplication.

Once an applicant has applied for a contract or services and the project has been placed on the Bureauwide priority listing, there is no need to reapply. The project will be carried on the priority listing until placed on the commitment-to-fund list. However, if changes occur which would affect the project's rank and, thus, its priority, the applicant must submit a new application.

§ 274.26 Funding provisions.

(a) No funds from any contract under this Part shall be made available by the Bureau directly to other than Indian tribes and tribal organizations. However, Indian tribes and tribal organizations assisted under this Part may use funds provided to subcontract for necessary services.

(b) Twenty-five (25) per cent of all funds appropriated under Title II, Part B, section 204 of the Act shall be expended for construction of previously private schools controlled and managed by a tribal organization. Any unobligated funds will be retained until completion of the project and unexpended funds returned to the Bureau. Projects which are partially funded shall be given first consideration for the additional funding necessary to complete such projects.

Subpart C—General Contract Requirements

§ 274.31 Applicability.

This Subpart applies only when the applicant exercises the option of contracting with the Bureau to perform all or part of the construction work.

§ 274.32 Architectural design.

(a) Plans and specifications for a project shall comply with such Federal, State and local laws, ordinances and regulations pertaining to standards or construction and safety requirements as may be applicable.

(b) An Architect/Engineer shall be selected by the contractor subject to the advice and assistance of the Commissioner who shall counsel the contractor with respect to professional qualifications and performance history of firms so the best qualified firm for the work is selected. No Architect/Engineer agreement shall be entered into by the contractor until the Commissioner has reviewed the agreement and consented in writing to its provisions.

(c) Plans and specifications must conform to the project description, with approved revisions. Such plans and specifications must be forwarded for the approval of the Commissioner including schematic design, design development, and final construction document.

§ 274.33 Facilities construction.

(a) The Commissioner may assist in preconstruction and construction activi-

V 40 213 NOV 4 75 XUM

ties to assure conformity with the requirements of the Act. Approval of all proposed preconstruction documents will be obtained from the Commissioner. Assistance prior to the preparation of these and similar documents will be provided, upon request, by the Commissioner or his representative. A preliminary conference may be suggested with the project architect and others if that seems desirable. The Commissioner will provide sufficient copies of all forms used to prepare the documents required for the project.

(b) The Commissioner will provide, upon request, technical supervision and services to the contractor in connection with the construction of school facilities. When appropriate, such services will provide assistance with periodic inspection of construction progress and determine the propriety of making partial payments as construction progresses.

§ 274.34 Selecting initial equipment.

Equipment procured with payments under this Part must be approved by the Commissioner before invitations for bids or requests for proposals as to the acquisition of such equipment are issued. In order to obtain such approval, a list of equipment to be procured (indicating quantities, costs, and specifications) shall be provided to the Commissioner for prior approval.

§ 274.35 Payment to contractors.

(a) At the request of a contractor, the Bureau contracting officer may make advance payments under contracts made under this Part. The requirements given in this section and in Chapter 2000 of the Treasury Fiscal Requirements Manual apply to making the advance payments.

(b) Any request for advance payment by a contractor shall specify the amount(s) required and the dates such advance(s) will be required and shall be supported by a schedule of estimated expenditures.

(c) An initial advance shall be limited to the amount of estimated expenditures for a period of time required to effect payment, based on experience in the locality. The initial advance shall be made in amounts and at times determined suitable to satisfy the minimum essential needs of the contractor.

(d) Later advances shall be made at times and in amounts determined necessary to insure availability of funds for timely payment of the contractor's obligations and to minimize the time between withdrawal from the Treasury and expenditure. Requests for advances after an initial advance shall be accompanied and supported by a report of expenditures to date and the amount of funds on hand.

§ 274.36 Use and transfer of Government property.

(a) The use of Government-owned facilities for tribal purposes may be authorized when not needed for Government activities. Transfer of title to such facilities may be arranged under the provisions of the Act of June 4, 1953 (67 Stat. 41), subject to the approval of the tribal government if property is located on a reservation.

(b) In carrying out a contract made under this Part, the Commissioner may, with the approval of the tribal government, permit a contractor to use existing buildings, facilities, and related equipment and other personal property owned by the Bureau within his jurisdiction under terms and conditions agreed upon for their use and maintenance. The property at the time of transfer must conform to the minimum standards established by the Occupational Safety and Health Act of 1970 (84 Stat. 1590), as amended (29 U.S.C. 651).

(c) Use of Government property is subject to the following conditions:

(1) When nonexpendable Government property is turned over to the tribal organization under a use permit, the permittee shall insure the property against damage by flood, fire, rain, windstorm, vandalism, snow and tornado in amounts and with companies satisfactory to the Federal officer in charge of the property. In case of damage or destruction of the property by flood, fire, rain, windstorm, vandalism, snow or tornado, the insurance money collected shall be expended only for repair or replacement of the property. Otherwise, insurance proceeds shall be paid to the Bureau.

(2) If the tribal organization is self-insured and can present evidence of that fact to the Commissioner, insurance for lost or damaged property will not be required. However, the tribal organization will be responsible for replacement of such lost or damaged property at no cost to the Government or for paying the Government enough to replace the property.

(3) The permittee shall maintain the property in a reasonable state of repair consistent with the intended use and educational purposes.

(d) The contractor may have access to existing Bureau records needed to carry out a contract under this Part, as follows:

(1) The Bureau will make the records available subject to the provisions of the Freedom of Information Act (5 U.S.C. 552), as amended by the Act of November 21, 1974 (Pub. L. 93-502, 88 Stat. 1561).

(2) The contractors may have access to needed Bureau records at the appropriate Bureau office for review and making copies of selected records.

(3) If the contractor needs a small volume of identifiable Bureau records, the Bureau will furnish the copies to the contractor.

(4) Where a large volume of records are needed and copying is not practical or feasible, the records may be physically located at the contract site provided that a Bureau official is designated by the Commissioner or Area Director as custodian of the records.

§ 274.37 Wage and labor standards.

All laborers and mechanics employed by contractors or subcontractors in constructing, altering, or repairing buildings or other facilities in connection with contracts under this Part shall be paid wages not less than those on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act of March 3, 1931 (46 Stat. 1494), as amended. However, this requirement does not apply where the contractor is the recognized governing body of the tribe and the construction, alteration or repair work is being performed by the tribal organization or the tribe with its own employees.

§ 274.38 Indian preference.

(a) Any contract made by the Bureau with a tribal organization shall provide that the contractor shall, to the greatest extent feasible, give preference in and opportunities for employment and training to Indians.

(b) Any contract made by the Bureau with a tribal organization shall provide that the contractor shall, to the greatest extent feasible, give preference in the award of subcontracts to Indian organizations and Indian-owned economic enterprises.

(c) All subcontractors employed by the contractor shall, to the extent possible, give preference to Indians for employment and training and shall be required to include in their bid submission a plan to achieve maximum use of Indian personnel.

(d) In the performance of contracts under this Part 274 and subject to the provisions of Part 14H-70 of Title 41, a tribal governing body may develop its own Indian preference requirements that are not inconsistent with the purpose and intent of paragraph (a), (b), and (c) of this section.

§ 274.39 Liability and motor vehicle insurance.

(a) Tribal organizations shall obtain public liability insurance under contracts entered into with the Bureau under this Part. However, where the Bureau contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, the contract may be exempted from this requirement.

(b) Notwithstanding paragraph (a) of this section, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the tribal organization to provide liability insurance, regardless of how small the risk.

§ 274.40 Recordkeeping.

A contractor will be required to develop and maintain a record-keeping system which will:

(a) Fully reflect all financial transactions involving the receipt and expenditure of funds provided under the contract in a manner which will provide accurate, current and complete disclosure of financial status; correlation with budget or allowable cost schedules; and clear audit facilitating data.

(b) Reflect the amounts and sources of funds other than Bureau contract funds which may be included in the construction project.

(c) Provide for the creation, maintenance and safeguarding of records of lasting value.

§ 274.41 Audit and inspection.

(a) During the term of a contract under this Part and for three years after the project or undertaking is completed, the Comptroller General and the Secretary, or any of their duly authorized representatives, shall have access for audit and examination purposes to any of the contractor's books, documents, papers, and records which, in their opinion, may be related or pertinent to the contract or any subcontract.

(b) The contractor will be responsible for maintaining all documents such as invoices, purchase orders, cancelled checks, balance sheets and all other records relating to financial transactions in a manner which will facilitate auditing. The contractor will be responsible for maintaining files of correspondence and other documents relating to the administration of the program under the contract properly separated from general records or cross-referenced to general files.

(c) The contractor receiving funds under this Part shall be primarily responsible for contract compliance.

(d) The records involved in any claim or expenditure that has been questioned shall be further maintained until final determination has been made on the questioned expenditure.

(e) All contracts, reports, budgets, budget estimates, plans, and other documents pertaining to administration of the contract shall be made available by the contractor. The contractor shall provide, free of charge, single copies of such documents upon request.

§ 274.42 Freedom of information.

(a) Unless otherwise required by law, the Bureau shall not place restrictions on contractors which will limit public access to the contractor's records except when records must remain confidential.

(b) A contractor under this Part shall make all reports and information concerning the contract available to the Indian people which the contractor serves or represents. Reports and information may be withheld from disclosure only when both of the following conditions exist:

(1) The reports and information fall within one of the following exempt categories:

(i) Specifically required by statute or Executive Order to be kept secret.

(ii) Commercial or financial information obtained from a person or firm on a privileged or confidential basis.

(iii) Personnel, medical, and similar files where disclosure would be a clearly unwarranted invasion of personal privacy.

(iv) Geological and geophysical information and data concerning wells.

(2) Disclosure is prohibited by statute or Executive Order or sound grounds exist for using the exemption given in paragraph (b)(1) of this section.

(c) A request to inspect or copy reports and information shall be in writing and must reasonably describe the reports and information requested. The request may be delivered or mailed to the contractor. Within ten (10) working days after receiving the request, the contractor shall determine whether to grant or deny the request. The requester shall be notified immediately of the determination.

(d) The time limit for making a determination may be extended up to an additional ten (10) working days for good reason. The requester shall be notified in writing of the extension, reasons for the extension, and the date on which the determination is expected to be made.

§ 274.43 Reporting.

(a) A contractor under this Part shall make a detailed report to the Commissioner after construction is completed. The report shall include, but not be limited to, an accounting of the amounts and purposes for which the contract funds were expended.

(b) The contractor shall furnish other contract-related reports when and as required by the Commissioner.

(c) A contractor under this Part shall send copies of the reports required by paragraphs (a) and (b) of this section to the tribal governing body(s) who requested the contract at the same time as the reports are sent to the Bureau.

§ 274.44 Repayment of funds.

Any funds paid under a contract entered into under this Part which are not expended, obligated or used for the purposes of the contract during its term shall be returned to the Bureau.

§ 274.45 Penalties.

If any officer, director, agent, or employee of, or connected with, any contractor or subcontractor under this Part embezzles, willfully misapplies, steals, or obtains by fraud any of the funds or property connected with the contract or subcontract, he shall be subject to the following penalties:

(a) If the amount involved does not exceed $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) If the amount involved exceeds $100, he shall be fined not more than $10,000 or imprisoned for not more than two years, or both.

§ 274.46 Applicable procurement regulations.

41 CFR Part 14H-70 provides the contract clauses which shall be included in contracts made with tribal organizations under this Part and places some requirements on them in addition to those given in this Subpart.

§ 274.47 Contract revision or amendment.

(a) Any contract made under this Part may be revised or amended as deemed necessary to carry out the purposes of the contract. No revision or amendment shall be made without the consent of the contractor. A contractor may make a written request for a revision or amendment of a contract to the Bureau contracting officer.

(b) If the contracting officer disapproves the proposed revision or amendment of the contract, he will notify the contractor in writing within 30 days after receiving the request. The notice shall state:

(1) The objections to the requested revision or amendment.

(2) The right of the contractor to appeal as provided in Subpart C of 43 CFR Part 4.

§ 274.48 Cancelling a contract for cause.

(a) Any contract entered into under this Part may be cancelled for cause when the contractor fails to perform the work called for under the contract.

(b) Before cancelling the contract, the Bureau will advise the contractor in writing of the following:

(1) The reasons why the Bureau is considering cancelling the contract.

(2) That the contractor will be given an opportunity to bring its work up to an acceptable level.

(3) That the Bureau may furnish technical advice and assistance to help overcome the deficiencies in the contract performance, when requested.

(c) If the contractor does not overcome the deficiencies in its contract performance, the Bureau will cancel the contract for cause. The Bureau will notify the contractor, in writing, of the cancellation. The notice shall give the reasons for the cancellation and the right of the contractor to appeal under Subpart C of 43 CFR Part 4.

(d) When a contract is cancelled for cause, the Bureau will either perform the work with its own forces or by another contract, as appropriate. However, when the contract is with other than the governing body of the Indian tribe, the advice of the tribe(s) will be obtained to determine how they wish the work to be performed.

§ 274.49 Privacy Act requirements.

(a) When a contractor operates a system of records to accomplish a Bureau function, the contractor shall comply with Subpart D of 43 CFR Part 2 which implements the Privacy Act (5 U.S.C. 552 a). Examples of the contractor's responsibilities are:

(1) To continue maintaining those systems of records declared by the Bureau to be subject to the Privacy Act as published in the FEDERAL REGISTER.

(2) To make such records available to individuals involved.

(3) To disclose an individual's record to third parties only after receiving permission from the individual to whom the record pertains. 43 CFR 2.56 lists exceptions to this procedure.

(4) To establish a procedure to account for access, disclosures, denials, and amendments to records.

(5) To provide safeguards for the protection of the records.

(b) The contractor may not:

(1) Discontinue or alter any established systems of records without prior

V 40 213
NOV 4 75
XUM

approval of the appropriate Bureau systems manager.

(2) Deny requests for notification or access of records without prior approval of the appropriate Bureau systems manager.

Subpart D—Appeals

§ 274.51 Contract appeal.

A contractor may appeal an adverse decision or action of a Bureau contracting officer regarding a contract under this Part as provided in Subpart C of 43 CFR Part 4.

§ 274.52 Appeal from decision to cancel contract for cause.

A contractor may appeal the decision of a Bureau official to cancel a contract under this Part for cause. The appeal shall be made as provided in Subpart C of 43 CFR Part 4.

§ 274.53 Other appeals.

Any decision or action taken by a Bureau official under this Part, other than those given in §§ 274.51 and 274.52 may be appealed only as provided in Part 2 of this chapter.

PART 275—STAFFING

Sec.
275.1 Purpose and scope.
275.2 Definitions.
275.3 Methods for staffing.
275.4 Implementing regulations.

AUTHORITY: Sec. 502, 84 Stat. 1909, 1925; Sec. 105, Pub. L. 93-638, 88 Stat. 2203; 25 U.S.C. 48.

§ 275.1 Purpose and scope.

The purpose of this Part is to outline methods available to tribes for utilizing the services of Bureau employees. These regulations are not intended to prevent an Indian tribe or tribal organization from staffing their programs by other methods they feel appropriate. However, when an Indian tribe or tribal organization decides to provide Bureau employees certain Federal benefits, Civil Service Commission regulations must be adhered to.

§ 275.2 Definitions.

As used in this Part:

(a) "Act" means the Indian Self-Determination and Education Assistance Act (Public Law 93-638, 88 Stat. 2203).

(b) "Area Director" means the official in charge of a Bureau of Indian Affairs Area Office.

(c) "Bureau" means the Bureau of Indian Affairs.

(d) "Commissioner" means the Commissioner of Indian Affairs.

(e) "Days" means calendar days.

(f) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony, or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(g) "Indian" means a person who is a member of an Indian tribe.

(h) "Superintendent" means the official in charge of a Bureau of Indian Affairs Agency Office.

(i) "Tribal Chairman" means tribal chairman, governor, chief or other person recognized by the tribal government as its chief executive officer.

(j) "Tribal government" "tribal governing body," and "tribal council" means the recognized governing body of any Indian tribe.

(k) "Tribal organization" means the recognized governing body of any Indian tribe; or any legally established organization of Indians or tribes which is controlled, sanctioned, or chartered by such governing body or bodies or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities.

§ 275.3 Methods for staffing.

(a) An Iidian tribal organization may use any of the following three methods to employ or obtain the services of Bureau employees:

(1) Agreement in accordance with the Intergovernmental Personnel Act of 1970 (5 U.S.C. 3371-3376). The agreement may be arranged between the tribal organization, the employee, and the Area Director or Commissioner. Assistance will be provided by the Area Personnel Office in complying with Civil Service instructions (Federal Personnel Manual Chapter 334) for completing an agreement.

(2) Employment of Bureau employees on or before December 31, 1985, when serving under an appointment not limited to one year or less. A mutual agreement will be made between a tribal organization and the employee before leaving Federal employment to retain coverage for any of the following Federal benefits:

(i) Compensation for work injuries.

(ii) Retirement.

(iii) Health insurance.

(iv) Life insurance.

(3) An agreement by an Indian tribe in accordance with the 1834 Act (25 U.S.C. 48) may be made in connection with contracts under section 102 of the Act.

(i) The agreement may provide for the tribal government to direct the day-to-day activities of Bureau employees. Tribal government direction of Bureau employees means the tribal chairman or other tribal official, as designated by the tribal governing body, is responsible for the planning, coordination, and completion of the daily on-the-job assignments of Bureau employees. The daily assignments of each such Bureau employee are limited to those that fall within the general range of duties prescribed in the employee's Bureau position.

(ii) The agreement to direct day-to-day activities of Bureau employees shall include all employees:

(A) whose positions are in the program or portion of the program to be contracted; or

(B) in a portion of the program to continue under Bureau operation in connection with a contract for other portions of the program.

(iii) The proposed agreement will be worked out between the tribe, the Superintendent, and the Area Director and forwarded to the Commissioner for final approval.

(b) When a contract application under Part 271 of this chapter does not include a proposed agreement for direction of Bureau employees, the application must be submitted at least 120 days in advance of the proposed effective date of the contract to allow time for placement of affected employees.

§ 275.4 Implementing regulations.

Regulations to implement section 105 of the Act will be issued by the Civil Service Commission. The regulations will cover the situations described in paragraphs (a) (1) and (a) (2) of § 275.3.

PART 276—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS

Sec.
276.1 Purpose and scope.
276.2 Definitions.

276.14 Budget revision.
276.15 Grant closeout.
276.16 Subgrants and subcontracts to nonprofit organizations.

APPENDIX A—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO GRANTS

APPENDIX B—FINANCIAL REPORTING REQUIREMENTS

AUTHORITY: 34 CFR 256; Sec. 104, Public Law 93-638, 88 Stat. 2203, unless otherwise noted.

§ 276.1 Purpose and scope.

(a) The purpose of the regulations in this Part is to give the uniform administrative requirements for grants awarded by the Bureau of Indian Affairs.

(b) The regulations in this Part shall apply to all grants awarded by the Bureau of Indian Affairs unless the Part which gives the application process and special requirements for the specific type of grant states otherwise.

§ 276.2 Definitions.

As used in this part:

(a) "Advance by Treasury check" means a payment made by a Treasury check to a grantee upon its request or through the use of predetermined payment schedules before payments are made by the grantee.

(b) "Date of completion" means the date when all work under a grant is completed or the date in the grant award document, or any supplement or amendment thereto, on which Federal assistance ends.

(c) "Disallowed costs" means those charges to a grant which the Bureau or its representative determines to be unallowable.

(d) "Economic enterprise" means any commercial, industrial, agricultural or business activity that is at least 51 percent Indian owned, established or organized for the purpose of profit.

(e) "Excess property" means property under the control of the Bureau which, as determined by the Commissioner, is no longer required for its needs.

(f) "Expendable personal property" means all tangible personal property other than nonexpendable property.

(g) "Grant closeout" means the process by which the Bureau determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the Bureau.

(h) "Grantee" means the entity which is responsible for administration of the grant.

(i) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(j) "Letter of credit" means an instrument certified by an authorized official of the Bureau which authorizes a grantee to draw funds when needed from the Treasury, through a Regional Disbursing Office, in accordance with the provisions of Treasury Circular No. 1075 as modified and supplemented by a memorandum of understanding between the Bureau of Government Financial Operation, Department of the Treasury and the Department of the Interior.

(k) "Nonexpendable personal property" means tangible personal property having useful life of more than one year and an acquisition cost of $300 or more per unit. A grantee may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined above.

(l) "Personal property" means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence, such as patents, inventions, and copyrights.

(m) "Real property" means land, land improvements, structures and appurtenances thereto, excluding removable personal property, machinery and equipment.

(n) "Reimbursement by Treasury check" means a payment made to a grantee with a Treasury check upon request for reimbursement from the grantee.

(o) "Suspension of a grant" means an action by the Bureau which temporarily suspends assistance under the grant pending corrective action by the grantee or pending decision to terminate the grant by the Bureau.

(p) "Termination of a grant" means the cancellation of Federal assistance, in whole or in part, under a grant at any time prior to the date of completion.

(q) "Tribal government", "tribal governing body" and "tribal council" means the recognized governing body of an Indian tribe.

(r) "Tribal organization" means the recognized governing body of any Indian tribe or any legally established organization of Indians which is controlled, sanctioned, or chartered by such governing body or bodies of which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities.

§ 276.3 Cash depositories.

(a) Except for situations described in paragraphs (b) and (c) of this section, the Bureau will not:

(1) Require physical segregation of cash depositories for Bureau grant funds provided to a grantee.

(2) Establish any eligibility requirements for cash depositories in which Bureau grant funds are deposited by grantees or their subgrantees.

(b) A separate bank account shall be used when payments under letter of credit are made on a "check-paid" basis in accordance with agreements entered into by a grantee, the Bureau, and the banking institutions involved. A check-paid basis letter of credit is one under which funds are not drawn from the Treasury until the grantee's checks have been presented to its bank for payment.

(c) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees are encouraged to use minority banks.

§ 276.4 Bondings and insurance.

In administering Bureau grants, grantees shall observe their regular requirements and practices with respect to bonding and insurance. The Bureau will not impose additional bonding and insurance requirements, including fidelity bonds, except as provided in paragraphs (a) and (b) of this section.

(a) The recipient of a Bureau grant which requires contracting for construction or facility improvement (including any Bureau grant which provides for alterations or renovations of real property) shall follow its own requirements and practices relating to bid guarantees, performance bonds, and payment bonds except for contracts exceeding $100,000. For contracts exceeding $100,000, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The bid guarantee shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A performance bond is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under the contract.

(3) A payment bond on the part of the contractor for 100 per cent of the contract price. A payment bond is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

(b) Where, in connection with a Bureau grant, the Bureau also guarantees the payment of money borrowed by the grantee, the Bureau may at its discretion require adequate bonding and insurance if the bonding and insurance requirements of the grantee are not deemed to be sufficient to protect adequately the interests of the Federal Government.

§ 276.5 Recordkeeping.

(a) The Bureau shall not impose record retention requirements over and above those established by the grantee except that financial records, supporting documents, statistical records, and all other records pertinent to a Bureau grant, or to any subgrant (or negotiated contract exceeding $2500) under a grant, shall be retained for a period of three years, with the following qualifications:

(1) The records shall be retained beyond the three year period if audit findings have not been resolved.

(2) Records for nonexpendable property which was acquired with Bureau grant funds shall be retained for three years after its final disposition.

(3) When grant records are transferred to or maintained by the Bureau, the three-year retention requirement is not applicable to the grantee.

(b) The retention period starts from the date of submission of the final expenditure report or, for grants which are renewed annually, from the date of the submission of the annual expenditure report.

(c) Grantees are authorized, if they desire, to substitute microfilm copies in lieu of original records.

(d) The Bureau shall request transfer of certain records to its custody from grantees when it determines that the records possess long-term retention value. However, in order to avoid duplicate recordkeeping the Bureau may make arrangements with the grantee for the grantee to retain any records which are continuously needed for joint use.

(e) The Secretary of the Interior and the Comptroller General of the United States, or any of their duly authorized representatives shall have access to any books, documents, papers, and records of the grantees and their subgrantees which are pertinent to a specific grant

V 40 213 NOV 4 75 XUM

program for the purpose of making audit, examination, excerpts, transcripts and copies at government expense.

(f) Unless otherwise required by law, the Bureau shall not place restrictions on grantees which will limit public access to the grantee's records created as part of the grant except when records must remain confidential. Following are some of the reasons for withholding records:

(1) Prevent a clearly unwarranted invasion of personal privacy;

(2) Specifically required by statute or Executive Order to be kept secret;

(3) Commercial or financial information obtained from a person or firm on a privileged or confidential basis.

§ 276.6 Program income.

(a) No grantee receiving a grant shall be held accountable for interest earned on grant funds, pending their disbursement for program purposes.

(b) Proceeds from the sale of real or personal property, either provided by the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with § 276.11.

(c) Royalties received from copyrights and patents produced under the grant during the grant period shall be retained by the grantee and, in accordance with the grant agreement, be either added to the funds already committed to the program or deducted from total allowable project costs for the purpose of determining the net costs on which the Bureau share of costs will be based. After termination or completion of the grant, the Bureau share of royalties in excess of $200 received annually shall be returned to the Bureau in the absence of other specific agreements between the Bureau and the grantee. The Bureau share of royalties shall be computed on the same ratio basis as the Bureau share of the total project cost.

(d) All other program income earned during the grant period shall be retained by the grantee and, in accordance with the grant agreement, shall be either:

(1) Added to funds committed to the project by the Bureau and the grantee and be used to further eligible program objectives, or

(2) Deducted from the total project costs for the purpose of determining the net costs on which the Bureau share of costs will be based.

(e) Grantees shall record the receipt and expenditures of revenues (such as taxes, special assessments, levies, fines, etc.) as a part of grant project transactions when such revenues are specifically earmarked for a grant project in accordance with grant agreements.

§ 276.7 Standards for grantee financial management systems.

(a) Grantee financial management systems for grants and subgrantee financial management systems for subgrants shall provide for:

(1) Accurate, current, and complete disclosure of the financial results of each grant program in accordance with Federal reporting requirements and for each subgrant in accordance with the grantees' requirements. Except when specifically required by law, the Bureau will not require financial reporting on the accrual basis from tribal organizations whose records are not maintained on that basis. However, when accrual reporting is required by law, tribal organizations whose records are not maintained on that basis will not be required to convert their accounting systems to the accrual basis; they may develop the accrual information through an analysis of the documentation on hand or on the basis of best estimates.

(2) Records which identify adequately the source and application of funds for grant—or subgrant—supported activities. These records shall contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(3) Effective control over and accountability for all grant or subgrant funds, and real and personal property acquired with grant or subgrant funds. Grantees and subgrantees shall adequately safeguard all such property and shall assure that it is used solely for authorized purposes.

(4) Comparison of actual with budgeted amounts for each grant or subgrant, and, when specifically required by the performance reporting requirements of the grant or subgrant, relation of financial information with performance or productivity data, including the production of unit cost information.

(5) Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the grantee, whenever funds are advanced by the Federal Government. When advances are made by a letter-of-credit method, the grantee shall make drawdowns from the U.S. Treasury as close as possible to the time of making the disbursements. Subgrantees shall institute similar procedures when funds are advanced by the grantee.

(6) Procedures for determining the allowability and allocability of costs shall be in accordance with the applicable cost principles prescribed in Appendix A of this Part.

(7) Accounting records which are supported by source documentation.

(8) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(b) Grantees shall require subgrantees (recipients of grants which are passed through by the grantee) to adopt all of the standards in paragraph (a) of this section.

§ 276.8 Financial reporting requirements.

Requirements for grantees to report financial information to the Bureau, and to request advances and reimbursement when a letter of credit method is not used, are prescribed in Appendix B of this Part.

§ 276.9 Monitoring and reporting program performances.

(a) Grantees shall constantly monitor the performance under grant-supported activities to assure that adequate progress is being made toward achieving the goals of the grant. This review shall be made for each program, function, or activity of each grant as set forth in the approved grant application.

(b) Grantees shall submit a performance report for each grant which briefly presents the following for each program, function, or activity involved:

(1) A comparison of actual accomplishments to the goals established for the period. Where the output of grant programs can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

(2) Reasons for slippage in those cases where established goals were not met.

(3) Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(c) Grantees shall submit the performance reports to the Bureau with the Financial Status Reports (prescribed in Appendix B of this Part) in the frequency established by Appendix B. The Bureau shall prescribe the frequency with which the performance reports will be submitted with the Request for Advance or Reimbursement (prescribed in Appendix B) when that form is used in lieu of the Financial Status Report. In no case shall the performance reports be required more frequently than quarterly or less frequently than annually.

(d) Between the required performance reporting dates, events may occur which have significant impact upon the project or program. In such cases, the grantee shall inform the Bureau as soon as the following types of conditions become known:

(1) Problems, delays, or adverse conditions which will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accomplished by a statement of the action taken, or contemplated, and any Bureau assistance needed to resolve the situation.

(2) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

(e) If any performance review conducted by the grantee discloses the need for change in the budget estimates in accordance with the criteria established in § 276.14, the grantee shall submit a request for budget revision.

(f) The Bureau shall make site visits as frequently as practicable to:

(1) Review program accomplishments and management control systems.

(2) Provide such technical assistance as may be required, or requested.

§ 276.10 Grant payment requirements.

(a) Except for construction grants for which the letter-of-credit method is optional, the letter-of-credit funding method shall be used by the Bureau where all of the following conditions exist:

(1) When there is or will be a continuing relationship between a grantee and the Bureau for at least a 12-month period and the total amount of advances to be received within that period from the Bureau is $250,000, or more, as prescribed by Treasury Circular No. 1075.

(2) When the grantee has established or demonstrated to the Bureau the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds and their disbursement by the grantee.

(3) When the grantee's financial management system meets the standards for fund control and accountability prescribed in § 276.7.

(b) The method of advancing funds by Treasury check shall be used, in accordance with the provisions of Treasury Circular No. 1075, when the grantee meets all of the requirements specified in paragraphs (a) (2) and (3) of this section.

(c) The reimbursement by Treasury check method shall be the preferred method when the grantee does not meet the requirements specified in either paragraph (a) (2) or (a) (3), or both. This method may also be used when the major portion of the program is accomplished through private market financing or Federal loans, and when the Bureau grant assistance constitutes a minor portion of the program.

(d) Unless otherwise required by law, the Bureau shall not withhold payments for proper charges made by grantees at any time during the grant period unless:

(1) A grantee has failed to comply with the program objectives, grant award conditions, or Bureau reporting requirements; or

(2) The grantee is indebted to the United States and collection of the indebtedness will not impair accomplishment of the objectives of any grant program sponsored by the United States. Under such conditions, the Bureau may, upon reasonable notice, inform the grantee that payments will not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal government is liquidated.

(e) Appendix B of this Part provides the procedures for requesting advances or reimbursements.

§ 276.11 Property management standards.

(a) Grantees may follow their own property management policies and procedures if they observe the requirements of this section. With respect to property covered by this section, the Bureau may not impose on grantees any requirements (including property reporting requirements) not authorized by this Part unless specifically required by Federal law.

(b) Title to real property to be acquired in whole or in part from a Bureau grant under Part 272 of this Chapter shall vest in one of the following manners:

(1) Title may be taken by the United States in trust for the Indian tribe upon the request of the tribe and when the real property to be acquired is within the reservation boundaries or adjoins on at least two sides other trust or restricted lands as prescribed in Part 272 of this chapter.

(2) Fee title to the acquired real property shall vest in the Indian tribe whenever the acquisition does not meet the criteria in paragraph (b) (1) of this section or unless for other reasons a tribe requests title to be taken in the name of the United States. In the absence of applicable statutory authority governing the disposition of real property acquired by a tribe, the tribe shall use the real property for the authorized purposes and in accordance with any other requirements imposed by the terms and conditions of the original grant. Changes in use compatible to other tribal programs may be authorized by the Bureau. When no longer needed for the authorized purposes, the real property shall be used in accordance with the standards set forth in § 276.11(d) (1) for non-expendable personal property. Accordingly, the following priority order for use of such property shall be:

(i) Other grants from the Bureau.

(ii) Grants from other Federal agencies.

(iii) Tribal purposes consistent with those authorized for support by Bureau grants.

(iv) Tribal official activities.

(3) In those instances where the Indian tribe requests, title may be acquired by the United States. Use of these acquired real property interests will be subject to the authorized purposes and in accordance with the provisions of the original grant. Upon a determination that the real property is no longer needed for the authorized purposes, disposition may be made by declaring it excess under provisions of the Act of January 2, 1975 (88 Stat. 1954) and title transferred to the Secretary to be held by the United States in trust for the tribe. Where real property does not meet the requirements under the Act of January 2, 1975 (88 Stat. 1954), the tribe may elect to acquire title under applicable enabling statutory authorities, or in the absence of statutory authority, request withholding disposition in aid of legislation, or authorize disposal under the General Services Administration procedures.

(c) The provisions of paragraph (b) (2) and (3) of this section shall also apply when real property is acquired in whole or in part by a Bureau grant other than that provided under Part 272 of this Chapter. However, when such property is acquired by a grantee other than an Indian tribe, or a tribal governing body, fee simple title to the property shall vest in the grantee upon acquisition. In the absence of applicable statutory provisions governing the use or disposition of such property, it shall be subject to the following requirements, in addition to any other requirements imposed by the terms and conditions of the grant:

(1) The grantee shall use the real property for the authorized purpose of the original grant as long as needed.

(2) The grantee shall obtain approval by the Bureau for the use of the real property in other projects when the grantee determines that the property is no longer needed for the original grant purposes. Use in other projects shall be limited to those under other Federal grant programs, or programs that have purposes consistent with those authorized for support by the grantor.

(3) When the real property is no longer needed as provided in paragraphs (c) (1) and (2) of this section, the grantee shall return all real property furnished or purchased wholly with Bureau grant funds to the control of the Bureau. In the case of property purchased in part with Bureau grant funds, the grantee may be permitted to take title to the Federal interest therein upon compensating the Federal Government for its fair share of the property. The Federal share of the property shall be the amount computed by applying the percentage of the Federal participation in the total cost of the grant program for which the property was acquired to the current fair market value of the property.

(d) Standards and procedures governing ownership, use, and disposition of nonexpendable personal property furnished by the Bureau or acquired with Bureau funds are set forth below:

(1) *Nonexpendable personal property acquired with Bureau funds.* When nonexpendable personal property is acquired by a grantee wholly or in part with Bureau funds, title will not be taken by the Bureau except as provided in paragraph (d) (1) (iv) of this section but shall be vested in the grantee subject to the following restrictions on use and disposition of the property:

(i) The grantee shall retain the property acquired with Bureau funds in the grant program as long as there is a need for the property to accomplish the purpose of the grant program whether or not the program continues to be supported by Bureau funds. When there is no longer a need for the property to accomplish the purpose of the grant program, the grantee shall use the property in connection with the other Federal grants it has received in the following order of priority:

(A) Other grants from the Bureau needing the property.

(B) Grants of other Federal agencies needing the property.

(ii) When the grantee no longer has need for the property in any of its Federal grant programs, or programs that have purposes consistent with those authorized for support by the grantor, the property may be used for its own official activities in accordance with the following standards:

(A) Nonexpendable property with an acquisition cost of less than $500 and used four years or more. The grantee may use the property for its own official activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(B) All other nonexpendable property. The grantee may retain the property for

V 40 213 NOV 4 75 XUM

its own use if a fair compensation is made to the Bureau for the latter's share of the property. The amount of compensation shall be computed by applying the percentage of Bureau participation in the grant program to the current fair market value of the property.

(iii) If the grantee has no need for the property, disposition of the property shall be made as follows:

(A) Nonexpendable property with an acquisition cost of $1,000 or less. Except for that property which meets the criteria of paragraph (d) (1) (ii) (A) of this section, the grantee shall sell the property and reimburse the Bureau an amount which is computed in accordance with paragraph (d) (1) (iii) of this section.

(B) Nonexpendable property with an acquisition cost of over $1,000. The grantee shall request disposition instructions from the Bureau. The Bureau shall determine whether the property can be used to meet the Bureau's requirement. If no requirement exists within the Bureau, the availability of the property shall be reported to the General Services Administration (GSA) by the Bureau to determine whether a requirement for the property exists in other Federal agencies. The Bureau shall issue instructions to the grantee within 120 days and the following procedures shall govern:

(*1*) If the grantee is instructed to ship the property elsewhere, the grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the grantee's participation in the grant program to the current fair market value of the property, plus any shipping or interim storage costs incurred.

(2) If the grantee is instructed to otherwise dispose of the property, he shall be reimbursed by the Bureau of such costs incurred in its disposition.

(3) If disposition instructions are not issued within 120 days after reporting, the grantee shall sell the property and reimburse the Bureau an amount which is computed by applying the percentage of Bureau participation in the grant program to the sales proceeds. Further, the grantee shall be permitted to retain $100 or 10 percent of the proceeds, whichever is greater, for the grantee's selling and handling expenses.

(iv) Where the Bureau determines that property with an acquisition cost of $1,000 or more and financed solely with Bureau funds is unique, different, or costly to replace, it may reserve title to such property, subject to the following provisions:

(A) The property shall be appropriately identified in the grant agreement or otherwise made known to the grantee.

(B) The Bureau shall issue disposition instructions within 120 days after the completion of the need for the property under the grant for which it was acquired. If the Bureau fails to issue disposition instructions within 120 days, the grantee shall apply the standards of paragraphs (d) (1) (i), (d) (1) (ii) (B), and (d) (1) (iii) (B) of this section.

(2) Federally-owned nonexpendable personal property. Unless statutory authority to transfer title has been granted to an agency, title to Federally-owned property (property to which the Federal Government retains title including excess property made available by the Bureau to grantees) remains vested by law in the Federal Government. Upon termination of the grant or need for the property, such property shall be reported to the Bureau for further Bureau use or, if appropriate, for reporting to the General Services Administration for other Federal agency use. Appropriate disposition instructions will be issued to the grantee after completion of Bureau review.

(e) The grantee's property management standards for nonexpendable personal property shall also include the following procedural requirements:

(1) Property records shall be maintained accurately and provide for a description of the property; manufacturer's serial number or other identification number; acquisition date and cost; source of the property; percentage of Federal funds used in the purchase of property; location, use, and condition of the property; and ultimate disposition data including sales price or the method used to determine current fair market value if the grantee reimburses the Bureau for its share.

(2) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years to verify the existence, current use, and continued need for the property.

(3) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft to the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented.

(4) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(5) Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.

(f) When the total inventory value of any unused expendable personal property exceeds $500 at the expiration of need for any grant purposes, the grantee may retain the property or sell the property as long as he compensates the Bureau for its share in the cost. The amount of compensation shall be computed in accordance with paragraph (d) (1) (ii) (B) of this section.

(g) Specific standards for control of intangible property are provided as follows:

(1) If any program produces patentable items, patent rights, processes, or inventions, in the course of work aided by a Bureau grant, such fact shall be promptly and fully reported to the Bureau. Unless there is prior agreement between the grantee and Bureau on disposition of such items, the Bureau shall determine whether protection on such invention or discovery shall be sought and how the rights in the invention or discovery—including rights under any patent issued on it—shall be allocated and administered in order to protect the public interest consistent with "Government Patent Policy" (President's memorandum for heads of executive departments and agencies), dated August 23, 1971, and Statement of Government Patent Policy as printed in 36 FR 16889.

(2) Where the grant results in a book or other copyrightable material, the author or grantee is free to copyright the work, but the Bureau reserves a royalty-free nonexclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use the work for Government purposes.

(h) The use of Bureau-owned facilities under the jurisdiction of the Commissioner by a grantee for purposes of carrying out a grant may be authorized when the facilities are not needed for Bureau purposes.

§ 276.12 Procurement standards.

(a) The standards contained in this section do not relieve the grantee of the contractual responsibilities arising under its contracts. The grantee is the responsible authority, without recourse to the Bureau regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into, in support of a grant. This includes but is not limited to: disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of law are to be referred to the tribal, Federal or other authority which has proper jurisdiction.

(b) Grantees may use their own procurement regulations provided that procurements made with Bureau grant funds adhere to the standards set forth as follows:

(1) The grantee shall maintain a code or standards of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending Bureau grant funds. Grantee's officers, employees or agents, shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible by law, rules or regulations, such standards shall provide for penalties, sanctions, or other disciplinary actions to be applied for violations of such standards by either the grantee officers, employees, or agents, or by contractors or their agents.

(2) All procurement transactions regardless of whether negotiated or advertised and without regard to dollar value shall be conducted in a manner so as to provide maximum open and free competition. The grantee should be alert to organizational conflicts of interest or non-competitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade. However, this provision will apply only after the Indian preference requirements prescribed in § 276.13 have been met.

(3) The grantee shall establish procurement procedures which provide for, as a minimum, the following procedural requirements:

(i) Proposed procurement actions shall be reviewed by grantee officials to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(ii) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. In competitive procurements, such description shall not contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement. When so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(iii) Positive efforts shall be made by the grantees to use small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed using Bureau grant funds. However, this provision will apply only after the Indian preference requirements prescribed in § 276.13 have been met.

(iv) The type of procuring instruments used (i.e., fixed price contracts, cost reimbursable contracts, etc.) shall be appropriate for the particular procurement and for promoting the best interest of the grant program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(v) Formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (b) (3) (vi) of this section is necessary to accomplish sound procurement. However, procurement of $10,000 or less need not be so advertised. Where such advertised bids are obtained the awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the grantee, price and other factors considered. (Factors such as discounts, transportation costs, taxes may be considered in determining the lowest bid.) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the grantee. Any or all bids may be rejected when it is in the grantee's interest to do so.

(vi) Procurements may be negotiated if it is impracticable and unfeasible to use formal advertising. Generally, procurements may be negotiated by the grantee if:

(A) The public exigency will not permit the delay incident to advertising;

(B) The material or service to be procured is available from only one person or firm; (all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to the Bureau for prior approval).

(C) The total amount involved does not exceed $10,000;

(D) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institutions;

(E) No acceptable bids have been received after formal advertising;

(F) The purchases are for highly perishable materials or medical supplies; for material or services where the prices are established by law; for technical items or equipment requiring standardization and interchangeability of parts with existing equipment; for experimental, developmental or research work; for supplies purchased for authorized resale; and for technical or specialized supplies requiring substantial initial investment for manufacture;

(G) Otherwise authorized by law, rules or regulations. Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable.

(vii) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, or accessibility to other necessary resources.

(viii) Procurement records or files for purchases in amounts over $10,000 shall provide at least the following pertinent information: Justification for the use of negotiation in lieu of advertising, contractor selection, and the basis for the cost or price negotiation.

(ix) A system for contract administration shall be maintained to assure contractor conformance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely followup of all purchases.

(c) In addition to provisions to define a sound and complete agreement, the grantee shall include the following provisions in all contracts and subgrants:

(1) Contracts shall contain such contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contracts, amounts for which are over $10,000 shall contain suitable provisions for termination by the grantee including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall describe conditions where the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) In all contracts for construction or facility improvement awarded over $100,000, grantees shall observe the bonding requirements provided in § 276.4.

(4) All construction contracts awarded by recipients and their contractors or subgrantees having a value of more than $10,000, shall contain a provision requiring compliance with Executive Order No. 11246, entitled "Equal Employment Opportunity," as amended by Labor Regulations (41 CFR Part 60). However, this Equal Employment Opportunity provision will apply only after the Indian preference requirements prescribed in § 276.13 have been met.

(5) All contracts and subgrants for construction or repair shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). This Act provides that each contractor or subgrantee shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The grantee shall report all suspected or reported violations to the Bureau.

(6) When required by the Federal grant program legislation, all construction contracts awarded by grantees and subgrantees over $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a–7) and as supplemented by Department of Labor regulations (29 CFR Part 5). Under this Act, contractors shall be required to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in a wage determination made by the Secretary of Labor. In addition, contractors shall be required to pay wages not less often than once a week. The grantee shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The grantee shall report all suspected or reported violations to the Bureau.

(7) Where applicable, all contracts awarded by grantees and subgrantees over $2,000 for construction contracts and over $2,500 for other contracts which involve the employment of mechanics or laborers shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR Part 5). Under Section 103 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard workday or workweek is permissible if the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked over 8 hours in any calendar day or 40 hours in the work week. Section 107 of the Act applies to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction, safety, and health standards promulgated by the Secretary of Labor. These requirements do not apply to the purchases of supplies or materials or articles

V 40 213
NOV 4 75
XUM

ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(8) Contracts or agreements, the principal purpose of which is to create, develop, or improve products, processes or methods; or for exploration into fields which directly concern public health, safety, or welfare; or constraints in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Bureau. The contractor shall be advised as to the source of additional information regarding these matters.

(9) All negotiated contracts (except those of $10,000 or less) awarded by grantees shall include a provision to the effect that the grantee, the Bureau, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific grant program for the purpose of making audit, examination, excerpts, and transcriptions.

(10) Contracts and subgrants of amounts over $100,000 shall contain a provision which requires the recipient to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970 (42 U.S.C. 1251 et seq.) as amended. Violations shall be reported to the Bureau and the Regional Office of the Environmental Protection Agency.

§ 276.13 Indian preference in grant administration.

Any grant or subgrant shall require that to the greatest extent feasible:

(a) Preferences and opportunities for training and employment in connection with the administration of such a grant or subgrant shall be given to Indians.

(b) Preference in the award of a subgrant, contract or subcontract in connection with administration of a grant shall be given to Indian organizations and economic enterprises.

(c) A tribal governing body may develop its own Indian preference requirements to the extent that such requirements are not inconsistent with the purpose and intent of paragraphs (a) and (b) of this section for grants executed under this Part.

§ 276.14 Budget revision.

Criteria and procedures to be followed by grantees in reporting deviations from grant budgets and requesting approval for budget revisions are as follows:

(a) For nonconstruction grants, grantees shall request prior approvals promptly from the Bureau for budget revisions whenever:

(1) The revision results from changes in the scope or the objective of the grant-supported program.

(2) The revision indicates the need for additional Bureau funding.

(3) The grant budget is over $100,000 and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed $10,000, or five percent of the grant budget, whichever is greater. The same criteria apply to cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant, except that the Bureau shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(4) The grant budget is $100,000, or less, and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed five percent of the grant budget. The same criteria apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant, except that the Bureau shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

(5) The revisions involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs.

(6) The revisions pertain to the addition of items requiring approval in accordance with the provisions of Appendix A of this Part.

(b) All other changes to nonconstruction grant budgets, except for the changes described in paragraph (d) of this section do not require approval. These changes include (1) the use of grantee funds in furtherance of program objectives over and above the grantee minimum share included in the approved grant budget and (2) the transfer of amounts budgeted for direct costs to absorb authorized increases in indirect costs.

(c) For construction grants, grantees shall request prior approval promptly from the Bureau for budget revisions whenever:

(1) The revision results from changes in the scope or the objective of the grant-supported programs.

(2) The revision increases the budgeted amounts of Bureau funds needed to complete the project.

(d) When the Bureau awards a grant which provides support for both construction and nonconstruction work, the Bureau may require, in the grant agreement, the grantee to request prior approval before making any fund or budget transfers between the two types of work supported.

(e) For both construction and nonconstruction grants, the Bureau shall require tribal grantees to notify the Bureau promptly whenever the amount of Bureau authorized funds is expected to exceed the needs of the grantee by more than $5,000 or 5 percent of the Bureau grant, whichever is greater. This notification will not be required when applications for additional funding are submitted for continuing grants.

(f) When requesting approval for budget revisions, grantees shall use the budget forms which were used in the grant application. However, grantees may request by letter the approvals required by the provisions of Appendix A of this Part.

(g) Within 30 days from the date of receipt of the request for budget revisions, the Bureau shall review the request and notify the grantee whether or not the budget revisions have been approved. If the Bureau does not reach a decision prior to the end of the 30 day period or should the grantee not be notified of the Bureau's decision by the end of the 30 day period the grantee may appeal directly to the Commissioner.

§ 276.15 Grant closeout.

(a) In closing out Bureau grants, the following shall be observed:

(1) Upon request, the Bureau shall make prompt payments to a grantee for allowable reimbursable costs under the grant being closed out.

(2) The grantee shall immediately refund to the Bureau any unencumbered balance of cash advanced to the grantee.

(3) The Bureau shall obtain from the grantee within 90 days after the date of completion of the grant all financial, performance, and other reports required as a condition of the grant. The Bureau may grant extensions when requested by the grantee.

(4) The Bureau shall make a settlement for any upward or downward adjustments to the Federal share of costs after these reports are received.

(5) The grantee shall account for any property acquired with grant funds; or received fom the Government in accordance with the provisions of § 276.11.

(6) If a final audit has not been performed before the closeout of the grant, the Bureau shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

(b) Suspension. When a grantee has materially failed to comply with the terms and conditions of a grant, the Bureau may after reasonable notice to the grantee, suspend the grant. The notice preceding suspension shall include the effective date of the suspension, the reasons for the suspension, the corrective measures necessary for reinstatement of the grant, and, if there is no immediate threat to safety, a reasonable time frame for corrective action prior to actual suspension. No obligations incurred by the grantee during the period of suspension shall be allowable under the suspended grant, except that the Bureau may at its discretion allow necessary and proper costs which the grantee could not reasonably avoid during the period of suspensions if such costs would otherwise be allowable under the applicable cost principles specified in Appendix A of this Part. Appropriate adjustments to the payments under the suspended grant will be made, either by withholding the payments or by not allowing the grantee credit for disbursements which he may make in liquidation of unauthorized obligations he incurs during the period of suspension. Suspensions shall remain in

effect until the grantee has taken corrective action to the satisfaction of the Bureau or given assurances satisfactory to the Bureau that corrective action will be taken, or until the Bureau cancels the grant.

(c) (1) Cancellation for cause. The Bureau may cancel any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the grantee has:

(i) Materially failed to comply with the terms and conditions of the grant;

(ii) Violated the rights or endangered the health, safety, or welfare of any persons;

(iii) Been grossly negligent in or has mismanaged the handling or use of funds provided under the grant.

(2) When it appears that cancellation of a grant shall become necessary, the Bureau shall promptly notify the grantee in writing of this possibility. This written notice shall advise the grantee of the reason for the possible cancellation and the corrective action necessary to avoid cancellation. The Bureau shall also offer, and provide if requested by the grantee, any technical assistance which may be required to effect the corrective action. The grantee shall have 60 days in which to effect this corrective action before the Bureau provides notice of intent to cancel the grant as provided in paragraph (c) (3) of this section.

(3) Upon deciding to cancel for cause, the Bureau shall promptly notify the grantee in writing of that decision, the reasons for the cancellation, and the effective date. The Bureau shall also provide a hearing for the grantee before cancellation. However, the Bureau may immediately cancel the grant, upon notice to the grantee, if the Bureau determines that continuance of the grant poses an immediate threat to safety. In this event, the Bureau shall provide a hearing for the grantee within ten (10) days of cancellation.

(4) Payments made to grantees or recoveries by the Bureau under grants cancelled for cause shall be in accordance with the legal rights and obligations of the parties.

(d) (1) Cancellation on other grounds. Except as provided in paragraph (c) of this section, grants may be cancelled in whole or in part only as follows:

(i) By the Bureau with the consent of the grantee, in which case the two parties shall agree upon the cancellation conditions, including the effective date, and in the case of partial cancellation, the portion to be cancelled; or

(ii) By the grantee, upon written notice to the Bureau, setting forth the reasons for the cancellation, the effective date, and, in the case of partial cancellation, the portion to be cancelled.

(2) When a grant is cancelled in accordance with paragraph (d) of this section, the grantee shall not incur new obligations for the cancelled portion after the effective date, and shall cancel as many outstanding obligations as possible. The Bureau shall allow full credit to the grantee for the Bureau share of the noncancellable obligations properly incurred by the grantee before cancellation.

§ 276.16 Subgrants and subcontracts to non-profit organizations.

The uniform administrative requirements in this part, including the cost principles in Appendix A, to this part, are applicable to all subgrants or subcontracts made by a grantee in accordance with the provisions of this chapter. However, these requirements and cost principles are applicable as minimum standards for subgrants or subcontracts made to nonprofit organizations. Accordingly, the grantee may prescribe additional or more stringent requirements with regard to subgrants or subcontracts made to non-profit organizations.

APPENDIX A—PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO GRANTS

PART I—GENERAL

A. *Purpose and scope.* 1. *Objectives.* This attachment sets forth principles for determining the allowable costs of programs administered by grantees under grants from the Bureau. The principles are for the purpose of cost determination and are not intended to identify the circumstances or dictate the extent of Bureau and tribal participation in the financing of a particular grant. They are designed to provide that Bureau assisted programs bear their fair share of costs recognized under these principles, except where restricted or prohibited by law. No provision for profit or other increment above cost is intended.

2. *Policy guides.* The application of these principles is based on the fundamental premises that:

a. Grantees are responsible for the efficient and effective administration of grant programs through the application of sound management practices.

b. The grantee assumes the responsibility for seeing that Bureau assisted program funds have been expended and accounted for consistent with underlying agreements and program objectives.

c. Each grantee organization, in recognition of its own unique combination of staff facilities and experience, will have the primary responsibility for employing whatever form of organization and management techniques may be necessary to assure proper and efficient administration.

3. *Application.* These principles will be applied by the Bureau in determining costs incurred by grantees under Bureau grants (including subgrants, contracts by grantees and subcontracts).

B. *Definitions.* 1. *Approval or authorization of the Bureau* means documentation evidencing consent prior to incurring specific cost.

2. *Cost allocation plan* means the documentation identifying, accumulating, and distributing allowable costs under grants and contracts together with the allocation methods used.

3. *Cost*, as used herein, means cost as determined on a cash, accrual, or other basis acceptable to the Bureau as a discharge of the grantee's accountability for Bureau funds.

4. *Cost objective* means a pool, center, or area established for the accumulation of cost. Such areas include organizational units, functions, objects or items of expense as well as ultimate cost objectives including specific grants, projects, contracts, and other activities.

5. *Federal agency* means any department, agency, commission, or instrumentality in the executive branch of the Federal Government which makes grants to grantees.

6. *Grant* means an agreement between the Bureau and a grantee whereby the Bureau provides funds or aid in kind to carry out specified programs, services, or activities. The principles and policies stated in this Appendix as applicable to grants in general also apply to any Federally sponsored cost reimbursement type of agreement performed by a grantee, including contracts, subcontracts and subgrants.

7. *Grant program* means those activities and operations of the grantee which are necessary to carry out the purposes of the grant, including any portion of the program financed by the grantee.

8. *Grantee* means the entity which is responsible for administration of the grant.

9. *Services*, as used herein, means goods and facilities, as well as services.

10. *Supporting services* means auxiliary functions necessary to sustain the direct effort involved in administering a grant program or an activity providing service to the grant program. These services may be centralized in the grantee department or in some other agency, and include procurement, payroll, personnel functions, maintenance and operation of space, data processing, accounting, budgeting, auditing, mail and messenger service, and the like.

C. *Basic guidelines.* 1. *Factors affecting allowability of costs.* To be allowable under a grant program, costs must meet the following general criteria:

a. Be necessary and reasonable for proper and efficient administration of the grant program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out the overall responsibilities of a grantee.

b. Be authorized or not prohibited under applicable laws or regulations.

c. Conform to any limitations or exclusions set forth in these principles, Federal laws, or other governing limitations as to types or amounts of cost items.

d. Be consistent with policies, regulations, and procedures that apply uniformly to both Federally assisted and other activities of which the grantee is a part.

e. Be accorded consistent treatment through application of generally accepted accounting principles appropriate to the circumstances.

f. Not be allocable to or included as a cost of any other Federally financed program in either the current or a prior period.

g. Be net of all applicable credits.

2. *Allocable costs.* a. A cost is allocable to a particular cost objective to the extent of benefits received by such objective.

b. Any cost allocable to a particular grant or cost objective under the principles provided for in this Appendix may not be shifted to other Federal grant programs to overcome funds deficiencies, avoid restrictions imposed by law or grant agreements, or for other reasons.

c. Where an allocation of joint cost will ultimately result in charges to a grant program, an allocation plan will be required as prescribed in Section I.

3. *Applicable credits.* a. Applicable credits refer to those receipts or reduction of expenditure-type transactions which offset or reduce expense items allocable to grants as direct or indirect costs. Examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indentities on losses; sale of publications, equipment, and scrap; income from personal or incidental services; and adjustments of overpayments or erroneous charges.

b. Applicable credits may also arise when Bureau funds are received or are available

V 40 213 NOV 4 75 XUM

from sources other than the grant program involved to finance operations or capital items of the grantee. This includes costs arising from the use of depreciation of items donated or financed by the Bureau to fulfill matching requirements under another grant program. These types of credits should likewise be used to reduce related expenditures in determining the rates or amounts applicable to a given grant.

D. *Composition of cost.* 1. *Total cost.* The total cost of a grant program is comprised of the allowable direct cost incident to its performance, plus its allocable portion of allowable indirect costs, less applicable credits.

2. *Classification of costs.* There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to the grant or other ultimate cost objective. It is essential, therefore, that each item of cost be treated consistently either as a direct or an indirect cost. Specific guides for determining direct and indirect costs allocable under grant programs are provided in the sections which follow.

E. *Direct costs.* 1. *General.* Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to grants, contracts, or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the other ultimate cost objective.

2. *Application.* Typical direct costs chargeable to grant programs are:

a. Compensation of employees for the time and effort devoted specifically to the execution of grant programs.

b. Cost of materials acquired, consumed, or expended specifically for the purpose of the grant.

c. Equipment and other approved capital expenditures.

d. Other items of expense incurred specifically to carry out the grant agreement.

e. Services furnished specifically for the grant program by other agencies, provided such charges are consistent with criteria outlined in Section G of these principles.

F. *Indirect costs.* 1. *General.* Indirect costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the grantee department, as well as those incurred by other departments in supplying goods, services, and facilities, to the grantee department. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect cost within a grantee department or in other agencies providing services to a grantee department. Indirect cost pools should be distributed to benefiting cost objectives on bases which will produce an equitable result in consideration or relative benefits derived.

2. *Grantee departmental indirect costs.* All grantee departmental indirect costs, including the various levels of supervision, are eligible for allocation to grant programs provided they meet the conditions set forth in this Part. In lieu of determining the actual amount of grantee departmental indirect cost allocable to a grant program, the following methods may be used:

a. *Predetermined fixed rates for indirect costs.* A predetermined fixed rate for computing indirect costs applicable to a grant may be negotiated annually in situations where the cost experience and other pertinent facts available are deemed sufficient to enable the contracting parties to reach an informed judgment (1) as to the probable level of indirect costs in the grantee department during the period to be covered by the negotiated rate, and (2) that the amount allowable under the predetermined rate would not exceed actual indirect cost.

b. *Negotiated lump sum for overhead.* A negotiated fixed amount in lieu of indirect costs may be appropriate under circumstances where the benefits derived from a grantee department's indirect services cannot be readily determined as in the case of small, self-contained or isolated activity. When this method is used, a determination should be made that the amount negotiated will be approximately the same as the actual indirect cost that may be incurred. Such amounts negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses of the grantee department before allocation to remaining activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

3. *Limitation on indirect costs.* a. Bureau grants may be subject to laws that limit the amount of indirect costs that may be allowed. In this event, the Bureau will establish procedures which will assure that the amount actually allowed for indirect costs under each such grant does not exceed the maximum allowable under the statutory limitation or the amount otherwise allowable under this Appendix, whichever is the smaller.

b. When the amount allowable under a statutory limitation is less than the amount otherwise allocable as indirect costs under this Appendix the amount not recoverable as indirect costs under a grant may not be shifted to another Federally sponsored grant program or contract.

G. *Cost incurred by organizations other than the grantee.* 1. *General.* The cost of service provided by other organizations may only include allowable direct costs of the service plus a prorata share of allowable supporting costs and supervision directly required in performing the service, but not supervision of a general nature such as that provided by the head of an organization and his staff assistants not directly involved in operations. However, supervision by the head of an organization whose sole function is providing the service furnished would be an eligible cost. Supporting costs include those furnished by other units of the supplying organizations.

2. *Alternative methods of determining indirect cost.* In lieu of determining actual indirect cost related to a particular service furnished by another organization, either of the following alternative methods may be used provided only one method is used for a specific service during the fiscal year involved.

a. *Standard indirect rate.* An amount equal to ten percent of direct labor cost in providing the service performed by another organization (excluding overtime, shift, or holiday premiums and fringe benefits) may be allowed in lieu of actual allowable indirect cost for that service.

b. *Predetermined fixed rate.* A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated as set forth in Section F.2.a.

H. *Cost incurred by grantee for others.* 1. *General.* The principles provided in Section G will also be used in determining the cost of services provided by the grantee to another agency.

I. *Cost allocation plan.* 1. *General.* A plan for allocation of costs will be required to support the distribution of any joint costs related to the grant program. All costs included in the plan will be supported by formal accounting records which will substantiate the propriety of eventual charges.

2. *Requirements.* The allocation plan of the grantee should cover all joint costs of the grantees as well as costs to be allocated under plans of other agencies or organizational units which are to be included in the costs of federally sponsored programs. The cost allocation plans of all the agencies rendering services to the grantee, to the extent feasible, should be presented in a single document. The allocation plan should contain, but not necessarily be limited to, the following:

a. The nature and extent of services provided and their relevance to the Federally sponsored programs.

b. The items of expense to be included.

c. The methods to be used in distributing cost.

3. *Instructions for preparation of cost allocation plans.* The Bureau, in consultation with the other Federal agencies concerned, will be responsible for developing and issuing the instructions for use by grantees in preparation of cost allocation plans.

4. *Negotiation and approval of indirect cost proposals for grantees.* a. The Bureau, in collaboration with the other Federal agencies and offices concerned, will be responsible for negotiation, approval, and audit of cost allocation plans, which will be submitted to it by the grantees. These plans will cover central support service costs of the grantees.

b. The Department of the Interior Office of Audit and Investigation will have responsibility similar to that set forth in a., above, for the negotiation, approval, and audit of the indirect cost proposal.

c. Questions concerning the cost allocation plans approved under a. and b., above, should be directed to the Bureau.

PART II—STANDARDS FOR SELECTED ITEMS OF COST

A. *Purpose and applicability.* 1. *Objective.* This attachment provides standards for determining the allowability of selected items of cost.

2. *Application.* These standards will apply irrespective of whether a particular item of cost is treated as direct or indirect cost. Failure to mention a particular item of cost in the standards is not intended to imply that it is either allowable or unallowable, rather determination of allowability in each case should be based on the treatment of standards provided for similar or related items of cost. The allowability of the selected items of cost is subject to the general policies and principles stated in Part I of this Appendix.

B. *Allowable costs.* 1. *Accounting.* The cost of establishing and maintaining accounting and other information systems required for the management of grant programs is allowable. This includes cost incurred by central service agencies for these purposes. The cost of maintaining central accounting records required for overall tribal government purposes, such as appropriation and fund accounts by the Treasurer, Comptroller, or similar officials, is considered to be a general expense of government and is not allowable.

2. *Advertising.* Advertising media includes newspapers, magazines, radio and television programs, direct mail, trade papers, and the like. The advertising costs allowable are those which are solely for:

a. Recruitment of personnel required for the grant program.

b. Solicitation of bids for the procurement of goods and services required.

c. Disposal of scrap or surplus materials acquired in the performance of the grant agreement.

d. Other purposes specifically provided for in the grant agreement.

3. *Advisory councils.* Costs incurred by grantee advisory councils or committees established pursuant to Bureau requirements to carry out grant programs are allowable. The cost of like organizations is allowable when provided for in the grant agreement.

4. *Audit service.* The cost of audits necessary for the administration and management of functions related to grant programs is allowable.

5. *Bonding.* Costs of premiums on bonds covering employees who handle grantee funds are allowable.

6. *Budgeting.* Costs incurred for the development, preparation, presentation, and execution of budgets are allowable. Costs for services of a central budget office are generally not allowable since these are costs of general government. However, where employees of the central budget office activity participate in the grantee budget process, the cost of identifiable services is allowable.

7. *Building lease management.* The administrative cost for lease management which includes review of lease proposals, maintenance of a list of available property for lease, and related activities is allowable.

8. *Central stores.* The cost of maintaining and operating a central store's organization for supplies, equipment, and materials used either directly or indirectly for grant programs is allowable.

9. *Communications.* Communication costs incurred for telephone calls or service, telegraph, teletype service, wide area telephone service (WATS), centrex, telpak (tie lines), postage, messenger service and similar expenses are allowable.

10. *Compensation for personal services.* a. *General.* Compensation for personal services includes all remuneration, paid currently or accrued, for services rendered during the period of performance under the grant agreement, including but not necessarily limited to wages, salaries, and supplementary compensation and benefits. The costs of such compensation are allowable to the extent that total compensation for individual employees: (1) is responsible for the services rendered, (2) follows an appointment made in accordance with tribal government ordinances and rules and which meets Federal merit system or other requirements, where applicable; and (3) is determined and supported as provided in b., below. Compensation for employees engaged in federally assisted activities will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the tribal government. In cases where the kinds of employees required for the federally assisted activities are not found in the other activities of the tribal government, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the employing government competes for the kind of employees involved. Compensation surveys providing data representative of the labor market involved will be an acceptable basis for evaluating reasonableness.

b. *Payroll and distribution of time.* Amounts charged to grant programs for personal services, regardless of whether treated as direct or indirect costs, will be based on payrolls documented and approved in accordance with generally accepted practice of the tribal government. Payrolls must be supported by time and attendance or equivalent records for individual employees. Salaries and wages of employees chargeable to more than one grant program or other cost objective will be supported by appropriate time distribution records. The method used should produce an equitable distribution of time and effort.

11. *Depreciation and use allowance.* a. Grantees may be compensated for the use of their own buildings, capital improvements, and equipment through use allowances or depreciation. Use allowances are the means of providing compensation in lieu of depreciation or other equivalent costs. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

b. The computation of depreciation or use allowance will be based on acquisition cost. Where actual cost records have not been maintained, a reasonable estimate of the original acquisition cost may be used in the computation. The computation will exclude the cost or any portion of the cost of buildings and equipment donated or borne directly or indirectly by the Bureau through charges to Bureau grant programs or otherwise, irrespective of whether title was originally vested or where it presently resides. In addition, the computation will also exclude the cost of land. Depreciation or a use allowance on idle or excess facilities is not allowable, except when specifically authorized by the Bureau.

c. Where the depreciation method is followed, adequate property records must be maintained, and any generally accepted method of computing depreciation must be consistently applied for any specific asset or class of assets for all affected Federally sponsored programs and must result in equitable charges considering the extent of the use of the assets for benefit of such programs.

d. In lieu of depreciation, a use allowance for buildings and improvements may be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment (excluding items properly capitalized as building cost) will be computed at an annual rate not exceeding six and two-thirds percent of acquisition cost of usable equipment.

e. No depreciation or use charge may be allowed on any assets that would be considered as fully depreciated, provided, however, that reasonable use charges may be negotiated for any such assets if warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to utilization of the facility or item for the purpose contemplated.

12. *Disbursing service.* The cost of disbursing grant program funds by the Treasurer or other designated officer is allowable. Disbursing services cover the processing of checks or warrants, from preparation to redemption, including the necessary records of accountability and reconciliation of such records with related cash accounts.

13. *Employee fringe benefits.* Costs identified under a. and b. below are allowable to the extent that total compensation for employees is reasonable as defined in Section B.10.

a. Employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, court leave, military leave, and the like, if they are: (1) provided pursuant to an approved leave system, and (2) the cost thereof is equitably allocated to all related activities, including grant programs.

b. Employee benefits in the form of employers' contribution or expenses for social security, employees' life and health insurance plans, unemployment insurance coverage, workmen's compensation insurance, pension plans, severance pay, and the like, provided such benefits are granted under approved plans and are distributed equitably to grant programs and in other activities.

14. *Employee morale, health and welfare costs.* The costs of health or first-aid clinics and/or infirmaries, recreational facilities, employees' counseling services, employee information publications, and any related expenses incurred, are allowable. Income generated from any of these activities will be offset against expenses.

15. *Exhibits.* Costs of exhibits relating specifically to the grant programs are allowable.

16. *Legal expenses.* The cost of legal expenses required in the administration of grant programs is allowable. Legal services furnished by the chief legal officer of a tribal government or his staff solely for the purpose of discharging his general responsibilities as legal officer are unallowable. Legal expenses for the prosecution of claims against the Federal Government are unallowable.

17. *Maintenance and repair.* Costs incurred for necessary maintenance, repair, or upkeep of property which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are allowable.

18. *Materials and supplies.* The cost of materials and supplies necessary to carry out the grant programs is allowable. Purchases made specifically for the grant program should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the grantee. Withdrawals from general stores or stockrooms should be charged at cost under any recognized method of pricing consistently applied. Incoming transportation charges are a proper part of material cost.

19. *Memberships, subscriptions and professional activities.* a. *Memberships.* The cost of membership in civic, business, technical and professional organizations is allowable provided: (1) the benefit from the membership is related to the grant program, (2) the expenditure is for agency membership, (3) the cost of the membership is reasonably related to the value of the services or benefits received, and (4) the expenditure is not for membership in an organization which devotes a substantial part of its activities to influencing legislation.

b. *Reference material.* The cost of books, and subscriptions to civic, business, professional, and technical periodicals is allowable when related to the grant program.

c. *Meetings and conferences.* Costs are allowable when the purpose of the meeting is the dissemination of technical information relating to the grant program and they are consistent with regular practices followed for other activities of the grantee.

20. *Motor pools.* The costs of a service organization which provides automobiles to grantees at a mileage or fixed rate and/or provides vehicle maintenance, inspection and repair services are allowable.

21. *Payroll preparation.* The cost of preparing payrolls and maintaining necessary related wage records is allowable.

22. *Personnel administration.* Costs for the recruitment, examination, certification, classification, training, establishment of pay standards, and related activities for grant programs, are allowable.

23. *Printing and reproduction.* Cost for printing and reproduction services necessary for grant administration, including but not limited to forms, reports, manuals, and informational literature, are allowable. Publication costs of reports or other media relating to grant program accomplishments or results are allowable when provided for in the grant agreement.

24. *Procurement service.* The cost of procurement service, including solicitation of bids, preparation and award of contracts, and all phases of contract administration in providing goods, facilities and services for grant programs, is allowable.

V 40 213 NOV 4 75 XUM

25. *Taxes.* In general, taxes or payments in lieu of taxes which the grantee is legally required to pay are allowable.

26. *Training and education.* The cost of in-service training, customarily provided for employee development which directly or indirectly benefits grant programs is allowable. Out-of-service training involving extended periods of time is allowable only when specifically authorized by the Bureau.

27. *Transportation.* Costs incurred for freight, cartage, express, postage and other transportation costs relating either to goods purchased, delivered, or moved from one location to another are allowable.

28. *Travel.* Travel costs are allowable for expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business incident to a grant program. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip, and results in charges consistent with those normally allowed in like circumstances in non-Federally sponsored activities. The difference in cost between first-class air accommodations and less-than-first-class air accommodations is unallowable except when less-than-first-class air accommodations are not reasonably available.

C. *Costs allowable with approval of the Bureau.* 1. *Automatic data processing.* The cost of data processing services to grant programs is allowable. This cost may include rental of equipment or depreciation on grantee-owned equipment. The acquisition of equipment, whether by outright purchase, rental-purchase agreement or other method of purchase, is allowable only upon specific prior approval of the Bureau as provided under the selected item for capital expenditures.

2. *Building space and related facilities.* The cost of space in privately or publicly owned buildings used for the benefit of the grant program is allowable subject to the conditions stated below. The total cost of space, whether in a privately or publicly owned building, may not exceed the rental cost of comparable space and facilities in a privately owned building in the same locality. The cost of space procured for grant program usage may not be charged to the program for periods of nonoccupancy, without authorization of the Bureau.

a. *Rental cost.* The rental cost of space in a privately owned building is allowable.

b. *Maintenance and operation.* The cost of utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs and alterations and the like, are allowable to the extent they are not otherwise included in rental or other charges for space.

c. *Rearrangements and alterations.* Cost incurred for rearrangement and alteration of facilities required specifically for the grant program or those that materially increase the value or useful life of the facilities (Section C.3.) are allowable when specifically approved by the Bureau.

d. *Depreciation and use allowances on publicly owned buildings.* These costs are allowable as provided in Section B.11.

e. *Occupancy of space under rental-purchase or a lease with option-to-purchase agreement.* The cost of space procured under such arrangements is allowable when specifically approved by the Bureau.

3. *Capital expenditures.* The cost of facilities, equipment, other capital assets, and repairs which materially increase the value or useful life of capital assets is allowable when such procurement is specifically approved by the Bureau. When assets acquired with Bureau grant funds are (a) sold, (b) no longer available for use in a Federally sponsored program or (c) used for purposes not authorized by the Bureau, the Bureau's equity in the asset will be refunded in the same proportion as Bureau participation in its cost. In case any assets are traded on new items, only the net cost of the newly acquired assets is allowable.

4. *Insurance and indemnification.* a. Costs of insurance required, or approved and maintained pursuant to the grant agreement, is allowable.

b. Costs of other insurance in connection with the general conduct of activities is allowable subject to the following limitations:

(1) Types and extent and cost of coverage will be in accordance with sound business practice.

(2) Costs of insurance or of contributions to any reserve covering the risk of loss of, or damage to, Federal Government property is unallowable except to the extent that the Bureau has specifically required or approved such costs.

c. Contributions to a reserve for a self-insurance program approved by the Bureau are allowable to the extent that the type of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (through an approved self-insurance program or otherwise) are unallowable unless expressly provided for in the grant agreement. However, costs incurred because of losses not covered under nominal deductible insurance coverage provided in keeping with sound management practice, and minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools which occur in the ordinary course of operations, are allowable.

e. *Indemnification* includes securing the grantee against liabilities to third persons and other losses not compensated by insurance or otherwise. The Bureau is obligated to indemnify the grantee only to the extent expressly provided for in the grant agreement, except as provided in d. above.

5. *Management studies.* The cost of management studies to improve the effectiveness and efficiency of grant management for ongoing programs is allowable except that the cost of studies performed by agencies other than the grantee or outside consultants is allowable only when authorized by the Bureau.

6. *Preagreement costs.* Costs incurred prior to the effective date of the grant, whether or not they would have been allowable thereunder if incurred after such date, are allowable when specifically provided for in the grant agreement.

7. *Professional services.* Cost of professional services rendered by individuals or organizations not a part of the grantee is allowable subject to such prior authorization as may be required by the Bureau.

8. *Proposal costs.* Costs of preparing proposals on potential Federal Government grant agreements are allowable when specifically provided for in the grant agreement.

9. *Tribal government officer salaries and expenses.* Identifiable salary and expense costs incurred as a direct result of a tribal government officer's service to a grant program provided under this chapter are allowable subject to advance agreement with and approval by the Bureau. A general limitation in this regard is prescribed in section D.6.

D. *Unallowable costs.* 1. *Bad debts.* Any losses arising from uncollectible accounts and other claims, and related costs, are unallowable.

2. *Contingencies.* Contributions to a contingency reserve or any similar provision for unforeseen events are unallowable.

3. *Contributions and donations.* Unallowable.

4. *Entertainments.* Costs of amusements, social activities, and incidental costs relating thereto, such as meals, beverages, lodgings, rentals, transportation, and gratuities, are unallowable.

5. *Fines and penalties.* Costs resulting from violations of, or failure to comply with Federal, State and local laws and regulations are unallowable.

6. *Tribal officer salaries and expenses.* The salaries and expenses of tribal government officers are considered a cost of general tribal government and are unallowable except as prescribed in Section C.9.

7. *Interest and other financial costs.* Interest on borrowing (however requested), bond discounts, cost of financing and refinancing operations, and legal and professional fees paid in connection therewith, are unallowable except when authorized by Federal legislation.

8. *Underrecovery of costs under grant agreements.* Any excess of cost over the Federal contribution under one grant agreement is unallowable under other grant agreements.

APPENDIX B—FINANCIAL REPORTING REQUIREMENTS

A. *Purpose and scope.* This appendix prescribes requirements for grantees to report financial information to the Bureau and to request advances and reimbursement when a letter-of-credit method is not used.

B. *Definitions.* 1. *Accrued expenditures.* Accrued expenditures are the charges incurred by the grantee during a given period requiring the provision of funds for: (1) goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, and other payees; and (3) amounts becoming owed under programs for which no current services or performance are required.

2. *Accrued income.* Accrued income is the earnings during a given period which is a source of funds resulting from: (1) services performed by the grantee; (2) goods and other tangible property delivered to purchasers; and (3) amounts becoming owed to the grantee for which no current services or performance are required by the grantee.

3. *Disbursements.* Disbursements are payments in cash or by check.

4. *Bureau funds authorized.* Funds authorized represent the total amount of the Bureau funds authorized for obligations and establish the ceilings for obligation of Bureau funds. This amount may include any authorized carryover of unobligated funds from prior fiscal years.

5. *Obligations.* Obligations are the amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period, which will require payment during the same or a future period.

6. *Outlays.* Outlays represent charges made to the grant project or program. Outlays can be reported on a cash or accrued expenditure basis.

7. *Program income.* Program income represents earnings by the grantee realized from the grant-supported activities. Such earnings exclude interest income and may include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, sale of assets purchased with grant funds, and royalties on patents and copyrights. Program income can be reported on a cash or accrued income basis.

8. *Unobligated balance.* The unobligated balance is the portion of the funds authorized by the Bureau which has not been obligated by the grantee and is determined by deducting the cumulative obligations from the funds authorized.

9. *Unpaid obligations.* Unpaid obligations represent the amount of obligations incurred by the grantee which have not been paid.

C. *Standard forms.* 1. Only the following forms will be authorized for obtaining financial information from grantees for grant programs:

a. *Financial Status Report.* (1) The Bureau shall require grantees to use a standard Financial Status Report to report the status of funds for all nonconstruction grant programs. The Bureau may, however, have the bursement (paragraph 2a) is determined to provide adequate information to meet their needs, except that a final Financial Status Report shall be required at the completion of the grant when the Request for Advance or Reimbursement form is used only for advances.

(2) The Bureau shall prescribe whether the report shall be on a cash or accrual basis. If the Bureau requires accrual information and the grantee's accounting records are not normally kept on the accrual basis, the grantee should develop such information through an analysis of the documentation on hand or on the basis of best estimates.

(3) The grant agreement shall determine the frequency of the Financial Status Report for each grant program considering the size and complexity of the particular program. However, the report shall not be required more frequently than quarterly or less frequently than annually. Also, a final report shall be required at the completion of the grant.

(4) The original and two copies of the Financial Status Report shall be submitted 30 days after the end of each specified reporting period. In addition, final reports shall be submitted 90 days after the end of the grant period or the completion of the project or program. Extensions to reporting due dates may be approved when requested by the grantee.

b. *Report of federal cash transactions.* (1) When funds are advanced to grantees through letters of credit or with Treasury checks, each grantee shall submit a report of Federal Cash Transactions. The Bureau shall use this report to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant or project from the grantees.

(2) The grant agreement may require forecasts of Federal cash requirements in the Remarks section of the report.

(3) When practical and deemed necessary, the Bureau may require grantees to report in the Remarks section the amount of cash in excess of three days' requirements in the hands of subgrantees or other secondary recipients and to provide short narrative explanations of actions taken by the grantees to reduce the excess balances.

(4) The Bureau shall accept the identical information from the grantees in a machine-usable format in lieu of the Report of Federal Cash Transactions.

(5) Grantees shall submit the original and two copies of the Report of Federal Cash Transactions no later than 15 working days following the end of each quarter. For those grantees receiving annual grants totalling one million dollars or more, the Bureau shall require a monthly report.

(6) The Bureau shall waive the requirement for submission of a Report of Federal Cash Transactions when monthly advances do not exceed $10,000 per grantee provided that such advances are monitored through other forms contained in this Appendix or the grantee's accounting controls are adequate to minimize excessive Federal advances.

2. Except as noted below, only the following forms will be authorized for the grantees in requesting advances and reimbursements.

a. *Request for advance or reimbursement.* (1) The "Request for Advance or Reimbursement" form is the standard form for all nonconstruction grant programs when letters of credit or predetermined automatic advance methods are not used. The Bureau, however, has the option of using this form for construction programs in lieu of an "Outlay Report and Request for Reimbursement for Construction Programs" (paragraph 2b) and shall specify in the grant agreement.

(2) Grantees shall be authorized to submit requests for advances or reimbursement at least monthly when letters of credit are not used. Grantees shall submit the original and two copies of a Request for Advance or Reimbursement.

b. *Outlay Report and Request for Reimbursement for Construction Program.* (1) The "Outlay Report and Request for Reimbursement for Construction Programs" form is the standard format to be used for requesting reimbursement for construction programs. The Bureau may, however, have the option of substituting a "Request for Advance or Reimbursement" form (paragraph 2a) in lieu of this form when the Bureau determines that the former provides adequate information to meet its needs as stated in the grant agreement.

(2) Grantees shall be authorized to submit requests for reimbursement at least monthly when letters of credit are not used. Grantees shall submit the original and two copies of an "Outlay Report and Request for Reimbursement for Construction Programs" form.

3. When the Bureau needs additional information in using these forms, the following shall be observed:

a. When necessary to comply with future legislative requirements, the Bureau shall issue instructions to require grantees to submit such information under the Remarks section of the reports.

b. When necessary to meet specific program needs, the Bureau shall submit the proposed reporting requirements to the General Services Administration for approval under the exception provision of this Appendix.

c. The Bureau, in obtaining information as in paragraphs a and b above, must also comply with report clearance requirements of the Office of Management and Budget Circular No. A-40, as revised.

PART 277—SCHOOL CONSTRUCTION CONTRACTS FOR PUBLIC SCHOOLS

Subpart A—General Provisions

Sec.
277.1 Purpose.
277.2 Scope.
277.3 Definitions.
277.4 Revision or amendment of regulations.

Subpart B—Application Process

277.11 Eligible applicants.
277.12 Consultation with Indians.
277.13 Application procedure for placement on priority list.
277.14 Submitting priority list to Bureau.
277.15 Preparing a commitment-to-fund list.
277.16 Negotiating a contract.
277.17 Funding provisions.

Subpart C—General Contract Requirements

277.21 Costs included in contracts.
277.22 Architectural design.
277.23 Facilities construction.
277.24 Selecting initial equipment.
277.25 Advance payments.
277.26 Use and transfer of Government property.
277.27 Wage and labor standards.
277.28 Indian preference.
277.29 Liability and motor vehicle insurance.
277.30 Recordkeeping.
277.31 Audit and inspection.
277.32 Freedom of information.
277.33 Reporting.
277.34 Repayment of funds.
277.35 Penalties.
277.36 Applicable procurement regulations.

Subpart D—Contract Revision or Cancellation

277.41 Contract revision or amendment.
277.42 Cancelling a contract for cause.

Subpart E—Appeals

277.51 Contract appeal.
277.52 Appeal from decision to cancel contract for cause.
277.53 Other appeals.

AUTHORITY: Sec. 204, Pub. L. 93-638, 88 Stat. 2203, unless otherwise noted.

Subpart A—General Provisions

§ 277.1 Purpose.

The purpose of the regulations in this Part is to give the application and approval process for a State or local education agency to obtain school construction contracts from the Bureau under Section 204 of Title II of the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638, 88 Stat. 2203), to assist in the education of Indians.

§ 277.2 Scope.

(a) The application process for public school construction contracts under Section 204 of Pub. L. 93-638 is given in 20 U.S.C. 631-645 and 45 CFR 114. The application process is administered by and is the responsibility of the Commissioner of Education. The Commissioner of Indian Affairs participates with the Commissioner of Education in preparation of programs, cost estimates and other supplemental data which are part of the application and national priority index. The Commissioner of Education furnishes the national priority index to the Bureau at the start of each fiscal year.

(b) The Bureau requests and receives funding for acquisition of sites and for architectural-engineering design, facilities construction and equipment for the program. Funds are allocated to projects by the Bureau on the basis of funding priorities as established by the Commissioner of Education. In accordance with the approved program, a contract is negotiated with the applicant by a Bureau contracting officer, designated by the Commissioner, for the acquisition of sites and for the design, construction and purchase of equipment to provide educational facilities meeting standards of construction given in Pub. L. 81-815.

§ 277.3 Definitions.

As used in this Part:

(a) "Bureau" mean the Bureau of Indian Affairs.

(b) "Commissioner of Education" means the United States Commissioner of Education, Department of Health, Education, and Welfare.

(c) "Commissioner of Indian Affairs" means the Commissioner of Indian Affairs, Department of the Interior.

(d) "Contractor" means an applicant who has been awarded a contract under this Part.

V 40 213 NOV 4 75 XUM

(e) "Days" means calendar days.

(f) "Economic enterprise" means any commercial, industrial, agricultural, or business activity that is at least 51 percent Indian owned, established or organized for the purpose of profit.

(g) "Indian tribe" means any Indian Tribe, Band, Nation, Rancheria, Pueblo, Colony, or Community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) which is federally recognized as eligible by the United States Government through the Secretary for the special programs and services provided by the Secretary to Indians because of their status as Indians.

(h) "Indian" means a person who is a member of an Indian tribe.

(i) "P.L. 81–815" means the Act of September 23, 1950 (P.L. 81–815, 72 Stat. 548), as amended.

(j) "P.L. 93–638" means the Indian Self-Determination and Education Assistance Act (P.L. 93–638, 88 Stat. 2203).

(k) "School district" or "local education agency" means that subdivision of the State which contains the public elementary and secondary educational institutions providing educational services and is controlled by a duly elected board, commission or similarly constituted assembly.

(l) "Secretary" means the Secretary of the Interior.

(m) "State" means a State of the United States of America or any political subdivision of a State.

(n) "State education agency" means the State Board of Education or other agency or office primarily responsible for supervision by the State of public elementary and secondary schools or, if there is no such office or agency, an office or agency designated by the Governor or by State law.

(o) "Tribal government", "tribal governing body" and "tribal council" means the recognized governing body of an Indian tribe.

§ 277.4 Revision or amendment of regulations.

In order to make any substantive revisions or amendments to regulations in this Part, the Secretary shall take the following actions:

(a) Consult with Indian tribes and national and regional Indian organizations to the extent practicable about the need for revision or amendment and consider their views in preparing the proposed revision or amendment.

(b) Publish any proposed revisions or amendments in the FEDERAL REGISTER as proposed rulemaking to provide adequate notice to, and receive comments from, all interested parties.

(c) After consideration of all comments received, publish the regulations in the FEDERAL REGISTER in final form not less than 30 days before the date they are made effective.

(d) Annually consult with Indian tribes and national and regional Indian organizations about the need for revision or amendment, and consider their views in preparing the revision or amendment.

(e) Nothing in this section shall preclude Indian tribes or national or regional Indian organizations from initiating request for revisions or amendments subject to paragraphs (a), (b) and (c) of this section.

Subpart B—Application Process

§ 277.11 Eligible applicants.

(a) Any school district may apply for a contract with the Bureau to assist the agency or district in acquiring sites for, or in constructing, acquiring, or renovating, facilities (including all necessary equipment) in school districts on or adjacent to or in close proximity to any Indian reservation or other lands held in trust by the United States for Indians.

(b) The project for which the applicant is requesting funding must meet the eligibility requirements under subsections (a) and (b) of section 14 of Pub. L. 81–815.

§ 277.12 Consultation with Indians.

(a) Except where there is a majority of Indians on an elected public school board, the Commissioner of Indian Affairs shall consult with the local Indian Education Committee and the tribal governing body(s) of the local Indian tribe(s) affected before the application for funding public school construction is submitted to the Commissioner of Education.

(b) This requirement will be deemed to be met unless the official tribal governing body(s) of the Indian tribe(s) to be benefited by the application notify the Commissioner of Education, in writing, within 60 days after the date of the consultation that the tribe(s) disapprove the application. The notice of disapproval must give specific stated objections to the application. A copy of the notice of disapproval shall be delivered or mailed to the Commissioner of Indian Affairs at the same time as the notice is delivered or mailed to the Commissioner of Education.

(c) After being notified that the tribe(s) disapproved a proposed application, the Commissioner of Indian Affairs or his designated representatives shall meet with tribal, public school officials and the Indian Education Committee to provide assistance in resolving the stated objectives to the application. The Commissioner of Indian Affairs shall notify the Commissioner of Education 15 days in advance of the date, place, and time of such meetings and shall invite the Commissioner of Education or his representatives to attend.

§ 277.13 Application procedure for placement on priority list.

(a) Applications for public school construction assistance under this Part will be submitted and processed in accordance with procedures outlined in 20 U.S.C. 631–645 and 45 CFR 114. Application forms, instructions, advice, and assistance in accordance with 20 U.S.C. 636 and 45 CFR 114 may be obtained from each State education agency. All questions pertaining to the preparation and filing of preapplications, applications, and request for materials should be directed to the State Representative for School Assistance, who will respond or may forward the inquiries, where appropriate, to the Commissioner of Education.

(b) Section 204(b) of Pub. L. 93–638 assigns responsibility for the application processing, determination of eligibility and establishment of project priority to the Commissioner of Education. Such application and review and determination processes includes the following:

(1) Field and site review by the Commissioner of Education assisted by the Commissioner of Indian Affairs to determine:

(i) Tentative cost estimate for budget purposes. The Commissioner of Indian Affairs or his representative will assist the Commissioner of Education in conducting the on-site inspection to determine which buildings need to be retained, demolished or remodeled and to gather initial information required for development of the planning document. From this information, a tentative cost estimate for design, construction, and equipment will be made for budget purposes.

(ii) Equal quality and standard of education. While assisting in the on-site inspection, the Commissioner of Indian Affairs or his representative must determine whether the quality and standard of education (including facilities and auxiliary services) for Indian students enrolled in the school are at least equal to that provided all other students from resources, other than resources provided under this Part, which are available to the local school district. If it is determined that the quality and standard of education for Indian students is not at least equal to that given all other students enrolled in the schools, the Commissioner of Indian Affairs or his representative shall recommend that the project not be placed on the priority list. Such a project will not be placed on the Bureau's commitment-to-fund list which is prepared under § 277.15.

(2) Discussion and consultation with State and local education agencies to determine the exact nature of the project to be constructed, including existing structure renovation or replacement.

(3) Presentation of program development for review and approval by the State and/or local education representatives and a current and updated project cost estimate.

(c) The Commissioner of Indian Affairs participates in the application process by furnishing technical assistance to the Commissioner of Education. The Commissioner of Indian Affairs insures consultation with Indians and assists with the preparation of the program, cost estimates, etc. as part of the data needed in order for the Commissioner of Education to prepare the priority listing of eligible applicants.

(d) The projects will be ranked by priority based on criteria established by the Commissioner of Education as given in 45 CFR 114.16.

§ 277.14 Submitting priority list to Bureau.

Pursuant to Section 204(b) of Pub. L. 93–638, a list of public school projects eligible for funding under this Part shall be submitted to the Commissioner of Indian Affairs by the Commissioner of Education at the beginning of each fiscal year.

§ 277.15 Preparing a commitment-to-fund list.

(a) When the Commissioner of Indian Affairs receives the priority list from the Commissioner of Education, the Commissioner of Indian Affairs will place the project highest on the priority list at the top of a commitment-to-fund list. Projects will be added to the commitment-to-fund list in the same order as they are on the priority list. Each project will be added to the commitment-to-fund list as long as the total of the tentative cost estimates is less than the amount of funds appropriated for public school construction under this Part for the new fiscal year. However, a project shall not be placed on the commitment-to-fund list if the Commissioner of Indian Affairs or his representative has determined under § 277.13(b)(1)(ii) that the quality and standard of education for Indian students enrolled in the schools are not at least equal to that provided all other students from resources, other than resources provided under this Part, which are available to the local school district.

(b) Each applicant will be notified in writing when the project has been placed on the commitment-to-fund list.

§ 277.16 Negotiating a contract.

When a project has been placed on the commitment-to-fund list, a contract will be negotiated by a Bureau contracting officer with the applicant. The contract will be developed in accordance with the regulations in 41 CFR 1 as supplemented by 41 CFR 14 and 41 CFR 14H, except 41 CFR Part 14H–70.

§ 277.17 Funding provisions.

(a) The Commissioner of Indian Affairs will expend not less than 75 per cent of appropriated funds authorized pursuant to Title II, Part B, Section 204 of Pub. L. 93–638 on those projects which meet the eligibility requirements under subsections (a) and (b) of section 14 of Pub. L. 81–815.

(b) Projects which are partially funded shall be given first consideration for the additional funding necessary to complete such projects.

(c) No funds from any contract under this Part shall be made available by any Federal agency directly to other than public agencies. However, school districts and State education agencies assisted by this Part may use funds provided under this Part to contract for necessary services with any appropriate individual, organization, or corporation.

(d) Funds approved for public school construction under this Part may not exceed the Federal share of the total cost of the proposed school facilities, as such facilities are defined within the meaning of Pub. L. 81–815, to serve both Indian and non-Indian children, with the definition of children to be as prescribed by Pub. L. 81–815.

(e) When non-Federal funds are involved, a local school district shall have 120 days from receipt of the notice that the project has been placed on the commitment-to-fund list to assemble the funds from local and/or State sources before the contract negotiations are completed. An extension may be granted by the Commissioner of Indian Affairs for unusual circumstances.

Subpart C—General Contract Requirements

§ 277.21 Costs included in contracts.

A contract with a school district under this Part may include costs for architectural design, site acquisition, facilities construction (including site development and supervision), and equipment in accordance with the approved project description.

§ 277.22 Architectural design.

(a) Drawings and specifications for a project shall comply with such Federal, State, and local laws, codes, ordinances and regulations pertaining to standards of construction and safety requirements, as may be applicable.

[16 Comp. Gen. 948 (1937)]

(b) Local education agencies shall give due consideration to excellence of architecture and design when constructing minimum school facilities under this Part.

(c) An Architect/Engineer shall be selected by the contractor to prepare the plans and specifications with the advice and assistance of the Commissioner of Indian Affairs who shall counsel the contractor with respect to professional qualifications and performance history of firms in order that the best qualified firm be selected. No Architect/Engineer agreement involving the expenditures of Federal funds shall be entered into by the contractor until the Commissioner of Indian Affairs has reviewed such agreement.

(d) The drawings and specifications will conform to the project description as shown in the completed application, or as modified by approved revisions.

(e) The drawings and specifications will be sent to the Commissioner of Education for review to ensure that the approved program is followed. The drawings and specifications will be reviewed with the local education agency.

After approval by the State and other regulatory agencies, the final drawings and specifications will be reviewed and approved by the Bureau for structural and safety adequacy.

§ 277.23 Facilities construction.

The contractor usually bids, awards and administers the construction contract. The Commissioner of Indian Affairs will assist in preconstruction and construction activities to assure conformity with the requirements of Pub. L. 93–638. Approval of all proposed preconstruction documents will be obtained from the Commissioner of Indian Affairs. Assistance prior to the preparation of these and similar documents will be provided upon request. In this connection, the Commissioner of Indian Affairs may suggest a preliminary conference with the project architect and others if that seems desirable. The Bureau shall make interim inspections and audits during construction and participate in the final acceptance inspection.

§ 277.24 Selecting initial equipment.

Equipment procured with payments under this part must be approved by the Commissioner before invitations for bids or requests for proposals as to the acquisition of such equipment are issued. In order to obtain such approval, a list of equipment to be procured (indicating quantities, costs, and specifications) shall be provided to the Commissioner for prior approval.

§ 277.25 Advance payments.

Advance payments to State education agencies or school districts will be made in accordance with the applicable provisions of 41 CFR 1 as supplemented by 41 CFR 14 and 41 CFR 14H, except 41 CFR Part 14H–70.

§ 277.26 Use and transfer of Government property.

(a) The use of Government-owned facilities for public school purposes may be authorized when not needed for Government activities. Transfer of title to such facilities (except land) may be arranged under the provisions of the Act of June 4, 1953 (67 Stat. 41), subject to the approval of the tribal government if property is located on a reservation.

(b) In carrying out a contract made under this Part, the Commissioner of Indian Affairs may, with the approval of the tribal government, permit a contractor to use existing buildings, facilities, and related equipment and other personal property owned by the Bureau under terms and conditions agreed upon for their use and maintenance. The property at the time of transfer must conform to the minimum standards established by the Occupational Safety and Health Act of 1970 (84 Stat. 1590), as amended (29 U.S.C. 651).

(c) Use of Government property is subject to the following conditions:

(1) When nonexpendable Government property is turned over to public school authorities under a use permit, the permittee shall insure such property against damage by flood, fire, rain, windstorm, vandalism, snow, and tornado in amounts and with companies satisfactory to the Bureau officer in charge of the property. In case of damage or destruction of the property by flood, fire, rain, windstorm, vandalism, snow or tornado, the insurance money collected shall be expended only for repair or replacement of prop-

V 40 213
NOV 4 75
XUM

erty. Otherwise, insurance proceeds shall be paid to the Bureau.

(2) If the public school authority is self-insured and can present evidence of that fact to the Commissioner of Indian Affairs, insurance for lost or damaged property will not be required. However, the public school authority will be responsible for replacement of such lost or damaged property at no cost to the Government or for paying the Government enough to replace the property.

(3) The permittee shall maintain the property in a reasonable state of repair consistent with the intended use and educational purposes.

§ 277.27 Wage and labor standards.

All laborers and mechanics employed by contractors or subcontractors in constructing, altering, or repairing buildings or other facilities in connection with contracts under this Part shall be paid wages not less than those on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act of March 3, 1931 (46 Stat. 1494), as amended.

§ 277.28 Indian preference.

(a) Any contract made by the Bureau with a State or school district shall provide that the contractor shall, to the greatest extent feasible, give preference in employment and training to Indians.

(b) Any contract made by the Bureau with a State or school district shall provide that the contractor shall, to the greatest extent feasible, give preference in the award of subcontracts to Indian organizations and to Indian-owned economic enterprises.

(c) All subcontractors employed by the contractor shall, to the greatest extent feasible, give preference to Indians for employment and training and shall be required to include in their bid submission a plan to achieve maximum use of Indian personnel.

(d) In the performance of contracts under this Part 277 and subject to the provisions of Part 14 H of Title 41, a tribal governing body may develop its own Indian preference requirements to the extent that such requirements are not inconsistent with the purpose and intent of paragraphs (a), (b), and (c) of this section.

§ 277.29 Liability and motor vehicle insurance.

(a) States and school districts shall obtain public liability and motor vehicle insurance under contracts entered into with the Bureau under this Part. However, where the Bureau contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, the contract may be exempted from this requirement.

(b) Notwithstanding paragraph (a) of this section, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the State or school district to provide liability insurance, regardless of how small the risk.

(c) If the State or public school authority is self-insured and can present evidence of that fact to the Commissioner of Indian Affairs, liability and motor vehicle insurance will not be required.

§ 277.30 Recordkeeping.

A contractor will be required to develop and maintain a recordkeeping system which will:

(a) Fully reflect all financial transactions involving the receipt and expenditure of funds provided under the contract in a manner which will provide accurate, current and complete disclosure of financial status; correlation with budget or allowable cost schedules; and clear audit facilitating data.

(b) Reflect the amounts and sources of funds other than Bureau contract funds which may be included in the construction project.

(c) Provide for the creation, maintenance and safeguarding of records of lasting value.

§ 277.31 Audit and inspection.

(a) During the term of a contract under this Part and for three years after the project or undertaking is completed, the Comptroller General and the Secretary, or any of their duly authorized representatives, shall have access, for audit and examination purposes, to any of the contractor's books, documents, papers, and records which, in their opinion, may be related or pertinent to the contract or any subcontract.

(b) The contractor will be responsible for maintaining all documents such as invoices, purchase orders, cancelled checks, balance sheets and all other records relating to financial transactions in a manner which will facilitate auditing. The contractor will be responsible for maintaining files of correspondence and other documents relating to the contract properly separated from general records or cross-referenced to general files.

(c) The contractor receiving funds under this Part shall be primarily responsible for contract compliance.

(d) The records involved in any claim or expenditure that has been questioned shall be further maintained until final determination has been made on the questioned expenditure.

(e) All contracts, reports, budgets, budget estimates, plans, and other documents pertaining to administration of the contract shall be made available by the contractor. The contractor shall provide information in accordance with the Freedom of Information Act.

§ 277.32 Fredom of information.

(a) Unless otherwise required by law, the Bureau shall not place restrictions on contractors which will limit public access to the contractor's records except when records must remain confidential.

(b) A contractor under this Part shall make all reports and information concerning the contract available to the Indian people which the contract affects. Reports and information may be withheld from disclosure only when both of the following conditions exist:

(1) The reports and information fall within one of the following exempt categories:

(i) Specifically required by statute or Executive Order to be kept secret.

(ii) Commercial or financial information obtained from a person or firm on a privileged or confidential basis.

(iii) Personnel, medical, and similar files where disclosure would be a clearly unwarranted invasion of personal privacy.

(iv) Geological and geophysical information and data concerning wells.

(2) Disclosure is prohibited by statute or Executive Order or sound grounds exist for using the exemption given in paragraph (b)(1) of this section.

(c) A request to inspect or copy reports and information shall be in writing and must reasonably describe the reports and information requested. The request may be delivered or mailed to the contractor. Within ten (10) working days after receiving the request, the contractor shall determine whether to grant or deny the request. The requester shall be notified immediately of the determination.

(d) The time limit for making a determination may be extended up to an additional ten (10) working days for good reason. The requester shall be notified in writing of the extension, reasons for the extension, and the date on which the determination is expected to be made.

§ 277.33 Reporting.

(a) A contractor under this Part shall make a detailed report to the Commissioner of Indian Affairs after construction is completed. The report shall include, but not be limited to, an accounting of the amounts and purposes for which the contract funds were expended.

(b) The contractor shall furnish other contract-related reports when and as required by the Commissioner of Indian Affairs.

(c) A contractor under this Part shall send copies of the reports required by paragraphs (a) and (b) of this section to the tribe(s) affected by the construction at the same time as the reports are sent to the Bureau.

§ 277.34 Repayment of funds.

Any funds paid under a contract entered into under this Part which are not expended, obligated or used for the purposes of the contract during its term shall be returned to the Bureau.

§ 277.35 Penalties.

If any officer, director, agent, or employee of, or connected with, any contractor or subcontractor under this Part embezzles, willfully misapplies, steals, or obtains by fraud any of the funds or property connected with the contract or subcontract, he shall be subject to the following penalties:

(a) If the amount involved does not exceed $100, he shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) If the amount involved exceeds $100, he shall be fined not more than $10,000 or imprisoned for not more than two years, or both.

§ 277.36 Applicable procurement regulations

States or school districts wanting to contract with the Bureau under this Part must comply with the applicable requirements in the Federal Procurement Regulations (41 CFR 1), as supplemented by the Interior Procurement Regulations (41 CFR 14) and the Bureau of Indian Affairs Procurement Regulations (41 CFR 14H), except 41 CFR Part 14H–70.

§ 277.37 Privacy Act requirements.

(a) When a contractor operates a system of records to accomplish a Bureau function, the contractor shall comply with Subpart D of 43 CFR Part 2 which implements the Privacy Act (5 U.S.C. 552a). Examples of the contractor's responsibilities are:

(1) To continue maintaining those systems of records declared by the Bureau to be subject to the Privacy Act as published in the FEDERAL REGISTER.

(2) To make such records available to individuals involved.

(3) To disclose an individual's record to third parties only after receiving permission from the individual to whom the record pertains. 43 CFR 2.56 lists exceptions to this procedure.

(4) To establish a procedure to account for access, disclosures, denials, and amendments to records.

(5) To provide safeguards for the protection of the records.

(b) The contractor may not:

(1) Discontinue or alter any established systems of records without prior approval of the appropriate Bureau systems manager.

(2) Deny request for notification or access of records without prior approval of the appropriate Bureau systems manager.

Subpart D—Contract Revision or Cancellation

§ 277.41 Contract revision or amendment.

Any contract made under this Part may be revised or amended as deemed necessary to carry out the purposes of the contract. A contractor may make a written request for a revision or amendment of a contract to the Bureau contracting officer.

§ 27.42 Canceling a contract for cause.

(a) Any contract entered into under this Part may be cancelled for cause when the contractor fails to perform the work called for under the contract.

(b) Before cancelling the contract, the Bureau will advise the contractor in writing of the following:

(1) The reasons why the Bureau is considering cancelling the contract.

(2) That the contractor will be given an opportunity to bring its work up to an acceptable level.

(c) If the contractor does not overcome the deficiencies in its contract performance, the Bureau shall cancel the contract for cause. The Bureau will notify the contractor, in writing, of the cancellation. The notice shall give the reasons for the cancellation and the right of the contractor to appeal under Subpart C of 43 CFR Part 4.

(d) When a contract is cancelled for cause, the Bureau will either perform the work with its own forces or by another contract, as appropriate.

Subpart E—Appeals

§ 277.51 Contract appeal.

A contractor may appeal an adverse decision or action of a Bureau contracting officer regarding a contract under this Part as provided in Subpart C of 43 CFR Part 4.

§ 277.52 Appeal from decision to cancel contract for cause.

A contractor may appeal the decision of a Bureau official to cancel a contract under this Part for cause. The appeal shall be made as provided in subpart C of 43 CFR Part 4.

§ 277.53 Other apeals.

Any decision or action taken by a Bureau official under this Part, other than those given in §§ 277.51 and 277.52, may be appealed only as provided in Part 2 of this chapter.

Title 41—Public Contracts and Property Management

CHAPTER 14H—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

PART 14H–70—CONTRACTING WITH INDIAN ORGANIZATIONS PURSUANT TO THE INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT

OCTOBER 24, 1975.

Beginning on page 41025 of the September 4, 1975, FEDERAL REGISTER (40 FR 41025), there was published a notice of proposed rulemaking to amend Chapter 14H of Title 41 of the Code of Federal Regulations by adding a new Part 14H–70. This amendment was proposed pursuant to the authority contained in the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638; 88 Stat. 2203).

The purpose of the amendment is to consolidate in one Part all of the contracting requirements which Indian tribal and Alaska Native organizations must follow in contracting with the Bureau of Indian Affairs under the Indian Self-Determination and Education Assistance Act. In preparing the regulations in new Part 14H–70, waivers were made of some of the standard Federal Procurement Regulations as authorized by section 106(a) of the Act. Certain requirements were waived in an attempt to simplify contracting procedures for Indian tribal and Alaska Native organizations. Additional waivers may be made on a case-by-case basis as the Commissioner considers such waivers appropriate.

The Bureau of Indian Affairs has sought to be responsive to the recommendations of Indian and Alaska Native governing bodies who are, or have contemplated, operating Bureau programs under contract. For some time, these groups have been critical of the complexities inherent in negotiating contracts under the standard Federal Procurement Regulations. In many instances, an unfavorable psychological climate was created that inhibited local desires for more meaningful expressions of self-determination based on their own needs and goals.

Through experience, the Bureau of Indian Affairs and its constituents have found the standard procurement regulations to contain numerous requirements that have little if any applicability to contracts. For this reason, the Bureau has evolved what, in essence, is a set of "Indian" Procurement Regulations for dealing with tribal and Alaska Native groups as the new Part 14H–70.

These regulations reflect the Bureau's attempt to follow the recommendations of Indian and Alaska Native people to place in one part all pertinent contracting regulations or references to such regulations affecting contracts with tribal organizations; to reduce referencing regulations contained in other CFR Parts, if possible; to make the regulations as comprehensive and clear as possible; to assure that both parties to the contract know their rights, roles and responsibilities; and to remove any unnecessary or inapplicable requirements found in the standard procurement rules which would not apply to self-determination contracts with tribal organizations.

The contractual approach is one of several voluntary options available to Indian and Alaska Native governing bodies to assist them in the self-development process. Depending on their basic needs and goals, they may want to use the contract mechanism in their self-development process. If so, Part 14H–70 seeks to simplify the contracting procedure for them.

The public was given until October 4, 1975, to submit written comments, suggestions, or objections regarding the proposed amendment. All comments received with respect to the proposed amendment were given due consideration.

A. *Changes made due to comments received.* As a result of comments received, the following changes in the regulations are made in addition to language changes for clarification:

1. A new § 14H–70.103 is added to define what is considered an Indian reservation and the former §§ 14H–70.103 and 14H–70.104 are redesignated as §§ 14H–70.104 and 14H–70.105, accordingly.

2. Section 14H–70.402 is revised to make it clear that an Indian tribe has the right to determine the tribal organization that will provide services to it under a contract and that, in such instances, the tribe's determination constitutes the Bureau's justification for

V 40 213 NOV 4 75 XUM

negotiating the contract with the designated tribal organization on a noncompetitive basis.

3. Section 14H–70.605 is revised to conform it to the revision in 25 CFR 271.71 and 25 CFR 271.72.

4. Section 14H–70.608 and § 14H–70.610 are changed to conform them to the revision in 25 CFR 271.44.

5. Section 14H–70.612(a) is revised by amending paragraph (f) of the Advance Payment clause to remove a restrictive requirement on liquidation of advance payments.

6. Section 14H–70.612(b) is revised to remove language from paragraph (f) of the clause concerning interest earned on advances that was inconsistent with the Act.

7. Section 14H–70.612(c) is revised by adding language to the preamble to the clause and paragraph (a) thereunder to take into consideration a memorandum of understanding between the Departments of Interior and Treasury which simplifies advance payment procedures under letters of credit.

8. Section 14H–70.615 is revised to insure that reports required under a contract be specified in the contract.

9. Section 14H–70.616 is revised to make sure it conforms to the requirements in 25 CFR 271.74.

10. A new § 14H—70.635 is added to reflect the addition of the Privacy Act requirements to 25 CFR Part 271.

11. A new § 14H–70.636 is added in response to concerns expressed over copyrights.

12. A new § 14H–70.637 is added in response to concerns expressed over the Government Printing and Binding Regulations.

13. A new § 14H–70.638 is added on cancellation of contracts for cause because it was inadvertently omitted when the proposed regulations were published on September 4, 1975. It has, however, been drafted to conform to 25 CFR 271.75.

14. Section 14H–70.1403(a) is revised to take into consideration modifications or supplements to Chapter 2000 of the Treasury Fiscal Requirements Manual.

15. Section 14H–70.1405 is revised to authorize use of letters of credit for advance payments when the amount of the advance is $120,000 rather than $250,000 and to take into consideration modifications or supplements to Chapter 2000 of the Treasury Fiscal Requirements Manual.

B. *Changes not adopted.* Certain other comments have been carefully considered but have not been accepted. The following suggestions were not adopted for the reasons given:

1. Several comments were received that were common to both 25 CFR Part 271 and this Part 14H–70 of Title 41 of the Code of Federal Regulations. To the extent that these common comments were not accepted or taken under further consideration, they were answered in the preamble to 25 CFR Part 271 (a related document published elsewhere in Part II of this issue of the FEDERAL REGISTER).

2. Several commentators took exception to the requirement for liability insurance and expressed that as a minimum the Bureau should assume responsibility for losses over an agreed to amount. The Bureau will seek counsel on this issue and, if the results thereof indicate a change can be made, the commentators' comments will be considered accordingly.

3. One commentator expressed the opinion that the language of the Disputes clause in § 14H–70.618 placed an almost impossible burden on the contractor. The Bureau cannot agree with this contention as the language in question is common to Government contracts.

4. One commentator expressed the opinion that referencing Appendix A to 25 CFR Part 276 in § 14H–70.626 precludes the Bureau from accepting an indirect cost rate approved by another Federal agency. The Bureau does not agree with this opinion as express reference has been made to the acceptability of another Federal agency's audited rate in § 14H–70.1003.

Accordingly, Chapter 14H of Title 41 of the Code of Federal Regulations is amended by adding a new Part 14H–70 as set forth below.

Effective date. The addition of Part 14H–70 shall become effective on December 4, 1975.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Subpart 14H–70.0—Regulation System

Sec.
14H–70.000 Scope of part.
14H–70.001 Scope of subpart.
14H–70.002 General.
14H–70.003 Federal and Interior procurement regulations.
14H–70.004 Area office implementation of Federal or Interior procurement regulation issuances.
14H–70.005 Applicability.
14H–70.006 Changes of regulations.

Subpart 14H–70.1—Definition of Terms

14H–70.101 Definitions.
14H–70.102 Contract.
14H–70.103 Indian reservation.
14H–70.104 Program.
14H–70.105 Project.

Subpart 14H–70.2—General Policies

14H–70.201 Method of procurement.
14H–70.202 Profit.
14H–70.203 Payment of interest on contractor's claim.
14H–70.204 Protests to Comptroller General.

Subpart 14H–70.3—Procurement Responsibility and Authority

14H–70.301 General.

Subpart 14H–70.4—Procurement by Negotiation

14H–70.401 Scope of subpart.
14H–70.402 Circumstances permitting negotiation.
14H–70.403 Determinations, findings and authorities.
14H–70.404 Types of contract.
14H–70.405 Negotiated overhead rates.
14H–70.406 Price negotiated policies.
14H–70.407 Requirements for price or cost analysis and cost or pricing data.
14H–70.408 Audit as a pricing aid.
14H–70.409 Subcontracting.

Subpart 14H–70.5—Special and Directed Sources of Supply

Sec.
14H–70.501 General Services Administration supply sources.
14H–70.502 Inter-agency motor pool vehicles.
14H–70.503 Purchase of passenger carrying vehicles.

Subpart 14H–70.6—Contract Clauses

14H–70.601 Scope of subpart.
14H–70.602 Required clauses.
14H–70.603 Definitions.
14H–70.604 Effect on existing rights.
14H–70.605 Retrocession.
14H–70.606 Examination of records.
14H–70.607 Penalties.
14H–70.608 Indian employment preference.
14H–70.609 Equal opportunity.
14H–70.610 Use of Indian business concerns.
14H–70.611 Indemnity and insurance.
14H–70.612 Advance payment.
14H–70.613 Contract funding and renegotiation.
14H–70.614 Government furnished property.
14H–70.615 Annual reporting.
14H–70.616 Reassumption of programs.
14H–70.617 Fair and uniform services.
14H–70.618 Disputes.
14H–70.619 Officials not to benefit.
14H–70.620 Changes.
14H–70.621 Bid guarantee and bonds.
14H–70.622 Certificate of nonsegregated facilities.
14H–70.623 Convict labor.
14H–70.624 Limitation of costs.
14H–70.625 Allowable cost and payment.
14H–70.626 Negotiated overhead rates.
14H–70.627 Assignment of claims.
14H–70.628 Payment of interest on contractor's claims.
14H–70.629 Audit and records.
14H–70.630 Contract Work Hours and Safety Standards Act—Overtime Compensation.
14H–70.631 Price reduction for defective cost or pricing data.
14H–70.632 Subcontractor cost and pricing data.
14H–70.633 Buy American Act.
14H–70.634 Anti-Kickback Act.
14H–70.635 Privacy Act requirements.
14H–70.636 Rights in data.
14H–70.637 Printing.
14H–70.638 Cancellation for cause.

Subpart 14H–70.7—Cancellation or Reassumption of Contracts

14H–70.701 General.
14H–70.702 Settlement of cancelled contracts.

Subpart 14H–70.8—Bonds and Insurance

14H–70.801 Scope of subpart.
14H–70.802 Policy on use of bid guarantees.
14H–70.803 Performance bonds.
14H–70.804 Payment bonds.
14H–70.805 Liability insurance.
14H–70.806 Insurance coverage.
14H–70.807 Exceptions.
14H–70.808 Motor vehicle insurance.
14H–70.809 Indemnity and insurance clause.

Subpart 14H–70.9—Labor

14H–70.901 Labor standards in construction contracts.
14H–70.902 Labor standards in subcontracts.

Subpart 14H–70.10—Contract Cost Principles and Procedures

14H–70.1001 Principles for determining costs.
14H–70.1002 Predetermined fixed rates.
14H–70.1003 Procedures.

Subpart 14H–70.11—Procurement Forms

14H–70.1101 Applicability of standard forms.

Sec.

Subpart 14H–70.12—Procurement of Construction

14H–70.1201 Scope of subpart.
14H–70.1202 Exceptions.

Subpart 14H–70.13—Retention Requirements for Contractor and Subcontractor Records

14H–70.1301 General.

Subpart 14H–70.14—Contract Financing

14H–70.1401 General.
14H–70.1402 Reimbursement.
14H–70.1403 Advance payments by Treasury check.
14H–70.1404 Advance payments when special bank account required.
14H–70.1405 Letter of credit.
14H–70.1406 Approval of advance payments.
14H–70.1407 Sub-advances.
14H–70.1408 Interest.
14H–70.1409 Automatic advances.
14H–70.1410 Agreement for special bank account.

Subpart 14H–70.15—Novation and Change of Name Agreements

14H–70.1501 General.

Subpart 14H–70.16—Procurement Reports

14H–70.1601 General.
14H–70.1602 Standard Form 37, Report on Procurement by Civilian Executive Agencies.

AUTHORITY: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486 (c); Pub. L. 93–638, 88 Stat. 2203.

§ 14H–70.000 Scope of part.

This part sets forth policies and procedures concerning the Bureau of Indian Affairs Procurement Regulation System insofar as the system pertains to contracts entered into under the authority of the Indian Self-Determination and Education Assistance Act (Pub. L. 93–683, 88 Stat. 2203).

Subpart 14H–70.0—Regulation System

§ 14H–70.001 Scope of subpart.

This Subpart establishes a system for the codification and publication of procurement policy and procedural regulations of the Bureau of Indian Affairs which implement the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638, 88 Stat. 2203).

§ 14H–70.002 General.

The Act provides that, contracts with tribal organizations pursuant to Section 102 of the Act shall be in accordance with all contracting laws and regulations except that, in the discretion of the Secretary, contracts may be negotiated without advertising and need not conform with the provisions of the Act of August 24, 1935 (49 Stat. 793), as amended. The Secretary may waive any provision of such contracting laws or regulations which he determines are not appropriate for the purposes of the contract involved or inconsistent with the provisions of the Act.

§ 14H–70.003 Federal and Interior procurement regulations.

To the extent that the Federal Procurement Regulations and Interior Procurement Regulations, 41 CFR Chapter 1, Chapter 14, and Chapter 14H (except 41 CFR Part 14H–1) respectively are not made specifically applicable to contracts entered into pursuant to the Act by reference in this Part 14H–70 they are hereby waived. If this part conflicts with any of the provisions of either the Federal Procurement Regulations or Interior Procurement Regulations the provisions of this Part 14H–70 shall govern. When either the Federal Procurement Regulations or Interior Procurement Regulations are referenced in this Part, the reference shall be similar to the following:

(a) "§ 1–1.000 of this title", when referring to a section of the Federal Procurement Regulations.

(b) "§ 14–1.000 of this title", when referring to a section of the Interior Procurement Regulations.

§ 14H–70.004 Area Office implementation of Federal or Interior procurement regulation issuances.

Any regulations issued through the Federal Procurement Regulation or Interior Procurement Regulation System shall not be implemented by contracting officers insofar as contracts entered into pursuant to the Act are concerned unless such regulations are implemented in this Part 14H–70.

§ 14H–70.005 Applicability.

The provisions of this Part 14H–70 apply only to those contracts between the Bureau and Indian organizations entered into pursuant to the Act. They do not apply to contracts with individuals, partnerships, corporations or other Indian organizations that do not fall under the purview of the Act.

§ 14H–70.006 Changes of regulations.

(a) To the extent that a change of the regulations issued under this Part 14H–70 may—

(1) Impose additional requirements on the contractor;

(2) Have an adverse effect on the contractor's operations; or,

(3) Delay or impede the contracting process, such changes shall be made only after consultation, to the maximum extent practicable, with Indian tribes and national and regional Indian organizations. Further those changes shall be presented to the Committees on Interior and Insular Affairs of the United States Senate and House of Representatives before publication in the FEDERAL REGISTER for comments.

(b) To the extent that changes of the regulations issued under this Part 14H–70 affect only the internal operation of the Bureau's contracting offices, the changes may be made without consultation.

Subpart 14H–70.1—Definition of Terms

§ 14H–70.101 Definitions.

For the purpose of this part, unless otherwise indicated in 25 CFR 271.2, the terms given in this subpart have the meanings set forth in this subpart. The definitions in 25 CFR 271.2 also apply to this part.

§ 14H–70.102 Contract.

"Contract" means any promissory arrangement between a tribal organization and the Federal government which is reduced to writing and signed by duly authorized agents of the parties. The term "contract" will also mean a transaction authorized by a purchase order signed in behalf of the Federal government by a duly authorized agent and accepted in behalf of a tribal organization by beginning performance.

§ 14H–70.103 Indian reservation.

"Indian reservation" means any Indian tribe's reservation, Pueblo, Colony, or Rancheria, including former reservations in Oklahoma, Alaska native regions established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and Indian allotments.

§ 144–70.104 Program.

"Program" means a delivery of service generally of a continuing nature separated from other similar efforts by funds, staff or location, except that a program may involve, in certain instances, more than one location.

§ 14H–70.105 Project.

"Project" means an effort aimed at a specific objective, not of a continuing nature, and having defined parameters.

Subpart 14H–70.2—General Policies

§ 14H–70.201 Method of procurement.

It is neither feasible nor practicable to obtain competition on contracts entered into under the Act. Therefore, contracts with tribal organizations entered into pursuant to the Act will be negotiated without competition.

§ 14H–70.202 Profit.

(a) Profit is not allowable on contracts entered into pursuant to the Act.

(b) Profit may be allowed when a contract is entered into pursuant to the Act of June 25, 1910 (36 Stat. 861; 25 U.S.C. 47), commonly referred to as the "Buy Indian Act" and its implementing regulations and when all of the following conditions are met:

(1) The contract is for the procurement of goods, materials, supplies, etc., or, if for services, the services are for a specific project rather than for the operation of a Bureau program or part of a program.

(2) The materials to be supplied or the services to be provided are normally supplied or provided by a private contractor rather than by Bureau personnel or, in the case of services traditionally performed by Bureau personnel, a contract for such services does not involve "tribal governmental functions" or "business related functions" as defined in 25 CFR 271.2 or contractable trust resources programs as set forth in 25 CFR 271.32.

(3) Definitive specifications are used which permit rejection by the Bureau of defective material and workmanship and replacement at the contractor's expense as may be required.

(4) The price to be paid can be demonstrated to be fair and reasonable in

V 40 213 NOV 4 75 XUM

terms of the price prevailing in the locality for similar materials or services, including profit.

(5) All requirements of applicable procurement laws and regulations are followed.

§ 14H–70.203 Payment of interest on contractor's claim.

(a) Payment of interest on contractor's claims is allowable under the conditions set forth in §1–1.322 of this title.

(b) Payment of interest is allowable whether the clause set forth in § 14H–70.628–28 is or is not included in the contract.

§ 14H–70.204 Protests to Comptroller General.

Contracting officers will process protests to the Comptroller General in accordance with the procedures set forth in §§ 1–2.407–8 and 14–2.407–8 of this title.

Subpart 14H–70.3—Procurement Responsibility and Authority

§ 14H–70.301 General.

The responsibilities of the Bureau under Subparts 1–1.4 and 14–1.4 of this title are not changed by the Act.

Subpart 14H–70.4—Procurement by Negotiation

§ 14H–70.401 Scope of subpart.

This subpart concerns negotiation of contracts entered into pursuant to the Act.

§ 14H–70.402 Circumstances permitting negotiation.

Contracts for the performance of programs or parts of programs located on or near an Indian reservation can be performed successfully only by the Indian tribe which represents such Indian reservation or by a tribal organization approved by the Indian tribe. Such contracts will be negotiated on a non-competitive basis with the tribal organization designated by such Indian tribe in its request. Contracts for programs and parts of programs which are not located on or near an Indian reservation may be negotiated with a tribal organization approved by the Indian tribe or tribes served by such program or parts of programs.

§ 14H–70.403 Determinations, findings and authorities.

A tribe's request that a contract be entered into with a designated tribal organization will be entered into the contract file and will serve as the contracting officer's justification for negotiating the contract on a non-competitive basis.

§ 14H–70.404 Types of contract.

Cost-reimbursement type contracts provide for payment to the contractor of allowable costs incurred in the performance of the contract, to the extent prescribed in the contract. This type of contract establishes an estimate of total cost to obligate the funds, and a monetary ceiling which the contractor may not exceed. Cost reimbursement type contracts will be used for all contracts made pursuant to this Part.

§ 14H–70.405 Negotiated overhead rates.

Overhead (indirect costs) is allowable on contracts entered into pursuant to the Act under the conditions set forth in Subpart 14H–70.10 of this part.

§ 14H–70.406 Price negotiation policies.

(a) When costs reflected in a program proposal submitted by a tribal organization essentially conform with the Bureau budget for that program and do not exceed the amount programmed for and allocated to the operating level, the proposal may be accepted without price negotiation.

(b) When costs reflected in a program proposal differ from the Bureau budget with respect to certain budget items, the contracting officer may request the tribal organization to submit cost and pricing data in sufficient detail to determine the validity and reasonableness of costs.

(c) When a program proposal is not based on a Bureau budget which has previously been established in the budget process for that program, unit costs and total costs will be subject to negotiation.

(d) Nothing in this section is to be construed to mean that contracting officers and cognizant program officials are relieved from responsibility for assuring that elements of total contract amounts are reasonable as to unit prices, salary scales, and program requirements. Recognition will be given to the special and unique relationship between the Bureau and tribal organizations under this Act; however, acceptance of proposals, without review, discussion and resolution of differences by negotiation will not be made, except as provided in § 14H–70.408. Files will be properly documented to reflect the negotiation process, including the basis for final determination of the scope of work and price.

§ 14H–70.407 Requirements for price or cost analysis and cost or pricing data.

Except for initial contracts or other agreements, the requirements of § 1–3.807–2 and § 1–3.807–3 of this title are optional with the contracting officer.

§ 14H–70.408 Audit as a pricing aid.

(a) In instances in which a basis for price determination does not exist in sufficient detail and form and the contract amount is expected to exceed $100,000, the contracting officer may request a pre-award audit; or if time does not permit, a clause may be inserted in the contract providing for adjustment of allowable costs when determined necessary or advisable by a post-award audit.

(b) When the contracting officer determines that there is sufficient information to award a contract without a pre-award audit the audit may be waived. However, the waiver of a pre-award audit shall be supported by a written statement in the contract files setting forth the reason for the waiver as prescribed by § 14–63.103(a) (1) of this title.

§ 14H–70.409 Subcontracting.

Any contract proposal or plan of operations submitted by a tribal organization which contains a proposed subcontract will identify the subcontractor, the amount and purpose of the subcontract, the manner in which the subcontractor was selected, and the basis for the cost of subcontract. Subcontract opportunities shall be advertised or negotiated in a manner that provides open and free competition to the maximum extent practicable and subcontracts will be awarded in accordance with sound business practices.

Subpart 14H–70.5—Special and Directed Sources of Supply

§ 14H–70.501 General Services Administration supply sources.

Tribal organizations performing services under cost reimbursement contracts pursuant to the Act are entitled to use General Services Administration supply sources in accordance with Subpart 1–5.9 of this title.

§ 14H–70.502 Inter-agency motor pool vehicles.

Tribal organizations performing services under cost reimbursement contracts pursuant to the Act are entitled to use General Services Administration inter-agency motor pool vehicles in accordance with Subpart 1–5.5 of this title.

§ 14H–70.503 Purchase of passenger carrying vehicles.

Purchase of passenger carrying vehicles is prohibited. If allowed under the contract, purchase of other vehicles shall be through Federal buying channels unless a waiver by the General Services Administration is obtained.

Subpart 14H–70.6—Contract Clauses

§ 14H–70.601 Scope of subpart.

This subpart sets forth the clauses to be included in the contracts entered into with tribal organizations pursuant to the Act.

§ 14H–70.602 Required clauses.

The clauses set forth in this subpart shall be included in all contracts entered into pursuant to the Act unless otherwise indicated.

§ 14H–70.603 Definitions.

DEFINITIONS

The following terms shall have the meanings set forth below throughout this contract:

(a) The term "head of the agency" or "Secretary" as used herein means the Secretary, the Under Secretary, and Assistant Secretary, or any other head or assistant head of the Department of the Interior; and the term "his duly authorized representative" means any person or persons or board (other than the contracting officer) authorized to act for the head of the agency or the Secretary.

(b) The term "contracting officer" means the person executing this contract on behalf of the Government, and any other officer or civilian employee who is properly designated as a contracting officer; and the term includes, except as otherwise provided in this contract, the authorized representative of a contracting officer acting within the limits of his authority.

§ 14H–70.604 Effect on existing rights.

EFFECT ON EXISTING RIGHTS

(a) Nothing in this contract shall be construed as—

(1) Affecting, modifying, diminishing, or otherwise impairing the sovereign immunity from suit enjoyed by an Indian tribe; or,

(2) Authorizing or requiring the termination of any existing trust responsibility of the United States with respect to the Indian people.

§ 14H–70.605 Retrocession.

RETROCESSION

The contractor agrees to comply with the procedures and requirements in 25 CFR 271.71 and 271.72 in the event of retrocession.

§ 14H–70.606 Examination of records.

(a) The following clause shall be included in all negotiated contracts which do not exceed $10,000:

EXAMINATION OF RECORDS

(a)(1) The contractor agrees to maintain books, records, documents and other evidence pertaining to the costs and expense of this contract (hereinafter collectively called records) to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs of whatever nature for which reimbursement is claimed under the provisions of this contract.

(2) The contractor agrees to make available at the office of the contractor at all reasonable times during a period of three years, after final payment under this contract all records specified in paragraph (1) above for examination and audit by designated representative of the Comptroller General, the Secretary of Interior or the contracting officer.

(3) The contractor further agrees that records which relate to claims, litigation, or to any costs or expenses of this contract to which exception has been taken by the Comptroller General, the Secretary of Interior or the contracting officer or any of their duly authorized representatives shall be retained by the contractor until such appeals, litigation or exceptions have been disposed of.

(4) The provisions of this clause shall be applicable to and included in any negotiated subcontract.

(b) The following clause shall be included in all negotiated contracts which exceed $10,000:

EXAMINATION OF RECORDS

(a)(1) The contractor agrees to maintain books, records, documents, and other evidence pertaining to the costs and expenses of this contract (hereinafter collectively called "records") to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs and expenses of whatever nature for which reimbursement is claimed under the provisions of this contract.

(2) The contractor agrees to make available at the office of the contractor at all reasonable times during the period set forth in subparagraph (4) below any of the records for inspection, audit or reproduction by any authorized representative of the Comptroller General, Secretary of the Interior, and the contracting officer.

(3) If the Comptroller General or any of his duly authorized representatives determine that his audit of the amounts reimbursed under this contract as transportation charges will be made at a place other than the office of the contractor, the contractor agrees to deliver, with the reimbursement voucher covering such charges or as may be otherwise specified within 2 years after reimbursement of charges covered by any such voucher, to such representative as may be designated for that purpose through the contracting officer, such documentary evidence in support of transportation costs as may be required by the Comptroller General or any of his duly authorized representatives.

(4) Except for documentary evidence delivered to the Government pursuant to subparagraph (3) above, the contractor shall preserve and make available his records:

(i) Until expiration of 3 years after final payment under this contract or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, and

(ii) For such longer period, if any, as is required by applicable statutes, by any other clause of this contract, or by (A) or (B) below:

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting settlement.

(B) Records which relate to:

(i) Appeals under the disputes clause of this contract;

(ii) Litigation or the settlement of claims arising out of the performance of this contract; or,

(iii) Costs and expenses of this contract to which exception has been taken by the Comptroller General, Secretary of the Interior or the contracting officer, or any of their duly authorized representatives, shall be retained by the contractor until such appeals, litigation, claims or exceptions have been disposed of.

(5) Except for documentary evidence delivered pursuant to subparagraph (3) above, and the records described in subparagraph (4)(ii)(B) above, the contractor may in fulfillment of his obligation to retain his records as required by this clause substitute photographs, microphotographs, or other authentic reproductions of such records, after the expiration of 2 years following the last days of the month of reimbursement to the contractor of the invoice or voucher to which such records relate, unless a shorter period is authorized by the contracting officer with the concurrence of the Comptroller General or his duly authorized representative.

(6) The provisions of this paragraph (a), including this subparagraph (6), shall be applicable to and included in each subcontract hereunder which is on a cost, cost-plus-a-fixed-fee, time-and-material or labor-hour basis.

(b) The contractor further agrees to include in each of his subcontracts hereunder, other than those set forth in paragraph (a) (6) above, a provision to the effect that the subcontractor agrees that the Comptroller General, the Secretary of the Interior, and the contracting officer, or any of their duly authorized representatives, shall, until the expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract", as used in this paragraph (b) only, excludes:

(i) Purchase orders not exceeding $10,000; and

(ii) Subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

§ 14H–70.607 Penalties.

PENALTIES

(a) Any officer, director, agent, employee or such other person connected in any capacity with this contract or any subcontract thereunder that embezzles, willfully misapplies, steals or obtains by fraud any of the money, funds, assets or property provided through the contract shall be fined not more than $10,000 or imprisoned for not more than two years, or both; Provided, that if the amount embezzled, misapplied, stolen, or obtained by fraud does not exceed $100, such person shall be fined not more than $1,000 or imprisoned not more than one year, or both.

(b) The contractor agrees to insert this clause in all subcontracts.

§ 14H–70.608 Indian employment preference.

INDIAN EMPLOYMENT PREFERENCE

(a) The contractor shall give preference in employment for all work performed under the contract, including subcontracts thereunder, to qualified Indians regardless of age, religion or sex and, to the extent feasible consistent with the efficient performance of the contract, provide employment and training opportunities to Indians, regardless of age, religion or sex that are not fully qualified to perform under the contract. The contractor shall comply with any Indian preference requirements established by the tribe receiving services under the contract to the extent that such requirements are not inconsistent with the purpose and intent of this paragraph.

(b) If the contractor or any of its subcontractors is unable to fill its employment openings after giving full consideration to Indians as required in paragraph (a) above, these employment openings may then be filled by other than Indians under the conditions set forth in the Equal Opportunity clause of this contract.

(c) The contractor agrees to include this clause or one similar thereto in all subcontracts issued under the contract.

§ 14H–70.609 Equal opportunity.

EQUAL OPPORTUNITY

During the performance of this contract and after complying with the Indian Employment Preference clause of this contract, the contractor agrees as follows:

(a) The contractor will not discriminate against any employee or applicant for employment because of race, age, religion, or sex. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, age, religion, or sex. Such action shall include, but not be limited to, the following: Employment, up-grading, demotion, or transfer; recruitment or recruitment advertising; payoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, age, religion or sex.

V 40 213
NOV 4 75
XUM

(c) The contractor will include the provisions of paragraphs (a) through (b) in every subcontract or purchase order, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Bureau of Indian Affairs may direct as a means of enforcing such provisions, including sanctions for noncompliance. However, if the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Bureau of Indian Affairs, the contractor may request the United States to enter into such litigation to protect the interest of the United States.

§ 14H–70.610 Use of Indian business concerns.

USE OF INDIAN BUSINESS CONCERNS

(a) As used in this clause, the term "Indian business concern" means Indian organizations or an Indian-owned economic enterprise as defined in 25 CFR 271.2.

(b) The contractor agrees to give preference to qualified Indian business concerns in the awarding of any subcontracts entered into under the contract consistent with the efficient performance of the contract. The contractor shall comply with any preference requirements regarding Indian business concerns established by the tribe(s) receiving services under the contract to the extent that such requirements are not inconsistent with the purpose and intent of this paragraph.

(c) If no Indian business concerns are available under the conditions in paragraph (b) above, the contractor agrees to accomplish the maximum amount of subcontracting, as the contractor determines is consistent with its efficient performance of the contract, with small business concerns, labor surplus area concerns or minority business enterprises, the definitions for which are contained in Subparts 1–1.7, 1–1.8, and 1–1.13 of the Federal Procurement Regulations. The contractor is not, however, required to establish a small business, labor surplus, or minority business subcontracting program as described in § 1–1.710–3(b), § 1–1.805–3(b) and § 1–1.1310–2(b) respectively of the Federal Procurement Regulations (41 CFR 1).

§ 14H–70.611 Indemnity and insurance.

INDEMNITY AND INSURANCE

(a) The contractor shall indemnify and save and keep harmless the Government against any or all loss, cost, damage, claim, expense or liability whatsoever, because of accident or injury to persons or property or others occurring in connection with any program included as a part of this contract, and provide where applicable, the insurance described below.

(b) The contractor shall secure, pay the premium for, and keep in force until the expiration of this contract or any renewal period thereof, insurance as provided below. Such insurance policies shall specifically include a provision stating the liability assumed by the contractor under this contract.

(1) Workman's compensation insurance as required by laws of the State.

(2) Owner's, landlord's and tenant's bodily injury liability insurance with limits of not less than $50,000 for each person and $500,000 for each accident.

(3) Property damage liability insurance with limits of not less than $25,000 for each accident.

(4) Automobile bodily injury liability insurance with limits of not less than $50,000 for each person and $500,000 for each accident and property damage liability insurance with a limit of not less than $5,000 for each accident.

(5) Food products liability insurance with limits of not less than $50,000 for each person and $500,000 for each accident.

(6) Other insurance not specifically mentioned when required.

(c) Each policy of insurance shall contain an endorsement providing that cancellation by the insurance company shall not be effective unless a copy of the cancellation is mailed (registered) to the contracting officer at least 30 days before the effective date of cancellation.

(d) A certificate of each policy of insurance, and any changes therein, shall be furnished to the contracting officer immediately upon receipt from the insurance company.

(e) Insurance companies of the contractor shall be satisfactory to the contracting officer. When in his opinion an insurance company is not satisfactory for reasons that will be stated, the contractor shall provide insurance through companies that are satisfactory to the contracting officer.

(f) Each policy of insurance shall contain a provision that the insurance carrier waives any rights it may have to raise as a defense the tribe's sovereign immunity from suit, but such waiver shall extend only to claims the amount and nature of which are within the coverage and limits of the policy of insurance. The policy shall contain no provision, either express or implied, that will serve to authorize or empower the insurance carrier to waive or otherwise limit the tribe's sovereign immunity outside or beyond the coverage and limits of the policy of insurance.

§ 14H–70.612 Advance payment.

(a) The following clause will be inserted in all contracts in which deposit of the advance in a special bank account is not required.

ADVANCE PAYMENT

(a) *Amount of advance.* At the request of the contractor, and subject to the conditions set forth herein, the Government shall make advance payments to the contractor. Each payment shall be limited to the amount determined necessary for the contractor's operation under the contract for the period of time covered by the advance, which shall not be less than two weeks, except that the final payment under the contract may be a period less than two weeks.

(b) Payment will be made by check payable to the contractor.

(c) Funds advanced under this contract may not be used for any purpose except for making payments for materials, labor, administrative and overhead expenses allowable under this contract.

(d) The contractor shall keep separate accounts in his accounting system which will reflect all receipts, expenditures, fund balances and obligations under this contract.

(e) *Return of funds.* The contractor may at any time repay any or all of the funds advanced hereunder when it is determined that such funds will not be required for operations under the contract; or, when requested in writing, by the contracting officer, as a result of retrocession, recision or termination for cause of this contract, the contractor shall return such amount as may be determined by the contracting officer is not required for settlement of outstanding obligations.

(f) *Liquidation.* If not otherwise liquidated, the advance payment(s) made hereunder shall be liquidated as herein provided. When the sum of all the estimated payments remaining due on the contract approximate the unliquidated amount of the advance payment(s), the contracting officer shall thereafter withhold further payments due on the contract, represented by proper invoiced amounts submitted by the contractor, and apply the amount(s) withheld against the liquidation of the advance payment until the advance payment has been fully liquidated. If upon completion or termination of the contract, or for other reasons, the entire advance payment(s) is not fully liquidated, by the process indicated above, and the contractor does not repay the balance due upon request, then the balance thereof shall be offset against any sums otherwise due or which may become due to the contractor from the Government on any other contracts or from any source.

(g) No interest will be charged on advance payments.

(b) The following clause will be used in all contracts under which deposit of advance payments in a special bank account will be required.

ADVANCE PAYMENTS

(a) *Amount of advance.* At the request of the contractor and subject to conditions set forth herein, the Government shall make advance payments to the contractor in amounts and at such times as agreed to between the contractor and the contracting officer and which are specified in ------ of this contract.

(b) *Special bank account.* Until the advance payment(s) made hereunder is liquidated and the contracting officer approves in writing the release of any funds due and payable to the contractor, the advance payment(s) and all other payments (progress, partial, and final) made under the contract shall be made by check payable to the contractor but mailed to the bank, where the special bank account is maintained as stated in the Agreement for Special Bank Account. The check must be marked for "Deposit in Special Bank Account Number ------, Bureau of Indian Affairs." The Agreement for Special Bank Account shall designate the account number. No part of the funds deposited in the Special Bank Account shall be mingled with other funds of the contractor prior to withdrawal thereof from the Special Bank Account as hereinafter provided. Except as hereinafter provided, each withdrawal shall be only by check of the contractor, unless countersigning on behalf of the Government by the contracting officer or such other person as he may designate in writing is determined to be in the best interest of the Government and the contracting officer notifies the contractor and bank in writing that countersigning will be required.

(c) *Use of funds.* The funds in the Special Bank Account may be withdrawn by the contractor solely for the purposes of making payments for materials, labor, administrative and overhead expenses, and other purposes required for this contract, or for the purposes of reimbursing the contractor for such payments, and for such other purposes as the contracting officer may approve in writing. If this is a cost reimbursement contract, the funds in the Special Bank Account may be withdrawn by the contractor solely for the purpose of making payments for items of allowable costs as provided in the clause titled "Allowable Cost and Payment" of this contract. Any interpretation required as to the proper use of funds shall be made in writing by the Contracting Office.

(d) *Return of funds.* The contractor may at any time repay all or any part of the funds advanced hereunder. Whenever so requested in writing by the contracting officer, the contractor shall repay to the Government such part of the unliquidated balance of the advance payment as shall in the opinion of the contracting officer be in excess of the contractor's current requirements or, when added to total advances previously made and liquidated, are in excess of the amount specified in paragraph (a)(1) hereof or are no longer to be made available to the contractor because of default, or abuse of their use, or for such other reasons as the contracting officer may specify. If the contractor fails to repay such part of the unliquidated balance of the advance payment when so requested by the Contracting Officer, all or any part thereof may be withdrawn from the Special Bank Account by check(s) made payable to the Bureau of Indian Affairs signed by the contracting officer or by an official of the Bureau of Indian Affairs authorized in writing by the contracting officer to take such action. Such withdrawals shall be applied in reduction of the advance payment(s) then outstanding hereunder. The contracting officer shall notify the contractor and the bank of the action taken.

(e) *Liquidation.* If not otherwise liquidated, the advance payment(s) made hereunder shall be liquidated as herein provided. When the sum of all the estimated payments remaining due on the contract approximate the unliquidated amount of the advance payment(s), the contracting officer shall thereafter withhold further payments due on the contract, represented by proper invoiced amounts submitted by the contractor, and apply the amount(s) withheld against the liquidation of the advance payment until the advance payment has been fully liquidated. If, upon completion or termination of the contract, or for other reasons, the entire advance payment(s) is not fully liquidated, by the process indicated above, and the contractor does not repay the balance due upon request, then the balance thereof shall be offset against any sums otherwise due or which may become due to the contractor from the Government on any other contracts or from any source.

(f) *Interest charge.* No interest will be charged on the amount of the advance payment(s).

(g) *Bank agreement.* Before an advance payment(s) is made hereunder, the contractor shall submit to the contracting officer in the form prescribed, an Agreement for Special Bank Account, in triplicate, signed by the contractor and an official of the bank in which the Special Bank Account is established as the depository for the advance payment(s) and other payments. The agreement shall clearly set forth the character of the Special Bank Account and the responsibilities of the contractor, the bank and contracting officer, thereunder. Wherever possible, such bank shall be a member of the Federal Reserve System, or an "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935, 49 Stat. 684, as amended; 12 U.S.C. 264).

(h) *Lien on special bank account.* The Government shall have a lien upon any balance in the Special Bank Account paramount to all other liens, which lien shall secure the repayment of any advance payment(s) made hereunder.

(i) *Lien on property under contract.* Any advance payment(s) made under this contract shall be secured, when made, by a lien in favor of the Government, paramount to all other liens, upon the supplies or other things covered by this contract. The Government's lien shall apply to all material and other property acquired for or allocated to the performance of this contract, except to the extent that the Government by virtue of any other provision of this contract, or otherwise, shall have valid title to such supplies, materials, or other property as against other creditors of the contractor. The contractor shall identify, by marking or segregation, all property which is subject to a lien in favor of the Government by virtue of any provisions of this contract in such a way as to indicate that it is subject to such lien and that it has been acquired for or allocated to the performance of this contract. If for any reason such supplies, materials, or other property are not identified by marking or segregation, the Government shall be deemed to have a lien to the extent of the Government's interest under this contract on any mass of property with which such supplies, materials, or other property are commingled. The contractor shall maintain adequate accounting control over such property on his books and records. If at any time during the progress of the work on the contract it becomes necessary to deliver any item or items and materials upon which the Government has a lien as aforesaid to a third person, the contractor shall notify such third person of the lien herein provided and shall obtain from such third person a receipt, in duplicate, acknowledging, interalia, the existence of such lien. A copy of each receipt shall be delivered by the contractor to the contracting officer. If this contract is cancelled in whole or in part and the contractor is authorized to sell or retain cancellation inventory acquired for or allocated to this contract, such sale or retention shall be made only if approved by the contracting officer, which approval shall constitute a release of the Government's lien hereunder to the extent that such cancellation inventory is sold or retained, and to the extent that the proceeds of the sale, or the credit allowed for such retention of the contractor's termination claim, is applied in reduction of advance payment(s) then outstanding hereunder.

(j) *Insurance.* The contractor represents and warrants that he is now maintaining with responsible insurance carriers:

(1) Insurance upon his own plant and equipment against fire and other hazards to the extent that like properties are usually insured by others operating plants and properties of similar character in the same general locality;

(2) Adequate insurance against liability on account of damage to persons or property; and,

(3) Adequate insurance under all applicable workmen compensation laws. The contractor agrees that, until work under this contract has been completed and the advance payment(s) made hereunder has been liquidated, he will:

(i) Maintain such insurance;

(ii) Maintain adequate insurance upon any materials, parts, assemblies, sub-assemblies, supplies, equipment, and other property acquired for or allocable to this contract and subject to the Government lien hereunder; and,

(iii) Furnish such certificate with respect to his insurance as the contracting officer may require.

(k) *Default provisions.* Upon the happening of any of the following events of default:

(1) Cancellation of this contract by reason of fault of the contractor;

(2) A finding by the contracting officer that the contractor:

(i) Has failed to observe any covenants, conditions, or warranties of these provisions or has failed to comply with any material provision of this contract; or,

(ii) Has so failed to make progress or is in such unsatisfactory financial conditions as to endanger performance of this contract; or,

(iii) Has allocated inventory to this contract substantially exceeding reasonable requirements; or,

(iv) Is delinquent in payment of taxes, or of the costs of performance of this contract in the ordinary course of business.

(3) Appointment of a trustee, receiver or liquidator for all or a substantial part of the contractor's property or institution of bankruptcy, reorganization, arrangement, or liquidation proceedings by or against the contractor;

(4) Service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account; or,

(5) The commission of an act of bankruptcy; the Government, without limiting any rights which it may otherwise have, may in its discretion and upon written notice to the contractor and bank, withhold further withdrawals from the Special Bank Account and withhold further payments on this contract. Upon the continuance of any such events of default for a period of 30 days after such written notice to the contractor and bank, the Government may, in its discretion, and without limiting any other rights which the Government may have, take the following additional actions as it may deem appropriate in the circumstances:

(i) Withdraw all or any part of the balance in the Special Bank Account by checks made payable to the Bureau of Indian Affairs, signed solely by an official of the Bureau of Indian Affairs authorized in writing by the contracting officer to take such action, and apply such amounts in reduction of the advance payment(s) then outstanding hereunder and in reduction of any other claims of the Government against the contractor;

(ii) Demand immediate repayment of the unliquidated balance of the advance payment(s) hereunder; or,

(iii) Take possession of and, with or without advertisement, sell at public sale at which the Government may be the purchaser, or at a private sale, all or any part of the property on which the Government has a lien under this contract and, after deducting any expenses incident to such sale, apply the net proceeds of such sale in reduction of the unliquidated balance of the advance payment(s) hereunder and in reduction of any other claims of the Government against the contractor.

(l) *Prohibition against assignment.* Notwithstanding any other provision of this contract, the contractor shall not, while any part of the advance payment(s) is unliquidated, pledge, or otherwise assign any monies due under this contract, or any claim arising thereunder, to any party or parties, bank, trust company, or other financing institution.

(m) *Information—access to records.* The contractor shall furnish to the contracting officer signed or certified balance sheets and profit and loss statements monthly, if required by the contracting officer, together with a monthly bank statement for the Special Bank Account and such other information concerning the operation of the contractor's business as may be requested. The contractor shall afford to authorize representatives of the Government facilities for inspection of the contractor's books, records, and accounts.

(n) *Designations and determinations.* (1) *Amount.* The amount of the advance payment(s) at any time outstanding hereunder shall not exceed the amount authorized in the Findings, Determinations, and Authorization for the advance payment(s).

(2) *Depository.* The advance payment(s) shall be deposited in the bank with which the Agreement for Special Bank Account is established.

(o) *Other security.* The terms of this contract shall be considered adequate security for advance payment(s) hereunder.

(p) *Representations and warranties.* To induce the making of the advance payment(s), the contractor represents and warrants that:

(1) No litigation or proceedings are presently pending or threatened against the contractor.

(2) None of the provisions herein contravenes or is in conflict with the authority under which the contractor is doing business or with the provision of any existing agreement of the contractor.

(3) The contractor has the power to enter into this contract and accept an advance

V 40 N 213 NOV 4 75 XUM

payment(s) hereunder, and has taken all necessary action to authorize such acceptance under the terms and conditions of this contract.

(4) None of the assets of the contractor is subject to any lien or encumbrance of any character except for current taxes not delinquent. There has been no assignment of claims under any contract affected by these advance payment provisions, or if there has been any assignment, such assignments have been terminated.

(5) All information furnished by the contractor to the contracting officer in connection with the request for an advance payment is true and correct.

(6) These representations and warranties shall be continuing and shall be deemed to have been repeated by the submission of any subsequent request for additional advance payment(s) under this contract.

(q) *Subadvances.* Subject to the prior written approval of the contracting officer, funds from the Special Bank Account may be used by the contractor to make advance payment(s) or down payments to subcontractors and suppliers of material in advance of performance by the subcontractor or suppliers of material. Such subadvances shall not exceed the subcontract price or estimated cost as the case may be. The subcontractors or suppliers of material to whom such advance payment(s) is made shall furnish adequate security therefor. Unless other security is required by the contracting officer, covenants in subcontracts, expressly made for the benefit of the Government providing for a Special Bank Account for the subadvance with Government lien thereon, and providing for a Government lien, paramount to all other liens, on all property under such subcontract, and imposing upon the subcontractor and the depository bank substantially the same duties and giving the Government substantially the same rights as are provided herein (and in the Agreement for Special Bank Account supplemental hereto) between the Government, the contractor, and the bank may be considered as adequate for such subadvance(s), unless adequate justification is first furnished to and approval obtained by the contracting officer.

(r) *Covenants.* During the period of time that an advance payment(s) made hereunder remains unliquidated, the contractor shall not, without prior written consent of the contracting officer:

(1) Mortgage, pledge, or otherwise encumber, or suffer to be encumbered, any of the assets of the contractor now owned or hereinafter acquired by it, or permit any pre-existing mortgages, liens, or other encumbrances to remain on or attach to any assets of the contractor which are allocated to the performance of this contract and with respect to which the Government has a lien hereunder;

(2) Sell, assign, transfer, or otherwise dispose of accounts receivable, notes, or claims for money due or to become due.

(3) Declare or pay any dividends, except dividends payable in stock of the corporation, or make any other distribution on account of any shares of its capital stock, or purchase, redeem, or otherwise acquire for value any such stock, except as required by sinking fund or redemption arrangements reported to the contracting officer incident to the establishment of these advance payment(s) provisions;

(4) Sell, convey, or lease all or a substantial part of its assets;

(5) Acquire for value the stock or other securities of any corporation, municipality, or governmental authority, except direct obligations, of the United States.

(6) Make any advance or loan to or incur any liability as guarantor;

(7) Permit a writ of attachment or any similar process to be issued against its property without procuring release thereof or bonding the same within 30 days after the entry of the writ of attachment or any similar process;

(8) Pay any salaries, commissions, bonuses, or other remuneration in any form or manner to its directors, officers, or key employees in excess of existing rates of payments, or of rates provided by this contract, or in existing agreements, in connection with which notice has been given to the contracting officer; or accrue such excess remuneration without first obtaining an agreement subordinating the same to all claims of the Government hereunder.

(9) Make any substantial change in management, ownership, or control of the organization with which this contract is made.

(10) Merge or consolidate with any other firm or corporation, change the type of its business, or engage in any transaction outside the ordinary course of its business as presently conducted;

(11) Deposit any of its funds except in a bank or trust company insured by the Federal Deposit Insurance Corporation; or,

(12) Create or incur indebtedness, borrow money or advances other than advances to be made hereunder, except as specified herein.

(c) The following clause will be used in all contracts in which the advance payment will be made by Letter of Credit:

ADVANCE PAYMENT

At the request of the contractor, and subject to the conditions set forth herein, and to Treasury Fiscal Requirements Manual, Department Circular 1075 as modified by the memorandum of understanding between the Departments of Treasury and Interior. The Government shall make advance payments to the contractor by Letter of Credit.

(a) The contractor agrees to comply with all the requirements and conditions set forth in Treasury Fiscal Requirements Manual, Department Circular 1075, as modified by the memorandum of understanding between the Departments of Treasury and Interior, a copy of which is attached and made a part of this contract.

(b) The contractor agrees to initiate cash draw-downs only when actually needed for its disbursements.

(c) The contractor agrees to report to the contracting officer cash disbursements and balances monthly not later than 15 days after the end of the month covered by the report.

(d) Failure to adhere to the provisions of this clause may cause the unobligated portion of the Letter of Credit to be dissolved by the contracting officer or the Department of the Treasury.

§ 14H–70.613 Contract funding and renegotiation.

The following clause shall be included in contracts which have a term of more than one year under the conditions set forth in 25 CFR 271.51.

CONTRACT FUNDING AND RENEGOTIATION

(a) Funds other than those appropriated during the fiscal year in which the contract commenced, that are included in the contract amount are subject to the availability of appropriations from Congress and there shall be no legal liability on the part of the Government in regard to such funds unless and until they are appropriated. Funds appropriated during the fiscal year in which the contract commenced that are included in the contract amount but not expended at the end of such fiscal year may be carried over and used for contract purposes in the succeeding fiscal year of the contract's operation, when the contract funds were appropriated pursuant to the Act of November 2, 1921 (42 Stat. 208), except as otherwise specifically provided in appropriation acts, or may be used to provide additional services upon modification of the contract to include such services therein.

(b) Each succeeding year of the contract may be renegotiated prior to the end of the then current fiscal year in order to reflect changes that have taken place beyond the control of the contractor since the contract was originally negotiated or last renegotiated as is applicable.

§ 14H–70.614 Government furnished property.

GOVERNMENT FURNISHED PROPERTY

(a) The Government will deliver to the contractor the property described in the Schedule and may, at its option, furnish other supplies or equipment as it may from time to time deem necessary or desirable for use in performing the work under this contract. All property furnished by the Government, together with all property acquired or furnished by the contractor with contract funds, title to which vests in the Government under this article, is subject to the provisions of this clause and is hereinafter collectively referred to as "Government property."

(b) The title of each item of equipment purchased with funds made available under this contract, the cost of which is reimbursable to the contractor under the contract, shall pass to and vest in the Government upon:

(1) Issuance for use of such property and in the performance of this contract; or,

(2) Commencement of processing or use of such property in the performance of this contract; or,

(3) Reimbursement of the cost thereof by the Government, whichever first occurs. A simple record listing all items of equipment purchased with funds made available under this contract showing such property by names, manufacturers, serial number (if any), and the cost of the equipment, will be furnished to the contracting officer by the contractor. Each item of Government property shall be given an identification number, be subject to accountability, and become a part of the Bureau's property inventory, all as provided by the Bureau Manual.

(c) Title to Government property shall remain in the Government and shall be unaffected by the incorporation or attachment thereof to any property not owned by the Government, nor shall Government property or any part thereof be or become a fixture or lose its identity as personal property by reason of affixation to any reality. Except as otherwise specifically provided in this contract, the contractor:

(1) Shall not pledge, assign, or transfer title to any Government property; nor to allow or suffer anything to be done whereby any Government property may be seized, taken in execution, attached, destroyed or injured, and

(2) Shall not remove or otherwise part with possession of, or permit the use by others of, any Government property.

(d) The contractor shall maintain and administer, in accordance with sound industrial practice, a program for the maintenance, repair, protection and preservation of Government property.

(e) Except as may be otherwise provided for herein, Government property shall be used only for the performance of this contract unless written permission is granted by the contracting officer.

(f) Upon completion or termination of the contract, the contractor shall make such disposition of Government property then in his possession or custody as the contracting officer shall direct.

(g) The contractor shall be responsible for the care and safekeeping of Government property, and for the return or delivery of the same in the condition in which received or appropriated for the contract, except for reasonable wear and tear, and except to the extent such property is consumed in the performance of this contract.

§ 14H–70.615 Annual reporting.

ANNUAL REPORTING

(a) Within 90 days of the end of each fiscal year of this contract's term, the Indian tribe that requested the contract shall furnish the contracting officer a report that includes but is not limited to an accounting of the amounts and purposes for which the contract funds were expended and information on the conduct of the program or services and the extent to which the goals and objectives of the tribe were accomplished.

(b) When the contractor is the governing body of the Indian tribe that requested the contract, the report shall be submitted directly to the contracting officer.

(c) When the contractor is a tribal organization other than the governing body of the tribe, the tribal governing body that requested the contract shall submit the report. However, at the option of the tribe, the contractor shall prepare the report and submit it to the tribe for review and approval prior to the tribe submitting the report to the contracting officer.

(d) When the contract benefits more than one tribe, the contractor shall prepare the report and submit it to each of the tribes. Each of the tribes will endorse and make any comments they consider applicable before submitting the report to the contracting officer.

(e) Notwithstanding this requirement for an annual report, the contracting officer may request the contractor to furnish such other reports at such intervals as specified by the contract.

§ 14H–70.616 Reassumption of programs.

REASSUMPTION OF PROGRAMS

The contractor agrees to comply with the procedures and requirements given in 25 CFR 271.74 in the event of reassumption.

§ 14H–70.617 Fair and uniform services.

FAIR AND UNIFORM SERVICES

The contractor agrees that any services or assistance provided to Indians under the contract shall be provided in a fair and uniform manner.

§ 14H–70.618 Disputes.

DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the contracting officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the contractor. The decision of the contracting officer shall be final and conclusive unless within thirty (30) days from the date of receipt of such copy, the contractor mails or otherwise furnishes to the contracting officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the contractor shall proceed diligently with the performance of the contract and in accordance with the contracting officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above. However, nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

§ 14H–70.619 Officials not to benefit.

OFFICIALS NOT TO BENEFIT

No members of Congress, or Resident Commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

§ 14H–70.620 Changes.

The following changes clauses are for use as indicated:

(a) For contracts other than construction.

CHANGES

This contract may be modified or amended on the written request of the contractor to the contracting officer; or when recommended by the contracting officer and with the consent of the contractor. When the contracting officer recommends declination of a contractor's request to amend the contract, the matter shall be resolved as prescribed in 25 CFR 271.63, 271.64, and 271.65.

(b) In addition, all cost-reimbursement contracts over $10,000 shall contain the following clause:

FUNDING CHANGES

If for any reason beyond the control of the Bureau, the amount of funds allocated for the program operated under this contract are reduced by an amount or by a percentage resulting in a specific amount, the contract will be modified accordingly after consultation with the contractor. Such modification shall be made without penalty to the Government and shall not constitute basis for a claim under this contract.

§ 14H–70.621 Bid guarantee and bonds.

The following clause shall be included in all construction contracts with a tribal organization, in accordance with § 1–10.103, § 1–10.104–1(a) and § 1–10.104–1(b) of this title, when it is estimated that the amount of the contract will exceed $2,000:

BID GUARANTEE AND BONDS

(a) The contractor shall require a bid guarantee from all (sub) contractors who submit bids (proposals) for performing work under the contract in accordance with the policy set forth in § 1–10.103–1 of the Federal Procurement Regulations (41 CFR 1). When the bid guarantee is in the form of a bid bond, it may be submitted on other than the standard Government form: Provided, that the bond binds the Principal and the Surety(ies) in the same manner as they would be bound had the bid (proposal) been submitted to the Government.

(b) The contractor shall require the successful bidder (offerer) to furnish performance and payment bonds in the amounts set forth in the Miller Act (40 U.S.C. 270a–270e) and in accordance with the policies in §§ 1–10.104 and 1–10.105 of the Federal Procurement regulations (41 CFR 1) as a condition precedent to the award of the (sub) contract. The bonds may be submitted on other than the standard Government form: Provided, that the form used binds the Principal and the Surety(ies) in the same manner that they would be bound were the (sub) contract with the Government.

§ 14H–70.622 Certificate of nonsegregated facilities.

CERTIFICATE OF NONSEGREGATED FACILITIES

By signing the contract, the contractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. He certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The contractor agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, or national origin, because of habit, local custom, or otherwise. He further agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause; that he will retain such certifications in his files; and that he will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR CERTIFICATIONS OF NONSEGREGATED FACILITIES

A certification of nonsegregated facilities must be submitted prior to the award of a subcontract exceeding $10,000 which is not exempt from the provisions of the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually).

§ 14H–70.623 Convict labor.

CONVICT LABOR

In connection with the performance of work under this contract, the contractor agrees not to employ any person undergoing sentence of imprisonment except as provided by Public Law 89–176, September 10, 1965 (18 U.S.C. 4082(c)(2)) and Executive Order 11755, December 29, 1973.

§ 14H–70.624 Limitation of costs.

LIMITATION OF COSTS

(a) It is estimated that the total costs to the Government for the performance of the work specified in this contract, will not exceed the estimated costs set forth in the Schedule. The contractor agrees to use its best efforts to perform this contract within

V 40 213 NOV 4 75 XUM

the estimated total amount so specified, but neither the Government nor the contractor guarantees the accuracy of such estimate. If at any time the contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding thirty (30) days, when added to all costs previously incurred, will exceed eighty-five percent (85%) of the estimated costs then set forth in the Schedule, or if at any time the contractor has reason to believe that the total costs for the performance of this contract, will be greater or substantially less than the then estimated cost thereof, the contractor shall notify the contracting officer in writing to that effect, giving the revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obliged to reimburse the contractor for costs incurred in excess of the estimated costs set forth in the Schedule, and the contractor shall not be obliged to continue performance under the contract or to incur costs in excess of such estimate, unless and until the contracting officer has notified the contractor in writing that such estimated cost has been increased, and has specified in such notice a revised estimated cost, which shall thereupon constitute the estimated cost of performance of this contract. When, and to the extent that, the estimated cost has been increased, any costs previously incurred by the contractor in excess of such estimated cost shall be allowable to the same extent as if such costs are incident to and necessary for the performance of work specifically authorized under this contract at the time incurred.

(c) If the estimated cost is not increased, and additional funds are not allocated to the contract, and all work under this contract is discontinued because of exhaustion of funds, the contractor shall furnish a final report on the work which has been performed and the Government shall have no obligation to make further payments hereunder.

§ 14H–70.625 Allowable cost and payment.

ALLOWABLE COST AND PAYMENT

(a) For the performance of this contract, the Government shall pay to the contractor (1) the costs thereof (hereinafter referred to as "allowable cost") determined by the contracting officer to be allowable in accordance with:

(i) Appendix A to 25 CFR 276 as in effect on the date of this contract.

(ii) The terms of this contract.

(b) Once each month (or at more frequent intervals as may be specified elsewhere, or if approved by the contracting officer), the contractor may submit to the contracting officer or his authorized representative, in such form and reasonable detail as may be required, an invoice or public voucher supported by a statement of cost incurred by the contractor in the performance of this contract and claimed to constitute allowable cost.

(c) Promptly after receipt of each invoice or voucher, the Government shall make payment of the allowable costs incurred subject to the provisions of (d) below.

(d) At any time or times prior to final payment under this contract, the contracting officer may cause to be made such audit of the invoices or vouchers and statements of cost as shall be deemed necessary. Each payment made before that time shall be subject to reduction to the extent that amounts included in the related invoice or vouchers and statement of cost are found by the contracting officer not to constitute allowable cost, and shall also be subject to reduction for overpayments or to increase for underpayments on preceding invoices or vouchers.

(e) On receipt and approval of the voucher or invoice designated by the contractor as the "completion voucher" or "completion invoice" and statement of cost, which shall be submitted by the contractor as promptly as may be practicable following completion of the work under this contract but no later than six (6) months (or such longer period as the contracting officer may in his discretion, approve in writing) from the date of such completion, and following compliance by the contractor with all provisions of this contract, the Government shall as promptly as may be practicable pay to the contractor any balance of allowable cost.

(f) Any cost incurred by the contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specification or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the contractor at its expense or without cost to the Government.

§ 14H–70.626 Negotiated overhead rates.

NEGOTIATED OVERHEAD RATES

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost and Payment," the allowable indirect costs under this contract shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The contractor, as soon as possible, but not later than six (6) months after the expiration of each of the contractor's financial years or such other period as may mutually be agreed upon by the Government and the contractor shall submit to the contracting officer, with a copy of the cognizant audit agency, a proposed final overhead rate or rates for that period based on the contractor's costs experience during that period, together with supporting cost data. Negotiation of final overhead rates by the contractor and the contracting officer shall be undertaken as promptly as practicable after receipt of the contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Appendix A of 25 CFR 276, as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, (3) the periods for which the rates apply, and (4) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs.

(e) Pending establishment of final overhead rates for any period, the contractor shall be reimbursed either at negotiated provisional rates as provided in this contract or at billing rates acceptable to the contracting officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, the provisional or billing rates may, at the request of either party, be revised by mutual agreement, either retroactively or prospectively. Any such revision of negotiated provisional rates provided in this contract shall be set forth in an amendment to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the contracting officer within the meaning of the clause of this contract entitled "Disputes."

§ 14H–70.627 Assignment of claims.

ASSIGNMENT OF CLAIMS

Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15); if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing.

§ 14H–70.628 Payment of interest on contractor's claims.

PAYMENT OF INTEREST ON CONTRACTOR'S CLAIMS

(a) If an appeal is filed by the contractor from a final decision of the contracting officer under the disputes clause of this contract, denying a claim arising under the contract, simple interest on the amount of the claim finally determined owed by the Government shall be payable to the contractor. Such interest shall be at the rate determined by the Secretary of the Treasury pursuant to Pub. L. 92–41, 85 Stat. 97, from the date the contractor furnishes to the contracting officer his written appeal under the disputes clause of this contract, to the date of (1) a final judgment by a court of competent jurisdiction, or (2) mailing to the contractor of a supplemental agreement for execution either confirming completed negotiations between the parties or carrying out a decision of a board of contract appeals.

(b) Notwithstanding (a) above, (1) interest shall be applied only from the date payment was due, if such date is later than the filing of appeal, and (2) interest shall not be paid for any period of time that the contracting officer determines the contractor has unduly delayed in pursuing his remedies before a board of contract appeals or a court of competent jurisdiction.

§ 14H–70.629 Audit and records.

AUDIT AND RECORDS

(a) The contractor shall maintain books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitute "records" for the purposes of this clause.

(b) The contractor's facilities, or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable times to inspection and audit by the contracting officer or his authorized representatives. In addition, for purpose of verifying that cost or pricing data submitted, in conjunction with the negotiation of this contract or any contract change or other modification involving an amount in excess of $100,000, were accurate, complete and current, the contracting officer, or his authorized representative, shall, until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(c) The contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or of the time period for the particular records specified in 41 CFR Part 1–20, whichever expires earlier, and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (c) (2) (i) or (ii) below.

(i) If the contract is completely or partially cancelled the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract, or (C) costs and expenses of this contract as to which exception has been taken by the contracting officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) (1) The contractor shall insert the substance of this clause, including the whole of this paragraph (d), in each subcontract hereunder that is not firm-fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the higher-tier subcontractor at the level involved in place of the contractor; to add "of the Government prime contract" after "contracting officer"; and to substitute "the Government prime contract" in place of "this contract" in (B) of paragraph (c) (2) (ii) above.

§ 14H–70.630 Contract Work Hours and Safety Standards Act—Overtime Compensation.

CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION

This contract is subject to the Contract Work Hours and Safety Standards Act and to the applicable rules, regulations, and the interpretations of the Secretary of Labor.

(a) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any work-week in which he is employed on such work to work in excess of eight hours in any calendar day or in excess of forty hours in such work-week on work subject to the provisions of the Contract Work Hours Standards Act unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all such hours worked in excess of eight hours in any calendar day or in excess of forty hours in such work-week, whichever is the greater number of overtime hours.

(b) *Violation, liability for unpaid wages, liquidated damages.* In the event of any violation of the provisions of paragraph (a), the contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic employed in violation of the provisions of paragraph (a) in the sum of $10 for each calendar day on which such employee was required or permitted to be employed on such work in excess of eight hours or in excess of the standard work-week of forty hours without payment of the overtime wages required by paragraph (a).

(c) *Withholding for unpaid wages and liquidated damages.* The contracting officer may withhold from the Government prime contractor, from any moneys payable on account of work performed by the contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the provision of paragraph (b).

(d) *Subcontracts.* The contractor shall insert paragraphs (a) through (d) of this section in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

(e) *Records.* The contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for three years from the completion of the contract.

§ 14H–70.631 Price reduction for defective cost or pricing data.

The following clause shall be included in all contracts where cost and pricing data is required in accordance with § 14H–70.407.

PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA

(a) If the contracting officer determines that any price negotiated in connection with this contract or any cost reimbursable under this contract was increased by any significant sums because the contractor, or any subcontractor pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data-Price Adjustments," or any subcontract clause therein required, furnished incomplete or inaccurate cost or pricing data or data not current as certified in his Contractor's Certificate of Current Cost or Pricing Data, then such price or cost shall be reduced accordingly and the contract shall be modified in writing to reflect such reduction.

(b) Failure to agree on a reduction shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(NOTE: Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the contractor. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.)

§ 14H–70.632 Subcontractor cost and pricing data.

The following clause should be included in all contracts, when the subcontracts of the type and size described herein are contemplated.

SUBCONTRACTOR COST AND PRICING DATA

(a) The contractor shall require subcontractors hereunder to submit in writing cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursed type, time and material, labor-hour, incentive, or price redeterminable subcontract the price of which is expected to exceed $100,000; and

(2) Prior to the award of any other subcontract, the price of which is expected to exceed $100,000, or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed $100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(b) The contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor to the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (a) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(c) The contractor shall insert the substance of this clause including this paragraph (c) in each of his cost-reimbursement type, time and material, labor-hour, price redeterminable, or incentive subcontracts hereunder, and in any other subcontract hereunder which exceed $100,000 unless the price thereof is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. In each such excepted subcontract hereunder which exceed $100,000, the contractor shall insert the substance of the following clause:

SUBCONTRACTOR COST AND PRICING DATA—PRICE ADJUSTMENTS

(a) Paragraphs (b) and (c) of this clause shall become operative only with respect to any change or other modification made pursuant to one or more provisions of this contract which involves a price adjustment in excess of $100,000. The requirements of this clause shall be limited to such price adjustments.

(b) The contractor shall require subcontractors hereunder to submit cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursement type, time and material, labor-hour, incentive, or price redeterminable subcontract, the price of which is expected to exceed $100,000; and—

(2) Prior to award of any other subcontract, the price of which is expected to exceed $100,000, or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed $100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(c) The contractor shall require subcontractors to certify, in substantially the same form as that used in the Certificate by the Prime Contractor to the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (b) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the contract modification.

(d) The contractor shall insert the substance of this clause including this paragraph (d) in each subcontract hereunder which exceeds $100,000.

§ 14H–70.633 Buy American Act.

BUY AMERICAN ACT

(a) The Buy American Act (41 U.S.C. 10a–d) requires, with certain exceptions, that in the procurement of supplies and services only domestic source end products shall be acquired for public use.

(b) The provisions of Part 1–6 of the Federal Procurement Regulations (41 CFR 1–6) deals with the Buy American Act and its application to Government contracts.

(c) The provisions of Part 1–6 of the Federal Procurement Regulations (41 CFR 1–6) are applicable to this contract and any subcontracts entered into under the contract. Questions concerning the Buy American Act and its applicability in specific circumstances should be directed to the contracting officer.

§ 14H–70.634 Anti-Kickback Act.

ANTI-KICKBACK ACT

(a) Pub. L. 86–695, September 2, 1960 (41 U.S.C. 51–54) among other things, prohibits the payment, directly or indirectly, by or on behalf of a subcontractor in any tier under any Government negotiated contract of any fee, gift, or gratuity to the prime contractor or any higher tier subcontractor or any officer, agent, partner or employee thereof, as an inducement or acknowledgement for the award of a subcontract or order.

(b) The provisions of Pub. L. 86–695, are set forth in more detail in § 1–1.320 of the Federal Procurement Regulations (41 CFR 1–1) and are applicable to this contract and any subcontracts entered into under the contract.

§ 14H–70.635 Privacy Act requirements.

PRIVACY ACT REQUIREMENTS

The contractor agrees to comply with all the requirements and provisions of Subpart D of 43 CFR Part 2 which implements the Privacy Act (5 U.S.C. § 552a).

§ 14H–70.636 Rights in data.

RIGHTS IN DATA

(a) *Subject data.* As used in this clause, the term "Subject Data" means writings, sound recordings, pictorial reproductions, drawings, designs or other graphic representations, procedural manuals, forms, diagrams, workflow charts, equipment descriptions, data files and data processing or computer programs, and words of any similar nature (whether or not copyrighted or copyrightable) which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and similar information incidental to contract administration.

(b) *Government rights.* Subject only to the provision of (c) below, the Government may use, duplicate or disclose for government purposes, all subject data delivered under this contract.

(c) *License to copyrighted data.* In addition to the Government rights as provided in (b) above, with respect to any Subject Data which may be copyrighted the Contractor agrees to and does hereby grant to the Government a royalty-free, nonexclusive and irrevocable license to use, or duplicate such data for government purposes: Provided, that such license shall be only to the extent that the Contractor now has, or prior to completion of final settlement of this contract may acquire, the right to grant such license without becoming liable to pay compensation to others solely because of such grant.

(d) *Relation to patents.* Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(e) *Marking and identification.* The contractor shall mark all Subject Data with the number of this contract and the name and address of the contractor or subcontractor who generated the data. The contractor shall not affix any restrictive markings upon any Subject Data, and if such markings are affixed, the Government shall have the right at any time to modify, remove, obliterate, or ignore any such markings.

(f) *Subcontractor data.* Whenever any Subject Data is to be obtained from a subcontractor under this contract, the contractor shall use this same clause in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the Government's rights in that subcontractor Subject Data.

(g) *Deferred ordering and delivery of data.* The Government shall have the right to order, at any time during the performance of this contract, or within 2 years from either acceptance of all items (other than data) to be delivered under this contract or termination of this contract, whichever is later, any Subject Data and any data not called for in the schedule of this contract but generated in performance of the contract, and the contractor shall promptly prepare and deliver such data as is ordered. If the principal investigator is no longer associated with the contractor, the contractor shall exercise its best efforts to prepare and deliver such data as is ordered. The Government's right to use data delivered pursuant to this paragraph (g) shall be the same as the rights in Subject Data as provided in (b) above. The contractor shall be relieved of the obligation to furnish data pertaining to an item obtained from a subcontractor upon the expiration of 2 years from the date he accepts such items. When data, other than Subject Data, is delivered pursuant to this paragraph (g), payment shall be made, by equitable adjustment or otherwise, for converting the data into the prescribed form, reproducing it or preparing it for delivery.

§ 14H–70.637 Printing.

PRINTING

Unless otherwise specified in this contract, the contractor shall not engage in, nor subcontract for, any printing (as that term is defined in title I of the Government Printing and Binding Regulations in effect on the effective date of this contract) in connection with the performance of work under this contract: Provided, however, That performance of a requirement under this contract involving the reproduction of less than 5,000 production units of any one page or less than 25,000 production units in the aggregate of multiple pages, will not be deemed to be printing. A production unit is defined as one sheet, size 8 by 10½ inches, one side only, one color.

§ 14H–70.638 Cancellation for cause.

CANCELLATION FOR CAUSE

This contract may be cancelled for cause under the conditions and in accordance with the procedures set forth in 25 CFR 271.75.

Subpart 14H–70.7—Cancellation or Reassumption of Contracts

§ 14H–70.701 General.

(a) Contracts pursuant to the Act may only be cancelled or reassumed under the conditions set forth in 25 CFR 271 as follows:

(1) Retrocession (25 CFR 271.71)

(2) Reassumption (25 CFR 271.74)

(3) Cancellation for cause (25 CFR 271.76)

(b) The clauses to be included in contracts covering the above situations are found in Subpart 14H–70.6 of this Part.

§ 14H–70.702 Settlement of cancelled contracts.

The settlement of any contracts cancelled or reassumed for the reasons set forth in § 14H–70.701 shall be as mutually agreed to by the Bureau and the contractor. If mutual agreement cannot be reached, the principles set forth in Subpart 1–3.6 of this title shall be used to arrive at the settlement.

Subpart 14H–70.8—Bonds and Insurance

§ 14H–70.801 Scope of subpart.

This subpart deals with the requirement for tribal organizations to furnish bid guarantees, performance bonds and payment bonds on contracts for construction.

§ 14H–70.802 Policy on use of bid guarantees.

Bid guarantee will not be required in connection with construction contracts negotiated with an Indian tribe or an Indian organization serving as a governmental instrumentality of an of an Indian tribe; *Provided that* such tribe or tribal organization shall require any subcontractor to furnish a bid guarantee in the amount and manner set forth in § 1–10.104–1 of this title.

§ 14H–70.803 Performance bonds.

(a) Performance bonds will not be required from an Indian tribe or Indian organization serving as a governmental instrumentality or an Indian tribe; *Provided that* such tribe or tribal organization shall require any subcontractor performing work under the contract to provide a performance bond in the amount and manner set forth in § 1–10.104–1 of this title.

(b) The clause to be included in construction contracts with Indian tribes and Indian organizations relative to performance bonds is set forth in § 14H–70.621.

§ 14H–70.804 Payment bonds.

(a) Payment bonds will not be required from an Indian tribe or Indian organization serving as a governmental instrumentality of an Indian tribe: However, such tribe or tribal organization shall require any subcontractor performing work under the contract to provide a payment bond in the amount and manner set forth in § 1–10.105–1 of this title.

(b) The clause to be included in construction contracts with Indian tribes and Indian organizations relative to payment bonds is set forth in § 14H–70.621.

§ 14H–70.805 Liability insurance.

(a) This section prescribes policies and procedures with respect to the furnishing of liability insurance by Indian contractors in accordance with 25 CFR 271.45.

(b) Contracting offices shall assure themselves that all contracts with tribal organizations provide for the tribal organization to obtain general liability insurance and motor vehicle insurance. Each such contract shall further provide that the insurance carrier must be satisfactory to the contracting officer and that the contractor shall forward to the contracting officer a copy of the certificate of insurance as soon as such certificate is received from the insurance carrier.

§ 14H–70.806 Insurance coverage.

(a) The insurance provided by the contractor shall provide coverage to the contractor, the United States, their agents, and their employees within minimum amounts that are at least comparable to the minimum insurance coverage carried by other organizations in the same general area performing similar activities.

(b) The insurance shall provide for a waiver by the insurance carrier of any right it may have to raise as a defense the tribe's sovereign immunity from suit when a claim is within the limits of the policy. Further, the insurance shall not empower the insurance carrier to waive or otherwise limit the tribe's sovereign immunity outside or beyond the coverage and limits of the policy of insurance.

§ 14H–70.807 Exceptions.

(a) In those cases where the contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, he may exempt such contracts from the requirements of this Subpart.

(b) Some of the factors which the contracting officer shall consider in determining the magnitude of the risk involved are:

(1) The nature of the program contracted for.

(2) The number of persons involved in performing the contract.

(3) The contract period.

(4) The number of persons likely to come in contact with or be affected by the performance of the contract.

(5) The nature and value of any property which might be affected by the contract.

§ 14H–70.808 Motor vehicle insurance.

Notwithstanding the provisions of § 14H–70.807, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the tribal contractors to provide motor vehicle insurance, regardless of how small the risk may seem.

§ 14H–70.809 Indemnity and insurance clause.

The clause contained in § 14H–70.611 shall be included in all contracts with tribal contractors, unless the contracting officer determines that an exemption is warranted under § 14H–70.807. The limits of liability prescribed in the clause may be modified by the contracting officer when he determines such action is warranted.

Subpart 14H–70.9—Labor

§ 14H–70.901 Labor standards in construction contracts.

The provisions of Subpart 1–12.4 of this title are applicable to construction contracts entered into pursuant to the Act, except when the contractor is the recognized governing body of an Indian tribe or a non-profit Indian organization serving as a governmental instrumentality of an Indian tribe.

§ 14H–70.902 Labor standards in subcontracts.

Subcontracts shall include and subcontractors shall comply with the provisions of Part 1–12 of the Federal Procurement Regulations (41 CFR 1–12) to the extent that the provisions are applicable to the subcontract requirements. Questions concerning the applicability of the provisions of Part 1–12 of the Federal Procurement Regulations should be addressed to the contracting officer.

Subpart 14H–70.10—Contract Cost Principles and Procedures

§ 14H–70.1001 Principles for determining costs.

The principles for determining costs applicable to contracts under the Act are contained in Appendix A to 25 CFR 276.

§ 14H–70.1002 Predetermined fixed rates.

(a) Indirect cost or overhead rates may be negotiated annually where cost experience, reliable accounting data and other pertinent facts are available to support the projection of allowable costs for the period covered by the contract or grant. Negotiated rates shall not result in an amount which will exceed actual costs.

(b) Where cost experience and accounting data are not available to support a negotiated rate and where the estimated amount of the contract is less than $10,000, a lump sum overhead amount may be negotiated. Such an amount will be based on reasonable projection of estimated costs to be incurred by the tribal organization and shall take into consideration all costs which can be applied as direct costs, and shall not exceed 10 percent of the direct labor costs.

§ 14H–70.1003 Procedures.

(a) When a tribal organization desires overhead rates to be established and where no other Federal agency has established a rate nor will be expected to do so, the tribal organization may request through the contracting officer that a rate be established. The request shall be supported by, as a minimum:

(1) A schedule of common costs which cannot be feasibly charged as direct costs of a program and are costs benefiting more than one program.

(2) The nature and extent of services provided and their relevance to the specific program.

(3) Methods and manner of distribution of costs.

(4) Total business of all programs to which indirect costs will be distributed.

(b) The contracting officer shall, after review and if indicated, further consultations with the tribal organization, forward the request to the Department of Interior, Office of Audit and Investigation, for review and audit as determined necessary. In the event a rate is approved without audit, the contract shall contain a clause to the effect that upon audit the rate may be changed retroactively to the beginning of the contract period.

(c) An audit by the Department's Office of Audit and Investigation will not be required prior to contract award and overhead rates may be approved by the Contracting Officer when:

(1) The amount of the contract is less than $100,000.

(2) The contract is not the initial contract with the particular tribal organization, an overhead rate was previously established, and the overhead rate currently requested does not exceed that previously established one by more than one percentage point.

(3) Current overhead rates have been established by another Federal agency.

Subpart 14H–70.11—Procurement Forms

§ 14H–70.1101 Applicability of standard forms.

The standard forms prescribed in Part 1–16 of this title may be used in connection with contracts entered into pursuant to the Act when applicable and may be modified when deemed necessary. However, standard forms other than SF 147 that contain clauses not prescribed by this Part 14H–70 shall not be used.

Subpart 14H–70.12—Procurement of Construction

§ 14H–70.1201 Scope of subpart.

This subpart sets forth procedures and requirements peculiar to construction contracts. The terms and conditions of construction contracts when negotiated with an Indian organization pursuant to the Act shall to the extent applicable be in accordance with the requirements set forth in Part 1–18 of this title. However, if there is a conflict between Part 1–18 of this title and any provision of the Act or 25 CFR 271, the Act or 25 CFR 271 shall govern.

§ 14H–70.1202 Exceptions.

(a) Subpart 1–18.10 of this title is not applicable.

(b) The contract clauses required by § 1–18.703–1 of this title shall be inserted in construction contracts with an Indian tribe or an Indian organization which serves as a governmental instrumentality of an Indian tribe, but shall be prefaced by the provision contained in § 1–18.703–2 of this title.

(c) In all cases, the contracting officer shall obtain and insert the Wage Determination Decision issued by the Secretary of Labor in the contract prior to award of any contract for construction that falls within the purview of the Davis-Bacon Act. The Wage Determina-

V 40 213 NOV 4 75 XUM

tion Decision should be furnished sufficiently in advance of the contract award date to permit full consideration by the tribal organization and any prospective subcontractors prior to contract award.

Subpart 14H–70.13—Retention Requirements for Contractor and Subcontractor Records

§ 14H–70.1301 General.

The record retention requirements in Subpart 1–20.2 and Subpart 1–20.3 of this title are applicable to contracts under the Act.

Subpart 14H–70.14—Contract Financing

§ 14H–70.1401 General.

This subpart sets forth the methods of making payments to tribal organizations performing contracts under the Act.

§ 14H–70.1402 Reimbursement.

This method will be used when a tribal organization does not request an advance payment. Payment will be made on receipt of a SF–1034 or other approved invoice form supported by documentation required by the contract after completion of the contract or such portions thereof as provided in the contract for partial payments.

§ 14H–70.1403 Advance payments by Treasury check.

(a) At the request of a tribal contractor, and subject to the conditions hereinafter set forth, and Chapter 2000 of the Treasury Fiscal Requirements Manual as modified or supplemented, the Government will make advance payments to tribal organizations as prescribed in 25 CFR 271.41.

(b) Any request for advance payment by a tribal contractor shall specify the amount(s) required and the dates such advance(s) will be required and shall be supported by a schedule of estimated expenditures.

(c) An initial advance will be limited to the amount of estimated expenditures for a period of time required to effect payment, based on experience in the locality. The initial advance may be made in amounts at times determined suitable to satisfy the minimum essential needs of the contractor.

(d) Subsequent advances may be made at times and in amounts determined necessary to insure availability of funds for timely payment of the contractor's obligations and to minimize the time between withdrawal from the Treasury and expenditure. Requests for advances subsequent to an initial advance shall be accompanied and supported by a report of expenditures to date and the amount of funds on hand.

§ 14H–70.1404 Advance payments when special bank account required.

(a) Contracts authorizing the making of advance payments shall, except as provided in 25 CFR 271.41(a)(2)(i), require that the check be mailed to a bank to be deposited in a special bank account in the name of the contractor. No part of the funds deposited in the special bank account shall be mingled with other funds of the contractor prior to withdrawal to meet obligations accruing under the contract.

(b) For all advance payments requiring the use of a special bank account, the form of Agreement for Special Bank Account prescribed in § 14H–70.1410 shall be used.

(c) All contracts requiring the use of a special bank account shall contain the contract clause prescribed in § 14H–70.612(b).

§ 14H–70.1405 Letter of credit.

When a contract authorizes advance payments totaling $120,000 or more and the contract period is one year or more, advance payments will normally be made by Letter of Credit in accordance with the policies and procedures contained in Treasury Fiscal Requirements Manual, Chapter 2000, as modified or supplemented.

§ 14H–70.1406 Approval of advance payments.

(a) Area Directors may approve advance payments which do not exceed $250,000. When the contract term is for more than one year, Area Directors may approve advance payments which do not exceed $250,000 each succeeding year of the contract.

(b) Requests for advance payments exceeding $250,000 in the aggregate for the term of the contract, or one year if a multi-year contract, shall be forwarded to the Commissioner of Indian Affairs by Area Director for submission to the Department in accordance with § 14–30.406 of this title.

§ 14H–70.1407 Sub-advances.

Sub-advances may be made when predetermined as a part of a contracted program or when specifically authorized in writing by the contracting officer. Sub-advances will not be made to individuals except for approved travel and in such cases shall not exceed the minimum required for one trip and shall be settled by voucher or repayment within 30 days.

§ 14H–70.1408 Interest.

(a) Contractors shall not be held accountable for interest earned on funds advanced pending disbursement. However, it is required that bank balances be maintained at the minimum level consistent with program requirements, and requests for advances shall be reviewed to insure that excess funds are not advanced.

(b) Contractors shall not be charged interest by the Bureau for funds advanced under contracts entered into pursuant to the Act.

§ 14H–70.1409 Automatic advances.

When periodic payments under a contract will be essentially uniform and predictable, automatic advance payments may be authorized by the contracting officer to avoid delay inherent in payments based on formal request by the contractor. In such cases, reports of expenditures will be required and payments will be adjusted as necessary to prevent withdrawal of funds over and above that needed for efficient operation, and to insure adequate funds for timely settlement of the contractor's obligations. Adjustments to automatic advances shall be made after consultation with the contractor.

§ 14H–70.1410 Agreement for special bank account.

(a) In all instances where deposit of an advance payment in a special bank account is required, the following form of agreement will be used:

AGREEMENT FOR SPECIAL BANK ACCOUNT

(1) This agreement entered into between the United States of America, hereinafter called the "Government," contractor, and Bank, each represented by the officials executing this agreement.

(2) The Government and the contractor entered into the contract(s) or Supplemental Agreement(s) thereto, providing for the making of advance payment(s) to the contractor. Copy of the advance payment clause included in the contract is attached to and made a part of this agreement.

(i) The advance payment clause requires that amounts advanced to the contractor be deposited in a Special Bank Account at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684, as amended; 12 U.S.C. 264), separate from the contractor's general or other funds; and, the Bank being such a bank, the parties are agreeable to so depositing said amounts with the Bank.

(ii) This Special Bank Account shall be designated as indicated in paragraph (7) of this agreement.

(3) In consideration of the foregoing, and for other good and valuable considerations, it is agreed that:

(i) The Government shall have a lien upon the credit balance in said account to secure the repayment of all advance payments made to the contractor, which lien shall be superior to any lien or claim of the bank with respect to such account.

(ii) The Bank will be bound by the provisions of the advance payment clause relating to the deposit in and withdrawal of funds from the Special Bank Account, but shall not be responsible for the use of funds withdrawn from said account. Upon receipt by the Bank of written directions of any kind from the contracting officer, or from the duly authorized representative of the contracting office, pertaining to the use of the funds in the Special Bank Account upon Department of the Interior, Bureau of Indian Affairs stationery and purporting to be signed by the contracting officer or the contracting officer's authorized representative, the Bank shall act thereon and insofar as the rights, duties, and liabilities of the Bank are concerned, the written directions shall be conclusively deemed to have been properly issued and filed with the Bank by the Department of the Interior, Bureau of Indian Affairs.

(iii) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank with respect to the Special Bank Account at all reasonable times and for all reasonable purposes, including (but without limiting the generality thereof) the inspection or copying of such books and records and any and all memoranda, checks, correspondence or documents appertaining thereto. Such books and records shall be preserved by the Bank for a period of six (6) years after the closing of the Special Bank Account.

(4) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account, the Bank will promptly notify the contracting officer.

(5) The Bank, contractor, and Government by executing this agreement are bound by all of the provisions contained in the advance payment clause attached which is made a part of the contract.

(6) The contract number and purpose of the Contract(s) or supplemental agreement(s) referred to above are as follows:

_____

_____

(7) The Special Bank Account shall be designated as SPECIAL BANK ACCOUNT NUMBER _____ Bureau of Indian Affairs. IN WITNESS WHEREOF, The parties hereto have caused this agreement to be executed as of the date and year written below:

(b) The following instructions apply to the form of agreement shown in paragraph (a) of this section:

(1) Under paragraph (6) of the agreement, state the contract number and describe the purpose of the contract in brief but sufficient detail to convey a general understanding of its nature. If the contract uses a descriptive title to designate its purpose, that description should be used.

(2) Insert, in the blank space in paragraph (7) of the agreement, the number assigned by the Bank as the Account Number for the "Special Bank Account."

(3) The agreement should be dated on the date it is signed by the contracting officer.

(4) The complete mailing address of the Bank is necessary as the advance payment check and all progress payment checks will be mailed to the Bank. The zip code is required.

(5) The contracting officer should not sign the agreement until authority to make the advance payment has been obtained.

(c) The following is the form of modification of an agreement for a special bank account for advance payments:

Subpart 14H–70.15—Novation and Change of Name Agreements

§ 14H–70.1501 General.

The provisions of Subpart 1–26.4 of this title are applicable to contracts under the Act.

Subpart 14H–70.16—Procurement Reports

§ 14H–70.1601 General.

This subpart sets forth the requirements for reporting procurement actions under the Act.

§ 14H–70.1602 Standard Form 37, Report on Procurement by Civilian Executive Agencies.

Procurements under the Act shall be reported on SF–37, in accordance with § 1–16.804–3 and § 14–16.804–3 of this title. However, the number and dollar amount of such procurements shall be entered in the "remarks" section of SF–37, and shall be clearly identified as having been entered into with tribal organizations pursuant to the Act.

FEDERAL CAMPAIGN FUNDS

Public Financing of Conventions and Advisory Opinions and Requests

V 40 213 NOV 4 75 XUM

FEDERAL ELECTION COMMISSION

[11 CFR Parts 120, 121, 122, 123, 124]

[Notice 1975-68]

FEDERAL CAMPAIGN FUNDS

Public Financing of Conventions Regulation

The Federal Election Commission today publishes proposed regulations covering Public Financing of Conventions, 26 U.S.C. 9008.

Comment period. Interested parties are invited to submit written comments on these proposed regulations to the Rulemaking Section, Office of the General Counsel, Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463. Comments should be received on or before December 4, 1975.

Hearings. The schedule for public hearings on the proposed regulation will be published in the near future.

Effective date. These regulations shall become effective on a date specified in a future notice published in the FEDERAL REGISTER, which effective date shall not be less than 30 calendar days after the date of this notice of proposed rulemaking, nor before approval by the United States Congress.

PART 120—GENERAL PROVISIONS

Sec.
120.1 Scope.
120.2 Definitions.

AUTHORITY: 26 U.S.C. 9008.

§ 120.1 Scope.

(a) This part interprets 26 U.S.C. 9008, which authorizes the Federal Election Commission to certify to the Secretary of the Treasury for payments of the amounts to which the national committee or any major or minor party is entitled under 26 U.S.C. 9008 with respect to a presidential nominating convention, but the entitlement of each major party may not exceed the aggregate amount of $2,000,000.

(b) Under 26 U.S.C. 9008(b) the national committees of both major and minor parties are entitled to payments from public funds to defray expenses which they have incurred with respect to a presidential nominating convention. For a minor party to be entitled to its proportionate share of public funds for convention expenses, its presidential candidate in the last election must have received (as the presidential candidate of that party) at least 5 percent of the total popular vote received by all presidential candidates in such election.

§ 120.2 Definitions.

The following definitions shall apply for the purposes of Parts 120–129.

(a) "Commission" means the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463, telephone (202) 382-5162.

(b) "Fund" means the Presidential Election Campaign Fund established by 26 U.S.C. 9006(a).

(c) "Major party" means, with respect to any presidential election, a political party whose candidate for the office of President in the preceding presidential election received, as the candidate of such party, 25 percent or more of the total number of popular votes received by all candidates for such office.

(d) "Minor party" means, with respect to any presidential election, a political party whose candidate for the office of President in the preceding presidential election received, as the candidate of such party, 5 percent or more but less than 25 percent of the total number of popular votes received by all candidates for such office.

PART 121—PAYMENT PROCEDURE FOR PRESIDENTIAL NOMINATING CONVENTIONS

Sec.
121.1 Information required to qualify for public funds.
121.2 Commission review.
121.3 Payment schedule.

AUTHORITY: 26 U.S.C. 9008.

§ 121.1 Information required to qualify for public funds.

(a) To qualify for public financing of their conventions, the national committees of the major and minor parties shall file an application statement containing the information in paragraph (c) of this section with the Federal Election Commission.

(b) Such statement shall be filed no earlier than June 1 of the calendar year preceding the year in which a presidential nominating convention of a political party is held.

(c) The application statement shall include:

(1) The name and address of the national committee;

(2) The name and address of the convention arrangements committee of the national committee or such similar committee in charge of the national convention;

(3) The name, address, and position of the officers and members of the convention arrangements committee;

(4) The name, address, and position of the party officials designated by the national committee to sign requests for payment;

(5) The name and address of the commercial bank to be used as the convention arrangement's committee depository;

(6) Signature cards, available from the Commission, signed by the designated party officials authorized to request payments;

(d) Any change in the information required by paragraph (c) of this section shall be reported to the Commission within a 10-day period following the change.

§ 121.2 Commission review.

Upon receipt of the application statement filed under § 121.1, the Commission shall within 30 days verify such statement and notify the Secretary of the Treasury to make available for payment the amount that such committee is eligible to receive under Part 122 of this chapter.

§ 121.3 Payment schedule.

After a national committee has qualified for funds, payments will be disbursed upon the receipt of a payment request in installments in the manner specified in paragraphs (a)-(e) of this section.

(a) *Initial payment.* (1) A written request for an initial payment shall

(i) Be signed by the authorized individual(s) whose name appears on the signature card;

(ii) Specify an amount to be received, not to exceed 30 percent of the aggregate amount to which the committee is entitled under Part 122 of this chapter;

(iii) Specify one or more accounts established solely for the purpose of depositing therein and drawing therefrom all public funds received for convention financing, or certify that such account(s) will be established;

(iv) Specify one or more accounts established solely for the purpose of depositing therein and drawing therefrom all private contributions earmarked to defray nonqualified convention expenses, or certify that such account(s) will be established if the national committee decides to receive such contributions; except that a minor party may, in addition, use such accounts for private contributions earmarked to defray qualified convention expenses; and

(v) Be supported by a statement projecting and describing estimated qualified convention expenses and those already incurred, if any, through and including December 31 of the current calendar year, except that projected expenditure categories need not be itemized in specific dollar figures.

(2) A request for an initial payment may be submitted to the Commission simultaneously with the application statement required under § 121.1 or at any time thereafter. A properly submitted payment request shall be reviewed and certified by the Commission to the Secretary for payment not later than 5 working days after being received by the Commission, or July 1 of the calendar year preceding the calendar year of the convention, whichever is later.

(b) *Quarterly payment requests.* (1) Requests for disbursements after the national committee has qualified and received its initial disbursement shall be submitted quarterly commencing with January 1 of the year in which the convention will be held.

(2) Such written requests shall

(i) Be signed by the authorized individual(s);

(ii) Be accompanied by a statement of projected qualified convention expenses estimated through the close of the quarterly period, except that no specific dollar figure need be assigned to the various expenditure categories; and

(iii) Specify an amount to be received which shall reflect the amount of such projected expenses.

(c) *Special certification for accelerated payment schedule.* The Commission may certify more than one disbursement per quarter where a showing is made that a deficit is likely to be incurred unless a further disbursement is made. Any payment request for such further disbursement should be supported by a summary of actual qualified convention expenses previously incurred for the quarter, together with the projected qualified convention expenses which will occasion the deficit if a further disbursement is not forthcoming.

(d) *Amount of disbursement.* Each disbursement certification to the Secretary will be based upon the qualified convention expenses projected for the requesting period, subject to any deductions as the Commission may determine under paragraph (e) of this section and § 124.1 (f) of this chapter.

(e) *Post-convention disbursements.* (1) Notwithstanding the payment request for the last quarter preceding the convention, the Commission may in its discretion certify to the Secretary for payment an amount less than the amount requested, but in no case may the amount of such adjustment downward exceed 10 percent of the initial entitlement in that party's account.

(2) Funds withheld under this subsection, if any, shall be disbursed after the convention upon the proper submission of a post-convention payment request accompanied by the convention financing report required under § 109.3(a) of this chapter.

(3) Post-convention payments shall be subject to audit by the Commission and a deduction computed under § 124.1 (f) of this chapter in addition to other requirements imposed by law.

PART 122—ENTITLEMENT TO AND DISPOSITION OF PAYMENTS FROM THE FUND

Sec.
122.1 Major parties.
122.2 Minor parties.
122.3 Adjustment of entitlements.
122.4 Use of funds.
122.5 Investment of funds.

AUTHORITY: 26 U.S.C. 9008

§ 122.1 Major parties.

Subject to the provisions of this part, the national committee of a major party shall be entitled to receive payments under § 121.3 of this Chapter, with respect to any presidential nominating convention, in amounts which, in the aggregate, shall not exceed $2 million.

§ 122.2 Minor parties.

Subject to the provisions of this part, the national committee of a minor party shall be entitled to payments under § 121.3 of this Chapter, with respect to any presidential nominating convention, in amounts which, in the aggregate, shall not exceed an amount which bears the same ratio to the amount the national committee of a major party is entitled to receive under § 122.1, as the number of popular votes received by the candidate for President of the minor party, as such candidate, in the preceding presidential election bears to the average number of popular votes received by the candidates for President of the United States of the major parties in the preceding presidential election.

§ 122.3 Adjustment of entitlements.

The entitlements established by this part shall be adjusted in the same manner as expenditure limitations established by section 608(c) and section 608(f) of Title 18, United States Code, are adjusted pursuant to the provisions of section 608 (d) of such title.

§ 122.4 Use of funds.

Any payment made under § 121.3 of this chapter shall be used only;

(a) To defray qualified convention expenses, or

(b) To repay loans the proceeds of which were used to defray qualified convention expenses, or

(c) To restore funds (other than contributions received by such committee which were earmarked to defray qualified convention expenses) used to defray qualified convention expenses.

§ 122.5 Investment of funds.

Any investment of public funds or their use in any other way which generates income is permissible only if the income so generated is used for the purposes described in § 122.4, and such income will be applied against the national committee's entitlement.

PART 123—LIMITATION OF EXPENDITURES

Sec.
123.1 Major Parties.
123.2 Minor Parties.
123.3 Exception.

AUTHORITY: 26 U.S.C. 9008.

§ 123.1 Major parties.

Except as provided by § 123.3, the national committee of a major party may not incur qualified convention expenses with respect to a presidential nominating convention which, in the aggregate, exceed the amount of payments to which such committee is entitled under § 122.1, whether or not the national committee elects to receive any of its entitled funds.

§ 123.2 Minor parties.

Except as provided by § 123.3 the national committee of a minor party may not incur qualified convention expenses with respect to a presidential nominating convention which, in the aggregate, exceed the amount of the entitlement of the national committee of a major party under § 121.6 of this chapter, whether or not the national committee elects to receive any of its entitled funds.

§ 123.3 Exception.

The Commission may authorize the national committee of a major party or minor party to make expenditures for qualified convention expenses which, in the aggregate, exceed the limitation established by § 123.1 or § 123.2. Such authorization shall be based upon a determination by the Commission that, due to extraordinary and unforeseen circumstances, such expenditures are necessary to assure the effective operation of the presidential nominating convention by such committee. In no case, however, will such authorization entitle the national committees to receive public funds greater than the amount the national committees are entitled to under § 122.1 or § 122.2 of this chapter.

PART 124—POST-DISBURSEMENT PROCEDURES

Sec.
124.1 Repayments.
124.2 Notification of need for repayments.
124.3 Examination and audits.

AUTHORITY: 26 U.S.C. 9008.

§ 124.1 Repayments.

(a) If the Commission determines that any portion of the payments to the national committees under § 121.3 of this chapter was in excess of the aggregate payments to which the national committees were entitled, it shall so notify such national committees and such national committees shall pay to the Secretary an amount equal to such portion.

(b) If the Commission determines that the national committees incurred qualified convention expenses in excess of the aggregate payments to which the national committee of a major party was entitled, it shall notify such national committees of the amount of such excess and such national committees shall pay to the Secretary an amount equal to such amount.

(c) If the Commission determines that the national committee of a major party accepted contributions earmarked to defray qualified convention expenses (other than to defray the excess qualified convention expenses with respect to which repayment is already required under paragraph (b) of this section or to meet the exception in § 123.3 of this chapter), it shall notify such national committees of the amount of the contributions so accepted, and such national committees shall pay to the Secretary an amount equal to such amount.

(d) If the Commission determines that any amount of any payment to the national committees under § 121.3 of this chapter was used for any purpose other than—

(1) To defray the qualified convention expenses with respect to which such payment was made; or

(2) To repay loans the proceeds of which were used to defray qualified convention expenses, or otherwise to restore funds (other than contributions received by such national committee which were earmarked to defray such expenses used to defray such qualified convention expenses.

It shall notify such national committees of the amount so used, and such national committees shall pay to the Secretary an amount equal to such amount.

(e) No repayment shall be required from the national committees under this section, when added to other repayments required from such national committees

V 40 213 NOV 4 75 XUM

under this section, exceeds the amount of payments received by such national committees under § 121.3 of this chapter.

(f) Subject to § 124.2, the Commission may obtain such repayment by authorizing the Secretary of the Treasury to deduct the repayable amount determined under paragraphs (a)–(e) of this section from the amount otherwise due the national committee for its next payment. All other repayments shall be made payable to the Secretary of the Treasury.

§ 124.2 Notification of need for repayment.

(a) If the Commission determines that repayment is required under § 124.1, it shall give written notification to the affected national committee of the amounts required to be paid and the reasons thereof.

(b) No notification shall be made by the Commission under this section more than 3 years after the last day of the presidential nominating convention.

§ 124.3 Examinations and audits.

The Commission may conduct such examinations and audits as it deems necessary in order to determine whether a repayment is required from the national committee.

Dated: October 24, 1975.

JOAN D. AIKENS,
Commissioner,
Federal Election Commission.

[FR Doc.75-29227 Filed 11-3-75;8:45 am]

FEDERAL ELECTION COMMISSION

[Notice 1975–66]

ADVISORY OPINIONS

The Federal Election Commission announces the publication today of Advisory Opinions 1975–26 thru 30 and 1975–74. The Commission's opinions are in response to questions raised by individuals holding Federal office, candidates for Federal office and political committees, with respect to whether any specific transaction or activity by such individual, candidate, or political committee would constitute a violation of the Federal Election Campaign Act of 1971, as amended, of Chapter 95 or Chapter 96 of Title 26 United States Code, or of sections 608, 610, 611, 613, 614, 615, 616, or 617 of Title 18 United States Code.

Immediately following Advisory Opinion 1975–27 is the joint dissenting opinion of Commissioners Aikens and Tiernan who voted against the adoption of Advisory Opinion 1975–27.

The Commission points out that these advisory opinions should be regarded as interim rulings which are subject to modification by future Commission regulations of general applicability. In the event that a holding in either opinion is altered by the Commission's regulations, the persons to whom the opinions were issued will be notified.

ADVISORY OPINION 1975–26

CONTRIBUTION LIMITATIONS AS APPLIED TO EXCESS SENATORIAL CAMPAIGN FUNDS DEPOSITED WITH NATIONAL REPUBLICAN SENATORIAL COMMITTEE

This advisory opinion is issued under 2 U.S.C. 437f in response to a request submitted by the National Republican Senatorial Committee (NRSC) which was published as AOR 1975–26 in the August 20, 1975, FEDERAL REGISTER (40 FR 36532). Interested parties were given an opportunity to submit written comments relating to the request.

The NRSC in a letter from its chairman, Senator Ted Stevens, has requested a determination as to the applicability of the Federal Election Campaign Act Amendments of 1974 to the following factual situation.

In 1972, former Delaware Senator J. Caleb Boggs transferred $11,402 in leftover funds from his own campaign to NRSC with the request that the funds be held by NRSC for the use of the 1976 Republican Senatorial candidate from Delaware. In January 1973 NRSC acknowledged receipt of the funds and continues to regard them as earmarked for the Republican Senate candidate from Delaware pursuant to Mr. Boggs' instructions.

The specific issue raised is whether the contribution limitations established in 18 U.S.C. 608(b), as amended in 1974 (Pub. L. 93–443) and effective on January 1, 1975, with respect to elections occurring after that date (see AO 1975–5 and AO 1975–6 at 40 FR 31316), apply to this transaction and limit NRSC to distributing only $5,000 of the $11,402 to the Delaware Republican Senate candidate in 1976. If NRSC is not so limited a further issue is whether it may contribute an additional $5,000 to such candidate from its unearmarked funds.

In the narrow factual circumstances present in this specific case, one which may be confined to the transitional period marking the change over from the rules of the 1971 Act to those of the 1974 Amendments, the Commission is of the view that the entire $11,402 may be transferred to the Republican Senatorial candidate from Delaware who is nominated for the 1976 general election. The Commission emphasizes that the transactions underlying this request are subject to audit verification by the Commission. The Commission is further of the view that NRSC may contribute an additional sum from its general funds for the 1976 Republican Senatorial candidate from Delware subject to applicable limitations in 18 U.S.C. 608(b).

The Commission notes that when NRSC transmits these funds to the Senate candidate in 1976, it should indicate on the relevant report that the funds were earmarked for such candidate in 1973.

ADVISORY OPINION 1975–27

ATTORNEY'S OR ACCOUNTANT'S FEES AS EXPENDITURES

The Federal Election Commission renders this advisory opinion under 2 U.S.C. 437f in response to requests submitted by a candidate and a political committee. The requests were made public by the Commission and published in the FEDERAL REGISTER on August 20, 1975 (40 FR 36532). Interested parties were given an opportunity to submit comments relating to the requests.

The requesting parties seek an advisory opinion as to whether expenses incurred by a candidate or a committee for legal and accounting fees paid for the purpose of complying with the Federal Election Campaign Act of 1971, as amended, must be charged against the expenditure limitations of 18 U.S.C. 608. 18 U.S.C. 608 establishes expenditure limitations for candidates and committees with respect to any election for Federal office.

The term "expenditure" is specifically defined in 18 U.S.C. 591(f) to include and exclude certain types of transactions "made for the purpose of influencing" the nomination or election of a Federal candidate. This definition determines what transactions are subject to limit under 18 U.S.C. 608(c) and those which are not. Section 591(f)(4) enumerates several exclusions, including a fundraising exclusion up to 20 percent of the applicable spending limit. None of these exclusions, extend to amounts paid for accounting or legal services rendered to assist a Federal candidate in complying with the Act and applicable provisions in Title 18, United States Code. Expenditures for accounting or legal services are at least indirectly made to influence the election of Federal candidates since one's election is jeopardized by conduct that may violate the law. Furthermore, compliance clearly enhances one's candidacy and may with good reason be deemed to justify expenditures for the described professional services, even if the candidate must charge them against the applicable spending limit.

The Commission recognizes, however, that some disbursements to pay the described fees, while subject to disclosure, may under certain circumstances be outside the defined category of "expenditure" because they are not made for the purpose of influencing the election of a Federal candidate. For example, fees for accounting or legal services rendered in connection with preparing for or responding to formal compliance proceedings instituted against the candidate or committee by the Commission, would not be counted against the applicable spending limit. By contrast, however, accounting or legal fees paid to assure compliance generally, or to assist in a routine Commission audit, would be considered as expenditures subject to both disclosure and limitation.

This advisory opinion is issued on an interim basis pending promulgation by the Commission of rules and regulations or policy statements of general applicability.

DISSENTING OPINION OF COMMISSIONER JOAN D. AIKENS AND COMMISSIONER ROBERT O. TIERNAN TO ADVISORY OPINION 1975–27

In issuing Advisory Opinion 1975–27, the Federal Election Commission has ruled that expenses incurred by a candidate or committee for legal and accounting fees paid for the purpose of general compliance with the Federal Election Campaign Act of 1971, as amended, must be charged against the expenditure limitations of the Act, whereas such fees paid to prepare and respond to formal compliance actions will be exempted from the ceilings.

This Dissenting Opinion expresses the views of Commissioner Joan D. Aikens and Robert O. Tiernan who voted against Advisory Opinion 1975–27.

It is the view of Commissioners Aikens and Tiernan that expenditures for accounting and attorney fees which are made to assure adherence to the mandates of this complex new law at every stage of a campaign for federal office have an equal claim for an exemption from the expenditure limits of the Act, and should not merely be limited to the later point of defending against formal complaints. Early and timely preventive actions are the very essence of voluntary compliance; such efforts can easily be distinguished from political strategy and tactical advice. Good faith attempts to anticipate and meet the requirements of the Act well in advance of formal complaint actions should also be recognized and given strong encouragement and endorsement.

It should be noted that, to date, the Commission has received a significant input from numerous sources regarding this Advisory Opinion Request—all of which were unanimous in their support of the exclusion of all these expenses from the expenditure limitations.

The Chairmen of the Republican Senatorial and Democratic Senatorial Cam-

V 40 213 NOV 4 75 N XUM

paign Committees in their comments regarding this Request stated,

The burdens of complying with the Federal campaign laws and Commission regulations are far in excess of that anticipated by Congress when the 1974 Amendments were passed. Because of the complexity of the new law, nearly every Federal candidate will need an accountant and an attorney to strictly comply with its numerous requirements.

They went on to note, "The difficulties of compliance are particularly acute for non-incumbent challengers • • •"

The newcomer to politics, the volunteer campaign official, and the modestly funded candidate should not be dissuaded from entering the electoral arena because of difficulties in interpreting the Act; once involved in a political campaign, they should not be restrained in their actions or expressions because of uncertainty about the consequences of every deed. Expert professional legal and accounting advice is an integral part of a political campaign for federal office. This assistance should be available to every candidate, no matter whether it is used prospectively to guide a campaign within the boundaries of the Act, or subsequently to defend against formal complaints.

JOAN D. AIKENS,
Commissioner.
ROBERT O. TIERNAN,
Commissioner.

ADVISORY OPINION 1975–28

STATUS AND ACTIVITIES ALLOWED OF A POLITICAL COMMITTEE SUPPORTING A FORMER CANDIDATE FOR THE PRESIDENCY

This advisory opinion is issued pursuant to 2 U.S.C. 437f in response to a request by the Percy Committee, and published as AOR 1975–28 in the August 20, 1975, FEDERAL REGISTER (40 FR 36532). Interested parties were given an opportunity to submit written comments pertaining to the request. No comments were received.

In response to a number of requests and initiatives by friends and supporters of Senator Charles H. Percy of Illinois the Percy Committee (Committee) was established on February 9, 1973, to explore his possible candidacy for the Office of President. The Committee represents that the contributions received and expenditures made by it have been reported in accordance with the Federal Election Campaign Act of 1971. Apart from a final bill from the Committee's accountants, which has not yet been rendered, the Committe states that it is not aware of any outstanding obligations or anticipated contributions related to a possible presidential candidacy by Senator Percy in 1976. The Committee has approximately $9,000 of funds on hand, but is not and will not be soliciting additional contributions or making additional expenditures (with the exception of the bill referred to above) to pursue a possible presidential candidacy by Senator Percy in 1976. The Committee further indicates that Senator Percy is not and does not expect to be a presidential candidate for 1976.

The Percy Committee has requested an advisory opinion on several matters.

1. Will the Percy Committee cease to be a "political committee" established on behalf of a potential presidential candidate once the last expenditure related to a possible presidential candidacy has been made (which is expected to be the payment to the Percy Committee's accountant referred to above)?

The Committee must, of course, extinguish all debts and obligations relating to the possible presidential candidacy of Senator Percy before it may cease to be a political committee established on behalf of a potential presidential candidate. 2 U.S.C. 434. Since the Committee is or will be making ongoing expenditures relating to Senator Percy's other political activities, it should clearly indicate which expenditures are made to extinguish debts relating to the potential presidential candidacy. By clearly indicating the purpose of the expenditures, the Committee will prevent any confusion as to whether the expenditure should be charged against Senator Percy's senatorial expenditure limitation in 18 U.S.C. 608(c). The Commission notes that the Committee has recently filed an amended registration statement indicating that they do not intend to support a presidential candidate.

2. Since Senator Percy is expected to engage in political activity from time to time in Illinois and is also expected to seek reelection in 1978 and certain political expenses related to these activities can be expected in such regard from time to time, are the receipts and expenditures of and for the Percy Committee required to be recorded and reported in accordance with the law?

The Commission is currently in the process of preparing regulations regarding the allocation of expenditures incurred by an officeholder or candidate appearing on behalf of other candidates within his or her electoral district. These expenditures, as so allocated, as well as expenditures made with respect to the Senator's candidacy for reelection, will of course be charged against his expenditure limitation in 18 U.S.C. 608(c) and must be recorded and reported in accordance with 2 U.S.C. 431 et seq. It is to be noted that contributions to and expenditures made from funds established exclusively for the purposes of supporting the activity of a Federal officeholder are currently the subject of a draft Commission regulation, with respect to which there will be further public notice.

3. May the Percy Committee engage in general political fundraising and make expenditures related to Senator Percy's political activities as well as his expected reelection campaign?

As indicated, the Committee may engage in such activities but must continue to report all receipts and expenditures. Furthermore, any contribution received and expenditure made after January 1, 1975, is subject to limitation under 18 U.S.C. 608.

This advisory opinion is issued on an interim basis only pending promulgation by the Commission of rules and regulations or policy statements of general applicability.

ADVISORY OPINION 1975–29

LIMITATIONS ON CONTRIBUTIONS BY LOCAL POLITICAL PARTIES

This advisory opinion is issued pursuant to 2 U.S.C. 437f in response to a request submitted by Represenative Tom Railsback and published as AOR 1975–29 in the August 20, 1975, FEDERAL REGISTER (40 FR 36532). Interested parties were given an opportunity to submit written comments pertaining to the request. No comments were received.

Representative Railsback asks for an opinion as to the maximum contribution that a county central committee of a political party (an official subordinate organ of a State political party committee) may make to a candidate for the U.S. House of Representatives in the primary and the general elections.

There are two contribution limitations for political committees. Under 18 U.S.C. 608(b)(1), a person (including a political committee) is limited to a contribution of $1,000 per election (see 18 U.S.C. 591(a)) to a candidate for nomination or election to Federal office. Therefore, a political committee under 18 U.S.C. 608(b)(1) may contribute $1,000 with respect to the candidate's primary election and $1,000 with respect to the candidate's general election.

Contributions by a county central committee of a State political party are limited to $5,000 per candidate per election if the county committee meets the following criteria:

1. Has been registered as a political committee under 2 U.S.C. 433 for a period of 6 months;

2. Receives contributions from more than 50 donors;

3. Has contributed to 5 or more Federal candidates.

A county central committee which meets these criteria may then contribute $5,000 with respect to the Congressman's primary election and another $5,000 with respect to the general election. In the event of a run-off election, an additional contribution of $1,000 or $5,000 may be made (see definition of "election," 18 U.S.C. 591(a)).

Contributions by a county central committee must also be made without the direction or control of any other political committee or person. The conference report to the 1974 Amendments states that:

• • • if a person exercises any direct or indirect control over the making of a contribution, then such contribution shall count toward the limitation with respect to such person • • • but it will not count toward a person's contribution limitation when it is demonstrated that such person exercised no direct or indirect control over the making of the contribution involved. (House Conference Report No. 93–1438, page 51)

Thus, if the State committee exercises control over any contribution by the county central committee, such contribution will count as a contribution by the State committee. The Conference Report permits "the maximum contribution from each level of the organization if the decision or judgment to make such contributions is independently exercised within the separate levels of the organization."

In conclusion, the Commission notes parenthetically that under 18 U.S.C. 608(f)(3) a subordinate committee of a State party committee of a political party may make expenditures in connection with the general election campaign of a candidate for the House of Representatives. The total amount available for spending on behalf of a candidate for the House of Representatives by a State committee of a political party and its subordinate committees under 608(f)(3) is $10,000. Any desired allocation of this amount would be a matter for decision among the State and local committees. (See AO 1975–2, 40 FR 36092, August 18, 1975). In any event, expenditures under 608(f)(3) are not chargeable against any Federal candidate's spending limit under 18 U.S.C. 608(c).

This advisory opinion is issued on an interim basis only pending promulgation by the Commission of rules and regulations or policy statements of general applicability.

ADVISORY OPINION 1975–30

USE OF CAMPAIGN FUND FOR NEWSPAPER SUBSCRIPTIONS AND TRAVEL EXPENSES

This advisory opinion is rendered under 2 U.S.C. 437f in response to a request for an advisory opinion which was submitted by Congressman David R. Bowen, and published as AOR 1975–30 in the August 20, 1975, FEDERAL REGISTER (40 FR 36532). Interested parties were given an opportunity to submit written comments relating to the request. No comments received.

The request generally asks whether certain expenditures may be made by the principal campaign committee of a Member of Congress, under the Federal Election Campaign Act of 1971, as amended, and pertinent provisions in Title 18, United States Code. Specifically, it was asked whether a campaign fund may be used to:

(a) Purchase newspaper subscriptions; and

(b) Reimburse the Member for travel expenses incurred in connection with the Member's political appearances in his Congressional District.

The Act generally defines an expenditure both for the disclosure requirements (2 U.S.C. 431(f)) and the limitations on expenditures (18 U.S.C. 591(f)), as a purchase, payment, distribution, loan, advance, deposit, or gift of money or anything of value made for the purpose of influencing the nomination for election, or election of any person to Federal office. While the Act does provide that certain activities are not to be subject to the provisions providing for the reporting and limitation of expenditures (2 U.S.C. 431(f)(4) and 18 U.S.C. 591(f)(4)), the Act in no way limits the right of a candidate to make his own determination as to what expenditures should be made by his campaign. Thus any expenditure which a candidate or his principal campaign committee report as having been made for purposes of influencing a Federal election, will be treated accordingly and counted toward the appropriate limitations provided in 18 U.S.C. 608 (a) and (c).

Accordingly, it is the opinion of the Commission that expenditures may be made by a candidate or his principal campaign committee for the purpose of (a) purchasing newspaper subscriptions; (b) reimbursing a Member of Congress for travel expenses incurred in connection with the Member's political appearances in his Congressional district, and for any other purpose intended to influence a Federal election.

This advisory opinion is issued only on an interim basis pending the promulgation by the Commission of rules and regulations or policy statements of general applicability.

ADVISORY OPINION 1975–74

CONTRIBUTIONS BY INDIVIDUALS TO NATIONAL POLITICAL PARTIES IN NON-ELECTION YEARS

This advisory opinion is rendered under 2 U.S.C. § 437f in response to a request submitted by the Republican National Committee (hereafter RNC) which was published as AOR 1975–74 in the October 1, 1975, FEDERAL REGISTER (40 FR 45294). Interested parties were given an opportunity to submit written comments relating to the request. No comments received.

The RNC request raises three questions as to the circumstances under which individual contributions in a non-election year must be carried over to a subsequent election year and charged against the contribution limitations applicable to that year. The three questions which, in effect, seek an interpretation of the second sentence of 18 U.S.C. 608(b)(3) will be discussed in turn.

A. The RNC asks first whether a contributor who in 1975 gives an unearmarked $25,000 contribution to the National Committee of a major political party (such as the Republican National Committee), must apply this against what the contributor may give the National Committee and/or any Federal candidate in 1976.

The Commission concludes that the answer to this question must be no.

18 U.S.C. 608(b)(3) states:

No individual shall make contributions aggregating more than $25,000 in any calendar year. For purposes of this pargaraph, any contribution made in a year other than the calendar year in which the election is held with respect to which such contribution was made, is considered to be made during the calendar year in which such election is held.

The effect of this provision is to require that certain, non-election year contributions by an individual contributor (as discussed *infra*) must be subtracted from the $25,000 aggregate limitation applicable to the election year. The carry over or carry back effect applies to contributions in the year immediately preceding or following the election. It may in certain specific circumstances apply in other years as well.

Resolution of the question posed by the RNC necessarily turns on the meaning of the word contribution, as it is used in section 608(b)(3).

The Commission has already determined in AO 1975–4 (40 FR 29793) that the word contribution as it is defined in 18 U.S.C. 591(c) and as it is set forth in the first sentence of 608(b)(3) includes not only contributions which are earmarked[1] for furthering the election of a particular candidate(s), but in addition any contributions which are simply turned over to a political party committee for defraying party expenses generally. However, this broad definition is plainly constricted by the literal language of the second sentence of section 608(b)(3) which indicates that a contribution must be carried over or back to the year in which "the election is held" only if it is made "with respect to" that election. Since a contribution with respect to an election is tantamount to support of the candidate(s) who is running in that election, the scope of the quoted phrases from section 608(b)(3) must be narrowed to contributions which are either earmarked by the donor for the use of a particular candidate or candidates, or which the donor can reasonably expect will be earmarked by the donee committee. Other contributions are deemed to be for general party purposes and are excluded from the scope of the second sentence.

Further support for this view is found in the portion of the House-Senate Conference Report discussing the meaning of the language at issue herein. It was stated pertinently:

any contribution to a campaign of a candidate in a year other than the calendar year in which the election to which such campaign relates is held shall be considered to be made during the calendar year in which such election is held

The Report makes it clear that the word contribution as referred to in section 608(b)(3) is intended to apply only to monies given to a campaign of a candidate—in short, it applies only to earmarked contributions.

Finally, if the word contribution, as it is set forth in the second sentence of section 608(b)(3) is construed in terms of the section 591(e) definition, the $25,000 ceiling on aggregate individual donations set forth in the first sentence of section 608(b)(3), would have to be construed in an unduly restrictive manner. Since every non-election year contribution would be subject to the carry-back/

[1] For the purposes of this advisory opinion the word "earmarked" should be construed to include any contribution directed to a particular Federal candidate by the donor or any other person (as the word is defined in 2 U.S.C. 431(h)) on his behalf. (See discussion, *infra*). Thus the term is used in a broader sense than the typical earmarking situation where a contribution is made through a conduit or intermediary to a particular Federal candidate.

V 40 213 NOV 4 75 N XUM

carry-over effect and thus limited, this would mean that a donor could contribute up to the $25,000 ceiling annually only if the contributions were made in an election year and not in any other year. In short, there would be a chilling effect on contributions to political parties in non-election years. Surely, such a result was not intended by the framers of the statute.

It remains to be considered whether a contribution to the RNC which is not earmarked by the donor may nonetheless be construed as earmarked.

The Commission is of the view that if an unearmarked contribution is made by a donor to a political committee[2] which devotes the greater part of its resources to supporting a particular Federal candidate or a limited group of such candidates, then that contribution must be treated as earmarked by the donor and must be pro rated against his $1,000 per candidate contribution limit (18 U.S.C. 608(b)(1)) according to the number of candidates supported by the committee. In this situation there can be no question as to the ultimate destination of the contribution. Accordingly, regardless of the expressed wishes of the donor, his contribution must be construed as earmarked.

However, it should be noted that in the event the political committee comes within the scope of the specialized definition set forth in 18 U.S.C. 608(b)(2)—that is, "an organization registered as a political committee under Section 433, Title 2, United States Code, for a period of not less than 6 months which has received contributions from more than 50 persons and except for any State political party organization, has made contributions to 5 or more candidates for Federal office"—then all contributions to the committee will be construed as unearmarked in the absence of evidence to the contrary. An organization which meets these criteria may support a wide range of candidates and issues and thus cannot be automatically viewed as a mere conduit to the campaign(s) of a small group of Federal candidates. This does not mean that a small, multicandidate committee, which fully satisfies the criteria of 608(b)(2) can never be construed as earmarking its monies to a particular Federal candidate or candidates. However, because such cases will involve varying factual circumstances and will not be susceptible to a neat characterization, the Commission will deal with them as they arise.

With regard to the RNC—as the organization which "is responsible for the day-to-day operation of the * * * (Republican) Party at the national level" (18 U.S.C. 591(k)), it is plainly a multicandidate political committee within the meaning of the definition in 608(b). Because of the scope of the RNC's operations, the Commission assumes (unless there are facts to the contrary) that a contribution to it which is unearmarked by the donor cannot be construed as earmarked because of subsequent use. Thus an individual who donates $25,000 to the RNC in 1975 need not apply this against his 1976 aggregate spending limitation.

B. The second question raised by the RNC involves a situation where a contributor gives unearmarked monies to the RNC in 1975 and the RNC on its own initiative later contributes a sum in excess of $1,000 to a candidate which the contributor wishes to support in 1976. The question is whether the indivdual contributor is in violation of the law if he makes a further contribution to the same candidate in 1976.

The Commission concludes that the answer to the question is no.

As already noted in the discussion of the RNC's first question, an unearmarked individual contribution to a national political organization, such as the RNC, is exempt from the carry over/carry back provision of section 608(b)(3). This being true, it follows that any subsequent use of the contribution by the RNC cannot be attributed to the individual. Indeed, since all contributions are presumably commingled by the RNC it would not even be clear whether a contribution to a particular candidate could be attributed to a particular individual. A requirement that the RNC maintain records as to its use of each individual contribution would plainly be unreasonable.

It should also be noted that the Commission's conclusion herein would be different if the circumstances set forth in the second RNC question were reversed—that is, if an individual contributor gave $25,000, in $1,000 components, to particular candidates in 1975 for 1976 elections and then in 1976 wished to contribute to the RNC. In such a situation, the earmarked 1975 contributions would carry over to 1976 and would preclude the contributor from giving any money in that year.

C. The final question asked by the RNC is whether if a contributor gives $1,000 in 1975 to the 1976 primary of a Federal candidate and the candidate does not win the primary, the $1,000 contribution must be counted against the contributor's overall $25,000 limitation in 1976.

The Commission is of the view that this question is distinct from the other two asked by the RNC, since it involves a contribution made "with respect to" an election and the word election plainly encompasses primaries as well as general elections (See 18 U.S.C. 591(a)). The fact that the candidate involved did not win the election is immaterial; there is no requirement in section 608(b)(3) that in order for the carry over provision to be triggered, the contributor must support a victorious candidate. Indeed the relevant definition of candidate specifically states that the word refers to "an individual who seeks nomination for election, or election, to Federal office, whether or not such individual is elected" (18 U.S.C. 591(b), emphasis added). Thus, the $1,000 contribution must be counted against the contributor's overall $25,000 limitation in 1976.

This advisory opinion is issued on an interim basis only pending promulgation by the Commission of rules and regulations or policy statements of general applicability.

Dated: October 24, 1975.

JOAN D. AIKENS,
Commissioner,
Federal Election Commission.

[FR Doc.75-29228 Filed 11-3-75;8:45 am]

[2] Political Committee is defined in 18 U.S.C. 591(d) as "any committee, club, association, or other group of persons which receives contributions or makes expenditures during a calendar year in an aggregate amount exceeding $1,000."

[Notice 1975-67, AOR 1975-82—AOR 1975-86]

ADVISORY OPINION REQUESTS

In accordance with the procedures set forth in the Commission's Notice 1975-4, published on June 24, 1975 (40 FR 26660), Advisory Opinions Requests 1975-82 through 1975-86 are published today.

Interested persons wishing to comment on the subject matter of any Advisory Opinion Request may submit written views with respect to such requests on or before November 14, 1975. Such submission should be sent to the Federal Election Commission, Office of General Counsel, Advisory Opinion Section, 1325 K Street NW., Washington, D.C. 20463. Persons requiring additional time in which to respond to any Advisory Opinion Request will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered by the Commission before it issues an advisory opinion. The Commission recommends that comments on pending Advisory Opinion Requests refer to specific AOR number of the Request commented upon, and that statutory references be to the United States Code citations, rather than to the Public Law Citations.

AOR 1975-82: FUNDRAISING IN 1976 TO RETIRE 1974 CAMPAIGN DEBT (REQUEST EDITED AND PARAPHRASED BY THE COMMISSION)

GENTLEMEN: * * * Right now, (my committee) still owe(s) approximately $60,000 (with respect to my 1974 campaign). This amount will probably be reduced to $40,000 as of December 31, 1975.

During the early months of 1976, it will be necessary for my committee to conduct additional fundraising activities in order to finally wipe out this deficit.

* * * I would like a written opinion as to whether fundraising activities early in 1976 to pay off a 1974 campaign deficit would be charged against my 1976 re-election campaign fund limitation.

FRED RICHMOND,
House of Representatives.

Source: Honorable Fred Richmond, House of Representatives, 1533 Longworth House Office Building, Washington, D.C. 20515 (October 8, 1975).

AOR 1975-83: EXPENSES INCURRED DURING 1975 TO RETIRE 1974 CAMPAIGN DEBTS; PAYMENT IN 1976 OF BANK LOAN RELATING TO 1974 CAMPAIGN (REQUEST EDITED AND PARAPHRASED BY THE COMMISSION)

GENTLEMEN: On behalf of the above described committee and its chairman, Mr. Robert L. Brock, we would respectfully request the following rulings in respect to the application of Commission Notices 1975-19 (40 FR 32952, August 5, 1975) and 1975-20 (40 FR 32950, August 5, 1975) to the situations described herein.

1. The Dr. Bill Roy for Senator Committee was the principal campaign committee of Dr. William R. Roy, Topeka, Kansas in the 1974 primary and general election campaigns for the office of United States Senator from Kansas. The committee was registered with the Secretary of the Senate in March, 1974 and has filed all required reports with the Secretary of the Senate. The committee completed the campaign with some substantial debts which have been duly reported on the filed reports.

2. On November 21, 1974, the committee borrowed $50,000 from the Fidelity State Bank, 600 Kansas Avenue, Topeka, Kansas 66603. The note was executed by the committee chairman, Mr. Robert L. Brock, 1533 Stratford Road, Topeka, Kansas 66604 and was personally guaranteed by him in his individual capacity. The entire proceeds of this note were disbursed within a few days to pay obligations of the 1974 campaign. The note was for 90 days and has been renewed by the bank with the most recent renewal being September 29, 1975, maturing December 19, 1975. The personal guarantee has been in effect throughout the term of the note. The loan was made by the bank in accordance with the applicable banking laws and regulations in the ordinary course of business.

3. The committee has conducted a fundraising campaign during 1975 intended to retire all of the outstanding debts including the above described bank loan. To this purpose the committee has incurred certain expenses in raising the funds. These expenses include salaries, postage, printing, telephone charges and like directly related expenses. No expenses have been incurred in direct campaigning for a subsequent election. Not directly related to fundraising but necessary to the committee is the interest expense on the above note. It now appears unlikely that sufficient funds will be raised to permit full repayment of the note and thus Mr. Brock will be required to pay the note from his personal funds.

4. On the basis of the above facts we respectfully request (an advisory opinion as to whether:)

(a) Expenses of the committee incurred after January 1, 1975, directly related to payment or continuation of outstanding obligations on January 1, 1975, may be paid out of funds solicited for and restricted to repayment of past campaign debts.

(b) Payment by Mr. Robert L. Brock of all or part of the bank note with date of origin November 21, 1974, under the obligation of his personal guarantee of the same date, will not be subject to the limitations of 18 U.S.C. 608(b)(1) and 18 U.S.C. 608(b)(3) notwithstanding the fact that such payment may be made after January 1, 1976.

DON R. PAXON.

Source: Don R. Paxon, Treasurer, Dr. Bill Roy for Senator Committee, P.O. Box 42, Topeka, Kansas 66601 (September 29, 1975).

AOR 1975-84: COVERAGE OF AGENT'S FEES BY HONORARIUM LIMITATIONS (REQUEST EDITED BY THE COMMISSION)

DEAR MR. CHAIRMAN: As you know the Federal Election Campaign Act Amendments of 1974 establish a maximum $1000 per honorarium and maximum $15,000 per year in total honorariums. Many Members of Congress have entered into contracts with speaker's bureaus or agents whereby for a percentage of the honorarium, the bureau or agent obtains speaking engagements or appearances for the Member. Would you please advise as to whether the percentage fee is included in the $1,000 per engagement and $15,000 yearly total maximums or whether these maximums apply only to income actually received by the Member of Congress.

TOM RAILSBACK,
Member of Congress.

Source: Representative Tom Railsback, House of Representatives, 2431 Rayburn House Office Building, Washington, D.C. 20515 (October 5, 1975).

AOR 1975-85: APPLICATION OF HONORARIUM LIMITATIONS TO THE ACCEPTANCE OF AN AWARD (REQUEST EDITED BY THE COMMISSION)

MR. CHAIRMAN:

* * * * *

Facts: Senator Hubert H. Humphrey has been selected as one of the recipients for 1975 of the "Joseph Prize for Human Rights" which is given through the Anti-defamation League of B'nai B'rith. The prize includes a medal and a $5,000 monetary award. The Senator is not required to provide any service to the Anti-defamation League in order to receive the prize, i.e., he is not required to make an appearance, speech or prepare an article. It is likely, however, that he will accept the prize in person at the designated meeting of the ADL and will make some comments.

If permitted to accept this monetary award, Senator Humphrey intends to donate that amount of a charitable purpose.

Enclosed please find a statement of the basic principles of the Joseph Prize as prepared by the Anti-Defamation League.

Question: Does this prize fall within the definition of "honorarium of more than $1,000 * * * for any appearance, speech or article, "as that phrase is used in 18 U.S.C. Section 616(1)?

The basic principles of the Joseph Prize are as follows:

"* * * The Joseph Prize for Human Rights celebrates the efforts in our own day of those leaders who seek the establishment of human rights in the hope that they achieve the goal.

An international award, the Joseph Prize will be presented annually or as the occasion warrants to one whose life's work has been the improvement of human relations and the preservation or growth of human rights. The Prize reflects the concern of I. S. and Anna K. Joseph for the development of democratic institutions and practices that will lead to the fullest flowering of the human spirit.

The Prize has been established by a grant of $500,000 from the Joseph Foundation to the Anti-Defamation League of B'nai B'rith and will carry a monetary award and a gold medal to the laureate chosen by the Board of Trustees.

DAVID G. GARTNER.

AOR 1975-86: EXTENT OF FEDERAL REGULATION OF LOCAL POLITICAL PARTY ACTIVITIES (REQUEST EDITED BY THE COMMISSION)

DEAR COMMISSIONERS:

* * * * *

The recent meeting of the Republican National Committee provided the opportunity to discuss with a number of state party organizations in interpreting and complying with the Federal Election Campaign Act. At the local level, e.g., county, district, city, ward, party officials all are volunteers. In few places are attorneys or accountants available to assist with the interpretation of the law and the filing of reports.

Furthermore, most of these party organizations have little to do with campaigning for Federal candidates. It may be possible for a large administrative burden to be lifted from the Commission, while obtaining substantial compliance with the law, if ground rules can be established for the operation of such local party organizations.

The Republican National Committee would like to propose that such local Republican Committees (and Democratic Committees) be permitted to:

1. Engage in ongoing Republican Party activities including registration drives, and

2. Receive corporate and other contributions permitted under state law,

3. Without the obligation to report to the Commission under 2 U.S.C. 432 or 437(a) or in any other manner be subject to the jurisdiction of the Commission: *Provided*, That the committee meets the following tests:

a. Such committees and local political party committees, e.g., county, district, city or ward, either independent of or subordinate to the state political party.

b. Such committees engage in day-to-day operations for the benefit of the (Republican) party as a whole, including registration, education, turn-out of the voters, conduct of polls, recruitment of workers, etc.

c. Such committees support local and state candidates but not Federal candidates.

d. Such committees do not receive contributions for Federal elections in excess of $1,000 nor spend on Federal elections in excess of $100.00.

e. If party officials in the local jurisdiction (county, district, city, ward) receive or spend for Federal elections, such activity is carried out by separate organizations with segregated bank accounts (A.O. 1975-2).

Dated: October 24, 1975.

JOAN D. AIKENS,
Commissioner,
Federal Election Commission.

[FR Doc.75-29229 Filed 11-3-75;8:45 am]

[Notice 1975-70, AOR 1975-87, AOR 1975-97]

ADVISORY OPINION REQUESTS

In accordance with the procedures set forth in the Commission's Notice 1975-4, published on June 24, 1975 (40 FR 26660), Advisory Opinion Requests 1975-87 through 1975-97 are published today.

Interested persons wishing to comment on the subject matter of any Advisory Opinion Request may submit written views with respect to such requests within 10 calendar days of the date of the publication of the request in the Federal Register. Such submission should be sent to the Federal Election Commission, Office of General Counsel, Advisory Opinion Section, 1325 K Street, NW., Washington, D.C. 20463. Persons requiring additional time in which to respond to any Advisory Opinion Request will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered by the Commission before it

V 40 I 213 NOV 4 75 XUM

issues an advisory opinion. The Commission recommends that comments on pending Advisory Opinion Requests refer to specific AOR number of the Request commented upon, and that statutory references be to the United States Code citations, rather than to the Public Law Citations.

AOR 1975–87: Whether Costs of Republican Candidates Conference are Contributions by the Republican National Congressional Committee and/or Expenditures by Participating Candidates (Request Edited and Paraphrased by the Commission).

REQUEST

Dear COMMISSIONERS: The Natural Republican Congressional Committee, (hereinafter "NRCC") a political committee as defined in 2 U.S.C. § 431(d), hereby requests that the Federal Election Commission (hereinafter "FEC") issue an advisory opinion pursuant to 2 U.S.C. § 437f as to the legality of the transactions and activities described in this letter.

FACTS

In the past the NRCC, a multicandidate political committee as defined by 18 U.S.C. § 608(b)(2), has conducted the Republican Candidates Conference (hereinafter "Conference") biennially. The purpose of the Conference has been to assemble Republican staff personnel as well as candidates for the House of Representatives and the Senate, in order to provide them with general information on campaign strategy and current issues. The Conference has been held over a three or four day period sometime during the month of June in those years when general Congressional elections have taken place. Participants have included candidates for the Federal offices of Representative and Senator, their spouses and campaign staffs, as well as Members of Congress and their staffs. Except for Members of Congress, each participant has been charged a registration fee of One Hundred dollars.

The receipts from the payment of registration fees have been sufficient to cover the expenses incurred by the NRCC in conducting the Conference. These expenses include: the rental of Conference meeting rooms; the rental of hotel rooms which are used by the NRCC staff as offices or accommodations for the duration of the Conference; meals and receptions; local transportation; security personnel; printing and mailing; the rental of a copying machine; travel and lodging expenses of speakers and panelists; and room guarantees required by the hotel. The salaries of NRCC staff, who are full time employees but assigned to organize and operate the Conference, are not paid from the Conference receipts.

Each Conference participant has been responsible, in addition to the registration fee, for the payment of the cost of transportation to and from the Conference as well as the cost of lodging while in Washington, the site of every Conference. The NRCC has made the lodging arrangements with local hotels and has been able to arrange for the usual convention discount rate. Furthermore, if any of the meetings have taken place at a location other than the meetings have taken place at a location other than the Conference center, the NRCC has provided local transportation to those events.

The Conference participants have been given the opportunity to take part in seminars, lectures and workshops covering a wide variety of topics dealing with election campaigns. Non-incumbent participants have been able to have private meetings with Members of Congress in order to discuss the rigors of conducting a campaign for Federal office. Briefings on current issues have been led by administration personnel as well as other knowledgeable persons. Each participant has received a campaign manual and research materials compiled by the NRCC research staff. The cost of all meals for the Conference attendees is included within the registration fee.

The NRCC may conduct a Conference in 1976 which will be structured similarly to the past Conferences. For this reason, the NRCC requests that the FEC issue an advisory opinion • • • [as to whether] the cost of the Conference, including the time of NRCC employees, does not have to be included within the NRCC's permissible contribution to any candidate in any election. In other words, [does] the cost of the Conference • • • have to be allocated on a pro rata basis to each of the candidates attending the Conference thereby reducing by the pro rata cost the amount of monies which the NRCC could contribute to a candidate in any election [?]

Furthermore, • • • [do] the candidates and Members of Congress attending the Conference • • • have to consider the cost of the Conference on a pro rata basis, the registration fee or any of the services provided by the NRCC in conducting the Conference as expenditures under the Act [?]

• • • • •

STEVEN STOCKMEYER.

AOR 1975–88: Use and Reporting of Excess Funds Raised To Pay 1974 Campaign Debts (Request Edited and Paraphrased by the Commission).

GENTLEMEN: I would like to seek a clarification and some guidance regarding the use and reporting of excess campaign funds.

• • • [The Dodd for Congress Committee has] raised this year in total receipts the sum of $25,750.51. Essentially, all of this was raised in an effort to pay debts remaining from the 1974 campaign. All such debts have now been paid. Additionally, we have paid some bills, totaling approximately $500, not attributable to the 1974 campaign but rather attributable to office type expenses incurred after January 1, 1975.

We have on hand at the present time in the checking account a total of $1,838.64.

It is with regard to that amount that I am seeking guidance • • •.

• • • • •

I would be very grateful if you could give me some advice as to how these funds should be used and reported. If they are to be returned to the donors as indicated in Advisory Opinion 1975–6, what procedure must be followed to return such funds to the donors? For example, must the funds be pro-rated and returned pro-rata to each donor?

THOMAS B. WILSON

AOR 1975–89: Treatment of Honorariums Earned Though Not Yet Received (Request Edited by the Commission).

Dear Mr. CHAIRMAN: A question has arisen regarding section 616 of Title 18, United States Code, and I would appreciate an advisory opinion.

Section 616 states, in part, "(2) accepts honorariums • • • aggregating more than $15,000 in any calendar year; • • •". The question is whether honorariums accepted during a given calendar year include all honorariums actually received during that year, or whether they include all honorariums earned during that year (e.g. for speeches delivered during that year) even if some honorariums were actually received during the subsequent calendar year.

• • • • •

MIKE MCCORMACK,
Member of Congress.

AOR 1975–90: Multicandidate Political Committee—Overhead Costs; Contributions Received in 1975; Expenditures Prior to Commitment of Support (Request Edited by the Commission).

DEAR SIRS: I am writing as Chairman of the Executive Committee of The Fund for a Representative Congress—A Fund to Elect Black Republicans to Congress, which was recently incorporated in the District of Columbia and has been registered in your office by Samuel C. Jackson, Esq., Chairman. The Fund is a multi-candidate organization.

I am writing you at this time • • • to ask for an advisory opinion regarding specific problems about which we have questions:

(1) As a multicandidate committee, are we allowed to pay overhead costs of operation without attributing those costs to any candidate?

(2) Does a contribution to The Fund in 1975 count as part of the allowable contribution of the donor to any candidate supported by The Fund in the 1976 election?

(3) The Fund expects to spend some money in research, interviewing and screening candidates prior to commitment of support. Do those expenditures have to be charged to candidates? If so, how do we treat expenditures for candidates who are rejected?

• • • • •

DR. MAURICE A. DAWKINS.

AOR 1975–91: Expenditures by the Democratic National Committee and Other Political Committees To Defray Expenses of Delegates and Alternates To The Presidential Nominating Convention. (Request Edited by the Commission).

DEAR COMMISSIONERS: On behalf of the Democratic National Committee, we would like to submit to the Commission a request for guidance with respect to certain questions arising under the provisions of 26 U.S.C. 9008.

• • • • •

26 U.S.C. 9008(c) provides that "no part of any payment made under subsection (b) shall be used to defray the expenses of any candidate or delegate who is participating in any presidential nominating convention." The Democratic National Committee may therefore undertake to defray expenses of delegates to its national convention only out of private funds, and only upon a determination by the Commission [under 26 U.S.C. 9008(d)(3)] that the expenditure of private funds for such purpose, due to extraordinary and unforeseen circumstances, is necessary to assure the effective operation of the Democratic convention.

We therefore request that the Commission indicate at this time whether expenditures from private funds to defray expenses of delegates would under any circumstances be authorized under 26 U.S.C. 9008(d)

(3), and if so, what the nature of such circumstances would be.

The second question • • • relates to payments to defray expenses of delegates or alternates to the national convention which are made by political committees or groups other than the Democratic National Committee.

State and local party committees have traditionally made funds available to defray expenses of national convention delegates who could not otherwise afford to attend the convention. Such funds may be supplied from the general treasury of such party committees, or may be raised by special events or solicitations conducted solely for this purpose. Certain other membership organizations, such as voluntary political funds, may also undertake to defray expenses of their members who are selected as delegates or alternates to the national convention.

• • • We believe that payments made by party committees or other organizations to defray delegate expenses do not constitute contributions to or expenditures on behalf of the Democratic National Committee. We further believe that any such payments would not be treated as expenditures by the Democratic National Committee. We further believe that any such payments would not be treated as expenditures by the Democratic National Committee subject to the limitation on expenditures provided by 26 U.S.C. 9008(d).

SHELDON S. COHEN.

AOR 1975–92: Incorporation of a Separate Segregated Fund Organization Registered as a Political Committee (Request Edited by the Commission).

Dear Mr. CURTIS: The [American Apparel Manufacturers Political Action Committee (AAMPAC)] which we represent, is a nationwide organization formed to solicit political contributions from individuals and to make contributions to and expenditures on behalf of candidates for Federal office. AAMPAC has filed a statement of registration as required by 2 U.S.C. 433 and files regular reports on its activities with the proper authority. The Committee was organized by the American Apparel Manufacturers Association and has operated, since its formation, as an unincorporated separate segregated fund of the type described in 19 U.S.C. 610.

The trustees of the Committee propose that it be incorporated as a non-profit corporation. If incorporated AAMPAC would continue to operate in the same fashion as heretofore.

On behalf of AAMPAC, we hereby request an advisory opinion, in accordance with 2 U.S.C. 437f, as to the propriety, under the Federal Election Campaign Act of 1971, as amended, of the organization and operation of the Committee as a non-profit corporation. In particular, would the provisions of 18 U.S.C. 610 prohibit the Committee, as a corporation, from contributing funds to the campaign of a candidate for Federal office?

Further, would AAMPAC be required after incorporation to qualify as a new committee for the contribution limits allowed by section 608(b)(2) or would its pre-incorporation status under that section remain applicable?

WEBSTER, KILCULLEN & CHAMBERLAIN,
by Allen P. Bye.

AOR 1975–93: Date When Honorarium Received (Request Edited by the Commission).

Gentlemen: I hereby request an advisory opinion from the Commission regarding the following circumstances:

In 1974, I contracted for a speaking engagement at Chatham College for an honorarium of $2000. The engagement took place, as scheduled, in 1974, but the check in payment of the agreed upon honorarium was not transmitted to me until 1975. (The speech was given on November 16, 1974.)

Section 616 of Title 18, United States Code, prohibits any elected officer of the Federal Goevrnment from accepting any honorarium of more than $1000 and also prohibits the acceptance of honorariums aggregating more than $15,000 in any calendar year. • • •

The specific questions that I wish the Commission to address are:

1. May I accept the full $2000 honorarium without violating section 616?

2. Does this honorarium—whether I properly may accept $1000 or $2000—count against the $15,000 aggregate limit for 1975 established by section 616?

BELLA S. ABZUG.

AOR 1975–94: Payment by Candidate of Out-of-Pocket Costs of Services Provided by Corporation; Use of Typing Services of Corporation Employee (Request Edited and Paraphrased by the Commission).

DEAR SIR: [I request an advisory opinion as to whether the exception from the definition of contributions for "the sale of any food or beverage by a vendor • • •" at cost, would carry over to sales by small corporations, such as a restaurant. • • • would this exception carry over to the corporate prohibition section, so that the sale at cost of a food or beverage to a candidate or a candidate's committee would not constitute a contribution by a corporation in violation of the statutory prohibition? • • • Could a small corporation which owns a restaurant allow a candidate to hold a cocktail party or dinner at the restaurant, so long as the candidate paid the actual out-of-pocket costs of the cocktail party or dinner without such constituting a corporate contribution?]

[I further request an advisory opinion as to] whether the use of equipment, with the candidate or committee paying the actual out-of-pocket for use of that equipment would generally constitute a contribution I [have] in mind specifically the use of an individual's airplane or of loaned typewriters or copying equipment, where the candidate or committee [pays] the costs of fuel and oil and other out-of-pocket costs on the airplane, or the actual costs of typewriter ribbons and supplies for use of the typewriter or copying machine. • • • [Would] such uses of equipment, with corresponding payment of actual out-of-pocket costs of such use (without any allocation of depreciation as a cost) • • • constitute a contribution? • • • If a corporation allowed a candidate or committee to use its typewriters, for example, and the candidate or committee reimbursed the corporation for any actual out of pocket costs, such as ribbons or typewriter supplies, would that constitute a contribution?

Could you also inform me whether a candidate or officer of a committee who is employed by a corporation, and who during normal working hours occasionally has his secretary do typing for the candidate or committee, must allocate any dollar value to such services, and report such as contribution?

• • • • •

AOR 1975–95: Formation by the Colorado Republican State Central Committee of Separate Committees to Receive and Expend Federal and Non-Federal Funds. (Request Edited by the Commission.).

Dear SIR: [the Colorado Republican State Central Committee (CRSCC)] has filed reports with the various supervisory officers since 1972 • • •. The following plan has now been agreed to by the Executive Committee of the CRSCC and [an advisory opinion] is hereby requested [as to whether] such plan will • • • violate the Federal Election Campaign Act of 1971, as amended.

1. The Colorado Republican State Central Committee is legally constituted under the Colorado Statutes as are county central committees and local precinct committees.

2. In the past, CRSCC reported for Federal purposes all funds received and expenditures made as the committee was state-wide and supported Federal, State and local candidates.

3. On June 23, 1975, a new committee, 1976 Legislative Campaign Committee, now known as Colorado Republican Committee (CRC) was registered with the Colorado Secretary of State to engage in state-wide and local political activities. The Committee has a chairman and treasurer, as well as a separate bank account and set of books. Since formation, the CRC has received funds and made expenditures, all of which are for non-Federal campaign purposes. Funds received by the CRSCC in July, 1975 • • • to be used for non-federal purposes. Expenditures for rent, salaries, telephone, etc., were made by CRSCC in July and August • • •. All other expenditures have been made by CRC and all funds have been received by that Committee other than the amount transferred in August. These amounts received and expended by CRC • • • will be used for non-federal purposes.

4. It is anticipated that the remaining cash balance of $3,102.13 now held by the CRSCC will be transferred to CRC prior to December 31, 1975 to be used for non-Federal campaign purposes. It is also anticipated that the December 31, 1975 quarterly report of CRSCC will show no further financial activities, other than the transfer of these funds and/or payment of any debts remaining which were previously incurred by CRSCC. It is further anticipated that the December 31, 1975 quarterly report will be a "termination report" for CRSCC and that the legally constituted committee will not carry on any further financial activities.

5. Before December 31, 1975, it is anticipated that a new Colorado Federal Campaign Committee will be organized to solicit and receive funds for Federal campaign purposes in 1976 and subsequent years. Such committee will have a chairman and treasurer, separate bank account(s) and a separate set of books. CFCC will register with the Federal Election Committee as soon as it is organized. CFCC will only solicit and expend funds in connection with Federal election campaigns and will be required to meet the reporting requirements, receipt and expenditure limitations of the Federal Election Campaign Act of 1971, as amended. The CRC will not be a subordinate committee and will not report to the Federal Election Com-

V 40 213 NOV 4 75 XUM

mittee because it will be solely engaged in non-Federal campaign activities; however, it will report to the Colorado Secretary of State under present Colorado Law, as will the new CFCC and as CRSCC has in the past.

6. The CFCC committee will pay to CRC appropriate charges for rent, utilities, services of bookkeeping, stationery, etc. in the form of a monthly or periodic overhead charge.

• • • it is anticipated the legally constituted Colorado Republican State Central Committee will be a non-financial entity with all financial matters separated between (1) the Colorado Republican Committee, organized for State and local campaign purposes and a non-reporting committee to the Federal Election Commission and (2) the Colorado Federal Campaign Committee, yet to be formed, which will limit itself to Federal election campaigns as far as soliciting and expending funds and will be a reporting committee to the Federal Election Commission. • • •

AOR 1975–96: State Party Committees—Solicitation of Funds for Federal Candidates; Administration Fee; Broad Support Expenditures; Expenditures by District and Local Committees (Request Edited by the Commission)

Dear Mr. CURTIS: As Minnesota's Republican State Finance Chairman I am writing you to clarify the impact of the new Federal laws on our system of raising funds in this state.

I am writing you this letter in order to request an advisory opinion. • • •

• • • • • •

• • • Our State Party has traditionally helped fund the legislative and United States Congressional races as well as using its income to support a central staff, and a staff in the field at the congressional district level.

About 70 percent of the money raised by the State Party (which averages about $900,000 a year) is returned in the form of cash or services to many types of candidates (state, local and federal). Further, all of the funds raised by our State Party are contributed by approximately thirty thousand individual citizens with 80 percent of the total funds being received in amounts less than $100.00 per contributor. • • •

• • • Our party organization has a state central office in St. Paul. Each of the eight congressional districts is working toward having its own "district" office on an autonomous basis, but nonetheless being part of the state's Republican elected organization. Within each of the congressional districts there are either the traditional county organizations, or political sub-divisions based on Minnesota's state legislative boundaries. These county or legislative organizations are also becoming more autonomous, but nonetheless do "report" to the district leadership.

Since we use this three-level organization (state-wide, district, and local unit) to raise funds which are either merged at the state office or retained by the district or local unit, and since these funds can be used for statewide, congressional or local candidate funding, we have some very important questions of clarification as to how we can conform to the new federal laws for those portions of the funds which are used in support of congressional candidates (U.S., House and Senate).

The clarification of these points are important to us since the problem is compounded by the fact that a local Republican block worker, in the process of soliciting contributions, may ask his neighbor for a $30.00 contribution that may be later allocated to three separate levels of political activity (Federal, State and local).

In addition to this normal Republican volunteer fund-raising system, we have created a special volunteer committee to coordinate and encourage all employee political action programs. This committee will probably be called the Minnesota Republican Congressional Fund. Money for this fund will primarily be raised through employee payroll deduction or by solicitation within a company environment, and the individual contributor may often pre-designate personally that the money he is giving will be used only for the Minnesota Republican Congressional Fund. However the State Finance Committee may hold these designated funds in escrow until the Federal candidates actually need them. We would clearly be obligated to spend an amount equal to the amount received, although we anticipate there will be a modest fee of about 10 percent for administration which would allow us to file reports, keep required records and mail appropriate receipts.

• • • • • •

1. Can Republican Volunteers solicit checks from employees or Employee Political Action Committees within a company's premises if the contributions are designated for Federal congressional support only?

2. Can the State Committee hold these designated funds in escrow until the Federal candidates actually need the funds, and charge a 10 percent fee for administration?

3. Can the State Committee spend these escrowed funds without limit in broad support of all Republican congressional candidates in Minnesota in either the primary or the general elections (i.e., for sample ballots or state-wide advertising sponsoring three or more Federal candidates)?

4. Can the State Committee spend these escrowed funds in behalf of each Republican congressional candidate to the extent of $10,000 in both the primary and the general elections under the qualification of "other committee"? These "independent congressional district committees" are already functioning and may hold district fund-raising events independent of state-wide fund raising programs.

6. Can one or more county volunteer committees or separate local sub-divisions from within that same congressional district make a $5,000 contribution in both the primary and the general elections to the same congressional candidate, which would be in addition to the state-wide committee's contribution and to the congressional district committee's contributions (above)?

7. When all of these above points are clarified and the committees which would be permitted under Federal law to give the amounts specified to House candidates, what would be the comparable amounts that could be given by these same committees in support of the United States Senate candidate?

• • • • • •

R. L. MCELHENY,
Chairman, Minnesota Republican Finance Committee.

AOR 1975–97: Volunteered Services of Entertainer for Campaign Fundraiser; Attribution of Entertainer's Travel Expenses (Request Edited by the Commission).

GENTLEMEN: Our campaign is planning a fund-raising event to be held on November 8. This event would be built around the performance of a well-known entertainer.

Assuming the entertainer is willing to donate his time and talent how do we handle this contribution under the new law? Is it proper to list only his out-of-pocket expenses, such as travel, hotel, food, as his campaign contribution?

Would this amount then be the amount included in the cost for purposes of determining how much of the price of the ticket should be listed as a campaign contribution by the person who purchases it? For example, if the cost of hiring a hall and paying the entertainer's expenses adds up to $3 per ticket and we sell the ticket for $10 is it assumed that the person who buys the ticket is making a campaign contribution in the amount of $7?

PART IV:

CONSUMER PRODUCT SAFETY COMMISSION

■

MEETINGS; ADVANCE PUBLIC NOTICE, PUBLIC ATTENDANCE, AND RECORDKEEPING

V 40 213
NOV 4 75
XUM

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER A—GENERAL

PART 1001—ADMINISTRATION, PRACTICES, AND PROCEDURES

Procedural Policy on Meetings, Prior Public Notice, and Records of Proceedings; Deletion

The Consumer Product Safety Commission hereby deletes § 1001.60 of Title 16, Code of Federal Regulations, Part 1001 because, elsewhere in the FEDERAL REGISTER today, the Commission has published 16 CFR Part 1012, "Meetings: Advance Public Notice, Public Attendance, and Recordkeeping." Section 1001-.60 is therefore obsolete.

Dated: October 29, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.75-29517 Filed 11-3-75;8:45 am]

PART 1001—ADMINISTRATION, PRACTICES, AND PROCEDURES

PART 1012—MEETINGS: ADVANCE PUBLIC NOTICE, PUBLIC ATTENDANCE, AND RECORDKEEPING

Adoption of Meetings Policy

The purpose of this document is to promulgate the policy set forth below regarding requirements of the Consumer Product Safety Commission (CPSC) for advance public notice, public attendance, and records for meetings that are of substantial interest involving Commissioners and/or CPSC staff and outside parties. In developing a meetings policy, the Consumer Product Safety Commission has followed the principle that the public interest is best served when regulatory affairs are open to the fullest extent practicable. To that end, meetings and records will be open to the public unless they fall within exceptions required by law or established in this policy.

The Commission has explicitly detailed its requirements for advance public notice and its requirements that the public be permitted to attend meetings of substantial interest in order to make clear the conditions and exceptions that exist relative to this policy. In addition to the specified exceptions, the Commission acknowledges that extraordinary circumstances arise which might require either that advance notice cannot be given or that a meeting be closed or both. To ensure that no one claims the existence of such extraordinary circumstances without justification, the policy set forth below requires: (1) Approval from the Chairman whenever CPSC staff, other than personal staff of Commissioners, believe it necessary to hold or attend a meeting of substantial interest to the public without giving the advance public notice specified in §§ 1012.3, and 1012.4(c)(1) of this part and (2) approval from a majority of the Commission whenever CPSC staff, other than personal staff of Commissioners, believe it necessary to hold or attend a closed meeting of substantial interest.

BACKGROUND

In the FEDERAL REGISTER of October 24, 1974 (39 FR 37780), the Consumer Product Safety Commission proposed an interim and amended procedures policy (16 CFR 1001.60 through 1001.67) regarding public notification and disclosure of meetings to serve as its interim policy until finalized. Previously, on October 1, 1973 (38 FR 27214), the Commission had promulgated 16 CFR 1001.60 prescribing a basic procedural policy for meetings, prior public notice, and records of proceedings.

With the expansion of the material for procedural policy on meetings proposed October 24, 1974, from 16 CFR 1001.60 into 16 CFR 1001.60 through 1001.67, the material became an appropriate size and nature to constitute a part. Thus, the material is adopted below as 16 CFR Part 1012.

RESPONSE TO PROPOSAL

In response to the proposal of October 24, 1974, 16 comments were received from interested parties, including the Chemical Specialties Manufacturers Association, Inc.; Consumer Electronic Group of the Electronic Industries Association; the National Cash Register Co.; Glass Container Manuufacturers Institute; Power Tool Institute; J. I. Case; Walker Manufacturing Co.; Thomas K. Wilka, Public Interest Seminar, Georgetown University Law Center; Allen S. Saeks, consumer representative, Product Safety Advisory Council, Consumer Product Safety Commission; a consumer; and members of the CPSC staff reflecting experience with implementation of the proposal.

Two of the comments supported the proposal as published. The main issues raised in the remainder of the comments and the Commission's conclusions thereon are as follows:

1. *Definitions*—a. *Meeting.* Regarding proposed 16 CFR 1001.61(d) CPSC staff point out that the definition is too broad and ask for clarification and specificity.

The Commission believes the policy clearly indicates that the Commission does not intend that any everyday encounter of its staff with the public constitutes a "meeting" that would be of public interest. However, the Commission does not intend that substantive discussions between staff and the public not be construed as a meeting simply because they are held in a nonbusiness environment.

The Commission therefore has decided that "meeting" does not need to be redefined.

b. *Outside party.* Regarding proposed 16 CFR 1001.61(e), one industry comment suggests that in the definition of "outside party," the exemption of news media and not of all persons when they are acting in a news-gathering capacity is discriminatory. Another industry comment predicts that members of the news media will meet privately with Commission employees for news-gathering purposes and requests that industry representatives be allowed to attend.

The Commission believes that the public interest is best served when regulatory affairs are open to the fullest extent practicable. To that end, the Commission opens all its meetings to the public whenever possible. Since all interested persons are not able to attend these meetings, the Commission believes that the news media will make important aspects of the proceedings public knowledge. Consequently, the public will learn of Commission activities and be more able to assist the Commission in the goal of reducing the risks of injury associated with consumer products.

The Commission also recognizes that media may meet privately with Commission staff for news gathering. The Commission intended that the exemption provided for such meetings with the media should not be used to exclude any member of the public from attending. The term "news media" is intended by the Commission to include trade press. Therefore, the Commission declines to adopt the suggested changes.

An advisory council member contends that the definition does not make clear whether an individual member of a CPSC advisory council meeting with a Commissioner to discuss a substantial interest matter is an outside party. Another comment states that it is not clear whether an offeror, preparing a standard for CPSC, is a contractor or an outside party.

The Commission concludes that when advisory council members and offeror personnel are not acting in an official capacity, they are outside parties. Therefore, the definition at 16 CFR 1012.2(e) has been changed to clarify this matter.

A consumer comments that the definition of outside party is vague and dangerous because there is no definition of "inside party." The consumer asks about the status of people under contract who do work for the Commission. The Commission considers it unnecessary to define "inside party" because it has defined "outside party." The Commission considers contractors doing work for the Commission as not being within the scope of outside parties, therefore § 1001.63(c)(4)(i)(f) of the interim policy has been omitted for clarity, although 16 CFR 1012.2(e) has not been changed because contractors were specifically excluded from the term "outside party" in the interim policy.

c. *Substantial interest matter.* One individual's comment suggests redefining the term "substantial interest matter" in proposed 16 CFR 1001.61(f) to include any topic of discussion between CPSC staff or Commissioners and a party potentially subject to CPSC regulatory action and suggests requiring advance notice and a meeting summary for all meetings between CPSC personnel and an "outside party" as defined in proposed 16 CFR 1001.61(e).

The Commission believes that it is unnecessary to require advance notice for meetings between CPSC employees and "outside parties" where nonsubstantial interest matters are discussed because such meetings are of minimal interest to the public. However, as indicated in § 1012.4(c)(1)(ii)(A) of this policy, such meetings are to be listed in advance on the public calendar where the public interest would be served.

Another comment from an individual points out that this definition includes more than pending matters and asks if this broad definition is intentional. The commenter is correct. The Commission intends that the definition of "substantial interest matter" be broad to ensure that meetings of substantial public interest be announced in advance and open to the public, when possible.

One industry and three staff comments urge the Commission to clarify the definition and/or expand the list of examples of meetings and activities that are not substantial matters. Although the Commission believes that the definition of "substantial interest" contained in the interim policy is sufficiently clear, additional examples of matters that are, and that are not, substantial interest matters have been included.

2. *Advance public notice.* A staff comment questions whether advance notice and meeting summaries are required for speeches given before outside parties.

The Commission concludes that speeches generally do not meet the definitions of substantial interest matters since they generally convey information about the status of matters before the Commission and do no involve significant discussion about such matters. However, the Commission encourages the staff to list notices of upcoming speeches in the public calendar for informational purposes. The regulation (16 CFR 1012.4(c)(1)(ii)(F) below) has been revised accordingly.

An industry comment urges the Commission to consider providing a period of overlap when the interim meetings policy is finalized during which the Commission's day-to-day meeting activities would be published in the FEDERAL REGISTER in addition to being listed in the public calendar.

The Commission has not used the FEDERAL REGISTER for the above purposes since October 1974, and provides the CPSC's public calendar regularly and free of charge to all those who request it. The Commission therefore concludes that the suggested accommodation is unnecessary.

The regulation (16 CFR 1012.3 below) accordingly has not been changed in this regard.

3. *Location of meetings between CPSC and outside parties.* Regarding proposed 16 CFR 1001.63(c), a comment suggests that the regulation would be more comprehensive if the requirements for meetings between Commissioners or CPSC staff and outside parties applied not only to meetings at CPSC premises and at the premises of outside parties, but also to other locations at which the Commissioners or CPSC staff would likely meet with outside parties.

The Commission intended the Regulations to cover such meetings. The regulations (16 CFR 1012.4(c) and 1012.3(a)(1) below) has been changed accordingly to clarify that it includes meetings between Commissioners or CPSC staff and outside parties at any location.

4. *Notice and public attendance requirements for section 15(b) notifications*—a. *Initial notifications.* Regarding proposed 16 CFR 1001.63(c)(1)(i)(b), an individual commenter objects to the exemption of initial section 15(b) notifications from the advance notice and open-meetings requirements.

The Commission finds that advance notice of and public attendance at meetings involving initial section 15(b) notifications would be impossible because with many initial notifications under section 15(b) of the Consumer Product Safety Act it is necessary for the CPSC staff to act immediately upon the notification in the interest of public safety. Also, exempting the initial notification will protect from adverse publicity parties who report possible hazards which, upon investigation, turn out not to require CPSC action. Subsequent meetings and negotiations, however, are not excepted from the notice requirement. The regulation (16 CFR 1012.4(c)(1)(ii)(B) below) has been revised to so state, but 16 CFR 1012.4(c)(2)(ii)(C) has not been changed.

b. *Subsequent meetings.* Regarding proposed 16 CFR 1001.63(c)(1)(i)(b), an individual commenter suggests that the exemption from advance notice and open-meeting requirements not be limited to meetings involving initial section 15(b) notifications. The commenter contends that the meetings following the initial section 15(b) notification meeting also require frank negotiations without the defensiveness and caution likely to be generated by the presence of outsiders. Another commenter believes subsequent meetings should be closed to the public because confidential information or trade secrets might be discussed.

The Commission believes that the suggested changes would be inappropriate since the intent of the regulation is to give public notice on substantial interest matters whenever practical. Since negotiations leading to the settlement of cases are open, the public should be given advance notice of such negotiations. The Commission will give all interested persons the opportunity to observe its regulatory affairs and exempts initial 15(b) notifications in the interest of speed and to permit frank exploratory reporting and discussion that may take place at that time. In addition, § 1012.4(c)(2)(ii)(A), already provides that portions of meetings at which proprietary data are to be discussed in a manner as to imperil their confidentiality are not open to the public. Accordingly the suggestion is not adopted.

5. *Attendance by the public*—a. *Proprietary data.* Regarding proposed 16 CFR 1001.63(c)(4)(i)(a), which provides for closed meetings to protect the confidentiality of proprietary data, a comment of an individual states that the concept of "proprietary data" is much broader than that of a trade secret and other material protected by law. The comment contends that unless the term "proprietary data" is defined in the regulation, the public could be excluded from many meetings.

The Commission recognizes that the term "proprietary data" may encompass various materials protected by law, including trade secrets. The Commission directs that its Office of the General Counsel shall determine whether materials are proprietary data and thereby fall within exceptions of the law or the subject regulation. The policy (16 CFR 1012.4(c)(2)(ii)(A) below) has been changed accordingly.

b. *Lack of space.* Regarding proposed § 1001.63(c)(4)(i)(b), a consumer objects to permitting a meeting, open to the press or other news media, to be otherwise closed due to lack of space. The commenter suggests that many meetings involving substantial interest matters could easily be closed to interested consumers by simply claiming there is room only for the press and news media.

The Commission when accepting invitations, requests that every effort be made to accommodate observers and when space is limited the public can be informed of details of the meeting by members of the press and media. The regulation (16 CFR 1012.4(c)(2)(ii)(B) below) therefore has not been changed.

c. *Initial section 15(b) notifications.* Regarding proposed 16 CFR 1001.63(c)(4)(i)(c), which provides for a closed first meeting dealing with initial 15(b) notifications, an industry comment suggests a definition be provided for the term "initial notification."

"Initial notification" is defined by the Commission's section 15(b) policy found at 16 CFR 1115. The Commission finds that open meetings involving initial section 15(b) notifications would be impossible because with many initial notifications under section 15(b) of the Consumer Product Safety Act it is necessary for the CPSC staff to act immediately upon the notification in the interest of public safety. Also, exempting the initial notification will protect manufacturers who may report potential possible hazards which will later turn out not to require CPSC action from injuring their business because of adverse publicity. Accordingly, the regulation (16 CFR 1012.4(c)(2)(ii)(C) below) has not been changed.

d. *Negotiations for settlement.* Proposed 16 CFR 1001.63(c)(4)(i)(d) provides for closed meetings held during the normal course of field surveillance, inspection, or investigation of a person or company, but not for negotiations leading to settlement of individual cases. The closed meetings are necessary for efficient enforcement of the Acts the Commission administers and to maintain the confidentiality of proprietary data such as formulations, design specifications and other information that could work to eliminate the firms' competitive advantage if disclosed to the public. Two

V 40 213 NOV 4 75 XUM

industry commenters suggest that the regulation be revised to exclude the public from the settlement negotiations. An industry commenter objects to public access to negotiations for settlement on the basis of imperiling the confidentiality of data and because the public presence would hamstring productive settlement discussion where offers may be held against the parties if the settlement does not work out.

The Commission believes that the right of the public to attend negotiations leading to the settlement of any case will not imperil the confidentiality of proprietary data because under 16 CFR 1012.4(c)(2)(ii)(A) the Office of the General Counsel will determine whether proprietary data will be discussed in such a manner as to imperil their confidentiality. Also, the Commission concludes that the concern that negotiations may be hamstrung is overridden by the need to have the public fully informed as to how and why settlements are reached. Therefore, the subject regulation (16 CFR 1012.4(c)(2)(ii)(D) below) has not been changed as suggested.

e. *Meetings with other government officials.* Regarding proposed 16 CFR 1001.63(c)(4)(i)(e), which provides for closed meetings held with other government agency officials when they request a closed meeting and when the CPSC employee involved finds that extraordinary circumstances so warrant, an individual commenter contends that the test of "extraordinary circumstances" does not delineate a clearly and narrowly drawn exception to the open meetings policy. Similarly, another individual commenter objects to such an exception in any "openness" policy. Several staff comments ask that specific meetings with other government agencies be exempt from the openness requirements.

The Commission believes that close working relationships are required with other government agencies be exempt federal, that often approximate the working relationship among members of CPSC's own staff. While it is the intent of the Commission to give public notice and open to the public all such meetings that it can, it recognizes that it is not practical to open meetings when the other agency requests that they be closed to protect the confidentiality of its information, when cooperative efforts of emergencies require meetings that cannot be anticipated, or when a CPSC or other agency position could be compromised. The regulation (16 CFR 1012.4(c)(2)(ii) below) has been changed in order to clarify these matters.

f. *Meetings between CPSC staff and outside parties.* Proposed 16 CFR 1001.63(c)(4)(i)(g) provides that a meeting between agency staff (other than Commissioners and their personal staff) and an outside party may be closed if a majority vote of the Commission determines that extraordinary circumstances so require and the reasons therefor are detailed in the public calendar. An industry commenter objects to the requirements that these reasons be detailed in the public calendar and suggests instead that the reasons be given in the public calendar in appropriate general terms. An individual commenter suggests that a test of "extraordinary circumstances" that delineates a clearly and narrowly drawn exception should be added.

The Commission does not agree with these suggestions. The Commission also finds no validity in one commenter's contention that it may be as damaging to a manufacturer as conducting an open meeting if the reasons for closing the meeting are detailed in the public calendar. For example, if the meeting is closed in order for a corporation to seek the views of CPSC staff with respect to the safety of a product, a short statement to this effect should not be damaging. The Commission believes it is able to determine on a case by case basis whether extraordinary circumstances warrant a closed meeting and therefore declines to change this requirement.

The regulation (16 CFR 1012.4(c)(2)(ii)(F) below) has, therefore, not been changed.

g. *Meetings between Commissioners and outside parties.* Proposed 16 CFR 1001.63(c)(4)(i)(h), permits a meeting between a Commissioner or his or her personal staff, and an outside party to be closed if the Commissioner finds that extraordinary circumstances so require and the reasons therefor are detailed in the public calendar. One industry comment suggests that the reasons be given in appropriate general rather than detailed terms in the public calendar.

For the reasons set forth in the previous paragraph of this Preamble, the Commission does not agree with the commenter's suggestion. The regulation (16 CFR 1012.4(c)(2)(ii)(G) below) has therefore has not been changed.

6. *Meeting summaries.* Regarding proposed 16 CFR 1001.64(a), which prescribes requirements for meeting summaries, one industry comment suggests that summaries of closed meetings be kept confidential. One industry and one staff comment suggest not requiring that summaries of authorized closed meetings be made available to the public.

The Commission intends that the regulation not require meeting summaries of closed meetings or portions of meetings that are closed to contain any proprietary data or information otherwise protected by law from disclosure to the public.

An industry commenter suggests that outside parties participating in open meetings be given an opportunity to review and comment on the meeting summary before it becomes part of the public record. He also suggested that meeting participants be permitted to submit their own meeting summary for the public record when they disagree with the Commission's meeting summary.

The Commission believes the suggested provisions unnecessary since all members of the public have the opportunity to communicate in writing with the Commission on matters before it and such correspondence becomes a part of the Commission's public record. Accordingly, the regulation (16 CFR 1012.5(a) below) has not been changed.

7. *News media.* Proposed 16 CFR 1001.65 exempts the news media from the meetings policy requirements when meeting with Commission representatives to be informed of Commission activities. An industry comment complains that parties with a direct interest in a specific matter pending before the Commission should be informed about a decision by the Commission rather than by the news media.

The Commission agrees with this comment and will attempt to ensure that the Commission notifies a party with a direct interest in a Commission decision immediately after the decision is rendered.

Another industry comment suggests deleting from the regulation the exemption of the news media from the requirements of the meetings policy.

For reasons discussed under 1.b of this Preamble (exempting the news media from the definition of outside party) the Commission does not agree. The regulation (16 CFR 1012.6 below) therefore has not been changed to delete the exemption as suggested.

A third industry comment asks if the public will be excluded from planned interviews and briefings between the Commissioners, the staff, and the news media.

The Commission does not intend to exclude the public from planned briefings between the Commissioners and the news media, for reasons given in 1.b of this Preamble.

8. *Telephone conversations.* Regarding proposed 1 CFR 1001.66, which prescribes the meetings policy requirements on telephone conversations, an industry commenter suggests the regulations should be revised to eliminate the requirement that summaries of telephone conversations be made available to the public in cases where closed meetings are authorized.

The Commission believes that it is important that summaries of all meetings and telephone conversations involving substantial interest matters be available to the public. However, this meetings policy does not require summaries to contain any proprietary data or information otherwise protected by law from disclosure to the public. Therefore the regulation (16 CFR 1012.7 below) is not changed to adopt this suggestion.

Another industry commenter contends that a participating outside party should be permitted to review and comment on any summary of a telephone conversation before the summary is incorporated in the record.

The Commission finds such permission unnecessary because all members of the public have the opportunity to communicate in writing with the Commission on matters before it and such correspondence becomes a part of the Commission's public record.

An industry commenter suggests that proposed 16 CFR 1001.66(b) be modified so that it will not discourage the use of CPSC as a source of information.

The Commission does not intend nor expect the regulation to interfere with the availability of CPSC staff to discuss informational matters over the telephone. The regulation (16 CFR 1012.7 below) is thought to permit this exchange and is not changed.

In addition to the changes specified above, various portions of the proposed regulation have been changed for clarification.

Having considered the proposal, the comments received, and other relevant material, the Commission concludes that the proposed regulations, changed as described above, shall be promulgated as set forth below.

Accordingly, pursuant to provisions of the Consumer Product Safety Act (15 U.S.C. 2051–81), the Federal Hazardous Substances Act (15 U.S.C. 1261–74), the Flammable Fabrics Act (15 U.S.C. 1191–1204), the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471–76), and the Refrigerator Safety Act (15 U.S.C. 1211–14), Title 16, Chapter II, Subchapter A, is amended by:

§ 1001.60 [Deleted]

1. Deleting § 1001.60
2. Adding a new Part 1012 as follows:

Sec.

1012.1 General policy considerations.
1012.2 Definitions.
1012.3 Forms of advance public notice of meetings; public calendar and FEDERAL REGISTER.
1012.4 Types of meetings; requirements for advance public notice and attendance by the public.
1012.5 Recordkeeping categories.
1012.6 The news media.
1012.7 Telephone conversations.
1012.8 Chart summary of meetings policy.

AUTHORITY: Consumer Product Safety Act (15 U.S.C. 2051–81), the Federal Hazardous Substances Act (15 U.S.C. 1261–1274), the Flammable Fabrics Act (15 U.SC. 1191–1204), the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471–76), and the Refrigerator Safety Act (15 U.S.C. 1211–14).

§ 1012.1 General policy considerations.

(a) In order for the Consumer Product Safety Commission to properly carry out its mandate to protect the public from unreasonable risks of injury associated with consumer products, the Commission must involve the public to the fullest possible extent in its activities.

(b) To guarantee public confidence in the integrity of its decisionmaking, the Commission must, to the fullest possible extent, conduct its business in an open manner which is free from any actual or apparent impropriety.

(c) To achieve the goals set forth in paragraphs (a) and (b) of this section, the Commission believes that, wherever practicable, it should notify the public in advance of all meetings involving matters of substantial interest held or attended by its personnel and permit the public to attend such meetings. Furthermore, to ensure the widest possible exposure of the details of such meetings, the Commission should keep records of them which are freely available for inspection by the public.

§ 1012.2 Definitions.

As used in this Part 1012, the following words shall have the meanings set forth:

(a) *Agency.* The entire organization which bears the title Consumer Product Safety Commission.

(b) *Agency staff.* Employees of the Agency other than the five Commissioners.

(c) *Commission.* The five Commissioners of the Consumer Product Safety Commission acting in an official capacity.

(d) *Meeting.* Any face-to-face encounter in which one or more employees, including Commissioners, of the Agency discuss any subject relating to the Agency or any subject under its jurisdiction.

(e) *Outside party.* Any person not an employee, not under contract to do work for the Agency, or not acting in an official capacity as a consultant to the Consumer Product Safety Commission, such as advisory committee members or offeror personnel. Examples of persons falling within this definition are representatives from industry, consumer groups and government. Members of the news media are not considered to be outside parties when acting in a newsgathering capacity. (See also § 1012.6.)

(f) *Substantial interest matter.* Any matter, other than that of a trivial nature, that pertains in whole or in part to any issue that is likely to be the subject of a regulatory or policy decision by the Commission. Pending matters, i.e., matters before the Agency in which the Agency is legally obligated to make a decision, automatically constitute substantial interest matters. Examples of pending matters are: scheduled administrative hearings; matters published for public comment; petitions under consideration; and mandatory standard development activities. The following examples do not constitute substantial interest matters: data collection; inquiries concerning the status of a pending matter; discussions relative to general interpretations of existing laws, rules, and regulations; inspection of non-confidential CPSC documents by the public; negotiations for contractual services; and routine CPSC activities such as recruitment, training, meetings involving consumer deputies, or meetings with hospital staff and other personnel involved in the National Electronic Injury Surveillance System.

§ 1012.3 Forms of advance public notice of meetings: public calendar and Federal Register.

Advance notice of Agency activities is provided to the public so that it may know of and participate in these activities to the fullest extent possible. The following two types of notices are utilized by the Agency.

(a) *Public calendar.* (1) The printed public calendar is the principal means by which the Agency notifies the public of its day-to-day activities. The public calendar provides advance notice of public hearings, Commission meetings, meetings with outside parties involving substantial interest matters, selected staff meetings, Advisory Committee meetings, and other events such as speeches, and participation in panel discussions, regardless of the location. The public calendar also lists recent CPSC FEDERAL REGISTER issuances and Advisory Opinions of the Office of the General Counsel.

(2) Upon request in writing to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, any person or organization will be sent the public calendar on a regular basis free of charge. In addition, interested persons may contact the Office of the Secretary to obtain information from a master calendar kept current on a daily basis.

(3) The master calendar, supplemented by meeting summaries, is intended to serve the requirements of section 27(j)(8) of the Consumer Product Safety Act.

(4) Commissioners and Agency staff are responsible for reporting meeting arrangements to the Office of the Secretary so that they may be published in the printed public calendar at least seven days before a meeting, except as provided in § 1012.4(c)(1). Such reports shall include the following information:

(i) Probable participants and their affiliations;

(ii) Date, time and place of the meeting;

(iii) Subject of the meeting (as fully and precisely designated as possible);

(iv) Who requested the meeting;

(v) Whether the meeting involves matters of substantial interest;

(vi) Notice that the meeting is open or reason why the meeting or any portion of the meeting is closed (e.g., discussion of trade secrets); and

(vii) Name and telephone number of the CPSC host or contact person.

(b) *Federal Register.* The FEDERAL REGISTER is the publication through which official notifications, including formal rules and regulations of the Agency, are made. Because the public calendar is the primary device through which the Agency notifies the public of its routine, daily activities, the FEDERAL REGISTER will be utilized only when required by law or when the Agency believes that the additional coverage it can provide is necessary to assist in notification to the public of important meetings.

§ 1012.4 Types of meetings: requirements for advance public notice and attendance by the public.

For the purpose of implementing the Agency's meeting policy, meetings which involve Agency staff or the Commissioners shall be classified in the following categories, and shall be held according to the procedures outlined within each category.

(a) *Hearings.* Hearings are public inquiries held by direction of the Commission for the purpose of fact finding or to comply with statutory requirements. The Office of the Secretary is responsible for providing transcription services at the hearings. Where possible, notice of forthcoming hearings will be published in the public calendar and the FEDERAL REGIS-

V 40 N 213 NOV 4 75 XUM

TER at least 30 days before the date of said hearings.

(b) *Meetings of the Commission.* Meetings of the Commission are held for the purpose of conducting the formal business of the Agency including the rendering of official decisions, and for the gathering of information by the Commission. Such meetings may be of the following types:

(1) *Executive sessions.* Executive Sessions are sessions at which policy and regulatory decisions are made by the Commission. They are attended solely by the Commissioners and are held by majority vote of the Commission and without advance notice. Formal minutes are the responsibility of the Commission.

(2) *Closed sessions.* Closed sessions are generally attended only by the Commissioners and members of the Agency staff. Closed sessions may be held at the direction of a majority vote of the Commission and without prior notice. The Office of the Secretary is responsible for the minutes.

(3) *Open sessions.* Open sessions are attended by the Commissioners, the Agency staff, and any other individual or group desiring to observe. Active participation of the public at these meetings is at the discretion of the Commission. Members of the public desiring to attend an open session are encouraged to contact the Office of the Secretary at least one day prior to the meeting. Notice of an open session will usually be furnished through the public calendar at least seven days prior to the session. The Office of the Secretary is responsible for the minutes.

(c) *Meetings between commissioners or agency staff and outside parties.* The following requirements shall apply to meetings between Commissioners or Agency staff and outside parties whether hosted or attended at Agency premises or at the premises of outside parties, or at any other location:

(1) *Notice.* (i) (A) Notice of meetings with outside parties involving substantial interest matters shall be published in the public calendar at least 7 days in advance of the meeting. Any Agency employee planning to host or attend such a meeting must notify the Office of the Secretary as provided in § 1012.3(a)(4). Once notification has been made, Commission employees subsequently desiring to attend the meeting need not notify the Office of the Secretary.

(B) When there is no opportunity to give 7 days advance notice of a meeting, Agency staff (other than the personal staff of Commissioners) who desire to hold or attend such meeting must obtain the approval of the Office of the Chairman. Personal staff of Commissioners must obtain the approval of their respective Commissioners. If such approval is obtained, the Office of the Secretary must be notified in advance of the meeting to record the meeting on the master calendar. The Office of the Secretary shall publish notice of the meeting as an addendum to the succeeding public calendar. Because it could unduly compromise the independence of individual Commissioners, they need not obtain the permission of the Chairman to hold or attend an emergency unscheduled meeting. Listing of the meeting in the master calendar is still required.

(ii) *Exceptions.* The notice requirement shall not apply to:

(A) Meetings with outside parties not involving substantial interest matters (although such meetings should be listed where the public interest would be served).

(B) Initial notifications pursuant to section 15(b) of the Consumer Product Safety Act, however, subsequent meetings are not excepted from the notice requirement.

(C) Meetings held during the normal course of field surveillance, inspection or investigation of a person or company, including informal citation hearings under the Federal Hazardous Substances Act or the Poison Prevention Packaging Act. However, advance notice is required for any negotiations leading to settlement of individual cases.

(D) Discussions with, or at the request of, members of Congress and their staffs, or the Office of Management and Budget relating to legislation or appropriation matters.

(E) Meetings with Department of Justice employees regarding litigation matters.

(F) Routine speeches given by CPSC personnel before outside parties. However, personnel are encouraged to submit advance notice of these speeches to the Office of the Secretary for inclusion in the public calendar, for information purposes.

(2) *Attendance by the public.* (i) Any person or organization may attend any meeting listed in the master calendar unless that meeting has been listed as a closed meeting. Generally, all meetings between Agency employees and outside parties are open to the public for the purpose of observation or participation, subject only to space limitations. Participation by the public may be permitted by the meeting chairperson. When feasible, a person or organization desiring to attend should give at least one day advance notice to the employee holding or attending such meeting.

(ii) The following meetings are not open to the public:

(A) Meetings, or, if possible, portions of meetings where the Office of the General Counsel has determined that proprietary data are to be discussed in such a manner as to imperil their confidentiality.

(B) Meetings held by outside parties at which limits on attendance are imposed by lack of space need not be open: *Provided,* That such meetings are open to the press or other news media.

(C) Initial notifications pursuant to section 15(b) of the Consumer Product Safety Act. All subsequent meetings shall be open to the public.

(D) Meetings held during the normal course of field surveillance, inspection, or investigation of a person or company, including informal citation hearings under the Federal Hazardous Substances Act or the Poison Prevention Packaging Act. However, the public may attend any negotiations leading to settlement of individual cases.

(E) Meetings held with other government officials when they request that the meeting be closed, and, in the opinion of the Agency employees, extraordinary circumstances warrant closing the meeting.

(F) Meetings between Agency staff (other than Commissioners and their personal staff) and an outside party, when, by majority vote of the Commission, it is determined that extraordinary circumstances require that the meeting be closed. In such a case, the reasons for closing the meeting or a portion of the meeting shall be detailed in the public calendar.

(G) Meetings between a Commissioner, his or her personal staff, and an outside party, when in the opinion of the Commissioner extraordinary circumstances require that the meeting be closed. In such a case, the reasons for closing the meeting or a portion of the meeting shall be detailed in the public calendar.

(H) Discussions with members of Congress and their staffs or the Office of Management and Budget relating to legislation or appropriation matters.

(I) Meetings with Department of Justice employees regarding litigation matters.

(3) *Recordkeeping.* Any Commission employee who holds or attends a meeting involving a substantial interest matter must prepare a meeting summary as described in § 1012.5(a). However, only one meeting summary is required for each meeting, even if more than one CPSC employee holds or attends the meeting.

(d) *Staff meetings.* Staff meetings are attended only by members of the Agency as a general rule. At the discretion of the participants, such meetings may be listed on the public calendar and attendance by the public may be permitted. Recordkeeping is at the discretion of the participants.

(e) *Advisory committee meetings.* Meetings of the Agency's advisory committees are scheduled by the Commission. Notice will be given in both the public calendar and the FEDERAL REGISTER. Advisory committee meetings serve as a forum for discussion of matters relevant to the Agency's statutory responsibility with the objective of providing advice and recommendations to the Commission. The Agency's advisory committees are the National Advisory Committee for the Flammable Fabrics Act, the Product Safety Advisory Council, and the Technical Advisory Committee on Poison Prevention Packaging. The Office of the Secretary is responsible for the recordkeeping for such meetings. All meetings of advisory committees are open to the public except as provided in the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 7770; 5 U.S.C. App. I (Supp. I 1974) and the Commission regulations under that Act (16 CFR Part 1018; 40 FR 43886, September 24, 1975)).

§ 1012.5 Recordkeeping categories.

Depending on the type and purpose of meetings, different kinds of recordkeeping are appropriate. The following is a list of the types of and requirements for the three categories of recordkeeping utilized by the Agency.

(a) *Meeting summaries.* (1) Meeting summaries are written records setting forth the issues discussed at all meetings with outside parties involving substantial interest matters. A meeting summary should detail the essence of all substantive matters relevant to the Agency, especially any matter discussed which was not listed on the public calendar and should describe any decisions made or conclusions reached regarding substantial interest matters. A summary should also indicate the date and the identity of persons at the meeting.

(2) A meeting summary or a notice of cancellation of the meeting, must be submitted to the Office of the Secretary, as described in § 1012.4(c)(3) within twenty (20) days after the meeting for which the summary is required. The Office of the Secretary shall maintain a public file of the meeting summaries in chronological order.

(b) *Commission minutes.* (1) Commission minutes document the decisions of the Commission. Minutes may be taken verbatim when necessary or desirable and may include attachments such as Commission opinions, briefing papers, or other documents presented at the meeting.

(2) Minutes recorded at executive session are subject to the final approval of the Commission. The Commission's final minutes constitute the official means of recording the decisions of the Commission and the votes of the individual Commissioners when filed with the Office of the Secretary.

(c) *Transcripts.* A transcript is a verbatim record of a meeting. Transcript records may include exhibits submitted to be part of the formal record of a meeting. Transcripts are generally taken at public hearings and certain public meetings when complex subjects indicate verbatim records are desirable. Copies of transcripts are placed on file for public inspection in the Office of the Secretary.

§ 1012.6 The news media.

The Agency recognizes that the news media occupy a unique position relative to informing the public of the activities of the Agency. It is believed that the inherently public nature of the news media requires that their activities be exempt from the requirements of this meetings policy whenever meetings are held with the news media for the purpose of informing them about Agency activities. Such meetings are not exempt in the event that any representative of the news media attempts to influence any Agency employee on a substantial interest matter.

§ 1012.7 Telephone conversations.

Telephone conversations present special problems regarding this meetings policy. It is recognized that persons outside the Agency have a legitimate right to information and to present their views regarding Agency activities. It is further recognized that such persons may not have the financial means to travel to meet with Agency employees. However, because telephone conversations, by their very nature, are not susceptible to attendance or participation by the public, care must be taken to ensure that they are not utilized to circumvent the meetings policy. Two basic rules apply to telephone conversations:

(a) Any telephone conversation in which substantial interest matters are discussed with outside parties must be detailed in a meeting summary which meets the requirements of § 1012.5(a)(1). A summary detailing telephone conversations must be submitted by the CPSC employee involved to the Office of the Secretary within 20 days after the telephone call for which a summary is required. The Office of the Secretary shall maintain a public file of telephone call summaries in chronological order.

(b) All Agency personnel must exercise sound judgment in discussing substantial interest matters during a telephone conversation and in the exercise of such discretion, should not hesitate to terminate a telephone conversation and insist that the matters being discussed be postponed until a meeting with appropriate advance public notice may be scheduled or until the matter is presented to the Agency in writing if the outside party is financially or otherwise unable to meet with the Agency employee.

§ 1012.8 Chart summary of meetings policy.

The following is a chart summary of the meetings policy contained in this Part 1012:

Chart summary of meetings policy

Meeting category	Notice			Attendance		Records		
	Federal Register	Public Calendar	No advance notice	Open	Closed	Minutes	Transcript	Meeting summary
Public hearing	×	×		×			×	
Involving Commission:								
Executive session			×		×	×		
Closed session			×		×	×		
Open session				×		×		
Involving outside parties		[1] ×		[2] ×		×		
Advisory committee	×	×		[3] ×				[4] ×
Staff meetings		[4] ×						[4] ×

[1] Notice in the Public Calendar is required for all meetings between Commissioners for Agency staff, and outside parties, involving matters of substantial interest, except as described in 16 CFR 1012.4(c)(1)(ii).
[2] Meetings between Commissioners or Agency staff and outside parties are open to the public, except as described in 16 CFR 1012.4(c)(2)(ii).
[3] Meeting summaries are required for meetings where matters of substantial interest are discussed.
[4] At the discretion of participants.

Effective date: This Part 1012 becomes effective on December 4, 1975.

Dated: October 29, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

PART V:

PENSION BENEFIT GUARANTY CORPORATION

PENSION PLANS

Allocation of Assets and Limitations on Guaranteed Benefits

V 40 213 NOV 4 75 XUM

PENSION BENEFIT GUARANTY CORPORATION

[29 CFR Part 2608]

ALLOCATION OF ASSETS

Proposed Determination of Payable Benefits

Section 4044 of the Employee Retirement Income Security Act of 1974 (hereinafter "the Act") requires that upon the termination of a defined benefit pension plan the assets of such plan be allocated among six priority categories. The allocation of plan assets affects the determination of what benefits are funded by plan assets, whether a terminating plan covered by the insurance provisions of Title IV of the Act has sufficient assets to pay all benefits guaranteed by such insurance provisions, the amount which the PBGC must pay from its insurance funds to cover guaranteed benefits, and consequently the amount of liability which will be imposed on the sponsoring employer under section 4062 or 4064 of the Act.

Notice is hereby given that the Pension Benefit Guaranty Corporation (hereinafter "the PBGC") proposes to amend Chapter XXVI of Title 29, Code of Federal Regulations, to add a new Part 2608, set forth below, which implements section 4044 of the Act.

This proposed regulation was prepared by the staff of the Pension Benefit Guaranty Corporation at the request of the Board of Directors of the Corporation. With the understanding that this is a staff document without the Board's endorsement of the policies underlying it, the Board authorized publication of this proposed regulation in the FEDERAL REGISTER to invite public comments and suggestions that will assist the Board in its consideration of the regulation to be finally adopted.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Office of the General Counsel, Pension Benefit Guaranty Corporation, Room 7200, 2020 K Street NW., Washington, D.C. 20006. Each person submitting comments should include his name and address, identify this notice, and give reasons for any recommendations. Comments should be submitted on or before December 4, 1975. Copies of written comments will be available for examination for a reasonable period by interested persons in the Office of Communications of the PBGC, Room No. 7100, 2020 K Street NW., Washington, D.C. 20006, between the hours of 9 a.m. and 4 p.m. This proposal may be changed in light of the comments received.

STATUTORY PURPOSES

The proposed regulation is based on the PBGC's view that section 4044 requires that the assets of a terminating plan be allocated so as (a) to provide that the value of a participant's voluntary contributions be protected by first allocating assets to those contributions, (b) to provide that the remaining assets be allocated sequentially to the remaining priority categories listed in section 4044(a) of the Act, and (c) to discourage plans from being structured in a manner intended to unreasonably divert assets away from guaranteed benefits to non-guaranteed benefits.

BASIC APPROACH

First, the total benefits payable under the plan with respect to each participant are divided among the priority categories established in section 4044 of the Act.

Next, each participant's benefit assigned to a priority category is divided between (1) that portion of the benefit which would be guaranteeable under the guaranteed benefits regulation contained in Part 2605 of this chapter if the insurance limitations contained in section 4022(b) of the Act which are incorporated in that regulation did not apply, and (2) that portion of the benefit which could not be guaranteed even if the insurance limits were disregarded. The guaranteeable portion of the benefit is called a "basic type benefit" and the portion not guaranteeable a "non-basic type benefit." The purpose of this division of a participant's benefit assigned to a priority category between basic and non-basic type benefits is twofold. First, it allows the values of the same type benefits assigned to a higher priority category to be subtracted from the value of such benefits assigned to a lower priority category in accordance with section 4044(b)(1) of the Act which provides that the amount allocated under one priority category shall be adjusted for any allocation of assets with respect to that benefit under a prior category. Second, it enables the identification of those types of benefits which would be guaranteed under Part 2605 of this chapter so that one can determine whether the plan is sufficient, i.e., has adequate assets to pay all guaranteed benefits, or, if it is insufficient, the amount of the liability for payment of guaranteed benefits.

After a participant's benefits have been divided into basic and non-basic types, the value of each type of benefit in each priority category is computed according to the valuation factors prescribed by the PBGC. Then, the total value of the benefits assigned to a priority category is determined by summing the values of all benefits assigned to that priority category.

Next, the assets of the plan are allocated sequentially to each priority category. If the assets allocated to a priority category are insufficient to satisfy in full all benefits in that category, such assets are allocated pro-rata among the benefits of participants in such category based on the ratio that the sum of the value of all of a participant's benefits in that category bears to the total value of the benefits in such category. This will accomplish the first purpose of section 4044 which is to assure that assets are allocated in order to the priority categories, and within those categories, divided proportionately among the benefit values of the participants.

Although the assets allocated to priority categories 1 through 4 and priority category 6 are to be allocated pro-rata among the benefits of the participants, a special rule is establish in section 4044(b)(3) of the Act for assets allocable to priority category 5. Under this special rule, which is embodied in § 2608.4(d)(2) of the proposal, assets allocable to priority category 5 are distributed first to those participant's benefits which would have been allocated to priority category 5 on the basis of the plan's provisions which were in effect at the beginning of the 5 year period ending on the date of termination. If the assets so allocated are sufficient to pay all such benefits, the assets are allocated on the basis of the participant's benefits which would be in category 5 taking into account the first plan amendment during the 5 year period. This process is repeated for subsequent amendments during the 5 year period ending on the date of plan termination until either all assets allocable to category 5 are exhausted or all plan amendments within the 5 year period are included in the computation. If the plan assets are exhausted before all benefits are assigned under plan amendments, the assets allocable to the plan amendment for which benefits were being assigned when the assets were exhausted are allocated pro-rata among the benefits of participants under that amendment.

Once the assets are allocated to each participant's benefits in a priority category, they are first applied to his basic type benefits, and any remainder is then applied to his non-basic type benefit. For example, assume a plan with participants, A and B, each having a benefit valued at $10,000 in priority category 3. However, $5,000 of participant A's benefit is the result of a non-basic temporary annuity, while all of participant B's benefit is a basic type of benefit which would be fully guaranteed. If there is a total of $16,000 in plan assets allocable to priority ctegory 3, $8,000 in assets would be allocable to each participant's benefit. Under the approach in the proposal participant A would receive $8,000 from the plan and nothing from the PBGC because the $2,000 benefit not payable from plan assets is a non-basic type benefit. Participant B, on the other hand, would receive a total benefit of $10,000, $8,000 from the plan and $2,000 from the PBGC. This will prevent diversion of PBGC funds to non-guaranteed benefits by plans which attempt to build up the non-basic type benefit which would be in priority category 2 or 3.

Finally, all of the assets allocated to the value of a participant's basic type benefits throughout the priority categories are added, and the total substracted from the participant's guaranteed benefit, calculated under the regulations of the PBGC, to determine the amount, if any, by which the plan assets are insufficient to provide that participant his guaranteed benefit. The total plan asset insufficient is equal to the sum of the insufficiencies with respect to each participant.

PRIORITY CATEGORY 1

VOLUNTARY EMPLOYEE CONTRIBUTIONS

Voluntary employee contributions consist of contributions to a plan by an employee which are not required. Under the Act, benefits attributable to such contributions are treated as benefits derived from a separate individual account plan, and, as such, pursuant to section 4021(b)(12), are not guaranteeable. Section 2608.6 of the proposal provides that the value of the benefits derived from voluntary employee contributions is equal to the separate account maintained in the pension plan for such contributions, or, if no such separate account is maintained, the total of such contributions.

PRIORITY CATEGORY 2

MANDATORY EMPLOYEE CONTRIBUTIONS

Section 2608.7 of the proposal establishes the rules for determining the value of accrued benefits derived from mandatory employee contributions. It deals with two distinct situations. First, plans which are subject to section 204(c) of the Act which prescribes the method of determining that portion of an accrued benefit that is derived from mandatory employee contributions and that portion that is derived from employer contributions, and, second, plans which are not subject to section 204(c) of the Act. These latter plans are comprised of plans which terminated or will terminate before section 204(c) of the Act becomes applicable to them.

Under the Act it is contemplated that the value of a participant's benefits derived from his mandatory contributions should be protected to the greatest extent possible, and that his accrued benefit derived from his own contributions will have a value at least equal to the aggregate of those contributions. Accordingly, under both major subsections of proposed § 2608.7, setting forth the manner of determining the value of a participant's accrued benefits derived from his mandatory contributions, the value of such benefit is under all circumstances equal to the participant's accumulated mandatory contributions.

As previously noted, proposed § 2608.7(a) applies to plans subject to section 204(c) of the Act, and accordingly accumulated employee contributions are determined on the basis set forth in section 204(c), except that, as provided in section 4044(b)(5), distributions to an employee from the plan are deducted in determining his mandatory contributions for purposes of allocating the assets of a terminated plan. Thus, under proposed § 2608.7(a)(1) accumulated employees contributions are equal to the total mandatory employee contributions plus applicable interest on such contributions less any distributions of benefits under the plan before the date of termination. Total accumulated contributions equals the total mandatory contributions of the employee plus interest, if any, provided by the plan before the effective date of section 204(c) of the Act plus employee contributions made after that date and interest of 5 percent on the total accumulated mandatory employee contributions in the plan compounded annually for all years after section 204(c) becomes effective for that plan. Any benefits distributed under the plan plus interest (computed for each year at the rate applicable to employee contributions) on such benefits is subtracted from the above total to determine an employee's accumulated contribution. Using the accumulation rules, conversion factors, and related limitations developed by the Internal Revenue Service under the Act, the PBGC will determine the benefit accrued for normal age retirement derived from employee contributions. The value of this benefit constitutes the value of the basic type category 2 benefit. Its value is likely to be significantly less than the employee's accumulated contributions as of the date of termination when valued under PBGC valuation standards because the interest rates used by the PBGC in the foreseeable future will likely be higher than the interest rates prescribed under section 204(c), and because the PBGC valuation of the employees' derived benefits is discounted for mortality before normal retirement age as well as after such age. The value attributable to these differences constitutes the non-basic type benefit in priority category 2.

Internal Revenue Service conversion factors have been used because otherwise there would be a difference in the annuity derived from employee contributions for employees who left the plan before it terminated and employees who left the plan after it terminated. Since the purpose of determining that annuity is to calculate the amount of benefit derived from employee contributions in which an employee is vested, if the PBGC used different factors than the Internal Revenue Service for determining the annuity derived from an employee's own contributions, two employees each with the same accumulated contributions and service would receive different vested benefits if one retired before plan termination and the other retired after plan termination, a result not consonant with the intent of Act.

Proposed § 2608.7(b) applies to plans terminated before section 204(c) of the Act becomes applicable to them. Because section 204(c) of the Act does not apply to such plans for determining that portion of an employee's accrued benefit which is attributable to his own contributions, proposed § 2608.7(b) contains another approach for determining that benefit. Since plans which require employee contributions generally vest the employee in his own contributions, any accrued benefit derived from such contributions is a basic type benefit. The amount of accumulated employee contributions available to pay for that benefit shall be determined by deducting the value of any death benefit in the form of a return of employee contributions from the value of the accumulated contributions. Since the death benefit is not guaranteeable under Part 2605 of this Chapter, it is a non-basic type benefit. Thus, this approach differs from that for plans covered by section 204(c), but the value of a participant's benefits in priority category 2 still equals his accumulated mandatory contributions.

Proposed §§ 2608.7(b)(3) and (b)(4) provide, respectively, that the value of the participant's accrued basic type benefit and his vested basic type benefit be computed. If after deducting the value of the death benefit, the remaining amount of the participant's contributions would pay for more than his accrued benefit under the plan, the value of the accrued benefit is a basic type benefit, and any excess is a non-basic type benefit as is the death benefit. Under proposed § 2608.7(b)(6), if the value of an employee's accrued benefit exceeds his accumulated mandatory contributions less the value of the death benefit, those contributions could only provide some of his accrued benefit. Accordingly, the value of his non-basic type priority category 2 benefit is the value of the death benefit discussed above, and the remainder of the participant's accumulated contributions is the value of such participant's basic type priority category 2 benefit.

PRIORITY CATEGORY 3

Two types of benefits payable as annuities are allocable to priority category 3. The first type covered in proposed § 2608.8(a)(1) is an annuity which has been in pay status for at least the 3 year period ending on the date of plan termination. The second type, covered in proposed § 2608.8(a)(2) is an annuity which could have been in pay status for that 3 year period. With respect to annuities which have been in pay status for the required period, the amount of annuity payments assignable to priority category 3 is determined on the basis of the plan's provisions which were in effect at any time during the 5 year period ending on the date of plan termination under which such annuity would be the least. Additionally, the level of such benefits is limited to the lowest level which was in pay status during that 3 year period. Thus, cost-of-living adjustments during such 3 year period due to escalator provisions which were contained in the plan for the entire 5 year period ending on the date of plan termination are disregarded in determining the level of benefits assignable to priority category 3.

With respect to annuities which could have been in pay status for the required 3 year period, the type of annuity which is assignable to priority category 3 is computed on the basis of the plan's provisions in effect during the 5 year period ending on the date of plan termination under which the annuity would be the least. However, for purposes of computing the amount of the annuity, but not whether a participant was entitled to that particular form of annuity, the participant's age, service, salary and any other factors relevant under the plan formula to compute the amount of the annuity are determined as of the date of termination. Thus, if a participant was

V 40 213 NOV 4 75 XUM

entitled to an early retirement benefit at the beginning of the 3 year period ending on the date of plan termination, under proposed § 2608.8(a)(2) that benefit is assignable to priority category 3. If the reduction provided for in the plan were 5 percent a year for each year the participant retired before his normal retirement age, and 3 years before the plan terminated the reduction would be 25 percent, under the proposal the reduction would only be 10 percent because the participant would be credited with the extra 3 years of service for purposes of determining the amount of the benefit. If, however, under that same plan the participant became eligible for a special unreduced early retirement benefit 2 years before plan termination, under the proposal the special early retirement benefit would not be assigned to priority category 3 because the participant could not have taken it 3 years before the plan terminated. Thus, under the proposal a higher claim on assets is given both to benefits which have been in pay status for the 3 years ending on the date of plan termination and those which could have been in pay status for such period. Therefore, under the proposal a participant's reasonable expectation based on the benefit he was entitled to 3 years before plan termination is protected.

To avoid double counting of participants' benefits under a plan, under proposed § 2608.8(b) the value of the basic type annuity in category 3 is reduced by the value of the basic type benefit derived from participants' contribution in priority category 2. However, because the non-basic form of benefit in priority category 3 would be a nonguaranteeable annuity, and the non-basic benefit in priority category 2 is not an annuity it is not subtracted from the non-basic type benefit in priority category 3, because it is not the same type of benefit.

PRIORITY CATEGORY 4

Proposed § 2608.9 covers benefits in priority category 4. Such benefits consist of (1) all other benefits guaranteed under Part 2605 of this chapter which have not been allocated to a higher priority category, and, (2) benefits which would be guaranteed if the insurance limits on benefits payable to one person with respect to more than one participant or from more than one terminated plan, and the insurance limits on benefits payable to a substantial owner (sections 4022(b)(5) and 4022(b)(6) of the Act, respectively) were not applicable. Because the benefits in priority category 4 are all basic type benefits, the value of the basic type benefits in priority categories 2 and 3 are subtracted from the value of the basic type benefits which would otherwise belong in priority category 4 to determine the value of benefits in that priority category.

PRIORITY CATEGORY 5

Proposed § 2608.10 covers benefits in priority category 5. Those benefits consist of all other nonforfeitable benefits, exclusive of benefits derived from voluntary employee contributions, provided by the plan that were not allocated to a higher priority category. Since the benefits in priority categories 2 through 4 nonforfeitable, whether basic or non-basic type, the total value of such benefits with respect to each participant is subtracted from the total value of that participant's nonforfeitable benefits under the plan to determine the value of the participant's nonforfeitable benefits in priority category 5. Proposed § 2608.10 also contains special rules for subdividing the benefits in priority category 5. These rules only apply if there are plan assets available for benefits in priority category 5, but such assets are not sufficient to cover all priority category 5 benefits so that the special rules which were discussed above required by the Act by allocating assets to benefits in that category apply.

PRIORITY CATEGORY 6

Priority category 6, covered in proposed § 2608.11, contains all plan benefits with respect to a participant not assigned to priority categories 1 through 5. Thus, priority category 6 will contain the value of accrued forfeitable benefits of a participant.

EXCESS ASSETS

Section 4044(d) of the Act provides that any assets which remain after all plan benefits actually have been paid may be returned to the employer or otherwise distributed in any lawful manner provided in the plan. However, that section also requires that any excess assets attributable to employee contributions must be returned to the employees. The PBGC is currently considering how to implement section 4044(d) and invites suggestions on the method for implementing such section. The regulation contained in this proposal will be amended at a later date to incorporate rules for implementing section 4044(d) of the Act.

In consideration of the foregoing, it is proposed that Chapter XXVI of Title 29, Code of Federal Regulations be amended by adding a new Part 2608 to read as follows:

PART 2608—ALLOCATION OF ASSETS

Sec.
2608.1 Purpose and Scope.
2608.2 Definitions.
2608.3 General Rule.
2608.4 Manner of Allocation.
2608.5 Violations.
2608.6 Priority Category 1 Benefits.
2607.7 Priority Category 2 Benefits.
2608.8 Priority Category 3 Benefits.
2608.9 Priority Category 4 Benefits.
2608.10 Priority Category 5 Benefits.
2608.11 Priority Category 6 Benefits.

AUTHORITY: Secs. 4002(b)(3), 4044, Pub. L. 93-406, 88 Stat. 1004, 1025-27 (29 U.S.C. 1302(b)(3), 1344)

§ 2608.1 Purpose and scope.

(a) *Purpose.* The purpose of this part is to establish the procedure for allocating a plan's assets in accordance with section 4044 of the Act upon the plan's termination.

(b) *Scope.* This part applies to the termination of a plan covered by section 4021 of the Act which occurs on or after September 2, 1974.

§ 2608.2 Definitions.

For purposes of this part:

"Act" means the Employee Retirement Income Security Act of 1974.

"Annuity" means a series of periodic payments to a participant or a surviving beneficiary for a fixed or contingent period.

"Basic type benefit" means a type of benefit which is, or would be, guaranteed under the provisions of Part 2605 of this chapter, if the insurance limits contained in § 2605.4(b) of this chapter did not apply.

"Mandatory employee contributions" means amounts contributed to the plan by a participant which are required as a condition of employment, as a condition of participation in such plan, or as a condition of obtaining benefits under the plan attributable to employer contributions.

"Non-basic type benefit" means any benefit provided by a plan other than a basic type benefit.

"Nonforfeitable benefit" means a benefit payable with respect to a participant if on the date of termination of the plan the participant has satisfied all of the conditions required of him under the provisions of the plan to establish entitlement to the benefit, except the submission of a formal application, retirement, or the completion of a required waiting period. Benefits that become nonforfeitable solely as a result of the termination of a plan will be considered forfeitable.

"Normal retirement age" means the age specified in the plan as the normal retirement age, which age with respect to each participant cannot exceed the later of age 65 or the age attained after 10 years of participation in the plan or, if no normal retirement age is specified in the plan, age 65.

"Plan" means a defined benefit plan.

"Plan assets" means the dollar value of the assets available to pay plan benefits determined in the manner prescribed by the Pension Benefit Guaranty Corporation.

"Priority categories" or "Priority category" means the categories contained in 4044(a)(1) through 4044(a)(6) of the Act setting forth the order in which plan assets are to be allocated upon termination.

"Value of plan benefits" means the value, stated in dollars and cents, as of the date of plan termination, of the benefits to be provided by the plan, calculated on the basis of interest (including costs of administration) and mortality rates prescribed by the Pension Benefit Guaranty Corporation.

"Voluntary employee contributions" means amounts contributed to a plan pursuant to the provisions of the plan by an employee which are not mandatory employee contributions.

§ 2608.3 General rule.

Upon the termination of a plan to which this part applies, the assets of such plan shall be allocated to benefits provided by the plan in the manner prescribed by this part.

§ 2608.4 Manner of allocation.

Assets shall be allocated by using the following procedure:

(a) *Allocation of benefits.* Benefits payable with respect to each participant under the plan after the date the plan terminates shall be divided among the six priority categories contained in section 4044 of the Act and the value of that portion of a participant's benefit assigned to each priority category shall be determined in accordance with §§ 2608.6 through 2608.11.

(b) *Value of benefits in each priority category.* The total value of the benefits assigned to each priority category shall be computed by adding together the values of the benefits assigned to such category.

(c) *Allocation of assets to priority categories.* The assets of the plan shall be allocated to each priority category in succession, beginning with the first priority category. If the plan has sufficient assets to satisfy in full the value of all benefits assigned to a priority category, the remaining assets shall then be allocated to the next lower priority category. This process shall be repeated until all assets of the plan have been allocated to priority categories.

(d) *Allocation of assets to benefits within priority categories.* (1) Except for benefits assigned to the fifth priority category, if the plan assets allocable to any priority category are insufficient to satisfy in full the value of the benefits assigned to that category, the plan assets shall be allocated to the value of the benefits assigned to such category of each participant by multiplying the plan assets allocated to the category by a fraction, the numerator of which shall be the value of the participant's benefits assigned to such category and the denominator of which shall be the value of all benefits assigned to such category.

(2) If the plan assets allocable to priority category 5 are insufficient to cover the benefits assigned to such category, the following allocation procedure shall apply:

(i) The assets allocable to priority category 5 shall first be allocated to the value of the nonforfeitable benefits of plan participants computed on the basis of the provisions of the plan which were in effect at the beginning of the five (5) year period ending on the date of plan termination.

(ii) If the assets available for allocation under paragraph (d)(2)(i) of this section are sufficient to satisfy in full the benefits described in such subparagraph, the remaining plan assets allocable to category 5 shall be allocated to the benefit changes applicable to each participant under the earliest amendment of the plan during the five year period ending on the date of plan termination which was effective during such period. If the plan assets allocable to such amendment are sufficient to satisfy in full the value of the benefits of plan participants under such amendment, any remaining plan assets shall be similarly allocated to the next succeeding amendment. This process shall be repeated until all plan assets allocable to priority category 5 have been exhausted. In the event that the plan assets are insufficient to satisfy in full the benefits attributable to any sub-category of priority category 5, the assets allocable to such sub-category shall be distributed among participants' benefits in such sub-category on the basis of the ratio that each participant's benefits assigned to such sub-category bears to the total benefits assigned to such sub-category.

(3) The assets allocated to each participant within each priority category shall first be applied to satisfy the value of the participant's basic type benefit assigned to such category. Any remaining assets shall then be applied to the value of such participant's non-basic type benefit assigned to that priority category.

(4) If the plan assets allocable to a participant's basic type benefit in all priority categories are not sufficient to satisfy in full the value of the participant's benefits guaranteed under Part 2605 of this chapter, the amount of the difference, but not less than zero, between the assets so allocated and the value of such benefits shall constitute the amount of asset deficiency with respect to that participant. The sum of such differences with respect to all plan participants shall constitute the plan asset deficiency of section 4062(b)(1) of the Act.

§ 2608.5 Violations.

It shall be a violation of the Act to allocate plan assets other than as prescribed in section 4044 of the Act and this part, except as may be required under section 4044(b)(4) of the Act. Where a distribution, transfer or allocation of assets is made to a participant in contemplation of plan termination it shall be treated as an allocation of plan assets upon termination of the plan.

§ 2608.6 Priority Category 1 Benefits.

The benefits assigned to priority category 1 consist of accrued benefits of participants which derive from voluntary employee contributions. The value of such benefits is the balance of the participant's account if the plan maintains a separate account for contributions from a participant. If the plan does not maintain such a separate account, the value of such benefits is the total of the participant's voluntary contributions. Benefits assigned to priority category 1 are non-basic type benefits.

§ 2608.7 Priority Category 2 Benefits.

(a) *Plans subject to section 204(c) of the Act.* The present value of priority category 2 benefits for plans subject to the provisions for allocating accrued benefits between employer and employee contributions contained in section 204(c) of the Act, shall be computed as follows:

(1) Compute each participant's accumulated contributions as of the date of termination by:

(i) Adding:

(A) The total of the participant's mandatory contributions to the plan, plus

(B) Interest, if any, under the plan to the end of the last plan year to which section 204(c) of the Act does not apply, and

(C) Interest on the sum of the amounts determined under paragraphs (a)(1)(i)(A) and (B) of this section compounded at 5 percent per annum from the beginning of the first plan year to which section 204(c) of the Act applies to the earlier of the participant's retirement date or the date of plan termination; and

(ii) Substracting from the total of paragraphs (a)(1)(i)(A), (i)(B) and (i)(C) of this section:

(A) Any payments or distributions from the plan to the participant or to his beneficiary; and

(B) Interest payable under paragraphs (a)(1)(i)(B) and (1)(i)(C) of this section on the amounts which are described in paragraph (a)(1)(ii)(A) of this section paid prior to the participant's retirement date, calculated from the date of such payments until the earlier of the participant's retirement date or date of termination.

(2) Compute the value of each participant's benefits assignable to priority category 2 as follows:

(i) For participants who have not retired and who have not reached normal retirement age as of the date of plan termination:

(A) Add accumulated employee contributions computed under paragraph (a)(1) of this section and interest on such contributions compounded at 5 percent per annum from the date of plan termination to the date on which the participant would attain normal retirement age.

(B) Using the Internal Revenue Service factors in effect for such purposes, convert the amount determined under paragraph (a)(2)(i)(A) of this section to the normal form of the accrued benefit payable at normal retirement age under the plan that is attributable to accumulated employee contributions.

(C) Compute the value of the benefit determined under paragraph (a)(2)(i)(B) of this section using the valuation factors established by the Pension Benefit Guaranty Corporation for such purpose which are applicable to the date of plan termination.

(D) The value of the basic type priority category 2 benefit is equal to the value of the benefit computed under paragraph (a)(2)(i)(C) of this section. The value of the non-basic type priority category 2 benefit is equal to the difference between the value of accumulated employee contributions computed according to paragraph (a)(1) of this section and the value of the basic type priority category 2 benefit computed under this subparagraph, which difference shall not be less than zero.

(ii) For participants who have retired before the date of plan termination or have attained normal retirement age on such date:

V 40 N 213 NOV 4 75 XUM

(A) Using the Internal Revenue Service factors in effect for such purposes, convert the accumulated employee contributions computed under paragraph (a)(1) of this section to the normal form of the accrued benefit payable at normal retirement age under the plan that is attributable to accumulated employee contributions.

(B) Compute the value of the benefit determined in paragraph (a)(2)(ii)(A) of this section using the valuation factors established by the Pension Benefit Guaranty Corporation for such purpose which are applicable to the date of plan termination.

(C) The value of the basic type priority category 2 benefit is equal to the value of the benefit computed under paragraph (a)(2)(ii)(B) of this section. The value of the non-basic type priority category 2 benefit is equal to the difference between the value of the accumulated employee contributions computed according to paragraph (a)(1) of this section and the value of the basic type priority category 2 benefit computed under this subparagraph, which difference shall not be less than zero.

(b) *Plans not subject to section 204(c) of the Act.* (1) Compute the accumulated mandatory contributions, which shall not be less than zero, of each employee as of the date of plan termination pursuant to § 2608.7(a)(1)(i)(A) adding such interest on employee contributions as may be provided by the plan, and subtracting any payments or distributions from the plan to the participant or his beneficiary before the date of plan termination including interest on such distributions to such date.

(2) Compute the value of any death benefits under the plan, not payable as a result of death before the date of plan termination, which are attributable to the refund of employee contributions as determined under the plan in the event of the death of the participant prior to the commencement at normal retirement age of benefit payments under the plan. The value of such benefit is to be computed using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation.

(3) Determine the value of the participant's accrued basic type benefit under the plan payable in the normal form provided by the plan for retirement at the normal retirement age, and compute its value using the valuation factors which are applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation.

(4) Determine the value of the participant's basic type accrued vested benefit by multiplying the actuarial value of the participant's accrued benefit determined under paragraph (b)(3) of this section by the percentage of his accrued benefit in which a participant is vested under the plan's vesting provisions.

(5) If the difference between the accumulated employee contributions computed under paragraph (b)(1) of this section and the value of the death benefits computed under paragraph (b)(2) of this section is equal to or greater than the value of the participant's total accrued basic type benefits computed under paragraph (b)(4) of this section:

(i) The value of the basic type priority category 2 benefit is the total value of the participant's accrued basic type benefit computed under paragraph (b)(4) of this section; and

(ii) The value of the non-basic type priority category 2 benefit is the difference between the value of the employee's accumulated contributions computed under paragraph (b)(1) of this section and the amount computed under paragraph (b)(4) of this section.

(6) If the difference between the accumulated employee contributions computed under paragraph (b)(1) of this section and the value of the employee death benefits computed under paragraph (b)(2) of this section does not exceed the value of the participant's accrued basic type benefit computed in accordance with paragraph (b)(4) of this section.

(i) The value of the basic type priority category 2 benefit is the difference between the value of the employee contributions computed under paragraph (b)(1) of this section and the value of the death benefits computed under paragraph (b)(2) of this section; and

(ii) The value of the non-basic type priority category 2 benefit is the value of the death benefits computed under paragraph (b)(2) of this section.

§ 2608.8 Priority Category 3 Benefits.

(a) *Definition.* Priority category 3 benefits consist of:

(1) Benefits payable as an annuity under the terms of the plan which have been in pay status for the 3 year period ending on the date of plan termination at the lowest level in pay status during such period; computed on the basis of the plan's provisions in effect during the 5 year period ending on such date under which the amount of such annuity would be the least, valued in accordance with paragraph (b)(1) of this section; or

(2) Benefits payable as an annuity on or after the date of plan termination calculated on the basis of the benefits which would have been payable in the normal form of payment under the plan at the beginning of the 3 year period ending on the date of plan termination with respect to a participant who was entitled to retire before the beginning of such period, computed on the basis of the plan's provisions in effect during the 5 year period ending on the date of plan termination under which the amount of such annuity would be the least, valued in accordance with paragraph (b)(2) of this section. The amount of the annuity, but not entitlement to an annuity, shall be determined using the age, service and other revelant factors for computing the annuity under the plan with respect to the participant as of the date of plan termination.

(b) *Valuation.* The value of priority category 3 benefits shall be computed separately with respect to each participant as follows:

(1) With respect to annuities which were in pay status for the 3 year period ending on the date of plan termination—

(i) First, determine the lowest annuity which was payable during such 3 year period in accordance with paragraph (a)(1) of this section, and compute its value using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation;

(ii) Second, determine that portion of the annuity derived under the preceding subparagraph which is, or would be, a basic type benefit, and compute its value using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation;

(iii) Third, determine the value of the non-basic type benefit by subtracting the value of the basic type annuity determined under paragraph (b)(1)(ii) of this section from the value of the annuity which was in pay status determined under paragraph (b)(1)(i) of this section; and

(iv) Fourth, subtract from the value of the basic type benefits with respect to the participant computed under paragraph (b)(1)(ii) of this section the value of the basic type benefits derived from mandatory employee contributions with respect to that participant computed under §§ 2608.7(a) and 2608.7(b), whichever is appropriate, to determine the value, but not less than zero, of the participant's basic type benefits which were in pay status for 3 years attributable to priority category 3.

(2) With respect to annuities which could have been in pay status for the 3 year period ending on the date of plan termination:

(i) First, determine the lowest annuity which would have been payable in accordance with paragraph (a)(2) of this section, and compute its value using the valuation factors applicable to the date of termination established by the Pension Benefit Guaranty Corporation;

(ii) Second, determine that portion of the annuity derived under the preceding subparagraph which is, or would be, a basic type benefit, and compute its value using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation;

(iii) Third, determine the value of the non-basic type benefit to be assigned to priority category 3 by subtracting the value of the basic type annuity determined under paragraph (b)(2)(ii) of this section from the value of the annuity which could have been in pay status determined under paragraph (b)(2)(i) of this section; and

(iv) Fourth, subtract from the value of the basic type benefits with respect to the participant computed under paragraph (b)(2)(ii) of this section the value of the basic type benefits with respect to that participant computed under § 2608.7(a) or § 2608.7(b), whichever is appropriate, to determine the value, but not less than zero, of the participant's basic type benefits which could have been in pay status to be assigned to priority category 3.

(c) *Participant's benefits attributable to priority category 3.* (1) The value of a participant's basic type benefit attributable to priority category 3 shall be either:

(i) The value of his basic type benefits computed under paragraph (b)(1)(iv) of this section; or

(ii) The value of his basic type benefits computed under paragraph (b)(2)(iv) of this section.

(2) The value of the participant's non-basic type benefit attributable to priority category 3 shall be either:

(i) The value of the participant's non-basic type benefit computed under paragraph (b)(1)(iv) of this section; or

(ii) The value of the participant's non-basic type benefit computed under paragraph (b)(2)(iii) of this section.

(3) The value of each participant's benefit attributable to priority category 3 is the sum of values determined under paragraphs (c)(1) and (c)(2) of this section.

§ 2608.9 Priority Category 4 Benefits.

(a) *Definition.* The benefits in priority category 4 consist of all basic type benefits which do not exceed the limitations on the guarantee of benefits set forth in sections 4022(b)(1), 4022(b)(2), 4022(b)(3), 4022(4), 4022(b)(7) and 4022(b)(8) of the Act as implemented by Part 2609 of this chapter, valued in accordance with paragraph (b) of this section.

(b) *Valuation.* The value of the benefit of each participant or beneficiary who receives a benefit attributable to priority category 4 shall be computed separately with respect to each participant as follows:

(1) First, determine the value of the benefits in this priority category with respect to each participant using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation.

(2) Second, subtract from the value of each participant's benefit computed under paragraph (b)(1) of this section, the value of that participant's basic type benefits assigned to priority category 2 computed under § 2608.7(a) or §2608.7(b), whichever is appropriate, and the value of that participant's basic type benefits assigned to category 3 computed under § 2608.8(c)(1) to determine the value, but not less than zero, of such participant's benefits assigned to priority category 4.

§ 2608.10 Priority Category 5 Benefits.

(a) *Definition.* Priority category 5 benefits consist of all nonforfeitable benefits, exclusive of benefits derived from voluntary employee contributions assigned to priority category 1, payable with respect to a participant in a plan, valued in accordance with paragraph (b) of this section.

(b) *Valuation.* The value of such benefits shall be computed separately with respect to each participant as follows:

(1) Compute the value of all of a participant's nonforfeitable benefits under the plan as of the date of plan termination using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation.

(2) Subtract from the value computed under paragraph (b)(1) of this section, the sum of the values of the benefits assigned to priority categories 2 through 4 to determine the value, but not less than zero, of the benefits assigned to priority category 5.

(3) If there are plan assets available to allocate to benefits in priority category 5 but such assets are not sufficient to satisfy in full the values of the benefits assigned to priority categories 1 through 5:

(i) First, determine with respect to each participant the benefits which would be payable and nonforfeitable under the provisions of the plan as in effect at the beginning of the 5 year period ending on the date of plan termination;

(ii) Second, compute the value of such benefits using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation;

(iii) Third, subtract from the value computed under the preceding subparagraph, the sum of the values of all benefits assigned to priority categories 2, 3, or 4. This yields the value of the benefits assigned to § 2608.4(d)(2) for purposes of allocating assets.

(iv) Fourth, if the assets allocable to benefits assigned to § 2608.4(d)(2) are sufficient to satisfy in full all such benefits, determine the change in the benefits payable and nonforfeitable under the plan with respect to each participant under the provisions of the plan as amended by the first plan amendment which was effective during the 5 year period ending on the date of plan termination;

(v) Compute the value of the benefit changes determined under the preceding paragraph using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation. This yields the value of the benefit changes due to the first plan amendment within the 5 year period ending on the date of termination; and

(vi) Repeat the procedure of subparagraphs (b)(3)(iv) and (3)(v) of this section until all assets of the plan have been exhausted or all plan amendments have been allocated, whichever occurs first.

§ 2608.11 Priority Category 6 Benefits.

(a) *Definition.* The benefits of priority category 6 consist of all benefits provided by a plan, other than benefits assigned to priority categories 1 through 5.

(b) *Valuation.* The value of the benefits in this category shall be computed as follows:

(1) First, determine all the benefits provided by a plan, forfeitable or nonforfeitable, with respect to a participant; and

(2) Second, determine the value, but not less than zero, of the benefits determined under the preceding subparagraph using the valuation factors applicable to the date of plan termination established by the Pension Benefit Guaranty Corporation and subtract therefrom the value of the benefits with respect to that participant in priority category 1 through 5.

Issued in Washington, D.C., on this 30th day of October 1975.

STEVEN E. SCHANES,
Executive Director,[1]
Pension Benefit Guaranty Corporation.

HENRY ROSE,
Secretary,
Pension Benefit Guaranty Corporation.

[29 CFR Part 2609]

GUARANTEED BENEFITS

Proposed Limitations

Section 4022(b) of the Employee Retirement Income Security Act of 1974 (hereinafter "the Act"), 29 U.S.C. 1322 (b), sets forth limitations on the guarantee of benefit payments by the Pension Benefit Guaranty Corporation (hereinafter "PBGC"). These limitations apply to those benefits described in Part 2605 of Chapter XXVI of Title 29, Code of Federal Regulations. PBGC now proposes to amend Chapter XXVI of Title 29, Code of Federal Regulations, by adding a new Part 2609 setting forth the regulations implementing the guarantee limitations.

This proposed regulation was prepared by the staff of the Pension Benefit Guaranty Corporation. With the understanding that this is a staff document without the Board's endorsement of the policies underlying it, the Board of Directors of the Corporation authorized publication of this proposed regulation in the FEDERAL REGISTER to invite public comments and suggestions that will assist the Board in its consideration of the regulation to be finally adopted.

Interested persons may participate in this proposed rulemakinig by submitting written data, views, or arguments to the Office of the General Counsel, Pension Benefit Guaranty Corporation, Room 7200, 2020 K Street NW., Washington, D.C. 20006. Each person submitting comments should include his name and address, identify this notice, and give reasons for any recommendations. Comments should be submitted on or before December 4, 1975. Copies of written comments will be available for examination for a reasonable period by interested persons in the Office of Communications of the PBGC, Room No. 7100, 2020 K Street NW., Washington, D.C. 20006, between the hours of 9 a.m. and 4 p.m. This proposal may be changed in light of the comments received.

The basic rule of the guarantee limitations, as provided in section 4022(b)(3)

[1] Issued on the date set forth above, pursuant to a resolution of the Board of Directors approving the publication of these proposed regulations and authorizing its Executive Director to issue same.

V 40 213
NOV 4 75
XUM

of the Act and implemented by proposed § 2609.3(a), is one which ties the maximum guarantee to a specific form of benefit payable at a specified age in a specified amount. That is, the value of the benefits guaranted by PBGC cannot exceed the value of a single life annuity payable in monthly installments commencing at age 65 in the lesser amount of: (1) A figure based on the participant's highest average compensation during a 5-year period, or (2) $750 adjusted for changes in the Social Security contribution and benefit base. The current adjusted amount is $801.14. Moreover, as provided in proposed § 2609.3(b), the maximum guaranteed payments made by PBGC from its funds to any person or with respect to any participant cannot exceed the guarantee maximum set forth in § 2609.3(a) based on the adjusted $750 figure.

Many pension plans provide benefits in forms other than a single life annuity and the benefits may be payable at ages younger than 65. The value of a given monthly benefit in a form other than a single life annuity is usually more than the value of the same monthly benefit payable as a single life annuity, and thus the guarantee maximum set forth in proposed § 2609.3(a) (which is based on a single life annuity) must be reduced to reflect the greater values of such other benefit forms. For example, a period certain and continuous annuity under which a benefit is payable to a participant for his life, but for not less than a specified period of time whether or not the participant dies during that period, has a greater value than a single life annuity where payments cease upon the participant's death, whenever it occurs. Similarly, a benefit payable at an age younger than 65 has a greater total value then one commencing at age 65.

Therefore, proposed § 2609.4 sets forth various factors to be applied to the monthly amount computed under § 2609.4 monthly amount computed under § 2609.3(a) in order to determine the maximum amount of the monthly benefit which is guaranteeable. Proposed § 2609.4(c) contains the age adjustment factors which reduce the maximum guarantee when a benefit becomes payable at an age lower than 65. It should be noted that this adjustment will reduce substantially the maximum guaranteeable benefit, and thus may sharply curtail the guaranteed monthly benefit of a disabled retiree who begins receiving his pension benefit at an age below 65. Likewise, the guaranteed benefit of a surviving spouse would be reduced greatly if the survivor were much younger than the deceased participant. There would be a similar result in the case of a lifetime benefit payable to a surviving child. However, if the benefit to the surviving child is payable only until he reaches an age specified in the plan, substantially higher guaranteed benefits are payable. Such a benefit is a temporary life annuity, and PBGC will provide the appropriate adjustment factors on a case-by-case basis.

It is also necessary, in the case of a benefit payable to a participant and his beneficiary, to adjust the guarantee maximum to reflect differences in age between the participant and beneficiary. Proposed § 2609.4(e) provides the factors to be used to adjust for age differences.

Proposed § 2609.4(d) sets forth the adjustment factors applicable for several of the most common benefit forms payable in monthly installments. Covered by this paragraph are period certain and continuous annuities, joint and survivor annuities and step-down life annuities. PBGC will provide the appropriate adjustment factors, when needed, for benefit forms not covered in this paragraph.

The other principle guarantee limitation contained in section 4022(b) of the Act applies to benefit increases that have been in effect for less than five years with respect to participants other than substantial owners (as defined in section 4022(b)(6) and to all benefits that have been in effect for less than 30 years with respect to participants who are substantial owners. The definition of "benefit increase" contained in proposed § 2609.2 includes not only increases in the amount of the benefit payable, but also advances in the participants' entitlement to the benefit. The latter types of increase, such as a reduction in the normal retirement age under the plan or a liberalization of the plan's vesting provisions, increase the value of the benefit to the participant by, in the examples given, enabling him to receive his benefit at an earlier age or entitling him to receive a greater percentage of the benefit accrued under the plan. Inasmuch as the guarantee limitations are keyed to the value of benefits, plan amendments which produce increases in value are treated as benefit increases.

Proposed § 2609.5(c) sets forth the method for computing benefit increases. Because a benefit increase may result from a plan amendment which changes the form of the benefit payable, the formula for determining the benefit increase converts the old benefit form to the new benefit form. This enables one to determine any increase in value created by the change in benefit form. For plans under which there have been multiple benefit increases, the amount of each increase is to be expressed in the form of the benefit provided by the plan at the date of plan termination, calculated in accordance with proposed § 2609.5(d). Because increases in benefits due solely to increases in credited service do not constitute a "benefit increase" as defined in § 2609.2, all calculations under proposed § 2609.5 (c) and (d) are based on the participant's total credited service to the date of plan termination.

Proposed § 2609.6 sets forth the phase-in rule for benefit increases payable with respect to participants other than substantial owners (as defined in section 4022(b)(6) of the Act). Under this rule, the amount of a benefit increase that is guaranteed depends on the number of full years prior to plan termination that the benefit increase has been in effect. In all cases benefit increases subject to phase-in will be fully guaranteed after they have been in effect for 5 years. The guarantee is phased-in at an annual rate of 20 percent of the amount of the increase or $20 per month, whichever is greater. To the extent that a benefit increase causes the total benefit to exceed the guarantee maximum set forth in proposed § 2609.3(a), that portion of the benefit increase is not included in calculating the amount of the benefit increase subject to the phased-in guarantee. If there are multiple benefit increase within any 12-month period preceding the date of plan termination, those increases are aggregated for the purpose of applying the phase-in formula, pursuant to proposed § 2609.6(d).

Proposed § 2609.7 sets forth the phase-in rule for all benefits payable with respect to a participant who is a substantial owner. Under this rule, the guarantee of benefits payable with respect to such a participant under a plan in which there has never been a benefit increase (other than that arising from the adoption of the plan) is phased-in over a 20-year period. Further, the guarantee of any subsequent benefit increase payable with respect to a participant who is a substantial owner is also phased-in over a 30-year period, commencing with the effective date of the increase, and the guarantee of all such benefit increases cannot exceed the guarantee of the benefits provided under the original plan. Finally, as under the 5-year phase-in rule a benefit increase that causes the total benefit to exceed the guarantee maximum set forth in proposed § 2605.17 (a) is not guaranteed.

In consideration of the foregoing, it is proposed to amend Chapter XXVI of Title 29, Code of Federal Regulations, by adding a new Part 2609 to read as follows:

PART 2609—LIMITATIONS ON GUARANTEED BENEFITS

Sec.

2609.1 Purpose and scope.
2609.2 Definitions.
2609.3 Maximum guaranteeable benefit.
2609.4 Computation of maximum guaranteeable benefits.
2609.5 Benefit increases.
2609.6 Five-year phase-in of benefit guarantee for participants other than substantial owners.
2609.7 Phase-in of benefit guarantee for participants who are substantial owners.
2609.8 Effect of tax disqualification.

AUTHORITY: Secs. 4002(b)(3), 4022(b), Pub. L. 93-406, 88 Stat. 1004, 1016-18 (29 U.S.C. 1302(b)(3), 1322(b))

§ 2609.1 Purpose and scope.

(a) The purpose of this part is to describe the limitations on benefits guaranteed under Part 2605 of this chapter and to provide the methods for applying such limitations.

(b) This part applies to each plan providing benefits guaranteed under Part 2605 of this chapter.

§ 2609.2 Definitions.

As used in this part:

"Act" means the Employee Retirement Income Security Act of 1974.

"Annuity" means a series of periodic payments to a participant or surviving beneficiary for a fixed or contingent period.

"Benefit" means a benefit described in Part 2605 of this chapter.

"Benefit increase" means any benefit arising from the adoption of a new plan or an increase in the value of benefits payable arising from an amendment to an existing plan. Such increases include, but are not limited to, a scheduled increase in benefits under a plan or plan amendment, such as a cost-of-living increase, and any change in plan provisions which advances a participant's or beneficiary's entitlement to a benefit, such as liberalized participation requirements or vesting schedules, reductions in the normal or early retirement age under a plan, and changes in the form of benefit payments. In the case of a plan under which the amount of benefits depends on the participant's salary and the participant receives a salary increase the resulting increase in benefits to which the participant becomes entitled will not, for the purpose of this part, be treated as a "benefit increase." Similarly, in the case of a plan under which the amount of benefits depends on the participant's age or service, and the participant becomes entitled to increased benefits solely because of advancement in age or service, the increased benefits to which the participant becomes entitled will not, for the purpose of this part, be treated as a "benefit increase."

"Cash refund annuity" means annuity under which if the participant dies prior to the time when he has received pension payments equal to a fixed sum specified in the plan, then the balance is paid as a lump-sum death benefit.

"Installment refund annuity" means an annuity under which if the participant dies prior to the time he has received pension payments equal to a fixed sum specified in the plan, then the balance is paid as a death benefit in periodic installments equal in amount to the participant's periodic benefit.

"Joint and survivor annuity (joint basis)" means an annuity which is payable in periodic installments to a participant and upon his death or the death of hs beneficiary is payable to the survivor for the survivor's life in the same or in a reduced amount.

"Joint and survivor annuity (contingent basis)" means an annuity which is payable in periodic installments to a participant for his life and upon his death is payable to his beneficiary for the beneficiary's life in the same or in a reduced amount.

"PBGC" means the Pension Benefit Guaranty Corporation.

"Period certain and continuous annuity" means an annuity which is payable in periodic installments for the participant's life, but for not less than a specified period of time whether or not the participant dies during that period.

"Step-down life annuity" means an annuity payable in a certain amount for the life of the participant plus a temporary additional amount payable until the participant attains an age specified in the plan.

"Successor plan" means a plan which covers substantially the same employees and provides substantially the same benefits as a previously established plan.

§ 2609.3 Maximum guaranteeable benefit.

(a) *General limitation.* Benefits payable with respect to a participant under a plan shall be guaranteed only to the extent that such benefits do not exceed the actuarial value of a benefit in the form of a life annuity payable in monthly installments, commencing at age 65 equal to the lesser of the amounts computed in paragraphs (a) (1) and (2) of this section.

(1) One-twelfth of the participant's average annual gross income from his employer during either his highest-paid 5 consecutive calendar years in which he was an active participant under the plan, or if he was not an active participant throughout the entire such period, the lesser number of calendar years within that period in which he was an active participant under the plan.

(i) As used in this paragraph, "gross income" means "earned income" as defined in section 911(b) of the Internal Revenue Code of 1954, determined without regard to any community property laws.

(ii) For the purposes of this paragraph, if the plan is one to which more than one employer contributes, and during any calendar year the participant received gross income from more than one such contributing employer, then the amounts so received shall be aggregated in determining the participant's gross income for the calendar year.

(2) $750 multiplied by the fraction $\frac{x}{\$13,200}$, where "x" is the Social Security contribution and benefit base determined under section 230 of the Social Security Act in effect at the date of termination of the plan.

(b) *Aggregate payments limitation.* If a person is entitled to benefits under two or more plans or with respect to two or more participants, or if more than one person is entitled to benefits payable with respect to one participant, the aggregate benefits payable by PBGC from its funds shall be limited to the extent set forth in paragraph (a) of this section computed without regard to the provisions of paragraph (a)(1) of this section. The limitation contained in paragraph (a) of this section shall be applied separately to each plan at the date of its termination, and the amounts payable by PBGC under each plan shall be aggregated up to the limitation contained in this paragraph.

§ 2609.4 Computation of maximum guaranteeable benefits.

(a) *General.* Where a benefit is payable in any manner other than as a monthly benefit payable for life commencing at age 65, the maximum guaranteeable monthly amount of such benefit shall be computed by applying the applicable factor or factors set forth in paragraphs (c)-(e) of this section to the monthly amount computed under § 2609.3(a). In the case of a step-down life annuity, the maximum guaranteeable monthly amount of such benefit shall be computed in accordance with paragraph (f) of this section.

(b) *Application of adjustment factors to monthly amount computed under § 2609.3(a).* (1) Each percentage increase or decrease computed under paragraphs (c), (d), and (e) of this section shall be added to or subtracted from a base of 1.00, and the resulting amounts shall be multiplied.

(2) The monthly amount computed under § 2609.3(a) shall be multiplied by the product computed pursuant to paragraph (b)(1) of this section in order to determine the participant's and/or beneficiary's maximum benefit guaranteeable.

(c) *Annuitant's age factor.* If a participant or the beneficiary of a deceased participant is entitled to and chooses to receive his benefit at an age younger than 65, the monthly amount computed under § 2609.3(a) shall be reduced by the following amounts for each month up to the number of whole months below age 65 that corresponds to the later of the participant's age at the date of plan termination or his age at the time he begins to receive the benefit:

For each of the 60 months immediately preceding the 65th birthday, the reduction shall be 1/12 of 1 percent;
For each of the 60 months immediately preceding the 60th birthday, the reduction shall be 1/12 of 1 percent;
For each of the 120 months immediately preceding the 55th birthday, the reduction shall be 2/12 of 1 percent; and
For each succeeding 120 month period, the monthly percentages reduction shall be 1/2 of that used for the preceding 120 month period.

(d) *Factor for benefit payable in a form other than as a life annuity.* When a benefit is in a form other than a life annuity payable in monthly installments, the monthly amount computed under § 2609.3(a) shall be adjusted by the appropriate factors on a case-by-case basis by PBGC. This paragraph sets forth the adjustment factors to be used for several common benefit forms payable in monthly installments.

(1) *Period certain and continuous annuity.* The monthly amount computed under § 2609.3(a) shall be reduced by the following amounts for each month of the period certain subsequent to the date of plan termination:

For each month up to 60 months deduct 1/24 of 1 percent;
For each month beyond 60 months deduct 1/12 of 1 percent.

(i) A cash refund annuity shall be treated as a benefit payable for a period certain and continuous. The period of certainty shall be computed by dividing the amount of the lump-sum refund by the lesser of the maximum monthly amount guaranteeable under § 2609.3(a), computed without regard to the provisions of this paragraph, and the monthly amount to which the participant is entitled under the terms of the plan.

V 40 N 213 NOV 4 75 XUM

(ii) An installment refund annuity shall be treated as a benefit payable for a period certain and continuous. The period of certainty shall be computed by dividing the amount of the remaining refund by the lesser of the maximum monthly amount guaranteeable under § 2609.3(a), computed without regard to the provisions of this paragraph, and the monthly amount to which the participant is entitled under the terms of the plan.

(2) *Joint and survivor annuity (contingent basis).* The monthly amount computed under § 2609.3(a) shall be reduced by an amount equal to 10 percent plus ⅛ of 1 percent for each percentage point in excess of 50 percent of the participant's benefit that will continue to be paid to the beneficiary. If the benefit payable to the beneficiary is less than 50 percent of the participant's benefit, PBGC shall provide the adjustment factors to be used.

(3) *Joint and survivor annuity (joint basis).* The monthly amount computed under § 2609.3(a) shall be reduced by an amount equal to ⅛ of 1 percent for each percentage point in excess of 50 percent of the participant's original benefit that will continue to be paid to the survivor. If the benefit payable to the survivor is less than 50 percent of the participant's original benefit, PBGC shall provide the adjustment factors to be used.

(e) **When a benefit is payable in a form described in paragraphs (d) (2) or (3) of this section, and the beneficiary's age is different from the participant's age, the monthly amount computed under § 2609.3(a) shall be adjusted by the following amounts:**

If the beneficiary is younger than the participant, deduct 1 percent for each year of the age difference;

If the beneficiary is older than the participant, add ½ of 1 percent for each year of the age difference.

In computing the difference in ages, years over 65 years of age shall not be counted.

(f) *Step-down life annuity.* (1) The temporary additional amount payable under a step-down life annuity shall be converted to a life annuity payable in monthly installments by multiplying the appropriate factor based on the participant's age and the number of remaining years of the temporary additional benefit by the amount of the temporary additional benefit. The factors to be used are set forth in the table below. The amount of the monthly benefit so calculated shall be added to the level amount of the monthly benefit payable for life to determine the level-life annuity that is equivalent to the step-down life annuity.

Factors for converting temporary additional benefit under stepdown life annuity

Age of participant at the later of the date the temporary additional benefit commences or the date of plan termination [1]	Number of years temporary additional benefit is payable under the plan as of the date of plan termination

64	.088									

[1] Age of participant is his age at his last birthday.

NOTE.—If the benefit is payable for less than 1 year, the appropriate factor is obtained by multiplying the factor for 1 year by a fraction, the numerator of which is the number of months the benefit is payable, and the denominator of which is 12. If the benefit is payable for 1 or more whole years, plus an additional number of months less than 12, the appropriate factor is obtained by linear interpolation between the factor for the number of whole years the benefit is payable and the factor for the next year.

(2) If a participant is entitled to and chooses to receive a step-down life annuity at an age younger than 65, the monthly amount computed under § 2609.3(a) shall be adjusted by applying the factors set forth in paragraph (c) of this section in the manner described in paragraph (b) of this section.

(3) If the level-life monthly benefit calculated pursuant to paragraph (f) (1) of this section exceeds the monthly amount calculated pursuant to paragraph (f) (2) of this section, then the monthly maximum benefit guaranteeable shall be a step-down life annuity under which the monthly amount of the temporary additional benefit and the amount of the monthly benefit payable for life, respectively, shall bear the same ratio to the monthly amount of the temporary additional benefit and the monthly benefit payable for life provided under the plan, respectively, as the monthly benefit calculated pursuant to paragraph (f) (2) of this section bears to the monthly benefit calculated pursuant to paragraph (f) (1) of this section.

§ 2609.5 Benefit increases.

(a) *Scope.* This section applies:

(1) To all benefit increases, as defined in § 2609.2, payable with respect to a participant other than a substantial owner (as defined in section 4022(b)(6)(A) of the Act), which have been in effect for less than five years preceding the date of plan termination, and

(2) To all benefit increases payable with respect to a substantial owner, which have been in effect for less than 30 years preceding the date of plan termination.

(b) *General rule.* Benefit increases described in paragraph (a) of this section shall be guaranteed only to the extent provided in § 2609.6 with respect to a participant other than a substantial owner and in § 2609.7 with respect to a participant who is a substantial owner.

(c) *Computation of guaranteeable benefit increases.* Except as provided in paragraph (d) of this section pertaining to multiple benefit increases, the amount of a guaranteeable benefit increase shall be the amount, if any, by which the monthly benefit calculated pursuant to paragraph (c)(1) of this section exceeds the monthly benefit calculated pursuant to paragraph (c)(3) of this section.

(1) Determine the lesser of (i) the monthly benefit payable under the terms of the plan subsequent to the increase, using service credited to the date of plan termination or (ii) the maximum monthly benefit guaranteeable under § 2609.3(a) subsequent to the increase, using service credited to the date of plan termination;

(2) Determine, in accordance with the provisions of § 2609.4, the factors which would be used to calculate the monthly maximum benefit guaranteeable under the plan prior to the increase, and state those factors in the manner set forth in § 2609.4(b)(1);

(3) Multiply the monthly benefit provided under the plan prior to the increase based on service credited to the date of plan termination by a fraction, the numerator of which is the product of the factors, stated in the manner set forth in § 2609.3(b)(1), used in the calculation under paragraph (c)(2) of this section and the denominator of which is the product of the factors computed pursuant to paragraph (c)(3) of this section.

(d) *Multiple benefit increases.* (1) Where there has been more than one benefit increase described in paragraph (a) of this section, the amounts of guaranteeable benefit increases shall be calculated beginning with the earliest increase, and each such amount (except for the amount resulting from the final benefit increase) shall be multiplied by a fraction, the numerator of which is the product of the factors, stated in the manner set forth in § 2609.4(b)(1), used to calculate the monthly maximum guaranteeable benefit under § 2609.3(a) and the denominator of which is the product of the factors used in the calculation under paragraph (c)(2) of this section.

(2) Each benefit increase shall be treated separately for the purposes of § 2609.6, except as otherwise provided in § 2609.6(d) and for the purposes of § 2609.7, as appropriate.

(e) For the purposes of this part, a benefit increase is deemed to be in effect

commencing on the later of its adoption date or its effective date.

§ 2609.6 Five-year phase-in of benefit guarantee for participants other than substantial owners.

(a) *Scope.* This section applies to the guarantee of benefit increases which have been in effect for less than five years with respect to participants other than substantial owners, as defined in section 4022(b)(6)(A) of the Act.

(b) *Phase-in formula.* The amount of a benefit increase computed pursuant to § 2609.5 shall be guaranteed to the extent provided in the following formula:

The number of years the benefit increase has been in effect, not to exceed five, multiplied by the greater of (1) 20 percent of the amount computed pursuant to § 2609.5; or (2) $20 per month.

(c) *Computation of years.* In computing the number of years a benefit increase has been in effect, each complete 12-month period prior to the date of termination during which such benefit increase was in effect shall constitute one year.

(d) *Multiple benefit increases.* In applying the formula contained in paragraph (b) of this section, multiple benefit increases within any 12-month period prior to the date of termination and calculated from that date shall be aggregated and treated as one benefit increase.

(e) Notwithstanding the provisions of paragraph (b) of this section, a benefit increase described in paragraph (a) of this section shall be guaranteed only if PBGC determines that the plan was terminated for a reasonable business purpose and not for the purpose of obtaining the payment of benefits by PBGC.

§ 2609.7 Phase-in of benefit guarantee for participants who are substantial owners.

(a) *Scope.* This section shall apply to the guarantee of all benefits described in Part 2605 of the chapter with respect to participants who are substantial owners, as defined in section 4022(b)(6)(A), at the date of plan termination or who were substantial owners at any time within the 5-year period preceding that date.

(b) *Phase-in formula when there have been no benefit increases.* Benefits provided by a plan under which there has been no benefit increase as defined in § 2609.2, other than the adoption of the plan, shall be guaranteed to the extent provided in the following formula:

The monthly amount computed under § 2609.3(a) multiplied by a fraction not to exceed 1, the numerator of which is the number of full years prior to the date of plan termination that the substantial owner was an active participant under the plan, and the denominator of which is 30.

(c) *Phase-in formula when there have been benefit increases.* If there has been a benefit increase under the plan as defined in § 2609.2, other than the adoption of the plan, benefits provided by each such increase shall be guaranteed to the extent provided in the following formula:

The amount of the guaranteeable benefit increase computed under § 2609.5 multiplied by a fraction not to exceed 1, the numerator of which is the number of full years prior to the date of termination that the benefit increase was in effect and during which the substantial owner was an active participant under the plan, and the denominator of which is 30. However, in no event shall the total benefits guaranteed under all such benefit increases exceed the benefits which are guaranteed under paragraph (b) of this section with respect to a plan described therein.

§ 2609.8 Effect of tax disqualification.

(a) *General rule.* Except as provided in paragraph (b) of this section, benefits accrued under a plan after the date on which the Secretary of the Treasury or his delegate issues a notice that any trust which is part of the plan no longer meets the requirements of section 401(a) of the Internal Revenue Code of 1954 or that the plan no longer meets the requirements of section 404(a) of the Code or after the date of adoption of a plan amendment that causes the issuance of such a notice shall not be guaranteed under this part.

(b) *Exceptions.* The restriction on the guarantee of benefits set forth in paragraph (a) of this section shall not apply if:

(1) The Secretary of the Treasury or his delegate issues a notice stating that the original notice referred to in paragraph (a) of this section was erroneous;

(2) The Secretary of the Treasury or his delegate finds that, subsequent to the issuance of the notice referred to in paragraph (a) of this section, appropriate action has been taken with respect to the trust or plan to cause it to meet the requirements of section 401(a) or 404(a)(2), respectively, and issues a subsequent notice stating that the trust or plan meets such requirements; or

(3) The plan amendment is revoked retroactively to its original effective date.

Issued in Washington, D.C., this 30th day of October, 1975.

STEVEN E. SCHANES,
Executive Director,[1]
Pension Benefit Guaranty Corporation.

HENRY ROSE,
Secretary, Pension Benefit Guaranty Corporation.

[FR Doc.75-29636 Filed 11-3-75;8:45 am]

PART VI:

INTERSTATE COMMERCE COMMISSION

Procedures to be Followed in Motor Carrier Revenue Proceedings

V 40 213 NOV 4 75 XUM

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. MC-82]

PART 1104—PROCEDURES TO BE FOLLOWED IN MOTOR CARRIER REVENUE PROCEEDINGS

In response to various petitions for modification and reconsideration, the Interstate Commerce Commission has revised procedures, adopted in prior reports (339 I.C.C. 325 and 340 I.C.C. 1), governing the data and information to be submitted by motor carriers of general commodities seeking general revenue increases.

These revisions (1) expand the application of the procedures (making the Niagara Frontier Tariff Bureau, Inc. and the Motor Carriers Traffic Association also subject to them), (2) require the submission of certain additional data, and (3) revise and further define various definitions and data computations. Specific revisions are as follows.

The traffic study requirement of § 1104.2(a) is amended to allow use of data based on the latest traffic year and augmentation of the traffic study group with additional carriers where appropriate. Also with regard to the traffic study requirement, the phrase "possible labor and non-labor increases," found in § 1104.3(c), is changed to read "provable labor and non-labor increases," and a third alternative method of updating cost data authorized.

Revenue need computations required by § 1104.4 and prescribed in Appendix A to Part I have also been revised in several aspects. The carriers now must submit data for the two calendar years immediately preceding the "base calendar year—actual" and quarterly data between the "base calendar year—actual" and the proposed effective date of the increase.

Another change is that data specified in Appendices A, B; and C must now be shown separately for study carriers which derive 50 percent and more of their system revenues from the issue traffic. Definitions of "current liabilities" and "working capital" have also been modified, and computations regarding "carriers' rate of return on shareholders' equity," "capital structure," and "long-term debt to shareholders' equity" are now required with and without "intangibles."

Appendix B has also been expanded by adding thereto a "return on total capitalization" ratio and two new ratios. Also newly being required is a "funds flow" statement which is to be computed on both a carrier only and a consolidated basis.

Other changes authorize the use of year-end balance sheet data in computing all but one Appendix B ratio; require data regarding cash dividends on stock and a "dividend payout ratio"; and submission of Appendix A, B, and C data on a specified consolidated basis. As revised, deferred taxes are now excluded from the "sum of money" calculations of Appendix A, and Appendix B is to be calculated on a defered tax basis, including certain deferred tax liability data. The procedures now also include conversion tables (Attachment I to Appendices A and B) to reflect changes to the carriers' annual report form (Motor Carrier Annual Report Form A for Class I Motor Carriers of Property) as a result of the new uniform system of accounts which became effective January 1, 1974.

These regulations are issued under 49 U.S.C. 305(h), 316(g), 316(l), and 5 U.S.C. 553(b).

The changes to the procedures are to take effect on or before December 4, 1975. Reasons for their adoption are set forth in the Commission's Report and Order on Furthering Reconsideration, entered September 19, 1975 and printed at 351 I.C.C. 1.

Issued in Washington, D.C., October 23, 1975.

Upon consideration of the record in this proceeding, including the prior reports of the Commission, 339 I.C.C. 324 and on reconsideration, 340 I.C.C. 1, prescribing procedures published as Part 1104 "Procedures to be Followed in Motor Carrier Revenue Proceedings," of Chapter X of Title 49 of the Code of Federal Regulations; of petitions for reconsideration and modification filed on January 10, 1972 by Rocky Mountain Motor Tariff Bureau, on April 3, 1972 by Arthur W. Todd, and on April 10, 1972 individually by the National Industrial Traffic League, (hereafter the NIT League), by the Middle Atlantic Conference, and jointly by Central and Southern Motor Freight Tariff Association, Inc., Central States Motor Freight Bureau, Inc., The Eastern Central Motor Carriers Association, Inc., Middle Atlantic Conference, Middlewest Motor Freight Bureau, The New England Motor Rate Bureau, Inc., Pacific Inland Tariff Bureau, Southern Motor Carriers Rate Conference, and Southwestern Motor Freight Bureau, Inc.; and replies thereto filed on May 1, 1972 by Niagara Frontier Tariff Bureau, Inc.; on June 29, 1972 jointly by the National Small Shipments Traffic Conference and Drugs and Toilet Preparation Traffic Conference; and on June 30, 1972 by certain petitioners, by the Rocky Mountain Motor Tariff Bureau, Inc., and individually by the Motor Carriers Traffic Association, Inc. and NIT League; and good cause appearing therefor:

It is ordered, That the said petitions be and they are hereby granted.

It is further ordered, That the prescribed procedures previously modified in Appendix III of our report on reconsideration, 340 I.C.C. 1 at 27, be, and they are hereby, amended to read as set forth below to the report and order of the Commission of further reconsideration, 351 I.C.C. 54, decided on this date.

It is further ordered, That the prescribed procedures as amended, shall be published in the FEDERAL REGISTER and in the Code of Federal Regulations.

It is further ordered, That the prescribed procedures, as amended, shall take effect on or before December 4, 1975.

And it is further ordered, That this order shall continue in full force and effect until the further order of the Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Prescribed procedures[1]

§ 1104.1 Application.

(a) Upon the filing by the tariff publishing agencies named hereinafter on behalf of their motor common carrier members, or by such other agencies as the Commission may by order otherwise designate, of agency tariff schedules which contain: (1) Proposed general increases in rates or charges on general freight where such proposal would result in an increase of $1 million or more in the annual operating revenues on the traffic affected by the proposal; (2) a proposed general adjustment with the objective of restructuring the rates on a wide range of traffic, involving both increases and reductions in rates and charges, where such proposal would result in a net increase of $1 million or more in annual operating revenues; or (3) in any proceeding involving a proposed rate restructuring which would result in a net increase of less than $1 million in annual operating revenues, the motor common carriers of general freight on whose behalf such schedules are filed shall, concurrently with the filing of those tariff schedules, file and serve, as provided hereinafter, a verified statement presenting and comprising the entire evidential case which is relied upon to support the proposed general increase or rate restructuring. Carriers thus required to submit their evidence when they file their schedules are hereby notified that special permission to file those schedules shall be conditioned upon the publishing of an effective date at least 45 days later than the date of filing, to enable proper evaluation of the evidence presented. Under agency tariffs meeting the provisions of paragraphs (a) (1) and (a) (2) of this section, the carriers shall submit data in accordance with §§ 1104.2–1104.4. Under agency tariffs meeting the provisions of paragraph (a) (3) of this section, the carriers shall submit the data sought in §§ 1104.2 and 1104.3. Data to be submitted in accordance with §§ 1104.2–1104.4 represent the minimum data required to be filed and served, and in no way shall be considered as limiting the type of evidence that may be presented at the time of filing of the schedules. If a formal proceeding is instituted, the carriers are not precluded from updating the evidence submitted at the time of filing of the schedules to reflect the contemporary situation.

(b) The motor common carriers of general freight which are subject to the provisions of this section are those which are members of the following tariff publishing agencies:

Central and Southern Motor Freight Tariff Association, Inc., Central States Motor Freight Bureau, Inc., The Eastern Central Motor Carriers Association, Inc., Middle Atlantic Conference, Middlewest Motor Freight Bureau, Motor Carriers Tariff Association, Inc., The New England Motor Rate Bureau, Inc., Niagara Frontier Tariff Bureau, Inc., Pacific Inland Tariff Bureau, Inc., Rocky Mountain Motor Tariff Bureau, Inc., Southern Motor Carriers Rate Conference.

(c) Upon the filing of tariff schedules other than those described hereinabove, the carriers or their tariff publishing agencies shall be required to comply with such procedures as the Commission may direct in the event an investigation is instituted. Nothing stated in this part shall relieve the carriers of their burden of proof imposed under the Interstate Commerce Act.

§ 1104.2 Traffic study.

(a) The respondents shall submit a traffic study for the most current 12-month calendar year available, which shall be referred to as the "base calendar year—actual." If the effective date of the tariff schedules occurs during the calendar period August 1 through December 31, inclusive, the "base calendar year-actual" shall be the immediately preceding calendar year. If the effective date of the tariff schedules occurs during the calendar period January 1 through July 31, inclusive, the "base calendar year-actual" shall be the second preceding calendar year: *Provided, however*, That if traffic study data for the immediately preceding calendar year are available then this study year should be used as the "base calendar year—actual." The study shall include a probability sampling of the actual traffic handled during identical time periods for each study carrier.

(b) (1) The study carriers shall consist of those carriers subject to the requirements for allocation of expenses between line-haul and pickup and delivery services, as provided in Part 1207 of this chapter, Instruction 27, which participate in one of the motor carrier industry's Continuous Traffic Studies (CTS), and which derive $1 million or more in annual operating revenues from this issue traffic or 1 percent or more of the total annual operating revenues of all carriers from the issue traffic. A list of such carriers and the appropriate revenue data shall be submitted to corroborate the selection of the study carriers. "Issue traffic" consists of those shipments on which the freight rates or charges would be affected by the rate proposal.

(2) In addition to the traffic, cost, revenue need, and affiliate data studies required for the above designated study carriers, respondents may also submit, in addition thereto, similar studies based on an expanded group of study carriers. This expanded study carrier group shall include only those Instruction 27 carriers which participate in the industry's CTS and it shall include all such carrier's which derive annual revenues from the issue traffic equal to, or exceeding, the annual issue traffic revenues received by a study carrier obtaining no less than $200,000 in annual issue traffic revenues.

(c) (1) Respondents shall take a sample of the traffic handled by the study carriers according to acceptable standards of probability sampling principles and practices, and shall explain and evaluate the probability sample from the standpoint of purpose, sample design (including explanation of estimation procedure and disclosure of sampling errors for derived characteristics), quality control aspects involved in processing and tabulating data and any statistical analysis performed on the sampled data.[2] This explanation shall include the method or methods which were used to properly weight those study shipments which were interlined between two or more study carriers so as to avoid multiple counting.

(2) The foregoing explanation shall include an estimate of the number of single-line shipments of issue traffic and revenues derived therefrom which were not included in the frame of study carriers (as defined in § 1104.2(b) (1)). This estimate shall be provided for each Class I carrier not included in the study carrier frame which derived $50,000 more of revenue from the issue traffic during the base calendar year-actual. However, some revenue figure less than $50,000 may also be used. A full explanation of the principles, procedures and data sources used to develop this estimate shall be provided.

(3) Respondents shall also submit the following statistical data relative to the components of the sample: (i) The number of *single-line* shipments and revenues derived therefrom for (a) the total traffic (issue and non-issue), and (b) the issue traffic only; (ii) The number of interline shipments and revenues derived therefrom for (a) the total traffic (issue and non-issue), b) the issue traffic only; (iii) The number of interline "segments" carried by the *study carriers* and revenues derived therefrom for (*a*) the total traffic (issue and non-issue), and (*b*) the issue traffic only; and (iv) The number of interline "segments" carried by the *non-study carriers* and revenues derived therefrom for (*a*) the total traffic (issue and non-issue), and (*b*) the issue traffic only.

(d) For cost and revenue purposes, the "carried" basis shall be shown. "Carried" traffic means the issue traffic handled solely by the study carriers, either single-line or interline. Respondent carriers, however, are not precluded from submitting additional data on a through basis but they should be prepared to demonstrate that use of this basis does not result in a substantial sampling bias.

Estimates of current revenues applicable to the issue traffic should reflect all rates and charges in effect no later than 45 days prior to the date of the tariff filing.

§ 1104.3 Cost study.

(a) The respondents shall submit a cost study. Highway Form B may be used for this purpose. Service unit costs shall be developed for each individual study carrier, adjusted by size of shipment and length of haul, and shall be applied to respective individual carrier's traffic service units as developed from its traffic study. Operating ratios shall be determined for the issue traffic on the "carried" traffic basis by individual weight brackets affected by the rate proposal for: (1) The traffic study year, that is, the "base calendar year-actual," as hereinbefore defined; (2) a "present proforma year" based on present wage, price and productivity levels prevailing on a date no later than 45 days prior to the date of the tariff; and (3) a "restated proforma year" based on provable wage, price and productivity levels prevailing on the effective date of the proposed rates, with a separation indicating projected operating ratios on two bases, namely, "based on current revenues," and "based on proposed revenues." Operating ratios shall also be shown for all other traffic not affected by the rate proposal for the same weight brackets as shown for the issue traffic, but only for the period indicated in subparagraph (1) of this paragraph. In determining the cost for interline movements involving both study and non-study carriers, either the weighted composite unit cost of the study carriers or the applicable regional average unit cost should be used for that portion of the interline movements handled by the non-study carriers.

(b) In addition to the operating ratios, the cost study shall also be used to develop and provide the revenue-to-cost comparisons required in Appendix A to this part for the time period there specified.

(c) For both the operating ratios and the revenue-to-cost comparisons in Appendix A to this part, the "each-to-each" costing method, i.e., the application of each individual study carrier's unit costs to its traffic service units, applies only to the "base calendar year—actual." The application of provable labor and non-labor cost increases for the purpose of updating the "base calendar year-actual"

[1] The prescribed procedures as set forth hereinafter also incorporate changes recently adopted in Ex Parte No. 286, *Notice of Increases in Frt. Rates and Pass. Fares*, 349 I.C.C. 741.

[2] Although not adopted by the Commission, attention is called to a staff report, "Guidelines for the Presentation of the Results of Sample Studies," February 1, 1971, available from the Superintendent of Documents.

V 40 213 NOV 4 75 N XUM

cost data may be accomplished by using one of the following methods: (1) Individual carrier "updating" data applied to each of the respective study carrier's base data; (2) composite carrier "updating" data— for those individual study carriers whose revenues from the issue traffic during the "base calendar year-actual" amount to 50 percent or more of their respective total system revenues—applied to the study carriers' base data; or (3) composite carrier "updating" data—for those study carriers which in total account for 50 percent of the issue traffic revenues during the "base calendar year-actual"—applied to the study carriers' base data. In subparagraph (3) of this paragraph the study carriers to be used shall be selected from a list of study carriers arrayed in descending order beginning with the carrier deriving the greatest *percentage* of its total system revenues from the traffic at issue. The issue traffic revenues for each of the study carriers (beginning with that carrier having the greatest percentage as defined above) shall be accumulated until such revenues amount to 50 percent of the total issue traffic revenues for all study carriers. The study carriers thus obtained shall, on a composite basis, be used for "updating" purposes. However, method in subparagraph (2) may be used only if method in subparagraph (2) indicates less than six individual study carriers obtaining 50 percent or more of their respective total system revenues from the issue traffic. The sample values for expenses and revenues shall be expanded to full year values without adjustments to known annual report figures of any carrier.

(d) Where cost studies are developed through the use of computer processing techniques, there shall be submitted a manual application of the costing procedures used for one traffic and cost study carrier (study carrier) in order to demonstrate the procedures by which the computer program distributes the annual report statistics, and applies service unit costs to each shipment. An illustration of the application of service unit-costs to the applicable traffic service units generated by one single-line sample shipment and by one interline sample shipments shall also be submitted. These sample shipments shall be on the "carried" basis.

§ 1104.4 Revenue need.

Traffic and cost study carriers, i.e., the study carriers, shall submit evidence of the sum of money, in addition to operating expenses, including that needed to attract debt and equity capital, which they require to insure financial stability and the capacity to render service this evidence shall include data required by Appendix A, parts I and II, and Appendices B and C to this part.

§ 1104.5 Official notice.

The Commission will take official notice of all of the proponent carriers' annual and quarterly reports on file with the Commission.

§ 1104.6 Summary of the increase proposal.

The respondents shall submit a summary of the increase proposal, drafted in language directed at a reader who is not an expert in transportation matters and prepared in sufficient detail to apprise such a reader of the nature of the increase proposal. Pursuant to this purpose the summary will essentially contain the following:

(a) A general description of the increase proposal including its proponent(s), effective date, geographic scope, the amount of the increase, and a general description of holddowns, flagouts, and exceptions.

(b) A summary of the supporting rationale for the increase including why it is needed, what it will accomplish, an explanation in general terms for the presence of the holddowns, flagouts, and exceptions found therein; and as applicable, conclusions reached (1) in the traffic study, (2) in the cost study, (3) concerning the effect of transactions with affiliates on the parent's revenue need, and (4) with regard to the sum of money which the carrier asserts it requires to insure its financial stability.

(c) A statement indicating that copies of the proposal, the entire evidentiary case in support thereof, and this summary have been furnished to regional and district offices of the Commission and to the State regulatory agency responsible for such matters in all States served by the carrier and affected by the proposal.

(d) A statement as follows: "The proposed tariff* contains the only legal terms of the increase binding on the parties." (*"(A)nd/or petition" if applicable).

§ 1104.7 News release.

The respondents shall submit a notice of the increase proposal, suitable for forwarding as a news release, and prepared so that the public in general may be apprised of the increase proposal; and which pursuant to this purpose as a minimum will contain essentially the following:

(a) A statement directed at the editor of a newspaper stating that the news release has been prepared in accordance with regulations of the Interstate Commerce Commission so that the public in general may be apprised of the increase proposal, and requesting that the information being forwarded be given prominent placement in the newspaper so that as large a segment as possible of the public in general may be apprised thereof.

(b) A description, in language sufficient to apprise a reader who is not an expert in transportation matters, of the nature of the proposal—including the amount of the increase, the proponent (s) its geographic scope, and, in general terms, holddowns, flagouts, and exceptions.

(c) A statement summarizing the supporting rationale for the increase, including why it is needed, what it will accomplish, and, in general terms, accounting for the presence of the holddowns, flagouts, and exceptions.

(d) A statement indicating that copies of the proposal, the evidentiary case in support thereof, and a summary statement have been forwarded to regional and district offices of the Commission and to the State regulatory agency responsible for such matters in all States served by the carrier and affected by the proposal; and indicating that the public may also obtain copies of those documents by writing to "(*Here the name and address of the carrier or publishing agent will be inserted*)."

§ 1104.8 Service.

(a) The detailed information called for herein shall be in writing and shall be verified by a person or persons having knowledge thereof. The original and 16 copies of each verified statement (including the summary and the news release) for use by the Commission shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

(b) One copy of each statement excluding the news release, shall be sent by first-class mail (1) to each of the regional and district offices of the Commission in the area affected by the proposed increase, where it will be open to public inspection; (2) to the State regulatory agency responsible for such matters in States served by the carrier and affected by the proposal; and (3) to each party of record in the last formal proceeding concerning a general rate increase in the affected area or territory.

(c) A copy of the news release, will be transmitted to the major news wire services and the principal newspaper of general circulation in the capital and four largest cities of each State served by the carrier and affected by the proposal. For the purpose of this requirement, the principal newspaper of general circulation is that newspaper of general circulation published in a city having the largest average daily circulation. Where such service is made by mail, the news release shall be mailed in time to be received on the date the original is filed with the Commission.

(d) Otherwise, the service requirements of Rule 22 of the Commission's general rules of practice should be observed. Information with respect to carrier affiliates may be served on the parties in summary form, if so desired. A copy of each statement shall be furnished to any interested person on request.

§ 1104.9 Availability of underlying data.

All underlying data used in preparation of the material outlined above shall be made available in the office of the party serving such verified matter during usual office hours for inspection by any party of record desiring to do so, and shall be made available to the Commission upon request therefor. The underlying data shall be made available also at the hearing, but only if and to the extent specifically requested in writing and required by any party for the purpose of cross-examination. Since Appendix A to this part data are to be submitted on a combined carrier basis, any underlying individual carrier data used to complete Appendix A to this part should be furnished to the Commission for its use as well as for the use of parties opposing the sought increases.

(s)	Related to distance	L. (q) x L. (k)					$	$	$
(t)	Total (enter amount in appendix A, part II, line 22, Method A, appropriate columns)	L. (r) + L. (s)	$	$	$	$			

Note A: This procedure allocates constant costs and the sum of money based on the ton and ton-mile method and shall be submitted for the information of the Commission. How much of the constant and sum of money costs may or should be recovered by any specific segment of traffic rest on (1) considerations including value of service, demand, and ability to pay, and (2) considerations which involve matters relating to regulatory policy.

Note B: Determine the amount of constant costs for Lines (b) and (c) by using Schedule A of Highway Form B, 6-68 (Revised October, 1974) in the following manner:

First, determine the amount of "unrelated" operating expenses assigned to the "non-distance" factor, Line (b), by computing the percentage relationship that the sum of Schedule A, Line 139, Columns (6), (7), (8), and (9) is to Schedule A, Line 139, Column (3). This percent multiplied by the total "unrelated" operating expenses (Schedule A, Line 136, Column (11), provides the amount of "unrelated" expenses assigned to the "non-distance" factor. The amount of "unrelated" operating expenses assigned to the "distance" factor, Line (c), is the difference between the total unrelated expenses and the amount assigned to the "non-distance" factor.

Secondly, For Method A, Line (b), add the sum of Schedule A, Line 139, Columns (6), (7), (8), and (9) multiplied by 10%, to the amount determined above for the "non-distance" unrelated. For Method A, Line (c), add the sum of Schedule A, Line 139, Columns (4) and (5) multiplied by 10%, to the amount determined above for the "distance" unrelated.

METHOD B—*Constant costs and sum of money allocated to issue traffic based on dollar (expense) method (See note A.)*

Line No.	Item (1)	Source for columns 3, 4, 5 (2)	Second preceding calendar year-actual (3)	First preceding calendar year-actual (4)	Base calendar year-actual (5)	Present pro-forma year (6)	Restated proforma year: Based on current revenues (7)	Restated proforma year: Based on proposed revenues (8)	Restated proforma year: Based on constructed revenue need (9)
(a)	System constant costs	Note B	$	$	$	$	$	$	$
(b)	System sum of money	Appendix A, part I, line 20							
(c)	Total system constant costs plus sum of money	Line (a) plus line (b)							
(d)	Variable expenses on issue traffic	From traffic and cost study;							
(e)	Variable expenses on issue and nonissue traffic combined	From traffic and cost study;							
(f)	Percent relationship (3 decimals)	Line (d) ÷ line (c)	%	%	%	%	%	%	%
(g)	Constant costs and sum of money allocated to issue traffic (enter amount in appendix A, part II, line 22, Method B, appropriate columns)	Line (c) x line (f)	$	$	$	$	$	$	$

Note A: This procedure allocates constant costs and the sum of money based on the dollar (expense) method and shall be submitted for the information of the Commission. How much of the constant and sum of money costs may or should be recovered by any specific segment of traffic rests on (1) considerations including value of service, demand, and ability to pay, and (2) considerations which involve matters relating to regulatory policy.

Note B: Determine the amount of constant costs, including "unrelated," by using Schedule A of Highway Form B (Revised October, 1974), Line 139, column (3) multiplied by 10 percent, plus Line 136, column (11); insert this amount on Line (a).

Explanatory, and Footnotes to Appendix A

EXPLANATORY

The purpose of appendix A is twofold, namely: (1) to obtain, through Part I, *Revenue Need*, an indication of the past, present, and restated system revenue needs of the traffic and cost study carriers, which, along with the financial data required in appendixes B and C, will facilitate an analysis of the financial stability of these carriers, and (2) to allocate a part of these system revenue needs to the traffic at issue as provided for in Part II, *Allocation to Traffic at Issue*. It is that portion of constant and sum of money costs resulting from this allocation (line 22) plus the related variable expenses (line 23) which produces the total costs assigned to the issue traffic (line 25). These costs are then compared to the issue traffic revenues in the revenue-to-cost comparison shown on line 26. This comparison provides some indication of how much the total issue traffic is contributing to the carriers' overall revenue needs; and it serves as a reference point for the consideration of ratemaking factors, other than costs, which may influence the appropriateness of the issue traffic's contribution.

Appendix A should be submitted for each of the following carrier groupings:

Group I.—All traffic and cost study carriers.

Group II.—Those traffic and cost study carriers which derive 50 percent and more of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Group III.—Those traffic and cost study carriers which derive less than 50 percent of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Where, in a given situation, there are less than 5 traffic and cost study carriers which do not derive 50 percent and more of their total system revenues from the traffic at issue, carrier groupings II and III need not be submitted.

Time frames for the column heads (3) through (8) should be appropriately identified either in the column heads themselves or by footnote. Data in Parts I and II, for each of the columns (3) through (7), should be developed for each traffic and cost study carrier and the respective results appropriately combined, for all such carriers. Data in part I, columns (8) through (11), which reflect an updating of revenue need data from the "base calendar year—actual" to present and restated levels, should be developed on either an individual carrier basis, or on a composite carrier basis comprised of all traffic and cost study carriers. Under either basis, operating revenues, line 1, column (10), should reflect the proposed revenues attributable to the system-wide operations of the study carriers, and every effort should be made to reflect the increased revenues resulting from other proposed rate increases on non-issue traffic which have an effective date on or near the effective date of proposed rate increases on the "issue traffic."

With respect to the total operating expenses, line 2, columns (8), (9), and (10), when the composite carrier basis is used these expenses shall be determined by applying updating factors in the following manner: *Issue Traffic*—Use factors from either the individual carrier basis or the so-called 50 percent and over carrier basis, *Non-Issue Traffic*—Use factors from the composite carrier basis. The updated expenses so determined separately for the issue and non-issue traffics should then be combined and inserted in line 2.

Data in part II, line (23), columns (8) through (11), which reflect an updating of the cost and traffic study data for the "base calendar year—actual" to present and restated levels, should be developed by the use of either individual carrier data for each of the study carriers, or the composite carrier data for those study carriers whose revenues from the issue traffic amount to 50 percent or more of their total system revenues in the "base calendar year—actual." However, for line (23), columns (8) through (11) the method selected should be the same as that used to update the operating ratios to present and restated levels as required in §1104.3.

Cost Study

Data in parts I and II, columns (8) through (11), must be appropriately explained and supported. Each of the dollar figures called for in these columns shall be accompanied by an explanation of the bases or methods of restatement, including explicit identification of all projected or assumed changes in revenues, in wage rates, in price levels of other expenses and property items, and in productivity, as compared with the preceding factual) year results.

FOOTNOTES

[1] Annual report sources in this column refer to 1974 Annual Report Form M-1 for Class I motor carriers; for Class II Carriers and for years prior or subsequent to 1974 use comparable annual report sources. The annual report sources apply to columns (3) through (5). Data for columns (8) through (11) should consider the data in columns (3) through (6) as a base in order to reflect data for the "Present proforma year." Sources for columns (6) and (7) may be either quarterly or annual reports, as applicable.

[2] For the purpose of Appendix A the time periods "Second Preceding Calendar Year—Actual" (column (3)), and "First Preceding Calendar Year—Actual" (column (4)) refer to the calendar years immediately preceding the "Base Calendar Year—Actual" (column (5)). Where the consist of the traffic and cost study carriers used in columns (3) or (4) is different from that used in the "Base Calendar Year—Actual," identify that difference in carrier consist and explain.

[3] The data in part I, column (5), should reflect the revenue need data (part I) for the traffic and cost study data (part II), for the traffic study year, i.e., the "Base Calendar Year—Actual," which should coincide with the "Base Calendar Year—Actual" referred to in §1104.3, *Cost Study*.

[4] The purpose of column (6) is to obtain the actual income statement data available for a time period immediately following the "Base Calendar Year—Actual" column (5). The purpose of column (7) is to obtain comparative data for the corresponding previous period. Since a proposed rate increase having an effective date of August 1 or later must be based on a traffic study for the previous calendar year, i.e., the "Base Calendar Year—Actual," the quarterly periods (cumulative if more than one) immediately following this base year should be reported in column (6). Comparative data for the corresponding quarters in the "Base Calendar Year—Actual" should be reported in column (7). In the event that a proposed rate increase has an effective date earlier than August 1, it is possible that actual data will be available for more than 4 quarters following the "Base Calendar Year—Actual." For example, if the proposed rate increases were effective July 1, 1974, the "Base Calendar Year—Actual" would be 1972 and therefore, the calendar year 1973 and the 1st quarter of 1974, should be reported separately as column 6(a) calendar year 1973 and column 6(b) 1st quarter 1974. Since the corresponding previous period is calendar year 1972, the same as the Base Calendar Year—Actual (column 5), only the 1st quarter of 1973 need be reported in column (7).

[5] The data in column (8) should be based on present wage, price and productivity levels prevailing on a date no later than the 45 days prior to the date of the tariff filing.

[6] The data in columns (9), (10), and (11) should be based on provable wage, price, and productivity levels prevailing on the effective date of the proposed rates.

[7] The purpose of this column is to obtain data on what the system revenue needs of the study carriers *should* be at a given time. Part I shall be based on an analysis of the sum of money in addition to operating expenses (including that needed to attract debt and equity capital) required to insure financial stability and the capacity to render service.

[8] In columns (8) through (10), determine the sum of money based on data shown for lines 1 through 18. In column (11), the constructed sum of money should be supported by evidence that it is a just and reasonable amount and is that needed to attract debt and equity capital and to insure financial stability and the capacity to render service. Such evidence should include an analysis of the adequacy of the carriers' earnings, the carriers' cost of debt and equity capital, the various kinds of risk attending their operatinns and the financing thereof, and the carriers' ongoing needs for working capital, new equipment and facilities.

[9] Show expenses and revenues allocated to the total issue traffic based on an expansion of the sample to a full year. The amount shown on line 23 for variable expenses, should agree with that shown in Method B, line (d).

Explanatory, Appendix B (Parts I and II)

The purpose of Appendix B (Parts I and II) together with Appendices A and C and the various data required therein, is to establish the minimum financial data required for an evaluation of the carriers' revenue needs.

Appendix B (Parts I and II) data shall be filed on both a "consolidated" and "carrier only" bases. The "consolidated" data required for these purposes shall be compiled in conformity with the guidelines set forth below. The "carrier only" data required under these procedures relate strictly to the carrier entity and its financial statements filed with the Commission.

Guidelines for compiling "consolidated" data follow:

(1) Consolidated data, as defined herein for the purpose of these instructions, refers to the consolidated statement of financial position, income statement, and statement of changes in financial position of the traffic and cost study carriers and any "Family" companies which comprise integral parts of the carrier's operations and whose express purpose, either singularly or collectively, is to provide transportation service or is supportive to such activity.

(2) The definition of family company herein is limited to the following:

(a) any carrier or non-carrier holding company which is exclusively engaged in the provision of motor carrier transportation service and controls, through majority stock ownership, one or more carriers.

(b) any carrier subsidiary which is majority owned and controlled by its carrier parent and whose express purpose and operations are supportive to the transportation operations of its parent.

(c) any carrier affiliate under common control with the carrier and whose express purpose and operations are supportive to the transportation operations of the carrier.

(3) Subject to any modification arising from the instructions set forth above, balance sheet and income statement data for the purpose of these instructions shall be consolidated in accordance with generally accepted accounting principles.

(4) Any balance sheet or income statement data prepared in accordance with generallly accepted accounting principles shall be restated in conformity with the Uniform System of Accounts for Class I and Class II motor carriers.

"Consolidated" and "carrier only" data shall be filed separately for each of the following traffic and cost study carrier groupings, namely:

Group I.—All traffic and cost study carriers.

Group II.—Those traffic and cost study carriers which derive 50 percent and more of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Group III.—Those traffic and cost study carriers which derive less than 50 percent of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Individual data for *each* of the traffic and cost study carriers need not be filed.

Source references through line 22 of Part I and for all lines of Part II relate to Motor Carrier Form M 1 (Class I Motor Carriers of Property) for the year ended

December 31, 1974. Class I carriers should use comparable annual report sources for calendar years other than 1974. Other than Class I motor carriers should also use comparable annual report sources.

Appendix B (Part II) Instructions:

Appendix B (Part II) is designed specifically to segregate the impact of the Commission's deferred tax accounting rule changes on the carriers financial statements.

If the financial data reported in columns 3, 4, or 5 of Appendix B (Part I) apply to periods subsequent to January 1, 1974 (the effective date of the deferred tax rule change), it will be necessary to complete the corresponding column of Appendix B (Part II). For example, if the data reported in column 5 of Appendix B (Part I) is based on calendar year 1974, it will be necessary to complete column 5 of Appendix B (Part II).

NOTE

It should be noted that the time periods in this Appendix may not be identical to those in Appendix A. For example, in Appendix A the "first preceding calendar year—actual" refers to the year immediately preceding the latest traffic study year, i.e., the "base calendar year-actual." However, in Appendix B the "first preceding calendar year" is that year immediately preceding the effective date of the rate proposal. Therefore, these two time references may not be for the same calendar year. Notwithstanding these possible differences in time references and identifications, there will be situations where different time references will be for the same calendar year. For example, the "base calendar year—actual" in Appendix A may be for the year 1973 and the "first preceding calendar year" in Appendix B may likewise be for the year 1973. Thus, where there is comparability between the Appendices A and B for a given year, certain figures in these Appendices should agree. The following identifies the line numbers in these Appendices for those figures which should be in agreement for the same calendar year.

Explanatory, Appendix C

The purpose of Appendix C, together with Appendices A and B and the various data required therein, is to establish the minimum financial data required for an evaluation of the carriers' revenue needs.

Appendix C data shall be filed on both a "consolidated" and "carrier only" basis. The "consolidated" data required for these purposes shall be compiled in conformity with the guidelines set forth below. The "carrier only" data required under these procedures relate strictly to the carrier entity and its financial statements filed with the Commission.

Guidelines for "consolidated" data follow:

(1) Consolidated data, as defined herein for the purpose of these instructions, refers to the consolidated statement of financial position, income statement, and statement of changes in financial position of the traffic and cost study carriers and any "family" companies which comprise integral parts of the carriers' operations and whose express purpose, either singularly or collectively, is to provide transportation service or is supportive to such activity.

(2) The definition of family company herein is limited to the following:

(a) any carrier or non-carrier holding company which is exclusively engaged in the provision of motor carrier transportation service and controls, through majority stock ownership, one or more carriers.

(b) any carrier subsidiary which is majority owned controlled by its carrier parent and whose express purpose and operations are supportive to the transportation operations of its parent.

(c) any carrier affiliate under common control with the carrier and whose express purpose and operations are supportive to the transportation operations of the carrier.

(3) Subject to any modification arising from the instructions set forth above, balance sheet and income statement data for the purpose of these instructions shall be consolidated in accordance with generally accepted accounting principles.

(4) Any balance sheet or income statement data prepared in accordance with generally accepted accounting principles shall be restated in conformity with the Uniform System of Accounts for Class I and Class II motor carriers

"Consolidated" and "carrier only" data shall be filed separately for each of the following traffic and cost study carrier groupings, namely:

Group I.—All traffic and cost study carriers.

Group II.—Those traffic and cost study carriers which derive 50 percent and more of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Group III.—Those traffic and cost study carriers which derive less than 50 percent of their total system revenues from the traffic at issue, as indicated in the "base calendar year-actual."

Individual data for *each* of the traffic and cost study carriers need not be filed.

The term "funds" for the purpose of preparing this Appendix shall include all assets or financial resources even though a transaction may not directly affect cash or working capital. For example, the purchase of property in exchange for shares of stock or bonds would be an application of funds for investment in property provided by the issue of securities. Sources and uses of funds should be individually disclosed. For example, outlays for fixed assets should not be reported net of retirements

NOTE: Items in column 1 of this Appendix are identical to those appearing in Schedule 103 of 1974 Annual Report Form M-1. For years prior or subsequent to 1974 use comparable annual report sources.

Affiliate data

Name of affiliate	Type of affiliation	Percentage ownership by carrier	Type of service to carrier	Total affiliate revenue	Total affiliate income from operations before income taxes	Percentage revenue derived from carrier to total revenue
(1)	(2)	(3)	(4)	(5)	(6)	(7)

See following page for explanatory.

Explanatory, Appendix D

The purpose of Appendix D is to supplement Appendix B consolidated financial data with information pertaining to carrier-affiliate business relationships. Appendix D shall be filed by each traffic and study carrier having affiliates subject to consolidation under the guidelines set forth in Appendices B and C.

Guidelines for compiling affiliate data follow:

Column (1)—State full name of affiliate.

Column (2)—Enter code letter as follows:

A—Company controlled by carrier.
B—Company indirectly controlled by carrier, through intermediary companies.
C—Company under common control with carrier.
D—Company controlling carrier.

Column (3)—Enter percentage ownership by carrier of affiliates coded "A" in Column (2). Leave blank for affiliates coded other than "A."

Column (4)—Enter code letter signifying type of service performed by affiliate for carrier as follows:

A—Engineering
B—Management
C—Legal
D—Accounting
E—Financial
F—Furnishing of materials and supplies
G—Leasing of land and/or structures
H—Leasing of equipment
I—Purchase of equipment
J—Construction
K—All other services

Column (5)—State total affiliate revenue for most recent full calendar year.

Column (6)—State total affiliate income from operations before income taxes for most recent full calendar year.

Column (7)—State percentage of total affiliate revenue in Column (5) derived from services provided to carrier.

THIS HANDY REFERENCE IS A "MUST" ON YOUR BOOKSHELF!

1975/1976 EDITION

Whatever happened to the Director of Liquidation? (page 693)

Which agencies have programs concerning American Indians? (page 817)

What is SPARS? (page 762)

The answers to these and many more intriguing questions concerning the Federal Government can be found in the *U.S. Government Manual.*

This official guidebook provides useful information about a wide variety of programs and activities within the three branches of Government, including:

- Agency programs, functions, key officials, and a "Sources of Information" section
- Federal regional government system
- A historical reference to Federal agencies and functions
- Bicentennial activities and programs

This handbook is an excellent reference tool for teachers, students, librarians, businessmen, lawyers, and citizens interested in current information about the U.S. Government.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4405

Thanksgiving Day, 1975

By the President of the United States of America

A Proclamation

Two hundred years ago the frontier colonies of America braced for a long and determined conflict with the strongest military power in the world. The petition of our Founding Fathers for redress of their grievances had been rejected by King and Parliament, and the people of America began the struggle from which emerged this great Nation.

Our Nation is the oldest continuously surviving republic in the world. For 200 years our freedoms have been questioned, challenged, tested and reinforced. These freedoms have shaped our destiny and served as a beacon to other peoples. Our Nation draws its strength from people of every creed, of every color, of every race—native Americans and people from every nation in the world who for two centuries have come to share in the rewards and responsibilities of our American Republic.

On the eve of our 200th year, Thanksgiving Day should be a day of special reflection upon the qualities of heart, mind and character of the men and women who founded and built our great Nation. Let us join in giving thanks for our cultural pluralism. Let us celebrate our diversity and the great strengths that have come from sharing our traditions, our ideas, our resources, our hopes and our dreams. Let us be grateful that for 200 years our people have been dedicated to fulfilling the democratic ideal—dedicated to securing "liberty and justice for all."

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, in accord with Section 6103 of Title 5 of the United States Code, do hereby proclaim Thursday, November 27, 1975, as a day of national thanksgiving.

Let each of us, in his own way, join in expressing personal gratitude for the blessings of liberty and peace we enjoy today. In so doing, let us reaffirm our belief in a dynamic spirit that will continue to nurture and guide us as we prepare to meet the challenge of our third century.

I call upon all Americans on this day to gather with family and friends in homes and places of worship and join in offering gratitude for this

Nation's countless blessings. I ask that we share with our senior citizens and with those less fortunate than ourselves this special day that brings us all closer together.

IN WITNESS WHEREOF, I have hereunto set my hand this fourth day of November, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the two hundredth.

Gerald R. Ford

Executive Order 11887 • November 4, 1975

Amending the Civil Service Rules To Except Certain Positions From the Career Service

By virtue of the authority vested in me by the Constitution of the United States of America and Sections 3301 and 3302 of Title 5 of the United States Code, and as President of the United States of America, Section 6.8 of Civil Service Rule VI is amended by adding "and in the Department of Commerce" after "Department of the Interior".

Gerald R. Ford

Title 7—Agriculture

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

PART 1430—DAIRY PRODUCTS

Increase in Prices

The United States Department of Agriculture has announced an increase, effective October 2, 1975, in the price support level for manufacturing milk for the remainder of the marketing year which ends March 31, 1976, through purchases by Commodity Credit Corporation (CCC) of dairy products under the price support program as provided herein. Accordingly, § 1430.282 is revised to read as follows:

§ 1430.282 Price support program for milk.

(a) (1) The general levels of prices to producers for milk will be supported from October 2, 1975, through March 31, 1976, at $7.71 per hundredweight for manufacturing milk.

(2) Price support for milk will be through purchases by CCC of butter, nonfat dry milk, and Cheddar cheese, offered subject to the terms and conditions of purchase announcements issued by the Agricultural Stabilization and Conservation Service, United States Department of Agriculture.

(3) Commodity Credit Corporation may, by special announcements, offer to purchase other dairy products to support the price of milk.

(4) Purchase announcements setting forth terms and conditions of purchase may be obtained upon request from:

United States Department of Agriculture, Agricultural Stabilization and Conservation Service, Commodity Operations Division, Washington, D.C. 20250 or United States Department of Agriculture, Agricultural Stabilization and Conservation Service, Prairie Village ASCS Commodity Office, P.O. Box 8377, Shawnee Mission, Kansas 66208.

(b) (1) CCC will consider offers of butter, Cheddar cheese, and nonfat dry milk in bulk containers meeting specifications in the announcements at the following prices:

[In cents per pound]

Commodity and location	Produced Apr. 1 through Oct. 1, 1975	Produced on or after Oct. 2, 1975
Cheddar cheese, U.S. grade A or higher (standard moisture basis, 37.8 to 39 pct).[1]	79.25	55.00
Nonfat dry milk, spray process, U.S. extra grade[2]	60.60	62.40
Butter, U.S. grade A or higher, New York, N.Y., and Jersey City, Newark, and Secaucus, N.J.	70.75	81.25

[1] For cheese which is offered on a "dry" basis (less than 37.8 pct moisture) the price per pound shall be as indicated in form ASCS-150. Copies are available in offices listed in (a)(4).

[2] If upon inspection bags do not fully comply with specifications, the price paid will be subject to a discount of 0.25¢ (¼¢)/lb of nonfat dry milk.

(2) Offers to sell butter at any location for which a price is not specifically provided for in this section will be considered at the price set forth in this section for New York City, less 80 percent of the lowest published domestic railroad carlot freight rate per pound gross weight for a 60,000 pound carlot, in effect at the beginning of the 1975-76 marketing year (April 1, 1975), from such other point to New York City. The minimum price at any location shall be the price at New York City minus three cents per pound. In the area consisting of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia, CCC will purchase only bulk butter produced in that area; butter produced in other areas is ineligible for offering to CCC in these States.

(Sec. 201, 401, 63 Stat. 1052, 1054, as amended; Sec. 4(d), 62 Stat. 1070, as amended; 7 U.S.C. 1446, 1421, 15 U.S.C. 714b(d))

Signed at Washington, D.C., on: October 29, 1975.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS: ORGANISMS AND VECTORS

Correction Notice

● Purpose: To make editorial corrections. ●

Reference to § 108.8 in § 102.3(b)(2)(iii) shall be corrected to read § 108.5 by these amendments. Also, the requirements in § 102.3(b)(2)(iii) and the requirements in § 108.5 are amended to require a listing of fractions rather than the entire product.

These amendments correct the name of *Erysipelothrix rhusiopathiae* in § 112.104(e)(2) to conform with the accepted spelling now being used. They also correct a misprint in the spelling of the word "sudden" in § 113.104(e)(1).

These amendments delete the label requirements in § 113.250(h)(2)(i) and add them in a new paragraph to § 112.7. This change is made to conform with the policy of codifying label requirements in Part 112.

Capitalize each word in the heading of § 113.104.

PART 102—LICENSES FOR BIOLOGICAL PRODUCTS

1. § 102.3 is amended by revising § 102.3(b)(2)(iii) to read:

§ 102.3 License applications.

* * * * * *

(b) * * *

(2) * * *

(iii) At least three copies of legends prepared as prescribed in § 108.5 of this subchapter designating which facilities are to be used in the preparation of each fraction; and

* * * * * *

PART 108—FACILITY REQUIREMENTS FOR LICENSED ESTABLISHMENTS

2. § 108.5 is amended by revising § 108.5(b)(1) to read:

§ 108.5 Preparation of legends.

* * * * * *

(b) * * *

(1) A listing of all rooms by identifying letters or numbers and the fractions prepared in each. Exceptions may be listed for general purpose areas or rooms. Functions performed in each area and room shall be described.

* * * * * *

XUM

PART 112—PACKAGING AND LABELING

3. § 112.7 is amended by adding a new paragraph (l) to read:

§ 112.7 **Special additional requirements.**

• • • • • •

(l) In the case of normal serum, antiserum, and antiserum derivatives, the type of preservative used shall be indicated on all labels.

PART 113—STANDARD REQUIREMENTS

4. § 113.104 is amended by revising paragraphs (e) (1) and (2) to read:

§ 113.104 **Erysipelothrix Rhusiopathiae Bacterin.**

• • • • • •

(e) • • •

(1) A satisfactory challenge shall be evidenced in the controls by a bacteremia, a high body temperature, and clinical signs of sickness, including but not limited to acute illness with hyperemia of the abdomen and ears possibly terminating in sudden death; moribund and anorexia, with or without metastatic skin lesions; slowness with variable anorexia, stiffness, and/or joint involvement; and any combination of these symptoms and lesions.

(2) If at least 75 percent of the controls do not show characteristic symptoms of swine erysipelas during the observation period, including but not limited to a body temperature of 105.6° F or higher on at least 2 days or 107° F or higher for at least 16 hours, the test shall be considered inconclusive; *Provided*, That control pigs which meet the criteria requirements for susceptibility except for high body temperature shall be considered susceptible if sacrificed and organisms identified as *Erysipelothrix rhusiopathiae* can be isolated from the blood, spleen, or other organs.

• • • • • •

5. Section 113.250 is amended by revising paragraph (h) (2) (i) to read:

§ 113.250 **General requirements for biological products of animal blood origin.**

• • • • • •

(h) • • •

(2) • • •

(i) Normal serum, antiserum, and antiserum derivatives shall contain at least one preservative in the following table. The amount shall be within the range of concentration set forth.

• • • • • •

(37 Stat. 832–833; 21 U.S.C. 151–158).

Effective date. November 5, 1975.

These amendments are editorial corrections which do not impose additional restrictions, but relax certain requirements and clarify others.

It does not appear that further public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective as provided in this document less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 30th day of October, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

In FR Doc. 75-23412, appearing at page 40826, in the issue for Thursday, September 4, 1975, on page 40827, in the second column, the sixteenth line from the top should be changed to read "livered to Firm Y. Consequently such in-".

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

[No. 75-980]

PART 541—DEFINITIONS

Amendments Relating to Certain Interest Rate Adjustments

OCTOBER 29, 1975.

The following summary of the amendment adopted by this Resolution is included for the reader's convenience and is subject to the full description in the preamble and the specific provisions in the regulation.

I. *Existing Regulation.* Federal associations may not increase the interest rate on installment loans by increasing the monthly payment.

II. *Proposed Amendment.* A. Federal associations would be permitted to adjust mortgage interest rates by changing the amount of the monthly payments, by changing the length of the loan term, or by a combination thereof.

B. Adjustable interest rate loans secured by owner-occupied single-family dwellings would have to contain a number of consumer protections.

III. *Final amendment.* A. Withdraws proposed provisions with respect to loans secured by homes and combinations of home and business property.

B. Permits Federal associations to increase the interest rate on installment loans with respect to multi-family and commercial property.

IV. *Reason for Amendment.* To give Federal associations additional flexibility in negotiating loans involving commercial and multi-family dwelling borrowers. Multi-family and commercial properties are business investments for their owners and Federal associations should be able to contract for interest rate adjustments on such properties.

By Resolution No. 75-118, dated February 6, 1975, the Board proposed to amend Parts 541 and 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Parts 541 and 545) by amending §§ 541.14(a), 541.14(b) and 541.14(c) and by adding a new § 545.6-2 in order to authorize and regulate the manner in which federal savings and loan associations may adjust the interest rates on loans secured by improved real estate—including multi-family and commercial property. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on February 14, 1975 (40 FR 6870-6874), with an invitation for interested persons to submit written comments by May 15, 1975.

Section 541.14(a) presently prohibits Federal associations from making loans having increasing monthly payments which are secured by any type of improved real estate—including multi-family and commercial property. The proposed amendments would have permitted Federal associations to adjust interest rates by changing the amount of the monthly payments, by changing the length of the loan term, or by a combination thereof. Adjustable interest rate loans secured by owner-occupied single-family dwellings would have been subject to a number of consumer protections.

The amendment adopted by this Resolution excepts loans secured by multi-family and commercial property from the restriction in § 541.14(a) that payments not increase. This "exception" is accomplished by amending § 541.14(a) so as to apply only to owner-occupied homes and combinations of home and business property the present requirement that payments are not to increase. This amendment differs from the proposal with respect to loans secured by multi-family and commercial property in one respect. The proposal would have required that such loans be in accordance with applicable usury limitations. Upon reconsideration, the Board does not believe this agency needs to refer specifically to usury laws in connection with such loans.

The Board believes that § 541.14(a) is presently too restrictive with respect to multi-family and commercial property and that Federal associations should be given authority to accomplish interest rate increases by means of increasing the monthly payments. Many lenders, including commercial banks and insurance companies, commonly make loans on the basis that the payments can be increased and the Board believes that its regulations should be amended to give Federal associations full authority to contract freely as to interest rate provisions with commercial and multi-family dwelling borrowers. Limiting the ability of Federal associations to contract freely wth such borrowers concerning interest rates is inappropriate because

commercial and multi-family borrowers are normally investors—*i.e.*, they obtain loans to engage in profit-making business ventures.

As indicated above, the proposal would also have authorized Federal associations to make loans secured by other than multi-family and commercial property (*i.e.* homes and combinations of home and business property) having increasing monthly payments. Although the Board continues to believe such loans should be permitted, it has determined to take no further action at this time to permit such loans because of the substantial Congressional opposition to the proposal. Those provisions of the proposal not implemented by this Resolution are therefore withdrawn.

Accordingly, on the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Federal Home Loan Bank Board hereby amends § 541.14(a) as set forth below, effective December 8, 1975.

§ 541.14 **Installment loan; partially-amortized monthly installment loan; flexible payment loans.**

(a) *Installment loan.* The term "installment loan" means any loan repayable in regular periodic payments sufficient to retire the debt, interest and principal, within the loan term. However, as to a loan secured by a home or a combination of home and business property occupied or to be occupied by the borrower, no required payment after the first payment shall be more, but may be less, than any preceding payment.

• • • • • •

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

[SEAL] J. J. FINN,
Secretary.

[FR Doc.75-29700 Filed 11-4-75;8:45 am]

PART 541—DEFINITIONS

Amendment Relating to Installment Loans

The following summary of the amendment adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to specific provisions of the regulations.

A. *Existing regulation.* A minimum loan term of not less than ten years is required on a partially-amortized monthly installment loan, which is an authorized type of commercial and multi-family loan.

B. *Amended regulation.* Minimum loan terms on such loans are eliminated.

C. *Reason for amendment.* The current regulation is unnecessarily restrictive.

The Federal Home Loan Bank Board considers it desirable to amend paragraph (b) of § 541.14 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR 541.14(b)) for the purpose of eliminating minimum loan terms on partially amortized monthly installment loans. Such loans by Federal savings and loan associations are authorized by §§ 545.6-1 (b) and (c) on the security of commercial and multi-family property.

Present § 541.14(b) requires a minimum term of not less than 10 years for a partially amortized monthly installment loan. This amendment eliminates this requirement.

Accordingly, the Board hereby amends §541.14(b), to read as set forth below, effective November 5, 1975.

Since this amendment relieves restriction, the Board hereby finds that notice and public procedure with respect to said amendment is unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b).

§ 541.14 **Installment loan; partially-amortized monthly installment loan; flexible payment loan.**

• • • • • •

(b) *Partially-amortized monthly installment loan.* The term "partially-amortized monthly installment loan" means any loan which is repayable in full in a lump sum at the end of the loan term but which requires partial amortization during the loan term by regular monthly payments which include both principal and interest, beginning within not more than 60 days after disbursement of the loan proceeds. Such monthly payments may not be fixed at less than the amount of the monthly payments which would be required to amortize an entire loan of the same amount, principal, and interest, within a 30-year loan term.

• • • • • •

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 15132; Amdt. 39-2416]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Models BAC 1-11 200 and 400 Airplanes

There have been reports of failure and damage of the aileron trim tab connecting rod on British Aircraft Corporation Model BAC 1-11 200 and 400 Series airplanes due to insufficient clearance and contact of the rod with adjacent structure that could result in restriction of aileron control movement and loss of control. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require an inspection of the aileron trim tab connecting rod on British Aircraft Corporation Model BAC 1-11 200 and 400 Series airplanes for cracks, bowing, and insufficient clearance with adjacent structure and replacement of defective parts and alteration, as necessary, to provide the necessary minimum clearance.

Since this situation requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to Model BAC 1-11 200 and 400 Series airplanes certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent possible failure of aileron trim tab connecting rods, accomplish the following:

(a) Within the next ten hours' time in service after the effective date of this AD, inspect the aileron trim tab connecting rods, P/N AB33A445 (200 Series) or P/N AK 33A445 (400 Series), for minimum clearance with adjacent structure, cracks, and bowing in accordance with paragraphs 1. through 4. of British Aircraft Corporation telegram to all operators, 27-CW-PM5310, dated October 23, 1974, (hereinafter referred to as BAC telegram) or an FAA-approved equivalent.

(b) If during the inspection required by paragraph (a) of this AD, a connecting rod is found to be cracked or bowed, before further flight, except that the airplane may be flown in accordance with FAR §§ 21.197 and 21.199 to a base where the repair can be performed—

(1) Replace the cracked or bowed part with a serviceable part of the same part number or an FAA-approved equivalent part; and

(2) Comply with paragraph (e) of this AD.

(c) If during the inspection required by paragraph (a) of this AD, an indication of contact of an aileron trim tab connecting rod with the adjacent structure is found but the connecting rod is free of cracks and bowing, before further flight, except that the airplane may be flown in accordance with FAR §§ 21.197 and 21.199 to a base where the repair can be performed—

(1) Restore the protective finish to all dented and chafed areas of the connecting rod, and

(2) Comply with paragraph (e) of this AD.

(d) If during the inspection required by paragraph (a) of this AD, insufficient clearance is found between an aileron trim tab connecting rod and adjacent structure and paragraphs (b) and (c) of this AD are not applicable, comply with paragraph (e) of this AD within 1000 hours' time in service after being inspected in accordance with paragraph (a) of this AD.

(e) Provide the minimum clearance, between the aileron trim tab connecting rod and adjacent structure, as specified in paragraphs 1., 2., or 3. of the BAC telegram, as applicable, or an FAA-approved equivalent.

V 40 N 214
NOV 5 75
XUM

If alteration of the structure adjacent to an aileron trim tab connecting rod is necessary to provide the proper minimum clearance, the alteration must be accomplished in accordance with paragraph 7. of the BAC telegram as amended by issue 2 of the telegram dated October 25, 1974.

(f) For purposes of this AD, the term "Land" as used in paragraph 7 of the BAC telegram as amended by issue 2 to the telegram, dated October 25, 1974, means "edge distance".

This amendment becomes effective November 19, 1975.

Issued in Washington, D.C., on October 28, 1975.

J. A. FERRARESE,
Acting Director.
Flight Standards Service.

[FR Doc.75-29649 Filed 11-4-75;8:45 am]

[Docket No. 15133; Amdt. 39-2417]

PART 39—AIRWORTHINESS DIRECTIVES

Slingsby Sailplanes T59D Kestrel Gliders

There have been reports of excessive wear of the rudder cables adjacent to the rudder pedals on Slingsby Sailplanes T59D Kestrel gliders that could result in separation of the rudder cables and loss of yaw control. Since this condition is likely to exist or develop in other gliders of the same type design, an airworthiness directive is being issued to require periodic inspection of the rudder cables adjacent to the rudder pedals on Slingsby Sailplanes T59D Kestrel gliders and the replacement of those cables, if necessary.

Since this situation requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SLINGSBY SAILPLANES. Applies to T59D Kestrel gliders certified in all categories.

Compliance is required as indicated.

To prevent possible rudder cable failure, accomplish the following:

(a) Within the next 10 hours' time in service after the effective date of this AD and thereafter at intervals not to exceed 100 hours' time in service from the last inspection, inspect the rudder cables for broken wires of any strand at the points the cables leave the top of the rudder pedals throughout the maximum to minimum rudder pedal adjustment range, and also immediately aft of the cable ferrules.

(b) If a broken wire of any strand is found during an inspection required by paragraph (a) of this AD, before further flight, replace the defective cable with a serviceable cable of the same specification or an FAA-approved equivalent cable and continue to comply with paragraph (a).

This amendment becomes effective November 19, 1975.

Issued in Washington, D.C., on October 28, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Airway Description

Correction

In FR Doc. 75-28830, appearing at page 50025, in the issue for Tuesday, October 28, 1975, in the 12th line of the second paragraph the figure now reading "V-229" should be changed to read "V-299".

[Airspace Docket No. 75-SO-139]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Tallassee, Ala., transition area.

The Tallassee transition area is described in § 71.181 (40 F.R. 441). It is necessary to amend the description to reflect the correct geographical coordinates of the airport and to revoke an extension that is no longer required. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, January 29, 1976, as hereinafter set forth.

In § 71.181 (40 F.R. 441), the Tallassee, Ala., transition area is amended to read:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Tallassee Municipal Airport (Lat. 32°28'52" N., Long. 85°53'06" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on October 28, 1975.

LONNIE D. PARRISH,
Acting Director, Southern Region.

[FR Doc.75-29651 Filed 11-4-75;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

[Regulation SPR-94, Amdt. 3]

PART 378a—ONE-STOP-INCLUSIVE TOUR CHARTERS

Technical Amendments

OCTOBER 30, 1975.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

The Board's recently adopted Part 378a of its Special Regulations (14 CFR Part 378a) governs the operation of One-stop-inclusive Tour Charters (OTC), including Special Event Charters, just as Part 378 of the Special Regulations (14 CFR Part 378) has for some years governed the operation of Inclusive Tour Charters (ITC). Basically, the OTC is a type of charter quite similar in concept to the ITC, in that both provide for *ad hoc* authority of a charterer, acting as an independent tour operator, to arrange a package tour, consisting of air transportation and ground accommodations, which the tour operator then sells at a fixed price to individual members of the public.

Thus, as does the ITC rule, after which the OTC rule is patterned, Part 378a exempts tour operators (other than foreign tour operators) from various provisions of Title IV of the Federal Aviation Act of 1958 for the purpose of enabling them to act as indirect air carriers, subject to compliance with the various conditions and restrictions set forth in the respective regulations. Also, as does the ITC rule, the OTC rule authorizes tour operators to provide tours utilizing aircraft chartered from both U.S. and foreign direct air carriers, in conjunction with foreign-originating as well as U.S.-originating tours. Again, as it had done with respect to ITC's, the Board has declined to exercise its jurisdiction over foreign tour operators of OTC's which originate in a foreign country (§ 378a.23), preferring instead to impose upon the direct air carriers the obligation to secure such operators' compliance with the basic substantive requirements of the OTC rule (§ 378a.40).

However, because the text of the OTC rule varies somewhat from that of the ITC rule—even with respect to certain technical provisions common to both rules—the literal terms of the OTC rule, unlike the ITC rule, require those foreign tour operators over whom we have declined to exercise jurisdiction to comply fully with certain requirements as to the filing of materials which are designed for the protection of U.S. consumers, but are not basic substantive requirements of the rule. This technical difference between the OTC rule and the ITC rule was inadvertent, since, in adopting the OTC rule, the Board did not intend to require foreign tour operators of OTC's originating in a foreign country to file with the Board those materials whose filing is primarily required for the protection of U.S. consumers, and has thus not been required with respect to foreign tour operators of ITC's originating in a foreign country.[1]

In order to maintain substantial conformity between the manner in which these two similar special charter rules treat foreign-originated charters operated by foreign indirect air carriers, we have determined to amend the OTC rule by adapting the technique used by the ITC rule to clarify which of its provisions do not apply to foreign tour operators, to wit, the use of a definition of "foreign tour operator" which incorporates the specific provisions of the rule which do not apply to foreign-originated charters. Also, we will amend § 378a.40, which, as indicated above, imposes on the direct air carrier responsibility to secure compliance by the foreign OTC tour operator with the basic substantive requirements of the OTC rule, to specify the provisions of the rule which will not apply to foreign-originated charters. Finally, we will adopt a new § 378a.44, which requires the direct air carrier performing the air transportation portion of a foreign-originated OTC operated for a foreign tour operator to file a modified tour prospectus concerning such tour in a manner similar to that now required of the direct air carrier under the ITC rule.

Because these amendments serve primarily to clarify the Board's intent in adopting the OTC rule, remove a burden from foreign tour operators, and do not materially increase the filing burden already imposed on direct air carriers by existing regulations (which require certain materials to be filed which in the absence of the amendment would be required jointly by the direct carriers and the foreign-tour operator), the Board finds that notice and public procedure hereon are unnecessary, and that the amendments may be effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 378a of its Special Regulations (14 CFR Part 378a), effective October 30, 1975, as follows:

1. Amend § 378a.2 by revising the definition of "foreign tour operator," the section as amended to read in pertinent part as follows:

§ 378a.2 Definitions.

* * * * *

"Foreign tour operator" means any person not a citizen of the United States, as defined in Section 101(13) of the Act (other than a direct foreign air carrier), who is (1) engaged in the formation of groups for air transportation on one-stop-inclusive tour charters which originate in a foreign country and over whom the Board has declined to exercise its jurisdiction, or (2) engaged in the formation of groups for transportation on one-stop-inclusive tour charters which originate in the United States and who hold a permit issued pursuant to Section 402 of the Act authorizing such transportation: *Provided,* That with respect to §§ 378a.21, 378a.24, 378a.25(a) (1) and (2), 378a.26-.33, 378a.50-.51, 378a.105, and 378a.107(c) (2), (3) and (4) the definition of "Foreign tour operator" is confined to the definition set forth in paragraph (2) of this definition.

* * * * *

3. Amend § 378a.40 to read as follows:

§ 378a.40 Charter not to be performed unless compliance with part.

A direct air carrier shall not perform air transportation in connection with an OTC unless it has made a reasonable effort to verify that all provisions of this part have been complied with, and that the tour operator's authority under this part has not been suspended by the Board: *Provided, however,* That where an OTC is organized by a foreign tour operator over whom the Board has declined to exercise its jurisdiction pursuant to § 378a.23, no direct air carrier may perform air transportation in connection with such OTC unless the tour is formed and implemented in accordance with the general conditions and limitations set forth in Subpart B or Subpart F of this part, and the tour operator performs all acts and duties which this part requires to be performed by tour operators within the Board's jurisdiction, other than the provisions set forth in §§ 378a.25(a) (1) and (2), 378a.28, 378a.30-.33, 378a.50-.51, 378a.105 and 378a.107(c) (2), (3) and (4).

4. Amend Subpart D by adopting a new § 378a.44 to read as follows:

§ 378a.44 One-stop-inclusive tours operated by U.S. certificated air carriers or foreign air carriers for foreign tour operators.

At least 45 days in advance of the date of departure of a proposed foreign-originated OTC or series of OTC's to be operated by a U.S. certificated air carrier or foreign air carrier for a foreign tour operator, such carrier shall file with the Board (Supplementary Services Division, Bureau of Operating Rights) a Tour Prospectus which shall contain the following information:

(a) The name and address of the foreign tour operator;

(b) The proposed date and time of each flight;

(c) The aircraft type to be used for each flight including the number of seats;

(d) The charter price for the aircraft;

(e) The duration of each tour, the tour itinerary, including the name of hotels, and any sightseeing or other arrangements included in the tour; and

(f) The tour price per passenger.

(Secs. 101(3), 204(a), 401, 402, 407, 416(a), and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766, 771, and 788; 49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386, and 1481.)

Effective: October 30, 1975.

Adopted: October 30, 1975.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-29718 Filed 11-4-75;8:45 am]

[1] On the other hand, insofar as the OTC rule differs substantially from the ITC rule, in prohibiting the sale of seats by the tour operator or foreign tour operator within a prescribed period before the flight departure date, and that prohibition entails the implementing requirement that a passenger list be filed with the Board no later than the cut-off date for such sales, we consider this filing requirement to be one of the substantive requirements distinguishing OTC's from ITC's. Therefore, it is among the requirements applicable to all OTC's, including those foreign-originated OTC's operated by tour operators over whom we have declined to exercise jurisdiction, even though it is not required for ITC's.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2734]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Bridgestone Tire Co. of America, Inc.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.20 Comparative data or merits; § 13.135 Nature of product or service; § 13.175 Quality of product or service; § 13.195 Safety; 13.195-60 Product; § 13.205 Scientific or other relevant facts. Subpart—Corrective actions and/or requirements; § 13.533 Corrective actions and/or requirements; § 13.533-45 Maintain records; 13.533-45 (a) Advertising substantiation. Subpart—Failing to maintain records: § 13.-1051 Failing to maintain records; 13.-1051-30 Formal regulatory and/or statutory requirements. Subpart—Misrepresenting oneself and good—Goods: § 13.1685 Nature; § 13.1710 Qualities or properties; § 13.1740 Scientific or other relevant facts. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Bridgestone Tire Company of America, Inc., a corporation.

Consent order requiring a Torrance, Calif., distributor and seller of tires, among other things to cease misrepresenting the safety or performance characteristics of any automobile tires, and misrepresenting any generalized safety claims. Further, the respondent is required to have a "reasonable basis" in substantiation of claims regarding the safety performance characteristics of "any product."

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

I

It is ordered That respondent Bridgestone Tire Company of America, Inc., a

[1] Copies of the Complaint, Decision and Order, filed with the original document.

V 40 N 214 NOV 5 75 XUM

corporation, its successors and assigns, officers, representatives, agents, employees, directly through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of any product in or affecting commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that any automobile tire has any safety or performance characteristic or is superior in quality or performance to other tires, either overall or with respect to any such characteristic, unless at the time such representation is first disseminated, the representation is fully and completely substantiated by competent scientific tests and respondent has relied upon such tests. Provided, furthermore, that with respect to any representation concerning the safety of automobile tires which representation is not expressly limited to a specific safety characteristic(s) the basis for such a representation shall include, at the minimum, tests for the following characteristics: (a) stopping; (b) cornering; (c) puncture protection; and (d) high speed performance.

2. Failing to provide for the maintenance of, in conjunction with Paragraph One of this Order, the results of each test, the original test data collected in the course of each test, and a detailed description of how the test was performed, all of which shall be available in written form for inspection, upon reasonable notice, for at least three years following the final use of the representation.

3. Making any representation, directly or by implication, regarding the safety or performance characteristics of any product, unless at the time such representation is first disseminated there exists a reasonable basis for such representation and respondent relies upon such basis. Provided, however, that with respect to automobile tires, the only reasonable basis for such a representation shall be competent scientific tests as specified in Paragraph One of this Order.

4. Failing to provide for the maintenance of, in conjunction with Paragraph Three of this Order, all documentation in substantiation of any representation in advertising disseminated, by respondent, all of which shall be available in written form for inspection upon reasonable notice, for at least three years following the final use of the representation.

II

It is further ordered That for the purpose of Paragraph One of Part I of this Order:

1. A claim of "security" shall be construed as a safety claim.

2. A representation as to the quality or performance characteristics of any automobile tire implies that it is superior in quality or performance to any other automobile tire or all other automobile tires if it is phrased in the comparative or superlative degree, or if any advertising containing such representation conveys a net impression of comparative superiority.

III

It is further ordered That respondent Bridgestone Tire Company of America, Inc., shall forthwith deliver a copy of this Order to each of its operating departments, divisions, and subsidiaries engaged in the advertising, offering for sale, sale or distribution to the public at retail or automobile tires and to the manager of each present and every future retail outlet owned and operated by said respondent.

It is further ordered That respondent notify the Commission at least thirty (30) days prior to any proposed change such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation that may affect the compliance obligations arising out of the Order.

It is further ordered That respondent shall, within sixty (60) days after service upon it of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with the Order to cease and desist.

The Decision and Order was issued by the Commission September 30, 1975.

CHARLES A. TOBIN,
Secretary.

[Docket 8935]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Food Fair Stores, Inc., et al.

Subpart—Combining or conspiring: § 13.395 To control marketing practices and conditions; § 13.430 To enhance, maintain or unify prices; § 13.450 To limit distribution or dealing to regular, established or acceptable channels or classes; § 13.470 To restrain or monopolize trade; § 13.475 To restrain competition in buying. Subpart—Corrective actions and/or requirements: §13.533 Corrective actions and/or requirements; 13.533–20 Disclosures. Subpart—Enforcing dealings or payments wrongfully: § 13.1045 Enforcing dealings or payments wrongfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Food Fair Stores, Inc., a corporation, and Amterre Development Inc., a corporation.

Consent order requiring Amterre Development, Inc., a Bala Cynwyd, Pa., a shopping center developer, among other things to cease maintaining resale prices, discouraging discount advertising and selling, and denying competitive prices to the public through the insertion of restrictive provisions in leases and agreements with shopping center tenants.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

I

For the purposes of this order the following definitions shall apply:

A. The term "respondent" refers to Amterre and its subsidiaries, officers, agents, representatives, employees, successors, and assigns, in their capacities as such. "Subsidiary" means a person, entity or corporation in which Amterre has voting control.

B. The term "shopping center" refers to a planned development of retail outlets, managed as a unit in relation to a trade area, which the development is intended to serve, and providing on-site parking in some definite relationship to the types and sizes of stores in the development.

C. The term "tenant" refers to any occupant or potential occupant of retail space in any of respondent's shopping centers, whether as a lessee or owner of such space.

D. The term "retailer" refers to a tenant which sells merchandise or services to the public.

E. The terms "range of prices" and "price range" refer to such descriptive words as "popular priced," "medium priced," "high priced," "merchandise ranging in price from $90 to $190," and "the sale of merchandise at prices less than $15." The terms "range of prices" and "price range" do not include references to the general quality of merchandise or services, explicitly characterized as such, that the tenant principally will offer.

F. The term "price line" refers to descriptive words identifying a particular retailer as an example of a category of merchants selling merchandise within a generally identifiable range of prices.

II

A. *It is ordered*, That respondent cease and desist from making, carrying out, or enforcing, directly or indirectly, an agreement or provision of an agreement which:

1. specifies that any retailer in any of respondent's shopping centers shall or shall not sell or offer to sell merchandise or services at any particular price or within any range of prices;

2. specifies that any retailer in any of respondent's shopping centers shall or shall not sell or offer to sell designated price lines of merchandise;

3. specifies that any retailer in any of respondent's shopping centers shall not be a discounter or sell or offer to sell merchandise or services at discount prices;

4. specifies the content of or prohibits any type of advertising by a retailer, other than advertising within any of respondent's shopping centers, except that respondent may require a tenant to include the name, insignia, or other identifying mark of any of respondent's shopping centers in advertising pertaining to the tenant's store in any of respondent's shopping centers.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

B. *It is further ordered* That respondent will within thirty (30) days after service of this Order mail a copy of Letter "A", attached hereto, to all tenants of its shopping centers whose leases make reference in the use clauses to the price or quality of the merchandise or services to be sold.

C. *It is further ordered* That respondent cease and desist from entering into any agreement, directly or indirectly, with any tenant that said tenant may:

1. specify or control or may require respondent to specify or control prices, price ranges, or price lines of merchandise or services sold by any other retailer;

2. control or may require respondent to control discounting by any other retailer; or

3. exclude any retailer from any of respondent's shopping centers by reason of such retailer's discount selling or discount advertising.

D. *It is further ordered* That respondent advise the Commission in writing within sixty (60) days of any occasion that:

1. a tenant disapproves the admission into any of respondent's shopping centers of any other retailer;

2. a tenant refuses to approve the renewal of another retailer's lease in any of respondent's shopping centers;

3. a tenant approves the admission of another retailer into any of respondent's shopping centers subject to conditions imposed by the tenant relating to the pricing, price ranges, price lines, trade names, store names, trademarks, brands or lines of merchandise, or the discounting practices or methods of such other retailer; or

4. a tenant enters into an agreement with respondent to become a tenant in any of respondent's shopping centers on condition that respondent refuse to renew the lease of another retailer.

III

It is further ordered That respondent shall:

A. within thirty (30) days after service of this Order upon respondent, notify each of its tenants of this Order by providing each tenant with a copy thereof by registered or certified mail;

B. within sixty (60) days after service of this Order upon respondent, file with the Commission a report showing the manner and form in which it has complied and is complying with each and every specific provision of this Order; and

C. notify the Commission at least thirty (30) days prior to any change in the corporate respondent which may affect compliance obligations arising out of this Order.

IV

It is further ordered That the complaint in this proceeding be, and it hereby is, dismissed with respect to respondent Food Fair Stores, Inc.

LETTER "A"

[On Official Amterre Development Inc Stationery]

Gentlemen: Amterre Development Inc has consented to the issuance by the Federal Trade Commission of an Order which, among other things, prohibits Amterre from specifying that its tenants shall or shall not sell merchandise or services at any particular price or within any range of prices, and that its tenants shall or shall not sell designated price lines of merchandise. A copy of the Order is enclosed.

Your lease describes the merchandise or services you are to sell in terms such as "popular priced," "medium priced," "high priced," "medium to better quality," or the like. Please be advised that such language is intended only as a description of the general quality of the merchandise or services you sell. It is not intended and will not be enforced to affect the retail selling price of your merchandise or services. Pursuant to the terms of the Order you are free to set the prices for your merchandise and services and are not required to adhere to any particular price, range of prices, or price lines expressed or implied in your lease or in any other agreement with the shopping center.

This letter shall not operate as a waiver of any rights which Amterre may now have to required you, except as your lease otherwise provides, to sell merchandise or services at a general quality level or levels.

Sincerely,

President, Amterre Development Inc.

The Decision and Order was issued by the Commission September 30, 1975.

CHARLES A. TOBIN,
Secretary.

[Docket C-2733]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

General Foods Corp.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.170 Qualities or properties of product or service; § 13.195 Safety; § 13.205 Scientific or other relevant facts. Subpart—Misrepresenting oneself and goods—Goods: § 13.1740 Scientific or other relevant facts. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 Scientific or other relevant facts. Subpart—Using deceptive techniques in advertising: § 13.2275 Using deceptive techniques in advertising; 13.2275–70 Television depictions.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of General Foods Corporation, a corporation.

Consent order requiring a White Plains, N.Y., producer, distributor, and seller of food products, among other things to cease using depictions and descriptions which have the capacity to influence children to engage in harmful activities—specifically, representing that a plant is edible in its raw state (1) where the visual impression is conveyed that the plant was not grown for human consumption; or (2) where a raw plant is shown being consumed and it is specifically described as a "wild" plant.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

For the purposes of this order, the following definitions apply:

1. The term "commerce" means commerce as defined by the Federal Trade Commission Act, as amended.

2. The term "plant" means any whole plant or any constituent part thereof.

I

It is ordered That respondent General Foods Corporation, a corporation (hereinafter referred to as respondent), its successors and assigns, and its officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other other device, in connection with the advertising, offering for sale, sale or distribution in or affecting commerce of any product, forthwith cease and desist from, directly or indirectly:

A. Representing, through depictions, descriptions, or otherwise, that a plant is suitable for human consumption in its raw state in an advertisement containing a visual depiction of (1) the plant in its growing state or natural surroundings which depiction is not a clear portrayal of conditions of domestic cultivation for human consumption or (2) the consumption of a raw plant described in the advertisement as wild.

B. Representing through depictions, descriptions, or otherwise, that a plant is suitable for human consumption in its raw state in an advertisement containing a visual depiction of the plant in its growing state or natural surroundings where said plant is not the advertised product or an ingredient, or a characterizing flavor, or source thereof, in the advertised product.

C. Representing, through depictions, descriptions, or otherwise, that any given thing or things, other than things that are commonly recognized as foods or lawful food additives, are suitable for human consumption as a food where it is reasonably foreseeable, through reasonable inquiry, that such representation has the tendency or capacity to influence members of the audience in reasonably good health to engage in behavior which creates an imminent risk of physical harm to those persons or to others.

II

It is further ordered That respondent shall forthwith distribute a copy of this

[1] Copies of the Complaint, Decision and Order, filed with the original document.

V 40 N 214
NOV 5 75
XUM

Order to each of its operating divisions.

It is further ordered That respondent notify the Commission at least thirty (30) days prior to any proposed change such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered That respondent shall, within sixty (60) days after service upon it of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order.

The Decision and Order was issued by the Commission October 1, 1975.

CHARLES A. TOBIN,
Secretary.

[Docket 9002]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

TV Stereo City Freight Liquidators, Inc., et al.

Correction

In FR Doc. 75-28503 appearing on page 49569 of the issue for Thursday, October 23, 1975, the following correction is made.

On page 49570, order Paragraph 3., line nine insert "misrepresenting, in any manner, the advantages," immediately after the words "rental plans; or".

CHARLES A. TOBIN,
Secretary.

[FR Doc.75-29641 Filed 11-4-75;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 75-279]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Amendment to the Customs Regulations Requiring Certain Information To Be Provided on the Reverse of Customs Form 7501

Treasury Decision 75-209, published in the FEDERAL REGISTER on August 19, 1975 (40 FR 36116) amended paragraph (b) of § 10.53 of the Customs Regulations (19 CFR 10.53(b)) by substituting the words "on the front of Customs Form 7501" for "on the reverse of Customs Form 6417". This change was made in conjunction with the abolishment of Customs Form 6417, Summary of Entered Values, and relates to a declaration required to be furnished in connection with the entry of antiques and other articles under items 766.20 and 766.25 of the Tariff Schedules of the United States (19 U.S.C. 1202). However, inasmuch as there may be insufficient space on the front of Customs Form 7501, Consumption Entry, to place the required declaration, it has been determined more appropriate to require the declaration to be placed on the reverse of Form 7501.

§ 10.53 [Amended]

Accordingly, paragraph (b) of § 10.53 of the Customs Regulations (19 CFR 10.53(b)) is hereby amended by substituting the word "reverse" for "front".

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624))

Because this amendment to the Customs Regulations merely provides for a minor clerical change, and places no additional burden on the public, notice and public procedure thereon is found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment shall become effective November 5, 1975.

VERNON D. ACREE,
Commissioner of Customs.

Approved: October 29, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-29759 Filed 11-4-75;8:45 am]

[T.D. 75-278]

PART 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

Customs Bills for Deferred Taxes on Imported Alcoholic Beverages, Amended

On November 5, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 39044), which proposed to amend paragraphs (f) and (h) of § 24.4 of the Customs Regulations (19 CFR 24.4 (f) and (h)), to specify the name and number of the form used by the United States Customs Service to bill importers for deferred taxes on alcoholic beverages and to eliminate the procedure whereby an importer is sent a second Customs bill on that form when the initial Customs bill for the deferred taxes has not been paid within the specified period.

Pursuant to § 24.4(f)(1) of the Customs Regulations, each importer who has been permitted to pay on a semi-monthly basis the estimated import taxes on alcoholic beverages entered, or withdrawn from warehouse, for consumption by him during each period will be billed at the end of each semi-monthly period for all taxes deferred during that period. The bill, accompanied by a statement listing each tax amount deferred and the related entry number, must be paid in full by the last day of the next succeeding deferral period.

Section 24.4(h)(1) currently provides that when any bill for deferred taxes is not paid within the period specified in § 24.4(f)(1), the importer shall be sent a Notice of Amount Due, Customs Form 6084, and a copy shall be sent to the surety on his bond.

Customs Form 6084 has been revised, and is now known as the United States Customs Service Bill. That form is used to bill importers for deferred taxes pursuant to § 24.4(f)(1) of the Customs Regulations. As a consequence, the use of Customs Form 6084 again, pursuant to § 24.4(h)(1) as a notice to the importer of a Customs bill past due, is both inappropriate and unnecessary. The proposed amendment to § 24.4(h)(1) provides that in the event the initial bill for deferred taxes on Customs Form 6084 is not paid within the specified time, a demand for payment shall be made to the surety on the importer's bond.

Interested persons were given 30 days from the date of publication of the notice to submit relevant written data, views, or arguments regarding the proposed amendments. After consideration of the comment received, it has been determined that the proposed amendments should be adopted as set forth in the notice of proposed rulemaking.

Accordingly, the proposed amendments are adopted as set forth below.

Effective date. These amendments shall become effective December 5, 1975.

VERNON D. ACREE,
Commissioner of Customs.

Approved: October 29, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Paragraphs (f)(1) and (h)(1) of § 24.4 are revised to read as follows:

24.4 Optional method for payment of estimated import taxes on alcoholic beverages upon entry, or withdrawal from warehouse, for consumption.

* * * * * * *

(f) * * *

(1) *Billing.* Each importer who has deferred tax payments on imported alcoholic beverages will be billed on Customs Form 6084, United States Customs Service Bill, at the end of each tax deferral period for all taxes deferred during the period. Each bill will identify each tax amount deferred and the related entry numbers. These bills must be paid in full by the last day of the next succeeding deferral period.

* * * * * * *

(h) * * *

(1) When any bill on Customs Form 6084 for deferred taxes is not paid within the period specified in paragraph (f) of this section, a demand for payment shall be made to the surety on the importer's bond. * * *

* * * * * * *

(R.S. 251, as amended, sec. 624, 46 Stat. 759, as amended (19 U.S.C. 66, 1622, 1624))

[FR Doc.75-29760 Filed 11-4-75;4:45 pm]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 7367]

PART 11—TEMPORARY INCOME TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Minimum Vesting Standards

PREAMBLE

This document contains temporary income tax regulations (26 CFR Part 11) under section 411 of the Internal Revenue Code of 1954, as added by section 1012(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 901) (hereinafter referred to as the "Act").

The temporary regulations contained in this document will also apply for purposes of sections 203 and 204 of such Act (88 Stat. 854, 858).

Section 411 of the Code prescribes minimum vesting standards which are qualification requirements for pension, stock bonus, or profit-sharing plans (and their related trusts) described in section 401(a). These qualification requirements also apply to custodial accounts, annuity plans, and bond purchase plans described in sections 401(f), 404(a)(2), and 405(a), respectively.

Section 411(e) and § 11.411(a)-1(c) provide that section 411 does not apply to governmental plans, certain church plans, plans not providing for employer contributions after September 2, 1974, and certain plans of organizations described in section 501(c)(8) or (9) of the Code.

Section 11.411(a)-2 provides the effective dates for the temporary regulations under section 411. In general, these rules apply to plans in existence on January 1, 1974, for plan years beginning after December 31, 1975, and to other plans for plan years beginning after September 2, 1974.

Section 411(a)(2) and § 11.411(a)-3 set forth a qualification requirement relating to the required time for vesting in employer-derived accrued benefits. A plan must provide for vesting which satisfies one of three standards.

The first standard requires 100 percent vesting after 10 years of service. The second standard requires 25 percent after five years of service, 5 percent additional vesting for each of the next 5 years, and 10 percent additional vesting for each of the next 5 years, so that an employee is 100 percent vested after 15 years of service. The third standard requires each employee with 5 years or more of service to be 50 percent vested when the sum of his age and service equals 45, with 10 percent additional vesting for each year thereafter. It is contemplated that a plan could satisfy one standard for one class of employees and another of the standards for another class of employees.

Section 11.411(a)-4 defines the term "nonforfeitable" for purposes of satisfying the vesting requirements. Specific instances in which rights are not treated as forfeitable are set forth.

Section 11.411(a)-5 sets forth rules for determining an employee's years of service which must be taken into account in applying the vesting standards.

Section 11.411(a)-6 sets forth rules for years of service and breaks in service.

Section 11.411(a)-7 sets forth definitions and special rules for purposes of the temporary vesting regulations. Definitions are set forth for accrued benefit, normal retirement age, and normal retirement benefit. A special rule is given for "cash-outs" of an employee's accrued benefit.

Section 11.411(a)-8 sets forth rules with respect to the change of a plan's vesting schedule. Under these rules, an employee's nonforfeitable percentage after the amendment must not be less than the percentage determined under the pre-amendment schedule. In addition, certain employees are given the option to have their vesting percentage determined under the pre-amendment schedule.

Section 11.411(a)-9 sets forth a special rule with respect to a plan's break in service rules which places certain limitations on plan amendments to its break in service rules for the period between January 1, 1974, and the time section 411 applies to the plan.

Under section 411(b) and section 11.411(b)-1, for plan years beginning after the applicable effective date of section 411, rules are provided for the determination of the accrued benefit to which a participant is entitled under a plan.

Under a defined contribution plan, a participant's accrued benefit is the balance to the credit of the participant's account.

Under a defined benefit plan, a participant's accrued benefit is his accrued benefit determined under the plan. A defined benefit plan is not a qualified plan unless the method provided by the plan for determining accrued benefits satisfies at least one of the alternative methods, *i.e.*, the 3 percent method, the 133⅓ percent rule, and the fractional rule (described in section 11.411(b)-(1)(b)) for determining accrued benefits with respect to all active participants under the plan.

In addition, a defined benefit plan (without regards to any combining of plans of an employer) must provide only one method for the computation of accrued benefits.

Special rules are provided for the first two years of service by a participant, certain insured defined benefit plans, and certain reductions in accrued benefits due to increasing age or service. In addition, a special rule is provided with respect to accruals for service before the effective date of section 411. The special rule relating to accruals for service prior to the effective date of section 411 requires, *inter alia*, the accrual of the excess of the accrued benefit to which a participant would be entitled if the plan satisfied one of the alternative methods for all plan years prior to the effective date of section 411, over the amount required to be accrued under the special rule, as if the plan had been initially adopted on the effective date of section 411.

Section 11.411(c)-1 sets forth rules for allocating accrued benefits between employer and employee contributions.

Section 11.411(d)-2 sets forth rules with respect to termination, partial termination, a complete discontinuance of contributions.

Section 11.411(d)-3 sets forth special rules for prohibited discrimination on early termination, class year plans, and accrued benefit decreases.

Certain regulations prescribed by the Secretary of Labor are applicable for purposes of section 411 and the regulations thereunder.

ADOPTION OF REGULATIONS

In order to prescribe temporary income tax regulations (26 CFR Part 11) to reflect the addition of section 411 to the Internal Revenue Code, and in order to supersede § 11.411(a)(10)(B)-1 of the Temporary Income Tax Regulations under the Employee Retirement Income Security Act of 1974 (26 CFR § 11.411(a)(10)(B)-1), the following temporary regulations are hereby adopted.

§ 11.401(a)-19 Nonforfeitability in case of certain withdrawals.

(a) *Application of section.* Section 401(a)(19) and this section apply to a plan to which section 411(a) applies. (See section 411(e) and § 11.411(a)-2 for applicability of section 411.)

(b) *Prohibited forfeitures*—(1) *General rule.* A plan to which this section applies is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if, under such plan, any part of a participant's accrued benefit derived from employer contributions is forfeitable solely because a benefit derived from the participant's contributions under the plan is voluntarily withdrawn by him after he has become a 50 percent vested participant.

(2) *50 percent vested participant.* For purposes of paragraph (b)(1) of this section, a participant is a 50 percent vested participant when he has a nonforfeitable right (within the meaning of section 411 and the regulations thereunder) to at least 50 percent of his accrued benefit derived from employer contributions.

(3) *Certain forfeitures.* Paragraph (b)(1) of this section does not apply in the case of a forfeiture permitted by section 411(a)(3)(D)(iii) and § 11.411(a)-4(b)(5)(i) (relating to forfeitures of certain benefits accrued before September 2, 1974).

§ 11.411(a)-1 Minimum vesting standards; general rules.

(a) *In general.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless—

(1) The plan provides that an employee's right to his normal retirement benefit (see § 11.411(a)-7(c)) is nonforfeitable (see § 11.411(a)-4) upon and after the attainment of normal retirement age (see § 11.411(a)-7(b)),

(2) The plan provides that an employee's rights in his accrued benefit de-

V 40 N 214 NOV 5 75 XUM

rived from his own contributions (see § 11.411(c)–1) are nonforfeitable at all times, and

(3) The plan satisfies the requirements of—

(i) Section 411(a)(2) and § 11.411(a)–3 (relating to vesting in accrued benefit derived from employer contributions), and

(ii) In the case of a defined benefit plan, section 411(b)(1) and § 11.411(b)–1 (relating to accrued benefit).

(b) *Organization of regulations relating to minimum vesting standards*—(1) *General rules.* This section prescribes general rules relating to the minimum vesting standards provided by section 411.

(2) *Effective dates.* Section 11.411(a)–2 provides rules under section 1017 of the Employee Retirement Income Security Act of 1974 relating to effective dates under section 411.

(3) *Employer contributions.* Section 11.411(a)–3 provides rules under section 411(a)(2) relating to vesting in employer-derived accrued benefits.

(4) *Certain forfeitures.* Section 11.411(a)–4 provides rules under section 411(a)(3) relating to certain permitted forfeitures, suspensions, etc. under qualified plans.

(5) *Nonforfeitable percentage.* Section 11.411(a)–5 provides rules under section 411(a)(4) relating to service included in the determination of an employee's nonforfeitable percentage under section 411(a)(2) and § 11.411(a)–3.

(6) *Years of service; break in service.* Section 11.411(a)–6 provides rules under section 411(a)(5) and (6) of the Internal Revenue Code of 1954 relating to years of service and breaks in service. Rules prescribed by the Secretary of Labor, relating to years of service and breaks in service under part 2 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 are provided under 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

(7) *Definitions and special rules.* Section 11.411(a)–7 provides definitions and special rules under section 411(a)(7), (8), and (9), for purposes of section 411 and the regulations thereunder.

(8) *Changes in vesting schedule.* Section 11.411(a)–8 provides rules under section 411(a)(10) relating to changes in the vesting schedule of a plan.

(9) *Breaks in service.* Section 11.411(a)–9 provides special rules relating to breaks in service.

(10) *Accrued benefits.* See § 11.411(b)–1 for rules under section 411(b) relating to accrued benefit requirements under defined benefit plans.

(11) *Allocation of accrued benefits.* See § 11.411(c)–1 for rules under section 411(c) relating to allocation of accrued benefits between employer and employee contributions.

(12) *Discrimination, etc.* See § 11.411(d)–1 for rules relating to the coordination of section 411 with section 401(a)(4) (relating to discrimination) and other rules under section 411(d).

(c) *Application of standards to certain plans*—(1) *General rule.* Except as provided in paragraph (c)(2) of this section, section 411 does not apply to—

(i) A governmental plan (within the meaning of section 414(d) and the regulations thereunder),

(ii) A church plan (within the meaning of section 414(e) and the regulations thereunder) which has not made the election provided by section 410(d) and the regulations thereunder.

(iii) A plan which has not provided for employer contributions at any time after September 2, 1974, and

(iv) A plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

(2) *Vesting requirements.* A plan described in subparagraph (1) of this paragraph shall, for purposes of section 401(a), be treated as meeting the requirements of section 411 if such plan meets the vesting requirements resulting from the application of section 401(a)(4) and section 401(a)(7) as in effect on September 1, 1974.

§ 11.411(a)–2 Effective dates.

(a) *Plan not in existence on January 1, 1974.* Under section 1017(a) of the Employee Retirement Income Security Act of 1974, in the case of a plan which was not in existence on January 1, 1974, section 411 and the regulations thereunder apply for plan years beginning after September 2, 1974. See paragraph (c) of this section for time plan is considered in existence.

(b) *Plans in existence on January 1, 1974.* Under section 1017(b) of the Employee Retirement Income Security Act of 1974, in the case of a plan which was in existence on January 1, 1974, section 411 and the regulations thereunder apply for plan years beginning after December 31, 1975. See paragraph (c) of this section for time plan is considered to be in existence.

(c) *Time of plan existence*—(1) *General rule.* For purposes of this section, a plan is considered to be in existence on a particular day if—

(i) The plan on or before that day was reduced to writing and adopted by the employer (including, in the case of a corporate employer, formal approval by the employer's board of directors and, if required, shareholders), even though no amounts had been contributed under the plan as of such day, and

(ii) The plan was not terminated on or before that day.

For example, if a plan was adopted on January 2, 1974, effective as of January 1, 1974, the plan is not considered to have been in existence on January 1, 1974, because it was not both adopted and in writing on January 1, 1974.

(2) *Collectively-bargained plan.* Notwithstanding paragraph (c)(1) of this section, a plan described in section 413(a), relating to a plan maintained pursuant to a collective-bargaining agreement, is considered to be in existence on a particular day if—

(i) On or before that day there is a legally enforceable agreement to establish such a plan signed by the employer, and

(ii) The employer contributions to be made to the plan are set forth in the agreement.

(3) *Special rule.* If a plan is considered to be in existence under paragraph (c)(1) of this section, any other plan with which such existing plan is merged or consolidated shall also be considered to be in existence on such date.

(d) *Existing plans under collective bargaining agreements.* For a special effective date rule for certain plans maintained pursuant to a collective bargaining agreement, see section 1017(c)(1) of the Employee Retirement Income Security Act of 1974 (88 Stat. 932).

(e) *Certain existing plans may elect new provisions.* The plan administrator may elect to have the provisions of the Code relating to participation, vesting, funding, and form of benefit apply to a selected plan year. See § 11.410(a)–2(d) for rules relating to such an election.

§ 11.411(a)–3 Vesting in employer-derived benefits.

(a) *In general*—(1) *Alternative requirements.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan satisfies the requirements of section 411(a)(2) and this section. A plan satisfies the requirements of this section if it satisfies the requirements of paragraph (b), (c), or (d) of this section.

(2) *Composite arrangements.* A plan will not be considered to satisfy the requirements of paragraph (b), (c), or (d) of this section unless it satisfies all requirements of a particular one of such paragraphs with respect to all of an employee's years of service. A plan which, for example, satisfies the requirements of paragraph (b) (but not (c) or (d)) for an employee's first 9 years of service and satisfies the requirements of paragraph (c) (but not (b)) for all of his remaining years of service, does not satisfy the requirements of this section.

(3) *Plan amendments.* A plan which satisfies the requirements of a particular one of such paragraphs for each of an employee's years of service and which is amended so that, as amended, it satisfies the requirements of another such paragraph for all such years of service, satisfies the requirements of this section even though, as amended, it does not satisfy the requirements of the paragraph which were satisfied prior to the amendment. See § 11.411(a)–8 for rules relating to employee election where the vesting schedule is amended.

(b) *10-year vesting.* A plan satisfies the requirements of section 411(a)(2)(A) and this paragraph if an employee who has completed 10 years of service has a nonforfeitable right to 100 percent of his accrued benefit derived from employer contributions.

(c) *5- to 15-year vesting.* A plan satisfies the requirements of section 411(a)(2)(B) and this paragraph if an employee who has completed at least 5 years of service has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions, which percentage is not less than the nonforfeitable percentage determined under the following table:

Completed years of service:	Nonforfeitable percentage
5	25
6	30
7	35
8	40
9	45
10	50
11	60
12	70
13	80
14	90
15 or more	100

(d) *Rule of 45.* A plan satisfies the requirements of section 411(a)(2)(C) and this paragraph if an employee is entitled to the greater of the two percentages determined under subparagraph (1) or (2) of this paragraph.

(1) *Age and service test.* An employee who is not separated from the service, who has completed at least 5 years of service, and with respect to whom the sum of his age and years of service equals or exceeds 45, has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions which is not less than the nonforfeitable percentage corresponding to his number of completed years of service or to the sum of his age and completed years of service (whichever percentage is the lesser) determined under the following table:

Completed years of service	Sum of age and service	Nonforfeitable percentage
5	45 or 46	50
6	47 or 48	60
7	49 or 50	70
8	51 or 52	80
9	53 or 54	90
10 or more	55 or more	100

(2) *Service test.* An employee who has completed at least 10 years of service has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions determined under the following table:

Completed years of service:	Nonforfeitable percentage
10	50
11	60
12	70
13	80
14	90
15	100

(3) *Computation of age.* For purposes of subparagraph (1) of this paragraph, the age of an employee is his age on his last birthday.

(e) *Examples.* The rules provided by this section are illustrated by the following examples:

Example (1). Plan B provides that each employee's rights to his employer-derived accrued benefit are nonforfeitable as follows:

Completed years of service:	Nonforfeitable percentage
2 or less	0
3	30
4	35
5	40
6	45
7	50
8	55
9	60
10	65
11	70
12	75
13	80
14	85
15	100

Plan B does not satisfy the requirements of paragraph (c) of this section (relating to 5–15-year vesting) because the nonforfeitable percentage provided by the plan after completion of 14 years of service (85 percent) is less than the percentage required by paragraph (c) of this section at that time (90 percent). The fact that the nonforfeitable percentage provided by the plan for years prior to the 13th year of service is greater than the percentage required under paragraph (c) of this section is immaterial. The plan fails to satisfy the requirements of paragraph (c) of this section even if it is demonstrated that the value of the vesting provided by the plan to the employee is at least equal to the value of the vesting rate required by that paragraph.

Example (2). Plan C provides for plan participation after the completion of 1 year of service. The plan provides that each employee's rights to his employer-derived accrued benefit are 100 percent nonforfeitable after 10 years of plan participation rather than service. The plan does not satisfy the requirements of paragraph (b) of this section because, under the plan, an employee obtains a 100 percent nonforfeitable right to his employer-derived accrued benefit only after completion of more than 10 years of service.

Example (3). Plan D provides that each employee's rights to his employer-derived accrued benefit are nonforfeitable in accordance with the following schedule:

Completed years of services:	Nonforfeitable percentage
0–9	0
10	50
11	60
12	70
13	80
14	90
15	100

The plan does not satisfy the requirements of paragraph (b) of this section after the 9th year of service. It does not satisfy the requirements of paragraph (c) of this section for years prior to the 10th year of service. It does not satisfy the requirements of paragraph (d)(1) of this section for any year of service prior to the 10th year. The plan does not satisfy the requirements of this section because it does not satisfy the requirements of a particular one of the three paragraphs for each of an employee's years of service.

Example (4). Plan G provides that each employee's rights to his employer-derived accrued benefit are 100 percent nonforfeitable upon completion of 5 years of service. The plan satisfies the requirements of paragraphs (b), (c), and (d) of this section and, because it satisfies the requirements of at least one of such paragraphs for all of an employee's years of service, it satisfies the requirements of this section.

§ 11.411(a)–4 Forfeitures, suspensions, etc.

(a) *Nonforfeitability.* Certain rights in an accrued benefit must be nonforfeitable to satisfy the requirements of section 411(a). This section defines the term "nonforfeitable" for purposes of these requirements. For purposes of section 411 and the regulations thereunder, a right to an accrued benefit is considered to be nonforfeitable at a particular time if, at that time and thereafter, it is an unconditional right. Except as provided by paragraph (b) of this section, a right which, at a particular time, is conditioned upon a subsequent event, subsequent performance, or subsequent forbearance, is a forfeitable right at that time. Certain adjustments to plan benefits such as adjustments in excess of reasonable actuarial reductions, can result in rights being forfeitable. Rights which are conditioned upon a sufficiency of plan assets in the event of a termination or partial termination are not considered to be forfeitable. To the extent that rights are not required to be nonforfeitable to satisfy the minimum vesting standards, or the nondiscrimination requirements of section 401(a)(4), they may be forfeited without regard to the limitations on forfeitability required by this section.

(b) *Special rules.* For purposes of paragraph (a) of this section, a right is not treated as forfeitable—

(1) *Death.* In the case of a participant's right to his employer-derived accrued benefit, merely because such accrued benefit is forfeitable by the participant to the extent it has not been paid or distributed to him prior to his death. This subparagraph shall not apply to a benefit which must be paid to a survivor in order to satisfy the requirements of section 401(a)(11).

(2) *Suspension of benefits upon reemployment of retiree.* In the case of certain suspensions of benefits under section 411(a)(3)(B), see regulations prescribed by the Secretary of Labor under 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

(3) *Retroactive plan amendment.* In the case of a participant's right to his employer-derived accrued benefit, merely because such benefit is subject to reduction to the extent provided by a plan amendment described in section 412(c)(8) and the regulations thereunder, which amendment is given retroactive effect in accordance with such section.

(4) *Withdrawal of mandatory contribution*—

(i) *General rule.* In the case of a participant's right to his employer-derived accrued benefit, merely because all or a portion of such benefit may be forfeited on account of the withdrawal by the participant of any amount attributable to his accrued benefit derived from his mandatory contributions (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1) before he has become a

V 40 I 214 NOV 5 75 XUM

50 percent vested participant (within the meaning of § 1.401(a)–19(b)(2)).

(ii) *Restoration of benefit.* Paragraph (b)(4)(i) of this section shall not apply unless, at the time the amount described in such subdivision is withdrawn by the participant, the plan provides the employee with a right to restoration of his employer-derived accrued benefit to the extent forfeited in accordance with such subdivision upon repayment to the plan of the amount withdrawn by him plus, in the case of a defined benefit plan, interest on such amount. Such interest shall be computed at the rate determined for purposes of section 411(c)(2)(C) on the date of such repayment (compounded annually from the date of such withdrawal). In the case of a defined contribution plan, the plan shall not be considered to fail to satisfy the requirements of this subdivision merely because under the plan the restoration of employer-derived accrued benefits described in this subdivision is not provided unless the repayment described in this subdivision is made before the close of the vesting computation period within which the participant has a one-year break in service within the meaning of § 1.411(a)–6. A defined contribution plan or a defined benefit plan may require that such repayment be made within 2 years of the employee's resumption of employment covered by the plan.

(iii) *Computation of benefit.* In the case of a defined contribution plan, the employer-derived accrued benefit required to be restored by this paragraph shall not be less than the amount in the account balance of the employee which was forfeited, unadjusted by any subsequent gains or losses.

(iv) *Delayed forfeiture.* A defined contribution plan may in lieu of the forfeiture and restoration described in this subparagraph provide that the forfeiture does not occur until the expiration of the time for repayment described in paragraph (b)(4)(ii) of this section provided that the conditions of this paragraph are satisfied.

(5) *Certain benefits*—(i) *General rule.* In the case of a participant's right to the portion of the employer-derived benefit which accrued prior to September 2, 1974, merely because such portion may be forfeited on account of the withdrawal by the participant of an amount attributable to his benefit derived from mandatory contributions (within the meaning of section 411(c)(2)(C) and § 11.411(c)–1(c)(4)) made by the participant before September 2, 1974, if the amount so subject to forfeiture is no more than proportional to such amounts withdrawn. This subparagraph shall not apply to any plan to which any mandatory contribution (within the meaning of section 411(c)(2)(C) and § 11.411(c)–1(c)(4)) is made after September 2, 1974.

(ii) *Defined contribution plan.* In the case of a defined contribution plan, the portion of a participant's benefit which accrued prior to September 2, 1974, shall be determined on the basis of a separate accounting between benefits accruing before and after such date. Gains, losses, withdrawals, forfeitures, and other credits or charges must be separately allocated to such benefits. Any allocation made on a reasonable and consistent basis prior to [date of publication] shall satisfy the requirements of this paragraph.

(iii) *Defined benefit plan.* In the case of a defined benefit plan, the portion of a participant's benefit which accrued prior to September 2, 1974, shall be determined in a manner consistent with the determination of an accrued benefit under section 411(b)(1)(D), see § 11.411(b)–1(c). Any method of determining such accrued benefit which the Commissioner finds to be reasonable shall satisfy the requirements of this paragraph.

(6) *Class-year plans, etc.* For purposes of paragraphs (b)(4) and (5) of this section, in the case of a class-year plan (within the meaning of section 411(d)(4) and § 11.411(d)–3), a withdrawal of employee contributions shall be treated as a withdrawal of such contributions on a plan year by plan year basis in succeeding order of time. For additional requirements relating to nonforfeitability of benefits in the event of a withdrawal by the employee, see section 401(a)(19) and § 11.401(a)–19.

(c) *Examples.* The rules of this section are illustrated by the following examples:

Example (1). Corporation A's plan provides that an employee is fully vested in his employer-derived accrued benefit after completion of 5 years of service. The plan also provides that, if an employee works for a competitor he forfeits his rights in the plan. Such provision could result in the forfeiture of an employee's rights which are required to be nonforfeitable under section 411 and therefore the plan would not satisfy the requirements of section 411. If the plan limited the forfeiture to employees who completed less than 10 years of service, the plan would not fail to satisfy the requirements of section 411 because the forfeitures under this provision are limited to rights which are in excess of the minimum required to be nonforfeitable under section 411(a)(2)(A).

Example (2). Plan B provides that if an employee does not apply for benefits within 5 years after the attainment of normal retirement age, the employee loses his plan benefits. Such a plan provision could result in forfeiture of an employee's rights which are required to be nonforfeitable under section 411 and, therefore, the plan would not satisfy the requirements of section 411.

§ 11.411(a)–5 Service included in determination of nonforfeitable percentage.

(a) *In general.* Under section 411(a)(4), for purposes of determining the nonforfeitable percentage of an employee's right to his employer-derived accrued benefit under section 411(a)(2) and § 11.411(a)–3, all of an employee's years of service with an employer or employers maintaining the plan shall be taken into account except that years of service described in paragraph (b) of this section may be disregarded.

(b) *Certain service.* For purposes of paragraph (a) of this section, the following years of service may be disregarded:

(1) *Service before age 22.* (i) In the case of a plan which satifies the requirements of section 411(a)(2)(A) or (B) (relating to 10-year vesting and 5–15-year vesting, respectively), a year of service completed by an employee before he attains age 22.

(ii) In the case of a plan which does not satisfy the requirements of section 411(a)(2)(A) or (B), a year of service completed by an employee before he attains age 22 if the employee is not a participant (for purposes of section 410) in the plan at any time during such year.

(iii) For purposes of this subparagraph, service during a vesting computation period described in section 411(a)(5)(A) within which the employee attains age 22 may not be disregarded.

(2) *Contributory plans.* A year of service completed by an employee under a plan which requires mandatory contributions (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1(c)(4)) to be made by the employee for such year, if the employee does not participate for such year solely because of his failure to make mandatory contributions to the plan.

(3) *Plan not maintained*—(i) *In general.* An employee's years of service with an employer during any period for which the employer did not maintain the plan or a predecessor plan may be disregarded for purposes of section 411(a)(2). Paragraph (b)(3)(ii) of this section provides rules regarding the period prior to the adoption of a plan. Paragraph (b)(3)(iii) of this section provides rules regarding the period after the termination of a plan. Paragraph (b)(3)(iv) of this section provides rules regarding employers who have certain relationships with other employers maintaining the plan.

(ii) *Period prior to adoption.* The period for which a plan is not maintained by an employer includes the period before the plan was established. For purposes of this subdivision, a plan is established on the first day of the plan year in which the plan is adopted even though the plan is adopted after such first day (or the first day of the plan year for which the plan is first effective taking into account any retroactive effective date allowed by section 401(b)). Except as provided in paragraph (b)(3)(iv) of this section, if an employer adopts a plan which has previously been established by another employer or group of employers, the plan is not maintained by the adopting employer prior to the first day of the plan year in which the plan is adopted by the adopting employer. In the case of a transfer of assets or liabilities (including a merger or consolidation) involving two plans maintained by a single employer, the successor (or transferee) plan is treated as if it was established at the same time as the date of the establishment of the earliest component plan. In the case of a plan merger, consolidation, or transfer of plan assets or liabilities involving plans of two or more employers, the successor plan is treated as if it were established on each of the separate dates on which such component plan was established for the employees of each employer. Thus, for example, if employer A establishes a plan January 1, 1970, and employer B establishes a plan January 1, 1980, and the plans were subsequently merged, then the merged plan would be treated as if it were in existence on January 1, 1970, with respect to A's employees and as if it were in existence on January 1, 1980, with respect to B's employees.

(iii) *Period after termination or withdrawal.* The period for which a plan is not maintained by an employer includes the period after the plan is terminated. For purposes of this section, a plan is terminated at the date there is a termination of the plan within the meaning of section 411(d)(3)(A) and the regulations thereunder. Notwithstanding the preceding sentence, if contributions to or under a plan are made after termination, the plan is treated as being maintained until such contributions cease. In the case of a plan maintained by more than one employer, the period for which the plan is not maintained by the withdrawing employer includes the period after the withdrawal from the plan.

(iv) *Certain employers.* For purposes of this paragraph—

(A) *Predecessor employers.* Service with a predecessor employer who maintained the plan of the current employer is treated as service with such current employer (see section 414(a)(1) and the regulations thereunder), and certain service with a predecessor employer who did not maintain the plan of the current employer is treated as service with the current employer (see section 414(a)(2) and the regulations thereunder).

(B) *Related employers.* Service with an employer is treated as service for certain related employers. These related employers include members of a controlled group of corporations (within the meaning of section 1563(a), determined without regard to subsections (a)(4) and (e)(3)(C) thereof) and trades or businesses (whether or not incorporated) which are under common control (see section 414 (b) and (c)).

(C) *Plan maintained by more than one employer.* Service with an employer who maintains a plan is treated as service for each other employer who maintains that plan (see section 413 (b)(4) and (c)(3) and 29 CFR Part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans).

(v) *Predecessor plan*—(A) *General rule.* In the case of an employee who was covered by a predecessor plan, the time the successor of such plan is maintained for such employee includes the time the predecessor plan was maintained if, as of the later of the time the predecessor plan is terminated or the successor plan is established, the employee's years of service under the predecessor plan are not equalled or exceeded by the aggregate number of consecutive 1-year breaks in service occurring after such years of service. Years of service and breaks in service, without regard to whether the employee has nonforfeitable rights under the predecessor plan, are determined under section 411(a)(5) and (6) except that years between the termination date of the predecessor plan and the date of establishment of the successor plan do not count as years of service.

(B) *Definition of predecessor plan.* For purposes of this section, if—

(1) An employer establishes a retirement plan (within the meaning of section 7476(d)) qualified under subchapter D of chapter 1 of the Code within the 5-year period immediately preceding or following the date another such plan terminates, and

(2) The other plan is terminated during a plan year to which this section applies, the terminated plan is a predecessor plan with respect to such other plan.

(C) *Example.* The rules provided by this subparagraph are illustrated by the following example:

Example. (1) Employer X's qualified plan A terminated on January 1, 1977. Employer X established qualified plan B on January 1, 1981. Under paragraph (b)(3)(v)(B) of this section, plan A is a predecessor plan with respect to plan B because plan B is established within the 5-year period immediately following the date plan A terminated.

(2) Employee C was not covered by the A plan. Under the general rule in paragraph (b)(3)(v)(A) of this section, plan B is not maintained until January 1, 1981, with respect to Employee C.

(3) Employee D was covered by the A plan. On December 31, 1976, D had 4 years of service. D had 4 consecutive 1-year breaks in service because, during the years between the termination of plan A and the establishment of plan B, he did not have more than 500 hours of service in any applicable computation period. Because D's consecutive 1-year breaks (4) equal his years of service prior to his breaks (4), plan B is not maintained until January 1, 1981, with respect to employee D.

(4) Employee E was covered by the A plan. On December 31, 1975, E had 6 years of service. E had a 1-year break in service in 1976. E also had 4 consecutive 1-year breaks in service for the period between plan A's termination and plan B's establishment. Because E's years of service (6) are not less than his consecutive 1-year breaks (5), plan B is maintained for E as of the establishment date of plan A.

(4) *Break in service.* A year of service which is not required to be taken into account by reason of a break in service (within the meaning of section 411(a)(6) and § 11.411(a)–6)).

(5) *Service before January 1, 1971.* A year of service completed by an employee prior to January 1, 1971, unless the employee completes at least 3 years of service at any time after December 31, 1970. For purposes of determining if an employee completes 3 years of service, whether or not consecutive, the exceptions of section 411(a)(4) are not applicable. For the meaning of the term "year of service", see regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(6) *Service before effective date.* A year of service completed before the first plan year for which this section applies to the plan, if such service would have been disregarded under the plan rules relating to breaks in service (whether or not such rules are so designated in the plan) as such rules were in effect from time to time under the plan. In general, rules which relate to required minimum hours or other length of service will be considered break in service rules. See § 11.411(a)–9 for requirements relating to certain amendments to the break in service rules of a plan.

(c) *Special continuity rule for certain plans.* For special rules for computing years of service in the case of a plan maintained by more than one employer, see § 210 of 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

§ 11.411(a)–6 Year of service; hour of service; breaks in service.

(a) *Year of service.* Under section 411(a)(5)(A), for purposes of the regulations thereunder, the term "year of service" is defined in regulations prescribed by the Secretary of Labor under section 203(b)(2)(A) of the Employee Retirement Income Security Act of 1974. For special rules applicable to seasonal industries and maritime industries, see regulations prescribed by the Secretary of Labor under subparagraphs (C) and (D) of section 203(b)(2) of the Employment Retirement Income Security Act of 1974.

(b) *Hours of service.* Under section 411(a)(5)(B), for purposes of the regulations thereunder, the term "hours of service" has the meaning provided by section 410(a)(3)(C). See regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(c) *Breaks in service.* Under section 411(a)(6), for purposes of § 11.411(a)–5(b)(4) and of this section—

(1) *In general*—(i) *Year of service after 1-year break in service.* In the case of any employee who has incurred a 1-year break in service, years of service completed before such break are not required to be taken into account until the employee has completed one year of service after his return to service.

(ii) *Defined contribution plan*—(A) *General rule.* In the case of a participant in a defined contribution plan or in an insured defined benefit plan (which plan satisfies the requirements of section 411(b)(1)(F) and § 11.411(b)–1) who has incurred a 1-year break in service, years of service completed after such break are not required to be taken into account for purposes of determining the nonforfeitable percentage of the participant's right to employer-derived benefits which accrued before such break. This subdivision does not permit years of service completed before a 1-year break in service to be disregarded in determining the nonforfeitable percentage of a participant's right to employer-derived benefits which accrue after such break.

(B) *Special rule.* If a defined contribution plan makes a distribution to a participant at a time when the participant is less than 100 percent vested in his employer contributions and there is no

V 40 I 214 NOV 5 75 XUM

break in service prior to the relevant time, the plan must provide that—

(1) A separate account is established for the participant's interest in the plan as of the time of the distribution, and

(2) That at any relevant time the participant's vested portion of the separate account is not less than an amount ("X") determined by the formula:

$$X=P(AB+(R\times D))-(R\times D)$$

For purposes of applying the formula: P is the vested percentage at the relevant time; AB is the account balance at the relevant time; D is the amount of the distribution; and R is the ratio of the account balance at the relevant time to the account balance after distribution.

(C) *Example.* The rule of paragraph (c)(1)(ii)(B) of this section is illustrated by the following example:

Example. A receives a distribution of $250 from the X defined contribution plan when his account balance equals $1,000 and he is 25 percent vested. He does not incur a break in service. Six years later, when A is 60 percent vested, he incurs a break in service. At this time his separate account balance equals $1,500.

$$R=\frac{\$1,500}{\$750}\text{ or }2$$

A's separate account must equal 60 percent ($1,500+(2\times\$250))-(2\times\$250)$, or 60 percent ($1,500+\$500)-\$500$, or $1,200-\$500=\$700$.

(iii) *Nonvested participants.* In the case of an employee who is a nonvested participant in employer-derived benefits at the time he incurs a 1-year break in service, years of service completed by such participant before such break are not required to be taken into account for purposes of determining the nonforfeitable percentage of his right to employer-derived benefits if at such time the number of consecutive 1-year breaks in service included in his most recent break in service equals or exceeds the aggregate number of his years of service, whether or not consecutive, completed before such break. In computing the aggregate number of years of service prior to such break, years of service which could have been disregarded under this subdivision by reason of any prior break in service may be disregarded.

(2) *One-year break in service defined.* The term "1-year break in service" means a calendar year, plan year, or other 12-consecutive month period designated by a plan (and not prohibited under regulations prescribed by the Secretary of Labor) during which the participant has not completed more than 500 hours of service. See regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(d) *Examples.* The rules provided by this section are illustrated by the following examples:

Example (1). (i) X Corporation maintains a defined contribution plan to which section 411 applies. The plan uses the calendar year as the vesting computation period. In 1980, Employee A, who was hired at age 35, separates from the service of X Corporation after competing 4 years of service. At the time of his separation, Employee A had a non-forfeitable right to 25 percent of his employer-derived accrued benefit which was not distributed. In 1985, after incurring 5 consecutive one-year breaks in service, Employee A is re-employed by X Corporation and becomes an active participant in the plan. The plan provides that, for 1985 and all subsequent years, Employee A's previous years of service will not be taken into account for purposes of computing the nonforfeitable percentage of his employer-derived accrued benefit, solely because of his break in service.

(ii) The plan fails to satisfy section 411. Section 411(a)(6)(B) would permit the plan to disregard Employee A's prior service for purposes of computing his nonforfeitable percentage in 1985 only, but such service must be taken into account in subsequent years unless there is another break in service. Under section 411(a)(6)(C), the plan is not required to take Employee A's post-break service into account for purposes of computing his nonforfeitable right to his pre-break employer-derived accrued benefits. This provision, however, would not permit the plan to disregard pre-break service in determining his nonforfeitable right to his benefit accrued after the break. The exception provided by section 411(a)(6)(D) does not apply in the case of a participant who has any nonforfeitable right to his accrued benefit derived from employer contributions.

Example (2). (i) X Corporation maintains a qualified plan to which sections 410 and 411 (relating to minimum participation standards and minimum vesting standards, respectively) apply. The plan permits participation upon completion of a year of service and provides that 100 percent of an employee's employer-derived accrued benefit vests after 10 years of service. The plan uses the calendar year as the vesting computation period. The plan provides that an employee who completes at least 1,000 hours of service in a 12-month period is credited with a year of service for participation and vesting purposes. The plan also provides that an employee who does not complete more than 500 hours of service in that 12-month period incurs a one-year break in service. The plan includes the rule described in section 411(a)(6)(D) for participation and vesting purposes. Under this rule, an employee's years of service prior to a break in service may be disregarded under certain circumstances if he has no vested right to any employer-derived benefit under the plan. The plan does not contain the rule described in section 411(a)(6)(B) (relating to the requirement of one year of service after a one-year break in service).

(ii) Employee A commences employment with the X Corporation on January 1, 1977. Employee A's employment history for 1977 through 1989 is as follows:

Year ending Dec. 31:	Hours of service completed
1977	1,000
1978	800
1979	1,000
1980	400
1981	1,000
1982	0
1983	400
1984	1,000
1985	0
1986	0
1987	500
1988	200
1989	1,000

Employee A's status as a participant during this period is determined as follows:

1978: Employee A was a plan participant on January 1, 1978, because he completed a year of service (1,000 hours) in 1977. He did not complete a year of service in 1978 because he completed fewer than 1,000 hours in that year. Because he completed more than 500 hours of service in 1978, however, Employee A did not incur a one-year break in service that year.

1979: Employee A completes a year of service in 1979. Because he did not incur a one-year break in service in 1978, the plan may not disregard his 1977 service for purposes of determining his years of service as of January 1, 1979.

1980: Employee A incurs a one-year break in service in 1980.

1981: Because Employee A had completed 2 years of service prior to 1981 and had incurred one 1-year break in service prior to 1981, under section 411(a)(6)(D), the plan may not disregard his pre-1980 service in 1981. Employee A completes a year of service in 1981.

1982: Employee A incurs a one-year break in service in 1982

1983: Employee A incurs a one-year break in service in 1983. As of the end of 1983, he has completed 3 years of service and has incurred 2 consecutive one-year breaks in service.

1984: Employee A completes a year of service in 1984. Under section 411(a)(6)(D), his pre-1983 service may not be disregarded in 1984 because, as of the beginning of 1984, his pre-1984 years of service (3) exceed his consecutive one-year breaks in service (2).

1985–1988: Employee A incurs 4 consecutive one-year breaks in service during the years 1985 through 1988.

1989: Employee A's pre-1989 service is disregarded in 1989 and all subsequent plan years because his years of service as of January 1, 1989, equal the number of consecutive one-year breaks he has incurred as of that date. Therefore, as of the beginning of 1989, Employee A is not a plan participant. Employee A completes a year of service in 1989. (Although section 411(a)(6)(D) does not prohibit the plan provision under which Employee's A's pre-1989 service is disregarded, that section does not require such a provision in a qualified plan.)

§ 1.411(a)–7 Definitions and special rules.

(a) *Accrued benefit.* For purposes of section 411 and the regulations thereunder, the term "accrued benefit" means—

(1) *Defined benefit plan.* In the case of a defined benefit plan—

(i) If the plan provides an accrued benefit in the form of an annual benefit commencing at normal retirement age, such accrued benefit, or

(ii) If the plan does not provide an accrued benefit in the form described in subdivision (i) of this subparagraph, an annual benefit commencing at normal retirement age which is the actuarial equivalent (determined under section 411(c)(3) and § 11.411(c)–5) of the accrued benefit determined under the plan.

For purposes of this paragraph a subsidized early retirement benefit which is provided by a plan is not taken into account, except to the extent of determining the normal retirement benefit under the plan (see section 411(a)(9) and paragraph (c) of this section). The accrued benefit includes any optional settlement at normal retirement age under

actuarial assumptions no less favorable than those which would be applied if the employee were terminating his employment at normal retirement age. The accrued benefit does not include any subsidized value in a joint and survivor annuity to the extent that the annual benefit of the joint and survivor annuity does not exceed the annual benefit of a single life annuity.

(2) *Defined contribution plan.* In the case of a defined contribution plan, the balance of the employee's account held under the plan.

(b) *Normal retirement age*—(1) *General rule.* For purposes of section 411 and the regulations thereunder the term "normal retirement age" means the earlier of—

(i) The time specified by a plan at which a plan participant attains normal retirement age, or

(ii) The later of—

(A) The time the plan participant attains age 65, or

(B) The 10th anniversary of the date the plan participant commences participation in the plan.

For purposes of paragraph (b)(1)(i) of this section, if an age is not specified by a plan as the normal retirement age, then the normal retirement age under the plan is the earliest age beyond which the participant's benefits under the plan are not greater solely on account of his age or service. For purposes of paragraph (b)(1)(ii)(B) of this section, participation commences on the first day of the first year in which the participant commenced his participation in the plan, except that years which may be disregarded under section 410(a)(5)(D) may be disregarded in determining when participation commenced.

(2) *Examples.* The provisions of this paragraph are illustrated by the following examples:

Example (1). Plan A defines normal retirement age as age 65. Under the plan, benefits payable to participants who retire at or after age 60 are not reduced on account of early retirement. For purposes of section 411 and the vesting regulations, normal retirement age under Plan A is age 65 (determined under subparagraph (1)(i) of this paragraph). This is true even if in operation all participants retire at age 60.

Example (2). Plan B does not specify any age as the normal retirement age. Under the plan, participants who have attained age 55 are entitled to benefits commencing upon retirement but the benefits of participants who retire before attaining age 70 are subject to reduction on account of early retirement. For purposes of section 411 and the vesting regulations the normal retirement age under plan B is the later of (i) age 65, or (ii) the 10th anniversary of the date a plan participant commences participation in the plan (assuming such date is prior to age 70).

Example (3). The facts are the same as in example (2). Employee X first became a participant in Plan B on January 1, 1980 at age 53. His participation continued until December 31, 1980, when he separated from the service with no vested benefits. After incurring 5 consecutive 1-year breaks in service, Employee X again becomes an employee and a plan participant on January 1, 1986, at age 59. For purposes of section 411, Employee X's normal retirement age under Plan B is age 69, the 10th anniversary of the date on which his year of plan participation commenced. His participation in 1980 may be disregarded under the last sentence of paragraph (b)(1) of this section.

(c) *Normal retirement benefit*—(1) *In general.* For purposes of section 411 and the regulations thereunder, the term "normal retirement benefit" means the periodic benefit under the plan commencing upon early retirement (if any) or at normal retirement age, whichever benefit is greater.

(2) *Periodic benefit.* For purposes of paragraph (c)(1) of this section—

(i) In the case of a plan under which a benefit is payable as an annuity in the same form upon early retirement and at normal retirement age, the greater benefit is determined by comparing the amount of such annuity payments.

(ii) In the case of a plan under which an annuity benefit payable upon early retirement is not in the same form as an annuity benefit payable at normal retirement age, the greater benefit is determined by converting the annuity benefit payable upon early retirement age into the same form of annuity benefit as is payable at normal retirement age and by comparing the amount of the converted early retirement benefit payment with the amount of the normal retirement benefit payment.

(3) *Benefits included.* For purposes of this paragraph, the normal retirement benefit under a plan shall be determined without regard to medical benefits or disability benefits not in excess of the qualified disability benefit. For this purpose, a qualified disability benefit is a disability benefit which is not in excess of the amount of the benefit which would be payable to the participant if he separated from service at normal retirement age.

(4) *Determination of early retirement benefit.* For purposes of this paragraph, the early retirement benefit under a plan shall be determined without regard to any qualified plan benefits provided for a participant which commence before his benefits payable under title II of the Social Security Act become payable. For purposes of this paragraph, qualified plan benefits are plan benefits which do not exceed such social security benefits and which terminate when the participant is eligible for such social security benefits.

(5) *Special limitation.* If a defined benefit plan bases its normal retirement benefits on employee compensation, the compensation must reflect the compensation which would have been paid for a full year of participation within the meaning of section 411(b)(3). If an employee works less than a full year of participation, the compensation used to determine benefits under the plan for such year of participation must be multiplied by the ratio of the number of hours for a complete year of participation to the number of hours worked in such year. A plan whose benefit formula is computed on a computation base which cannot decrease is not required to adjust employee compensation in the manner described in the previous sentence. Thus, for example, if a plan provided a benefit based on an employee's compensation for his highest five consecutive years, the plan would not have to so adjust compensation. However, if a plan provided a benefit based on an employee's compensation for the employee's last five years or the five highest consecutive years out of the last 10 years, the compensation, must be so adjusted. For special rules for applying the limitations on proration of a year of participation for benefit accrual, see 29 CFR Part 2530.204.

(6) *Examples.* The provisions of this paragraph are illustrated by the following examples:

Example (1). Plan A provides for a benefit equal to 1 percent of high 5 years compensation for each year of service and a normal retirement age of 65. The plan also provides for a full unreduced accrued benefit without any actuarial reduction for any employee at age 55 with 30 years of service. Even though the actuarial value of the early retirement benefit could exceed the value of the benefit at the normal retirement age, the normal retirement benefit would not include the greater value of the early retirement benefit because actuarial subsidies are ignored.

Example (2). Plan B provides the following benefits: (1) at normal retirement age 65, $300/mo. for life and (2) at early retirement age 60, $400/mo. for life. The normal retirement benefit is $400/mo., the greater of the benefit payable at normal retirement age ($300) or early retirement ($400).

Example (3). Assume the same facts as example (2) except that the early retirement benefit of $400 is reduced to $300 upon attainment of age 65. If each employee's social security benefit at age 65 is not less than $100, the $100 would be considered to be a social security supplement and would therefore be ignored. Consequently, the normal retirement benefit would be $300.

Example (4). Plan C provides a benefit at normal retirement age equal to 1 percent per year of service, multiplied by the participant's compensation averaged over the 5 years immediately prior to retirement. An early retirement benefit is provided upon attainment of age 60 equal to the benefit accrued to date of early retirement reduced by 4 percent for each year by which the early retirement date precedes the normal retirement age of 65. Employee A was hired at age 30, participated immediately, and retired at age 65. Employee A's annual compensation was $50,000 between ages 55–60 and was reduced to $33,000 after age 60. The following table indicates the amount of annual benefit that would have been provided by the plan formula if the employee retired at or after age 60:

V 40 I 214
NOV 5 75
XUM

Age	Final average computed (1)	Percent accrued benefit (2)	Reduction (3)	Annual benefit (4)
60	$50,000	30	0.90	$12,000
61	46,600	31	.84	12,135
62	43,200	32	.88	12,165
63	39,800	33	.92	12,083
64	36,400	34	.96	11,881
65	33,000	35	1.00	11,550

NOTE.—Col. (1) times col. (2) times col. (3) equals col. (4).

The normal retirement benefit is the greater of the benefit payable at normal retirement age or the early retirement benefit. Employee A's normal retirement benefit is $12,165, the greatest annual benefit Employee A would be entitled to.

(d) *Certain cash-outs of accrued benefits*—(1) *Involuntary cash-outs.* For purposes of determining an employee's right to an accrued benefit derived from employer contributions under a plan, the plan may disregard service performed by the employee with respect to which—

(i) The employee receives a distribution of the present value of his entire nonforfeitable benefit,

(ii) The portion of such distribution which is attributable to the present value of the employer-derived accrued benefit is not in excss of $1,750,

(iii) The distribution is made due to the termination of the employee's participation in the plan, and

(iv) The plan has a repayment provision which satisfies the requirements of subparagraph (4) of this paragraph in effect at the time of the distribution.

A distribution shall be deemed to be made due to the termination of an employee's participation in the plan only if it is made within 1 year after such termination.

(2) *Voluntary cash-outs.* For purposes of determining an employee's accrued benefit derived from employer contributions under a plan, the plan may disregard service performed by the employee with respect to which—

(i) The employee receives a distribution of the present value of his nonforfeitable benefit attributable to such service,

(ii) The employee voluntarily elects to receive such distribution,

(iii) The distribution is made on termination of the employee's participation in the plan, and

(iv) The plan has a repayment provision in effect at the time of the distribution which satisfies the requirements of paragraph (d)(4) of this section.

A distribution shall be deemed to be made on termination of participation only if it is made within 1 year after such termination.

(3) *Disregard of service.* Service of an employee permitted to be disregarded under paragraph (d) (1) or (2) of this section is not required to be taken into account in computing the employee's accrued benefit under the plan. In the case of a distribution described in paragraph (d)(2) of this section which is less than the present value of the employee's total nonforfeitable benefit immediately prior to the distribution, the accrued benefit not required to be taken into account is such accrued benefit multiplied by a fraction, the numerator of which is the amount of the distribution and the denominator of which is the present value of his total nonforfeitable benefit immediately prior to such distribution. However, such service may not by reason of this paragraph be disregarded for purposes of determining an employee's years of service under sections 410(a)(3) and 411(a)(4).

(4) *Plan repayment provision.*—(i) A plan repayment provision satisfies the requirements of this subparagraph if, under the provision, the accrued benefit of an employee which is disregarded by a plan under paragraph (d) (1) or (2) of the section is restored upon repayment to the plan by the employee of the full amount of the distribution. A plan is not required to provide for such repayment unless the employee—

(A) Received a distribution which is in a plan year to which section 411 applies (see § 11.411(a)–2) which distribution is less than the present value of his accrued benefit, and

(B) Resumes employment covered under the plan.

For purposes of (A) of this paragraph (d)(4)(i), an employee receives a distribution which is less than the present value of his accrued benefit if any portion of such benefit is forfeitable at the time of such distribution.

(ii) In the case of a defined benefit plan (as defined in section 414(j)) the restoration of the employee's accrued benefit may be conditioned upon repayment of interest on the full amount of the distribution. Such interest shall be computed on the amount of the distribution from the date of such distribution to the date of repayment, compounded annually from the date of distribution, (c)(2)(C) (see § 11.411(c)–3) in effect on the date of repayment. A plan may provide for repayment of interest which is less than the amount determined under the preceding sentence.

(iii) In the case of a defined contribution plan (as defined in section 414(i)) the plan repayment provision described in this subparagraph may provide that the employee must repay the full amount of his distribution before the close of the vesting computation period within which the participant has a one-year break in service within the meaning of § 11.411(a)–6.

(iv) A defined benefit plan or a defined contribution plan may require that such repayment be made within 2 years of the employee's resumption of employment covered by the plan.

(v) In the case of a defined contribution plan, the employer-derived accrued benefit required to be restored by this sub-paragraph shall not be less than the amount in the account balance of the employee, both the amount distributed and the amount forfeited, unadjusted by any subsequent gains or losses. Thus, for example, if an employee received a distribution of $250 when he was 25 percent vested in an account balance of $1,000, upon repayment of $250 the account balance may not be less than $1,000 even if, because of plan losses, the account balance, if not distributed, would have been reduced to $500.

§ 11.411(a)–8 Changes in vesting schedule.

(a) *Requirement of prior schedule.* Under section 411(a)(10)(A), for plan years for which section 411 applies, a plan will be treated as not meeting the minimum vesting standards of section 411(a)(2) if the plan does not satisfy the requirements of this paragraph. If the vesting schedule of a plan is amended, then as of the date such amendment is adopted, the plan satisfies the requirements of this paragraph if, under the plan as amended, in the case of an employee who is a participant on—

(1) The date the amendment is adopted, or

(2) The date the amendment is effective, if later, the nonforfeitable percentage of such employee's right to his employer-derived accrued benefit (determined as of such date) is not less than his percentage computed under the plan without regard to such amendment.

(b) *Election of former schedule*—(1) *In general.* Under section 411(a)(10)(B), for plan years for which section 411 applies, if the vesting schedule of a plan is amended, the plan will not be treated as meeting the minimum vesting standards of section 411(a)(2) unless the plan, as amended, provides that each participant whose nonforfeitable percentage of his accrued benefit derived from employer contributions is determined under such schedule, and who has completed at least 5 years of service with the employer, may elect, during the election period, to have the nonforfeitable percentage of his accrued benefit derived from employer contributions determined without regard to such amendment.

(2) *Election period.* For purposes of subparagraph (1) of this paragraph, the election period under the plan must begin no later than the date the plan amendment is adopted and end no earlier than the latest of the following dates:

(i) The date which is 60 days after the day the plan amendment is adopted,

(ii) The date which is 60 days after the day the plan amendment becomes effective, or

(iii) The date which is 60 days after the day the participant is issued written notice of the plan amendment by the employer or plan administrator.

(3) *Service requirement.* For purposes of subparagraph (1) of this paragraph, a participant shall be considered to have completed 5 years of service if such participant has completed 5 years of service

(as computed under the plan for the purpose of determining such participant's nonforfeitable percentage under section 411(a)(2)) with the employer prior to the expiration of the election period described in paragraph (b)(2) of this section.

(4) *Election only by participant.* The election described in paragraph (b)(1) of this section is available only to an individual who is a participant in the plan at the time such election is made.

(5) *Election may be irrevocable.* A plan, as amended, shall not fail to meet the minimum vesting standards of section 411(a)(2) by reason of section 411(a)(10)(B) merely because such plan provides that the election described in paragraph (b)(1) of this paragraph is irrevocable.

§ 11.411(a)–9 Amendment of break in service rules; transitional period.

(a) *In general.* Under section 1017(f)(2) of the Employee Retirement Income Security Act of 1974, a plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if the rules of the plan relating to breaks in service are amended, and—

(1) Such amendment is effective after January 1, 1974, and before the effective date of section 411, and

(2) Under such amendment, the nonforfeitable percentage of any employee's right to his employer-derived accrued benefit is less than the lesser of the nonforfeitable percentage of such employee's right to such benefit—

(i) Under the break in service rules provided by section 411(a)(6) and § 11.411(a)–6(c), or

(ii) The greatest such percentage under the plan as in effect on or after January 1, 1974 (provided the break in service rules of the plan were not in violation of any law or rule of law on January 1, 1974).

(b) *Break in service rules.* For purposes of paragraph (a), the term "break in service rules" means the rules provided by a plan relating to circumstances under which a period of an employee's service or plan participation is disregarded, for purposes of determining the extent to which his rights to his accrued benefit under the plan are unconditional, if under such rules such service is disregarded by reason of the employee's failure to complete a required period of service within a specified period of time.

§ 11.411(b)–1 Accrued benefit requirements.

(a) *Accrued benefit requirements*—(1) *In general.* Under section 411(b), for plan years beginning after the applicable effective date of section 411, rules are provided for the determination of the accrued benefit to which a participant is entitled under a plan. Under a defined contribution plan, a participant's accrued benefit is the balance to the credit of the participant's account. Under a defined benefit plan, a participant's accrued benefit is his accrued benefit determined under the plan. A defined benefit plan is not a qualified plan unless the method provided by the plan for determining accrued benefits satisfies at least one of the alternative methods (described in paragraph (b) of this section) for determining accrued benefits with respect to all active participants under the plan. In addition, a defined benefit plan (without regard to any combining of plans of an employer) must provide only one method for the computation of accrued benefits. A defined benefit plan does not satisfy the requirements of section 411(b) and this section merely because the accrued benefit is defined as the "reserve under the plan". Special rules are provided for the first two years of service by a participant, certain insured defined benefit plans, and certain reductions in accrued benefits due to increasing age or service. In addition, a special rule is provided with respect to accruals for service before the effective date of section 411.

(2) *Cross references*—

(i) *3 percent method.* For rules relating to the 3 percent method of determining accrued benefits, see paragraph (b)(1) of this section.

(ii) *133⅓ percent method.* For rules relating to the 133⅓ percent method of determining accrued benefits, see paragraph (b)(2) of this section.

(iii) *Fractional method.* For rules relating to the fractional method of determining accrued benefits, see paragraph (b)(3) of this section.

(iv) *Accruals before effective date.* For rules relating to accruals for service before the effective date of section 411, see paragraph (c) of this section.

(v) *First 2 years of service.* For special rules relating to determination of accrued benefit for first 2 continuous years of service, see paragraph (d)(1) of this section.

(vi) *Certain insured plans.* For special rules relating to determination of accrued benefit under a defined benefit plan funded exclusively by insurance contracts, see paragraph (d)(2) of this section.

(vii) *Accruals decreased by increasing age or service.* For special rules relating to prohibition of decrease in accrued benefit on account of increasing age or service, see paragraph (d)(3) of this section.

(viii) *Separate accounting.* For rules relating to requirements for separate accounting, see paragraph (e) of this section.

(ix) *Year of participation.* For definition of "year of participation", see paragraph (f) of this section.

(b) *Defined benefit plans.* A defined benefit plan satisfies the requirements of section 411(b)(1) and this paragraph for a plan year to which section 411 and this section apply if it satisfies the requirements of paragraph (b)(1), (2), or (3) of this section for such year.

(1) *3 percent method*—(i) *General rule.* A defined benefit plan satisfies the requirements of this paragraph for a plan year, if, as of the close of the plan year, the accrued benefit to which each participant is entitled, computed as if the participant separated from the service as of the close of such plan year, is not less than 3 percent of the 3 percent method benefit, multiplied by the number of years (not in excess of 33⅓) of his participation in the plan including years after his normal retirement age. For purposes of this subparagraph, the "3 percent method benefit" is the normal retirement benefit to which the participant would be entitled if he commenced participation at the earliest possible entry age for any individual who is or could be a participant under the plan and if he served continuously until the earlier of age 65 or the normal retirement age under the plan.

(ii) *Special rules*—(A) *Compensation.* In the case of a plan providing a retirement benefit based upon compensation during any period, the normal retirement benefit to which a participant would be entitled is determined as if he continued to earn annually the average rate of compensation which he earned during consecutive years of service, not in excess of 10, for which his compensation was the highest. For purposes of this paragraph (b)(1)(ii)(A), the number of consecutive years of service used in computing average compensation shall be the number of years of service specified under the plan (not in excess of 10) for computing normal retirement benefits.

(B) *Social security, etc.* For purposes of this subparagraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(C) *Computation in certain cases.* In the case of any plan to which the provisions of section 411(b)(1)(D) and paragraph (c) of this section are applicable, for any plan year the accrued benefit of any participant shall not be less than the accrued benefit otherwise determined under this subparagraph, reduced by the excess of the accrued benefit determined under this paragraph as of the first day of the first plan year to which section 411 applies over the accrued benefit determined under section 411(b)(1)(D) and paragraph (c) of this section and increased by the amount determined under paragraph (c)(2)(v) of this section.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples.

Example (1). The M Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of $4 per month for each year of participation. As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. The plan provides for no limit on the number of years of credited service. A, age 40, is a participant in the M Corporation's plan. A has completed 12 years of participation in the plan of the M Corporation as of the close of the plan year. Under subdivision (i) of this subparagraph, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement

V40 I214 NOV 5 75 XUM

age (65) is an annual benefit of $1,920 [40×(12×$4)]. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless A has accrued an annual benefit of at least $691 [0.03×($1,920×12)] as of the close of the plan year. Under the M Corporation plan, A is entitled to an accrued benefit of $576 [(12×12)×$4] as of the close of the plan year. Thus, with respect to A, the accrued benefit provided under the M Corporation plan does not satisfy the requirements of this subparagraph.

Example (2). Assume the same facts as in example (1) except that the M Corporation's plan provides that only the first 30 years of participation are taken into account. Under subdivision (i) of this subparagraph, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible energy age under the plan (25) and served continuously until normal retirement age (65) is an annual benefit of $1,440 [30×$48]. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless A has accrued an annual benefit of at least $518 [0.03×($1,440×12)] as of the close of the plan year. Under the M Corporation plan, A is entitled to an accrued benefit of $576 [12×$48]. Thus, with respect to A, the accrued benefit provided under the M Corporation plan satisfies the requirements of this subparagraph.

Example (3). The N Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 50 percent of average compensation for the highest 3 consecutive years of compensation for an employee with 25 years of participation. A participant who separates from service before age 65 is entitled to 2 percent of average compensation for the highest 3 consecutive years of compensation for each year of participation not in excess of 25. The plan has no minimum age or service requirement for participation. The normal retirement age specified under the plan is age 65. On December 31, 1990, B, age 40, is a participant in the N Corporation's plan. B began employment with the N Corporation and became a participant in the N Corporation's plan on January 1, 1980. Under this subparagraph, the normal retirement benefit to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is 50 percent of average compensation for the highest 3 consecutive years of compensation per year commencing at age 65. Under this subparagraph, B must have accrued an annual benefit of at least 16.5 percent of his highest 3 consecutive years of compensation per year commencing at age 65 [0.03×50 percent of average compensation for the highest 3 consecutive years of compensation×11] as of the close of the plan year. Under the N Corporation plan, B has accrued an annual benefit of 22 percent of average compensation for his highest 3 consecutive years of compensation per year commencing at age 65. Thus, with respect to B, the accrued benefit under the N Corporation plan satisfies the requirements of this subparagraph.

Example (4). The P Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 50 percent of average compensation for the 3 consecutive years of compensation from the P Corporation next preceding normal retirement age. The plan has no minimum age or service requirement for participation. The normal retirement age under the plan is age 65. On December 31, 1990, C, age 55, separates from service with the P Corporation. C began employment with the P Corporation and became a participant in the P Corporation's plan on January 1, 1980. As of December 31, 1990, C's average compensation for the 3 consecutive years preceding his separation from service is $15,000. Under this subparagraph, the normal retirement benefit to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of 50 percent of average compensation for the 3 consecutive years of compensation from the P corporation next preceding normal retirement age commencing at age 65. C must have accrued an annual benefit of at least $2,475 commencing at age 65 [0.03×(0.50×$15,000)×11] as of his separation from the service with the P Corporation in order for the P Corporation's plan to satisfy the requirements of this subparagraph with respect to C.

Example (5). On December 31, 1985, the R Corporation's defined benefit plan provided an annual retirement benefit commencing at age 65 of $100 for each year of participation, not to exceed 30. As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. The appropriate computation period is the calendar year. On January 1, 1986, the plan is amended to provide an annual retirement benefit commencing at age 65 of $200 for each year of participation (before and after the amendment), not to exceed 30. B, age 40, is a participant in the R Corporation's plan. B has completed 15 years of participation in the plan of the R Corporation as of December 31, 1990. Under subdivision (i) of this subparagraph, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit of $6,000 [30×200]. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless B has accrued an annual benefit of at least $2,700 [0.03×$6,000×15] as of December 31, 1990. Under the R Corporation plan, B is entitled to an accrued benefit of $3,000 [$200×15] as of December 31, 1990. Thus, with respect to B, the accrued benefit provided under the R Corporation plan satisfies the requirements of this subparagraph.

Example (6). On December 31, 1995, the J Corporation's defined benefit plan provided an annual retirement benefit commencing at age 65 of $4,800 after 30 years of participation. The normal retirement age specified under the plan is age 65. The appropriate computation period is the calendar year. On January 1, 1996, the plan is amended to provide an annual retirement benefit commencing at age 65 of $6,000. A, age 40, is a participant in the J Corporation's plan since its adoption on January 1, 1986. Under subdivision (i) of this subparagraph, on December 31, 1995, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of $4,800. Under subdivision (i) of this subparagraph, on January 1, 1996, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of $6,000. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless A has an accrued benefit on December 31, 1995 of at least $1,440 [$4,800×0.03×10] and an accrued benefit on January 1, 1996 of at least $2,000 [$6,000×0.03×10].

Example (7). The X Company's defined benefit plan provides an annual retirement benefit commencing at age 65 of $4 per month for each year of participation (not to exceed 30). As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. D, age 68, is a participant in the X Company's plan. D has completed 20 years of participation in the X Company plan as of the close of the plan year. Under paragraph (b)(1)(i) of this section, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit, commencing at age 65, of $1,440 [30×$48]. Under paragraph (b)(1)(i) of this section, the plan does not satisfy the requirements of this paragraph unless D has accrued an annual benefit, commencing at age 65, of $864 [0.03×$1,440×20] as of the close of the plan year. Under the X Company plan, D has accrued an annual benefit, commencing at age 65, of $960 [20×$48]. Thus, with respect to D the accrued benefit provided under the X Company plan satisfies the requirements of this paragraph.

Example (8). Assume the same facts as in example (7) except that for purposes of determining accrued benefits under the plan the X Company's plan disregards all years of participation after normal retirement age. Under paragraph (b)(1)(i) of this section, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit of $1,440 [30×$48]. Under paragraph (b)(1)(i) of this section, the plan does not satisfy the requirements of this subparagraph unless D has accrued an annual benefit, commencing at age 65, of $864 [0.03×$1,440×20] as of the close of the plan year. Under the X Company's plan, D has accrued an annual benefit commencing at age 65, of $816 [17×$48]. Thus, with respect to D, the accrued benefit provided under the X Company plan does not satisfy the requirements of this paragraph.

(2) *133⅓ percent rule*—(i) *General rule.* A defined benefit plan satisfies the requirements of this subparagraph for a particular plan year if—

(A) Under the plan the accrued benefit payable at the normal retirement age (determined under the plan) is equal to the normal retirement benefit (determined under the plan), and

(B) The annual rate at which any individual who is or could be a participant can accrue the retirement benefits payable at normal retirement age under the plan for any later plan year cannot be more than 133⅓ percent of the annual rate at which he can accrue benefits for any plan year beginning on or after such particular plan year and before such later plan year.

(ii) *Special rules.* For purposes of this paragraph—

(A) *Plan amendments.* Any amendment to the plan which is in effect for the current plan year shall be treated as if it were in effect for all other plan years.

(B) *Change in accrual rate.* Any change in an accrual rate which change does not apply to any individual who is or could be a participant in the plan year is disregarded. Thus, for example, if for its plan year beginning January 1, 1980, a defined benefit plan provides an accrued benefit in plan year 1980 of 2 percent of a participant's average compensation for his highest 3 years of compensation for each year of service and provides that in plan year 1981 the accrued benefit will be 3 percent of such average compensation, the plan will not be treated as failing to satisfy the requirements of this subparagraph for plan year 1980 because in plan year 1980 the change in the accrual rate does not apply to any individual who is or could be a participant in plan year 1980. However, if, for example, a defined benefit plan provided for an accrued benefit of 1 percent of a participant's average compensation for his highest 3 years of compensation for each of the first 10 years of service and 1.5 percent of such average compensation for each year of service thereafter, the plan will be treated as failing to satisfy the requirements of this paragraph for the plan year even though no participant is actually accruing at the 1.5 percent rate because an individual who could be a participant and who had over 10 years of service would accrue at the 1.5 percent rate, which rate exceeds 133⅓ percent of the 1 percent rate.

(C) *Early retirement benefits.* The fact that certain benefits under the plan may be payable to certain participants before normal retirement age is disregarded. Thus, the requirements of subdivision (i) of this subparagraph must be satisfied without regard to any benefit payable prior to the normal retirement benefit (such as an early retirement benefit which is not the normal retirement benefit (see § 11.411(a)–7(c)).

(D) *Social security, etc.* For purposes of this paragraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(E) *Postponed retirement.* A plan shall not be treated as failing to satisfy the requirements of this subparagraph for a plan year merely because no benefits under the plan accrue to a participant who continues service with the employer after such participant has attained normal retirement age.

(F) *Computation of benefit.* A plan shall not satisfy the requirements of this subparagraph if the base for the computation of retirement benefits changes solely by reason of an increase in the number of years of participation. Thus, for example, a plan will not satisfy the requirements of this paragraph if it provides a benefit, commencing at normal retirement age, of the sum of (*1*) 1 percent of average compensation for a participant's first 3 years of participation multiplied by his first 10 years of participation (or, if less than 10 his total years of participation) and (*2*) 1 percent of average compensation for a participant's 3 highest years of participation multiplied by each year of participation subsequent to the 10th year.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples:

Example (1). On January 1, 1980, the R Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of 5 consecutive years of participation for which his compensation is the highest. The percentage is 2 percent for each of the first 20 years of participation and 1 percent per year thereafter. The appropriate computation period is the calendar year. The R Corporation's plan satisfies the requirements of this paragraph because the 133⅓ percent rule does not restrict subsequent accrual rate decreases.

Example (2). On January 1, 1980, the J Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of his final 5 consecutive years of participation. The percentage is 1 percent for each of the first 5 years of participation; 1½ percent for each of the next 5 years of participation; and 1⅝ percent for each year thereafter. The appropriate computation period is the calendar year. Even though no single accrual rate under the J Corporation's plan exceeds 133⅓ percent of the immediately preceding accrual rate, the J Corporation's plan does not satisfy the requirements of this subparagraph because the rate of accrual for all years of participation in excess of 10 (1⅝ percent) exceeds 133⅓ percent of the rate of accrual for any of the first 5 years of participation (1 percent).

Example (3). On January 1, 1980, the C Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of 3 consecutive years of participation for which his compensation is the highest. The percentage is 2 percent for each of the first 5 years of participation; 1 percent for each of the next 5 years of participation; and 1½ percent for each year thereafter. The appropriate computation period is the calendar year. Even though the average rate of accrual under the C Corporation's plan is not less rapidly than ratably, the C Corporation's plan does not satisfy the requirements of this subparagraph because the rate of accrual for all years of participation in excess of 10 (1½ percent) for any employee who is actually accruing benefits or who could accrue benefits exceeds 133⅓ percent of the rate of accrual for the sixth through tenth years of participation, respectively (1 percent).

(3) *Fractional rule*—(i) *In general.* A defined benefit plan satisfies the requirements of this paragraph if the accrued benefit to which any participant is entitled is not less than the fractional rule benefit multiplied by a fraction (not exceeding (1)—

(A) The numerator of which is his total number of years of participation in the plan, and

(B) The denominator of which is the total number of years he would have participated in the plan if he separated from the service at the normal retirement age under the plan.

(ii) *Special rules.* For purposes of this paragraph—

(A) *Fractional rule benefit.* The "fractional rule benefit" is the annual benefit commencing at the normal retirement age under the plan to which a participant would be entitled if he continued to earn annually until such normal retirement age the same rate of compensation upon which his normal retirement benefit would be computed. Such rate of compensation shall be computed on the basis of compensation taken into account under the plan (but taking into account average compensation for no more than the 10 years of service immediately preceding the determination). For purposes of this paragraph (b)(3)(ii)(A), the normal retirement benefit shall be determined as if the participant had attained normal retirement age on the date any such determination is made.

(B) *Social security, etc.* For purposes of this subparagraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(C) *Postponed retirement.* A plan shall not be treated as failing to satisfy the requirements of this subparagraph merely because no benefits under the plan accrue to a participant who continues service with the employer after such participant has attained normal retirement age under the plan.

(D) *Computation in certain cases.* In the case of any plan to which the provisions of section 411(b)(1)(D) and paragraph (c) of this section are applicable, for any plan year the accrued benefit of any participant shall not be less than the accrued benefit otherwise determined under this subparagraph, reduced by the excess of the accrued benefit determined under this subparagraph as of the first day of the first plan year to which section 411 applies over the accrued benefit determined under section 411(b)(1)(D) and paragraph (c) of this section and increased by the amount determined under paragraph (c)(2)(v) of this section.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples:

Example (1). The R Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 30 percent of a participant's average compensation for his highest 3 consecutive years of participation. If a participant separates from service prior to normal retirement age, the R Corporation's plan provides a benefit equal to an amount which bears the same ratio to 30 percent of such average compensation as the participant's actual number of years of participation in the plan bears to the number of years the participant would have participated in the plan had he separated from service at age 65. The plan further provides that normal retirement age is age 65. A, age 55, is a participant in the R Corporation's plan for the current year, and A has 15 years of participation in the R Corporation's plan. As of the current year, A's average compensation for his highest 3 years of compensation

V 40 I 214
NOV 5 75
XUM

is $20,000. The R Corporation's plan satisfies the requirements of this paragraph because if A separates from the service in the current year he will be entitled to an annual benefit of $3,600 commencing at age 65 [(0.3× $20,000)×15/25].

Example (2). The J Corporation's defined benefit plan provides a normal retirement benefit of 1 percent per year of a participant's average compensation from the employer. In the case of a participant who separates from service prior to normal retirement age (65), the plan provides that the annual benefit is an amount which is equal to 1 percent of such compensation multiplied by the number of years of plan participation actually completed by the participant. The plan year of the J Corporation's plan is the calendar year. B, age 55, is a participant in the J Corporation's plan for the current year. B became a participant in the J Corporation's plan on January 1, 1980. As of December 31, 1990, B's compensation history is as follows:

Year:	Compensation
1980	$17,000
1981	18,000
1982	20,000
1983	20,000
1984	21,000
1985	22,000
1986	23,000
1987	25,000
1988	26,000
1989	29,000
1990	32,000

If B separates from service on December 31, 1990, he would be entitled to an annual benefit of $2,530 commencing at age 65. Because the J Corporation's plan does not limit the number of years of compensation to be taken into account in determining the normal retirement benefit, B's rate of compensation for purposes of determining his normal retirement benefit is $23,600:

$$\frac{[\$18,000+\$20,000+\$20,000+\$21,000+\$22,000+\$23,000+\$25,000+\$26,000+\$29,000+\$32,000]}{10}$$

Under this paragraph, B's accrued benefit under the J Corporation's plan as of December 31, 1990 must not be less than 2,561 per year commencing at age 65 [0.01×($17,000+$18,000+$20,000+$20,000+$21,000+$22,000+$23,000+$25,000+$26,000+$29,000+$32,000+($23,600×10))×11/21]. Thus, the J Corporation's plan would not satisfy the requirements of this paragraph.

(c) *Accruals for service before effective date*—(1) *General rule.* For a plan year to which section 411 applies, a defined benefit plan does not satisfy the requirements of section 411(b)(1) and this section unless, under the plan, the accrued benefit of each participant for plan years beginning before section 411 applies is not less than the greater of—

(i) Such participant's accrued benefit (as of the day before section 411 applies) determined under the plan as in effect from time to time prior to September 2, 1974 (without regard to any amendment adopted after such date), or

(ii) One-half of the accrued benefit that would be determined with respect to the participant as of the day before section 411 applies if the participant's accrued benefit were computed for such prior plan years under a method which satisfies the requirements of section 411(b)(1)(A), (B), or (C) and paragraph (b)(1), (2), or (3) of this section. See 29 CFR Part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans, for time participation deemed to begin.

(2) *Special rules*—(i) A plan shall not be deemed to fail to satisfy the requirements of section 411(b) and this section merely because the method for computing the accrued benefit of a participant for years of participation prior to the first plan year for which section 411 is effective with respect to the plan is not the same method for computing the accrued benefit of a participant for years of participation subsequent to such plan year.

(ii) For purposes of subparagraph (1)(ii) of this paragraph, section 411(b)(1)(A) and paragraph (b)(1) of this section shall be applied as if the participant separated from service with the employer on the day before the first day of the first plan year to which section 411 applies.

(iii) For purposes of subparagraph (1)(ii) of this paragraph, section 411(b)(1)(B) and paragraph (b)(2) of this section shall be applied in the following manner:

(A) Except as provided in (B) of this subdivision, section 411(b)(1)(B) and paragraph (b)(2) of this section shall be applied as if the participant separated from service with the employer on the day before the first day of the first plan year to which section 411 applies.

(B) In the case that the plan does not satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section at any time prior to the day specified in (c)(2)(iii)(A) of this section, the plan shall be deemed revised to the extent necessary to satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section for all plan years beginning before the applicable effective date of section 411 and this section. For purposes of the preceding sentence, a plan shall not be deemed revised to the extent necessary to satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section for a plan year if the benefit a participant would receive if he were employed until normal retirement age is reduced by such revision or if the revised rate of accrual with respect to such accrued benefit does not otherwise satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section.

(iv) For purposes of paragraph (c)(1)(ii) of this section, section 411(b)(1)(C) and paragraph (b)(3) of this section shall be applied as if the participant separated from service on the day before the first day of the first plan year to which section 411 applies.

(v) The excess of the accrued benefit payable at normal retirement age of any participant determined under section 411(b)(1)(A), (B), or (C) (without regard to section 411(b)(1)(D)), and paragraph (b)(1), (2), or (3) of this section (without regard to this paragraph) as of the day before the first day of the first plan year to which section 411 and this section applies over the accrued benefit determined under subparagraph (1) of this paragraph shall be accrued in accordance with the provisions of the plan as in effect after the applicable effective date of section 411, as if the plan had been initially adopted on such effective date.

(d) *Special rules*—(1) *First 2 years of service.* Notwithstanding subparagraphs (1), (2), and (3) of paragraph (b) of this section, under section 411(b)(1)(E) and this paragraph, a plan shall not be treated as failing to satisfy the requirements of paragraph (b) of this section solely because the accrual of benefits under the plan does not become effective until the employee has completed 2 continuous years of service. For purposes of this paragraph, continuous years of service are years of service (within the meaning of section 410(a)(3)(A)) which are not separated by a break of service (within the meaning of section 410(a)(5)). For years of service beginning after such 2 years of service, the accrued benefit of an employee shall not be less than that to which the employee would be entitled if section 411(b)(1)(E) and this paragraph did not apply. Thus, for example, a plan which otherwise satisfies the requirements of paragraph (b)(2) of this section provides for a rate of accrual of 1 percent of average compensation for the highest 3 years of compensation beginning with the third year of service of a participant shall not be treated as satisfying paragraph (b)(2) of this section because as of the time the employee completes 3 continuous years of service there is no accrual during the first 2 years service. In addition, a plan which otherwise satisfies the requirements of paragraph (b)(1) of this section and which requires that an employee must attain age 25 and complete 1 year of service prior to becoming a participant will not satisfy the requirements of paragraph (b)(1) of this section if an employee who completes 2 years of service prior to attaining age 25 does not begin accruals immediately upon commencement of participation in the plan. For rules relating to years of service, see 29 CFR part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans.

(2) *Certain insured defined benefit plans.* Notwithstanding paragraphs (b)(1), (2), and (3) of this section, a defined benefit plan satisfies the requirements of paragraph (b) of this section if such plan is funded exclusively by the purchase of contracts from a life insurance company and such contracts satisfy the requirements of sections 412(i)(2) and (3) and the regulations thereunder. The preceding sentence is applicable only if an employee's accrued benefit as of any applicable date is not less than the cash surrender value such employee's insurance contracts would have on such applicable date if the requirements of section 412(i)(4), (5), and (6) and the regulations thereunder were satisfied.

(3) *Accrued benefit may not decrease on account of increasing age or service.* Notwithstanding paragraphs (b)(1), (2), and (3) of this section and paragraphs (d)(1) and (2) of this section, a defined benefit plan shall be treated as not satisfying the requirements of paragraph (b) and this paragraph of this section if the participant's accrued benefit is reduced on account of any increase in his age or years of service. The preceding sentence shall not apply to benefits under the plan commencing before such participant's entitlement to benefits payable under title II of the Social Security Act, as amended, which benefits under the plan do not exceed such participant's social security benefits and which terminate when his social security benefits commence.

(e) *Separate accounting.* A plan satisfies the requirements of this paragraph if the requirements of paragraph (e)(1) or (2) of this section are met.

(1) *Defined benefit plan.* In the case of a defined benefit plan, the requirements of this paragraph are satisfied if the plan requires separate accounting for the portion of each employee's accrued benefit derived from any voluntary employee contributions permitted under the plan. For purposes of this subparagraph the term "voluntary employee contributions" means all employee contributions which are not mandatory contributions within the meaning of section 411(c)(2)(C) and the regulations thereunder.

(2) *Defined contribution plan.* In the case of a defined contribution plan, the requirements of this paragraph are not satisfied unless the plan requires separate accounting for each employee's accrued benefit.

(f) *Year of participation*—(1) *In general.* For purposes of determining an employee's accrued benefit, a "year of participation" is a period of service determined under regulations prescribed by the Secretary of Labor in 29 CFR part 2530, relating to minimum standards for employee pension benefit plans.

(2) *Additional rule relating to year of participation.* A trust shall not constitute a qualified trust if the plan of which such trust is a part provides for the crediting of a year of participation, or part thereof, and such credit results in the discrimination prohibited by section 401(a)(4).

(g) *Additional illustrations.* The application of this section may be illustrated by the following example:

Example. (i) The S Corporation established a defined benefit plan on January 1, 1980. The plan provides a minimum age for participation of age 25. The normal retirement age under the plan is age 65. The appropriate computation periods are the calendar year. The plan provides an annual benefit, commencing at age 65, equal to $96 per year of service for the first 25 years of service, and $48 per year of service for each additional year of service.

(ii) The plan of the S Corporation does not satisfy the requirements of section 411(b)(1)(A) and paragraph (b)(1) of this section because the accrued benefit under the plan at some point will be less than the accrued benefit required under section 411(b)(1)(A) and paragraph (b)(1) of this section (i.e., 3 percent × normal retirement benefit × years of participation).

(iii) The plan of the S Corporation does satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section because the rate of benefit accrual is equal in each of the first 25 years of service and the rate decreases thereafter.

(iv) The plan of the S Corporation does satisfy the requirements of section 411(b)(1)(C) and paragraph (b)(3) of this section because the accrued benefit under the plan will equal or exceed the normal retirement benefit multiplied by the fraction described in paragraph (b)(3)(i) of this section.

§ 11.411(c)–1 Allocation of accrued benefits between employer and employee contributions.

(a) *Accrued benefit derived from employer contributions.* For purposes of section 411 and the regulations thereunder, under section 411(c)(1), an employee's accrued benefit derived from employer contributions under a plan as of any applicable date is the excess, if any, of—

(1) The total accrued benefit under the plan provided for the employee as of such date, over

(2) The accrued benefit provided for the employee, derived from contributions made by the employee under the plan as of such date.

For computation of accrued benefit derived from employee contributions to a defined contribution plan or from voluntary employee contributions to a defined benefit plan, see paragraph (b) of this section. For computation of accrued benefit derived from mandatory employee contributions to a defined benefit plan, see paragraph (c) of this section.

(b) *Accrued benefit derived from employee contribution to defined contribution plan, etc.* For purposes of section 411 and the regulations thereunder, under section 411(c)(2)(A) the accrued benefit derived from employee contributions to a defined contribution plan is determined under paragraph (b)(1) or (2) of this section, whichever applies. Under section 411(d)(5), the accrued benefit derived from voluntary employee contributions to a defined benefit plan is determined under paragraph (b)(1) of this section.

(1) *Separate accounts maintained.* If a separate account is maintained with respect to an employee's contributions and all income, expenses, gains, and losses attributable thereto, the accrued benefit determined under this subparagraph as of any applicable date is the balance of such account as of such date.

(2) *Separate accounts not maintained.* If a separate account is not maintained with respect to an employee's contributions and the income, expenses, gains, and losses attributable thereto, the accrued benefit determined under this subparagraph is the employee's total accrued benefit determined under the plan multiplied by a fraction—

(i) The numerator of which is the total amount of the employee's contributions under the plan less withdrawals, and

(ii) The denominator of which is the sum of (A) the amount described in paragraph (b)(2)(i) of this section, and (B) the total contributions made under the plan by the employer on behalf of the employee less withdrawals.

For purposes of this paragraph, withdrawals include only amounts distributed to the employee and do not reflect the cost of any death benefits under the plan.

(c) *Accrued benefit derived from mandatory employee contributions to a defined benefit plan*—(1) *General rule.* In the case of a defined benefit plan (as defined in section 414(j)) the accrued benefit derived from contributions made by an employee under the plan as of any applicable date is an annual benefit, in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, equal to the amount of the employee's accumulated contributions (determined under subparagraph (3) of this paragraph) multiplied by the appropriate conversion factor (determined under paragraph (c)(2) of this section). Paragraph (e) of this section provides rules for actuarial adjustments where the benefit is to be determined in a form other than the form described in this subparagraph.

(2) *Appropriate conversion factor.* For purposes of this paragraph, the term "appropriate conversion factor" means the factor necessary to convert an amount equal to the accumulated contributions to a single life annuity (without ancillary benefits) commencing at normal retirement age and shall be 10 percent for a normal retirement age of 65 years. For other normal retirement ages the appropriate conversion factor shall be the factor as determined by the Commissioner.

(3) *Accumulated contributions.* For purposes of section 411(c) and this section, the term "accumulated contributions" means the total of—

(i) All mandatory contributions made by the employee (determined under paragraph (b)(4) of this section),

(ii) Interest (if any) on such contributions, computed at the rate provided by the plan to the end of the last plan year to which section 411(a)(2) does not apply (by reason of the applicable effective date), and

(iii) Interest on the sum of the amounts determined under subdivisions (i) and (ii) of this subparagraph compounded annually at the rate of 5 percent per annum from the beginning of the first plan year to which section 411(a)(2) applies (by reason of the applicable effective date) to the date on which the employee would attain normal retirement age.

For example, if under section 1017 of the Employee Retirement Income Security Act of 1974, section 411(a)(2) of the Code applies for plan years beginning after December 31, 1975, and for plan years beginning before 1975, the plan provided for 3 percent interest on employee contributions, an employee's accumulated contributions would be computed by crediting interest at the rate provided by the plan (3 percent) for plan years beginning before 1976 and by

V 40 I 214 NOV 5 75 XUM

crediting interest at the rate of 5 percent (or another rate prescribed under section 411(c)(2)(D)) thereafter. Section 1017 of the Employee Retirement Income Security Act of 1974 and § 11.411(a)-2 provide the effective dates for the application of section 411(a)(2).

(4) *Mandatory contributions.* For purposes of section 411(c) and this section the term "mandatory contributions" means amounts contributed to the plan by the employee which are required as a condition of his employment, as a condition of his participation in the plan, or as a condition of obtaining benefits (or additional benefits) under the plan attributable to employer contributions. For example, if the benefit derived from employer contributions depends upon a specified level of employee contributions, employee contributions up to that level would be treated as mandatory contributions.

(d) *Limitation on accrued benefit.* The accrued benefit derived from employee contributions under a plan (determined under paragraphs (b) and (c) of this section) shall not exceed the greater of—

(1) The accrued benefit of the employee under the plan, or

(2) The accrued benefit derived from employee contributions determined without regard to any interest under section 411(c)(2)(C) (ii) and (iii) and under subdivisions (ii) and (iii) of paragraph (c)(3) of this section.

(e) *Actuarial adjustments for defined benefit plans*—(1) *Accrued benefit.* In the case of a defined benefit plan (as defined in section 414(j)) if an employee's accrued benefit is to be determined as an amount other than an annual benefit commencing at normal retirement age, such benefit (determined under section 411(c)(1) and paragraph (a) of this section) shall be the actuarial equivalent of such benefit, as determined by the Commissioner.

(2) *Accrued benefit derived from employee contributions.* In the case of a defined benefit plan (as defined in section 414(j)) if the accrued benefit derived from contributions made by an employee is to be determined with respect to a benefit other than an annual benefit in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, such benefit (determined under section 411(c)(2)(B) and paragraph (c) of this section) shall be the actuarial equivalent of such benefit, as determined by the Commissioner.

§ 11.411(d)-1 Coordination of vesting and discrimination requirements. [Reserved]

§ 11.411(d)-2 Termination or partial termination; discontinuance of contributions.

(a) *General rule*—(1) *Required nonforfeitability.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan provides that—

(i) Upon the termination or partial termination of the plan, or

(ii) In addition, in the case of a plan to which section 412 (relating to minimum funding standards) does not apply, upon the complete discontinuance of contributions under the plan, the rights of each affected employee to benefits accrued to the date of such termination or partial termination (or, in the case of a plan to which section 412 does not apply, discontinuance), to the extent funded, or the rights of each employee to the amounts credited to his account at such time, are nonforfeitable (within the meaning of § 11.411(a)-4).

(2) *Required allocation.* (i) A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan provides for the allocation of any previously unallocated funds to the employees covered by the plan upon the termination or partial termination of the plan (or, in the case of a plan to which section 412 does not apply, upon the complete discontinuance of contributions under the plan). Such provision may be incorporated in the plan at its inception or by an amendment made prior to the termination or partial termination of the plan or the discontinuance of contributions thereunder.

(ii) Any provision for the allocation of unallocated funds which is found by the Secretary of Labor or the Pension Benefit Guaranty Corporation (whichever is appropriate) to satisfy the requirements of section 4044 or section 403(d)(1) of the Employee Retirement Income Security Act of 1974 is acceptable if it specifies the method to be used and does not conflict with the provisions of section 401(a)(4) of the Internal Revenue Code of 1954 and the regulations thereunder. Any allocation of funds required by paragraph (1), (2), (3), or (4)(A) of section 4044(a) of such Act shall be deemed not to result in discrimination prohibited by section 401(a)(4) of the Code. The allocation of unallocated funds may be in cash or in the form of other benefits provided under the plan. However, the allocation of the funds contributed by the employer among the employees need not necessarily benefit all the employees covered by the plan.

(iii) Paragraphs (a)(2)(i) and (ii) of this section do not require the allocation of amounts to the account of any employee if such amounts are not required to be used to satisfy the liabilities with respect to employees and their beneficiaries under the plan (see section 401(a)(2)).

(b) *Partial termination.* Whether or not a partial termination of a qualified plan occurs when a group of employees who have been covered by the plan are subsequently excluded from such coverage either by reason of an amendment to the plan, or by reason of being discharged by the employer, will be determined on the basis of all the facts and circumstances. Similarly, whether or not a partial termination occurs when benefits or employer contributions are reduced, or the eligibility or vesting requirements under the plan are made less liberal, will be determined on the basis of all the facts and circumstances. If a defined benefit plan ceases benefit accruals or decreases accrued benefits under the plan, a partial termination occurs if, as a result of such cessation or decrease, a potential reversion to the employer, or employers, maintaining the plan (determined as of the date such cessation or decrease is adopted) is created or increased. However, if a partial termination of a qualified plan occurs, the provisions of section 411(d)(3) apply only to the part of the plan that is terminated.

(c) *Termination*—(1) *Application.* This paragraph applies to a plan other than a plan described in section 411(e)(1) (relating to governmental, certain church plans, etc.).

(2) *Plans subject to termination insurance.* For purposes of this section, a plan to which title IV of the Employee Retirement Income Security Act of 1974 applies is considered terminated on a particular date if, as of that date—

(i) The plan is voluntarily terminated by the plan administrator under section 4041 of the Employee Retirement Income Security Act of 1974, or

(ii) The Pension Benefit Guaranty Corporation terminates the plan under section 4042 of the Employee Retirement Income Security Act of 1974.

(3) *Other plans.* In the case of a plan not described in paragraph (c)(2) of this section, a plan is considered terminated on a particular date if, as of that date, the plan is voluntarily terminated by the employer, or employers, maintaining the plan.

(d) *Complete discontinuance*—(1) *General rule.* For purposes of this section, a complete discontinuance of contributions under the plan is contrasted with a suspension of contributions under the plan which is merely a temporary cessation of contributions by the employer. A complete discontinuance of contributions may occur although some amounts are contributed by the employer under the plan if such amounts are not substantial enough to reflect the intent on the part of the employer to continue to maintain the plan. The determination of whether a complete discontinuance of contributions under the plan has occurred will be made with regard to all the facts and circumstances in the particular case, and without regard to the amount of any contributions made under the plan by employees. Among the factors to be considered in determining whether a suspension constitutes a discontinuance are:

(i) Whether the employer may merely be calling an actual discontinuance of contributions a suspension of such contributions in order to avoid the requirement of full vesting as in the case of a discontinuance, or for any other reason;

(ii) Whether contributions are recurring and substantial; and

(iii) Whether there is any reasonable probability that the lack of contributions will continue indefinitely.

(2) *Time of discontinuance.* In any case in which a suspension of a profit-sharing plan maintained by a single employer is considered a discontinuance, the discontinuance becomes effective not later than the last day of the taxable year of the employer following the last taxable year of such employer for which a substantial contribution was made under the profit-sharing plan. In the case of a profit-sharing plan maintained by more than one employer, the discontinuance becomes effective not later than the last day of the plan year following the plan year within which any employer made a substantial contribution under the plan.

(e) *Contributions or benefits which remain forfeitable.* The provisions of this section do not apply to amounts which are reallocated to prevent the discrimination prohibited by section 401(a)(4).

§ 11.411(d)-3 Other special rules.

(a) *Prohibited discrimination.* Under section 411(d)(2), section 411(a) does not apply to benefits which may not be provided for designated employees in the event of early termination of the plan under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by section 401(a)(4), see § 11.410(a)-4.

(b) *Class year plans.* Under section 411(d)(4) the requirements of section 411(a)(2) for a class year plan shall be deemed to be satisfied if such plan provides that each employee's rights to or derived from employer contributions on his behalf for any plan year are nonforfeitable no later than the end of the 5th plan year following the plan year for which such contributions were made. However, the rights of an employee who separates from service prior to such time, and who is not reemployed in the plan year of separation, may be forfeited. For purposes of section 411 and the regulations thereunder, the term "class year plan" means a profit-sharing, stock bonus, or money purchase plan which provides that the nonforfeitable rights of employees to or derived from employer contributions are determined separately for each plan year.

(c) *Prohibition against accrued benefit decrease.* Under section 411(d)(6) a plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if a plan amendment decreases the accrued benefit of any plan participant, unless the plan amendment satisfies the requirements of section 412(c)(8) (relating to certain retroactive amendments) and the regulations thereunder.

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved:

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

[FR Doc.75-29374 Filed 10-28-75;4:44 pm]

[Income Tax Regulations (T.D. 7388)]

PART 11—TEMPORARY INCOME TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Employees of Organizations Under Common Control

The following temporary regulations relate to a part of the amendment made to the Internal Revenue Code of 1954 by section 1015 of the Employee Retirement Income Security Act of 1974 (88 Stat. 925). Section 1015 added section 414(c), relating to employees of partnerships, proprietorships, etc., which are under common control. The temporary regulations contained in this document pertain to section 414(c) and also apply for purposes of section 210(d) of the Employee Retirement Income Security Act of 1974 (88 Stat. 867).

Section 414(c) contains special rules which apply in the case of two or more trades or businesses which are under common control. If two or more trades or businesses are under common control, then for purposes of applying the provisions of sections 401 (qualified pension, profit-sharing, and stock bonus plans), 410 (minimum participation standards), 411 (minimum vesting standards), and 415 (limitations on benefits and contributions under qualified plans) all employees of all trades or businesses under common control are treated as employed by a single employer.

Section 11.414(c)-2(a) provides that two or more trades or businesses are under common control if they constitute either a "parent-subsidiary group of trades or businesses under common control", a "brother-sister group of trades or businesses under common control", or a "combined group of trades or businesses under common control".

Paragraph (b)(1) of § 11.414(c)-2 defines a parent-subsidiary group to mean one or more chains of organizations (sole proprietorships, partnerships, trusts, estates, and corporations) conducting trades or businesses connected through ownership of a controlling interest with a common parent organization if a controlling interest of each organization other than the common parent is owned by one or more of the other organizations and the common parent owns a controlling interest in at least one of the other organizations.

Paragraph (b)(2) of § 11.414(c)-2 defines the phrase "controlling interest" to mean: ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of a corporation; ownership of an actuarial interest of at least 80 percent of a trust or estate; ownership of at least 80 percent of the profits or capital interest of a partnership; and ownership of 100 percent of a sole proprietorship.

Paragraph (c)(1) of § 11.414(c)-2 defines a brother-sister group to mean two or more organizations conducting trades or businesses if the same five or fewer persons who are individuals, estates, or trusts own a controlling interest of each organization and effective control of each organization exists taking into account the ownership of each such person only to the extent such ownership is identical with respect to each organization. Paragraph (c)(2) of § 11.414(c)-2 defines the phrase "effective control" to be an ownership interest of more than 50 percent.

Paragraph (d) of § 11.414(c)-2 defines a combined group to mean any group of three or more organizations if each organization is a member of either a parent-subsidiary group or a brother-sister group and at least one such organization is the common parent of a parent-subsidiary group and also a member of a brother-sister group.

Section 11.414(c)-3 provides that in the determination of controlling interest or effective control certain interests or stock are to be excluded and treated as not outstanding. Paragraph (b) of § 11.414(c)-3 provides the rules for a parent-subsidiary group and paragraph (c) provides the rules for a brother-sister group. The purpose of these rules is to prevent persons from divesting themselves of sufficient ownership to avoid the application of § 11.414(c)-2 without divesting themselves, as a practical matter, of the benefits of the ownership of an organization.

Section 11.414(c)-4 provides constructive ownership rules that apply in determining the ownership of an interest in an organization.

Adoption of regulations. To prescribe temporary regulations relating to a part of the amendment of the Internal Revenue Code of 1954 by section 1015 of the Employee Retirement Income Security Act of 1974 (88 Stat. 925) adding section 414(c), relating to employees of partnerships, proprietorships, etc., which are under common control, which also apply for purposes of section 210(d) of the Employee Retirement Income Security Act of 1974 (88 Stat. 867), and which shall remain in effect until superseded by permanent regulations, the following regulations are hereby adopted:

Sections 11.414(c)-1—11.414(c)-5 are added to read as follows:

§ 11.414(c)-1 Commonly controlled trades or businesses.

For purposes of applying the provisions of sections 401 (relating to qualified

V 40 I 214
NOV 5 75
XUM

pension, profit-sharing, and stock bonus plans), 410 (relating to minimum participation standards), 411 (relating to minimum vesting standards), and 415 (relating to limitations on benefits and contributions under qualified plans), all employees of two or more trades or businesses under common control within the meaning of § 11.414(c)–2 for any period shall be treated as employed by a single employer. See sections 401, 410, 411, and 415 and the regulations thereunder for rules relating to employees of trades or businesses which are under common control. See § 11.414(c)–5 for effective date.

§ 11.414(c)–2 Two or more trades or businesses under common control.

(a) *In general.* For purposes of this section, the term "two or more trades or businesses under common control" means any group of trades or businesses which is either a "parent-subsidiary group of trades or businesses under common control" as defined in paragraph (b) of this section, a "brother-sister group of trades or businesses under common control" as defined in paragraph (c) of this section, or a "combined group of trades or businesses under common control" as defined in paragraph (d) of this section. For purposes of this section and §§ 11.414(c)–3 and 11.414(c)–4, the term "organization" means a sole proprietorship, a partnership (as defined in section 7701(a)(2)), a trust, an estate, or a corporation.

(b) *Parent-subsidiary group of trades or businesses under common control*—(1) *General.* The term "parent-subsidiary group of trades or businesses under common control" means one or more chains of organizations conducting trades or businesses connected through ownership of a controlling interest with a common parent organization if—

(i) A controlling interest in each of the organizations, except the common parent organization, is owned (directly and with the application of § 11.414(c)–4(b)(1), relating to options) by one or more of the other organizations; and

(ii) The common parent organization owns (directly and with the application of § 11.414(c)–4(b)(1), relating to options) a controlling interest in at least one of the other organizations, excluding, in computing such controlling interest, any direct ownership interest by such other organizations.

(2) *Controlling interest defined*—(i) *Controlling interest.* For purposes of paragraphs (b) and (c) of this section, the phrase "controlling interest" means:

(A) In the case of an organization which is a corporation, ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote of such corporation or at least 80 percent of the total value of shares of all classes of stock of such corporation;

(B) In the case of an organization which is a trust or estate, ownership of an actuarial interest of at least 80 percent of such trust or estate;

(C) In the case of an organization which is a partnership, ownership of at least 80 percent of the profits interest or capital interest of such partnership; and

(D) In the case of an organization which is a sole proprietorship, ownership of such sole proprietorship.

(ii) *Actuarial interest.* For purposes of this section, the actuarial interest of each beneficiary of a trust or estate shall be determined by assuming the maximum exercise of discretion by the fiduciary in favor of such beneficiary. The factors and method prescribed in § 20.2031–10 of this chapter (Estate Tax Regulations) for use in ascertaining the value of an interest in property for estate tax purposes shall be used for purposes of this subdivision in determining a beneficiary's actuarial interest.

(c) *Brother-sister group of trade or businesses under common control*—(1) *General.* The term "brother-sister group of trades or businesses under common control" means two or more organizations conducting trades or businesses if (i) the same five or fewer persons who are individuals, estates, or trusts own (directly and with the application of § 11.414(c)–(4), singly or in combination, a controlling interest of each organization, and (ii) taking into account the ownership of each such person only to the extent such ownership is identical with respect to each such organization, such persons are in effective control of each organization.

(2) *Effective control defined.* For purposes of this paragraph, persons are in "effective control" of an organization if—

(i) In the case of an organization which is a corporation, such persons own stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote of such corporation or more than 50 percent of the total value of shares of all classes of stock of such corporation;

(ii) In the case of an organization which is a trust or estate, such persons own an aggregate acturial interest of more than 50 percent of such trust or estate;

(iii) In the case of an organization which is a partnership, such persons own an aggregate of more than 50 percent of the profits interest or capital interest of such partnership; and

(iv) In the case of an organization which is a sole proprietorship, such persons own such sole proprietorship.

(d) *Combined group of trades or businesses under common control.* The term "combined group of trades or businesses under common control" means any group of three or more organizations, if (1) each such organization is a member of either a parent-subsidiary group of trades or businesses under common control or a brother-sister group of trades of businesses under common control, and (2) at least one such organization is the common parent organization of a parent-subsidiary group of trades or businesses under common control and is also a member of a brother-sister group of trades or businesses under common control.

(e) *Examples.* The definitions of parent-subsidiary group of trades or businesses under common control, brother-sister group of trades or businesses under common control, and combined group of trades or businesses under common control may be illustrated by the following examples.

Example (1). (a) The ABC Partnership owns stock possessing 80 percent of the total combined voting power of all classes of stock entitled to vote of S Corporation. ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership and S Corporation.

(b) Assume the same facts as in (a) and assume further that S owns 80 percent of the profits interest in the DEF Partnership. The ABC Partnership is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership, S Corporation, and the DEF Partnership. The result would be the same if the ABC Partnership, rather than S, owned 80 percent of the profits interest in the DEF Partnership.

Example (2). L Corporation owns 80 percent of the only class of stock of T Corporation, and T, in turn owns 40 percent of the capital interest in the GHI Partnership. L also owns 80 percent of the only class of stock of N Corporation, and N, in turn, owns 40 percent of the capital interest in the GHI Partnership. L is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of L Corporation, T Corporation, N Corporation, and the GHI Partnership.

Example (3). ABC Partnership owns 75 percent of the only class of stock of X and Y Corporations; X owns all the remaining stock of Y, and Y owns all the remaining stock of X. Since interorganization ownership is excluded (that is, treated as not outstanding) for purposes of determining whether ABC owns a controlling interest of at least one of the other organizations, ABC is treated as the owner of stock possessing 100 percent of the voting power and value of X and of Y for purposes of paragraph (b)(1)(ii) of this section. Therefore, ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership, X Corporation, and Y Corporation.

Example (4). Unrelated individuals A, B, C, D, E, and F own an interest in sole proprietorship A, a capital interest in the GHI Partnership, and stock of corporations W, X, Y, and Z (each of which has only one class of stock outstanding) in the following proportions:

[In percent]

Individuals	Organizations						Identical ownership
	A	GHI	W	X	Y	Z	
A	100	60	60	60	60	60	60
B		40					
C			40				
D				40			
E					40		
F						40	
Total	100	100	100	100	100	100	60

Under these facts the following brother-sister groups of trades or businesses under common control exist: A, GHI, W, X, and Y; A, GHI, W, X, and Z; A, GHI, W, Y, and Z; A, W, X, Y, and Z; and A, GHI, X, Y, and Z.

Example (5). The outstanding stock of corporations U and V, which have only one class of stock oustanding, is owned by unrelated individuals as follows:

[In percent]

Individuals	Organizations		Identical ownership
	U	V	
F	5		
G	10		
H	10		
I	20		
J	55	55	55
K		10	
L		10	
M		10	
N		10	
O		5	
Total	100	100	55

Corporations U and V are not members of a brother-sister group of trades or business under common control because at least 80 percent of the stock of each corporation is not owned by the same five or fewer persons.

Example (6). A, an individual, owns a controlling interest in ABC Partnership and DEF Partnership. ABC, in turn, owns a controlling interest in X Corporation. Since ABC, DEF, and X are each members of either a parent-subsidiary group or a brother-sister group of trades or businesses under common control, and ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of ABC and X, and also a member of a brother-sister group of trades or businesses under common control consisting of ABC and DEF, ABC Partnership, DEF Partnership, and X Corporation are members of the same combined group of trades or businesses under common control.

§ 11.414(c)–3 Exclusion of certain interests or stock in determining control.

(a) *In general.* For purposes of § 11.414(c)–2(b)(2)(i) and (c)(2), the term "interest" and the term "stock" do not include an interest which is treated as not outstanding under paragraph (b) of this section in the case of a parent-subsidiary group of trades or businesses under common control or under paragraph (c) of this section in the case of a brother-sister group of trades or businesses under common control. In addition, the term "stock" does not include treasury stock or nonvoting stock which is limited and preferred as to dividends. For definitions of certain terms used in this section, see paragraph (d) of this section.

(b) *Parent-subsidiary group of trades or businesses under common control*—(1) *In general.* If an organization (hereinafter in this section referred to as "parent organization") owns (within the meaning of paragraph (b)(2) of this section)—

(i) In the case of a corporation, 50 percent or more of the total combined voting power of all classes of stock entitled to vote or of the total value of shares of all classes of stock of such corporation.

(ii) In the case of a trust or an estate, an actuarial interest (within the meaning of § 11.414(c)–2(b)(2)(ii)) of 50 percent or more of such trust or estate, and

(iii) In the case of a partnership, 50 percent or more of the profits or capital interest of such partnership.

then for purposes of determining whether the parent organization or such other organization (hereinafter in this section referred to as "subsidiary organization") is a member of a parent-subsidiary group of trades or businesses under common control, an interest in such subsidiary organization excluded under paragraph (b)(3), (4), (5), or (6) of this section shall be treated as not outstanding.

(2) *Ownership.* For purposes of paragraph (b)(1) of this section, a parent organization shall be considered to own an interest in or stock of another organization which it owns directly or indirectly with the application of paragrpah (b)(1) of § 11.414(c)–4 and—

(i) In the case of a parent organization which is a partnership, a trust, or an estate, with the application of paragraph (b)(2), (3), and (4) of § 11.414(c)–4, and

(ii) In the case of a parent organization which is a corporation, with the application of paragraph (b)(4) of § 11.414(c)–4.

(3) *Plan of deferred compensation.* An interest which is an interest in or stock of the subsidiary organization held by a trust which is part of a plan of deferred compensation (within the meaning of section 406(a)(3) and the regulations thereunder) for the benefit of the employees of the parent organization or the subsidiary organization shall be excluded.

(4) *Principal owners, officers, etc.* An interest which is an interest in or stock of the subsidiary organization owned (directly and with the application of § 11.414(c)–4) by an individual who is a principal owner, officer, partner, or fiduciary of the parent organization shall be excluded.

(5) *Employees.* An interest which is an interest in or stock of the subsidiary organization owned (directly and with the application of § 11.414(c)–4) by an employee of the subsidiary organization shall be excluded if such interest or such stock is subject to conditions which substantially restrict or limit the employee's right (or if the employee constructively owns such interest or stock, the direct or record owner's right) to dispose of such interest or such stock and which run in favor of the parent or subsidiary organization.

(6) *Controlled exempt organization.* An interest which is an interest in or stock of the subsidiary organization shall be excluded if owned (directly and with the application of § 11.414(c)–4) by an organization (other than the parent organization):

(i) To which section 501 (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(ii) Which is controlled directly or indirectly (within the meaning of paragraph (d)(7) of this section) by the parent organization or subsidiary organization, by an individual, estate, or trust that is a principal owner of the parent organization, by an officer, partner, or fiduciary of the parent organization, or by any combination thereof.

(c) *Brother-sister group of trades or businesses under common control*—(1) *In general.* If five or fewer persons (hereinafter in this section referred to as "common owners") who are individuals, estates, or trusts, own (directly and with the application of § 11.414(c)–4)—

(i) In the case of a corporation, 50 percent or more of the total combined voting power of all classes of stock entitled to vote or of the total value of shares of all classes of stock of such corporation,

(ii) In the case of a trust or an estate, an actuarial interest (within the meaning of § 11.414(c)–2(b)(2)(ii)) of 50 percent or more of such trust or estate, and

(iii) In the case of a partnership, 50 percent or more of the profits or capital interest of such partnership,

then for purposes of determining whether such organization is a member of a brother-sister group of trades or businesses under common control, an interest in such organization excluded under paragraph (c)(2), (3), or (4) of this section shall be treated as not outstanding.

(2) *Exempt employee's trust.* An interest which is an interest in or stock of such organization held by an employee's trust described in section 401(a) which is exempt from tax under section 501(a) shall be excluded if such trust is for the benefit of the employees of such organization.

(3) *Employees.* An interest which is an interest in or stock of such organization owned (directly and with the application of § 11.414(c)–4) by an employee of such organization shall be excluded if such interest or stock is subject to conditions which run in favor of a common owner of such organization or in favor of such organization and which substantially restrict or limit the employee's right (or if the employee constructively owns such interest or stock, the direct or record owner's right) to dispose of such interest or stock.

(4) *Controlled exempt organization.* An interest which is an interest in or stock of such organization shall be excluded if owned (directly and with the application of § 11.414(c)–4) by an organization:

(i) To which section 501(c)(3) (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(ii) Which is controlled directly or indirectly (within the meaning of paragraph (d)(7) of this section) by such organization, by an individual, estate, or trust that is a principal owner of such organization, by an officer, partner, or fiduciary of such organization, or by any combination thereof.

(d) *Definitions*—(1) *Employee.* For purposes of this section, the term "employee" has the same meaning such term is given in section 3306(i) of the Code (relating to definitions for purposes of the Federal Unemployment Tax Act).

V 40 I 214
NOV 5 75
XUM

(2) *Principal owner.* For purposes of this section, the term "principal owner" means a person who owns (directly and with the application of § 11.414(c)–4)—

(i) In the case of a corporation, 5 percent or more of the total combined voting power of all classes of stock entitled to vote in such corporation or of the total value of shares of all classes of stock of such corporation;

(ii) In the case of a trust or estate, an actuarial interest of 5 percent or more of such trust or estate; or

(iii) In the case of a partnership, 5 percent or more of the profits interest or capital interest of such partnership.

(3) *Officer.* For purposes of this section, the term "officer" includes the president, vice-presidents, general manager, treasurer, secretary, and comptroller of a corporation, and any other person who performs duties corresponding to those normally performed by persons occupying such positions.

(4) *Partner.* For purposes of this section, the term "partner" means any person defined in section 7701(a)(2) (relating to definition of partner).

(5) *Fiduciary.* For purposes of this section and § 11.414(c)–4, the term "fiduciary" has the same meaning as such term is given in section 7701(a)(6) and the regulations thereunder.

(6) *Substantial conditions.* (i) *In general.* For purposes of this section, an interest in or stock of an organization is subject to conditions which substantially restrict or limit the right to dispose of such interest or stock and which run in favor of another person if the condition extends directly or indirectly to such person rights with respect to the acquisition of the direct owner's (or the record owner's) interest or stock. For a condition to be in favor of another person it is not necessary that such person be extended a discriminatory concession with respect to price. A right of first refusal with respect to an interest or stock in favor of another person is a condition which substantially restricts or limits the direct or record owner's right of disposition which runs in favor of such person. Further, any legally enforceable condition which prohibits the direct or record owner from disposing of his or her interest or stock without the consent of another person will be considered to be a substantial limitation running in favor of such person.

(ii) *Special rule.* For purposes of paragraph (c)(3) of this section only, if a condition which restricts or limits an employee's right (or direct or record owner's right) to dispose of his or her interest or stock also applies to the interest or stock in such organization held by a common owner pursuant to a bona fide reciprocal purchase arrangement, such condition shall not be treated as a substantial limitation or restriction. An example of a reciprocal purchase arrangement is an agreement whereby a common owner and the employee are given a right of first refusal with respect to stock of the employer corporation owned by the other party. If, however, the agreement also provides that the common owner has the right to purchase the stock of the employer corporation owned by the employee in the event the corporation should discharge the employee for reasonable cause, the purchase rrangement would not be reciprocal within the meaning of this subdivision.

(7) *Control.* For purposes of paragraphs (b)(6) and (c)(4) of this section, the term "control" means control in fact. The determination of whether there exists control in fact will depend upon all of the facts and circumstances of each case, without regard to whether such control is legally enforceable and irrespective of the method by which such control is exercised or exercisable.

(e) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). ABC Partnership owns 70 percent of the capital interest and of the profits interest in the DEF Partnership. The remaining capital interest and profits interest in DEF is owned as follows: 4 percent by A (a general partner in ABC), and 26 percent by D (a limited partner in ABC). ABC satisfies the 50-percent capital interest or profits interest ownership requirement of paragraph (b)(1)(iii) of this section with respect to DEF. Since A and D are partners of ABC, under paragraph (b)(4) of this section the capital and profits interests in DEF owned by A and D are treated as not outstanding for purposes of determining whether ABC and DEF are members of a parent-subsidiary group of trades or businesses under common control under § 11.414(c)–2(b). Thus, ABC is considered to own 100 percent (70÷70) of the capital interest and profits interest in DEF. Accordingly, ABC and DEF are members of a parent-subsidiary group of trades or businesses under common control.

Example (2). Assume the same facts as in example (1) and assume further that A owns 15 shares of the 100 shares of the only class of stock of S Corporation and DEF Partnership owns 75 shares of such stock. ABC satisfies the 50-percent stock requirement of paragraph (b)(1)(i) of this section with respect to S since ABC is considered as owning 52.5 percent (70 percent × 75 percent) of the S stock with the application of § 11.414(c)–4(b)(2). Since A is a partner of ABC, the S stock owned by A is treated as not outstanding for purposes of determining whether S is a member of a parent-subsidiary group of trades or businesses under common control. Thus, DEF Partnership is considered to own stock possessing 88.2 percent (75÷85) of the voting power and value of the S stock. Accordingly, ABC Partnership, DEF Partnership, and S Corporation are members of a parent-subsidiary group of trades or businesses under common control.

Example (3). ABC Partnership owns 60 percent of the only class of stock of Corporation Y. D, the president of Y, owns the remaining 40 percent of the stock of Y. D has agreed that if she offers her stock in Y for sale she will first offer the stock to ABC at a price equal to the fair market value of the stock on the first date the stock is offered for sale. Since D is an employee of Y within the meaning of section 3306(i) of the Code and her stock in Y is subject to a condition which substantially restricts or limits her right to dispose of such stock and runs in favor of ABC Partnership, under paragraph (b)(5) of this section such stock is treated as not outstanding for purposes of determining whether ABC and Y are members of a parent-subsidiary group of trades or businesses under common control. Thus, ABC Partnership is considered to own stock possessing 100 percent of the voting power and value of the stock of Y. Accordingly, ABC Partnership and Y Corporation are members of a parent-subsidiary group of trades or businesses under common control. The result would be the same if D's husband, instead of D, owned directly the 40 percent stock interest in Y and such stock was subject to a right of first refusal running in favor of ABC Partnership.

§ 11.414(c)–4 Rules for determining ownership.

(a) *In general.* In determining the ownership of an interest in an organization for purposes of § 11.414(c)–2 and § 11.414(c)–3, the constructive ownership rules of paragraph (b) of this section shall apply, subject to the operating rules contained in paragraph (c). For purposes of this section the term "interest" means: in the case of a corporation, stock; in the case of a trust or estate, an actuarial interest; in the case of a partnership, an interest in the capital or profits; and in the case of a sole proprietorship, the proprietorship.

(b) *Constructive ownership*—(1) *Options.* If a person has an option to acquire any outstanding interest in an organization, such interest shall be considered as owned by such person. For this purpose, an option to acquire an option, and each one of a series of such options, shall be considered as an option to acquire such interest.

(2) *Attribution from partnerships*—(i) *General.* An interest owned, directly or indirectly, by or for a partnership shall be considered as owned by any partner having an interest of 5 percent or more in either the profits or capital of the partnership in proportion to such partner's interest in the profits or capital, whichever such proportion is greater.

(ii) *Example.* The provisions of paragraph (b)(2)(i) of this section may be illustrated by the following example:

Example. A, B, and C, unrelated individuals, are partners in the ABC Partnership. The partners' interests in the capital and profits of ABC are as follows:

[In percent]

Partner	Capital	Profits
A	36	25
B	60	71
C	4	4

The ABC Partnership owns the entire outstanding stock (100 shares) of X Corporation. Under paragraph (b)(2)(i) of this section, A is considered to own the stock of X owned by the partnership in proportion to his interest in capital (36 percent) or profits (25 percent), whichever such proportion is greater. Therefore, A is considered to own 36 shares of X stock. Since B has a greater interest in the profits of the partnership than in the capital, B is considered to own X stock in proportion to his interest in such profits. Therefore, B is considered to own 71 shares of X stock. Since C does not have an interest of 5 percent or more in either the capital or profits of ABC, he is not considered to own any shares of X stock.

(3) *Attribution from estates and trusts*—(i) *In general.* An interest in an organization (hereinafter called an "organization interest") owned, directly or indirectly, by or for an estate or trust shall be considered as owned by any beneficiary of such estate or trust who has an actuarial interest of 5 percent or more in such organization interest, to the extent of such actuarial interest. For purposes of this subparagraph, the actuarial interest of each beneficiary shall be determined by assuming the maximum exercise of discretion by the fiduciary in favor of such beneficiary and the maximum use of the organization interest to satisfy the beneficiary's rights. A beneficiary of an estate or trust who cannot under any circumstances receive any part of an organization interest held by the estate or trust, including the proceeds from the disposition thereof, or the income therefrom, does not have an actuarial interest in such organization interest. Thus, where stock owned by a decedent's estate has been specifically bequeathed to certain beneficiaries and the remainder of the estate has been specifically bequeathed to other beneficiaries, the stock is attributable only to the beneficiaries to whom it is specifically bequeathed. Similarly, a remainderman of a trust who cannot under any circumstances receive any interest in the stock of a corporation which is a part of the corpus of the trust (including any accumulated income therefrom or the proceeds from a disposition thereof) does not have an actuarial interest in such stock. However, an income beneficiary of a trust does have an actuarial interest in stock if he has any right to the income from such stock even though under the terms of the trust instrument such stock can never be distributed to him. The factors and methods prescribed in § 20.2031–10 of this chapter (Estate Tax Regulations) for use in ascertaining the value of an interest in property for estate tax purposes shall be used for purposes of this subdivision in determining a beneficiary's actuarial interest in an organization interest owned directly or indirectly by or for an estate or trust.

(ii) *Special rules for estates.* (A) For purposes of paragraph (b)(3) with respect to an estate, property of a decedent shall be considered as owned by his or her estate if such property is subject to administration by the executor or administrator for the purposes of paying claims against the estate and expenses of administration notwithstanding that, under local law, legal title to such property vests in the decedent's heirs, legatees, or devisees immediately upon death.

(B) For purposes of paragraph (b)(3) with respect to an estate, the term "beneficiary" includes any person entitled to receive property of a decedent pursuant to a will or pursuant to laws of descent and distribution.

(C) For purposes of paragraph (b)(3) with respect to an estate, a person shall no longer be considered a beneficiary of an estate when all the property to which he or she is entitled has been received by him or her, when he or she no longer has a claim against the estate arising out of having been a beneficiary, and when there is only a remote possibility that it will be necessary for the estate to seek the return of property from him or her or to seek payment from him or her by contribution or otherwise to satisfy claims against the estate or expenses of administration.

(iii) *Grantor trusts, etc.* An interest owned, directly or indirectly, by or for any portion of a trust of which a person is considered the owner under subpart E, part I, subchapter J of the Code (relating to grantors and others treated as substantial owners) is considered as owned by such person.

(4) *Attribution from corporations*—(i) *General.* An interest owned, directly or indirectly, by or for a corporation shall be considered as owned by any person who owns (directly and, in the case of a parent-subsidiary group of trades or businesses under common control, with the application of paragraph (b)(1) of this section, or in the case of a brother-sister group of trades or businesses under common control, with the application of this section) 5 percent or more in value of its stock in that proportion which the value of the stock which such person so owns bears to the total value of all the stock in such corporation.

(ii) *Example.* The provisions of paragraph (b)(4)(i) of this section may be illustrated by the following example:

Example. B, an individual, owns 60 of the 100 shares of the only class of outstanding stock of corporation P. C, an individual, owns 4 shares of the P stock, and corporation X owns 36 shares of the P stock. Corporation P owns, directly and indirectly, 50 shares of the stock of S. Under this subparagraph, B is considered to own 30 shares of the S stock (60/100×50), and X is considered to own 18 shares of S stock (36/100×50). Since C does not own 5 percent or more in the value of P stock, he is not considered as owning any of the S stock owned by P. If in this example, C's wife had owned directly 1 share of the P stock, C and his wife would each own 5 shares of the P stock, and therefore C and his wife would be considered as owning 2.5 shares of the S stock (5/100×50).

(5) *Spouse*—(i) *General rule.* Except as provided in paragraph (b)(5)(ii) of this section, an individual shall be considered to own an interest owned, directly or indirectly, by or for his or her spouse, other than a spouse who is legally separated from the individual under a decree of divorce, whether interlocutory or final, or a decree of separate maintenance.

(ii) *Exception.* An individual shall not be considered to own an interest in an organization owned, directly or indirectly, by or for his or her spouse on any day of a taxable year of such organization, provided that each of the following conditions are satisfied with respect to such taxable year:

(A) Such individual does not, at any time during such taxable year, own directly any interest in such organization;

(B) Such individual is not a member of the board of directors, a fiduciary, or an employee of such organization and does not participate in the management of such organization at any time during such taxable year;

(C) Not more than 50 percent of such organization's gross income for such taxable year was derived from royalties, rents, dividends, interest, and annuities; and

(D) Such interest in such organization is not, at any time during such taxable year, subject to conditions which substantially restrict or limit the spouse's right to dispose of such interest and which run in favor of the individual or the individual's children who have not attained the age of 21 years. The principles of § 11.414(c)–3(d)(6)(i) shall apply in determining whether a condition is a condition described in the preceding sentence.

(iii) *Definitions.* For purposes of paragraph (b)(5)(ii)(C) of this section, the gross income of an organization shall be determined under section 61 and the regulations thereunder. The terms "interest", "royalties", "rents", "dividends", and "annuities" shall have the same meaning such terms are given for purposes of section 1244(c) and § 1.1244(c)–1(g)(1).

(6) *Children, grandchildren, parents, and grandparents*—(i) *Children and parents.* An individual shall be considered to own an interest owned, directly or indirectly, by or for the individual's children who have not attained the age of 21 years, and if the individual has not attained the age of 21 years, an interest owned, directly or indirectly, by or for the individual's parents.

(ii) *Children, grandchildren, parents, and grandparents.* If an individual is in effective control (within the meaning of § 11.414(c)–2(c)(2)), directly and with the application of the rules of this paragraph without regard to this subdivision, of an organization, then such individual shall be considered to own an interest in such organization owned, directly or indirectly, by or for the individual's parents, grandparents, grandchildren, and children, who have attained the age of 21 years.

(iii) *Adopted children.* For purposes of this section, a legally adopted child of an individual shall be treated as a child of such individual.

(iv) *Example.* The provisions of this subparagraph (6) may be illustrated by the following example:

Example—(A) *Facts.* Individual F owns directly 40 percent of the profits interest of the DEF Partnership. His son, M, 20 years of age, owns directly 30 percent of the profits interest of DEF, and his son, A, 30 years of age, owns directly 20 percent of the profits interest of DEF. The 10 percent remaining of the profits interest and 100 percent of the capital interest of DEF is owned by an unrelated person.

(B) *F's ownership.* F owns 40 percent of the profits interest in DEF directly and is considered to own the 30 percent profits interest owned directly by M. Since, for purposes of the effective control test contained in paragraph (b)(6)(ii) of this section, F is treated as owning 70 percent of the profits interest of DEF, F is also considered as owning the 20 percent profits interest of DEF owned by his adult son, A. Accordingly, F is considered as owning a total of 90 percent of the profits interest in DEF.

(C) *M's ownership.* Minor son, M, owns 30 percent of the profits interest in DEF directly, and is considered to own the

V 40 214
NOV 5 75
XUM

40 percent profits interest owned directly by his father, F. However, M is not considered to own the 20 percent profits interest of DEF owned directly by his brother, A, and constructively by F, because an interest constructively owned by F by reason of family attribution is not considered as owned by him for purposes of making another member of his family the constructive owner of such interest. (See paragraph (c)(2) of this section.) Accordingly, M owns and is considered as owning a total of 70 percent of the profits interest of the DEF Partnership.

(D) *A's ownership.* Adult son, A, owns 20 percent of the profits interest in DEF directly. Since, for purposes of determining whether A effectively controls DEF under paragraph (b)(6)(ii) of this section, A is treated as owning only the percentage of profits interest he owns directly, he does not satisfy the condition precedent for the attribution of the DEF profits interest from his father. Accordingly, A is treated as owning only the 20 percent profits interest in DEF which he owns directly.

(c) *Operating rules*—(1) *In general.* Except as provided in paragraph (c)(2) of this section, an interest constructively owned by a person by reason of the application of paragraph (b)(1), (2), (3), (4), (5), or (6) of this section shall, for the purposes of applying such paragraph, be treated as actually owned by such person:

(2) *Members of family.* An interest constructively owned by an individual by reason of the application of paragraph (b)(5) or (6) of this section shall not be treated as owned by such individual for purposes of again applying such subparagraphs in order to make another the constructive owner of such interest.

(3) *Precedence of option attribution.* For purposes of this section, if an interest may be considered an owned under paragraph (b)(1) of this section (relating to option attribution) and under any other subparagraph of paragraph (b) of this section, such interest shall be considered as owned by such person under paragraph (b)(1) of this section.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A, 30 years of age, has a 90 percent interest in the capital and profits of DEF Partnership. DEF owns all the outstanding stock of corporation X and X owns 60 shares of the 100 outstanding shares of corporation Y. Under paragraph (c)(1) of this section, the 60 shares of Y constructively owned by DEF by reason of paragraph (b)(4) of this section are treated as actually owned by DEF for purposes of applying paragraph (b)(2) of this section. Therefore, A is considered as owning 54 shares of the Y stock (90 percent of 60 shares).

Example (2). Assume the same facts as in example (1). Assume further that B, who is 20 years of age and the brother of A, directly owns 40 shares of Y stock. Although the stock of Y owned by B is considered as owned by C (the father of A and B) under paragraph (b)(6)(i) of this section, under paragraph (c)(2) of this section such stock may not be treated as owned by C for purposes of applying paragraph (b)(6)(ii) of this section in order to make A the constructive owner of such stock.

Example (3). Assume the same facts assumed for purposes of example (2), and further assume that C has an option to acquire the 40 shares of Y stock owned by his son, B. The rule contained in paragraph (c)(2) of this section does not prevent the reattribution of such 40 shares to A because, under paragraph (c)(3) of this section, C is considered as owning the 40 shares by reason of option attribution and not by reason of family attribution. Therefore, since A is in effective control of Y under paragraph (b)(6)(ii) of this section, the 40 shares of Y stock constructively owned by C are reattributed to A. A is considered as owning a total of 94 shares of Y stock.

§ 11.414(c)–5 Effective date.

(a) *General rule.* Except as provided in paragraph (b) or (c) of this section, the provisions of §§ 11.414(c)–1 through 11.414(c)–4 shall apply for plan years beginning after September 2, 1974.

(b) *Existing plans.* In the case of a plan in existence on January 1, 1974, unless paragraph (c) of this section applies, the provisions of §§ 11.414(c)–1 through 11.414(c)–4 shall apply for plan years beginning after December 31, 1975. For definition of the term "existing plan", see § 11.410(a)–2(c).

(c) *Existing plans electing new provisions.* In the case of a plan in existence on January 1, 1974, for which the plan administrator elects pursuant to § 11.410(a)–2(d), the provisions of §§ 11.414(c)–1 through 11.414(c)–4 shall apply to plan years as provided in § 11.410(a)–2(d).

(d) *Application.* For purposes of the Employee Retirement Income Security Act of 1974, the provisions of §§ 11.414(c)–1 through 11.414(c)–4 do not apply for any period of time before the plan years described in paragraph (a), (b), or (c) of this section, whichever is applicable.

Because of the need for immediate guidance with respect to determining whether the employees of a group of trades or businesses under common control shall be treated as employed by a single employer, it is found to be impractical to issue this Treasury decision with notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(This Treasury decision is issued under the authority contained in sections 414(c) (88 Stat. 925; 26 U.S.C. 414(c)) and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954.)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: October 29, 1975.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-83]

PART 183—BOATS AND ASSOCIATED EQUIPMENT

Inboard Safe Loading Standard

Correction

In FR Doc. 75-21160, appearing at page 33973, in the issue for Wednesday, August 13, 1975, the formula shown in § 183.33(a) for maximum weight capacity for inboard and inboard-outdrive boats should read as follows:

$$W = \frac{\text{(maximum displacement)}}{5} - \frac{\text{boat weight}}{5} - \frac{4(\text{machinery weight})}{5}$$

or

$$W = \frac{\text{(maximum displacement—boat weight)}}{7}$$

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

[Docket No. 72-19; General Order 13]

PART 536—FILING OF TARIFFS BY COMMON CARRIERS BY WATER IN THE FOREIGN COMMERCE OF THE UNITED STATES AND BY CONFERENCES OF SUCH CARRIERS

Enlargement of Time; Effective Date

Upon petition of interested parties and good cause appearing, it is ordered that time for filing petition for reconsideration of final rules in this proceeding (40 FR 47770; October 10, 1975) is hereby enlarged to and including December 1, 1975.

§ 536.16 [Amended]

Corresponding with this enlargement of time, it is also determined that the effective date of the rules should be correspondingly postponed. Accordingly, it is ordered that the "December 1, 1975" effective date incorporated in the first sentence of § 536.16 of Part 536, 46 CFR, is amended to read "January 2, 1976.

By the Commission.

Title 47—Telecommunications

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 0—COMMISSION ORGANIZATION

PART 1—PRACTICE AND PROCEDURE

In the matter of editorial amendment of Parts 0 and 1 Rules and Regulations.

1. Section 0.401(e) should be amended to reflect the new mailing address of the International Telecommunications Section of the Finance Branch.

2. Section 1.261 should be amended to make it clear that corrections to the transcript of a hearing may be filed at any time during the proceeding until 10 days after notice is given of the certification of the transcript.

3. Section 1.721 should be amended to provide for notation of the File Number on the form for formal complaints against common carriers.

4. Section 1.764 should be amended to provide for service of certain papers on the Secretary of Defense and the Secretary of State (if communication to foreign points is involved) rather than on the Secretary of the Army and the Secretary of the Navy. This change was effected by Public Law 93-506, November 30, 1974, 88 Stat. 1577.

5. The amendments are editorial, informational and procedural in nature. The prior notice and effective date requirements of 5 U.S.C. 553 are therefore inapplicable.

6. The amendments are set out in the attached Appendix. Authority for their adoption is contained in Sections 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 155(d), and 303(r), and in Section 0.231(d) of the Rules and Regulations, 47 CFR 0.231(d).

7. Accordingly, it is ordered, effective November 12, 1975, that the Rules and Regulations are amended as set forth below.

Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.

Adopted: October 29, 1975.

Released: October 30, 1975.

[SEAL] R. D. LICHTWARDT,
Executive Director.

A. In Part 0 of Chapter I of Title 47 of the Code of Federal Regulations, § 0.401(e) is revised to read as follows:

§ 0.401 Location of Commission offices.

* * * * *

(e) The Commission also maintains offices at Gettysburg, Pennsylvania.

(1) The mailing address of the Gettysburg section of the Data Processing Center, and the Gettysburg Processing Section of the Amateur and Citizens Facilities Branch is:

Federal Communications Commission, 334 York Street, Gettysburg, Pa. 17325.

(2) The mailing address of the International Telecommunications Section of the Finance Branch is:

Federal Communications Commission, P.O. Box IT-70, Gettysburg, Pa. 17325

* * * * *

B. Part I of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 1.261 is revised to read as follows:

§ 1.261 Corrections to transcript.

At any time during the course of the proceeding, or as directed by the presiding officer, but not later than 10 days after the date of notice of certification of the transcript, any party to the proceeding may file with the presiding officer a motion requesting the correction of the transcript, which motion shall be accompanied by proof of service thereof upon all other parties to the proceeding. Within 5 days after the filing of such a motion, other parties may file a pleading in support of or in opposition to such motion. Thereafter, the presiding officer shall, by order, specify the corrections to be made in the transcript, and a copy of the order shall be served upon all parties and made a part of the record. The presiding officer, on his own initiative, may specify corrections to be made in the transcript on 5 days' notice.

2. In § 1.721(b), the beginning portion of the complaint form is revised to read as follows:

§ 1.721 Form.

* * * * *

(b) * * *

COMPLAINT

BEFORE THE FEDERAL COMMUNICATIONS COMMISSION, WASHINGTON, D.C.

File No. (To be inserted by the Common Carrier Bureau).

Docket No. (To be inserted by the Secretary of the Commission).

3. Section 1.764(b) is revised to read as follows:

§ 1.764 Discontinuance, reduction, or impairment of service.

* * * * *

(b) In cases under this section requiring a certificate, notice is given to and a copy of the application is filed with the Secretary of Defense, the Secretary of State (with respect to such applications involving service to foreign points), and the Governor of each State involved. Hearing is held if any of these persons desires to be heard or if the Commission determines that a hearing should be held. Copies of all formal applications under this section requesting authorizations (including certificates) are filed with the Secretary of Defense, the Secretary of State (with respect to such applications involving service to foreign points) and the Governor of each State involved. Copies of all applications under this section requesting authorizations (including certificates) are filed with the regulatory agencies of the States involved.

[FR Doc.75-29702 Filed 11-4-75;8:45 am]

[Docket No. 20436; RM-2399]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Lompoc, California).

1. The Commission has before it the *Notice of Proposed Rule Making*, adopted April 15, 1975, 40 FR 18466, inviting comments on a proposal to assign Channel 265A to Lompoc, California, as a second FM assignment. The only commenting party is the petitioner, Straw Broadcasting Co.[1]

2. Lompoc, California (pop. 25,284)[2] is located in Santa Barbara County (pop. 264,324), approximately 120 miles northwest of Los Angeles. It presently receives local service from 3 AM stations, KLOM (Class III, daytime-only); KNEZ (Class III, unlimited-time); and KKOK (Class III, daytime-only), licensed to petitioner; and from 1 FM station, KLOM-FM, Channel 224A. The assignment of Channel 265A to Lompoc will not affect any existing FM assignments.

3. The petitioner failed to file timely comments in response to our *Notice*. Petitioner filed a subsequent "Motion for Leave to File Comments". It asserts therein that it was unable to complete engineering work before the cut-off date, and notes that no other comments were submitted in this proceeding and that the public interest would not be served by the Commission's failure to consider its comments. These late-filed comments include only a statement that petitioner "incorporates by reference and relies upon its Petition and Supplement in support of the *Notice of Proposed Rule Making*" and an attached affidavit signed by the President of Straw Broadcasting Company that he intends to apply for the FM channel if it is assigned to Lompoc and, if authorized, will build a station promptly. While we must adhere to our cut-off procedures in rule making proceedings in order to avoid endless pleadings and comments, deviations have been warranted in the overriding responsibility of serving the public interest. Since a showing of need for a second FM channel assignment at Lompoc was made in the original petition, since the petitioner has expressed its continuing interest in the use of the channel if it is assigned, since no party is prejudiced thereby, we believe that grant of the motion for leave to file late comments is warranted under the circumstances of this case.

4. As stated in the *Notice*, significant preclusion will occur on Channel 265A covering a relatively large area to the north of Lompoc, and on Channel 267 in a limited area to the north and south of Lompoc. We note that the affected cities

[1] Petitioner's comments were filed on July 17, 1975, after the cut-off date of June 16, 1975.

[2] All population data are taken from the 1970 U.S. Census.

V40-214
NOV 5 75
XUM

on Channel 265A, Santa Maria and San Luis Obispo, have adequate local aural service. In addition, none of the precluded communities on either channel have expressed an interest in the use of either channel. In view of this and in view of the shown need and interest mentioned in the previous paragraph, we find it in the public interest to assign Channel 265A to Lompoc.

5. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303, and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules.

6. Accordingly, *it is ordered*, That effective December 8, 1975, the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations is amended, insofar as the city listed below is concerned, to read as follows:

City	*Channel No.*
Lompoc, Calif	224A, 265A

7. *It is further ordered*, That petitioner's Motion for Leave to File Comments is granted.

8. *It is further ordered*, That this proceeding is terminated.

Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.

Released: October 24, 1975.

FEDERAL COMMUNICATAONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.75-29703 Filed 11-4-75;8:45 am]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Corrected Service Order No. 1176-A]

PART 1033—CAR SERVICE

The Kansas City Southern Railway Company Authorized To Operate Over Certain Tracks of St. Louis-San Francisco Railway Company

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 30th day of October, 1975.

Upon further consideration of Corrected Service Order No. 1176 (39 FR 13264, 32138, 33300; 40 FR 8823 and 38162) and good cause appearing therefor:

It is ordered, That:

§ 1033.1176 *The Kansas City Southern Railway Company authorized to operate over certain tracks of St. Louis-San Francisco Railway Company* be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1 (10-17), 15(4) and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That this order shall become effective at 11:59 p.m., October 1975; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-29773 Filed 11-4-75;8:45 am]

[No. MC-C-3437 (Sub-No. 6)]

PART 1047—EXEMPTIONS

Philadelphia International Airport; Exempt Zone

At a session of the Interstate Commerce Commission, Division 1, Acting as an Appellate Division, held at its office in Washington, D.C., on the 24th of October, 1975.

Upon consideration of the record in the above-entitled proceeding, and of:

(1) Joint petition of Air Freight Motor Carrier Conference, Air Delivery Service, Air Line Freight, Inc., Central Penn Air Service, Inc., Fogg's Daily Service, Harbourt Air Freight Service, Inc., and Moore's Hauling, intervenors in support of petitioner, filed September 3, 1975, for reconsideration;

(2) Petition of Scari's Delivery Service, Inc., petitioner, filed September 3, 1975, for reconsideration;

(3) Reply by Air Cargo, Inc., intervenor in opposition, filed September 22, 1975, to the petitions in (1) and (2) above;

(4) Reply by Pinto Trucking Service, Inc., intervenor in opposition, filed September 26, 1975, to the petitions in (1) and (2) above;

and good cause appearing therefor:

It is ordered, That the petitions be, and they are hereby, denied, for the reason that the findings of Division 1, in its report and order (reported at 123 M.C.C. 228), are in accordance with the evidence and the applicable law.

It is further ordered, That the statutory effective and compliance date of the order of July 3, 1975, in these proceedings, as extended and as indefinitely postponed pursuant to Section 17(8) of the Interstate Commerce Act, be, and it is hereby, reinstated and fixed as December 15, 1975.

By the Commission, Division 1, Acting as an Appellate Division.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-29774 Filed 11-4-75;8:45 am]

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

[Docket No. FI-532]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Long Branch, New Jersey

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Long Branch, New Jersey, under § 1917.9 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.9(a), the Administrator has resolved the appeals presented by the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall Annex, 344 Broadway, Long Branch, New Jersey 07740.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)
Cranberry Brook	Ocean Ave	15	From 175 ft south of Lake Takanassee to 308 ft north of Lake Takanassee.
	South Lake Dr	16	Entire street.
	North Lake Dr	16	Entire street to New York and Long Branch RR.
	New York and Long Branch RR.	17	From 400 ft south of Cranberry Brook to 450 ft north of Cranberry Brook.
	Hoey Ave	21	From 150 ft south of Cranberry Brook to 400 ft north of Cranberry Brook.
	Lake Ave	21	Between the intersection of Hoey Ave. and 125 ft north of Shrewsbury Ave.
	Woodgate Ave	21	From 175 ft south of Cranberry Brook to 100 ft north of Cranberry Brook.
	Van Court Ave	21	From 200 ft south of Cranberry Brook to 350 ft north of Cranberry Brook.
	Elinore Ave	21	Entire Street.
	Red Oaks Dr	21	To 150 ft south of Cranberry Brook.
Atlantic Ocean	Plaza Ct	10	To 125 ft west of Atlantic Ocean.
	Adams St	10	To 90 ft west of Atlantic Ocean.
	Ocean Ave	10	From 250 ft north of corporate limits.
	do	10	From 200 ft north of Chelsea Ave. to Madison Ave.
	do	10	From 425 ft south of Ocean Ter to 100 ft north of Ocean Ter.
	Ocean Ter	10	To 225 ft west of Ocean Ave.
	View Ave	10	To 300 ft west of Ocean Ave.
	Joline Ave	10	To 225 ft west of Atlantic Ocean.
	Neptune Ave	9	To 800 ft south of corporate limits.
Branchport, Manahassett, and Troutmans Creeks.	Columbia Ave	9	Entire Street.
	Church St	9	To 475 ft south of Columbia Ave.

	Biddle Ave	9	Entire street.
	Patten Ave	9	Do.
	Kingsley St	9	To 700 ft east of Patten Ave.
	Florence Ave	9	From MacArthur Ave. to 825 ft northwest of Avenel Blvd.
	Atlantic Ave	9	From Liberty St. to Florence Ave.
	Joline Ave	9	From 100 ft east of Liberty St. to Florence Ave.
	Sea View Ave	9	From 100 ft east of Liberty St. to 200 ft west of Witmer St.
	Long Branch Ave	9	From Samson Pl. to 100 ft north of Cooper Ave.
	Ellis Ave	9	Entire street.
	Pacific Ave	9	To 125 ft northeast of 6th Ave.
	Birth Ave	9	To 400 ft southeast of Pacific Ave.
	Atlantic Ave	9	From 180 ft northeast of 6th Ave. to 325 ft southwest of 6th Ave.
	Atlantic Ave	9	To Edwards Ave.
	Jay St	9	To 100 ft northeast of New York and Long Branch RR.
	Branchpool Ave	9	To 50 ft north of New York and Long Branch RR.
	New York and Long Branch RR.	9	To 450 ft southeast of corporate limits.
	New Jersey Southern RR.	9	To 500 ft east of corporate limits.
	Myrtle Ave	9	To 200 ft south of corporate limits.

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.

Issued: August 20, 1975.

RICHARD KRIMM,
Acting Federal Insurance Administrator.

[FR Doc.75-29754 Filed 11-4-75;8:45 am]

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 204—GENERAL ADMINISTRATION—SOCIAL AND REHABILITATION SERVICE GRANT PROGRAMS

Grant Appeals

Notice of proposed regulations relating to appeals on project grants awarded by the Social and Rehabilitation Service was published in the FEDERAL REGISTER on April 14, 1975 (40 FR 16672). No comments were received.

The purpose of the regulations is to establish procedures for the Service to review post-award disputes prior to submission to the Departmental Grant Appeals Board.

The basis of the regulation is the Department's belief that many disputes may be resolved more expeditiously through informal procedures. This belief is reflected in § 16.5(b)(2) of the Charter for the Departmental Grant Appeals Board, which provides that any informal procedures established by a constituent agency must be exhausted prior to Board review.

No comments, suggestions or objections having been received, the regulations, as proposed, are hereby adopted with a minor clarifying change.

Part 204 of Chapter II, Title 45 of the Code of Federal Regulations would be amended by adding a new § 204.4 to read as follows:

§ 204.4 Grant appeals.

(a) *Scope.* This section applies to certain determinations (as set forth in § 16.5(a)(1)-(4) of this title), made after the effective date of this section, with respect to direct, discretionary project grants awarded by the Social and Rehabilitation Service, and such other grants or grant programs as the Administrator, with the approval of the Secretary, may designate. The statutory authority for current grant programs to which this section applies appears in the appendix to this section. This section is also applicable to determinations with respect to grants which were made under authority which has expired or been repealed since the grants were made, even though such authority does not appear in the appendix.

(b) *Submission.* (1) A grantee who has received notification, as described in § 16.5(b) of this title, of a determination described in § 16.5(a)(1)-(4) of this title, may request reconsideration by informing the Grants Appeals Officer as identified in the final adverse determination or otherwise designated by the Administrator, Social and Rehabilitation Service, Washington, D.C. 20201 of the grantee's intent to contest the determination, and may request reconsideration. The grantee's request for reconsideration must be postmarked no later than 30 days after the postmark date of the written notification of such determination, except when:

(i) The Grant Appeals Officer grants an extension of time for good cause; or

(ii) The constituent agency fails to make a written notification under the circumstances described in the last sentence of § 16.5(b) of this title, in which case, subject to paragraph (b)(1)(i) of this section, the grantee's request for reconsideration must be postmarked no later than 90 days after the postmark date of the grantee's request for permission to incur an expenditure.

(2) Although the request need not follow any prescribed form, it shall clearly identify the question or questions in dispute and contain a full statement of the grantee's position with respect to such question or questions, and the pertinent facts and reasons in support of such position. Except in the case of a determination described in the last sentence of § 16.5(b) of this title, the grantee shall attach to his submission a copy of the agency notification described in § 16.5(b)(1) of this title.

(c) *Action by the Service on requests for reconsideration.* (1) Upon receipt of such an application the Grant Appeals Officer will inform the grantee that:

(i) His request is under review, and

(ii) If no decision is received within 90 days (or 45 days in the case of a determination described in the last sentence of § 16.5(b) of this title) of the postmark date of the grantee's request for reconsideration, the determination may be appealed to the Departmental Grant Appeals Board.

(2) The Grant Appeals Officer will reconsider the determination appealed

V 40 I 214
NOV 5 75
XUM

from, considering any material submitted by the grantee and any other material necessary.

(3) If the response to the grantee is adverse to the grantee's position, the response will include notification of the grantee's right to appeal to the Departmental Grant Appeals Board.

APPENDIX

This section is issued under sections 1, 5, 6, and 7 of Reorganization Plan No. 1 of 1953, 18 F.R. 2053, 67 stat. 631 and is applicable to programs carried out under the following authorities:

(1) Section 222(a) and (b) of the Social Security Amendments of 1972 (Pub. L. 92-603).

(2) Section 426 of the Social Security Act (42 U.S.C. 262).

(3) Section 707 of the Social Security Act (42 U.S.C. 907).

(4) Section 1110 of the Social Security Act (42 U.S.C. 1310).

(5) Section 1115 of the Social Security Act (42 U.S.C. 1315).

This proposal issued under the authority of sections 1, 5, 6, and 7 of Reorganization Plan No. 1 of 1953, 16 FR 2053, 67 Stat. 631 and the individual authorities cited in the Appendix.

Effective date: The regulations in this section shall be effective December 5, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.768, Community Service Training Grants; No. 13.766, Public Assistance Research.)

Dated: September 19, 1975.

JOHN C. YOUNG,
Acting Administrator, Social and Rehabilitation Service.

Approved: October 30, 1975.

DAVID MATHEWS,
Secretary.

PART 225—TRAINING AND USE OF SUBPROFESSIONALS AND VOLUNTEERS

Statutory Provisions

Part 225, Chapter II, Title 45 of the Code of Federal Regulations is amended to implement sections (3)(a)(1) and (3)(b) of Public Law 93-647, the Social Services Amendments of 1974, which deleted from Title IV-A the requirement for training and use of subprofessionals and volunteers, and repealed Title VI, effective October 1, 1975.

The Department finds that there is good cause to dispense with Notice of proposed rulemaking since the amendments impose no new requirements and merely implement specific statutory provisions not subject to change because of public comment.

Accordingly, the introductory text of § 225.2 and § 225.3 are revised to read as set forth below:

§ 225.2 State plan requirements.

The State plan for OAA, AB, APTD, AABD or MA under titles I, X, XIV, XVI or XIX of the Social Security Act or for CWS under title IV (Part B) of the Act must:

* * * * *

§ 225.3 Federal financial participation.

Under the State plan programs under Titles I, IV (Parts A and B), X, XIV, XVI, and XIX of the Act, Federal financial participation in expenditures for the recruitment, selection, training, and employment and other use of subprofessional staff and volunteers is available at the rates and under related conditions established for training, services, and other administrative costs under the respective titles.

Effective date: The regulations in this section shall be effective on October 1, 1975.

(Catalog of Federal Domestic Assistance Program Nos. 13.724, Public Assistance—State and Local Training and 13.754, Public Assistance—Social Services.)

Dated: September 30, 1975.

JOHN A. SVAHN,
Acting Administrator, Social and Rehabilitation Service.

Approved: October 30, 1975.

DAVID MATHEWS,
Secretary.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

United States Customs Service

[19 CFR Part 113]

CUSTOMS BONDS

Notice of Proposed Amendment to the Customers Regulations Increasing the Minimum Amount of the Proprietor's Warehouse Bond, Customs Form 3581, from $5,000 to $10,000

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), and section 555, 623, 624, 46 Stat. 743, as amended, 759, as amended (19 U.S.C. 1555, 1623, 1624), it is proposed to amend section 113.14(a) of the Customs Regulations (19 CFR 113.14(a)) to increase the minimum amount of the Proprietor's Warehouse Bond, Customs Form 3581, from $5,000 to $10,000.

The Proprietor's Warehouse Bond, Customs Form 3581, secures the payment to the Government of the reimbursable costs of warehouse officers, including salary and overtime, as well as the payment of the duties and taxes due on merchandise removed from the warehouse (or warehouses) to which the bond applies. Section 113.14(a) of the Customs Regulations provides that the Proprietor's Warehouse Bond shall be given in the amount of $5,000 on each building or area covered, but not to exceed $50,000 on all buildings or areas, unless the district director believes additional security is necessary. In view of the substantial increases in recent years in both the quantity and value of imported merchandise, a bond in the minimum amount of $5,000 is no longer adequate to secure the payment of the reimbursable costs or revenue due the United States. A minimum bond requirement of $10,000 would provide more adequate protection.

Accordingly, it is proposed to amend paragraph (a) of section 113.14 of the Customs Regulations (19 CFR 113.14(a)) by substituting "$10,000" for "$5,000".

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulation Division, Washington, D.C. 20229. To insure consideration of such communications, they must be received not later than December 5, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8 (b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

VERNON D. ACREE,
Commissioner of Customs.

Approved: October 29, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-29761 Filed 11-4-75;8:45 am]

Internal Revenue Service

[26 CFR Part 1]

REGULATIONS RELATING TO MINIMUM VESTING STANDARDS

Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by January 9, 1976. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by January 9, 1976. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 411 and 7805 of the Internal Revenue Code of 1954 (88 Stat. 901, 68A Stat. 917; 26 U.S.C. 411 and 7805).

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) in order to conform such regulations to reflect the enactment of section 411 of the Internal Revenue Code of 1954 by section 1012(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 901) (hereinafter referred to as the "Act").

The proposed regulations contained in this document will also apply for purposes of sections 203 and 204 of such Act (88 Stat. 854, 858).

Section 411 of the Code prescribes minimum vesting standards which are qualification requirements for pension, stock bonus, or profit-sharing plans (and their related trusts) described in section 401(a). These qualification requirements also apply to custodial accounts, annuity plans, and bond purchase plans described in sections 401(f), 404(a)(2), and 405(a), respectively.

Section 411(e) and proposed § 1.411(a)-1(c) provide that section 411 does not apply to governmental plans, certain church plans, plans not providing for employer contributions after September 2, 1974, and certain plans of organizations described in section 501(c)(8) or (9) of the Code.

Proposed § 1.411(a)-2 provides the effective dates for the proposed regulations under section 411. In general, these rules apply to plans in existence on January 1, 1974, for plan years beginning after December 31, 1975, and to other plans for plan years beginning after September 2, 1974.

Section 411(a)(2) and proposed § 1.411(a)-3 sets forth a qualification requirement relating to the required time for vesting in employer-derived accrued benefits. A plan must provide for vesting which satisfies one of three standards.

The first standard requires 100 percent vesting after 10 years of service. The second standard requires 25 percent after five years of service, 5 percent additional vesting for each of the next 5 years, and 10 percent additional vesting for each of the next 5 years, so that an employee is 100 percent vested after 15 years of service. The third standard requires each employee with 5 years or more of service to be 50 percent vested when the sum of his age and service equals 45, with 10 percent additional vesting for each year thereafter. It is contemplated that a plan could satisfy one standard for one

V 40 214
NOV 5 75
XUM

class of employees and another of the standards for another class of employees.

Proposed § 1.411(a)–4 defines the term "nonforfeitable" for purposes of satisfying the vesting requirements. Specific instances in which rights are not treated as forfeitable are set forth.

Proposed § 1.411(a)–5 sets forth rules for determining an employee's years of service which must be taken into account in applying the vesting standards.

Proposed § 1.411(a)–6 sets forth rules for years of service and breaks in service.

Proposed § 1.411(a)–7 sets forth definitions and special rules for purposes of the proposed vesting regulations. Definitions are set forth for accrued benefit, normal retirement age, and normal retirement benefit. A special rule is given for "cash-outs" of an employee's accrued benefit.

Proposed § 1.411(a)–8 sets forth rules with respect to the change of a plan's vesting schedule. Under these rules, an employee's nonforfeitable percentage after the amendment must not be less than the percentage determined under the pre-amendment schedule. In addition, certain employees are given the option to have their vesting percentage determined under the pre-amendment schedule.

Proposed § 1.411(a)–9 sets forth a special rule with respect to a plan's break in service rules which places certain limitations on plan amendments to its break in service rules for the period between January 1, 1974, and the time section 411 applies to the plan.

Under section 411(b) and § 1.411(b)–1, for plan years beginning after the applicable effective date of section 411, rules are provided for the determination of the accrued benefit to which a participant is entitled under a plan.

Under a defined contribution plan, a participant's accrued benefit is the balance to the credit of the participant's account.

Under a defined benefit plan, a participant's accrued benefit is his accrued benefit determined under the plan. A defined benefit plan is not a qualified plan unless the method provided by the plan for determining accrued benefits satisfies at least one of the alternative methods, *i.e.*, the 3 percent method, the 133⅓ percent rule, and the fractional rule (described in proposed § 1.411(b)–(1)(b)) for determining accrued benefits with respect to all active participants under the plan.

In addition, a defined benefit plan (without regard to any combining of plans of an employer) must provide only one method for the computation of accrued benefits.

Special rules are provided for the first two years of service by a participant, certain insured defined benefit plans, and certain reductions in accrued benefits due to increasing age or service. In addition, a special rule is provided with respect to accruals for service before the effective date of section 411. The special rule relating to accruals for service prior to the effective date of section 411 requires, *inter alia*, the accrual of the excess of the accrued benefit to which a participant would be entitled if the plan satisfied one of the alternative methods for all plan years prior to the effective date of section 411, over the amount required to be accrued under the special rule, as if the plan had been initially adopted on the effective date of section 411.

Proposed § 1.411(c)–1 sets forth rules for allocating accrued benefits between employer and employee contributions.

Proposed § 1.411(d)–2 sets forth rules with respect to termination, partial termination, and complete discontinuance of contributions.

Proposed § 1.411(d)–3 sets forth special rules for prohibited discrimination on early termination, class year plans, and accrued benefit decreases.

Certain regulations prescribed by the Secretary of Labor are applicable for purposes of section 411 and the proposed regulations thereunder.

Conforming amendments to reflect the addition of section 411 to the Code are made to the regulations under sections 404(a), 406, 407, 801 and 805.

Proposed amendments to the regulations. In order to conform the Income Tax Regulations (26 CFR Part 1) to reflect the addition of section 411 to the Internal Revenue Code, such regulations are amended as follows:

Paragraph 1. The following new section is added immediately before § 1.401–1:

§ 1.401–0 Scope and definitions.

(a) *In general.* Sections 1.401 through 1.401–14 (inclusive) reflect the provisions of section 401 prior to amendment by the Employee Retirement Income Security Act of 1974. The sections following § 1.401–14 and preceding § 1.402(a) (hereafter referred to in this section as the "Post-ERISA Regulations") reflect the provisions of section 401 after amendment by such Act.

(b) *Definitions.* For purposes of the Post-ERISA regulations—

(1) *Qualified plan.* The term "qualified plan" means a plan which satisfies the requirements of section 401(a).

(2) *Qualified trust.* The term "qualified trust" means a trust which satisfies the requirements of section 401(a).

Par. 2. The following new section is added immediately after § 1.401(a):

§ 1.401(a)–19 Nonforfeitability in case of certain withdrawals.

(a) *Application of section.* Section 401(a)(19) and this section apply to a plan to which section 411(a) applies. (See section 411(e) and § 1.411(a)–2 for applicability of section 411).

(b) *Prohibited forfeitures*—(1) *General rule.* A plan to which this section applies is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if, under such plan, any part of a participant's accrued benefit derived from employer contributions is forfeitable solely because a benefit derived from the participant's contributions under the plan is voluntarily withdrawn by him after he has become a 50 percent vested participant.

(2) *50 percent vested participant.* For purposes of subparagraph (1) of this paragraph, a participant is a 50 percent vested participant when he has a nonforfeitable right (within the meaning of section 411 and the regulations thereunder) to at least 50 percent of his accrued benefit derived from employer contributions.

(3) *Certain forfeitures.* Paragraph (b)(1) of this section does not apply in the case of a forfeiture permitted by section 411(a)(3)(D)(iii) and § 1.411(a)–4(b)(5)(i) (relating to forfeitures of certain benefits accrued before September 2, 1974).

Par. 3. Section 1.404(a) is amended by revising paragraphs (1), (2), (3)(A), (6), (7), and (9)(B)(ii) and the historical note to read as follows:

§ 1.404(a) Statutory provisions; deduction for contributions of an employer to an employees' trust or annuity plan and compensation under a deferred-payment plan; general rule.

Sec. 404. *Deduction for contributions of an employer to an employee's trust or annuity plan and compensation under a deferred-payment plan*—(a) *General rule.*

(1) *Pension trusts*—(A) *In General.* In the taxable year when paid, if the contributions are paid into a pension trust, and if such taxable year ends within or with a taxable year of the trust for which the trust is exempt under section 501(a), in an amount determined as follows:

(i) The amount necessary to satisfy the minimum funding standard provided by section 412(a) for plan years ending within or with such taxable year (or for any prior plan year), if such amount is greater than the amount determined under clause (ii) or (iii) (whichever is applicable with respect to the plan),

(ii) The amount necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount, or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the Secretary or his delegate, but if such remaining unfunded cost with respect to any 3 individuals in more than 50 percent of such remaining unfunded cost, the amount of such unfunded cost attributable to such individuals shall be distributed over a period of at least 5 taxable years.

(iii) An amount equal to the normal cost of the plan, as determined under regulations prescribed by the Secretary or his delegate, plus, if past service or other supplementary pension or annuity credits are provided by the plan, an amount necessary to amortize such credits in equal annual payments (until fully amortized) over 10 years, as determined under regulations prescribed by the Secretary or his delegate.

In determining the amount deductible in such year under the foregoing limitations the funding method and the actuarial assumptions used shall be those used for such year under section 412, and the maximum amount deductible for such year shall be an amount equal to the full funding limitation for such year determined under section 412.

(B) *Special rule in case of certain amendments.* In the case of a plan which the Secretary of Labor finds to be collectively bargained which makes an election under this subparagraph (in such manner and at such time as may be provided under regulations prescribed by the Secretary or his delegate), if the full funding limitation determined under section 412(c)(7) for such year is zero, if as a result of any plan amendment applying to such plan year, the amount determined under section 412(c)(7)(B) exceeds the amount determined under section 412(c)(7)(A), and if the funding method and the actuarial assumptions used are those used for such year under section 412, the maximum amount deductible in such year under the limitations of this paragraph shall be an amount equal to the lesser of—

(i) The full funding limitation for such year determined by applying section 412(c)(7) but increasing the amount referred to in subparagraph (A) thereof by the decrease in the present value of all unamortized liabilities resulting from such amendment, or

(ii) The normal cost under the plan reduced by the amount necessary to amortize in equal annual installments over 10 years (until fully amortized) the decrease described in clause (i).

In the case of any election under this subparagraph, the amount deductible under the limitations of this paragraph with respect to any of the plan years following the plan year for which such election was made shall be determined as provided under such regulations as may be prescribed by the Secretary or his delegate to carry out the purposes of this subparagraph.

(C) *Certain collectively-bargained plans.* In the case of a plan which the Secretary of Labor finds to be collectively bargained, established or maintained by an employer doing business in not less than 40 States and engaged in the trade or business of furnishing or selling services described in section 167(l)(3)(A)(iii), with respect to which the rates have been established or approved by a State or political subdivision thereof, by any agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of any State or political subdivision thereof, and in the case of any employer which is a member of a controlled group with such employer, subparagraph (B) shall be applied by substituting for the words 'plan amendment' the words 'plan amendment or increase in benefits payable under title II of the Social Security Act'. For purposes of this subparagraph, the term 'controlled group' has the meaning provided by section 1563(a), determined without regard to section 1563(a)(4) and (e)(3)(C).

(D) *Carryover.* Any amount paid in a taxable year in excess of the amount deductible in such year under the foregoing limitations shall be deductible in the succeeding taxable years in order of time to the extent of the difference between the amount paid and deductible in each such succeeding year and the maximum amount deductible for such year under the foregoing limitations.

(2) *Employees' annuities.* In the taxable year when paid, in an amount determined in accordance with paragraph (1), if the contributions are paid toward the purchase of retirement annuities, or retirement annuities and medical benefits as described in section 401(h), and such purchase is a part of a plan which meets the requirements of section 401(a)(3), (4), (5), (6), (7), (8), (11), (12), (13), (14), (15), (16), and (19) and, if applicable, the requirements of section 401(a)(9), (10), (17), and (18) and of section 401(d) (other than paragraph (1)), and if refunds of premiums, if any, are applied within the current taxable year or next succeeding taxable year towards the purchase of such retirement annuities, or such retirement annuities and medical benefits.

(3) *Stock bonus and profit-sharing trusts*—(A) *Limits on deductible contributions.* In the taxable year when paid, if the contributions are paid into a stock bonus or profit-sharing trust, and if such taxable year ends within or with a taxable year of the trust with respect to which, the trust is exempt under section 501(a), in an amount not in excess of 15 percent of the compensation otherwise paid or accrued during the taxable year to all employees under the stock bonus or profit-sharing plan. If in any taxable year there is paid into the trust, or a similar trust then in effect, amounts less than the amounts deductible under the preceding sentence, the excess, or if no amount is paid, the amounts deductible, shall be carried forward and be deductible when paid in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any such succeeding taxable year shall not exceed 15 percent of the compensation otherwise paid or accrued during such succeeding taxable year to the beneficiaries under the plan, but the amount so deductible under this sentence in any one succeeding taxable year together with the amount so deductible under the first sentence of this subparagraph shall not exceed 25 percent of the compensation otherwise paid or accrued during such taxable year to the beneficiaries under the plan. In addition, any amount paid into the trust in any taxable year in excess of the amount allowable with respect to such year under the preceding provisions of this subparagraph shall be deductible in the succeeding taxable years in order of time, but the amounts so deductible under this sentence in any one such succeeding taxable year together with the amounts allowable under the first sentence of this subparagraph shall not exceed 15 percent of the compensation otherwise paid or accrued during such taxable year to the beneficiaries under the plan. The term "stock bonus or profit-sharing trust", as used in this subparagraph, shall not include any trust designed to provide benefits upon retirement and covering a period of years, if under the plan the amounts to be contributed by the employer can be determined actuarially as provided in paragraph (1). If the contributions are made to 2 or more stock bonus or profit-sharing trusts, such trusts shall be considered a single trust for purposes of applying the limitations in this subparagraph.

• • • • • •

(6) *Time when contributions deemed made.* For purposes of paragraphs (1), (2), and (3), a taxpayer shall be deemed to have made a payment on the last day of the preceding taxable year if the payment is on account of such taxable year and is made not later than the time prescribed by law for filing the return for such taxable year (including extensions thereof).

(7) *Limit on deductions.* If amounts are deductible under paragraphs (1) and (3), or (2) and (3), or (1), (2), and (3), in connection with two or more trusts, or one or more trusts and an annuity plan, the total amount deductible in a taxable year under such trusts and plans shall not exceed the greater of 25 percent of the compensation otherwise paid or accrued during the taxable year to the beneficiaries of the trusts or plans, or the amount of contributions made to or under the trusts or plans to the extent such contributions do not exceed the amount of employer contributions necessary to satisfy the minimum funding standard provided by section 412 for the plan year which ends with or within such taxable year (or for any prior plan year). In addition, any amount paid into such trust or under such annuity plans in any taxable year in excess of the amount allowable with respect to such year under the preceding provisions of this paragraph shall be deductible in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any one such succeeding taxable year together with the amount allowable under the first sentence of this paragraph shall not exceed 25 percent of the compensation otherwise paid or accrued during such taxable years to the beneficiaries under the trusts or plans. This paragraph shall not have the effect of reducing the amount otherwise deductible under paragraphs (1), (2), and (3), if no employee is a beneficiary under more than one trust or a trust and an annuity plan.

• • • • • •

(9) *Plans benefiting self-employed individuals.* • • •

(B) • • •

(ii) Without regard to the second sentence of paragraph (3); and • • •

[Sec. 404(a) as amended by sec. 24, Technical Amendments Act 1958 (72 Stat. 1623); sec. 3, Self-Employed Individuals Tax Retirement Act 1962 (Pub. L. 87–863, 76 Stat. 1141); sec. 204(a), Act of Nov. 13, 1966 (Pub. L. 89–809, 80 Stat. 1577); secs. 1013(c)(1), (2), and (3), 1016(a)(3), 2001(g)(2)(E) and (F), and 204 (b) and (c)(1), Employee Retirement Income Security Act 1974 (88 Stat. 921, 922, 923, 929, 957 and 986)]

Par. 4. Section 1.404(a)–8 is amended to read as follows:

§ 1.404(a)–8 Contributions of employer under an employees' annuity plan which meets the requirements of section 401(a); application of section 404(a)(2).

(a) If contributions are paid by an employer under an annuity plan for employees and the general conditions and limitations applicable to deductions for such contributions are satisfied (see § 1.404(a)–1), the contributions are deductible under section 404(a)(2) if the further conditions provided therein are satisfied. For the meaning of "annuity plan" as used here, see § 1.404(a)–3. In order that contributions by the employer may be deducted under section 404(a)(2), all of the following conditions must be satisfied:

(1) The contributions must be paid toward the purchase of retirement annuities (or for disability, severance, insurance, survivorship benefits incidental and directly related to such annuities, or medical benefits described in section 401(h) as defined in paragraph (a) of § 1.404(h)–1) under an annuity plan for the exclusive benefit of the employer's employees or their beneficiaries.

(2) The contributions must be paid in a taxable year of the employer which ends with or within a year of the plan for which it meets the applicable requirements set forth in section 401(a)(3), (4), (5), (6), (7), (8), (11), (12), (13), (14), (15), (16), and (19). In the case of a plan which covers a self-employed individual, the contributions must be paid in a taxable year of the employer which ends with or within a year of the plan for which it also meets the requirements of section 401(a)(9), (10), (17), and (18) and of section 401(d) (other than paragraph (1)). See section 401(a) and the regulations thereunder for the requirements and the applicable effective dates of the respective paragraphs set forth in

V 40 I 214
NOV 5 75
XUM

section 401(a). Any contributions of an employer which are paid in a taxable year of the employer ending with or within a year of the plan for which it meets the applicable requirements of section 401 may be carried over and deducted in a succeeding taxable year of the employer in accordance with section 404(a)(1)(D), whether or not such succeeding taxable year ends with or within a taxable year of the plan for which it meets the requirements set out in section 401 (a) and (d). See section 401(b) and the regulations thereunder for special rules allowing certain plan amendments to be given retroactive effect.

(3) There must be a definite written arrangement between the employer and the insurer that refunds of premiums, if any, shall be applied within the taxable year of the employer in which received or within the next succeeding taxable year toward the purchase of retirement annuities (or for disability, severance, insurance, survivorship benefits incidental and directly related to such annuities, or medical benefits described in section 401(h) as defined in paragraph (a) of § 1.401(h)–1) under the plan. For the purpose of this condition, "refunds of premiums" means payments by the insurer on account of credits such as dividends, experience rating credits, or surrender or cancellation credits. The arrangement may be in the form of contract provisions or written directions of the employer or partly in one form and partly in another. This condition will be considered satisfied where—

(i) All credits are applied regularly, as they are determined, toward the premiums next due under the contracts before any further employer contributions are so applied, and

(ii) Under the arrangement,

(A) No refund of premiums may be made during continuance of the plan unless applied as aforesaid, and

(B) If refunds of premiums may be made after discontinuance of the plan on account of surrenders or cancellations before all retirement annuities provided under the plan with respect to service before its discontinuance have been purchased, such refunds will be applied in the taxable year of the employer in which received, or in the next succeeding taxable year, to purchase retirement annuities for employees by a procedure which does not contravene the conditions of section 401(a)(4).

If the plan also includes medical benefits described in section 401(h) as defined in paragraph (a) of § 1.401(h)–1, any refund of premiums attributable to such benefits must, in accordance with these rules, be applied toward the purchase of medical benefits described in section 401(h).

(4) Any amounts described in subparagraph (3) of this paragraph which are attributable to contributions on behalf of a self-employed individual must be applied toward the purchase of retirement benefits. Amounts which are so applied are not contributions and thus are not taken into consideration in determining—

(i) The amount deductible with respect to contributions on his behalf, nor

(ii) In the case of an owner-employee, the maximum amount of contributions that may be made on his behalf.

(b) Where the above conditions are satisfied, the amounts deductible under section 404(a)(2) are governed by the limitations provided in section 404(a)(1). See §§ 1.404(a)–3 to 1.404(a)–7, inclusive.

Par. 5. Section 1.406 is amended by revising subsections (b)(1) and (c) and the historical note. These amended provisions read as follows:

§ 1.406 Statutory provisions; certain employees of foreign subsidiaries.

Sec. 406. *Certain employees of foreign subsidiaries.* * * *

(b) *Special rules for application of section 401(a)*—(1) *Nondiscrimination requirements.* For purposes of applying section 401(a)(4) and section 410(b) (without regard to paragraph (1)(A) thereof) with respect to an individual who is treated as an employee of a domestic corporation under subsection (a)—

* * * * *

(c) *Termination of status as deemed employee not to be treated as separation from service for purposes of capital gain provisions and limitation of tax.* For purposes of applying subsections (a)(2) and (e) of section 402, and section 403(a)(2) with respect to an individual who is treated as an employee of a domestic corporation under subsection (a), such individual shall not be considered as separated from the service of such domestic corporation solely by reason of the fact that—

* * * * *

[Sec. 406 as added by sec. 220, Rev. Act 1964 (78 Stat. 58); as amended by sec. 515(c)(2), Tax Reform Act 1969 (83 Stat. 645); secs. 1016(a) and 2005(c)(12), Employee Retirement Income Security Act 1974 (88 Stat. 929 and 992)]

Par. 6. Section 1.406–1 is amended by revising paragraphs (b)(2), (c)(1) and (d) to read as follows:

§ 1.406–1 Treatment of certain employees of foreign subsidiaries as employees of the domestic corporation.

* * * * *

(b) *Application of this section.* * * *

(2) *Supplementary rules.* Paragraph (b)(1)(ii) of this section does not modify the requirements for qualification of a plan described in section 401(a), 403(a), or 405(a) and the regulations thereunder. It is not necessary that the plan provide benefits or contributions for all United States citizens who are employees of such foreign subsidiaries. If the plan is amended to cover individuals who are employees by reason of paragraph (a)(1) of this section, the plan will not qualify unless it meets the coverage requirements of section 410(b)(1) and the nondiscrimination requirements of section 401(2)(4). In addition, the administrative rules contained in § 1.401(a)–3(e) (relating to the determination of the contributions or benefits provided by the employer under the Social Security Act) will also apply for purposes of determining whether the plan meets the requirements of section 401. For purposes of paragraph (b)(1)(iii) of this section, contributions will not be considered as provided under a funded plan merely because the foreign subsidiary is required under the laws of the foreign jurisdiction to pay social insurance taxes or to make similar payments with respect to the wages paid to the employee.

(c) *Special rules*—(1) *Nondiscrimination requirements.* For purposes of applying sections 401(a)(4) and 410(b)(1)(B) and the regulations thereunder (relating to nondiscrimination concerning benefits and contributions and coverage of employees) with respect to an employee of the foreign subsidiary who is treated as an employee of the domestic corporation under paragraph (a)(1) of this section—

* * * * *

(d) *Termination of status as deemed employee not to be treated as separation from service for purposes of capital gain provisions and limitation of tax.* For purposes of applying section 402(a)(2) and (e) and section 403(a)(2) (relating to capital gains treatment for certain distributions which are made after an employee's separation from service) with respect to an employee of a foreign subsidiary who is treated as an employee of a domestic corporation under paragraph (a)(1) of this section, the employee shall not be considered as separated from the service of the domestic corporation solely by reason of the occurrence of any one or more of the following events:

* * * * *

Par. 7. Section 1.407 is amended by revising subsections (b)(1) and (c) and the historical note. These amended provisions read as follows:

§ 1.407 Statutory provisions; certain employees of domestic subsidiaries engaged in business outside the United States.

Sec. 407. *Certain employees of domestic subsidiaries engaged in business outside the United States.* * * *

(b) *Special rules for application of section 401(a)*—(1) *Nondiscrimination requirements.* For purposes of applying section 401(a)(4) and section 410(b) (without regard to paragraph (1)(A) thereof) with respect to an individual who is treated as an employee of a domestic parent corporation under subsection (a)—

* * * * *

(c) *Termination of status as deemed employee not to be treated as separation from service for purposes of capital gain provisions and limitation of tax.* For purposes of applying subsections (a)(2) and (e) of section 402, and section 403(a)(2) with respect to an individual who is treated as an employee of a domestic parent corporation under subsection (a), such individual shall not be considered as separated from the service of such domestic parent corporation solely by reason of the fact that—

* * * * *

[Section 407 as added by sec. 220, Rev. Act 1964 (78 Stat. 60); as amended by sec. 515(c)(3); Tax Reform Act 1969 (83 Stat. 646); secs. 1016(a)(5) and 2005(c)(13), Employee Retirement Income Security Act 1974 (88 Stat. 929 and 992)]

Par. 8. Section 1.407–1 is amended by revising paragraphs (b)(2), (c)(1) and (d) to read as follows:

§ 1.407–1 Treatment of certain employees of domestic subsidiaries engaged in business outside the United States as employees of the domestic parent corporation.

* * * * *

(b) *Application of this section.* * * *

(2) *Supplementary rules.* Paragraph (b)(1)(i) of this paragraph does not modify the requirements for qualification of a plan described in section 401(a), 403(a), or 405(a) and the regulations thereunder. It is not necessary that the plan provide benefits or contributions for all United States citizens who are employees of such domestic subsidiaries. If the plan is amended to cover individuals who are employees by reason of paragraph (a)(1) of this section, the plan will not qualify unless it meets the coverage requirements of section 410(b)(1) and the nondiscrimination requirements of section 401(a)(4). In addition, the administrative rules contained in § 1.401(a)–3(e) (relating to the determination of the contributions or benefits provided by the employer under the Social Security Act) will also apply for purposes of determining whether the plan meets the requirements of section 401. For purposes of paragraph (b)(1)(ii) of this section, contributions will not be considered as provided under a funded plan merely because the domestic subsidiary employer pays the tax imposed by section 3111 (relating to tax on employers under the Federal Insurance Contributions Act) with respect to such employee or is required under the laws of a foreign jurisdiction to pay social insurance taxes or to make similar payments with respect to the wages paid to the empolyee.

* * * * *

(c) *Special rules*—(1) *Nondiscrimination requirements.* For purposes of applying sections 401(a)(4) and 410(b)(1)(B) and the regulations thereunder (relating to nondiscrimination concerning benefits and contributions and coverage of employees) with respect to an employee of the domestic subsidiary who is treated as an employee of the domestic parent corporation under paragraph (a)(1) of this section—

* * * * *

(d) *Termination of status as deemed employee not to be treated as separation from service for purposes of capital gain provisions and limitation of tax.* For purposes of applying section 402(a)(2) and (e), and section 403(a)(2) (relating to capital gains treatment for certain distributions which are made after an employee's separation from service) with respect to an employee of a domestic subsidiary who is treated as an employee of a domestic parent corporation under paragraph (a)(1) of this section, the employee shall not be considered as separated from the service of the domestic parent corporation solely by reason of the occurrence of any one or more of the following events:

* * * * *

Par. 9. The following new sections are added immediately after § 1.409–1:

§ 1.411(a) Statutory provisions; minimum vesting standards; general rule.

Sec. 411. *Minimum vesting standards.* (a) *General rule.* A trust shall not constitute a qualified trust under section 401(a) unless the plan of which such trust is a part provides that an employee's right to his normal retirement benefit is nonforfeitable upon the attainment of normal retirement age (as defined in subsection (a)(8)) and in addition satisfies the requirements of paragraphs (1) and (2) of this subsection and the requirements of paragraph (2) of subsection (b), and in the case of a defined benefit plan, also satisfies the requirements of paragraph (1) of subsection (b).

(1) *Employee contributions.* A plan satisfies the requirements of this paragraph if an employee's rights in his accrued benefit derived from his own contributions are nonforfeitable.

(2) *Employer contributions.* A plan satisfies the requirements of this paragraph if it satisfies the requirements of subparagraph (A), (B), or (C).

(A) *10-year vesting.* A plan satisfies the requirements of this subparagraph if an employee who has at least 10 years of service has a nonforfeitable right to 100 percent of his accrued benefit derived from employer contributions.

(B) *5- to 15-year vesting.* A plan satisfies the requirements of this subparagraph if an employee who has completed at least 5 years of service has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions which percentage is not less than the percentage determined under the following table:

Years of service:	Nonforfeitable percentage
5	25
6	30
7	35
8	40
9	45
10	50
11	60
12	70
13	80
14	90
15 or more	100

(C) *Rule of 45.* (i) A plan satisfies the requirements of this subparagraph if an employee who is not separated from the service, who has completed at least 5 years of service, and with respect to whom the sum of his age and years of service equals or exceeds 45, has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions determined under the following table:

If years of service equal or exceed—	And sum of age and service equals or exceeds—	Then the nonforfeitable percentage is—
5	45	50
6	47	60
7	49	70
8	51	80
9	53	90
10	55	100

(ii) Notwithstanding clause (i), a plan shall not be treated as satisfying the requirements of this subparagraph unless any employee who has completed at least 10 years of service has a nonforfeitable right to not less than 50 percent of his accrued benefit derived from employer contributions and to not less than an additional 10 percent for each additional year of service thereafter.

(3) *Certain permitted forfeitures, suspensions, etc.* For purposes of this subsection—

(A) *Forfeiture on account of death.* A right to an accrued benefit derived from employer contributions shall not be treated as forfeitable solely because the plan provides that it is not payable if the participant dies (except in the case of a survivor annuity which is payable as provided in section 401(a)(11)).

(B) *Suspension of benefits upon reemployment of retiree.* A right to an accrued benefit derived from employer contributions shall not be treated as forfeitable solely because the plan provides that the payment of benefits is suspended for such period as the employee is employed, subsequent to the commencement of payment of such benefits—

(i) In the case of a plan other than a multiemployer plan, by the employer who maintains the plan under which such benefits were being paid; and

(ii) In the case of a multiemployer plan, in the same industry, the same trade or craft, and the same geographic area covered by the plan as when such benefits commenced.

The Secretary of Labor shall prescribe such regulations as may be necessary to carry out the purposes of this subparagraph, including regulations with respect to the meaning of the term "employed".

(C) *Effect of retroactive plan amendments.* A right to an accrued benefit derived from employer contributions shall not be treated as forfeitable solely because plan amendments may be given retroactive application as provided in section 412(c)(8).

(D) *Withdrawal of mandatory contribution.* (i) A right to an accrued benefit derived from employer contributions shall not be treated as forfeitable solely because the plan provides that, in the case of a participant who does not have a nonforfeitable right to at least 50 percent of his accrued benefit derived from employer contributions, such accrued benefit may be forfeited on account of the withdrawal by the participant of any amount attributable to the benefit derived from mandatory contributions (as defined in subsection (c)(2)(C)) made by such participant.

(ii) Clause (i) shall not apply to a plan unless the plan provides that any accrued benefit forfeited under a plan provision described in such clause shall be restored upon repayment by the participant of the full amount of the withdrawal described in such clause plus, in the case of a defined benefit plan, interest. Such interest shall be computed on such amount at the rate determined for purposes of subsection (c)(2)(C) on the date of such repayment (computed annually from the date of such withdrawal). In the case of a defined contribution plan, the plan provison required under this clause may provide that such repayment must be made before the participant has any one-year break in service commencing after the withdrawal.

(iii) In the case of accrued benefits derived from employer contributions which accrued before the date of the enactment of the Employee Retirement Income Security Act of 1974, a right to such accrued benefit derived from employer contributions shall not be treated as forfeitable solely because the plan provides that an amount of such accrued benefit may be forfeited on account of the withdrawal by the participant of an amount attributable to the benefit derived from mandatory contributions (as defined in subsection (c)(2)(C)) made by such participant before the date of the enactment of the Act if such amount forfeited is proportional to such amount withdrawn. This clause shall not apply to any plan to which any mandatory contribution is made after the date of

V 40 I 214 NOV 5 75 XUM

the enactment of such Act. The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this clause.

(iv) For purposes of this subparagraph, in the case of any class-year plan, a withdrawal of employee contributions shall be treated as a withdrawal of such contributions on a plan year by plan year basis in succeeding order of time.

(v) For nonforfeitability where the employee has a nonforfeitable right to at least 50 percent of his accrued benefit, see section 401(a)(19).

(4) *Service included in determination of nonforfeitable percentage.* In computing the period of service under the plan for purposes of determining the nonforfeitable percentage under paragraph (2), all of an employee's years of service with the employer or employers maintaining the plan shall be taken into account, except that the following may be disregarded:

(A) Years of service before age 22, except that in the case of a plan which does not satisfy subparagraph (A) or (B) of paragraph (2), the plan may not disregard any such year of service during which the employee was a participant;

(B) Years of service during a period for which the employee declined to contribute to a plan requiring employee contributions;

(C) Years of service with an employer during any period for which the employer did not maintain the plan or a predecessor plan (as defined under regulations prescribed by the Secretary or his delegate);

(D) Service not required to be taken into account under paragraph (6);

(E) Years of service before January 1, 1971, unless the employee has had at least 3 years of service after December 31, 1970; and

(F) Years of service before the first plan year to which this section applies, if such service would have been disregarded under the rules of the plan with regard to breaks in service as in effect on the applicable date.

(5) *Year of service*—(A) *General rule.* For purposes of this subsection, except as provided in subparagraph (C), the term "year of service" means a calendar year, plan year, or other 12-consecutive month period designated by the plan (and not prohibited under regulations prescribed by the Secretary of Labor) during which the participant has completed 1,000 hours of service.

(B) *Hours of service.* For purposes of this subsection, the term "hours of service" has the meaning provided by section 410(a)(3)(C).

(C) *Seasonal industries.* In the case of any seasonal industry where the customary period of employment is less than 1,000 hours during a calendar year, the term "year of service" shall be such period as may be determined under regulations prescribed by the Secretary of Labor.

(D) *Maritime industries.* For purposes of this subsection, in the case of any maritime industry, 125 days of service shall be treated as 1,000 hours of service. The Secretary of Labor may prescribe regulations to carry out the purposes of this subparagraph.

(6) *Breaks in service*—(A) *Definition of 1-year break in service.* For purposes of this paragraph, the term "1-year break in service" means a calendar year, plan year, or other 12-consecutive-month period designated by the plan (and not prohibited under regulations prescribed by the Secretary of Labor) during which the participant has not completed more than 500 hours of service.

(B) *1 year of service after 1-year break in service.* For purposes of paragraph (4), in the case of any employee who has any 1-year break in service, years of service before such break shall not be required to be taken into account until he has completed a year of service after his return.

(C) *1-year break in service under defined contribution plan.* For purposes of paragraph (4), in the case of any participant in a defined contribution plan, or an insured defined benefit plan which satisfies the requirements of subsection (b)(1)(F), who has any 1-year break in service, years of service after such break shall not be required to be taken into account for purposes of determining the nonforfeitable percentage of his accrued benefit derived from employer contributions which accrued before such break.

(D) *Nonvested participants.* For purposes of paragraph (4), in the case of a participant who, under the plan, does not have any nonforfeitable right to an accrued benefit derived from employer contributions, years of service before any 1-year break in service shall not be required to be taken into account if the number of consecutive 1-year breaks in service equals or exceeds the aggregate number of such years of service prior to such break. Such aggregate number of years of service before such break shall be deemed not to include any years of service not required to be taken into account under this subparagraph by reason of any prior break in service.

(7) *Accrued benefit*—(A) *In general.* For purposes of this section, the term "accrued benefit" means—

(i) In the case of a defined benefit plan, the employee's accrued benefit determined under the plan and, except as provided in subsection (c)(3), expressed in the form of an annual benefit commencing at normal retirement age, or

(ii) In the case of a plan which is not a defined benefit plan, the balance of the employee's account.

(B) *Effect of certain distributions.* Notwithstanding paragraph (4), for purposes of determining the employee's accrued benefit under the plan, the plan may disregard service performed by the employee with respect to which he has received—

(i) A distribution of the present value of his entire nonforfeitable benefit if such distribution was in an amount (not more than $1,750) permitted under regulations prescribed by the Secretary or his delegate, or

(ii) A distribution of the present value of his nonforfeitable benefit attributable to such service which he elected to receive.

Clause (i) of this subparagraph shall apply only if such distribution was made on termination of the employee's participation in the plan. Clause (ii) of this subparagraph shall apply only if such distribution was made on termination of the employee's participation in the plan or under such other circumstances as may be provided under regulations prescribed by the Secretary or his delegate.

(C) *Repayment of subparagraph (B) distributions.* For purposes of determining the employee's accrued benefit under a plan, the plan may not disregard service as provided in subparagraph (B) unless the plan provides an opportunity for the participant to repay the full amount of the distribution described in such subparagraph (B) with, in the case of a defined benefit plan, interest at the rate determined for purposes of subsection (c)(2)(C) and provides that upon such repayment the employee's accrued benefit shall be recomputed by taking into account service so disregarded. This subparagraph shall apply only in the case of a participant who—

(i) Received such a distribution in any plan year to which this section applies, which distribution was less than the present value of his accrued benefit,

(ii) Resumes employment covered under the plan, and

(iii) Repays the full amount of such distribution with, in the case of a defined benefit plan, interest at the rate determined for purposes of subsection (c)(2)(C).

In the case of a defined contribution plan, the plan provision required under this subparagraph may provide that such repayment must be made before the participant has any one-year break in service commencing after such withdrawal.

(8) *Normal retirement age.* For purposes of this section, the term "normal retirement age" means the earlier of—

(A) The time a plan participant attains normal retirement age under the plan, or

(B) The later of—

(i) The time a plan participant attains age 65, or

(ii) The 10th anniversary of the time a plan participant commenced participation in the plan.

(9) *Normal retirement benefit.* For purposes of this section, the term "normal retirement benefit" means the greater of the early retirement benefit under the plan, or the benefit under the plan commencing at normal retirement age. The normal retirement benefit shall be determined without regard to—

(A) Medical benefits, and

(B) Disability benefits not in excess of the qualified disability benefit.

For purposes of this paragraph, a qualified disability benefit is a disability benefit provided by a plan which does not exceed the benefit which would be provided for the participant if he separated from the service at normal retirement age. For purposes of this paragraph, the early retirement benefit under a plan shall be determined without regard to any benefits commencing before benefits payable under title II of the Social Security Act become payable which—

(i) Do not exceed such social security benefits, and

(ii) Terminate when such social security benefits commence.

(10) *Changes in vesting schedule*—(A) *General rule.* A plan amendment changing any vesting schedule under the plan shall be treated as not satisfying the requirements of paragraph (2) if the nonforfeitable percentage of the accrued benefit derived from employer contributions (determined as of the later of the date such amendment is adopted, or the date such amendment becomes effective) of any employee who is a participant in the plan is less than such nonforfeitable percentage computed under the plan without regard to such amendment.

(B) *Election of former schedule.* A plan amendment changing any vesting schedule under the plan shall be treated as not satisfying the requirements of paragraph (2) unless each participant having not less than 5 years of service is permitted to elect, within a reasonable period after the adoption of such amendment, to have his nonforfeitable percentage computed under the plan without regard to such amendment.

[Section 411(a) added by sec. 1012(a), Employee Retirement Income Security Act 1974 (88 Stat. 901)]

§ 1.411(a)–1 Minimum vesting standards; general rules.

(a) *In general.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless—

(1) The plan provides that an employee's right to his normal retirement benefit (see § 1.411(a)–7(c)) is nonforfeitable (see § 1.411(a)–4) upon and after the attainment of normal retirement age (see § 1.411(a)–7(b)),

(2) The plan provides that an employee's rights in his accrued benefit derived from his own contributions (see § 1.411(c)–1) are nonforfeitable at all times, and

(3) The plan satisfies the requirements of—

(A) Section 411(a)(2) and § 1.411(a)–3 (relating to vesting in accrued benefit derived from employer contributions), and

(B) In the case of a defined benefit plan, section 411(b)(1) and § 1.411(b)–1 (relating to accrued benefit).

(b) *Organization of regulations relating to minimum vesting standards*—(1) *General rules.* This section prescribes general rules relating to the minimum vesting standards provided by section 411.

(2) *Effective dates.* Section 1.411(a)–2 provides rules under section 1017 of the Employee Retirement Income Security Act of 1974 relating to effective dates under section 411.

(3) *Employer contributions.* Section 1.411(a)–3 provides rules under section 411(a)(2) relating to vesting in employer-derived accrued benefits.

(4) *Certain forfeitures.* Section 1.411(a)–4 provides rules under section 411(a)(3) relating to certain permitted forfeitures, suspensions, etc. under qualified plans.

(5) *Nonforfeitable percentage.* Section 1.411(a)–5 provides rules under section 411(a)(4) relating to service included in the determination of an employee's nonforfeitable percentage under section 411(a)(2) and § 1.411(a)–3.

(6) *Years of service; break in service.* Section 1.411(a)–6 provides rules under section 411(a)(5) and (6) of the Internal Revenue Code of 1954 relating to years of service and breaks in service. Rules prescribed by the Secretary of Labor, relating to years of service and breaks in service under part 2 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 are provided under 29 CFR Part 2530 (Department of Labor regulations relating to minimum standard for employee pension benefit plans).

(7) *Definitions and special rules.* Section 1.411(a)–7 provides definitions and special rules under section 411(a)(7), (8), and (9), for purposes of section 411 and the regulations thereunder.

(8) *Changes in vesting schedule.* Section 1.411(a)–8 provides rules under section 411(a)(10) relating to changes in the vesting schedule of a plan.

(9) *Breaks in service.* Section 1.411(a)–9 provides special rules relating to breaks in service.

(10) *Accrued benefits.* See § 1.411(b)–1 for rules under section 411(b) relating to accrued benefit requirements under defined benefit plans.

(11) *Allocation of accrued benefits.* See § 1.411(c)–1 for rules under section 411(c) relating to allocation of accrued benefits between employer and employee contributions.

(12) *Discrimination, etc.* See § 1.411(d)–1 for rules relating to the coordination of section 411 with section 401(a)(4) (relating to discrimination) and other rules under section 411(d).

(c) *Application of standards to certain plans*—(1) *General rule.* Except as provided in subparagraph (2) of this paragraph, section 411 does not apply to—

(i) A governmental plan (within the meaning of section 414(d) and the regulations thereunder),

(ii) A church plan (within the meaning of section 414(e) and the regulations thereunder) which has not made the election provided by section 410(d) and the regulations thereunder,

(iii) A plan which has not provided for employer contributions at any time after September 2, 1974, and

(iv) A plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

(2) *Vesting requirements.* A plan described in subparagraph (1) of this paragraph shall, for purposes of section 401(a), be treated as meeting the requirements of section 411 if such plan meets the vesting requirements resulting from the application of section 401(a)(4) and section 401(a)(7) as in effect on September 1, 1974.

§ 1.411(a)–2 Effective dates.

(a) *Plan not in existence on January 1, 1974.* Under section 1017(a) of the Employee Retirement Income Security Act of 1974, in the case of a plan which was not in existence on January 1, 1974, section 411 and the regulations thereunder apply for plan years beginning after September 2, 1974. See paragraph (c) of this section for time plan is considered in existence.

(b) *Plans in existence on January 1, 1974.* Under section 1017(b) of the Employee Retirement Income Security Act of 1974, in the case of a plan which was in existence on January 1, 1974, section 411 and the regulations thereunder apply for plan years beginning after December 31, 1975. See paragraph (c) of this section for time plan is considered to be in existence.

(c) *Time of plan existence*—(1) *General rule.* For purposes of this section, a plan is considered to be in existence on a particular day if—

(i) The plan on or before that day was reduced to writing and adopted by the employer (including, in the case of a corporate employer, formal approval by the employer's board of directors and, if required, shareholders), even though no amounts had been contributed under the plan as of such day, and

(ii) The plan was not terminated on or before that day.

For example, if a plan was adopted on January 2, 1974, effective as of January 1, 1974, the plan is not considered to have been in existence on January 1, 1974, because it was not both adopted and in writing on January 1, 1974.

(2) *Collectively-bargained plan.* Notwithstanding paragraph (c)(1) of this section, a plan described in section 413(a), relating to a plan maintained pursuant to a collective-bargaining agreement, is considered to be in existence on a particular day if—

(i) On or before that day there is a legally enforceable agreement to establish such a plan signed by the employer, and

(ii) The employer contributions to be made to the plan are set forth in the agreement.

(3) *Special rule.* If a plan is considered to be in existence under subparagraph (1) of this paragraph, any other plan with which such existing plan is merged or consolidated shall also be considered to be in existence on such date.

(d) *Existing plans under collective bargaining agreements.* For a special effective date rule for certain plans maintained pursuant to a collective bargaining agreement, see section 1017(c)(1) of the Employee Retirement Income Security Act of 1974 (88 Stat. 932).

(e) *Certain existing plans may elect new provisions.* The plan administrator may elect to have the provisions of the Code relating to participation, vesting, funding, and form of benefit apply to a selected plan year. See § 1.410(a)–2(d) for rules relating to such an election.

§ 1.411(a)–3 Vesting in employer-derived benefits.

(a) *In general*—(1) *Alternative requirements.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan satisfies the requirements of section 411(a)(2) and this section. A plan satisfies the requirements of this section if it satisfies the requirements of paragraph (b), (c), or (d) of this section.

(2) *Composite arrangements.* A plan will not be considered to satisfy the requirements of paragraph (b), (c), or (d) of this section unless it satisfies all requirements of a particular one of such paragraphs with respect to all of an employee's years of service. A plan which, for example, satisfies the requirements of paragraph (b) (but not (c) or (d)) for an employee's first 9 years of service and satisfies the requirements of paragraph (c) (but not (b)) for all of his remaining years of service, does not satisfy the requirements of this section.

(3) *Plan amendments.* A plan which satifies the requirements of a particular one of such paragraphs for each of an employee's years of service and which is amended so that, as amended, it satisfies the requirements of another such paragraph for all such years of service, satisfies the requirements of this section even though, as amended, it does not satisfy the requirements of the paragraph which were satisfied prior to the amendment. See § 1.411(a)–8 for rules relating to employee election where the vesting schedule is amended.

(b) *10-year vesting.* A plan satisfies the requirements of section 411(a)(2)(A) and this paragraph if an employee

V 40 214
NOV 5 75
XUM

who has completed 10 years of service thas a nonforfeitable right to 100 percent of his accrued benefit derived from employer contributions.

(c) *5- to 15-year vesting.* A plan satisfies the requirements of section 411(a)(2)(B) and this paragraph if an employee who has completed at least 5 years of service has a nonforfeitable right to a percentage of his accrued benefit derived from employer contribution which percentage is not less than the nonforeitable percentage determined under the following table:

Completed years of service	Nonforfeitable percentage
5	25
6	30
7	35
8	40
9	45
10	50
11	60
12	70
13	80
14	90
15 or more	100

(d) *Rule of 45.* A plan satisfies the requirements of section 411(a)(2)(C) and this paragraph if an employee is entitled to the greater of the two percentages determined under paragraph (d)(1) or (2) of this section.

(1) *Age and service test.* An employee who is not separated from the service, who has completed at least 5 years of service, and with respect to whom the sum of his age and years of service equals or exceeds 45, has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions which is not less than the nonforfeitable percentage corresponding to his number of completed years of service or to the sum of his age and completed years of service (whichever percentage is the lesser) determined under the following table:

Completed years of service	Sum of age and service	Nonforfeitable percentage
5	45 or 46	50
6	47 or 48	60
7	49 or 50	70
8	51 or 52	80
9	53 or 54	90
10 or more	55 or more	100

(2) *Service test.* An employee who has completed at least 10 years of service has a nonforfeitable right to a percentage of his accrued benefit derived from employer contributions determined under the following table:

Completed years of service	Nonforfeitable percentage
10	50
11	60
12	70
13	80
14	90
15	100

(3) *Computation of age.* For purposes of subparagraph (1) of this paragraph, the age of an employee is his age on his last birthday.

(e) *Examples.* The rules provided by this section are illustrated by the following examples:

Example (1). Plan B provides that each employee's rights to his employer-derived accrued benefit are nonforfeitable as follows:

Completed years of service	Nonforfeitable percentage
2 or less	0
3	30
4	35
5	40
6	45
7	50
8	55
9	60
10	65
11	70
12	75
13	80
14	85
15	100

Plan B does not satisfy the requirements of paragraph (c) of this section (relating to 5–15-year vesting) because the nonforfeitable percentage provided by the plan after completion of 14 years of service (85 percent) is less than the percentage required by paragraph (c) of this section at that time (90 percent). The fact that the nonforfeitable percentage provided by the plan for years prior to the 13th year of service is greater than the percentage required under paragraph (c) of this section is immaterial. The plan fails to satisfy the requirements of paragraph (c) of this section even if it is demonstrated that the value of the vesting provided by the plan to the employee is at least equal to the value of the vesting rate required by that paragraph.

Example (2). Plan C provides for plan participation after the completion of 1 year of service. The plan provides that each employee's rights to his employer-derived accrued benefit are 100 percent nonforfeitable after 10 years of plan participation rather than service. The plan does not satisfy the requirements of paragraph (b) of this section because, under the plan, an employee obtains a 100 percent nonforfeitable right to his employer-derived accrued benefit only after completion of more than 10 years of service.

Example (3). Plan D provides that each employee's rights to his employer-derived accrued benefit are nonforfeitable in accordance with the following schedule:

Completed years of service	Nonforfeitable percentage
0–9	0
10	50
11	60
12	70
13	80
14	90
15	100

The plan does not satisfy the requirements of paragraph (b) of this section after the 9th year of service. It does not satisfy the requirements of paragraph (c) of this section for years prior to the 10th year of service. It does not satisfy the requirements of paragraph (d)(1) of this section for any year of service prior to the 10th year. The plan does not satisfy the requirements of this section because it does not satisfy the requirements of a particular one of the three paragraphs for each of an employee's years of service.

Example (4). Plan G provides that each employee's rights to his employer-derived accrued benefit are 100 percent nonforfeitable upon completion of 5 years of service. The plan satisfies the requirements of paragraphs (b), (c), and (d) of this section and, because it satisfies the requirements of at least one of such paragraphs for all of an employee's years of service, it satisfies the requirements of this section.

§ 1.411(a)–4 Forfeitures, suspensions, etc.

(a) *Nonforfeitability.* Certain rights in an accrued benefit must be nonforfeitable to satisfy the requirements of section 411(a). This section defines the term "nonforfeitable" for purposes of these requirements. For purposes of section 411 and the regulations thereunder, a right to an accrued benefit is considered to be nonforfeitable at a particular time if, at that time and thereafter, it is an unconditional right. Except as provided by paragraph (b) of this section, a right which, at a particular time, is conditioned upon a subsequent event, subsequent performance, or subsequent forbearance, is a forfeitable right at that time. Certain adjustments to plan benefits such as adjustments in excess of reasonable actuarial reductions, can result in rights being forfeitable. Rights which are conditioned upon a sufficiency of plan assets in the event of a termination or partial termination are not considered to be forfeitable. To the extent that rights are not required to be nonforfeitable to satisfy the minimum vesting standards, or the nondiscrimination requirements of section 401(a)(4), they may be forfeited without regard to the limitations on forfeitability required by this section.

(b) *Special rules.* For purposes of paragraph (a) of this section, a right is not treated as forfeitable—

(1) *Death.* In the case of a participant's right to his employer-derived accrued benefit, merely because such accrued benefit is forfeitable by the participant to the extent it has not been paid or distributed to him prior to his death. This subparagraph shall not apply to a benefit which must be paid to a survivor in order to satisfy the requirements of section 401(a)(11).

(2) *Suspension of benefits upon reemployment of retiree.* In the case of certain suspensions of benefits under section 411(a)(3)(B), see regulations prescribed by the Secretary of Labor under 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

(3) *Retroactive plan amendment.* In the case of a participant's right to his employer-derived accrued benefit, merely because such benefit is subject to reduction to the extent provided by a plan amendment described in section 412(c)(8) and the regulations thereunder, which amendment is given retroactive effect in accordance with such section.

(4) *Withdrawal of mandatory contribution.*

(i) *General rule.* In the case of a participant's right to his employer-derived accrued benefit, merely because all or a portion of such benefit may be forfeited on account of the withdrawal by the participant of any amount attributable to his accrued benefit derived from his mandatory contributions (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1) before he has become a 50 percent vested participant (within the meaning of § 1.401(a)–19(b)(2)).

(ii) *Restoration of benefit.* Subdivision (i) of this subparagraph shall not apply unless, at the time the amount described in such subdivision is withdrawn by the participant, the plan provides the employee with a right to restoration of his employer-derived accrued benefit to the extent forfeited in accordance with such subdivision upon repayment to the plan of the amount withdrawn by him plus, in the case of a defined benefit plan, interest on such amount. Such interest shall be computed at the rate determined for purposes of section 411(c)(2)(C) on the date of such repayment (compounded annually from the date of such withdrawal). In the case of a defined contribution plan, the plan shall not be considered to fail to satisfy the requirements of this subdivision merely because under the plan the restoration of employer-derived accrued benefits described in this subdivision is not provided unless the repayment described in this subdivision is made before the close of the vesting computation period within which the participant has a one-year break in service within the meaning of § 1.411(a)–6. A defined contribution plan or a defined benefit plan may require that such repayment be made within 2 years of the employee's resumption of employment covered by the plan.

(iii) *Computation of benefit.* In the case of a defined contribution plan, the employer-derived accrued benefit required to be restored by this subparagraph shall not be less than the amount in the account balance of the employee which was forfeited, unadjusted by any subsequent gains or losses.

(iv) *Delayed forfeiture.* A defined contribution plan may in lieu of the forfeiture and restoration described in this subparagraph provide that the forfeiture does not occur until the expiration of the time for repayment described in subdivision (ii) of this subparagraph provided that the conditions of this subparagraph are satisfied.

(5) *Certain benefits*—(i) *General rule.* In the case of a participant's right to the portion of the employer-derived benefit which accrued prior to September 2, 1974, merely because such portion may be forfeited on account of the withdrawal by the participant of an amount attributable to his benefit derived from mandatory contributions (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1(c)(4)) made by the participant before September 2, 1974, if the amount so subject to forfeiture is no more than proportional to such amounts withdrawn. This subparagraph shall not apply to any plan to which any mandatory contribution (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1(c)(4)) is made after September 2, 1974.

(ii) *Defined contribution plan.* In the case of a defined contribution plan, the portion of a participant's benefit which accrued prior to September 2, 1974, shall be determined on the basis of a separate accounting between benefits accruing before and after such date. Gains, losses, withdrawals, forfeitures, and other credits or charges must be separately allocated to such benefits. Any allocation made on a reasonable and consistent basis prior to [date of publication] shall satisfy the requirements of this subdivision.

(iii) *Defined benefit plan.* In the case of a defined benefit plan, the portion of a participant's benefit which accrued prior to September 2, 1974, shall be determined in a manner consistent with the determination of an accrued benefit under section 411(b)(1)(D), see § 1.411(b)–1(C). Any method of determining such accrued benefit which the Commissioner finds to be reasonable shall satisfy the requirements of this subdivision.

(6) *Class-year plans, etc.* For purposes of subparagraphs (4) and (5) of this paragraph, in the case of a class-year plan (within the meaning of section 411(d)(4) and § 1.411(d)–3, a withdrawal of employee contributions shall be treated as a withdrawal of such contributions on a plan year by plan year basis in succeeding order of time. For additional requirements relating to nonforfeitability of benefits in the event of a withdrawal by the employee, see section 401(a)(19) and § 1.401(a)–19.

(c) *Examples.* The rules of this section are illustrated by the following examples:

Example (1). Corporation A's plan provides that an employee is fully vested in his employer-derived accrued benefit after completion of 5 years of service. The plan also provides that, if an employee works for a competitor he forfeits his rights in the plan. Such provision could result in the forfeiture of an employee's rights which are required to be nonforfeitable under section 411 and therefore the plan would not satisfy the requirements of section 411. If the plan limited the forfeiture to employees who completed less than 10 years of service, the plan would not fail to satisfy the requirements of section 411 because the forfeitures under this provision are limited to rights which are in excess of the minimum required to be nonforfeitable under section 411(a)(2)(A).

Example (2). Plan B provides that if an employee does not apply for benefits within 5 years after the attainment of normal retirement age, the employee loses his plan benefits. Such a plan provision could result in forfeiture of an employee's rights which are required to be nonforfeitable under section 411 and, therefore, the plan would not satisfy the requirements of section 411.

§ 1.411(a)–5 Service included in determination of nonforfeitable percentage.

(a) *In general.* Under section 411(a)(4), for purposes of determining the nonforfeitable percentage of an employee's right to his employer-derived accrued benefit under section 411(a)(2) and § 1.411(a)–3, all of an employee's years of service with an employer or employers maintaining the plan shall be taken into account except that years of service described in paragraph (b) of this section may be disregarded.

(b) *Certain service.* For purposes of paragraph (a) of this section, the following years of service may be disregarded:

(1) *Service before age 22.* (i) In the case of a plan which satisfies the requirements of section 411(a)(2)(A) or (B) (relating to 10-year vesting and 5–15-year vesting, respectively), a year of service completed by an employee before he attains age 22.

(ii) In the case of a plan which does not satisfy the requirements of section 411(a)(2)(A) or (B), a year of service completed by an employee before he attains age 22 if the employee is not a participant (for purposes of section 410) in the plan at any time during such year.

(iii) For purposes of this subparagraph, service during a vesting computation period described in section 411(a)(5)(A) within which the employee attains age 22 may not be disregarded.

(2) *Contributory plans.* A year of service completed by an employee under a plan which requires mandatory contributions (within the meaning of section 411(c)(2)(C) and § 1.411(c)–1(c)(4)) to be made by the employee for such year, if the employee does not participate for such year solely because of his failure to make mandatory contributions to the plan.

(3) *Plan not maintained*—(i) *In general.* An employee's years of service with an employer during any period for which the employer did not maintain the plan or a predecessor plan may be disregarded for purposes of section 411(a)(2). Paragraph (b)(3) of this section provides rules regarding the period prior to the adoption of a plan. Paragraph (b)(3)(iii) of this section provides rules regarding the period after the termination of a plan. Paragraph (b)(3)(iv) of this section provides rules regarding employers who have certain relationships with other employers maintaining the plan.

(ii) *Period prior to adoption.* The period for which a plan is not maintained by an employer includes the period before the plan was established. For purposes of this subdivision, a plan is established on the first day of the plan year in which the plan is adopted even though the plan is adopted after such first day (or the first day of the plan year for which the plan is first effective taking into account any retroactive effective date allowed by section 401(b)). Except as provided in paragraph (b)(3)(iv) of this section if an employer adopts a plan which has previously been established by another employer or group of employers, the plan is not maintained by the adopting employer prior to the first day of the plan year in which the plan is adopted by the adopting employer. In the case of a transfer of assets or liabilities (including a merger or consolidation) involving two plans maintained by a single employer, the successor (or transferee) plan is treated as if it was established at the same time as the date of the establishment of the earliest component plan. In the case of a plan merger, consolidation, or transfer of plan assets or liabilities involving plans of two or more employers, the successor plan is treated as if it were established on each of the separate dates on which such component plan was established for the employees of each em-

V40 I214 NOV 5 75 XUM

ployer. Thus, for example, if employer A establishes a plan January 1, 1970, and employer B establishes a plan January 1, 1980, and the plans were subsequently merged, then the merged plan would be treated as if it were in existence on January 1, 1970, with respect to A's employees and as if it were in existence on January 1, 1980, with respect to B's employees.

(iii) *Period after termination or withdrawal.* The period for which a plan is not maintained by an employer includes the period after the plan is terminated. For purposes of this section, a plan is terminated at the date there is a termination of the plan within the meaning of section 411(d)(3)(A) and the regulations thereunder. Notwithstanding the preceding sentence, if contributions to or under a plan are made after termination, the plan is treated as being maintained until such contributions cease. In the case of a plan maintained by more than one employer, the period for which the plan is not maintained by the withdrawing employer includes the period after the withdrawal from the plan.

(iv) *Certain employers.* For purposes of this subparagraph—

(A) *Predecessor employers.* Service with a predecessor employer who maintained the plan of the current employer is treated as service with such current employer (see section 414(a)(1) and the regulations thereunder), and certain service with a predecessor employer who did not maintain the plan of the current employer is treated as service with the current employer (see section 414(a)(2) and the regulations thereunder).

(B) *Related employers.* Service with an employer is treated as service for certain related employers. These related employers include members of a controlled group of corporations (within the meaning of section 1563(a), determined without regard to subsections (a)(4) and (e)(3)(C) thereof) and trades or businesses (whether or not incorporated) which are under common control (see section 414 (b) and (c)).

(C) *Plan maintained by more than one employer.* Service with an employer who maintains a plan is treated as service for each other employer who maintains that plan (see section 413 (b)(4) and (c)(3) and 29 CFR Part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans).

(v) *Predecessor plan*—(A) *General rule.* In the case of an employe who was covered by a predecessor plan, the time the successor of such plan is maintained for such employee includes the time the predecessor plan was maintained if, as of the later of the time the predecessor plan is terminated or the successor plan is established, the employee's years of service under the predecessor plan are not equalled or exceeded by the aggregate number of consecutive 1-year breaks in service occurring after such years of service. Years of service and breaks in in service, without regard to whether the employee has nonforfeitable rights under the predecessor plan, are determined under section 411(a)(5) and (6) except that years between the termination date of the predecessor plan and the date of establishment of the successor plan do not count as years of service.

(B) *Definition of predecessor plan.* For purposes of this section, if—

(1) An employer establishes a retirement plan (within the meaning of section 7476(d)) qualified under subchapter D of chapter 1 of the Code within the 5-year period immediately preceding or following the date another such plan terminates, and

(2) The other plan is terminated during a plan year to which this section applies, the terminated plan is a predecessor plan with respect to such other plan.

(C) *Example.* The rules provided by this subparagraph are illustrated by the following example:

Example. (1) Employer X's qualified plan A terminated on January 1, 1977. Employer X established qualified plan B on January 1, 1981. Under paragraph (b)(3)(v)(B) of this section, plan A is a predecessor plan with respect to plan B because plan B is established within the 5-year period immediately following the date plan A terminated.

(2) Employee C was not covered by the A plan. Under the general rule in subdivision (v)(A) of this subparagraph, plan B is not maintained until January 1, 1981, with resect to Employee C.

(3) Employee D was covered by the A plan. On December 31, 1976, D had 4 years of service. D had 4 consecutive 1-year breaks in service because during the years between the termination of plan A and the establishment of plan B, he did not have more than 500 hours of service in any applicable computation period. Because D's consecutive 1-year breaks (4) equal his years of service prior to his breaks (4), plan B is not maintained until January 1, 1981, with respect to employee D.

(4) Employee E was covered by the A plan. On December 31, 1975, E had 6 years of service. E had a 1-year break in service in 1976. E also had 4 consecutive 1-year breaks in service for the period between plan A's termination and plan B's establishment. Because E's years of service (6) are not less than his consecutive 1-year breaks (5), plan B is maintained for E as of the establishment date of plan A.

(4) *Break in service.* A year of service which is not required to be taken into account by reason of a break in service (within the meaning of section 411(a)(6) and § 1.411(a)–6)).

(5) *Service before January 1, 1971.* A year of service completed by an employee prior to January 1, 1971, unless the employee completes at least 3 years of service at any time after December 31, 1970. For purposes of determining if an employee completes 3 years of service, whether or not consecutive, the exceptions of section 411(a)(4) are not applicable. For the meaning of the term "year of service", see regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(6) *Service before effective date.* A year of service completed before the first plan year for which this section applies to the plan, if such service would have been disregarded under the plan rules relating to breaks in service (whether or not such rules are so designated in the plan) as such rules were in effect from time to time under the plan. In general, rules which relate to required minimum hours or other length of service will be considered break in service rules. See § 1.411(a)-9 for requirements relating to certain amendments to the break in service rules of a plan.

(c) *Special continuity rule for certain plans.* For special rules for computing years of service in the case of a plan maintained by more than one employer, see § 210 of 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

§ 1.411(a)–6 Year of service; hour of service; breaks in service.

(a) *Year of service.* Under section 411(a)(5)(A), for purposes of the regulations thereunder, the term "year of service" is defined in regulations prescribed by the Secretary of Labor under section 203(b)(2)(A) of the Employee Retirement Income Security Act of 1974. For special rules applicable to seasonal industries and maritime industries, see regulations prescribed by the Secretary of Labor under subparagraphs (C) and (D) of section 203(b)(2) of the Employee Retirement Income Security Act of 1974.

(b) *Hours of service.* Under section 411(a)(5)(B), for purposes of the regulations thereunder, the term "hours of service" has the meaning provided by section 410(a)(3)(C). See regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(c) *Breaks in service.* Under section 411(a)(6), for purposes of § 1.411(a)–5(b)(4) and of this paragraph—

(1) *In general*—(i) *Year of service after 1-year break in service.* In the case of any employee who has incurred a 1-year break in service, years of service completed before such break are not required to be taken into account until the employee has completed one year of service after his return to service.

(ii) *Defined contribution plan*—(A) *General rule.* In the case of a participant in a defined contribution plan or in an insured defined benefit plan (which plan satisfies the requirements of section 411(b)(1)(F) and § 1.411(b)–1) who has incurred a 1-year break in service, years of service completed after such break are not required to be taken into account for purposes of determining the nonforfeitable percentage of the participant's right to employer-derived benefits which accrued before such break. This subdivision does not permit years of service completed before a 1-year break in service to be disregarded in determining the nonforfeitable percentage of a participant's right to employer-derived benefits which accrue after such break.

(B) *Special rule.* If a defined contribution plan makes a distribution to a participant at a time when the participant is less than 100 percent vested in his employer contributions and there is no break in service prior to the relevant time, the plan must provide that—

(*1*) A separate account is established for the participant's interest in the plan as of the time of the distribution, and

(2) That at any relevant time the participant's vested portion of the separate account is not less than an amount ("X") determined by the formula: $X=P(AB+(R\times D))-(R\times D)$. For purposes of applying the formula: P is the vested percentage at the relevant time; AB is the account balance at the relevant time; D is the amount of the distribution; and R is the ratio of the account balance at the relevant time to the account balance after distribution.

(C) *Example.* The rule of paragraph (c)(1)(ii)(B) of this section is illustrated by the following example:

Example. A receives a distribution of $250 from the X defined contribution plan when his account balance equals $1,000 and he is 25 percent vested. He does not incur a break in service. Six years later, when A is 60 percent vested, he incurs a break in service. At this time his separate account balance equals $1,500.

$$R=\frac{\$1,500}{\$750}\text{ or }2$$

A's separate account must equal 60 percent ($1,500+(2\times\$250))-(2\times\$250)$, or 60 percent ($1,500+$500)—$500, or $1,200—$500 equals $700.

(iii) *Nonvested participants.* In the case of an employee who is a nonvested participant in employer-derived benefits at the time he incurs a 1-year break in service, years of service completed by such participant before such break are not required to be taken into account for purposes of determining the nonforfeitable percentage of his right to employer-derived benefits if at such time the number of consecutive 1-year breaks in service included in his most recent break in service equals or exceeds the aggregate number of his years of service, whether or not consecutive, completed before such break. In computing the aggregate number of years of service prior to such break, years of service which could have been disregarded under this subdivision by reason of any prior break in service may be disregarded.

(2) *One-year break in service defined.* The term "1-year break in service" means a calendar year, plan year, or other 12-consecutive month period designated by a plan (and not prohibited under regulations prescribed by the Secretary of Labor) during which the participant has not completed more than 500 hours of service. See regulations prescribed by the Secretary of Labor under 29 CFR Part 2530, relating to minimum standards for employee pension benefit plans.

(d) *Examples.* The rules provides by this section are illustrated by the following examples:

Example (1). (i) X Corporation maintains a defined contribution plan to which section 411 applies. The plan uses the calendar year as the vesting computation period. In 1980, Employee A, who was hired at age 35, separates from the service of X Corporation after completing 4 years of service. At the time of his separation, Employee A had a nonforfeitable right to 25 percent of his employer-derived accrued benefit which was not distributed. In 1985, after incurring 5 consecutive one-year breaks in service, Employee A is re-employed by X Corporation and becomes an active participant in the plan. The plan provides that, for 1985 and all subsequent years, Employee A's previous years of service will not be taken into account for purposes of computing the nonforfeitable percentage of his employer-derived accrued benefit, solely because of his break in service.

(ii) The plan fails to satisfy section 411. Section 411(a)(6)(B) would permit the plan to disregard Employee A's prior service for purposes of computing his nonforfeitable percentage in 1985 only, but such service must be taken into account in subsequent years unless there is another break in service. Under section 411(a)(6)(C), the plan is not required to take Employee A's post-break service into account for purposes of computing his nonforfeitable right to his pre-break employer derived accrued benefits. This provision, however, would not permit the plan to disregard pre-break service in determining his nonforfeitable right to his benefit accrued after the break. The exception provided by section 411(a)(6)(D) does not apply in the case of a participant who has any nonforfeitable right to his accrued benefit derived from employer contributions.

Example (2). (i) X Corporation maintains a qualified plan to which sections 410 and 411 (relating to minimum participation standards and minimum vesting standards, respectively) apply. The plan permits participation upon completion of a year of service and provides that 100% of an employee's employer-derived accrued benefit vests after 10 years of service. The plan uses the calendar year as the vesting computation period. The plan provides that an employee who completes at least 1,000 hours of service in a 12-month period is credited with a year of service for participation and vesting purposes. The plan also provides that an employee who does not complete more than 500 hours of service in that 12-month period incurs a one-year break in service. The plan includes the rule described in section 411(a)(6)(D) for participation and vesting purposes. Under this rule, an employee's years of service prior to a break in service may be disregarded under certain circumstances if he has no vested right to any employer-derived benefit under the plan. The plan does not contain the rule described in section 411(a)(6)(B) (relating to the requirement of one year of service after a one-year break in service).

(ii) Employee A commences employment with the X Corporation on January 1, 1977. Employee A's employment history for 1977 through 1989 is as follows:

Year ending December 31:	*Hours of service completed*
1977	1,000
1978	800
1979	1,000
1980	400
1981	1,000
1982	0
1983	400
1984	1,000
1985	0
1986	0
1987	500
1988	200
1989	1,000

Employee A's status as a participant during this period is determined as follows:

1978: Employee A was a plan participant on January 1, 1978, because he completed a year of service (1,000 hours) in 1977. He did not complete a year of service in 1978 because he completed fewer than 1,000 hours in that year. Because he completed more than 500 hours of service in 1978, however, Employee A did not incur a one-year break in service that year.

1979: Employee A completes a year of service in 1979. Because he did not incur a one-year break in service in 1978, the plan may not disregard his 1977 service for purposes of determining his years of service as of January 1, 1979.

1980: Employee A incurs a one-year break in service in 1980.

1981: Because Employee A had completed 2 years of service prior to 1981 and had incurred one 1-year break in service prior to 1981, under section 411(a)(6)(D), the plan may not disregard his pre-1980 service in 1981. Employee A completes a year of service in 1981.

1982: Employee A incurs a one-year break in service in 1982.

1983: Employee A incurs a one-year break in service in 1983. As of the end of 1983, he has completed 3 years of service and has incurred 2 consecutive one-year breaks in service.

1984: Employee A completes a year of service in 1984. Under section 411(a)(6)(D), his pre-1982 service may not be disregarded in 1984 because, as of the beginning of 1984, his pre-1984 years of service (3) exceed his consecutive one-year breaks in service (2).

1985–1988: Employee A incurs 4 consecutive one-year breaks in service during the years 1985 through 1988.

1989: Empoyee A's pre-1989 service is disregarded in 1989 and all subsequent plan years because his years of service as of January 1, 1989, equal the number of consecutive one-year breaks he has incurred as of that date. Therefore, as of the beginning of 1989, Employee A is not a plan participant. Employee A completes a year of service in 1989. (Although section 411(a)(6)(D) does not prohibit the plan provision under which Employee A's pre-1989 service is disregarded, that section does not require such a provision in a qualified plan.)

§ 1.411(a)–7 Definitions and special rules.

(a) *Accrued benefit.* For purposes of section 411 and the regulations thereunder, the term "accrued benefit" means—

(1) *Defined benefit plan.* In the case of a defined benefit plan—

(i) If the plan provides an accrued benefit in the form of an annual benefit commencing at normal retirement age, such accrued benefit, or

(ii) If the plan does not provide an accrued benefit in the form described in subdivision (i) of this subparagraph, an annual benefit commencing at normal retirement age which is the actuarial equivalent (determined under section 411(c)(3) and § 1.411(c)–5) of the accrued benefit determined under the plan.

For purposes of this paragraph a subsidized early retirement benefit which is provided by a plan is not taken into account, except to the extent of determining the normal retirement benefit under the plan (see section 411(a)(9) and paragraph (c) of this section). The

V 40 214 NOV 5 75 XUM

accrued benefit includes any optional settlement at normal retirement age under actuarial assumptions no less favorable than those which would be applied if the employee were terminating his employment at normal retirement age. The accrued benefit does not include any subsidized value in a joint and survivor annuity to the extent that the annual benefit of the joint and survivor annuity does not exceed the annual benefit of a single life annuity.

(2) *Defined contribution plan.* In the case of a defined contribution plan, the balance of the employee's account held under the plan.

(b) *Normal retirement age*—(1) *General rule.* For purposes of section 411 and the regulations thereunder, the term "normal retirement age" means the earlier of—

(i) The time specified by a plan at which a plan participant attains normal retirement age, or

(ii) The later of—

(A) The time the plan participant attains age 65, or

(B) The 10th anniversary of the date the plan participant commences participation in the plan.

For purposes of subdivision (i) of this subparagraph, if an age is not specified by a plan as the normal retirement age, then the normal retirement age under the plan is the earliest age beyond which the participant's benefits under the plan are not greater solely on account of his age or service. For purposes of paragraph (b) (1) (ii) (B) of this section, participation commences on the first day of the first year in which the participant commenced his participation in the plan, except that years which may be disregarded under section 410(a) (5) (D) may be disregarded in determining when participation commenced.

(2) *Examples.* The provisions of this paragraph are illustrated by the following examples:

Example (1). Plan A defines normal retirement age as age 65. Under the plan, benefits payable to participants who retire at or after age 60 are not reduced on account of early retirement. For purposes of section 411 and the vesting regulations, normal retirement age under Plan A is age 65 (determined under subparagraph (1) (i) of this paragraph). This is true even if in operation all participants retire at age 60.

Example (2). Plan B does not specify any age as the normal retirement age. Under the plan, participants who have attained age 55 are entitled to benefits commencing upon retirement but the benefits of participants who retire before attaining age 70 are subject to reduction on account of early retirement. For purposes of section 411 and the vesting regulations the normal retirement age under plan B is the later of (i) age 65, or (ii) the 10th anniversary of the date a plan participant commences participation in the plan (assuming such date is prior to age 70).

Example (3). The facts are the same as in example (2). Employee X first became a participant in Plan B on January 1, 1980 at age 53. His participation continued until December 31, 1980, when he separated from the service with no vested benefits. After incurring 5 consecutive 1-year breaks in service, Employee X again becomes an employee and a plan participant on January 1, 1986, at age 59. For purposes of section 411, Employee X's normal retirement age under Plan B is age 69, the 10th anniversary of the date on which his year of plan participation commenced. His participation in 1980 may be disregarded under the last sentence of paragraph (b) (1) of this section.

(c) *Normal retirement benefit*—(1) *In general.* For purposes of section 411 and the regulations thereunder, the term "normal retirement benefit" means the periodic benefit under the plan commencing upon early retirement (if any) or at normal retirement age, whichever benefit is greater.

(2) *Periodic benefit.* For purposes of subparagraph (1) of this paragraph—

(i) In the case of a plan under which a benefit is payable as an annuity in the same form upon early retirement and at normal retirement age, the greater benefit is determined by comparing the amount of such annuity payments.

(ii) In the case of a plan under which an annuity benefit payable upon early retirement is not in th same form as an annuity benefit payable at normal retirement age, the greater benefit is determined by converting the annuity benefit payable upon early retirement age into the same form of annuity benefit as is payable at normal retirement age and by comparing the amount of the converted early retirement benefit payment with the amount of the normal retirement benefit payment.

(3) *Benefits included.* For purposes of this paragraph, the normal retirement benefit under a plan shall be determined without regard to medical benefits or disability benefits not in excess of the qualified disability benefit. For this purpose, a qualified disability benefit is a disability benefit which is not in excess of the amount of the benefit which would be payable to the participant if he separated from service at normal retirement age.

(4) *Determination of early retirement benefit.* For purposes of this paragraph, the early retirement benefit under a plan shall be determined without regard to any qualified plan benefits provided for a participant which commence before his benefits payable under title II of the Social Security Act become payable. For purposes of this subparagraph, qualified plan benefits are plan benefits which do not exceed such social security benefits and which terminate when the participant is eligible for such social security benefits.

(5) *Special limitation.* If a defined benefit plan bases its normal retirement benefits on employee compensation, the compensation which would have been paid for a full year of participation within the meaning of section 411(b)(3). If an employee works less than a full year of participation, the compensation used to determine benefits under the plan for such year of participation must be multiplied by the ratio of the number of hours for a complete year of participation to the number of hours worked in such year. A plan whose benefit formula is computed on a computation base which cannot decrease is not required to adjust employee compensation in the manner described in the previous sentence. Thus, for example, if a plan provided a benefit based on an employee's compensation for his highest five consecutive years, the plan would not have to so adjust compensation. However, if a plan provided a benefit based on an employee's compensation for the employee's last five years, or the five highest consecutive years out of the last 10 years, the compensation, must be so adjusted. For special rules for applying the limitations on proration of a year of participation for benefit accrual, see 29 CFR Part 2530.204.

(6) *Examples.* The provisions of this paragraph are illustrated by the following examples:

Example (1). Plan A provides for a benefit equal to 1% of high 5 years compensation for each year of service and a normal retirement age of 65. The plan also provides for a full unreduced accrued benefit without any actuarial reduction for any employee at age 55 with 30 years of service. Even though the actuarial value of the early retirement benefit could exceed the value of the benefit at the normal retirement age, the normal retirement benefit would not include the greater value of th early retirement benefit because actuarial subsidies are ignored.

Example (2). Plan B provides the following benefits: (1) at normal retirement age 65, $300/mo. for life and (2) at early retirement age 60, $400/mo. for life. The normal retirement benefit is $400/mo., the greater of the benefit payable at normal retirement age ($300) or early retirement ($400).

Example (3). Assume the same facts as example (2) except that the early retirement benefit of $400 is reduced to $300 upon attainment of age 65. If each employee's social security benefit at age 65 is not less than $100, the $100 would be considered to be a social security supplement and would therefore be ignored. Consequently, the normal retirement benefit would be $300.

Example (4). Plan C provides a benefit at normal retirement age equal to 1% per year of service, multiplied by the participant's compensation averaged over the 5 years immediately prior to retirement. An early retirement benefit is provided upon attainment of age 60 equal to the benefit accrued to date of early retirement reduced by 4 percent for each year by which the early retirement date precedes the normal retirement age of 65. Employee A was hired at age 30, participated immediately, and retired at age 65. Employe A's annual compensation was $50,000 between ages 55–60 and was reduced to $33,000 after age 60. The following table indicates the amount of annual benefit that would have been provided by the plan formula if the employee retired at or after after 60:

Age	Final average computated (1)	Percent accrued benefit (2)	Reduction (3)	Annual benefit (4)
60	$50,000	30	0.80	$12,000
61	46,600	31	.84	12,135
62	43,200	32	.88	12,165
63	39,800	33	.92	12,083
64	36,400	34	.96	11,881
65	33,000	35	1.00	11,550

NOTE.—Col. (1) times col. (2) times col. (3) equals col. (4).

The normal retirement benefit is the greater of the benefit payable at normal retirement age or the early retirement benefit. Employee A's normal retirement benefit is $12,165, the greatest annual benefit Employee A would be entitled to.

(d) *Certain cash-outs of accrued benefits*—

(1) *Involuntary cash-outs.* For purposes of determining an employee's right to an accrued benefit derived from employer contributions under a plan, the plan may disregard service performed by the employee with respect to which—

(i) The employe receives a distribution of the present value of his entire nonforfeitable benefit,

(ii) The portion of such distribution which is attributable to the present value of the employer-derived accrued benefit is not in excess of $1,750,

(iii) The distribution is made due to the termination of the employees' participation in the plan, and

(iv) The plan has a repayment provision which satisfies the requirements of paragraph (d) (4) of this section in effect at the time of the distribution.

A distribution shall be deemed to be made due to the termination of an employee's participation in the plan only if it is made within 1 year after such termination.

(2) *Voluntary cash-outs.* For purposes of determining an employee's accrued benefit derived from employer contributions under a plan, the plan may disregard service performed by the employee with respect to which—

(i) The employee receives a distribution of the present value of his nonforfeitable benefit attributable to such service,

(ii) The employee voluntarily elects to receive such distribution,

(iii) The distribution is made on termination of the employee's participation in the plan, and

(iv) The plan has a repayment provision in effect at the time of the distribution which satisfies the requirements of paragraph (d) (4) of this section.

A distribution shall be deemed to be made on termination of participation only if it is made within 1 year after such termination.

(3) *Disregard of service.* Service of an employee permitted to be disregarded under paragraph (d) (1) or (2) of this section is not required to be taken into account in computing the employee's accrued benefit under the plan. In the case of a distribution described in subparagraph (2) of this paragraph which is less than the present value of the employee's total nonforfeitable benefit immediately prior to the distribution, the accrued benefit not required to be taken into account is such accrued benefit multiplied by a fraction, the numerator of which is the amount of the distribution and the denominator of which is the present value of his total nonforfeitable benefit immediately prior to such distribution. However, such service may not by reason of this paragraph be disregarded for purposes of determining an employee's years of service under sections 410(a) (3) and 411(a) (4).

(4) *Plan repayment provision.* (i) A plan repayment provision satisfies the requirements of this subparagraph if, under the provision, the accrued benefit of an employee which is disregarded by a plan under paragraph (d) (1) or (2) of the section is restored upon repayment to the plan by the employee of the full amount of the distribution. A plan is not required to provide for such repayment unless the employee—

(A) Received a distribution which is in a plan year to which section 411 applies (see § 1.411(a)–2) which distribution is less than the present value of his accrued benefit, and

(B) Resumes employment covered under the plan.

For purposes of (d) (4) (i) (A), an employee receives a distribution which is less than the present value of his accrued benefit if any portion of such benefit is forfeitable at the time of such distribution.

(ii) In the case of a defined benefit plan (as defined in section 414(j)) the restoration of the employee's accrued benefit may be conditioned upon repayment of interest on the full amount of the distribution. Such interest shall be computed on the amount of distribution from the date of such distribution to the date of repayment, compounded annually from the date of distribution, at the rate determined under section 411(c) (2) (C) (see § 1.411(c)–3) in effect on the date of repayment. A plan may provide for repayment of interest which is less than the amount determined under the preceding sentence.

(iii) In the case of a defined contribution plan (as defined in section 414(i)) the plan repayment provision described in this subparagraph may provide that the employee must repay the full amount of his distribution before the close of the vesting computation period within which the participant has a one-year break in service within the meaning of § 1.411 (a)–6.

(iv) A defined benefit plan or a defined contribution plan may require that such repayment be made within 2 years of the employee's resumption of employment covered by the plan.

(v) In the case of a defined contribution plan, the employer-derived accrued benefit required to be restored by this subparagraph shall not be less than the amount in the account balance of the employee, both the amount distributed and the amount forfeited, unadjusted by any subsequent gains or losses. Thus, for example, if an employee received a distribution of $250 when he was 25 percent vested in an account balance of $1,000, upon repayment of $250 the account balance may not be less than $1,000 even if, because of plan losses, the account balance, if not distributed, would have been reduced to $500.

§ 1.411(a)–8 Changes in vesting schedule.

(a) *Requirement of prior schedule.* Under section 411(a) (10) (A), for plan years for which section 411 applies, a plan will be treated as not meeting the minimum vesting standards of section 411(a) (2) if the plan does not satisfy the requirements of this paragraph. If the vesting schedule of a plan is amended, then as of the date such amendment is adopted, the plan satisfies the requirements of this paragraph if, under the plan as amended, in the case of an employee who is a participant on—

(1) The date the amendment is adopted, or

(2) The date the amendment is effective, if later, the nonforfeitable percentage of such employee's right to his employer-derived accrued benefit (determined as of such date) is not less than his percentage computed under the plan without regard to such amendment.

(b) *Election of former schedule*—(1) *In general.* Under section 411(a) (10) (B), for plan years for which section 411 applies, if the vesting schedule of a plan is amended, the plan will not be treated as meeting the minimum vesting standards of section 411(a) (2) unless the plan as amended, provides that each participant whose nonforfeitable percentage of his accrued benefit derived from employer contributions is determined under such schedule, and who has completed at least 5 years of service with the employer, may elect, during the election period, to have the nonforfeitable percentage of his accrued benefit derived from employer contributions determined without regard to such amendment.

(2) *Election period.* For purposes of subparagraph (1) of this paragraph, the election period under the plan must begin no later than the date the plan amendment is adopted and end no earlier than the latest of the following dates:

(i) The date which is 60 days after the day the plan amendment is adopted,

(ii) The date which is 60 days effective the day the plan amendment becomes effective, or

(iii) The date which is 60 days after the day the participant is issued written notice of the employer or plan administrator.

V 40 I 214
NOV 5 75
XUM

(3) *Service requirement.* For purposes of subparagraph (1) of this paragraph, a participant shall be considered to have completed 5 years of service if such participant has completed 5 years of service (as computed under the plan for the purpose of determining such participant's nonforfeitable percentage under section 411(a)(2)) with the employer prior to the expiration of the election period described in subparagraph (2) of this paragraph.

(4) *Election only by participant.* The election described in subparagraph (1) of this paragraph is available only to an individual who is a participant in the plan at the time such election is made.

(5) *Election may be irrevocable.* A plan, as amended, shall not fail to meet the minimum vesting standards of section 411(a)(2) by reason of section 411(a)(10)(B) merely because such plan provides that the election described in subparagraph (1) of this paragraph is irrevocable.

§ 1.411(a)-9 Amendment of break in service rules; transitional period.

(a) *In general.* Under section 1017(f)(2) of the Employee Retirement Income Security Act of 1974, a plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if the rules of the plan relating to breaks in service are amended, and—

(1) Such amendment is effective after January 1, 1974, and before the effective date of section 411, and

(2) Under such amendment, the nonforfeitable percentage of any employee's right to his employer-derived accrued benefit is less than the lesser of the nonforfeitable percentage of such employee's right to such benefit—

(i) Under the break in service rules provided by section 411(a)(6) and § 1.411(a)-6(c), or

(ii) The greatest such percentage under the plan as in effect on or after January 1, 1974 (provided the break in service rules of the plan were not in violation of any law or rule of law on January 1, 1974).

(b) *Break in service rules.* For purposes of paragraph (a), the term "break in service rules" means the rules provided by a plan relating to circumstances under which a period of an employee's service or plan participation is disregarded, for purposes of determining the extent to which his rights to his accrued benefit under the plan are unconditional, if under such rules such service is disregarded by reason of the employee's failure to complete a required period of service within a specified period of time.

§ 1.411(b) Statutory provisions; accrued benefit requirements.

Sec. 411. *Minimum vesting standards.*

* * * * *

(b) *Accrued benefit requirements*—(1) *General rules*—(A) *3-percent method.* A defined benefit plan satisfies the requirements of this paragraph if the accrued benefit to which each participant is entitled upon his separation from the service is not less than—

(i) 3 percent of the normal retirement benefit to which he would be entitled if he commenced participation at the earliest possible entry age under the plan and served continuously until the earlier of age 65 or the normal retirement age specified under the plan, multiplied by

(ii) The number of years (not in excess of 33⅓) of his participation in the plan.

In the case of a plan providing retirement benefits based on compensation during any period, the normal retirement benefit to which a participant would be entitled shall be determined as if he continued to earn annually the average rate of compensation which he earned during consecutive years of service, not in excess of 10, for which his compensation was the highest. For purposes of this subparagraph, social security benefits and all other relevant factors used to compute benefits shall be treated as remaining constant as of the current year for all years after such current year.

(B) *133⅓ percent rule.* A defined benefit plan satisfies the requirements of this paragraph for a particular plan year if under the plan the accrued benefit payable at the normal retirement benefit and the normal retirement age is equal to the normal retirement benefit and the annual rate at which any individual who is or could be a participant can accrue the retirement benefits at normal retirement age under the plan for any later plan year is not more than 133⅓ percent of the annual rate at which he can accrue benefits for any plan year beginning on or after such particular plan year and before such later plan year. For purposes of this subparagraph:

(i) Any amendment to the plan which is in effect for the current year shall be treated as in effect for all other plan years;

(ii) Any change in an accrual rate which does not apply to any individual who is or could be a participant in the current year shall be disregarded;

(iii) The fact that benefits under the plan may be payable to certain employees before normal retirement age shall be disregarded; and

(iv) Social security benefits and all other relevant factors used to compute benefits shall be treated as remaining constant as of the current year for all years after the current year.

(C) *Fractional rule.* A defined benefit plan satisfies the requirements of this paragraph if the accrued benefit to which any participant is entitled upon his separation from the service is not less than a fraction of the annual benefit commencing at normal retirement age to which he would be entitled under the plan as in effect on the date of his separation if he continued to earn annually until normal retirement age the same rate of compensation upon which his normal retirement benefit would be computed under the plan, determined as if he had attained normal retirement age on the date on which any such determination is made (but taking into account no more than the 10 years of service immediately preceding his separation from service). Such fraction shall be a fraction, not exceeding 1, the numerator of which is the total number of his years of participation in the plan (as of the date of his separation from the service) and the denominator of which is the total number of years he would have participated in the plan if he separated from the service at the normal retirement age. For purposes of this subparagraph, social security benefits and all other relevant factors used to compute benefits shall be treated as remaining constant as of the current year for all years after such current year.

(D) *Accrual for service before effective date.* Subparagraphs (A), (B), and (C) shall not apply with respect to years of participation before the first plan year to which this section applies, but a defined benefit plan satisfies the requirements of this subparagraph with respect to such years of participation only if the accrued benefit of any participant with respect to such years of participation is not less than the greater of—

(i) His accrued benefit determined under the plan, as in effect from time to time prior to the date of the enactment of the Employee Retirement Income Security Act of 1974, or

(ii) An accrued benefit which is not less than one-half of the accrued benefit to which such participant would have been entitled if subparagraph (A), (B), or (C) applied with respect to such years of participation.

(E) *First two years of service.* Notwithstanding subparagraphs (A), (B), and (C) of this paragraph, a plan shall not be treated as not satisfying the requirements of this paragraph solely because the accrual of benefits under the plan does not become effective until the employee has two continuous years of service. For purposes of this subparagraph, the term "years of service" has the meaning provided by section 410(a)(3)(A).

(F) *Certain insured defined benefit plans.* Notwithstanding subparagraphs (A), (B), and (C), a defined benefit plan satisfies the requirements of this paragraph if such plan—

(i) Is funded exclusively by the purchase of insurance contracts, and

(ii) Satisfies the requirements of paragraphs (2) and (3) of section 412(i) (relating to certain insurance contract plans), but only if an employee's accrued benefit as of any applicable date is not less than the cash surrender value his insurance contracts would have on such applicable date if the requirements of paragraphs (4), (5), and (6) of section 412(f) were satisfied.

(G) *Accrued benefit may not decrease on account of increasing age or service.* Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if the participant's accrued benefit is reduced on account of any increase in his age or service. The preceding sentence shall not apply to benefits under the plan commencing before entitlements to benefits payable under title II of the Social Security Act which benefits under the plan—

(i) Do not exceed such social security benefits, and

(ii) Terminate when such social security benefits commence.

(2) *Separate accounting required in certain cases.* A plan satisfies the requirements of this paragraph if—

(A) In the case of a defined benefit plan, the plan requires separate accounting for the portion of each employee's accrued benefit derived from any voluntary employee contributions permitted under the plan; and

(B) In the case of any plan which is not a defined benefit plan, the plan requires separate accounting for each employee's accrued benefit.

(3) *Year of participation*—(A) *Definition.* For purposes of determining an employee's accrued benefit, the term "year of participation" means a period of service (beginning at the earliest date on which the employee is a participant in the plan and which is included in a period of service required to be taken into account under section 410(a)(5)) as determined under regulations prescribed by the Secretary of Labor which provide for the calculation of such period on any reasonable and consistent basis.

(B) *Less than full time service.* For purposes of this paragraph, except as provided in subparagraph (C), in the case of any employee whose customary employment is less than full time, the calculation of such employee's service on any basis which provides less than a ratable portion of the accrued benefit to which he would be entitled under the plan if his customary employment were full time shall not be treated as made on a reasonable and consistent basis.

(C) *Less than 1,000 hours of service during year.* For purposes of this paragraph, in the case of any employee whose service is less than 1,000 hours during any calendar year, plan year or other 12-consecutive month period designated by the plan (and not prohibited under regulations prescribed by the Secretary of Labor) the calculation of his period of service shall not be treated as not made on a reasonable and consistent basis solely because such service is not taken into account.

(D) *Seasonal industries.* In the case of any seasonal industry where the customary period of employment is less than 1,000 hours during a calendar year, the term "year of participation" shall be such period as determined under regulations prescribed by the Secretary of Labor.

(E) *Maritime industries.* For purposes of this subsection, in the case of any maritime industry, 125 days of service shall be treated as a year of participation. The Secretary of Labor may prescribe regulations to carry out the purposes of this subparagraph.

[Sec. 411(b) as added by sec. 1012(a), Employee Retirement Income Security Act of 1974 (88 Stat. 901)]

§ 1.411(b)-1 Accrued benefit requirements.

(a) *Accrued benefit requirements*—(1) *In general.* Under section 411(b), for plan years beginning after the applicable effective date of section 411, rules are provided for the determination of the accrued benefit to which a participant is entitled under a plan. Under a defined contribution plan, a participant's accrued benefit is the balance to the credit of the participant's account. Under a defined benefit plan, a participant's accrued benefit is his accrued benefit determined under the plan. A defined benefit plan is not a qualified plan unless the method provided by the plan for determining accrued benefits satisfies at least one of the alternative methods (described in paragraph (b) of this section) for determining accrued benefits with respect to all active participants under the plan. In addition, a defined benefit plan (without regard to any combining of plans of an employer) must provide only one method for the computation of accrued benefits. A defined benefit plan does not satisfy the requirements of section 411(b) and this section merely because the accrued benefit is defined as the "reserve under the plan". Special rules are provided for the first two years of service by a participant, certain insured defined benefit plans, and certain reductions in accrued benefits due to increasing age or service. In addition, a special rule is provided with respect to accruals for service before the effective date of section 411.

(2) *Cross references*—

(i) *3 percent method.* For rules relating to the 3 percent method of determining accrued benefits, see paragraph (b)(1) of this section.

(ii) *133⅓ percent method.* For rules relating to the 133⅓ percent method of determining accrued benefits, see paragraph (b)(2) of this section.

(iii) *Fractional method.* For rules relating to the fractional method of determining accrued benefits, see paragraph (b)(3) of this section.

(iv) *Accruals before effective date.* For rules relating to accruals for service before the effective date of section 411, see paragraph (c) of this section.

(v) *First 2 years of service.* For special rules relating to determination of accrued benefit for first 2 continuous years of service, see paragraph (d)(1) of this section.

(vi) *Certain insured plans.* For special rules relating to determination of accrued benefit under a defined benefit plan funded exclusively by insurance contracts, see paragraph (d)(2) of this section.

(vii) *Accruals decreased by increasing age or service.* For special rules relating to prohibition of decrease in accrued benefit on account of increasing age or service, see paragraph (d)(3) of this section.

(viii) *Separate accounting.* For rules relating to requirements for separate accounting, see paragraph (e) of this section.

(ix) *Year of participation.* For definition of "year of participation", see paragraph (f) of this section.

(b) *Defined benefit plans.* A defined benefit plan satisfies the requirements of section 411(b)(1) and this paragraph for a plan year to which section 411 and this section apply if it satisfies the requirements of subparagraph (1), (2), or (3) of this paragraph for such year.

(1) *3 percent method*—(i) *General rule.* A defined benefit plan satisfies the requirements of this paragraph for a plan year if, as of the close of the plan year, the accrued benefit to which each participant is entitled, computed as if the participant separated from the service as of the close of such plan year, is not less than 3 percent of the 3 percent method benefit, multiplied by the number of years (not in excess of 33⅓) of his participation in the plan including years after his normal retirement age. For purposes of this subparagraph, the "3 percent method benefit" is the normal retirement benefit to which the participant would be entitled if he commenced participation at the earliest possible entry age for any individual who is or could be a participant under the plan and if he served continuously until the earlier of age 65 or the normal retirement age under the plan.

(ii) *Special rules*—(A) *Compensation.* In the case of a plan providing a retirement benefit based upon compensation during any period, the normal retirement benefit to which a participant would be entitled is determined as if he continued to earn annually the average rate of compensation which he earned during consecutive years of service, not in excess of 10, for which his compensation was the highest. For purposes of this subdivision (A), the number of consecutive years of service used in computing average compensation shall be the number of years of service specified under the plan (not in excess of 10) for computing normal retirement benefits.

(B) *Social security, etc.* For purposes of this subparagraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(C) *Computation in certain cases.* In the case of any plan to which the provisions of section 411(b)(1)(D) and paragraph (c) of this section are applicable, for any plan year the accrued benefit of any participant shall not be less than the accrued benefit otherwise determined under this subparagraph, reduced by the excess of the accrued benefit determined under this subparagraph as of the first day of the first plan year to which section 411 applies over the accrued benefit determined under section 411(b)(1)(D) and paragraph (c) of this section and increased by the amount determined under paragraph (c)(2)(v) of this section.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples.

Example (1). The M Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 or $4 per month for each year of participation. As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. The plan provides for no limit on the number of years of credited service. A, age 40, is a participant in the M Corporation's plan.

A has completed 12 years of participation in the plan of the M Corporation as of the close of the plan year. Under subdivision (i) of this subparagraph, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit of $1,920 [40×(12×$4)]. Under paragraph (b)(1)(i) of this section, the plan does not satisfy the requirements of this subparagraph unless A has accrued an annual benefit of at least $691 [0.03×($1,920×12)] as of the close of the plan year. Under the M Corporation plan, A is entitled to an accrued benefit of $576 [(12×12)×$4] as of the close of the plan year. Thus, with respect to A, the accrued benefit provided under the M Corporation plan does not satisfy the requirements of this subparagraph.

Example (2). Assume the same facts as in example (1) except that the M Corporation's plan provides that only the first 30 years of participation are taken into account. Under subdivision (i) of this subparagraph, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age under the plan (25) and served continuously until normal retirement age (65) is an annual benefit of $1,440 [30×$48]. Under paragraph (b)(1)(i) of this section, the plan does not satisfy the requirements of this subparagraph unless A has accrued

V 40 NO 214 NOV 5 75 XUM

an annual benefit of at least $518 [0.03×($1,440×12)] as of the close of the plan year. Under the M Corporation plan, A is entitled to an accrued benefit of $576 [12×$48]. Thus, with respect to A, the accrued benefit provided under the M Corporation plan satisfies the requirements of this subparagraph.

Example (3). The N Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 50 percent of average compensation for the highest 3 consecutive years of compensation for an employee with 25 years of participation. A participant who separates from service before age 65 is entitled to 2 percent of average compensation for the highest 3 consecutive years of compensation for each year of participation not in excess of 25. The plan has no minimum age or service requirement for participation. The normal retirement age specified under the plan is age 65. On December 31, 1990, B, age 40, is a participant in the N Corporation's plan. B began employment with the N Corporation and became a participant in the N Corporation's plan on January 1, 1980. Under this subparagraph, the normal retirement benefit to which a particpant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is 50 percent of average compensation for the highest 3 consecutive years of compensation per year commencing at age 65. Under this subparagraph, B must have accrued an annual benefit of at least 16.5 percent of his highest 3 consecutive years of compensation per year commencing at age 65 [0.03×50 percent of average compensation for the highest 3 consecutive years of compensation × 11] as of the close of the plan year. Under the N Corporation plan, B has accrued an annual benefit of 22 percent of average compensation for his highest 3 consecutive years of compensation per year commencing at age 65. Thus, with respect to B, the accrued benefit under the N Corporation plan satisfies the requirements of this subparagraph.

Example (4). The P Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 50 percent of average compensation for the 3 consecutive years of compensation from the P Corporation next preceding normal retirement age. The plan has no minimum age or service requirement for participation. The normal retirement age under the plan is age 65. On December 31, 1990, C, age 55, separates from service with the P Corporation. C began employment with the P Corporation and became a participant in the P Corporation's plan on January 1, 1980. As of December 31, 1990, C's average compensation for the 3 consecutive years preceding his separation from service is $15,000. Under this subparagraph, the normal retirement benefit to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of 50 percent of average compensation for the 3 consecutive years of compensation from the P corporation next preceding normal retirement age commencing at age 65. C must have accrued an annual benefit of at least $2,475 commencing at age 65 [0.03×(0.50×$15,000)×11] as of his separation from the service with the P Corporation in order for the P Corporation's plan to satisfy the requirements of this subparagraph with respect to C.

Example (5). On December 31, 1985, the R Corporation's defined benefit plan provided an annual retirement benefit commencing at age 65 of $100 for each year of participation, not to exceed 30. As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. The appropriate computation period is the calendar year. On January 1, 1986, the plan is amended to provide an annual retirement benefit commencing at age 65 of $200 for each year of participation (before and after the amendment), not to exceed 30. B, age 40, is a participant in the R Corporation's plan. B has completed 15 years of participation in the plan of the R Corporation as of December 31, 1990. Under paragraph (b)(1)(i) of this section, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit of $6,000 [30×200]. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless B has accrued an annual benefit of at least $2,700 [0.03×$6,000×15] as of December 31, 1990. Under the R Corporation plan, B is entitled to an accrued benefit of $3,000 [$200×15] as of December 31, 1990. Thus, with respect to B, the accrued benefit provided under the R Corporation plan satisfies the requirements of this subparagraph.

Example (6). On December 31, 1995, the J Corporation's defined benefit plan provided an annual retirement benefit commencing at age 65 of $4,800 after 30 years of participation. The normal retirement age specified under the plan is age 65. The appropriate computation period is the calendar year. On January 1, 1996, the plan is amended to provide an annual retirement benefit commencing at age 65 of $6,000. A, age 40, is a participant in the J Corporation's plan since its adoption on January 1, 1986. Under paragraph (b)(1)(i) of this section, on December 31, 1995, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of $4,800. Under paragraph (b)(1)(i) of this section, on January 1, 1996, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (0) under the plan and served continuously until normal retirement age (65) is an annual benefit of $6,000. Under subdivision (i) of this subparagraph, the plan does not satisfy the requirements of this subparagraph unless A has an accrued benefit on December 31, 1995 of at least $1,440 [$4,800 × 0.03 × 10] and an accrued benefit on January 1, 1996 of at least $2,000 [$6,000 × 0.03 × 10].

Example (7). The X Company's defined benefit plan provides an annual retirement benefit commencing at age 65 of $4 per month for each year of participation (not to exceed 30). As a condition of participation, the plan requires that an employee have attained age 25. The normal retirement age specified under the plan is age 65. D, age 68, is a participant in the X Company's plan. D has completed 20 years of participation in the X Company plan as of the close of the plan year. Under paragraph (b)(1)(i) of this section, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit, commencing at age 65, of $1,440 [30 × $48]. Under paragraph (b)(1)(i) of this section, the plan does not satisfy the requirements of this subparagraph unless D has accrued an annual benefit, commencing at age 65, of $864 [0.03 × $1,440 × 20] as of the close of the plan year. Under the X Company plan, D has accured an annual benefit, commencing at age 65, of $960 [20 × $48]. Thus, with respect to D the accrued benefit provided under the X Company plan satisfies the requirements of this subparagraph.

Example (8). Assume the same facts as in example (7) except that for purposes of determining accrued benefits under the plan the X Company's plan disregards all years of participation after normal retirement age. Under paragraph (b)(1)(i) of this section, the normal retirement benefit commencing at age 65 to which a participant would be entitled if he commenced participation at the earliest possible entry age (25) under the plan and served continuously until normal retirement age (65) is an annual benefit of $1,440 [30 × $48]. Under paragraph (b)(1)(i) of this section the plan does not satisfy the requirements of this subparagraph unless D has accrued an annual benefit, commencing at age 65, of $864 [0.03 × $1,440 20] as of the close of the plan year. Under the X Company's plan, D has accrued an annual benefit commencing at age 65, of $816 [17 × $48]. Thus, with respect to D, the accrued benefit provided under the X Company plan does not satisfy the requirements of this subparagraph.

(2) *133⅓ percent rule*—(i) *General rule.* A defined benefit plan satisfies the requirements of this subparagraph for a particular plan year if—

(A) Under the plan the accrued benefit payable at the normal retirement age (determined under the plan) is equal to the normal retirement benefit (determined under the plan), and

(B) The annual rate at which any individual who is or could be a participant can accrue the retirement benefits payable at normal retirement age under the plan for any later plan year cannot be more than 133⅓ percent of the annual rate at which he can accrue benefits for any plan year beginning on or after such particular plan year and before such later plan year.

(ii) *Special rules.* For purposes of this subparagraph—

(A) *Plan amendments.* Any amendment to the plan which is in effect for the current plan year shall be treated as if it were in effect for all other plan years.

(B) *Change in accrual rate.* Any change in an accrual rate which change does not apply to any individual who is or could be a participant in the plan year is disregarded. Thus, for example, if for its plan year beginning January 1, 1980, a defined benefit plan provides an accrued benefit in plan year 1980 of 2 percent of a participant's average compensation for his highest 3 years of compensation for each year of service and provides that in plan year 1981 the accrued benefit will be 3 percent of such average compensation, the plan will not be treated as failing to satisfy the requirements of this subparagraph for plan year 1980 because in plan year 1980 the change in the accrual rate does not apply to any individual who is or could be a participant in plan year 1980. However, if, for example, a defined benefit plan provided for an accrued benefit of 1 percent of a participant's average compensation for his highest 3 years of compensation for each of the first 10 years of service and 1.5 percent of such average compensation for each year of service thereafter, the plan will be treated as failing to satisfy the requirements of this subparagraph for the plan year even though no participant is actually accruing at the 1.5 percent rate because an individual who could be a participant and who had over 10 years of service would accrue at the 1.5 percent rate, which rate exceeds 133⅓ percent of the 1 percent rate.

(C) *Early retirement benefits.* The fact that certain benefits under the plan may be payable to certain participants before normal retirement age is disregarded. Thus, the requirements of subdivision (i) of this subparagraph must be satisfied without regard to any benefit payable prior to the normal retirement benefit (such as an early retirement benefit which is not the normal retirement benefit (see § 1.411(a)-7(c)).

(D) *Social security, etc.* For purposes of this paragraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(E) *Postponed retirement.* A plan shall not be treated as failing to satisfy the requirements of this subparagraph for a plan year merely because no benefits under the plan accrue to a participant who continues service with the employer after such participant has attained normal retirement age.

(F) *Computation of benefit.* A plan shall not satisfy the requirements of this subparagraph if the base for the computation of retirement benefits changes solely by reason of an increase in the number of years of participation. Thus, for example, a plan will not satisfy the requirements of this subparagraph if it provides a benefit, commencing at normal retirement age, of the sum of (*1*) 1 percent of average compensation for a participant's first 3 years of participation multiplied by his first 10 years of participation (or, if less than 10 his total years of participation) and (2) 1 percent of average compensation for a participant's 3 highest years of participation multiplied by each year of participation subsequent to the 10th year.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples:

Example (1). On January 1, 1980, the R Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of 5 consecutive years of participation for which his compensation is the highest. The percentage is 2 percent for each of the first 20 years of participation and 1 percent per year thereafter. The appropriate computation period is the calendar year. The R Corporation's plan satisfies the requirements of this subparagraph because the 133⅓ percent rule does not restrict subsequent accrual rate decreases.

Example (2). On January 1, 1980, the J Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of his final 5 consecutive years of participation. The percentage is 1 percent for each of the first 5 years of participation; 1⅓ percent for each of the next 5 years of participation; and 1⅔ percent for each year thereafter. The appropriate computation period is the calendar year. Even though no single accrual rate under the J Corporation's plan exceeds 133⅓ percent of the immediately preceding accrual rate, the J Corporation's plan does not satisfy the requirements of this subparagraph because the rate of accrual for all years of participation in excess of 10 (1⅔ percent) exceeds 133⅓ percent of the rate of accrual for any of the first 5 years of participation (1 percent).

Example (3). On January 1, 1980, the C Corporation's defined benefit plan provides for an annual benefit (commencing at age 65) of a percentage of a participant's average compensation for the period of 3 consecutive years of participation for which his compensation is the highest. The percentage is 2 percent for each of the first 5 years of participation; 1 percent for each of the next 5 years of participation; and 1⅓ percent for each year thereafter. The appropriate computation period is the calendar year. Even though the average rate of accrual under the C Corporation's plan is not less rapidly than ratably, the C Corporation's plan does not satisfy the requirements of this subparagraph because the rate of accrual for all years of participation in excess of 10 (1⅓ percent) for any employee who is actually accruing benefits or who could accrue benefits exceeds 133⅓ percent of the rate of accrual for the sixth through tenth years of participation, respectively (1 percent).

(3) *Fractional rule*—(i) *In general.* A defined benefit plan satisfies the requirements of this paragraph if the accrued benefit to which any participant is entitled is not less than the fractional rule benefit multiplied by a fraction (not exceeding 1)—

(A) The numerator of which is his total number of years of participation in the plan, and

(B) The denominator of which is the total number of years he would have participated in the plan if he separated from the service at the normal retirement age under the plan.

(ii) *Special rules.* For purposes of this subparagraph—

(A) *Fractional rule benefit.* The "fractional rule benefit" is the annual benefit commencing at the normal retirement age under the plan to which a participant would be entitled if he continued to earn annually until such normal retirement age the same rate of compensation upon which his normal retirement benefit would be computed. Such rate of compensation shall be computed on the basis of compensation taken into account under the plan (but taking into account average compensation for no more than the 10 years of service immediately preceding the determination). For purposes of this subdivision (A), the normal retirement benefit shall be determined as if the participant had attained normal retirement age on the date any such determination is made.

(B) *Social security, etc.* For purposes of this subparagraph, for any plan year, social security benefits and all relevant factors used to compute benefits, *e.g.*, consumer price index, are treated as remaining constant as of the beginning of the current plan year for all subsequent plan years.

(C) *Postponed retirement.* A plan shall not be treated as failing to satisfy the requirements of this subparagraph merely because no benefits under the plan accrue to a participant who continues service with the employer after such participant has attained normal retirement age under the plan.

(D) *Computation in certain cases.* In the case of any plan to which the provisions of section 411(b)(1)(D) and paragraph (c) of this section are applicable, for any plan year the accrued benefit of any participant shall not be less than the accrued benefit otherwise determined under this subparagraph, reduced by the excess of the accrued benefit determined under this subparagraph as of the first day of the first plan year to which section 411 applies over the accrued benefit determined under section 411(b)(1)(D) and paragraph (c) of this section and increased by the amount determined under paragrah (c)(2)(v) of this section.

(iii) *Examples.* The application of this subparagraph is illustrated by the following examples:

Example (1). The R Corporation's defined benefit plan provides an annual retirement benefit commencing at age 65 of 30 percent of a participant's average compensation for his highest 3 consecutive years of participation. If a participant separates from service prior to normal retirement age, the R Corporation's plan provides a benefit equal to an amount which bears the same ratio to 30 percent of such average compensation as the participant's actual number of years of participation in the plan bears to the number of years the participant would have participated in the plan had he separated from service at age 65. The plan further provides that normal retirement age is age 65. A, age 55, is a participant in the R Corporation's plan for the current year, and A has 15 years of participation in the R Corporation's plan. As of the current year, A's average compensation for his highest 3 years of compensation is $20,000. The R Corporation's plan satisfies the requirements of this subparagraph because if A separates from the service in the current year he will be entitled to an annual benefit of $3,600 commencing at age 65 [0.3×$20,000)×15/25].

Example (2). The J Corporation's defined benefit plan provides a normal retirement benefit of 1 percent per year of a participant's average compensation from the employer. In the case of a participant who separates from service prior to normal retirement age (65), the plan provides that the annual benefit is an amount which is equal to 1 percent of such compensation multiplied by the number of years of plan participation actually completed by the participant. The plan year of the J Corporation's plan is the calendar year. B, age 55, is a participant in the J Corporation's plan for the current year. B became a participant in the J Corporation's plan on January 1, 1980. As of December 31, 1990, B's compensation history is as follows:

V 40 214 NOV 5 75 XUM

Year	Compensation
1980	$17,000
1981	18,000
1982	20,000
1983	20,000
1984	21,000
1985	22,000
1986	23,000
1987	25,000
1988	26,000
1989	29,000
1990	32,000

If B separates from service on December 31, 1990, he would entitled to an annual benefit of $2,530 commencing at age 65. Because the J Corporation's plan does not limit the number of years of compensation to be taken into account in determining the normal retirement benefit, B's rate of compensation for purposes of determining his normal retirement benefit is $23,600 [$18,000+$20,000+$20,000+$21,000+$22,000+$23,000+$25,000+$26,000+$29,000+$32,000]

10

Under this subparagraph, B's accrued benefit under the J Corporation's plan as of December 31, 1990 must be not less than $2,561 per year commencing at age 65 [0.01 × ($17,000 + $18,000 + $20,000 + $20,000 + $21,000 + $22,000 + $23,000 + $25,000 + $26,000 + $29,000 + $32,000 + ($23,600 × 10)) × 11/21]. Thus, the J Corporation's plan would not satisfy the requirements of this subparagraph.

(c) *Accruals for service before effective date*—(1) *General rule.* For a plan year to which section 411 applies, a defined benefit plan does not satisfy the requirements of section 411(b)(1) and this section unless, under the plan, the accrued benefit of each participant for plan years beginning before section 411 applies is not less than the greater of—

(i) Such participant's accrued benefit (as of the day before section 411 applies) determined under the plan as in effect from time to time prior to September 2, 1974 (without regard to any amendment adopted after such date), or

(ii) One-half of the accrued benefit that would be determined with respect to the participant as of the day before section 411 applies if the participant's accrued benefit were computed for such prior plan years under a method which satisfies the requirements of section 411(b)(1)(A), (B), or (C) and paragraph (b)(1), (2), or (3) of this section. See 29 CFR Part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans, for time participation deemed to begin.

(2) *Special rules*—(i) A plan shall not be deemed to fail to satisfy the requirements of section 411(b) and this section merely because the method for computing the accrued benefit of a participant for years of participation prior to the first plan year for which section 411 is effective with respect to the plan is not the same method for computing the accrued benefit of a participant for years of participation subsequent to such plan year.

(ii) For purposes of paragraph (c)(1)(ii) of this section, section 411(b)(1)(A) and paragraph (b)(1) of this section shall be applied as if the participant separated from service with the employer on the day before the first day of the first plan year to which section 411 applies.

(iii) For purposes of paragraph (c)(1)(ii) of this section, section 411(b)(1)(B) and paragraph (b)(2) of this section shall be applied in the following manner:

(A) Except as provided in (c)(2)(iii)(B) of this section, section 411(b)(1)(B) and paragraph (b)(2) of this section shall be applied as if the participant separated from service with the employer on the day before the first day of the first plan year to which section 411 applies.

(B) In the case that the plan does not satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section at any time prior to the day specified in (c)(2)(iii)(A) of this section, the plan shall be deemed revised to the extent necessary to satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section for all plan years beginning before the applicable effective date of section 411 and this section. For purposes of the preceding sentence, a plan shall not be deemed revised to the extent necessary to satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section for a plan year if the benefit a participant would receive if he were employed until normal retirement age is reduced by such revision or if the revised rate of accrual with respect to such accrued benefit does not otherwise satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section.

(iv) For purposes of paragraph (c)(1)(ii) of this section, section 411(b)(1)(C) and paragraph (b)(3) of this section shall be applied as if the participant separated from service on the day before the first day of the first plan year to which section 411 applies.

(v) The excess of the accrued benefit payable at normal retirement age of any participant determined under section 411(b)(1)(A), (B), or (C) (without regard to section 411(b)(1)(D)), and paragraph (b)(1), (2), or 3) of this section (without regard to this paragraph) as of the day before the first day of the first plan year to which section 411 and this section applies over the accrued benefit determined under paragraph (c)(1) of this section shall be accrued in accordance with the provisions of the plan as in effect after the applicable effective date of section 411, as if the plan had been initially adopted on such effective date.

(d) *Special rules*—(1) *First 2 years of service.* Notwithstanding paragraphs (1), (2), and (3) of paragraph (b) of this section, under section 411(b)(1)(E) and this subparagraph, a plan shall not be treated as failing to satisfy the requirements of paragraph (b) of this section solely because the accrual of benefits under the plan does not become effective until the employee has completed 2 continuous years of service. For purposes of this subparagraph, continuous years of service are years of service (within the meaning of section 410(a)(3)(A)) which are not separated by a break in service (within the meaning of section 410(a)(5)). For years of service beginning after such 2 years of service, the accrued benefit of an employee shall not be less than that to which the employee would be entitled if section 411(b)(1)(E) and this subparagraph did not apply. Thus, for example, a plan which otherwise satisfies the requirements of paragraph (b)(2) of this section provides for a rate of accrual of 1 percent of average compensation for the highest 3 years of compensation beginning with the third year of service of a participant shall not be treated as satisfying paragraph (b)(2) of this section because as of the time the employee completes 3 continuous years of service there is no accrual during the first 2 years of service. In addition, a plan which otherwise satisfies the requirements of paragraph (b)(1) of this section and which requires that an employee must attain age 25 and complete 1 year of service prior to becoming a participant will not satisfy the requirements of paragraph (b)(1) of this section if an employee who completes 2 years of service prior to attaining age 25 does not begin accruals immediately upon commencement of participation in the plan. For rules relating to years of service, see 29 CFR part 2530, Department of Labor regulations relating to minimum standards for employee pension benefit plans.

(2) *Certain insured defined benefit plans.* Notwithstanding paragraphs (b)(1), (2), and (3) of this section, a defined benefit plan satisfies the requirements of paragraph (b) of this section if such plan is funded exclusively by the purchase of contracts from a life insurance company and such contracts satisfy the requirements of sections 412(i)(2) and (3) and the regulations thereunder. The preceding sentence is applicable only if an employee's accrued benefit as of any applicable date is not less than the cash surrender value such employee's insurance contracts would have on such applicable date if the requirements of section 412(i)(4), (5), and (6) and the regulations thereunder were satisfied.

(3) *Accrued benefit may not decrease on account of increasing age or service.* Notwithstanding paragraphs (b)(1), (2), and (3) of this section and paragraphs (d)(1) and (2) of this section, a defined benefit plan shall be treated as not satisfying the requirements of paragraph (b) and (d) of this section if the participant's accrued benefit is reduced on account of any increase in his age or years of service. The preceding sentence shall not apply to benefits under the plan commencing before such participant's entitlement to benefits payable under title II of the Social Security Act, as amended, which benefits under the plan do not exceed such participant's social security benefits and which terminate when his social security benefits commence.

(e) *Separate accounting.* A plan satisfies the requirements of this paragraph if the requirements of paragraph (e)(1) or (2) of this paragraph are met.

(1) *Defined benefit plan.* In the case of a defined benefit plan, the requirements of this paragraph are satisfied if the plan requires separate accounting for the portion of each employee's accrued benefit derived from any voluntary employee contributions permitted under the plan. For purposes of this subparagraph the term "voluntary employee contributions" means all employee contributions which are not mandatory contributions within the meaning of section 411(c)(2)(C) and the regulations thereunder.

(2) *Defined contribution plan.* In the case of a defined contribution plan, the requirements of this paragraph are not satisfied unless the plan requires separate accounting for each employee's accrued benefit.

(f) *Year of participation*—(1) *In general.* For purposes of determining an employee's accrued benefit, a "year of participation" is a period of service determined under regulations prescribed by the Secretary of Labor in 29 CFR part 2530, relating to minimum standards for employee pension benefit plans.

(2) *Additional rule relating to year of participation.* A trust shall not constitute a qualified trust if the plan of which such trust is a part provides for the crediting of a year of participation, or part thereof, and such credit results in the discrimination prohibited by section 401(a)(4).

(g) *Additional illustrations.* The application of this section may be illustrated by the following example:

Example. (i) The S Corporation established a defined benefit plan on January 1, 1980. The plan provides a minimum age for participation of age 25. The normal retirement age under the plan is age 65. The appropriate computation periods are the calendar year. The plan provides an annual benefit, commencing at age 65, equal to $96 per year of service for the first 25 years of service, and $48 per year of service for each additional year of service.

(ii) The plan of the S Corporation does not satisfy the requirements of section 411(b)(1)(A) and paragraph (b)(1) of this section because the accrued benefit under the plan at some point will be less than the accrued benefit required under section 411(b)(1)(A) and paragraph (b)(1) of this section (i.e., 3 percent × normal retirement benefit × years of participation).

(iii) The plan of the S Corporation does satisfy the requirements of section 411(b)(1)(B) and paragraph (b)(2) of this section because the rate of benefit accrual is equal in each of the first 25 years of service and the rate decreases thereafter.

(iv) The plan of the S Corporation does satisfy the requirements of section 411(b)(1)(C) and paragraph (b)(3) of this section because the accrued benefit under the plan will equal or exceed the normal retirement benefit multiplied by the fraction described in paragraph (b)(3)(i) of this section.

§ 1.411(c) Statutory provisions; minimum vesting standards; allocation of accrued benefits between employer and employee contributions.

Sec. 411. Minimum vesting standards. * * *

(c) *Allocation of accrued benefits between employer and employee contributions*—(1) *Accrued benefit derived from employer contributions.* For purposes of this section, an employee's accrued benefit derived from employer contributions as of any applicable date is the excess, if any, of the accrued benefit for such employee as of such applicable date over the accrued benefit derived from contributions made by such employee as of such date.

(2) *Accrued benefit derived from employee contributions*—(A) *Plans other than defined benefit plans.* In the case of a plan other than a defined benefit plan, the accrued benefit derived from contributions made by an employee as of any applicable date is—

(i) Except as provided in clause (ii), the balance of the employee's separate account consisting only of his contributions and the income, expenses, gains, and losses attributable thereto, or

(ii) If a separate account is not maintained with respect to an employee's contributions under such a plan, the amount which bears the same ratio to his total accrued benefit as the total amount of the employee's contributions (less withdrawals) bears to the sum of such contributions and the contributions made on his behalf by the employer (less withdrawals).

(B) *Defined benefit plans*—(i) *In general.* In the case of a defined benefit plan providing an annual benefit in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, the accrued benefit derived from contributions made by an employee as of any applicable date is the annual benefit equal to the employee's accumulated contributions multiplied by the appropriate conversion factor.

(ii) *Appropriate conversion factor.* For purposes of clause (i), the term "appropriate conversion factor" means the factor necessary to convert an amount equal to the accumulated contributions to a single life annuity (without ancillary benefits) commencing at normal retirement age and shall be 10 percent for a normal retirement age of 65 years. For other normal retirement ages the conversion factor shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

(C) *Definition of accumulated contributions.* For purposes of this subsection, the term "accumulated contributions" means the total of—

(i) All mandatory contributions made by the employee,

(ii) Interest (if any) under the plan to the end of the last plan year to which subsection (a)(2) does not apply (by reason of the applicable effective date), and

(iii) Interest on the sum of the amounts determined under clauses (i) and (ii) compounded annually at the rate of 5 percent per annum from the beginning of the first plan year to which subsection (a)(2) applies (by reason of the applicable date) to the date upon which the employee would attain normal retirement age.

For purposes of this subparagraph, the term "mandatory contributions" means amounts contributed to the plan by the employee which are required as a condition of employment, as a condition of participation in such plan, or as a condition of obtaining benefits under the plan attributable to employer contributions.

(D) *Adjustments.* The Secretary or his delegate is authorized to adjust by regulation the conversion factor described in subparagraph (B), the rate of interest described in clause (iii) of subparagraph (C), or both, from time to time as he may deem necessary. The rate of interest shall bear the relationship to 5 percent which the Secretary or his delegate determines to be comparable to the relationship which the long-term money rates and investment yields for the last period of 10 calendar years ending at least 12 months before the beginning of the plan year bear to the long-term money rates and investment yields for the 10-calendar year period 1964 through 1973. No such adjustment shall be effective for a plan year beginning before the expiration of 1 year after such adjustment is determined and published.

(E) *Limitation.* The accrued benefit derived from employee contributions shall not exceed the greater of—

(i) The employee's accrued benefit under the plan, or

(ii) The accrued benefit derived from employee contributions determined as though the amounts calculated under clauses (ii) and (iii) of subparagraph (C) were zero.

(3) *Actuarial adjustment.* For purposes of this section, in the case of any defined benefit plan, if an employee's accrued benefit is to be determined as an amount other than an annual benefit commencing at normal retirement age, or if the accrued benefit derived from contributions made by an employee is to be determined with respect to a benefit other than an annual benefit in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, the employee's accrued benefit, or the accrued benefits derived from contributions made by an employee, as the case may be, shall be the actuarial equivalent of such benefit or amount determined under paragraph (1) or (2).

[Section 411(c) added by sec. 1012(a), Employee Retirement Income Security Act 1974 (88 Stat. 910)]

§ 1.411(c)–1 Allocation of accrued benefits between employer and employee contributions.

(a) *Accrued benefit derived from employer contributions.* For purposes of section 411 and the regulations thereunder, under section 411(c)(1), an employee's accrued benefit derived from employer contributions under a plan as of any applicable date is the excess, if any, of—

(1) The total accrued benefit under the plan provided for the employee as of such date, over

(2) The accrued benefit provided for the employee, derived from contributions made by the employee under the plan as of such date.

For computation of accrued benefit derived from employee contributions to a defined contribution plan or from voluntary employee contributions to a defined benefit plan, see paragraph (b) of this section. For computation of accrued benefit derived from mandatory employee contributions to a defined benefit plan, see paragraph (c) of this section.

(b) *Accrued benefit derived from employee contribution to defined contribution plan, etc.* For purposes of section 411 and the regulations thereunder, under section 411(c)(2)(A) the accrued benefit derived from employee contributions to a defined contribution plan is determined under paragraph (b)(1) or (2) of this section, whichever applies. Under section 411(d)(5), the accrued benefit derived from voluntary employee contributions to a defined benefit plan is determined under paragraph (b)(1) of this section.

(1) *Separate accounts maintained.* If a separate account is maintained with respect to an employee's contributions and all income, expenses, gains, and

V 40 I 214
NOV 5 75
XUM

losses attributable thereto, the accrued benefit determined under this subparagraph as of any applicable date is the balance of such account as of such date.

(2) *Separate accounts not maintained.* If a separate account is not maintained with respect to an employee's contributions and the income, expenses, gains, and losses attributable thereto, the accrued benefit determined under this subparagraph is the employee's total accrued benefit determined under the plan multiplied by a fraction—

(i) The numerator of which is the total amount of the employee's contributions under the plan less withdrawals, and

(ii) The denominator of which is the sum of (A) the amount described in paragraph (b)(2)(i) of this section, and (B) the total contributions made under the plan by the employer on behalf of the employee less withdrawals.

For purposes of this paragraph, withdrawals include only amounts distributed to the employee and do not reflect the cost of any death benefits under the plan.

(c) *Accrued benefit derived from mandatory employee contributions to a defined benefit plan*—(1) *General rule.* In the case of a defined benefit plan (as defined in section 414(j)) the accrued benefit derived from contributions made by an employee under the plan as of any applicable date is an annual benefit, in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, equal to the amount of the employee's accumulated contributions (determined under paragraph (c)(3) of this section) multiplied by the appropriate conversion factor (determined under paragraph (c)(2) of this section). Paragraph (e) of this section provides rules for actuarial adjustments where the benefit is to be determined in a form other than the form described in this paragraph.

(2) *Appropriate conversion factor.* For purposes of this paragraph, the term "appropriate conversion factor" means the factor necessary to convert an amount equal to the accumulated contributions to a single life annuity (without ancillary benefits) commencing at normal retirement age and shall be 10 percent for a normal retirement age of 65 years. For other normal retirement ages the appropriate conversion factor shall be the factor as determined by the Commissioner.

(3) *Accumulated contributions.* For purposes of section 411(c) and this section, the term "accumulated contributions" means the total of—

(i) All mandatory contributions made by the employee (determined under paragraph (c)(4) of this section),

(ii) Interest (if any) on such contributions, computed at the rate provided by the plan to the end of the last plan year to which section 411(a)(2) does not apply (by reason of the applicable effective date), and

(iii) Interest on the sum of the amounts determined under paragraphs (c)(3)(i) and (ii) of this section compounded annually at the rate of 5 percent per annum from the beginning of the first plan year to which section 411(a)(2) applies (by reason of the applicable effective date) to the date on which the employee would attain normal retirement age.

For example, if under section 1017 of the Employee Retirement Income Security Act of 1974, section 411(a)(2) of the Code applies for plan years beginning after December 31, 1975, and for plan years beginning before 1975, the plan provided for 3 percent interest on employee contributions, an employee's accumulated contributions would be computed by crediting interest at the rate provided by the plan (3 percent) for plan years beginning before 1976 and by crediting interest at the rate of 5 percent (or another rate prescribed under section 411(c)(2)(D)) thereafter. Section 1017 of the Employee Retirement Income Security Act of 1974 and § 1.411(a)-2 provide the effective dates for the application of section 411(a)(2).

(4) *Mandatory contributions.* For purposes of section 411(c) and this section the term "mandatory contributions" means amounts contributed to the plan by the employee which are required as a condition of his employment, as a condition of his participation in the plan, or as a condition of obtaining benefits (or additional benefits) under the plan attributable to employer contributions. For example, if the benefit derived from employer contributions depends upon a specified level of employee contributions, employee contributions up to that level would be treated as mandatory contributions.

(d) *Limitation on accrued benefit.* The accrued benefit derived from employee contributions under a plan (determined under paragraphs (b) and (c) of this section) shall not exceed the greater of—

(1) The accrued benefit of the employee under the plan, or

(2) The accrued benefit derived from employee contributions determined without regard to any interest under section 411(c)(2)(C) (ii) and (iii) and under paragraphs (c)(3) (ii) and (iii) of this section.

(e) *Actuarial adjustments for defined benefit plans*—(1) *Accrued benefit.* In the case of a defined benefit plan (as defined in section 414(j)) if an employee's accrued benefit is to be determined as an amount other than an annual benefit commencing at normal retirement age, such benefit (determined under section 411(c)(1) and paragraph (a) of this section) shall be the actuarial equivalent of such benefit, as determined by the Commissioner.

(2) *Accrued benefit derived from employee contributions.* In the case of a defined benefit plan (as defined in section 414(j)) if the accrued benefit derived from contributions made by an employee is to be determined with respect to a benefit other than an annual benefit in the form of a single life annuity (without ancillary benefits) commencing at normal retirement age, such benefit (determined under section 411(c)(2)(B) and paragraph (c) of this section) shall be the actuarial equivalent of such benefit, as determined by the Commissioner.

§ 1.411(d) Statutory provisions; minimum vesting standards; special rules.

Sec. 411. Minimum vestings standards.

* * *

(d) *Special rules*—(1) *Coordination with section 401(a)(4).* A plan which satisfies the requirements of this section shall be treated as satisfying any vesting requirements resulting from the application of section 401(a)(4) unless—

(A) There has been a pattern of abuse under the plan (such as a dismissal of employees before their accrued benefits become nonforfeitable) tending to discriminate in favor of employees who are officers, shareholders, or highly compensated, or

(B) There have been, or there is reason to believe there will be, an accrual of benefits or forfeitures tending to discriminate in favor of employees who are officers, shareholders, or highly compensated.

(2) *Prohibited discrimination.* Subsection (a) shall not apply to benefits which may not be provided for designated employees in the event of early termination of the plan under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by section 401(a)(4).

(3) *Termination or partial termination; discontinuance of contributions.* Notwithstanding the provisions of subsection (a), a trust shall not constitute a qualified trust under section 401(a) unless the plan of which such trust is a part provides that—

(A) Upon its termination or partial termination, or

(B) In the case of a plan to which section 412 does not apply, upon complete discontinuance of contributions under the plan,

the rights of all affected employees to benefits accrued to the date of such termination, partial termination, or discontinuance, to the extent funded as of such date, or the amounts credited to the employees' accounts, are nonforfeitable. This paragraph shall not apply to benefits or contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by section 401(a)(4), may not be used for designated employees in the event of early termination of the plan.

(4) *Class year plans.* The requirements of subsection (a)(2) shall be deemed to be satisfied in the case of a class year plan if such plan provides that 100 percent of each employee's right to or derived from the contributions of the employer on his behalf with respect to any plan year are nonforfeitable not later than the end of the 5th plan year following the plan year for which such contributions were made. For purposes of this section, the term "class year plan" means a profit-sharing, stock bonus, or money purchase plan which provides for the separate nonforfeitability of employees' rights to or derived from the contributions for each plan year.

(5) *Treatment of voluntary employee contributions.* In the case of a defined benefit plan which permits voluntary employee contributions, the portion of an employee's accrued benefit derived from such contributions shall be treated as an accrued benefit derived from employee contributions under a plan other than a defined benefit plan.

(6) *Accrued benefit not to be decreased by amendment.* A plan shall be treated as not satisfying the requirements of this section if the accrued benefit of a participant is decreased by an amendment of the plan, other than an amendment described in section 412(c)(8).

[Section 411(d) added by sec. 1012(a), Employee Retirement Income Security Act 1974 (88 Stat. 911)]

§ 1.411(d)-1 Coordination of vesting and discrimination requirements. [Reserved]

§ 1.411(d)-2 Termination or partial termination; discontinuance of contributions.

(a) *General rule*—(1) *Required nonforfeitability.* A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan provides that—

(i) Upon the termination or partial termination of the plan, or

(ii) In addition, in the case of a plan to which section 412 (relating to minimum funding standards) does not apply, upon the complete discontinuance of contributions under the plan,

the rights of each affected employee to benefits accrued to the date of such termination or partial termination (or, in the case of a plan to which section 412 does not apply, discontinuance), to the extent funded, or the rights of each employee to the amounts credited to his account at such time, are nonforfeitable (within the meaning of § 1.411(a)-(4).

(2) *Required allocation.* (i) A plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) unless the plan provides for the allocation of any previously unallocated funds to the employees covered by the plan upon the termination or partial termination of the plan (or, in the case of a plan to which section 412 does not apply, upon the complete discontinuance of contributions under the plan). Such provision may be incorporated in the plan at its inception or by an amendment made prior to the termination or partial termination of the plan or the discontinuance of contributions thereunder.

(ii) Any provision for the allocation of unallocated funds which is found by the Secretary of Labor or the Pension Benefit Guaranty Corporation (whichever is appropriate) to satisfy the requirements of section 4044 or section 403(d)(1) of the Employee Retirement Income Security Act of 1974 is acceptable if it specifies the method to be used and does not conflict with the provisions of section 401(a)(4) of the Internal Revenue Code of 1954 and the regulations thereunder. Any allocation of funds required by paragraph (1), (2), (3), or (4)(A) of section 4044(a) of such Act shall be deemed not to result in discrimination prohibited by section 401(a)(4) of the Code. The allocation of unallocated funds may be in cash or in the form of other benefits provided under the plan. However, the allocation of the funds contributed by the employer among the employees need not necessarily benefit all the employees covered by the plan.

(iii) Paragraph (a)(2)(i) and (ii) of this section do not require the allocation of amounts to the account of any employee if such amounts are not required to be used to satisfy the liabilities with respect to employees and their beneficiaries under the plan (see section 401(a)(2)).

(b) *Partial termination.* Whether or not a partial termination of a qualified plan occurs when a group of employees who have been covered by the plan are subsequently excluded from such coverage either by reason of an amendment to the plan, or by reason of being discharged by the employer, will be determined on the basis of all the facts and circumstances. Similarly, whether or not a partial termination occurs when benefits or employer contributions are reduced, or the eligibility or vesting requirements under the plan are made less liberal, will be determined on the basis of all the facts and circumstances. If a defined benefit plan ceases benefit accruals or decreases accrued benefits under the plan, a partial termination occurs if, as a result of such cessation or decrease, a potential reversion to the employer, or employers, maintaining the plan (determined as of the date such cessation or decrease is adopted) is created or increased. However, if a partial termination of a qualified plan occurs, the provisions of section 411(d)(3) apply only to the part of the plan that is terminated.

(c) *Termination*—(1) *Application.* This paragraph applies to a plan other than a plan described in section 411(e)(1) (relating to governmental, certain church plans, etc.).

(2) *Plans subject to termination insurance.* For purposes of this section, a plan to which title IV of the Employee Retirement Income Security Act of 1974 applies is considered terminated on a particular date if, as of that date—

(i) The plan is voluntarily terminated by the plan administrator under section 4041 of the Employee Retirement Income Security Act of 1974, or

(ii) The Pension Benefit Guaranty Corporation terminates the plan under section 4042 of the Employee Retirement Income Security Act of 1974.

(3) *Other plans.* In the case of a plan not described in paragraph (c)(2) of this section, a plan is considered terminated on a particular date if, as of that date, the plan is voluntarily terminated by the employer, or employers, maintaining the plan.

(d) *Complete discontinuance*—(1) *General rule.* For purposes of this section, a complete discontinuance of contributions under the plan is contrasted with a suspension of contributions under the plan which is merely a temporary cessation of contributions by the employer. A complete discontinuance of contributions may occur although some amounts are contributed by the employer under the plan if such amounts are not substantial enough to reflect the intent on the part of the employer to continue to maintain the plan. The determination of whether a complete discontinuance of contributions under the plan has occurred will be made with regard to all the facts and circumstances in the particular case, and without regard to the amount of any contributions made under the plan by employees. Among the factors to be considered in determining whether a suspension constitutes a discontinuance are:

(i) Whether the employer may merely be calling an actual discontinuance of contributions a suspension of such contributions in order to avoid the requirement of full vesting as in the case of a discontinuance, or for any other reason;

(ii) Whether contributions are recurring and substantial; and

(iii) Whether there is any reasonable probability that the lack of contributions will continue indefinitely.

(2) *Time of discontinuance.* In any case in which a suspension of a profit-sharing plan maintained by a single employer is considered a discontinuance, the discontinuance becomes effective not later than the last day of the taxable year of the employer following the last taxable year of such employer for which a substantial contribution was made under the profit-sharing plan. In the case of a profit-sharing plan maintained by more than one employer, the discontinuance becomes effective not later than the last day of the plan year following the plan year within which any employer made a substantial contribution under the plan.

(e) *Contributions or benefits which remain forfeitable.* The provisions of this section do not apply to amounts which are reallocated to prevent the discrimination prohibited by section 401(a)(4).

§ 1.411(d)-3 Other special rules.

(a) *Prohibited discrimination.* Under section 411(d)(2), section 411(a) does not apply to benefits which may not be provided for designated employees in the event of early termination of the plan under provisions of the plan adopted pursuant to regulations prescribed by the Secretary or his delegate to preclude the discrimination prohibited by section 401(a)(4), see § 1.410(a)-4.

(b) *Class year plans.* Under section 411(d)(4) the requirements of section 411(a)(2) for a class year plan shall be deemed to be satisfied if such plan provides that each employee's rights to or derived from employer contributions on his behalf for any plan year are nonforfeitable no later than the end of the 5th plan year following the plan year for which such contributions were made. However, the rights of an employee who separates from service prior to such time, and who is not reemployed in the plan year of separation, may be forfeited. For purposes of section 411 and the regulations thereunder, the term "class year plan" means a profit-sharing, stock bonus, or money purchase plan which provides that the nonforfeitable rights of employees to or derived from employer contributions are determined separately for each plan year.

V 40 I 214
NOV 5 75
XUM

(c) *Prohibition against accrued benefit decrease.* Under section 411(d)(6) a plan is not a qualified plan (and a trust forming a part of such plan is not a qualified trust) if a plan amendment decreases the accrued benefit of any plan participant, unless the plan amendment satisfies the requirements of section 412(c)(8) (relating to certain retroactive amendments) and the regulations thereunder.

§ 1.411(c) Statutory provisions; minimum vesting standards; application of vesting standards to certain plans.

Sec. 411. Minimum vesting standards. * * *

(e) *Application of vesting standards to certain plans.* (1) The provisions of this section (other than paragraph (2)) shall not apply to—

(A) A governmental plan (within the meaning of section 414(d)),

(B) A church plan (within the meaning of section 414(e)) with respect to which the election provided by section 410(d) has not been made,

(C) A plan which has not, at any time after the date of the enactment of the Employee Retirement Income Security Act of 1974, provided for employer contributions, and

(D) A plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

(2) A plan described in paragraph (1) shall be treated as meeting the requirements of this section, for purposes of section 401(a), if such plan meets the vesting requirements resulting from the application of sections 401(a)(4) and 401(a)(7) as in effect on the day before the date of the enactment of the Employee Retirement Income Security Act of 1974.

[Section 411(e) added by sec. 1012(a), Employee Retirement Income Security Act 1974 (88 Stat. 912)]

Par. *10.* The following new sections are added immediately after § 1.412(i)–1:

§ 1.413 Statutory provisions; collectively bargained plans, etc.

Sec. 413 Collectively bargained plans, etc.

(a) *Application of subsection (b).* Subsection (b) applies to—

(1) A plan maintained pursuant to an agreement which the Secretary of Labor finds to be a collective-bargaining agreement between employee representatives and one or more employers, and

(2) Each trust which is a part of such plan.

(b) *General rule.* If this subsection applies to a plan, not withstanding any other provision of this title—

(1) *Participation.* Section 410 shall be applied as if all employees of each of the employers who are parties to the collective bargaining agreement and who are subject to the same benefit computation formula under the plan were employed by a single employer.

(2) *Discrimination, etc.* Sections 401(a)(4) and 411(d)(3) shall be applied as if all participants who are subject to the same benefit computation formula and who are employed by employers who are parties to the collective bargaining agreement were employed by a single employer.

(3) *Exclusive benefit.* For purposes of section 401(a), in determining whether the plan of an employer is for the exclusive benefit of his employees and their beneficiaries, all plan participants shall be considered to be his employees.

(4) *Vesting.* Section 411 (other than subsection (d)(3)) shall be applied as if all employers who have been parties to the collective bargaining agreement constituted a single employer, except that the application of any rules with respect to breaks in service shall be made under regulations prescribed by the Secretary of Labor.

(5) *Funding.* The minimum funding standard provided by section 412 shall be determined as if all participants in the plan were employed by a single employer.

(6) *Liability for funding tax.* For a plan year the liability under section 4971 of each employer who is a party to the collective bargaining agreement shall be determined in a reasonable manner not inconsistent with regulations prescribed by the Secretary or his delegate—

(A) First on the basis of their respective delinquencies in meeting required employer contributions under the plan, and

(B) Then on the basis of their respective liabilities for contributions under the plan.

(7) *Deduction limitations.* Each applicable limitation provided by section 404(a) shall be determined as if all participants in the plan were employed by a single employer. The amounts contributed to or under the plan by each employer who is a party to the agreement, for the portion of his taxable year which is included within such a plan year, shall be considered not to exceed such a limitation if the anticipated employer contributions for such plan year (determined in a manner consistent with the manner in which actual employer contributions for such plan year are determined) do not exceed such limitation. If such anticipated contributions exceed such a limitation, the portion of each such employer's contributions which is not deductible under section 404 shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

(8) *Employees of labor unions.* For purposes of this subsection, employees of employee representatives shall be treated as employees of an employer described in subsection (a)(1) if such representatives meet the requirements of sections 401(a)(4) and 410 with respect to such employees.

(c) *Plans maintained by more than one employer.* In the case of a plan maintained by more than one employer—

(1) *Participation.* Section 410(a) shall be applied as if all employees of each of the employers who maintain the plan were employed by a single employer.

(2) *Exclusive benefit.* For purposes of section 401(a), in determining whether the plan of an employer is for the exclusive benefit of his employees and their beneficiaries all plan participants shall be considered to be his employees.

(3) *Vesting.* Section 411 shall be applied as if all employers who maintain the plan constituted a single employer, except that the application of any rules with respect to breaks in service shall be made under regulations prescribed by the Secretary of Labor.

(4) *Funding.* The minimum funding standard provided by section 412 shall be determined as if all participants in the plan were employed by a single employer.

(5) *Liability for funding tax.* For a plan year the liability under section 4971 of each employer who maintains the plan shall be determined in a reasonable manner not inconsistent with regulations prescribed by the Secretary or his delegate—

(A) First on the basis of their respective delinquencies in meeting required employer contributions under the plan, and

(B) Then on the basis of their respective liabilities for contributions under the plan.

(6) *Deduction limitations.* Each applicable limitation provided by section 404(a) shall be determined as if all participants in the plan were employed by a single employer. The amounts contributed to or under the plan by each employer who maintains the plan, for the portion of this taxable year which is included within such a plan year, shall be considered not to exceed such a limitation if the anticipated employer contributions for such plan year (determined in a reasonable manner not inconsistent with regulations prescribed by the Secretary or his delegate) do not exceed such limitation. If such anticipated contributions exceed such a limitation, the portion of each such employer's contributions which is not deductible under section 404 shall be determined in accordance with regulations prescribed by the Secretary or his delegate.

Allocations of amounts under paragraphs (4), (5), and (6), among the employers maintaining the plan, shall not be inconsistent with regulations prescribed for this purpose by the Secretary or his delegate.

[Sec. 413 as added by sec. 1014, Employee Retirement Income Security Act 1974 (88 Stat. 724)]

§ 1.413–1 Special rules for collectively bargained plans.

(a) through (d) [Reserved]

(e) *Vesting.* Section 411 (other than section 411(d)(3) relating to termination or partial termination; discontinuance of contributions) and the regulations thereunder shall be applied as if all employers who have been parties to the collective-bargaining agreement constituted a single employer. The application of any rules with respect to breaks in service under section 411 shall be made under regulations prescribed by the Secretary of Labor. Thus, for example, all the hours which an employee worked for each employer in a collectively-bargained plan would be aggregated in computing the employee's hours of service under the plan. See also § 210 of 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

§ 1.413–2 Special rules for plans maintained by more than one employer.

(a) through (c) [Reserved]

(d) *Vesting.* Section 411 and the regulations thereunder shall be applied as if all employers who maintain the plan constituted a single employer. The application of any rules with respect to breaks in service under section 411 shall be made under regulations prescribed by the Secretary of Labor. Thus, for example, all the hours which an employee worked for each employer maintaining the plan would be aggregated in computing the employee's hours of service under the plan. See also § 210 of 29 CFR Part 2530 (Department of Labor regulations relating to minimum standards for employee pension benefit plans).

Par. *11.* Section 1.801 is amended by revising paragraph (g)(7) and the historical note to read as follows:

§ 1.801 Statutory provisions; definition of life insurance company.

Sec. 801. Definition of life insurance company. * * *

(g) Contracts with reserves based on segregated asset accounts. * * *

(7) *Basis of assets held for qualified pension plan contracts.* In the case of contracts described in subparagraph (A), (B), (C), (D), or (E) of section 805(d)(1), the basis of each asset in a segregated asset account shall (in addition to all other adjustments to basis) be—* * *

* * * * * *

[Sec. 801 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 36); sec. 2, Life Insurance Company Tax Act 1959 (73 Stat. 112); sec. 3, Act of October 23, 1962 (Pub. L. 87–858, 76 Stat. 1134); sec. 121, Tax Reform Act 1969 (83 Stat. 541); sec. 2002(g)(11), Employee Retirement Income Security Act 1974 (88 Stat. 970)]

§ 1.801–8 [Amended]

Par. *12.* Paragraph (g) of § 1.801–8 is amended by deleting "or (D)" the two places it appears therein and inserting in lieu thereof "(D), or (E)".

Par. *13.* Section 1.805 is amended by revising subsection (d)(1) and the historical note. These amended provisions read as follows:

§ 1.805 Statutory provisions; policy and other contract liability requirements.

Sec. 805 Policy and other contract liability requirements. * * *

(d) *Pension plan reserves—(1) Pension plan reserves defined.* For purposes of this part, the term "pension plan reserves" means that portion of the life insurance reserves which is allocable to contracts—

(A) Purchased under contracts entered into with trusts which (as of the time the contracts were entered into) were deemed to be (i) trusts described in section 401(a) and exempt from tax under section 501(a), or (ii) trusts exempt from tax under section 165 of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws;

(B) Purchased under contracts entered into under plans which (as of the time the contracts were entered into) were deemed to be plans described in section 403(a), or plans meeting the requirements of section 165(a)(3), (4), (5), and (6) of the Internal Revenue Code of 1939;

(C) Provided for employees of the life insurance company under a plan which, for the taxable year, meets the requirements of section 401(a)(3), (4), (5), (6), (8), (11), (12), (13), (14), (15), (16), and (19);

(D) Purchased to provide retirement annuities for its employees by an organization which (as of the time the contracts were purchased) was an organization described in section 501(c)(3) which was exempt from tax under section 501(a) or was an organization exempt from tax under section 101(6) of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws, or purchased to provide retirement annuities for employees described in section 403(b)(1)(A)(ii) by an employer which is a State, a political subdivision of a State, or an agency or instrumentality of any one or more of the foregoing; or

(E) Purchased under contracts entered into with trusts which (at the time the contracts were entered into) were individuals retirement accounts described in section 408(a) or under contracts entered into with individual retirement annuities described in section 408(b).

* * * * * *

[Sec. 805 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 43); sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 118); sec. 7, Self-Employed Individuals Tax Retirement Act 1962 (76 Stat. 828); sec. 907(a), Tax Reform Act 1969 (83 Stat. 715); secs. 1016(a)(6), 2002(g)(9), and 2004(c)(3), Employee Retirement Income Security Act 1974 (88 Stat. 929, 970, and 986)]

Par. *14.* Section 1.805–7 is amended by revising paragraphs (3) and (4) and adding a new paragraph (5) to paragraph (b) thereof to read as follows:

§ 1.805–7 Pension plan reserves.

* * * * * *

(b) *Pension plan reserves defined.* * * *

(3) Provided for employees of the life insurance company under a plan which for the taxable year meet the requirements of section 401(a)(3), (4), (5), (6), (7), (8), (11), (12), (13), (14), (15), (16), and (19) for the taxable year to which such paragraphs apply. For the purposes of this subparagraph, the term "employees" includes full-time life insurance salesmen treated as employees under section 7701(a)(20);

(4) Purchased to provide retirement annuities for the employees of an organization which (as of the time the contracts were purchased) was an organization described in section 501(c)(3) which was exempt from tax under section 501(a) or was an organization exempt from tax under section 101(6) of the Internal Revenue Code of 1939 or the corresponding provisions of prior revenue laws. The definition of pension plan reserves described in section 805(d)(1)(D) and this paragraph includes only life insurance reserves held under contracts purchased by those organizations described in section 501(c)(3) and exempt from tax under section 501(a), and does not include life insurance reserves held under contracts purchased by organizations described under any other provision of section 501(c). Accordingly, the reserves held under contracts purchased by such other exempt organizations, or by entities not subject to Federal income tax (such as a State, municipality, etc.), shall not be treated as pension plan reserves unless they qualify as such under section 805(d)(1)(A), (B), (C), or (E); or

(5) Purchased under contracts entered into with trusts which (at the time the contracts were entered into) were individual retirement accounts described in section 408(a) or under contracts entered into with individual retirement annuities described in section 408(b).

Internal Revenue Service

[26 CFR Part 1]

EMPLOYEES OF ORGANIZATIONS UNDER COMMON CONTROL

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by January 4, 1976. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit a request, in writing, to the Commissioner by January 4, 1976. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 414(b) and (c) (88 Stat. 925; 26 U.S.C. 414(b) and (c)) and 7805 (68A Stat. 917; 26 U.S.C. 7805) of the Internal Revenue Code of 1954.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains a proposed amendment to the Income Tax Regulations (26 CFR Part 1) under section 414(b) and (c) of the Internal Revenue Code of 1954, as added by section 1015 of the Employee Retirement Income Security Act of 1974 (88 Stat. 925), relating to employees of a controlled group of corporations and employees of partnerships, proprietorships, etc., which are under common control. The proposed regulations contained in this document also apply for purposes of section 210(c) and (d) of such Act (88 Stat. 866, 867).

Section 414(b) provides that if a single plan is adopted by two or more members of a controlled group of corporations, the minimum funding standard provided in section 412, the tax imposed by section 4971, and the applicable limitations provided by section 404(a) are determined as if such members were a single employer. For purposes of this rule, the term "controlled group of corporations" has the meaning assigned to it under section 1563(a) and the regulations thereunder, except that it does not include an "insurance group" described in section 1563(a)(4). Also, in determining whether a controlled group exists,

V 40 N 214 NOV 5 75 XUM

section 1563(e)(3)(C) (relating to constructive ownership of stock owned by an employee's trust) is not to be applied. For purposes of this rule, two or more corporations connected by stock ownership described in section 1563(a) (1), (2), or (3) are members of a controlled group of corporations whether or not they are "component members of a controlled group" within the meaning of section 1563(b).

Section 414(c) contains special rules which apply in the case of two or more trades or businesses which are under common control. If two or more trades or businesses are under common control, then for purposes of applying the provisions of sections 401 (qualified pension, profit-sharing, and stock bonus plans), 410 (minimum participation standards), 411 (minimum vesting standards), and 415 (limitations on benefits and contributions under qualified plans) all employees of all trades or businesses under common control are treated as employed by a single employer.

Proposed § 1.414(c)–2(a) provides that two or more trades or businesses are under common control if they constitute either a "parent-subsidiary group of trades or businesses under common control", a "brother-sister group of trades or businesses under common control", or a "combined group of trades or businesses under common control".

Paragraph (b)(1) of proposed § 1.414(c)–2 defines a parent-subsidiary group to mean one or more chains of organizations (sole proprietorships, partnerships, trusts, estates, and corporations) conducting trades or businesses connected through ownership of a controlling interest with a common parent organization if a controlling interest of each organization other than the common parent is owned by one or more of the other organizations and the common parent owns a controlling interest in at least one of the other organizations.

Paragraph (b)(2) of proposed § 1.414(c)–2 defines the phrase "controlling interest" to mean: ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of a corporation; ownership of an actuarial interest of at least 80 percent of a trust or estate; ownership of at least 80 percent of the profits or capital interest of a partnership; and ownership of 100 percent of a sole proprietorship.

Paragraph (c)(1) of proposed § 1.414(c)–2 defines a brother-sister group to mean two or more organizations conducting trades or businesses if the same five or fewer persons who are individuals, estates, or trusts own a controlling interest of each organization and effective control of each organization exists taking into account the ownership of each such person only to the extent such ownership is identical with respect to each organization. Paragraph (c)(2) of proposed § 1.414(c)–2 defines the phrase "effective control" to be an ownership interest of more than 50 percent.

Paragraph (d) of proposed § 1.414(c)–2 defines a combined group to mean any group of three or more organizations if each organization is a member of either a parent-subsidiary group or a brother-sister group and at least one such organization is the common parent of a parent-subsidiary group and is also a member of a brother-sister group.

Proposed §1.414(c)–3 provides that in the determination of controlling interest or effective control certain interests or stock are to be excluded and treated as not outstanding. Paragraph (b) of proposed § 1.414(c)–3 provides the rules for a parent-subsidiary group and paragraph (c) provides the rules for a brother-sister group. The purpose of these rules is to prevent persons from divesting themselves of sufficient ownership to avoid the application of proposed § 1.414(c)–2 without divesting themselves, as a practical matter, of the benefits of the ownership of an organization.

Proposed § 1.414(c)–4 provides constructive ownership rules that apply in determining the ownership of an interest in an organization.

Proposed amendment to the regulations. In order to conform the Income Tax Regulations (26 CFR Part 1) to reflect the addition of section 414 (b) and (c) to the Internal Revenue Code of 1954 by section 1015 of the Employee Retirement Income Security Act of 1974 (88 Stat. 925) and to prescribe rules under section 210 (c) and (d) of such Act (88 Stat. 866, 867), the Income Tax Regulations are amended as follows:

The following new sections are proposed to be added immediately after § 1.405–3:

§ 1.414(b) Statutory provisions; definitions and special rules; employees of controlled group of corporations.

Sec. 414. *Definitions and special rules.*

* * * * *

(b) *Employees of controlled group of corporations.* For purposes of sections 401, 410, 411, and 415, all employees of all corporations which are members of a controlled group of corporations (within the meaning of section 1563(a), determined without regard to section 1563(a)(4) and (e)(3)(C)) shall be treated as employed by a single employer. With respect to a plan adopted by more than one such corporation, the minimum funding standard of section 412, the tax imposed by section 4971, and the applicable limitations provided by section 404(a) shall be determined as if all such employers were a single employer, and allocated to each employer in accordance with regulations prescribed by the Secretary or his delegate.

[Sec. 414(b) as added by sec. 1015, Employee Retirement Income Security Act, 1974 (88 Stat. 925)]

§ 1.414(b)–1 Controlled group of corporations.

(a) *Definition of controlled group of corporations.* For purposes of this section, the term "controlled group of corporations" has the same meaning as is assigned to the term in section 1563(a) and the regulations thereunder, except that (1) the term "controlled group of corporations" shall not include an "insurance group" described in section 1563 (a)(4) and (2) section 1563(e)(3)(C) (relating to stock owned by employees' trust) shall not apply. For purposes of this section, the term "members of a controlled group" means two or more corporations connected through stock ownership described in section 1563(a) (1), (2), or (3), whether or not such corporations are "component members of a controlled group" within the meaning of section 1563(b). Two or more corporations are members of a controlled group at any time such corporations meet the requirements of section 1563(a) (as modified by this paragraph). For purposes of this section, if a corporation is a member of more than one controlled group of corporations, such corporation shall be treated as a member of each controlled group.

(b) *Single plan adopted by two or more members.* If two or more members of a controlled group of corporations adopt a single plan for a plan year, then the minimum funding standard provided in section 412, the tax imposed by section 4971, and the applicable limitations provided by section 404(a) shall be determined as if such members were a single employer. In such a case, the amount of such items and the allocable portion attributable to each member shall be determined in the manner provided in regulations under sections 412, 4971, and 404(a).

(c) *Cross reference.* For rules relating to the application of sections 401, 410, 411, and 415 with respect to two more trades or business which are under common control, see section 414(c) and the regulations thereunder.

§ 1.414(c) Statutory provisions; definitions and special rules; employees of partnerships, proprietorships, etc., which are under common control.

Sec. 414. *Definitions and special rules.*

* * * * *

(c) *Employees of partnerships, proprietorships, etc., which are under common control.* For purposes of sections 401, 410, 411, and 415, under regulations prescribed by the Secretary or his delegate, all employees of trades or businesses (whether or not incorporated) which are under common control shall be treated as employed by a single employer. The regulations prescribed under this subsection shall be based on principles similar to the principles which apply in the case of subsection (b).

[Sec. 414(c) as added by sec. 1015, employee Income Retirement Security Act, 1974 (88 Stat. 925)]

§ 1.414(c)–1 Commonly controlled trades or businesses.

For purposes of applying the provisions

For purposes of applying the provisions of sections 401 (relating to qualified pension, profit-sharing, and stock bonus plans), 410 (relating to minimum participation standards), 411 (relating to minimum vesting standards), and 415 (relating to limitations on benefits and contributions under qualified plans), all employees of two or more trades or businesses under common control within the meaning of § 1.414(c)–2 for any period shall be treated as employed by a single employer. See sections 401, 410, 411, and 415 and the regulations thereunder for rules relating to employees of trades or businesses which are under common control. See § 1.414(c)–5 for effective date.

§ 1.414(c)–2 Two or more trades or businesses under common control.

(a) *In general.* For purposes of this section, the term "two or more trades or businesses under common control" means any group of trades or businesses which is either a "parent-subsidiary group of trades or businesses under common control" as defined in paragraph (b) of this section, a "brother-sister group of trades or businesses under common control" as defined in paragraph (c) of this section, or a "combined group of trades or businesses under common control" as defined in paragraph (d) of this section. For purposes of this section and §§ 1.414(c)–3 and 1.414(c)–4, the term "organization" means a sole proprietorship, a partnership (as defined in section 7701(a)(2)), a trust, an estate, or a corporation.

(b) *Parent-subsidiary group of trades or businesses under common control—(1) General.* The term "parent-subsidiary group of trades or businesses under common control" means one or more chains of organizations conducting trades or businesses connected through ownership of a controlling interest with a common parent organization if—

(i) A controlling interest in each of the organizations, except the common parent organization, is owned (directly and with the application of § 1.414(c)–4(b)(1), relating to options) by one or more of the other organizations; and

(ii) The common parent organization owns (directly and with the application of § 1.414(c)–4(b)(1), relating to options) a controlling interest in at least one of the other organizations, excluding, in computing such controlling interest, any direct ownership interest by such other organizations.

(2) *Controlling interest defined—(i) Controlling interest.* For purposes of paragraphs (b) and (c) of this section, the phrase "controlling interest" means:

(A) In the case of an organization which is a corporation, ownership of stock possessing at least 80 percent of total combined voting power of all classes of stock entitled to vote of such corporation or at least 80 percent of the total value of shares of all classes of stock of such corporation;

(B) In the case of an organization which is a trust or estate, ownership of an actuarial interest of at least 80 percent of such trust or estate;

(C) In the case of an organization which is a partnership, ownership of at least 80 percent of the profits interest or capital interest of such partnership; and

(D) In the case of an organization which is a sole proprietorship, ownership of such sole proprietorship.

(ii) *Actuarial interest.* For purposes of this section, the actuarial interest of each beneficiary of a trust or estate shall be determined by assuming the maximum exercise of discretion by the fiduciary in favor of such beneficiary. The factors and methods prescribed in § 20.2031–10 of this chapter (Estate Tax Regulations) for use in ascertaining the value of an interest in property for estate tax purposes shall be used for purposes of this subdivision in determining a beneficiary's actuarial interest.

(c) *Brother-sister group of trades or businesses under common control—(1) General.* The term "brother-sister group of trades or businesses under common control" means two or more organizations conducting trades or businesses if (i) the same five or fewer persons who are individuals, estates, or trusts own (directly and with the application of § 1.414(c)–4), singly or in combination, a controlling interest of each organization, and (ii) taking into account the ownership of each such person only to the extent such ownership is identical with respect to each such organization, such persons are in effective control of each organization.

(2) *Effective control defined.* For purposes of this paragraph, persons are in "effective control" of an organization if—

(i) In the case of an organization which is a corporation, such persons own stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote of such corporation or more than 50 percent of the total value of shares of all classes of stock of such corporation;

(ii) In the case of an organization which is a trust or estate, such persons own an aggregate actuarial interest of more than 50 percent of such trust or estate;

(iii) In the case of an organization which is a partnership, such persons own an aggregate of more than 50 percent of the profits interest or capital interest of such partnership; and

(iv) In the case of an organization which is a sole proprietorship, such persons own such sole proprietorship.

(d) *Combined group of trades or businesses under common control.* The term "combined group of trades or businesses under common control" means any group of three or more organizations, if (1) each such organization is a member of either a parent-subsidiary group of trades or businesses under common control or a brother-sister group of trades or businesses under common control, and (2) at least one such organization is the common parent organization of a parent-subsidiary group of trades or businesses under common control and is also a member of a brother-sister group of trades or businesses under common control.

(e) *Examples.* The definitions of parent-subsidiary group of trades or businesses under common control, brother-sister group of trades or businesses under common control, and combined group of trades or businesses under common control may be illustrated by the following examples.

Example (1). (a) The ABC Partnership owns stock possessing 80 percent of the total combined voting power of all classes of stock entitled to vote of S Corporation. ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership and S Corporation.

(b) Assume the same facts as in (a) and assume further that S owns 80 percent of the profits interest in the DEF Partnership. The ABC Partnership is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership, S Corporation, and the DEF Partnership. The result would be the same if the ABC Partnership, rather than S, owned 80 percent of the profits interest in the DEF Partnership.

Example (2). L Corporation owns 80 percent of the only class of stock of T Corporation, and T, in turn owns 40 percent of the capital interest in the GHI Partnership. L also owns 80 percent of the only class of stock of N Corporation and N, in turn, owns 40 percent of the capital interest in the GHI Partnership. L is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of L Corporation, T Corporation, N Corporation, and the GHI Partnership.

Example (3). ABC Partnership owns 75 percent of the only class of stock of X and Y Corporations; X owns all the remaining stock of Y, and Y owns all the remaining stock of X. Since interorganization ownership is excluded (that is, treated as not outstanding) for purposes of determining whether ABC owns a controlling interest of at least one of the other organizations, ABC is treated as the owner of stock possessing 100 percent of the voting power and value of X and of Y for purposes of paragraph (b)(1)(ii) of this section. Therefore, ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of the ABC Partnership, X Corporation, and Y Corporation.

Example (4). Unrelated individuals A, B, C, D, E, and F own an interest in sole proprietorship A, a capital interest in the GHI Partnership, and stock of corporations W, X, Y, and Z (each of which has only one class of stock outstanding) in the following proportions:

[In percent]

Individuals	Organizations						Identical ownership
	A	GHI	W	X	Y	Z	
A	100	60	60	60	60	60	60
B		40					
C			40				
D				40			
E					40		
F						40	
Total	100	100	100	100	100	100	60

Under these facts the following brother-sister groups of trades or businesses under common control exist: A, GHI, W, X, and Y; A, GHI, W, X, and Z; A, GHI, W, Y, and Z; A, GHI, X, Y, and Z; and A, W, X, Y, and Z.

Example (5). The outstanding stock of corporations U and V, which have only one class of stock outstanding, is owned by unrelated individuals as follows:

V40-214
NOV 5 75
XUM

[In percent]

Individuals	Organizations		Identical ownership
	U	V	
F	5		
G	10		
H	10		
I	20		
J	55	55	55
K		10

Total	100	100	55

Corporations U and V are not members of a brother-sister group of trades or businesses under common control because at least 80 percent of the stock of each corporation is not owned by the same five or fewer persons.

Example (6). A, an individual, owns a controlling interest in ABC Partnership and DEF Partnership. ABC, in turn, owns a controlling interest in X Corporation. Since ABC, DEF, and X are each members of either a parent-subsidiary group or a brother-sister group of trades or businesses under common control, and ABC is the common parent of a parent-subsidiary group of trades or businesses under common control consisting of ABC and X, and also a member of a brother-sister group of trades or businesses under common control consisting of ABC and DEF, ABC Partnership, DEF Partnership, and X Corporation are members of the same combined group of trades or businesses under common control.

§ 1.414(c)–3 Exclusion of certain interests or stock in determining control.

(a) *In general.* For purposes of § 1.414(c)–2(b)(2)(i) and (c)(2), the term "interest" and the term "stock" do not include an interest which is treated as not outstanding under paragraph (b) of this section in the case of a parent-subsidiary group of trades or businesses under common control or under paragraph (c) of this section in the case of a brother-sister group of trades or businesses under common control. In addition, the term "stock" does not include treasury stock or nonvoting stock which is limited and preferred as to dividends. For definitions of certain terms used in this section, see paragraph (d) of this section.

(b) *Parent-subsidiary group of trades or businesses under common control*—(1) *In general.* If an organization (hereinafter in this section referred to as "parent organization") owns (within the meaning of paragraph (b)(2) of this section)—

(i) In the case of a corporation, 50 percent or more of the total combined voting power of all classes of stock entitled to vote or of the total value of shares of all classes of stock of such corporation,

(ii) In the case of a trust or an estate, an actuarial interest (within the meaning of § 1.414(c)–2(b)(2)(ii)) of 50 percent or more of such trust or estate, and

(iii) In the case of a partnership, 50 percent or more of the profits or capital interest of such partnership,

then for purposes of determining whether the parent organization or such other organization (hereinafter in this section referred to as "subsidiary organization") is a member of a parent-subsidiary group of trades or businesses under common control, an interest in such subsidiary organization excluded under paragraph (b)(3), (4), (5), or (6) of this section shall be treated as not outstanding.

(2) *Ownership.* For purposes of paragraph (b)(1) of this section, a parent organization shall be considered to own an interest in or stock of another organization which it owns directly or indirectly with the application of paragraph (b)(1) of § 1.414(c)–4 and—

(i) In the case of a parent organization which is a partnership, a trust, or an estate, with the application of paragraph (b)(2), (3), and (4) of § 1.414(c)–4, and

(ii) In the case of a parent organization which is a corporation, with the application of paragraph (b)(4) of § 1.414(c)–4.

(3) *Plan of deferred compensation.* An interest which is an interest in or stock of the subsidiary organization held by a trust which is part of a plan of deferred compensation (within the meaning of section 406(a)(3) and the regulations thereunder) for the benefit of the employees of the parent organization or the subsidiary organization shall be excluded.

(4) *Principal owners, officers, etc.* An interest which is an interest in or stock of the subsidiary organization owned (directly and with the application of § 1.414(c)–4) by an individual who is a principal owner, officer, partner, or fiduciary of the parent organization shall be excluded.

(5) *Employees.* An interest which is an interest in or stock of the subsidiary organization owned (directly and with the application of § 1.414(c)–4) by an employee of the subsidiary organization shall be excluded if such interest or such stock is subject to conditions which substantially restrict or limit the employee's right (or if the employee constructively owns such interest or such stock, the direct or record owner's right) to dispose of such interest or such stock and which run in favor of the parent or subsidiary organization.

(6) *Controlled exempt organization.* An interest which is an interest in or stock of the subsidiary organization shall be excluded if owned (directly and with the application of § 1.414(c)–4) by an organization (other than the parent organization):

(i) To which section 501 (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(ii) Which is controlled directly or indirectly (within the meaning of paragraph (d)(7) of this section) by the parent organization or subsidiary organization, by an individual, estate, or trust that is a principal owner of the parent organization, by an officer, partner, or fiduciary of the parent organization, or by any combination thereof.

(c) *Brother-sister group of trades or businesses under common control*—(1) *In general.* If five or fewer persons (hereinafter in this section referred to as "common owners") who are individuals, estates, or trusts, own (directly and with the application of § 1.414(c)–4)—

(i) In the case of a corporation, 50 percent or more of the total combined voting power of all classes of stock entitled to vote or of the total value of shares of all classes of stock of such corporation,

(ii) In the case of a trust or an estate, an actuarial interest (within the meaning of § 1.414(c)–2(b)(2)(ii)) of 50 percent or more of such trust or estate, and

(iii) In the case of a partnership, 50 percent or more of the profits or capital interest of such partnership,

then for purposes of detremining whether such organization is a member of a brother-sister group of trades or businesses under common control, an interest in such organization excluded under paragraph (c)(2), (3), or (4) of this section shall be treated as not outstanding.

(2) *Exempt employee's trust.* An interest which is an interest in or stock of such organization held by an employee's trust described in section 401(a) which is exempt from tax under section 501(a) shall be excluded if such trust is for the benefit of the employees of such organization.

(3) *Employees.* An interest which is an interest in or stock of such organization owned (directly and with the application of § 1.414(c)–4) by an employee of such organization shall be excluded if such interest or stock is subject to conditions which run in favor of a common owner of such organization or in favor of such organization and which substantially restrict or limit the employee's right (or if the employee constructively owns such interest or stock, the direct or record owner's right) to dispose of such interest or stock.

(4) *Controlled exempt organization.* An interest which is an interest in or stock of such organization shall be excluded if owned (directly and with the application of § 1.414(c)–4) by an organization:

(i) To which section 501(c)(3) (relating to certain educational and charitable organizations which are exempt from tax) applies, and

(ii) which is controlled directly or indirectly (within the meaning of paragraph (d)(7) of this section) by such organization, by an individual, estate, or trust that is a principal owner of such organization, by an officer, partner, or fiduciary of such organization, or by any combination thereof.

(d) *Definitions*—(1) *Employee.* For purposes of this section, the term "employee" has the same meaning such term is given in section 3306(i) of the Code (relating to definitions for purposes of the Federal Unemployment Tax Act).

(2) *Principal owner.* For purposes of this section, the term "principal owner" means a person who owns (directly and with the application of § 1.414(c)–4)—

(i) In the case of a corporation, 5 percent or more of the total combined voting power of all classes of stock entitled to vote in such corporation or of the total value of shares of all classes of stock of such corporation;

(ii) In the case of a trust or estate, an actuarial interest of 5 percent or more of such trust or estate; or

(iii) In the case of a partnership, 5 percent or more of the profits interest or capital interest of such partnership.

(3) *Officer.* For purposes of this section, the term "officer" includes the president, vice-presidents, general manager, treasurer, secretary, and comptroller of a corporation, and any other person who performs duties corresponding to those normally performed by persons occupying such positions.

(4) *Partner.* For purposes of this section, the term "partner" means any person defined in section 7701(a)(2) (relating to definitions of partner).

(5) *Fiduciary.* For purposes of this section and § 1.414(c)–(4), the term "fiduciary" has the same meaning as such trem is given in section 7701(a)(6) and the regulations thereunder.

(6) *Substantial conditions.* (i) *In general.* For purposes of this section, an interest in or stock of an organization is subject to conditions which substantially restrict or limit the right to dispose of such interest or stock and which run in favor of another person if the condition extends directly or indirectly to such person rights with respect to the acquisition of the direct owner's (or the record owner's) interest or stock. For a condition to be in favor of another person it is not necessary that such person be extended a discriminatory concession with respect to price. A right of first refusal with respect to an interest or stock in favor of another person is a condition which substantially restricts or limits the direct or record owner's right of disposition which runs in favor of such person. Further, any legally enforceable condition which prohibits the direct or record owner from disposing of his or her interest or stock without the consent of another person will be considered to be a substantial limitation running in favor of such person.

(ii) *Special rule.* For purposes of paragraph (c)(3) of this section only, if a condition which restricts or limits an employee's right (or direct or record owner's right) to dispose of his or her interest or stock also applies to the interest or stock in such organization held by a common owner pursuant to a bona fide reciprocal purchase arrangement, such condition shall not be treated as a substantial limitation or restriction. An example of a reciprocal purchase arrangement is an agreement whereby a common owner and the employee are given a right of first refusal with respect to stock of the employer corporation owned by the other party. If, however, the agreement also provides that the common owner has the right to purchase the stock of the employer corporation owned by the employee in the event the corporation should discharge the employee for reasonable cause, the purchase arrangement would not be reciprocal within the meaning of this subdivision.

(7) *Control.* For purposes of paragraps (b)(6) and (c)(4) of this section, the term "control" means control in fact. The determination of whether there exists control in fact will depend upon all of the facts and circumstances of each case, without regard to whether such control is legally enforceable and irrespective of the method by which such control is exercised or exercisable.

(e) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). ABC Partnership owns 70 percent of the capital interest and of the profits interest in the DEF Partnership. The remaining capital interest and profits interest in DEF is owned as follows: 4 percent by A (a general partner in ABC), and 26 percent by D (a limited partner in ABC). ABC satisfies the 50-percent capital interest or profits interest ownership requirement of paragraph (b)(1)(iii) of this section with respect to DEF. Since A and D are partners of ABC, under paragraph (b)(4) of this section the capital and profits interests in DEF owned by A and D are treated as not outstanding for purposes of determining whether ABC and DEF are members of a parent-subsidiary group of trades or businesses under common control under § 1.414(c)–2(b). Thus, ABC is considered to own 100 percent (70÷70) of the capital interest and profits interest in DEF. Accordingly, ABC and DEF are members of a parent-subsidiary group of trades or businesses under common control.

Example (2). Assume the same facts as in example (1) and assume further that A owns 15 shares of the 100 shares of the only class of stock of S Corporation and DEF Partnership owns 75 shares of such stock. ABC satisfies the 50 percent stock requirement of paragraph (b)(1)(i) of this section with respect to S since ABC is considered as owning 52.5 percent (70 percent×75 percent) of the S stock with the application of § 1.414(c)–4(b)(2). Since A is a partner of ABC, the S stock owned by A is treated as not outstanding for purposes of determining whether S is a mmeber of a parent-subsidiary group of trades or businesses under common control. Thus, DEF Partnership is considered to own stock possessing 88.2 percent (75÷85) of the voting power and value of the S Stock. Accordingly, ABC Partnership, DEF Partnership, and S Corporation are members of a parent-subsidiary group of trades or businesses under common control.

Example (3). ABC Partnership owns 60 percent of the only class of stock of Corporation Y. D, the president of Y, owns the remaining 40 percent of the stock of Y. D has agreed that if she offers her stock in Y for sale she will first offer the stock to ABC at a price equal to the fair market value of the stock on the first date the stock is offered for sale. Since D is an employee of Y within the meaning of section 3306(i) of the Code and her stock in Y is subject to a condition which substantially restricts or limits her right to dispose of such stock and runs in favor of ABC Partnership, under paragraph (b)(5) of this section such stock is treated as not outstanding for purposes of determining whether ABC and Y are members of a parent-subsidiary group of trades or businesses under common control. Thus, ABC Partnership is considered to own stock possessing 100 percent of the voting power and value of the stock of Y. Accordingly, ABC Partnership and Y Corporation are members of a parent-subsidiary group of trades or businesses under common control. The result would be the same if D's husband, instead of D, owned directly the 40 percent stock interest in Y and such stock was subject to a right of first refusal running in favor of ABC Partnership.

§ 1.414(c)–4 Rules for determining ownership.

(a) *In general.* In determining the ownership of an interest in an organization for purposes of § 1.414(c)–2 and § 1.414(c)–3, the constructive ownership rules of paragraph (b) of this section shall apply, subject to the operating rules contained in paragraph (c). For purposes of this section the term "interest" means: in the case of a corporation, stock; in the case of a trust or estate, an actuarial interest; in the case of a partnership, an interest in the capital or profits; and in the case of a sole proprietorship, the proprietorship.

(b) *Constructive ownership*—(1) *Options.* If a person has an option to acquire any outstanding interest in an organization, such interest shall be considered as owned by such person. For this purpose, an option to acquire an option, and each one of a series of such options, shall be considered as an option to acquire such interest.

(2) *Attribution from partnerships*—(i) *General.* An interest owned, directly or indirectly, by or for a partnership shall be considered as owned by any partner having an interest of 5 percent or more in either the profits or capital of the partnership in proportion to such partner's interest in the profits or capital, whichever such proportion is greater.

(ii) *Example.* The provisions of paragraph (b)(2)(i) of this section may be illustrated by the following example:

Example. A, B, and C, unrelated individuals, are partners in the ABC Partnership. The partners' interests in the capital and profits of ABC are as follows:

[In percent]

Partner	Capital	Profits
A	36	25
B	60	71
C	4	4

The ABC Partnership owns the entire outstanding stock (100 shares) of X Corporation. Under paragraph (b)(2)(i) of this section, A is considered to own the stock of X owned by the partnership in proportion to his interest in capital (36 percent) or profits (25 percent), whichever such proportion is greater. Therefore, A is considered to own 36 shares of X stock. Since B has a greater interest in the profits of the partnership than in the capital, B is considered to own X stock in proportion to his interest in such profits. Therefore, B is considered to own 71 shares of X stock. Since C does not have an interest of 5 percent or more in either the capital or profits of ABC, he is not considered to own any shares of X stock.

(3) *Attribution from estates and trusts*—(i) *In general.* An interest in an

V 40 N 214
NOV 5 75
XUM

organization (hereinafter called an "organization interest") owned, directly or indirectly, by or for an estate or trust shall be considered as owned by any beneficiary of such estate or trust who has an actuarial interest of 5 percent or more in such organization interest, to the extent of such actuarial interest. For purposes of this subparagraph, the actuarial interest of each beneficiary shall be determined by assuming the maximum exercise of discretion by the fiduciary in favor of such beneficiary and the maximum use of the organization interest to satisfy the beneficiary's rights. A beneficiary of an estate or trust who cannot under any circumstances receive any part of an organization interest held by the estate or trust, including the proceeds from the disposition thereof, or the income therefrom, does not have an actuarial interest in such organization interest. Thus, where stock owned by a decedent's estate has been specifically bequeathed to certain beneficiaries and the remainder of the estate has been specifically bequeathed to other beneficiaries, the stock is attributable only to the beneficiaries to whom it is specifically bequeathed. Similarly a remainderman of a trust who cannot under any circumstances receive any interest in the stock of a corporation which is a part of the corpus of the trust (including any accumulated income therefrom or the proceeds from a disposition thereof) does not have an actuarial interest in such stock. However, an income beneficiary of a trust does have an actuarial interest in stock if he has any right to the income from such stock even though under the terms of the trust instrument such stock can never be distributed to him. The factors and methods prescribed in § 20.2031–10 of this chapter (Estate Tax Regulations) for use in ascertaining the value of an interest in property for estate tax purposes shall be used for purposes of this subdivision in determining a beneficiary's actuarial interest in an organization interest owned directly or indirectly by or for an estate or trust.

(ii) *Special rules for estates.* (A) For purposes of paragraph (b)(3) with respect to an estate, property of a decedent shall be considered as owned by his or her estate if such property is subject to administration by the executor or administrator for the purposes of paying claims against the estate and expenses of administration notwithstanding that, under local law, legal title to such property vests in the decedent's heirs, legatees or devisees immediately upon death.

(B) For purposes of paragraph (b)(3) with respect to an estate, the term "beneficiary" includes any person entitled to receive property of a decendent pursuant to a will or pursuant to laws of descent and distribution.

(C) For purposes of paragraph (b)(3) with respect to an estate, a person shall no longer be considered a beneficiary of an estate when all the property to which he or she is entitled has been received by him or her, when he or she no longer has a claim against the estate arising out of having been a beneficiary, and when there is only a remote possibility that it will be necessary for the estate to seek the return of property from him or her or to seek payment from him or her by contribution or otherwise to satisfy claims against the estate or expenses of administration.

(iii) *Grantor trusts, etc.* An interest owned, directly or indirectly, by or for any portion of a trust of which a person is considered the owner under subpart E, part I, subchapter J of the Code (relating to grantors and others treated as substantial owners) is considered as owned by such person.

(4) *Attribution from corporations*—(i) *General.* An interest owned, directly or indirectly, by or for a corporation shall be considered as owned by any person who owns (directly and, in the case of a parent-subsidiary group of trades or businesses under common control, with the application of paragraph (b)(1) of this section, or in the case of a brother-sister group of trades or business under common control, with the application of this section), 5 percent or more in value of the stock in that proportion which the value of the stock which such person so owns bears to the total value of all the stock in such corporation.

(ii) *Example.* The provisions of paragraph (b)(4)(i) of this section may be illustrated by the following example:

Example. B, an individual, owns 60 of the 100 shares of the only class of outstanding stock of corporation P. C, and individual, owns 4 shares of the P stock, and corporation X owns 36 shares of the P stock. Corporation P owns, directly and indirectly, 50 shares of the stock of S. Under this subparagraph, B is considered to own 30 shares of the S stock (60/100×50), and X is considered to own 18 shares of S stock (36/100×50). Since C does not own 5 percent or more in the value of P stock, he is not considered as owning any of the S stock owned by P. If in this example, C's wife had owned directly 1 share of the P stock, C and his wife would each own 5 shares of the P stock, and therefore C and his wife would be considered as owning 2.5 shares of the S stock (5/100×50).

(5) *Spouse*—(i) *General rule.* Except as provided in paragraph (b)(5)(ii) of this section, an individual shall be considered to own an interest owned, directly or indirectly, by or for his or her spouse, other than a spouse who is legally separated from the individual under a decree of divorce, whether interlocutory or final, or a decree of separate maintenance.

(ii) *Exception.* An individual shall not be considered to own an interest in an organization owned, directly or indirectly, by or for his or her spouse on any day of a taxable year of such organization, provided that each of the following conditions are satisfied with respect to such taxable year:

(A) Such individual does not, at any time during such taxable year, own directly any interest in such organization;

(B) Such individual is not a member of the board of directors, a fiduciary, or an employee of such organization and does not participate in the management of such organization at any time during such taxable year;

(C) Not more than 50 percent of such organization's gross income for such taxable year was derived from royalties, rents, dividends, interest, and annuities; and

(D) Such interest in such organization is not, at any time during such taxable year, subject to conditions which substantially restrict or limit the spouse's right to dispose of such interest and which run in favor of the individual or the individual's children who have not attained the age of 21 years. The principles of § 1.414(c)–3(d)(6)(i) shall apply in determining whether a condition is a condition described in the preceding sentence.

(iii) *Definitions.* For purposes of paragraph (b)(5)(ii)(C) of this section, the gross income of an organization shall be determined under section 61 and the regulations thereunder. The terms "interest", "royalties", "rents", "dividends", and "annuities" shall have the same meaning such terms are given for purposes of section 1244(c) and § 1.1244(c)–1(g)(1).

(6) *Children, grandchildren, parents, and grandparents*—(i) *Children and parents.* An individual shall be considered to own an interest owned, directly or indirectly, by or for the individual's children who have not attained the age of 21 years, and if the individual has not attained the age of 21 years, an interest owned, directly or indirectly, by or for the individual's parents.

(ii) *Children, grandchildren, parents, and grandparents.* If an individual is in effective control (within the meaning of § 1.414(c)–2(c)(2)), directly and with the application of the rules of this paragraph without regard to this subdivision, of an organization, then such individual shall be considered to own an interest in such organization owned, directly or indirectly, by or for the individual's parents, grandparents, grandchildren, and children, who have attained the age of 21 years.

(iii) *Adopted children.* For purposes of this section, a legally adopted child of an individual shall be treated as a child of such individual.

(iv) *Example.* The provisions of this subparagraph (6) may be illustrated by the following example:

Example—(A) *Facts.* Individual F owns directly 40 percent of the profits interest of the DEF Partnership. His son, M, 20 years of age, owns directly 30 percent of the profits interest of DEF, and his son, A, 30 years of age, owns directly 20 percent of the profits interest of DEF. The 10 percent remaining of the profits interest and 100 percent of the capital interest of DEF is owned by an unrelated person.

(B) *F's ownership.* F owns 40 percent of the profits interest in DEF directly and is considered to own the 30 percent profits interest owned directly by M. Since, for purposes of the effective control test contained in paragraph (b)(6)(ii) of this section, F is treated as owning 70 percent of the profits interest of DEF, F is also considered as owning the 20 percent profits interest of DEF owned by his adult son, A. Accordingly, F is considered as owning a total of 90 percent of the profits interest in DEF.

(C) *M's ownership.* Minor son, M, owns 30 percent of the profits interest in DEF directly, and is considered to own the 40 percent profits interest owned directly by his father, F. However, M is not considered to own the 20 percent profits interest of DEF owned directly by his brother, A, and constructively by F, because an interest constructively owned by F by reason of family attribution is not considered as owned by him for purposes of making another member of his family the constructive owner of such interest. (See paragraph (c)(2) of this section.) Accordingly, M owns and is considered as owning a total of 70 percent of the profits interest of the DEF Partnership.

(D) *A's ownership.* Adult son, A, owns 20 percent of the profits interest in DEF directly. Since, for purposes of determining whether A effectively controls DEF under paragraph (b)(6)(ii) of this section, A is treated as owning only the percentage of profits interest he owns directly, he does not satisfy the condition precedent for the attribution of the DEF profits interest from his father. Accordingly, A is treated as owning only the 20 percent profits interest in DEF which he owns directly.

(c) *Operating rules*—(1) *In general.* Except as provided in paragraph (c)(2) of this section, an interest constructively owned by a person by reason of the application of paragraph (b)(1), (2), (3), (4), (5), or (6) of this section shall, for the purposes of applying such paragraph, be treated as actually owned by such person.

(2) *Members of family.* An interest constructively owned by an individual by reason of the application of paragraph (b)(5) or (6) of this section shall not be treated as owned by such individual for purposes of again applying such subparagraphs in order to make another the constructive owner of such interest.

(3) *Precedence of option attribution.* For purposes of this section, if an interest may be considered as owned under paragraph (b)(1) of this section (relating to option attribution) and under any other subparagraph of paragraph (b) of this section, such interest shall be considered as owned by such person under paragraph (b)(1) of this section.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A, 30 years of age, has a 90 percent interest in the capital and profits of DEF Partnership. DEF owns all the outstanding stock of corporation X and X owns 60 shares of the 100 outstanding shares of corporation Y. Under paragraph (c)(1) of this section, the 60 shares of Y constructively owned by DEF by reason of paragraph (b)(4) of this section are treated as actually owned by DEF for purposes of applying paragraph (b)(2) of this section. Therefore, A is considered as owning 54 shares of the Y stock (90 percent of 60 shares).

Example (2). Assume the same facts as in example (1). Assume further that B, who is 20 years of age and the brother of A, directly owns 40 shares of Y stock. Although the stock of Y owned by B is considered as owned by C (the father of A and B) under paragraph (b)(6)(i) of this section, under paragraph (c)(2) of this section such stock may not be treated as owned by C for purposes of applying paragraph (b)(6)(ii) of this section in order ot make A the constructive owner of such stock.

Example (3). Assume the same facts assumed for purposes of example (2), and further assume that C has an option to acquire the 40 shares of Y stock owned by his son, B. The rule contained in paragraph (c)(2) of this section does not prevent the reattribution of such 40 shares to A because, under paragraph (c)(3) of this section, C is considered as owning the 40 shares by reason of option attribution and not by reason of family attribution. Therefore, since A is in effective control of Y under paragraph (b)(6)(ii) of this section, the 40 shares of Y stock constructively owned by C are reattributed to A. A is considered as owning a total of 94 shares of Y stock.

§ 1.414(c)–5 Effective date.

(a) *General rule.* Except as provided in paragraph (b) or (c) of this section, the provisions of § 1.414(b), § 1.414(b)–1, and §§ 1.414(c) through 1.414(c)–4 shall apply for plan years beginning after September 2, 1974.

(b) *Existing plans.* In the case of a plan in existence on January 1, 1974, unless paragraph (c) of this section applies, the provisions of § 1.414(b), § 1.414(b)–1, and §§ 1.414(c) through 1.414(c)–4 shall apply for plan years beginning after December 31, 1975. For definition of the term "existing plan", see proposed § 1.410(a)–2(c).

(c) *Existing plans electing new provisions.* In the case of a plan in existence on January 1, 1974, for which the plan (a)–2(d), the provisions of § 1.414(b), (a)–2(d), the provisions of §1.414(b), § 1.414(b)–1, and §§ 1.414(c) through 1.414(c)–4 shall apply to plan years as in § 11.410(a)–2(d).

(d) *Application.* For purposes of the Employee Retirement Income Security Act of 1974, the provisions of § 1.414(b), § 1.414(b)–1 and §§ 1.414(c) through 1.414(c)–4 do not apply for any period of time before the plan years described in paragraph (a), (b), or (c) of this section, whichever is applicable.

[FR Doc.75-29666 Filed 10-31-75;11:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 984]

WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

Proposed Modification of Minimum Grade Standards for Inshell Walnuts

Notice is hereby given of a proposal to modify the minimum grade standards for inshell walnuts effective pursuant to § 984.50(a) of the marketing agreement, as amended, and Order No. 984, as amended (7 CFR Part 984), for walnuts shipped into domestic and export outlets. The marketing agreement and order (hereinafter referred to collectively as the "order"), regulating the handling of walnuts grown in California, Oregon, and Washington, and are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal is based on a recommendation of the Walnut Marketing Board to better the quality of inshell walnuts and thereby maintain consumer acceptability and sales.

Section 984.50(a) of the order prescribes minimum standards for inshell walnuts and provides that they may be modified by the Secretary on the basis of a Board recommendation or other information. Such standards require that inshell walnuts handled be equal to or better than the requirements of U.S. No. 2 grade and baby size as defined in the then effective United States Standards for Walnuts (Juglans regia) in the Shell (29 FR 12865; 33 FR 10840). U.S. No. 2 grade allows a total tolerance of 20 percent, by count, for internal grade defects, but not more than 10 percent of the walnuts may be damaged by mold or insects or seriously damaged by other means, of which not more than ½ or 5 percent may be damaged by insects. No part of any tolerance is allowed for walnuts containing live insects. Internal grade defects are mold, shriveling, rancidity, decay, dark discoloration, presence or evidence of insects inside the shell, and uncured kernels which are wet and rubbery, not firm and crisp. It is proposed that the total tolerance for internal grade defects be reduced to a maximum of 15 percent, and the tolerance included within this total tolerance for damage by mold or insects or serious damage by other means be reduced to a maximum of 8 percent. The restricted tolerance of 5 percent for insects would remain the same.

Section 984.50(e) of the order specifies that surplus inshell walnuts for export must meet the requirements of § 984.50(a). Hence, the proposed change would also apply to exports of surplus inshell walnuts. The industry desires that inshell walnuts for export be at least the same quality as those shipped in the United States.

Lots of inshell walnuts failing to meet the increased requirements could be shelled, the defective kernels removed, and the balance marketed as shelled walnuts.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than November 14, 1975. All written submissions made pursuant to this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend § 984.450 of Subpart—Administrative Rules and Regulations (7 CFR 984.437–984.480), by revising the section heading, adding a new paragraph (a), and by redesignating present paragraphs (a) and (b), as (b) and (c), respectively. As amended § 984.450 reads as follows:

§ 984.450 **Grade and size regulations.**

(a) *Modified minimum standards for inshell walnuts.* Pursuant to § 984.50(a),

V 40 I 214
NOV 5 75
XUM

inshell walnuts handled under this part shall be equal to or better than the requirements of U.S. No. 2 grade and baby size as defined in the then effective United States Standards for walnuts (Juglans regia) in the Shell, except that, not more than a total of 15 percent, by count, of the walnuts may be damaged by internal grade defects including not more than 8 percent which are damaged by mold or insects or seriously damaged by other means, of which not more than 5 percent may be damaged by insects, but no part of any tolerance shall be allowed for walnuts containing live insects.

(b) *Minimum kernel content requirements for surplus inshell walnuts.* Any lot of inshell walnuts withheld to meet any part or all of the handler's surplus obligation, shall have a certified kernel-weight of not less than 10 percent of the inshell weight of the lot: *Provided*, That no such lot may be exported unless it meets the minimum requirements for merchantable inshell walnuts effective pursuant to § 984.50(a).

(c) *Minimum kernel content requirements for surplus shelled walnuts.* Any lot of shelled walnuts withheld to meet any part or all of a handler's surplus obligation, shall have a certified kernel-weight of kernels six sixty-fourths of an inch or larger, of not less than 10 percent of the total weight of the lot: *Provided*, That such minimum kernel content requirements shall not apply to any lot of walnut meal certified by the designated inspection service as having been derived from chopping, slicing, or dicing merchantable shelled walnuts: *And provided further*, That no such lots may be exported unless they meet the minimum requirements for merchantable shelled walnuts effective pursuant to § 984.50(b).

It is hereby certified that the economic and inflationary impact of this proposed regulation have been carefully evaluated in accordance with OMB Circular No. A-107.

Dated: October 31, 1975.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

MEDICAL ASSISTANCE PROGRAM

Skilled Nursing and Intermediate Care Facilities—Withdrawal of Notice of Proposed Rule Making

Notice of proposed rule making was published on February 11, 1975 (40 FR 6368) providing for the transfer, from State survey agencies to the Secretary of Health, Education, and Welfare, of certain authorities to alter or waive standards applied to skilled nursing and intermediate care facilities participating in the Medicaid program (title XIX, Social Security Act). These standards are the Life Safety Code of the National Fire Protection Association (with respect to intermediate care facilities), the American National Standards Institute (ANSI) Standards relating to usability of facilities by the physically handicapped, and HEW standards for room size and number of residents per room.

Comments on the proposal were received from 33 respondents, who opposed the transfer of authority on the basis that Medicaid is a State-administered program and States are better able to make determinations relating to individual facilities which are responsive to local situations. In the light of these objections, the Department has decided not to issue the regulations at this time. The proposal is accordingly withdrawn.

Section 1102, 49 Stat. 647 (42 U.S.C. 1302).

[Regulations No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

"Prudent Buyer" Policy Relating to Reimbursement Under Medicare

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendment to the regulations set forth in tentative form below is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendment reflects title XVIII health insurance program policy implementing the "reasonable cost" reimbursement provisions of the law and regulations. The proposed amendment is intended to clarify, by specific reference to the Medicare program's "prudent buyer" policy, the responsibility of Fiscal Intermediaries, in determining reimbursement for services to program beneficiaries, to disallow as unreasonable costs, costs incurred by a participating health care provider in excess of what a prudent and cost-conscious buyer would incur in furnishing such services in the absence of clear evidence that the excess costs were necessarily incurred to meet Medicare program requirements. The proposed amendment also deletes the term "utilization" for purposes of identifying comparable institutions and replaces it with "types of patients receiving services" from the instant. This clarifying change is necessary because the term "utilization" has taken on various meanings (e.g., as it is used in the term "utilization review" or where it is assumed to be a synonym for occupancy rate) and has caused misunderstanding by intermediaries and providers when used in the reasonable-cost context. It should be noted that this regulation applies to any cost which is not subject to a limit established pursuant to § 405.460 of this part and to any component of a cost which is subject to such a limit.

Prior to final adoption of the proposed amendment to the regulations, consideration will be given to any data, views, or arguments pertaining thereto, which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203, on or before December 5, 1975.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

The proposed amendment is to be issued under the authority of sections 1102, 1815, 1861(v), and 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 297, 79 Stat. 322, as amended, and 79 Stat. 331; 42 U.S.C. 1302, 1395g, 1395x(v), and 1395hh.

Dated: September 2, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: October 30, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration (20 CFR Part 405), as amended, is further amended by revising paragraph (c)(2) of § 405.451 to read as follows:

§ 405.451 Cost related to patient care.

* * * * * * *

(c) * * *

(2)(i) The costs that providers incur in furnishing covered health care to health insurance program beneficiaries vary from one provider to another because of differences in the scope of services and intensity of care furnished, differences in types of providers, and the manner in which providers operate. The intent of the requirement in title XVIII of the Act that reimbursement to a provider be based on the reasonable costs that the provider incurs in furnishing covered care to health insurance program beneficiaries is to recognize the costs that each provider incurs in furnishing this care, however widely these costs may vary from one provider to another, as long as the provider's total cost, and components of total cost, are reasonable in amount. Implicit in this intention is the expectation that each provider will seek to minimize the costs that it incurs in furnishing this care so that its actual costs will not exceed what a prudent and cost-conscious buyer would incur in furnishing such care.

(ii) If the total cost, or components of total cost, that a provider incurs in furnishing covered health care to health insurance program beneficiaries exceeds what a prudent and cost-conscious buyer would incur, the excess is considered unreasonable cost and, therefore, not reimbursable, unless the provider can establish with clear evidence (and to its intermediary's satisfaction) that the excess was incurred, of necessity, to furnish services covered under the health insurance program. A provider's total cost as well as components of total cost also are not considered reasonable if these costs are out of line with the costs of comparable providers. In determining whether providers are comparable, the intermediary will take into account such factors as service area, size of institution, scope of services furnished patients, types of patients receiving services, and other relevant factors.

(iii) The rules described in subparts (i) and (ii) apply (1) to any cost which is not subject to a limit established pursuant to § 405.460 of this part and (2) to any component of a cost which is subject to a limit established pursuant to § 405.460 of this part.

[20 CFR Part 410]

[Regulations No. 10]

FEDERAL COAL MINE HEALTH AND SAFETY ACT OF 1969, AS AMENDED

Representation of Parties, Time Limit for Petitioning for Approval of Attorney Fees

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would provide: (1) for administrative review of initial approvals of attorney fees subsequent to the expiration of the time limitation for requesting such review, and (2) for the establishment of a time limitation on filing of petitions for approval of fees when past-due benefits are being withheld. These amendments will make treatment of attorneys' fees in "black lung" claims consistent with treatment of attorneys' fees in social security claims.

The present regulations preclude any administrative review of a fee determination upon failure on the part of either the representative or the claimant to request such review within the prescribed 30-day time limit under any circumstances. The proposed amendment makes this provision more flexible and permits review upon showing of good cause for not filing the request timely. Examples of what constitutes "good cause" are also included.

The present regulations do not provide a time limitation for filing a petition for approval of a fee so that, technically, a portion of past-due benefits must be withheld indefinitely. The proposed amendment remedies this by providing that, if a petition is not filed within 60 days of the notice of a favorable determination, the attorney representing the claimant will be notified that, if he does not file a petition or a request for extension of time within 20 days of the date of such notice, the funds being withheld will be released to the claimant. If no such petition is filed upon the expiration of the 20-day period or the period for which an extension of time was granted, the Social Security Administration may release the funds.

Consideration will be given any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203, on or before December 5, 1975. The regulations will be effective upon final publication in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Heath, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 411(a), 413(b), 426(a), and 508 of the Federal Coal Mine Health and Safety Act of 1969, as amended, 83 Stat. 793, as amended; 83 Stat. 794, as amended, 83 Stat. 798; 83 Stat. 803, 30 U.S.C. 921(a), 923(b), 936(a), and 957.

(Catalog of Federal Domestic Assistance Program No. 13.806, Special Benefits for Disabled Coal Miners)

Dated: September 4, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: October 30, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 410 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 410.686b is amended by revising paragraph (e) to read as follows:

§ 410.686b Fee for services performed for an individual before the Social Security Administration.

* * * * * * *

(e) *Administrative review of fee determination.* (1) *Request timely filed.* Administrative review of a fee determination will be granted if either the representative or the claimant files a written request for such review at an office of the Social Security Administration who did not participate in the fee determination in question will review the determination. Written notice of the decision made on the administrative review shall be mailed to the representative and the claimant at their last known addresses.

(2) *Request not timely filed.* Where the representative or the claimant files a request for administrative review, in accordance with paragraph (e)(1) of this subsection, but files such request more than 30 days after the date of the notice of the fee determination, the person making the request shall state in writing the reasons why it was not filed within the 30-day period. The Social Security Administration will grant the review only if it determines that there was good cause for not filing the request timely. For purposes of this section, "good cause" is defined as any circumstance or event which would prevent the representative or the claimant from filing the request for review within such 30-day period or would impede his efforts to do so. Examples of such circumstances include the following:

(i) The representative or claimant was seriously ill or had a physical or mental impairment and such illness prevented him from contacting the Social Security Administration in person or in writing;

(ii) There was a death or serious illness in the individual's family;

(iii) Pertinent records were destroyed by fire or other accidental cause;

(iv) The representative or claimant was furnished incorrect or incomplete information by the Social Security Administration about his right to request review;

(v) The individual failed to receive timely notice of the fee determination;

(vi) The individual transmitted the request to another government agency in good faith within such 30-day period and the request did not reach the Social Security Administration until after such period had expired.

2. Section 410.686c is amended by adding paragraph (c) to read as follows:

§ 410.686c Petition for approval of fee.

* * * * * * *

(c) *Time limit for filing petition for approval of attorney fee.* In order for an attorney to receive direct payment of a fee authorized by the Social Security Administration from a claimant's past-due benefits (see § 410.686d(b)), the petition for approval of a fee, or written notice of the intent to file a petition, should be filed with the Social Security Administration within 60 days of the date the notice of the determination favorable to the claimant is mailed. Where no such petition is filed within 60 days after the date such notice is mailed, written notice shall be sent to the attorney and the claimant, at their last known addresses, that the Social Security Administration will cer-

V 40 I 214
NOV 5 75
XUM

tify for payment to the claimant all the pastdue benefits unless the attorney files within 20 days from the date of such notice a written petition for approval of a fee pursuant to paragraphs (a) and (b) of this section, or a written request for an extension of time. The attorney shall send to the claimant a copy of any request for an extension of time. Where the petition is not filed within this time, or by the last day of any extension approved, the Social Security Administration may certify the funds for payment to the claimant. Any fee charged thereafter remains subject to Social Security Administration approval but collection of any such approved fee shall be a matter between the attorney and his client.

3. Section 410.686d is amended by revising paragraph (b) (1) and adding new paragraph (c) to read as follows:

* * * * *

§ 410.686d Payment of fees.

(b) *Fees authorized by the Social Security Administration.*

(1) *Attorneys.* Except as provided in § 410.686c(c), in any case where the Social Security Administration makes a determination favorable to a claimant who was represented by an attorney as defined in § 410.685(a) in a proceeding before the Social Security Administration and as a result of such determination past-due benefits, as defined in § 410.686b (c), are payable, the Social Security Administration shall certify for payment to the attorney, out of such benefits, whichever of the following is the smallest:

(i) Twenty-five percent of the total of such past-due benefits;

(ii) The amount of attorney's fee set by the Social Security Administration, or

(iii) The amount agree upon between the attorney and the claimant.

* * * * *

(c) *Responsibility of the Social Security Administration.* The Social Security Administration assumes no responsibility for the payment of a fee based on a revised determination where the request for administrative review was not filed timely. (See paragraph (b) of this section for payment of attorney fees authorized by the Social Security Administration.)

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 36]

[Docket No. 15131; Notice No. 75-37]

SUBSONIC TRANSPORT CATEGORY LARGE AIRPLANES AND SUBSONIC TURBOJET POWERED AIRPLANES

Proposed Noise Reduction Stages and Acoustical Change Requirements

In order to provide increased relief and protection to the public health and welfare from aircraft noise, the Federal Aviation Administration (FAA) proposes to amend Part 36 of the Federal Aviation Regulations to provide for three stages of noise reduction, to require new applications for type certificates to comply with noise limits more restrictive than those in current Appendix C, and to increase the severity of the accoustical change requirements for airplanes that comply with current Appendix C. These proposals would apply to subsonic transport category large airplanes and to subsonic turbojet powered airplanes.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C., 20591. Comments on the overall environmental aspects of the proposed rules are specifically invited. All communications received on or before January 5, 1976, will be considered by the Administrator before taking action upon the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Part 36 of the Federal Aviation Regulations was issued on November 3, 1969, and has been in effect for the type certification of subsonic transport category and turbojet powered airplanes since December 1, 1969. When it was originally issued, Part 36 contained noise limits (in Appendix C) that represented the most restrictive application of noise reduction technology then viewed as safe, economically reasonable, technologically practicable, and appropriate to the type certification of airplanes to which Appendix C applied. Part 36, as originally issued, also contained "acoustical change" requirements of two kinds: for airplanes that complied with Appendix C noise limits, the rule permitted type design changes that increased noise up to, but not exceeding those limits; for airplanes already noiser than Appendix C noise limit, the rule prohibited further noise escalation.

During the years since the issuance of Part 36, experience indicates that the development of noise reduction technology has progressed to the point that significant noise reductions, below the current Appendix C limits, should be achievable consistent with considerations of safety, economic reasonableness and technological practicability for subsonic transport category large airplanes and subsonic turbojet powered airplanes. In this connection, it should be noted that § 611(d) of the Federal Aviation Act of 1958, as amended by the Noise Control Act of 1972 (Pub. L. 92-574), contains the same constraints on noise abatement regulatory action as were contained in the 1968 Act that added § 611 to the Federal Aviation Act of 1958 (Pub. L. 90-411). Now, as in 1969, the FAA, in the issuance of noise abatement regulations under § 611, is required to consider, among other factors, (1) whether any proposed standard or regulation is consistent with the highest degree of safety in air commerce or air transportation in the public interest, (2) whether any proposed standard or regulation is economically reasonable, technologically practicable, and appropriate for the particular type of aircraft, aircraft engine, appliance, or certificate to which it will apply, and (3) the extent to which such standard or regulation will contribute to carrying out the noise abatement purposes of § 611 so as to protect the public health and welfare from aircraft noise. In order to fulfill its commitment to its aircraft noise control and abatement program, the FAA intends to continuously monitor and periodically review the state of the art in determining whether further amendment of standards or procedures is appropriate. The objective of the FAA is the issuance of an amendment to Part 36 that makes the greatest possible contribution to carrying out the noise abatement purposes of § 611 as amended by the Noise Control Act of 1972, consistent with due consideration of economic and technological impact. To assist the FAA in this objective, public comment is specifically invited on the overall cost effectiveness of the proposed regulations in terms of the noise abatement benefits, as well as the economic and technological effects, that may be expected to result therefrom.

With respect to subsonic transport category large airplanes and subsonic turbojet powered airplanes, the proposals in this notice would accomplish the following:

1. To reflect the FAA's objective of continuous and progressive noise reduction, three stages of noise reduction would be established. Stage 1 would include all airplanes that are noisier than current Appendix C noise limits, including airplanes of older type designs now in the fleet. Stage 2 would include all airplanes that comply with current Appendix C noise limits but that do not comply with the more restrictive noise limits now proposed for addition to Appendix C. Stage 3 would include all airplanes that comply with the proposed, more restrictive noise limits of Appendix C.

2. For new type certificate applications made on or after the publication date of this NPRM, each airplane would be required to meet the Stage 3 takeoff, sideline, and approach noise limits proposed herein for addition to Appendix C. The required noise reduction, below current Appendix C noise levels, would be as much as 10 EPNdB for takeoff, 9 EPNdB for sideline, and 4 EPNdB for approach. The sideline and takeoff noise limits would depend on the number of engines as well as on the maximum weight of the airplane. For airplanes with more than three engines, the .35 n.m. sideline measurement point would be reduced to .25 n.m. for the purpose of showing compliance with Stage 3 sideline noise limits. This would give all Stage 3 airplanes the same sideline measurement point. The tradeoff provisions now in effect would continue to apply for the purpose of showing compliance with the new Stage 3 noise limits (as well as for all acoustical change demonstrations involving noise levels at or below Stage 2 noise limits).

3. For acoustical change approvals applied for on or after the publication date of this NPRM, airplanes that comply with current Appendix C (the new Stage 2 noise limits) but do not comply with the new Stage 3 noise limits (i.e. Stage 2 airplanes) would no longer be allowed unrestricted noise increases up to the current Appendix C limits. Those airplanes having noise levels below the current Appendix C noise limits would be required, after the change in type design, to have noise levels, after tradeoff, no closer to the applicable Appendix C limit (or no farther above that limit, if the use of the tradeoff provisions of § C36.5 (b) originally resulted in an "exceedance" being approved) than were those noise levels prior to the change in type design. Since Appendix C noise limits increase as weight increases, this would permit takeoff, sideline, and approach noise levels to "grow" parallel to the Appendix C slope. For example, if the airplane whose type design will be changed is type certificated with a takeoff noise level "exceedance" 1 EPNdB above the applicable Appendix C takeoff noise limit, a sideline noise level 1 EPNdB below the applicable sideline noise limit, and an approach noise level 2 EPNdB below the applicable approach noise limit, the airplane weight, under this proposal, would be permitted to increase if the takeoff, sideline, and approach numbers remain, respectively, no higher than 1 EPNdB above, 1 EPNdB below, and 2 EPNdB below the Appendix C noise limits applicable at the higher weight. For all acoustical change demonstrations not involving a weight increase, the noise levels would be restricted to noise levels no higher than the noise levels that existed prior to the change in type design. Regardless of whether a weight increase is involved, tradeoffs would continue in effect to the extent that previously approved exceedances over the Appendix C (new Stage 2) noise limits are not increased thereby. In the above example, tradeoffs would be allowed between the sidelines and approach noise levels (because they are each below the applicable Stage 2 noise limit), but could not be used to increase the takeoff noise level (because that level is already above the applicable Stage 2 noise limit).

Application of the tradeoff provisions of Appendix C to the Stage 2 noise levels of Stage 2 airplanes would require that a meaning be given to the term "exceedance" that is different from its traditional meaning. As traditionally applied, an "exceedance" is the increment by which a noise level exceeds the applicable noise limit in paragraph (a) of § C36.5 of Appendix C. Under this proposal, however, the Stage 2 noise levels of Stage 2 airplanes would not be permitted to rise to the Stage 2 noise limit, but would be permitted only to increase to the extent that the increment between those levels and the applicable Stage 2 noise limit is not reduced. In order to apply tradeoffs to this regulatory concept, it is proposed that the term "exceedance," as applied to the Stage 2 noise levels of Stage 2 airplanes, be defined as any increase, in such a noise level, that reduces the increment between that noise level and the applicable Stage 2 noise limit. This refinement in terminology is necessary since noise level increases parallel to the Stage 2 limit line would be permitted with increases in weight.

4. For Stage 2 airplanes for which application for acoustical change is made on or after a date six months after publication of this NPRM, compliance would have to be shown using the power or thrust, speed, and configuration provisions that were added to the acoustical change provisions of Part 36 by Amendment 36-3, which was issued on December 12, 1974, and published in the FEDERAL REGISTER (39 FR 43830) on December 19, 1974. Those provisions include a requirement that takeoff and sideline noise tests be conducted, before and after the type design change, with no reduction in power or thrust. Since Stage 2 airplanes would be those that may have already been required to develop extensive data, using less than full takeoff power or thrust, to demonstrate compliance with current Appendix C, the FAA invites comment on the potential impact of this proposal on acoustical change programs involving Stage 2 airplanes. Alternative regulatory concepts being considered to account for this problem include a requirement that the takeoff and sideline noise tests, after the change in type design, be conducted with not less than (1) the power or thrust, or (2) the percentage of power or thrust, that was originally used in demonstrating the takeoff and sideline noise levels of the airplane under Appendix C. Comment on these regulatory options is invited.

5. For acoustical change approvals applied for on or after the publication date of this NPRM, airplanes that comply with the more restrictive limits of Appendix C proposed in this Notice (i.e. Stage 3 noise limits) would be permitted noise increases up to the new Stage 3 noise limits, but would no longer be permitted noise increases up to the current Appendix C noise limits (i.e. the proposed Stage 2 noise limits). The provisions of Amendment 36-3 would not be applied to Stage 3 airplanes for which acoustical change approvals are applied for. Tradeoffs would be permitted for acoustical change demonstrations for Stage 3 airplanes, in the same manner as they are now permitted under Appendix C, namely, as an allowance for limited exceedances above the applicable Stage 3 noise limits in § C36.5(a). Since this involves exceedances over "the noise levels in paragraph (a)" of § C36.5 no definition of the term "exceedance," different from the current use of that term, is needed or proposed for Stage 3 airplanes.

It should be noted that, while certain of the proposals specified herein would apply to applications that are made on and after the date of this NPRM (but before the effective date of the final rule), none of these proposals would affect approvals that are actually issued prior to the effective date of the final rule. It should be pointed out further, that the mere fact that an application was received prior to the date of this NPRM would not automatically permit the applicant to extend the certification process indefinitely and still be excluded from the requirement proposed in this notice. In this connection, attention is drawn to the provisions of § 21.17 of Part 21 of the Federal Aviation Regulations which provide that an application for type certification of a transport category aircraft is effective for five years and an application for any other type certificate is effective for three years, unless an applicant shows at the time of application that his product requires a longer period of time for design, development, and testing, and the Administrator approves a longer period. If a type certificate is not issued within the prescribed time period, the applicant may file a new application and comply with all of the provisions applicable on that date. Since this would involve a new application date, on or after the date of this Notice, the proposals contained in this notice would have to be complied with.

As the preamble to Part 36 stated in 1969, "as technology makes further noise reductions possible, the FAA will act to ensure that the lowest reasonable noise levels are achieved * * *" The FAA believes that the technology needed to achieve the new Stage 3 noise limits is now available and that application of this technology can be accomplished in an economically reasonable manner for airplanes of all weights. Thus, the proposed revision of Part 36 is intended to establish an "equal technology standard," that is, a standard that would require the application, to all airplanes covered by Appendix C, of the best available, economically reasonable noise suppression technology. At the present time, this level of suppression is essentially defined by the high bypass ratio engine with sound absorbent linings incorporated in the nacelle and engine ducts. While this technology has, to date, been used in large, widebody jets, powered by engines rated at from 40,000 to 50,000 lbs. thrust, the FAA believes that similar technology will be equally effective in reducing noise in smaller airplanes (except as discussed below for engines of less than approximately 5,000 lbs. thrust). In this regard, smaller engines of high bypass ratio design are under development. Two manufacturers are developing engines in the so-called "ten ton" class (20,000 to 30,000 lbs. thrust). These engines should be suitable for advanced airplanes comparable in size to the present narrowbody jets. Another engine is available that, at 6,000 lbs. thrust, could be used in smaller airplanes

V 40 I 214 NOV 5 75 XUM

down to approximately 30,000 lbs. maximum weight. These projects indicate that the application of high bypass technology to smaller airplanes is economically reasonable. It is, therefore, likely that future airplane types can achieve noise reductions comparable to the widebodies, allowing for their different weights.

At the lower end of the thrust spectrum, for engines of less than approximately 5,000 lbs. thrust, it appears that high bypass ratio technology for various reasons cannot effectively be applied, and that, therefore, noise standards based on the performance of high bypass ratio engines are probably inappropriate for airplanes that use engines in this low thrust class. Such airplanes are typically business jets with maximum weights of less than approximately 25,000 lbs. However, new turbofan engines with bypass ratios of approximately 3:1 (compared with 5:1 for typical large high bypass ratio engines) have been introduced for airplanes in this weight range, and these engines have been demonstrated to generate much less noise than their pure turbojet predecessors.

Thus, the high bypass ratio engine, combined with sound absorbent linings, represents the "state of the art" for most airplanes, and the medium bypass ratio engine does the same for small, business jet airplanes. The "equal technology standard" objective of this proposed amendment is intended to require that new designs use noise suppression techniques at least as effective as those demonstrated by the airplanes discussed above.

The proposals in this Notice build on certification experience and on the features of current Part 36. Specifically, these proposals recognize that Part 36 addresses a large weight range of airplanes. For the smaller airplanes in this range, as discussed above, the application of moderate bypass ratio engine technology is only now evolving. These airplanes have not, as yet, experienced their growth potential and have not experienced the benefits potentially available from the adoption of sound absorbent material technology to the smaller airplanes and engines. The intermediate weight airplane market has not had acoustically advanced airplanes introduced because of the lack of suitable new technology engines. These engines are now becoming available and improved acoustic designs are expected to follow. The largest airplanes were introduced using the new high bypass ratio technology. In this high weight range, engines that are acoustically improved derivatives of the entry into service versions are expected. It is believed that the proposed scheme, accordingly, would require the implementation of this improved technology and would require equitable application of that technology to all airplane types.

As stated above, the proposed takeoff and sideline noise limits for Stage 3 airplanes are related to the number of engines (as well as to maximum weight). This distinction is proposed because the number of engines affects the level of noise emissions and is a design of parameter of performance. All other things being equal a two-engine airplanes would tend to pass over the 3.5 n.m. takeoff noise measurement point at a higher altitude than would a four-engine airplane, and, being farther away, the noise perceived on the ground would be less. This would be true even if the amount of noise generated at the source were equal for the two airplanes. Airplanes with fewer engines tend to have better climb performance for several reasons. In general, they tend to have shorter takeoff rolls than airplanes with more engines because they are designed to serve smaller airports. In addition, airworthiness regulations require that airplanes maintain a certain gradient with one engine inoperative. Since a two-engine design must maintain its required gradient with only 50 percent of its total installed thrust available, while a four-engine airplane has 75 percent power available, it follows that the two-engine airplane at full power will be able to achieve a steeper climb than the four-engine airplane. Thus, the number of engines is a significant factor in determining the lowest economically reasonable noise level an airplane can be expected to achieve at the 3.5 n.m. measuring point of Appendix C.

For airplanes powered by high bypass ratio engines, it appears that current technology is capable of achieving takeoff noise levels several EPNdB's below current Appendix C in four-engine airplanes, levels somewhat farther below current Appendix C in three-engine types, and even lower levels in two-engine types.

In determining the noise levels to be proposed, three main criteria were used. Most important was the concept that the standard should reflect the best noise suppression technology achieved by present day airplanes. Thus, while some of the current widebody, high bypass ratio engine powered airplanes could not satisfy the proposed standards in their present versions, nevertheless, in every case, designs now in service have demonstrated that the proposed levels can be achieved in some versions.

A second criterion in setting the proposed levels was recognition that a manufacturer must work within a tolerance band in moving from design to final product. The tolerance reflects uncertainties in design and manufacture, and various unknown factors, including variations in measurements at certification time. In the case of a new airplane, a tolerance of at least 3 EPNdB would probably be necessary. To avoid the risk that a new design, possibly costing many millions of dollars, might fail to meet the noise standard, the noise levels the airplane is designed to achieve must be sufficiently below the noise level of the standard that this entire tolerance band is below the standard. It is believed that the proposed standard would allow sufficient tolerance for manufacturers to evolve realistic designs with reasonable assurance that noise limitations will be satisfied.

The final consideration in establishing the proposed limits was that of growth. A new airplane design is generally "grown" over its lifetime, either by increasing its capacity or range. Both of these involve increased public air transportation capabilities. To support this growth, powerplants must be designed so that they too can be grown. From the engine manufacturer's point of view, engine growth also allows an engine to compete over a broader range of airplane applications. Allowance for such growth is a basic factor in the economic viability of aircraft programs. Unfortunately, engine growth is accompanied by increased noise. An increase in thrust is usually accomplished by increasing temperatures and pressures in the engine core, thus increasing the core engine exhaust velocity and decreasing the bypass ratio. The effect of this procedure is that the grown engine is noisier than would be an engine of equal thrust designed with the same performance parameters as the base engine. In addition, a growth version of a given airplane design will frequently have poorer climb characteristics and will, therefore, be at lower altitude when it passes over the 3.5 n.m. takeoff measurement point. Hence, the takeoff noise level in particular is quite sensitive to airplane growth. As noted above, this proposal would limit the noise escalation associated with the growth of new airplane designs by limiting such noise to Stage 3 noise limits.

Based on the general considerations discussed above, the proposed Stage 3 noise limits would involve the following detailed provisions in relation to the noise limits in current Appendix C (which, under this proposal, would be designated as "Stage 2 noise limits."): The proposed takeoff noise levels are related to the number of engines to reflect the impact of the airworthiness climb gradient requirements of § 25.121 (b) of Part 25 of the Federal Aviation Regulations on the thrust to weight ratio of an airplane. The slope of the curve is reduced from 5 EPNdB to 4 EPNdB per halving of weight to reflect an empirical compromise between the currently required slope and the basic physical law that an increase of 3 EPNdB results from a doubling of thrust. At the high weights the curves are leveled off at a weight of 850,000 lbs. to levels of 106, 103, and 100 EPNdB, respectively, for the four-, three-, and two-engine airplanes. This feature serves to retain a limit on the potential escalation of noise while retaining a reasonable growth potential for airplanes at these weights. At the low weight range, which includes many business jets and the smallest air carrier airplanes, the curves are leveled off at 90 EPNdB for three- and four-engine airplanes and at 87 EPNdB for two-engine airplanes. A nominal allowance is made for engine and airplane growth. The 3 EPNdB higher level for three and four-engine airplanes in this weight range is provided to compensate for the almost complete lack of design or certification experience to date for such airplanes.

The sideline noise level reduction would, in many cases, be approximately 8 EPNdB. This is increased to 9 EPNdB for low weight two-engine airplanes and would be 6 EPNdB for three- and four-engine airplanes of the same weight. The greater stringency for the two-engine airplanes is based on certification experience and the lesser stringency for the three- and four-engine airplanes is based on a lack of certification experience and very limited design experience. For the highest weights, the curves are leveled off at 103 EPNdB for the four-engine airplanes and at 100 EPNdB for the two- and three-engine airplanes, all at 850,000 lbs. Since the 2 EPNdB per halving of weight slope is retained, as well as the 75,000 lbs. break point for two- and four-engine airplanes, the transition curve for three-engine airplanes is accomplished by extending the 96 EPNdB plateau up to 212,500 pounds for those airplanes. The 3 EPNdB difference between the noise levels for three-engine and four-engine airplanes of intermediate and high weights is distinguished from the 3 to 4 EPNdB increase in stringency for the four-engine airplanes that results when the sideline measurement point for them is changed from 0.35 to 0.25 n.m. The levels for the four-engine airplanes are believed to be necessary because of technological limitations affecting those airplanes. While acoustic theory does not yet offer a physical explanation of the installation differences for four-engine airplanes, the experience supports the need for special considerations related to sideline noise measurements for those airplanes.

For approach, a 4 EPNdB noise level reduction is proposed, with a minor modification being proposed for high weights. Here it is proposed that the 2 EPNdB per halving slope continue to a takeoff gross weight of 850,000 lbs. and a corresponding noise level of 105 EPNdB. This modification is supported by the most recent certification experience and by the physical limits of an aerodynamic (i.e. airframe) noise floor.

The FAA believes that adoption of the proposed regulations will result in a significant improvement in noise levels of newly type certificated airplanes, and that the public health and welfare requires that the progress represented by these proposals be realized by those air transportation vehicles that will be using U.S. airports for decades to come. In addition, the FAA believes that the proposals in this notice, if adopted on a world-wide basis, will provide an opportunity to make a real contribution to the limitation of aircraft noise nuisance at airports throughout the world. For this reason, the FAA intends to give its full support to the adoption, by ICAO, of amendments to the current airplane noise standards of Annex 16 that will bring those international aircraft noise standards into conformity with those that are adopted by the FAA following this notice. Further, the FAA recognizes that there is a close relationship between airplane source noise levels and the problems facing airport proprietors. While this notice addresses only the source noise level permitted during type certification, public comments are invited concerning the implications (if any) of the proposed rule changes on airport planning and community acceptance.

This notice proposes to revise sections that include language dealing with propeller driven small airplanes. Noise standards for those airplanes were added by Amendment 36–4, which was published in the FEDERAL REGISTER (40 FR 1029) on January 6, 1975. This notice merely proposes to reorganize the sections dealing with propeller driven small airplanes. It does not propose to amend those standards. It should be further noted that Amendment 36–4 created a distinction, for noise certification purposes, between transport category large airplanes and transport category small airplanes. The scope of this notice does not include transport category small airplanes that are propeller driven. It only includes turbojet engine powered airplanes (regardless of weight) and transport category large airplanes.

[Secs. 313(a), 601, 603, and 611 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, and 1431); sec. 6(c), of the Department of Transportation Act 49 U.S.C. 1655(c)); title I of the National Environmental Policy Act of 1969 42 U.S.C. (4321 et seq.); and Executive Order 11514, March 5, 1970]

In consideration of the foregoing, Part 36 of the Federal Aviation Regulations would be amended as follows:

1. Section 36.1 would be amended by adding a new § 36.1(f) to read as follows:

§ 36.1 Applicability.

. . . . . .

(f) For the purpose of showing compliance with this Part for transport category large airplanes and turbojet powered airplanes regardless of category, the following terms have the following meanings:

(1) "Stage 1 noise level" means a noise level greater than the Stage 2 noise limits specified in § C36.5(a)(1) of Appendix C of this Part.

(2) "Stage 1 airplane" means an airplane that has been shown, under this Part, to create noise levels greater than those required for Stage 2 airplanes.

(3) "Stage 2 noise level" means a noise level not greater than the Stage 2 noise limits specified in § C 36.5(a)(1) of Appendix C of this Part but greater than the Stage 3 noise limits specified in § C36.5(a)(2) of Appendix C of this Part.

(4) "Stage 2 airplane" means an airplane that has been shown under this Part to create Stage 2 noise levels at each applicable measuring point specified in § C36.3 of Appendix C of this part (except as provided in the applicable tradeoff provisions of § C36.5(b) of Appendix C of this part), and that creates noise levels higher than those allowed for Stage 3 airplanes.

(5) "Stage 3 noise level" means a noise level not greater than the Stage 3 noise limits specified in § C36.5(a)(2) of Appendix C of this part.

(6) "Stage 3 airplane" means an airplane that has been shown under this part to create Stage 3 noise levels at each applicable measuring point specified in § C36.3 of Appendix C of this Part (except as provided in the applicable tradeoff provisions of § C36.5(b) of Appendix C of this part).

2. Section 36.7(a) would be amended to read as follows:

§ 36.7 Acoustical change.

(a) *Subsonic transport category large airplanes and subsonic turbojet powered airplanes.* For subsonic transport category large airplanes and subsonic turbojet powered airplanes for which an acoustical change approval is applied for under § 21.93(b) of this chapter, the following apply:

(1) If the airplane is a Stage 1 airplane prior to the change in type design, it may not, after the change in type design, exceed the noise levels created prior to the change in type design, measured and evaluated as prescribed in Appendices A and B of this part. The tradeoff provisions of § C36.5(b) of Appendix C of this part may not be used to increase Stage 1 noise levels. For airplanes covered by this subparagraph for which application for acoustical change approval is made on or before September 17, 1971, compliance must be shown using a power or thrust, speed, and configuration that complies with Appendix C of this part. For airplanes for which application for acoustical change approval is made after September 17, 1971, the following must be complied with, in addition to the applicable provisions of Appendices A and B of this part, in determining the takeoff and sideline noise levels of the airplane (and a power or thrust, speed and configuration that complies with Appendix C of this part must be used in determining the approach noise level):

(i) There may be no reduction in power or thrust below the highest airworthiness approved power or thrust, during the tests conducted before and after the change in type design.

(ii) For the noise levels measured and evaluated before and after the change in type design, the test day speed and the acoustic day reference speed must be the minimum approved value V_2+10 knots, or the all-engine-operating speed at 35 feet (for turbine engine powered airplanes), or 50 feet (for reciprocating engine powered airplanes), whichever speed is greater as determined under the regulations constituting the type certification basis of the airplane. The tests must be conducted at the test day speeds ±3 knots. Noise values measured at the test day speeds must be corrected to the acoustic day reference speed.

(iii) During the takeoff and sideline noise tests conducted before the change in type design, the quietest airworthiness approved configuration available for the highest approved takeoff weight must be used.

V 40 214 NOV 5 75 XUM

(2) If the airplane is a Stage 2 airplane prior to the change in type design, the following apply:

(i) For airplanes for which application for acoustical change approval is made before [the publication date of this NPRM], the airplane may not be a Stage 1 airplane after the change in type design, and compliance must be shown using a power or thrust, speed, and configuration that comply with Appendix C of this part.

(ii) For airplanes for which application for acoustical change approval is made on or after [the publication date of this NPRM] and before [a date six months after the publication date of this NPRM] the takeoff, sideline, and approach noise levels of the airplane must be no closer to the applicable Stage 2 noise limit (or no farther above that limit, in the case of exceedances approved under the tradeoff provisions of § C36.5(b) of Appendix C of this part), after the change in type design, than was the corresponding takeoff, sideline, and approach noise level prior to the change in type design. This must be shown with noise levels, measured and evaluated as prescribed in Appendices A and B of this part, and using a power or thrust and speed, that comply with Appendix C of this part. During the tests conducted before the change in type design, the quietest airworthiness approved configuration available for the highest approved takeoff weight must be used. The tradeoff provisions of § 55.5(b) of Appendix C of this part may not be used to increase Stage 1 noise levels, but may be used with respect to Stage 2 noise levels.

(iii) For airplanes for which application for acoustical change approval is made on or after [a date six months after the publication date of this NPRM] the takeoff, sideline, and approach noise levels of the airplane must be no closer to the applicable Stage 2 noise limit (or no farther above that limit, in the case of exceedances approved under the tradeoff provisions of § C36.5(b) of Appendix C of this part), after the change in type design, than was the corresponding takeoff, sideline, and approach noise level prior to the change in type design. This must be shown with noise levels measured and evaluated as prescribed in Appendices A and B of this part. In addition, compliance with § 36.7 (a)(1)(i) through (iii) must be shown in determining the takeoff and sideline noise levels, and a power or thrust, speed, and configuration that comply with Appendix C of this part must be used in determining the approach noise level. The tradeoff provisions of § C36.5(b) of Appendix C of this part may not be used to increase Stage 1 noise levels but may be used with respect to Stage 2 noise levels.

(3) If the airplane is a Stage 3 airplane prior to the change in type design, the following apply:

(i) For airplanes for which application for acoustical change approval is made before [the publication date of this NPRM], the airplane may not be a Stage 1 airplane after the change in type design, and compliance must be shown using a power or thrust, speed, and configuration that comply with Appendix C of this part.

(ii) For airplanes for which application for acoustical chcange approval is made on or after [a date six months after the publication date of this NPRM], the airplane must remain a Stage 3 airplane after the change in type design, and compliance must be shown using a power or thrust, speed, and configuration that comply with Appendix C of this part.

* * * * *

3. Section 36.201(b) and (c) would be amended to read as follows:

§ 36.201 Noise limits.

* * * * *

(b) For airplanes that have turbojet engines with bypass ratios of 2 or more and for which—

(1) Application was made before January 1, 1967, it must be shown that the noise levels of the airplane are no greater than the Stage 2 noise limits prescribed in § C36.5(a)(1) of Appendix C of this part, or are reduced to the lowest levels that are economically reasonable, technologically practicable, and appropriate to the particular type design;

(2) Application was or is made on or after January 1, 1967, and before (the publication date of this NPRM) it must be shown that the noise levels of the airplane are no greater than the Stage 2 noise limits prescribed in § C36.5(a)(1) of Appendix C of this part; and

(3) Application is made on or after (the publication date of this NPRM), it must be shown that the noise levels of the airplane are no greater than the Stage 3 noise limits prescribed in § C36.5 (a)(2) of Appendix C of this part.

* * * * *

(c) For airplanes that do not have turbojet engines with bypass ratios of 2 or more and for which—

(1) Application was made before December 1, 1969, it must be shown that the lowest noise levels, reasonably obtainable through the use of procedures and information developed for the flight crew under § 36.1501, are determined;

(2) Application was or is made on or after December 1, 1969, and before (the publication date of this NPRM), it must be shown that the noise levels of the airplane are no greater than the Stage 2 noise limits prescribed in § C36.5(a)(1) of Appendix C of this part; and

(3) Application is made on or after (the publication date of this NPRM), it must be shown that the noise levels of the airplane are no greater than the Stage 3 noise limits prescribed in § C36.5 (a)(2) of Appendix C of this part.

* * * * *

4. Appendix C of Part 36 would be amended as follows:

a. Section C36.3(c) would be amended to read as follows:

Section C36.6 *Noise measuring points.*

* * * * *

(c) For the sideline, at the point, on a line parallel to and 0.25 nautical miles from the extended centerline of the runway, where the noise level after liftoff is greatest, except that, for airplanes powered by more than three turbojet engines this distance must be 0.35 nautical miles for the purpose of showing compliance with Stage 1 or Stage 2 noise limits (where applicable).

b. Section C36.5(a) would be amended to read as follows:

Section C36.5 *Noise levels* (a) *General.* Except as provided in paragraphs (b) and (c) of this section, it must be shown by flight test that the noise levels of the airplane, at the measuring points described in § C36.3, do not exceed the following (with appropriate interpolation between weights):

(1) Stage 2 noise limits are as follows:

(i) For approach and sideline, 108 EPNdB for maximum weights of 600,000 lbs. or more, less 2 EPNdB per halving of the 600,000 lbs. maximum weight down to 102 EPNdB for maximum weights of 75,000 lbs. and under.

(ii) For takeoff, 108 EPNdB for maximum weights of 600,000 lbs. or more, less 5 EPNdB per halving of the 600,000 lbs. maximum weight down to 93 EPNdB for maximum weights of 75,000 lbs. and under.

(2) Stage 3 noise limits are as follows:

(i) For approach, 105 EPNdB for maximum weights of 850,000 lbs. or more, less 2 EPNdB per halving of the 850,000 lbs. weight down to 98 EPNdB for maximum weights of 75,130 lbs. and under.

(ii) For sideline for airplanes with more than 3 engines, 103 EPNdB for maximum weights of 850,000 lbs. or more, less 2 EPNdB per halving of the 850,000 lb. maximum weight down to 96 EPNdB for maximum weights of 75,130 lbs. and under.

(iii) For sideline for airplanes with 3 engines, 100 EPNdB for maximum weights of 850,000 lbs. or more, less 2 EPNdB per halving of the 850,000 lbs. maximum weight down to 96 EPNdB for maximum weights of 212,500 lbs. and under.

(iv) For sideline for airplanes with 2 engines, 100 EPNdB for maximum weights of 850,000 lbs. or more, less 2 EPNdB per halving of the 850,000 lbs. maximum weight down to 93 EPNdB for maximum weights of 75,130 lbs. and under.

(v) For takeoff for airplanes with more than 3 engines, 106 EPNdB for maximum weights of 850,000 lbs. or more, less 4 EPNdB per halving of the 850,000 lbs. maximum weight down to 90 EPNdB for maximum weights of 53,125 lbs. and under.

(vi) For takeoff for airplanes with 3 engines, 103 EPNdB for maximum weights of 850,000 lbs. or more, less 4 EPNdB per halving of the 850,000 lbs. maximum weight down to 90 EPNdB for maximum weights of 89,345 lbs. and under.

(vii) For takeoff for airplanes with 2 engines, 100 EPNdB for maximum weights of 850,000 lbs. or more, less 4 EPNdB per halving of the 850,000 lbs. maximum weight down to 87 EPNdB for maximum weights of 89,345 lbs. and under.

c. Section C36.5(b) would be amended by adding the following flush paragraph at the end thereof:

In addition, except as provided in § 36.7 with respect to Stage 1 noise levels, the tradeoff provisions of this paragraph may be used in showing compliance with the acoustical change provisions of that section. For acoustical change approvals involving Stage 2 airplanes, an "exceedance" is any increase in a Stage 2 noise level that reduces the increment between that noise level and the applicable Stage 2 noise limit.

Issued in Washington, D.C., on October 29, 1975.

CHARLES R. FOSTER,
Director of Environmental Quality.

[14 CFR Part 71]

[Airspace Docket No. 75-SO-136]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Tuskegee, Ala., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communcations received on or before December 5, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Tuskegee transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Moton Field (Lat. 32°27'36" N., Long. 85°40'44" W.); within 3 miles each side of the Tuskegee VORTAC 018° radial, extending from the 6.5-mile radius area to 8.5 miles north of the VORTAC; excluding the portion within the Tallahassee transition area.

The proposed designation is required to provide controlled airspace protection for IFR operations at Moton Field. A prescribed instrument approach procedure to this airport, utilizing the Tuskegee VORTAC, is proposed in conjunction with the designation of this transition area. If the proposed designation is acceptable, the airport operating authorization will be changed from VFR to IFR.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on October 28, 1975.

LONNIE D. PARRISH,
Acting Director, Southern Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20501]

DISTORTION OF AUDIENCE RATINGS

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of Part 73 of the Commission's Rules and Regulations to prohibit distortion of audience ratings.

1. The Commission has before it a Motion for Extension of Time filed by Metromedia, Inc. The motion seeks a thirty-day extension of the time provided for the submission of comments in this proceeding.[1] In a subsequent letter, Metromedia indicated that the National Association of Broadcasters, Storer Broadcasting Company, and the National Broadcasting Company share Metromedia's interest in securing an extension of time.

2. Metromedia's request is based on difficulty which would be faced by counsel if it were necessary to comply with the current deadline in this and other proceedings and simultaneously prepare a brief for filing in the Court of Appeals. In addition, Metromedia has indicated that the subject at issue in this proceeding is of particular interest to it, and it hopes to have available for submission to the Commission the views of the general managers of its various radio stations. Metromedia has stated that an extension would permit inclusion of this material in its filing.

3. Based on the foregoing, we are persuaded that a thirty-day extension is warranted. However, the Commission wishes to advise all interested parties that further extensions are not contemplated. With this extension we shall have provided a total of five months for the filing of comments. This important proceeding requires prompt resolution, and as a result, the Commission cannot accept further delays.

4. Accordingly, *It is ordered*, That the subject request is granted and the date for filing comments in this proceeding is extended to and including November 28, 1975, and the date for filing reply comments is extended to and including December 29, 1975.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's Rules.

Adopted: October 22, 1975.

Released: October 24, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.75-29709 Filed 11-4-75;8:45 am]

[1] The original date specified for the filing of comments was August 29, 1975, and for reply comments, September 29, 1975. These dates were later extended to October 28, 1975, and November 28, 1975, respectively.

[Docket No. 20600]

AM, FM AND TV STATIONS

Order Extending Time for Filing Comments and Reply Comments Relating to Program Logs

In the matter of amendment of Part 73 of the Commission's rules and Regulations relating to program logs for AM, FM and TV stations.

1. On September 17, 1975, the Commission adopted a Notice of Proposed Rule Making in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on September 29, 1975, 40 FR 44577. The dates for filing comments and reply comments are presently October 30 and November 12, 1975, respectively.

2. On October 17, 1975, Columbia Broadcasting System, Inc. (CBS), by counsel, requested that the time for filing comments be extended to and including December 15, 1975. Counsel states that the additional time is necessary due to the need for careful study of the several questions presented for comment in this proceeding and because of the proximity of the time for filing comments in this proceeding with that in Dockets 20499, 20500 and 20501.

3. We are of the view that the public interest would be served by extending the time in this proceeding. Accordingly, *It is ordered*, That the dates for filing comments and reply comments, are extended to and including December 15, and December 31, 1975, respectively.

4. This action is taken pursuant to authority found in Sections 4(i), 5(d) (1) and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's Rules.

Adopted: October 22, 1975.

Released: October 24, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[Docket No. 20550]

BROADCAST LICENSEES

Order for Extension of Time for Filing Reply Comments Regarding Nondiscrimination

In the matter of nondiscrimination in the employment policies and practices of broadcast licensees.

1. On July 25, 1975, the Commission released a Notice of Inquiry and Notice of Proposed Rulemaking in the above captioned proceeding. Publication was made in the FEDERAL REGISTER on July 28, 1975, 40 Fed. Reg. 16967. Comments and replies thereto were scheduled to be filed on September 11, 1975, and October 1, 1975, respectively.

2. On September 4, 1975, the Commission adopted an Order extending the dates for filing comments and reply comments in this proceeding to and including October 13, 1975, and October 31, 1975, respectively pursuant to a request filed by the Corporation for Public Broadcasting on August 29, 1975.

3. In a petition dated October 22, 1975, the National Association for Broadcasters requests that the time for filing reply comments in this proceeding be extended through November 14, 1975. In its petition, the National Association of Broadcasters indicates that it, as well as other representatives of parties in this proceeding, "has experienced difficulty in obtaining copies of the numerous pleadings filed in this docket. . . .". The petition further states that ". . . approximately half of the 12 working days allowed by the Commission for preparing reply comments were spent acquiring the necessary pleadings. . . ."

4. Accordingly, because of the importance of this proceeding with the many public interest questions to be resolved, and because of the Commission's desire to allow parties the opportunity to adequately reply, *It is ordered*, That the dates for filing reply comments in this proceeding are extended to and including November 14, 1975.

5. This action is taken pursuant to authority found in Section 4(i), 5(d) (1) and 3030(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: October 21, 1975.

Released: October 28, 1975.

[SEAL] ASHTON HARDY,
General Counsel.

[Docket No. 20435; RM-2398]

FM BROADCAST STATIONS

Request for Supplemental Information

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (La Crosse, Wisconsin).

1. Herein the Commission gives consideration to the *Notice of Proposed Rule Making*, adopted April 15, 1975 (40 FR 18462), proposing the assignment of Channel 269A to La Crosse, Wisconsin (pop. 51,153, seat of La Crosse County), as its fourth FM assignment. Comments were filed by petitioner, Family Radio, Inc., licensee of AM Station WIZM in La Crosse; the City of La Crosse; and La Crosse Municipal Airport.

2. The comments raise the issue of aviation hazards from a transmitting antenna, which would have to be located in a limited "open area" 3 miles east of La Crosse, because of our spacing requirements. The La Crosse Airport manager tells us that the city is located in the Mississippi River Valley between high bluffs, and that the airport is on an island between the Mississippi and Black Rivers, just north of the city. He suggests that any location 3 miles east of the community might constitute a hazard to aviation. Petitioner replies that this issue is more appropriately resolved in consideration of an application for a construction permit, and asserts that it will file an application which would meet aeronautical hazard requirements. Petitioner also has filed an engineering report to support its argument that an antenna in the "open area" would not interfere with instrument approach procedures at La Crosse Airport, and that existing obstructions in the area eliminate any impact resulting from a new tower. The City of La Crosse comments that an antenna located anywhere in the "open area" would be a hazard to aircraft using Runway 31 (NW–SE) which is not an instrument runway, and which is the most heavily used runway at the airport. The City attaches an affidavit of the airport manager indicating that 42% of total operations at the airport use runway 31; that 12% of instrument operations use Runway 31; that there are many visual approaches made at the airport; and that visibility at antenna sites on the bluffs is sometimes more limited than that at the airport itself. Therefore the City and the airport manager allege that an antenna anywhere in the "open area" would be a hazard to air traffic.

3. While it is our usual practice to defer the air hazard consideration to the time of application for construction permit, we are not required to close our eyes to the issue in making FM channel assignments in the public interest.[1] Particularly in this case, where spacing requirements limit antenna location to a small area which the city of La Crosse and its airport manager allege is heavily used for air traffic, we are disposed to seek additional information regarding available antenna sites. The burden is on petitioner to convince us that the proposed assignment is in the public interest. We suggest that this burden could be met by a detailed plan for antenna height and location approved by the Federal Aviation Administration. We do not consider this request premature in view of our need to make an informed decision on this proposal and the gravity of possible consequences. We therefore invite comments on the resolution of the air hazard issue only.

4. Interested parties may file such comments on or before December 19, 1975, and reply comments on or before January 8, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties, shall be made in written comments, reply comments, or other appropriate pleadings.

5. An original and three copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. All filings made in this proceeding will be available for examination by interested parties

[1] See *Enterprise and Greenville, Alabama*, 44 F.C.C. 2d 1056 (1974).

during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, N.W., Washington, D.C.

Adopted: October 22, 1974.

Released: October 24, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 20499]

FRAUDULENT BILLING

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.1205 of the Commission's Rules in Order to prohibit certain fraudulent billing practices.

1. The Commission has before it a Motion for Extension of Time filed by Metromedia, Inc. The motion seeks a thirty-day extension of the time provided for the submission of comments in this proceeding.[1] In a subsequent letter, Metromedia indicated that the National Association of Broadcasters, Storer Broadcasting Company, and the National Broadcasting Company share Metromedia's interest in securing an extension of time.

2. Metromedia's request is based on the difficulty which would be faced by counsel if it were necessary to comply with the current deadline in this and other proceedings and simultaneously prepare a brief for filing in the Court of Appeals. In addition, Metromedia has indicated that the subject at issue in this proceeding is of particular interest to it, and it hopes to have available for submission to the Commission the views of the general managers of its various radio stations. Metromedia has stated that an extension would permit inclusion of this material in its filing.

3. Based on the foregoing, we are persuaded that a thiry-day extension is warranted. However, the Commission wishes to advise all interested parties that further extensions are not contemplated. With this extension we shall have provided a total of five months for the filing of comments. This important proceeding requires prompt resolution, and as a result, the Commission cannot accept further delays.

4. Accordingly, *It is ordered*, That the subject request is granted and the date for filing comments in this proceeding is extended to and including November 28, 1975, and the date for filing reply comments is extended to and including December 29, 1975.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d) (1) and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's Rules.

Adopted: October 22, 1975.

Released: October 24, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[Docket No. 20603]

GENEVA RADIO REGULATIONS

Order Extending Time for Filing Comments

In the matter of amendment of Part 83 of the Commission's rules to conform to the extent practicable, with Geneva Radio Regulations pertaining to the Maritime Mobile-Satellite Service, as revised by the Space WARC, Geneva, 1971, and the Maritime WARC, Geneva, 1974.

1. Comsat General Corporation (Comsat General) has requested, on behalf of itself and the other Marisat system participants, RCA Global Communications, Inc. (RCA), Western Union International, Inc. (WUI) and ITT World Communications, Inc. (ITT), an extension of time of 11 days for the filing of comments in the above captioned proceeding.

2. In support of its request, Comsat General states that additional time beyond the 31 days allowed by the Commission is required for adequate consideration of the important matter raised and for the preparation of detailed comments thereon.

3. It appears that the public interest would be served by granting the additional 11 days asked, to afford the petitioner and other interested parties a full opportunity for the preparation and presentation of their views in this proceeding, to aid the Commission in adopting appropriate rules.

4. Accordingly, *It is ordered*, pursuant to § 0.331 of the Commission's Rules, that the time for filing comments in the above-captioned proceeding is extended from October 30, 1975 to November 10, 1975 and for reply comments from November 10, 1975 to November 21, 1975.

Adopted: October 24, 1975.

Released: October 28, 1975.

[SEAL] CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.75-29710 Filed 11-4-75;8:45 am]

[1] The original date specified for the filing of comments was August 29, 1975, and for reply comments, September 29, 1975. These dates were later extended to October 28, 1975, and November 28, 1975, respectively.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1100]

[Ex Parte No. 55 (Sub-No. 19)]

REVISED CONTENT REQUIREMENTS AND PAGE LIMITATIONS ON PETITIONS FOR RECONSIDERATION

Proposed Rulemaking

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 24th day of October 1975.

It is ordered, That based upon the reasons set forth in the attached notice, a proceeding be, and it is hereby, instituted pursuant to Section 17 of the Interstate Commerce Act, 49 U.S.C. 17, and Sections 553 and 559 of the Administrative Procedure Act, 5 U.S.C. 553 and 559, for the purpose of amending Rule 101(d) of the General Rules of Practice (49 CFR 1100.101(d)).

It is further ordered, That the attached notice be, and it is hereby, adopted and incorporated by reference into this order.

It is further ordered, That notice of the institution of this proceeding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register as notice to interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

● Purpose: The purpose of this document is to give notice of a rule making proceeding instituted to amend Rule 101 (d) of the General Rules of Practice—Reconsideration. ●

Under the existing Rules of Practice, any party seeking rehearing, reargument, or reconsideration of a final decision by an employee board or a division must specify the matters claimed to have been erroneously decided and the alleged errors or relief sought with the particularity respecting exceptions as outlined in Rule 96(a). The present rule therefore requires that exceptions to statements of fact or matters of law and points relied upon to support exceptions to conclusions made in the prior decision must be stated and numbered separately. Further, when exception is taken to a statement of fact, reference must also be made to the page or part of the record relied upon to support the exception and a corrected statement must be incorporated. While generally petitions filed pursuant to this section of the rules have followed the noted requirements, such compliance has not been uniform, and it has become necessary to emphasize our intent strictly to

V40-214
NOV 5 75
XUM

enforce adherence and to prescribe revised requirements which will provide a simple and readily definable method of giving full effect to the present rule. Accordingly, it is proposed that petitioners now be required to set forth the necessary specifications of alleged error, relief sought, and argument in support thereof, in summary form, in a preface to the petition. Such preface shall be a succinct, but accurate and clear, condensation of the matters raised on petition. The preface shall not exceed 3 pages, except in extraordinary circumstances, and upon leave granted. It is anticipated that such waiver of the page limitation shall be granted only in those proceedings which involve novel or complex issues of fact or law. Replies to petitions shall, in no greater number of preface pages, address, point by point, the specifications set forth in the preface to the petition to which they are directed.

The proposed rule amendment is designed to encourage parties to organize their presentation better and to enable the Commission to identify the key issues in the case. A page limitation is necessary to give full effect to the requirement and to prevent the summary from becoming an extended discussion of the arguments which appear later.

In addition to the above amendment, the Commission proposes to impose a 10-page limitation upon petitions for reconsideration in those cases wherein a Division has already considered either exceptions or a prior petition for appellate review.

A Division should not be burdened in a successive petition for reconsideration with arguments already of record upon which it has already ruled on exceptions or a previous petition for reconsideration. Rather, the Division's consideration should be directed principally to new issues raised by its prior action taken in the case and major allegations of error in its prior rulings. By limiting the length of these essentially successive petitions for reconsideration, it is anticipated that most repetitive arguments will be eliminated. Moreover, the arguments which are received should be concise and to the point without inhibiting the members from reviewing more detailed presentations made earlier in those circumstances where sufficient doubt is raised.

On October 17, 1975, we transmitted to Congress proposed legislation that would, among other things, render the decision of the Commission or a division administratively final, and thus eliminate petitions of the type discussed in the preceding two paragraphs. The 10 page limitation on such successive petitions for reconsideration is being proposed on the possibility that the above Section 17 proposal may not be passed in this Congress.

This Notice of Proposed Rulemaking is issued under the authority of Sections 17 of the Interstate Commerce Act, (49 U.S.C. 17), and Sections 553 and 559 of the Administrative Procedure Act, (5 U.S.C. 553 and 559).

Issued in Washington, D.C., this 24th day of October, 1975.

PART 1100—GENERAL RULES OF PRACTICE

Accordingly, it is proposed that the present rule 1100.101(d) [49 CFR 1100.-202(d)] be amended by adding the following:

§ 1100.101 Petitions for rehearing, reargument, or reconsideration (Rule 101).

(d) * * * Such specifications of alleged error, relief sought, and argument in support thereof must be summarized, in a preface to the petition, suitably paragraphed, which shall be a succinct, but accurate and clear, condensation of the matters raised on petition. Except in extraordinary circumstances, and upon leave granted, the preface shall not exceed 3 pages. Replies to petitions shall also contain a preface of no more pages than permitted in the petition's preface, and shall address, point by point, the specifications of alleged error, relief sought, and argument in the preface to the petition. In proceedings in which a division reverses, changes, or modifies a prior decision by a hearing officer or an employee board, petitions for reconsideration addressed to the division in an appellate capacity, and relies thereto, shall not exceed 10 pages, in addition to the preface required by this paragraph.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco, and Firearms

ADVISORY COMMITTEE ON DISTILLED SPIRITS PLANT SUPERVISION

Notice of Establishment—Amendment

The Bureau of Alcohol, Tobacco and Firearms is expanding the responsibilities of the Advisory Committee on Distilled Spirits Plant Supervision, establishment of which was announced in the FEDERAL REGISTER of December 19, 1974 (39 FR 43856).

As originally established the Committee's objectives were to advise the Bureau on ways of overcoming or minimizing the problems anticipated in a change in the method of government supervision of distilled spirits plants. These Committee responsibilities were set forth on the assumption that legislation authorizing such changes would be introduced in Congress and considered concurrently with the Committee's deliberations.

Since then, it has been decided the Committee could, with little additional effort or cost, provide valuable advice as to the advisability of changing the present statutory requirements as well as the means of implementing such changes should they be desirable. Consequently, in addition to the responsibilities included in the FEDERAL REGISTER Notice of December 19, 1974, under the heading *"Purpose,"* the Committee's Charter is being expanded to also seek its advice on the question of whether there should be any change from the form of supervision now exercised at distilled spirits plants.

Dated: October 28, 1975.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco, and Firearms.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. 75–2]

NORTHRIDGE DRUG STORE AND DIXIE DRUG STORE

Revocation and Denial of Registration

Correction

In the FEDERAL REGISTER issue of Monday, September 29, 1975, at page 44589, the effective date of the Final Orders in the above-captioned matter was inadvertently and erroneously omitted from the last sentence of the orders.

The Acting Administrator finds that Section 1316.66, Title 21, Code of Federal Regulations provides in pertinent part that an "order shall specify the date on which it shall take effect, which shall not be less than 30 days from the date of publication in the FEDERAL REGISTER. * * *" It is noted that 30 days have elapsed from the date of publication in the FEDERAL REGISTER of the orders in the above-captioned matter.

Therefore, under the authority vested in the Attorney General by Section 823, Title 21, United States Code, and redelegated to the Administrator of the Drug Enforcement Administration by section 0.100, as amended, Title 28, Code of Federal Regulations, and further, having been duly designated as Acting Administrator by Order No. 607–75 of the Attorney General, dated May 30, 1975, in accordance with the authority stated therein and pursuant to the authority delegated to the Acting Administrator by Section 0.132(d), Title 28, Code of Federal Regulations, the Acting Administrator hereby orders that, pursuant to the provisions of Section 1316.66, Title 21, Code of Federal Regulations, the following change be made with reference to the effective date of the Final Orders in the above-captioned matter:

1. The last sentence in the last paragraph of the above-captioned orders on page 44589 should be deleted, and the

V 40 214 NOV 5 75 XUM

sentence "These orders are effective October 30, 1975." should be inserted in lieu thereof.

Dated: October 31, 1975.

HENRY S. DOGIN,
Acting Administrator,
Drug Enforcement Administration.

WHITE SANDS NATIONAL MONUMENT, NEW MEXICO; PROPOSED MASTER PLAN

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a final environmental statement on a proposed master plan for White Sands National Monument located within Dona Ana and Otero Counties, New Mexico.

The environmental statement considers development patterns, land classification, boundary adjustments, and management goals for administration of the area. Major development proposals include an improved circulation pattern at the monument entrance, additions to the existing headquarters building and improvements for picnicking in the dunes, additional parking, and a new road to the Heart-of-the-Dunes to form a one-way interpretive motor road. Boundary proposals involve a proposed land exchange in the Garton Lake Area and the deletion of the Dog Canyon tract.

Copies are available from or for inspection at the following locations:

Southwest Regional Office, National Park Service, Old Santa Fe Trail, Post Office Box 728, Santa Fe, New Mexico 87501.
White Sands National Monument, Post Office Box 458, Alamogordo, New Mexico 88310.

Office of the Secretary

EDDY AND LEA COUNTIES, NEW MEXICO

Oil, Gas, and Potash Leasing and Development Within Potash Area

For the purpose of revising the rules for concurrent operations in prospecting for, development, and production of oil and gas and potash deposits owned by the United States within the Potash Area and for the purpose of revising the designated Potash Area to which the amended provisions are to be applicable, it is ordered as follows:

I. The Order of the Secretary of the Interior dated February 6, 1939 (4 FR 1012), withholding certain lands in New Mexico from application or lease under the oil and gas provisions of the Mineral Leasing Act of February 25, 1920 (41 Stat. 437), as amended, which Order was revoked by Order of the Secretary of the Interior dated October 16, 1951 (16 FR 10669), shall continue to be revoked. The lands described in said Order dated February 6, 1939 (except the E½SE¼, sec. 24, and the E½E½, W½SE¼, S½SW¼, sec. 25, T. 20 S., R. 29 E., N.M.M., which were withdrawn from all forms of entry by Public Land Order No. 569, 14 FR 1086), which were opened for oil and gas leasing by said Order dated October 16, 1951, shall continue to be open for oil and gas leasing. This Order shall not affect the current status of land with respect to its being withdrawn from, or open for, entry or leasing.

II. Subject to the provisions of I. above, the provisions of the Order of the Secretary of the Interior dated May 11, 1965 (30 FR 6692-93), and the Potash Area designated therein are revised to be as specified herein.

III. *General Provisions*—A. *Issuance of Oil and Gas Leases.*

The Department of the Interior reaffirms its position that the lease stipulations contained in the Order of May 11, 1965, adequately protect the rights of the oil and gas, and potash lessees and operators.

Therefore, each successful applicant for a noncompetitive oil and gas lease, and any party awarded a competitive lease, for lands included in the designated Potash Area will be required, as a condition to the issuance of such lease, to execute a stipulation to the lease as follows:

1. No wells will be drilled for oil or gas except upon approval of the Area Oil and Gas Supervisor of the Geological Survey, it being understood that drilling will be permitted only in the event that it is satisfactorily established that such drilling will not interfere with the mining and recovery of potash deposits, or the interest of the United States would best be subserved thereby.

2. No wells will be drilled for oil or gas at a location which, in the opinion of the Area Oil and Gas Supervisor, would result in undue waste of potash deposits or constitute a hazard to or unduly interfere with mining operations being conducted for the extraction of potash deposits.

3. When it is determined by the Area Oil and Gas Supervision that unitization is necessary for orderly oil and gas development and proper protection of potash deposits, no well shall be drilled for oil or gas except pursuant to a unit plan approved by the Area Oil and Gas Supervisor.

4. The drilling or the abandonment of any well on said lease shall be done in accordance with applicable oil and gas operating regulations including such requirements as the Area Oil and Gas Supervisor may prescribe as necessary to prevent the infiltration of oil, gas, or water into formations containing potash deposits or into mines or workings being utilized in the extraction of such deposits.

The Area Oil and Gas Supervisor in any action taken under Part A, items 1, 2, 3, and 4 shall take into consideration the recommendations of the Area Mining Supervisor of the Geological Survey and the applicable conservation rules and regulations of the Oil Conservation Commission of the State of New Mexico.

B. *Renewal or Extension of Oil and Gas Leases.*

As a condition to the granting of any renewal or extension of any existing lease embracing lands included in the designated Potash Area, the lessee will be required to execute a stipulation identical to that specified in Part A, items 1, 2, 3, and 4 hereof.

C. *Potash Leases*

All potash permits and leases hereafter issued or existing potash leases hereafter renewed for Federal lands within the designated Potash Area, shall be subject to a requirement either to be included in the lease or permit or imposed as a stitpulation, to the effect that no mining

or exploratory operations will be conducted that, in the opinion of the Area Mining Supervisor, would constitute a hazard to oil or gas production, or that would unreasonably interfere with the orderly development and production under any oil or gas lease issued for the same land.

D. *Minable Reserves.*

1. Each potash lessee will file annually by January 1 with the Area Mining Supervisor a map or maps on which has been delineated the following information with respect to the Federal potash leases which it then holds:

a. The areas where active mining operations are now in progress on one or more ore zones.

b. The areas where mining operations have been completed on one or more ore zones.

c. The presently unmined areas which are considered to contain a minable reserve in one or more ore zones, i.e., those areas (enclaves) where potash ore is known to exist in sufficient thickness and quality to be minable under present day technology and economics.

d. The areas within these enclaves which are believed to be barren of commercial ore.

The Area Geologist of the Geological Survey, in consultation with the Area Mining Supervisor, will review the information submitted in this regard and make any revisions in the boundaries of the proposed minable reserves (potash enclaves) which are consistent with the data available at the time of such analyses. The Area Geologist and Area Mining Supervisor will commit their initial findings to a map or maps of suitable scale and will thereafter revise that map or maps as necessary to reflect the latest available information.

E. *Oil and Gas Drilling.*

1. It will be departmental policy to deny approval of most applications for permits to drill oil and gas tests from surface locations within the potash enclaves established in accordance with Part D, item 1 hereof. Two exceptions to this policy will be permitted under the following conditions:

a. Drilling of vertical or directional holes will be allowed to take place from barren areas within the potash enclaves when the Area Mining Supervisor determines that such operations will not adversely affect active or planned mining operations in the immediate vicinity of the proposed drillsite.

b. Drilling of vertical or directional holes will be permitted to take place from a drilling island located within a potash enclave when: (1) there are no barren areas within the enclave or drilling is not permitted on the established barren area(s) within the enclave because of interference with mining operations; (2) the objective oil and gas formation beneath the lease cannot be reached by a well which is vertically or directionally drilled from any permitted location within the barren area(s); or, (3) in the opinion of the Area Oil and Gas Supervisor, the target formation beneath a remote interior lease cannot be reached by a well directionally drilled from a surface location outside the potash enclave. Under these circumstances, the Area Mining Supervisor will, in consultation with the Area Oil and Gas Supervisor, establish an island within the potash enclave from which the drilling of that well and subsequent wells will be permitted. The Area Mining Supervisor in establishing any such island will, consistent with the data supplied by the Area Oil and Gas Supervisor regarding present directional drilling capabilities, select a site which will minimize the loss of potash ore. No island will be established within one mile of any area where approved mining operations will be conducted within three years. To assist the Area Mining Supervisor in this regard, he may require affected potash mining operators to furnish a three-year mining plan.

2. In order to protect the equities between oil and gas lessees while at the same time reducing the number of oil and gas wells which operators propose to drill in the Potash Area, the Area Oil and Gas Supervisor will make greater use of his prerogative to require unitization. Unitization will be mandatory in those cases where completion of the proposed well as a producer would result in the drainage of oil and gas from beneath other Federal lands within a potash enclave. Thus, unitization will be prerequisite to the approval of any well which is (1) located adjacent to an enclave (within a quarter of a mile if an oil test or one-half mile if a gas test) and which is to be drilled vertically to the prospective formation; (2) to be directionally drilled from an adjacent surface location to bottom in a formation beneath an enclave; or, (3) to be vertically or directionally drilled from a barren area or island within an enclave. Any unit plan hereafter approved or prescribed that includes oil and gas leases covered by this notice shall include a provision embodying in substance the requirements set forth in Part A, items 1, 2, 3, and 4 hereof.

3. The Department will cooperate with the New Mexico Oil Conservation Commission (NMOCC) in the implementation of that agency's rules and regulations. In that regard, the Federal potash lessees shall continue to have the right to protest to the NMOCC the drilling of a proposed oil and gas test on Federal lands provided that the location of said well is within the State of New Mexico's "Oil-Potash Area" as that Area is delineated by NMOCC Order 111, as amended. However, the Department will exercise its prerogative to make the final decision of whether to approve the drilling of any proposed well on a Federal oil and gas lease within the Potash Area.

4. Applications for permits to drill vertical tests for oil and gas at locations that are in the Potash Area but outside the State of New Mexico's "Oil-Potash Area" and which do not directly offset an enclave (within a quarter mile of an oil test or within one-half mile if a gas test) will be routinely approved by the Area Oil and Gas Supervisor after review by the Area Mining Supervisor.

F. *Access to Maps and Surveys.*

1. Well records and survey plats that an oil and gas lessee must file pursuant to applicable operating regulations (30 CFR Part 221), shall be available for inspection at the office of the Area Oil and Gas Supervisor, by any party holding a potash permit or lease on the land on which the well is situated insofar as such records are pertinent to the mining and protection of potash deposits.

2. Maps of mine workings and surface installations and records of core analyses that a potash lessee must file pursuant to applicable operation regulations (30 CFR Part 231), shall be available for inspection at the office of the Area Mining Supervisor by any party holding an oil and gas lease on the same land insofar as such maps or records are pertinent to the development and protection of oil and gas deposits.

3. Maps of potash enclaves shall be available for inspection in the office of the Area Geologist, Area Mining Supervisor, and Area Oil and Gas Supervisor. Copies of such maps will be available through local reproduction firms in Roswell, New Mexico.

G. *Definition.*

The word "potash" as used herein shall be deemed to embrace potassium and associated minerals as specified in the Act of February 7, 1927 (44 Stat. 1057).

IV. The lessee of any existing lease in the designated Potash Area may make such land subject to the rules and regulations of Part III. above by filing an election to do so, in duplicate, with the Land Office, Bureau of Land Management, Santa Fe, New Mexico. Except to the extent herein modified, the general regulations contained in 43 CFR Part 3100 (governing the leasing and development of oil and gas deposits) and Part 3500 (governing the leasing and development of potash deposits), shall be applicable to the lands covered hereby.

V. The designated Potash Area is described as follows:

PROPOSED LACASSINE WILDERNESS AREA

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a final environmental statement for the Proposed Lacassine Wilderness Area, Cameron Parish, Louisiana.

The proposal recommends about 2,854 acres of the Lacassine National Wildlife Refuge, Cameron Parish, Louisiana, be designated as wilderness within the National Wilderness Preservation System.

Copies of the final statement are available for inspection at the following locations:

Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329.

Refuge Manager, Lacassine National Wildlife Refuge, Route 1, Box 186, Lake Arthur, Louisiana 70549.

U.S. Fish and Wildlife Service, Division of Wildlife Refuges, Room 2280, 18th and C Streets, N.W., Washington, D.C. 20240.

Single copies may be obtained by writing the Environmental Impact Statement Coordinator, Division of Wildlife Refuges, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[File No. 23(74)-6; Case No. 479 (CP-36A)]

HEWLETT-PACKARD GES. m.b.H.

Order Imposing Civil Penalty and Placing Respondent on Probation for Export Control Violations

In the matter of Hewlett-Packard Ges. m.b.H., Handelskai 52, Postfach 7, A-1025 Vienna, Austria.

The Director, Compliance Division, Office of Export Administration, Bureau of East-West Trade, issued a charging letter on November 26, 1974, charging the above respondent with violations of the Export Administration Act of 1969 and regulations thereunder. It alleged, in substance, that the respondent had violated §§387.2, 387.4, and 387.6 of the Export Administration Regulations (hereinafter, the export regulations), in that it, on two separate occasions, reexported or caused to be reexported to Czechoslovakia two computer systems with associated peripherals and accessories, of a value of $61,000 and $29,000 respectively, containing United States—origin parts and components, without obtaining the required authorization for such reexportation. The respondent's answer, dated January 3, 1975, stated that the facts contained in the charging letter are substantially correct and agreed with the information submitted by the parent company to the Office of Export Administration. In addition, it was represented that a substantial portion of the commodities involved had been manufactured outside the United States; that export licenses had been issued by West Germany and Great Britain; that the licensing specialist involved erroneously considered that outstanding demonstration licenses would provide temporary coverage until United States export permission was obtained, and that the transactions involved would be ultimately approved and licensed by the United States. Pressure from the purchasing organization and personal difficulties which forced the relocation of the employee, who is no longer with the Hewlett-Packard organization, were also cited as extenuating circumstances contributing to the violations.

Pursuant to § 388.10 of the Export Administration Regulations, the Office of General Counsel, with agreement of the Director, Compliance Division, submitted to the Hearing Commissioner a consent proposal for the issuance of an order imposing a civil penalty and placing the respondent on probation for 6 months. In said consent proposal the respondent admitted for the purpose of this compliance proceeding only, did not contest or deny the violations set forth in the charging letter of November 26, 1974. The respondent waived: (1) all rights to oral hearing before the Hearing Commissioner; (2) all rights of administrative appeal from and judicial review of said order; and (3) all rights to request refund of any civil penalty imposed pursuant to the consent proposal. It consented to an order imposing the civil penalty hereinafter set forth and probation for 6 months.

The Hearing Commissioner has considered the facts in the case and the respondent's proposal. He has approved the proposal and recommended that it be accepted. The undersigned, having considered the Hearing Commissioner's report and the consent proposal, finds that:

1. The respondent Hewlett-Packard Ges. mbH, Vienna, Austria, is the marketing headquarters for the U.S.S.R. and the Socialist countries of Eastern Europe.

2. During 1973 the respondent reexported or caused to be reexported from the Federal Republic of Germany to Czechoslovakia a HP 9600 E Real Time Executive Computer System valued at approximately $61,000, which contained U.S.-origin parts and components valued at approximately $29,000.

3. The respondent also reexported or caused to reexport a HP 9600 G Data Acquisition and Control Executive (DACE) Computer System valued at approximately $29,000 from Switzerland with U.S.-origin parts and components valued at approximately $27,000, to Czechoslovakia.

4. In each instance the Office of Export Administration was precluded from approving the ultimate consignee as the recipient of the computer systems. The respondent knew that the reexportations described above, were without the required authorization of the Office of Export Administration.

Based upon the foregoing, I have concluded that the respondent violated §§ 387.2, 387.4, and 387.6 of the export regulations in that on two occasions it knowingly reexported commodities from the Federal Republic of Germany and Switzerland to Czechoslovakia, in the manner charged as set forth above and in the Hearing Commissioner's findings of fact.

On consideration of the record in the case, I hereby accept the consent proposal and it is hereby

ORDERED

I. Pursuant to Section 388.1 of the export regulations, a civil penalty of six thousand dollars ($6,000) is imposed on the respondent. Said sum is to be paid to the Treasurer of the United States.

civil penalty, the respondent is placed on probation for a period of six months from the effective date of the order. The conditions of probation are that the respondent shall fully comply with all of the requirements of the Export Administration Act of 1969, as amended, and all regulations, licenses, and orders issued thereunder.

III. Upon a finding by the Director, Office of Export Administration, of such other official as may be exercising the duties now exercised by him, that the respondent has knowingly failed to comply with the requirements and conditions of the order or with any of the conditions of probation, said official without notice when national security or foreign policy considerations are involved, or with notice if such considerations are not involved, by supplemental order may revoke the probation of the respondent, revoke all outstanding validated export licenses to which said respondent may be a party and deny to said respondent all export privileges for the period of the order. Such supplemental order shall not preclude the Bureau of East-West Trade from taking such further action for any violations as it shall deem warranted. On the entry of a supplemental order revoking the respondent's probation without notice, he may file objections and request an oral hearing as provided in § 388.16 of the United States Export Administration Regulations, but pending such further proceedings, the denial order shall remain in effect.

IV. A copy of this order shall be served on the respondent.

Dated: October 29, 1975.

RAUER H. MEYER,
Director,
Office of Export Administration.

National Oceanic and Atmospheric Administration

CENTRAL PARK ZOO

Denial of Permit Application

On August 27, 1975, notice was published in the FEDERAL REGISTER (40 FR 38178) that an application had been filed with the National Marine Fisheries Service by the Central Park Zoo, 830 Fifth Avenue, New York, New York 10021, to take two (2) California sea lions (*Zalophus californianus*) for public display.

Notice is hereby given that pursuant to the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), after having considered the application and all other pertinent information and facts with regard thereto, the National Marine Fisheries Service determined, on October 30, 1975, that the permit request submitted by the Central Park Zoo should be denied.

ROBERT W. SCHONING,
Director,
National Marine Fisheries Service.

OCTOBER 30, 1975.

[FR Doc.75-29689 Filed 11-4-75;8:45 am]

MURRAY L JOHNSON

Receipt of Application for Scientific Research Permit

Notice is hereby given that the following Applicants have applied in due form for a permit to take marine mammals for scienctific research, as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), and the Regulations Governing the Taking and Importing of Marine Mammals.

Murray L. Johnson, Puget Sound Museum of Natural History, Tacoma, Washington 98416, and Steven J. Jeffries, University of Puget Sound, Tacoma, Washington 98416, to take 130 harbor seals (*Phoca vitulina richardii*) for the purpose of scientific research.

The harbor seals will be taken over a two-year period, by means of shooting. The animals will be taken from the area of Puget Sound, primarily Grays Harbor.

The harbor seals will be examined to obtain standard measurements and weights, age, stomach contents, reproductive condition, and conditions of health and disease. Tissue samples will be collected for analysis of environmental contaminants,

The proposed research is directed towards determining the trophic relationships, reproductive biology and status of the Grays Harbor, harbor seals population, including the impact of the harbor seal on the Grays Harbor ecosystem and the fisheries of that area.

In addition to the taking of 130 harbor seals, the Applicants proposed to conduct behavioral studies of harbor seals in the southern portion of Puget Sound.

Documents submitted in connection with the above application are available for review in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Northwest Region, Lake Union Building, 1700 Westlake Avenue, North, Seattle, Washington 98109.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views, or requests for a public hearing on this application to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before December 5, 1975. The holding of such a hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

ROBERT W. SCHONING,
Director
National Marine Fisheries Service.

COMMERCE TECHNICAL ADVISORY BOARD

Meeting

A meeting of the Department of Commerce Technical Advisory Board will be held on Wednesday, December 3, 1975, from 9:00 a.m. to 5:00 p.m. and Thursday, December 4, 1975, from 8:30 a.m. to 12 noon, at the Atlantic Oceanographic and Meteorological Labs (AOML, NOAA), 15 Rickenbacker Causeway, Miami, Florida.

The Board was established to study and evaluate the technical activities of the Department of Commerce and recommend measures to increase their value to the business community. Tentative agenda items include:

Discussion of Regulatory Reform Concept.
Discussion of Economic Impact of Environmental Regulations.
Discussion of "Court for Scientific Controversy Experiment."
Discussion of Proposed Panel on Commercialization of Federally Funded RD&D.
Tour of AOML, National Hurricane and Meteorological Facilities.

A limited number of seats will be available to the press and to the public. The public will be permitted to file written statements or inquiries with the Chairman before or after the meeting.

Persons desiring to obtain further information concerning the Board should contact Mr. William C. Holt, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, D.C. 20230; telephone (202) 967–2394.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

[FR Doc.75-29664 Filed 11-4-75;8:45 am]

[Docket No. 75N-0319]

EDISON PHARMACEUTICAL CO., INC.

Cothyrobal; Notice of Hearing

The Commissioner of Food and Drugs announces that a hearing on the new drug application for Cothyrobal (NDA 16-865) will be held on December 8, 1975.

The Commissioner issued in the FEDERAL REGISTER of June 28, 1973 (38 FR 17027), a notice (Docket FDC-D-641) of opportunity for hearing on a proposal to deny approval of the NDA for Cothyrobal, which is recommended for treating hypercholesterolemia, hypothyroidism, and for patients who become thyro-toxic with other types of thyroid medication. The grounds for denial were the Commissioner's conclusions that the drug lacked substantial evidence of safety and effectiveness for use under the conditions of use prescribed, recommended, or suggested in its labeling and that the submissions failed to satisfy basic requirements, which are specified in the regulations, for new drug applications. By letters of July 25 and July 30, 1973, Edison Pharmaceutical Co., Inc. (Edison) and Edward Ford, a member of the board of directors of the Vascular Research Foundation, requested a public hearing on the denial. The Commissioner is issuing notice of hearing pursuant to that request, as ordered by the Court of Appeals for the District of Columbia.

HISTORY OF PRIOR NDA'S

Three separate NDA's have been filed with the Food and Drug Administration (FDA) by various sponsors for Cothyrobal. Each was either denied or withdrawn. A recounting of the disposition of these prior NDA's is useful background to the hearing ordered herein.

The original NDA (NDA 11-311) for Cothyrobal was submitted by Brewer & Co., Inc., on November 18, 1957. The application was reviewed and found not approvable because the information presented was incomplete. By letters of January 17, 1958, April 2, 1958, and December 2, 1959, the applicant was notified that the application was incomplete under 21 U.S.C. 355(b)(1), (2), (3), (4), and (6). On November 14, 1960, the applicant withdrew its application and subsequently transferred its rights in the drug to Vascular Pharmaceutical Co., Inc.

On September 5, 1961, Vascular Pharmaceutical Co. submitted an NDA (NDA 13-118) for Cothyrobal. By letters of November 3, 1961, May 25, 1962, and March 12, 1963, and by telephone conversations on December 14, 1962, and May 20, 1963, the applicant was notified that the application was incomplete and was provided with a detailed statement of the application's deficiencies. On May 21, 1963, the applicant's counsel requested a hearing on the approvability of the application and, on July 19, 1963, a Notice of Hearing was issued. A hearing began on November 18, 1963, but was terminated on November 21, 1963, when the applicant withdraw its NDA without prejudice.

On December 26, 1973, Vascular Pharmaceutical Co., Inc., filed a second NDA (NDA 15-497) for Cothyrobal. This application was reviewed and found not approvable because the information presented was incomplete under 21 U.S.C. 355(b)(1) through (6), and the applicant was so informed by letter on June 15, 1964. On July 29, 1964, the applicant withdrew its application. Numerous discussions and letters followed between representatives of Vascular Pharmaceutical Co. and the FDA concerning the status of Cothyrobal, and, by letter dated April 15, 1968, Vascular Pharmaceutical Co. requested that its NDA (NDA 15-497) be reactivated. On September 5, 1968, the applicant was informed by letter that its application was still not approvable because the information presented was incomplete under 21 U.S.C. 355(b)(1), (2), (3), (4), and (6). On September 15, 1968, the applicant requested that its application be filed over protest and that a hearing be held on the issue of the approvability of its NDA (NDA 15-497). A notice of opportunity for hearing on Cothyrobal was published in the FEDERAL REGISTER on January 8, 1969 (34 FR 273), and, by a letter dated March 19, 1969, the FDA officially served Vascular Pharmaceutical Co. with an order designating a hearing examiner and setting a hearing date for no later than May 7, 1969. However, on January 27, 1969, Vascular Pharmaceutical Co. assigned its interest in the drug to Edison Pharmaceutical Co. (Edison), and on April 22, 1969, counsel representing both companies officially withdrew without prejudice all NDA's that had been submitted for Cothyrobal, and the hearing was not held.

THE PRESENT NDA

The fourth NDA for Cothyrobal (NDA 16-865), which is the subject of the hearing ordered herein, was submitted to FDA on May 9, 1969, by its current sponsor, Edison. This application was reviewed, and by letter dated December 1, 1969, the applicant was informed that the application was not approvable because the information presented was incomplete under 21 U.S.C. 355(b) (1) through (6).

Thereafter, Dr. Murray Israel, the developer of Cothyrobal, and Edison filed an antitrust suit in the United States District Court for the District of Columbia alleging a conspiracy to keep Cothyrobal off the market. The District Court dismissed the suit, but it was reinstated after appeal. After the reinstatement of the antitrust suit, Edison requested that its NDA for Cothyrobal be reactivated, but it submitted no additional information to support its application. After a second review by FDA personnel unconnected with the initial review in 1969 of petitioner's NDA, the Commissioner again found the application not approvable and so informed Edison by letter dated January 26, 1973. However, Edison requested that the NDA be filed over protest, pursuant to 21 CFR 314.110 (then § 130.5(d), prior to recodification published in the FEDERAL REGISTER of March 29, 1974 (39 FR 11680)), and this was done February 15, 1973. As a result, the NDA was reexamined by group of FDA personnel yet another unconnected with either of the prior reviews. On March 15, 1973, the FDA notified Edison by letter that NDA 16-865 was not approvable, a conclusion that was affirmed in a notice published in the FEDERAL REGISTER of June 28, 1973 (38 FR 17027), which contained a statement of nonapprovability as well as a notice of opportunity for hearing.

In response to the notice of opportunity for hearing, Edison, and Edward Ford on his own behalf and that of other individuals, requested a hearing. Upon review, the Commissioner decided, in a final order dated October 26, 1973 and published in the FEDERAL REGISTER of November 1, 1973 (38 FR 39121), that the requests for hearing contained no new data that could correct any of the deficiencies that had been already noted. Accordingly, in the final order the Commissioner concluded: (1) There was a lack of substantial evidence that Cothyrobal had the effect it purported or was represented to have for its intended use, (2) that the legal arguments presented by Edison was insubstantial, and (3) that the petitioners had failed to set forth specific facts showing that there was a genuine and substantial issue of fact in dispute requiring a hearing; and he formally denied the requests for a hearing.

Edison thereupon appealed to the Court of Appeals for the District of Columbia, which, in an opinion dated June 2, 1975, ordered the FDA to hold a hearing on "all relevant issues related to petitioner's NDA." (*Edison Pharmaceutical Co., Inc.* v. *FDA*, 513 F. 2d 1063, 1072 (C.A.D.C., 1975)).

In response to a suggestion by FDA for rehearing en banc, the Court of Appeals reaffirmed its decision and denied the motion, but Judge Leventhal, in a statement for five judges, noted that "substantial evidence of effectiveness is a necessary but not a sufficient condition for approval of an NDA." (*Edison Pharmaceutical Co., Inc.* v. *FDA*, Civil No. 73-2254 (C.A.D.C., Aug. 11, 1975)) Judge Leventhal acknowledged "difficulty with the panel's directions that the FDA hold an evidentiary hearing not only on the threshold controlled test issue but also hold a full evidentiary hearing on all relevant issues relating to the approvability of petitioner's application, whichever way [the Commissioner] decides the threshold issue." Characterizing the panel's ruling as exceptional, Judge Leventhal nevertheless agreed that a hearing was appropriate in light of the unique circumstances of the case.

Therefore, pursuant to the order of the Court of Appeals and in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053 as amended (21 U.S.C. 355)) and 21 CFR 314.200(g) and under authority delegated to the Commissioner (21 CFR 2.120):

It is ordered, That a public hearing be held to receive evidence on all issues relating to the approvability of NDA 16-865 (Cothyrobal). The specific issues to be determined at such hearing are:

1. Whether the application contains information and data required by statute, 21 U.S.C. 355(b), in that:

(a) It includes a list of components and a statement of the composition of the drug, as required by 21 U.S.C. 355 (b) (2) and (3).

(b) The application includes a list of the components and a statement of the composition of the diluent that is claimed to be packaged in the drug, as required by 21 U.S.C. 355(b) (2) and (3).

(c) The application contains a full description of the methods, facilities, and controls used in the manufacturing and packaging of the drug, as required by 21 U.S.C. 355(b)(4) and 21 CFR 314.1(c).

(d) Samples of the drug were submitted, as required by 21 U.S.C. 355(b) (5).

(e) Specimens of the proposed labeling for the drug which identify the diluent were submitted, as required by 21 U.S.C. 355(b)(6).

2. Whether the NDA for Cothyrobal, NDA 16-865:

(a) Contains reports of investigation adequate to demonstrate the safety of the drug, as required by 21 U.S.C. 355 (d)(1), (2), and (4).

(b) Contains information demonstrating that the methods used in, and the facilities and controls used for the manufacture, processing, and packing of such drug are adequate to preserve its identity, strength, quality, and purity within the meaning of 21 U.S.C. 355(d) (3).

(c) Demonstrates that there is substantial evidence of effectiveness of the drug as a fixed combination within the meaning of 21 U.S.C. 355(d)(5) and 21 CFR 300.50, in the form of adequate and well-controlled clinical studies, as defined by 21 CFR 314.111(a)(5), on the basis of which it could fairly and responsibly be concluded by experts qualified by scientific training and experience to evaluate drugs, that Cothyrobal is effective under the labeled conditions of use.

If there is no substantial evidence of the safety and effectiveness of Cothyrobal, whether it would be too dangerous to conduct adequate and well-controlled studies from which experts could conclude that the drug is safe and effective for its recommended uses.

The hearing shall take place in Hearing Rm. 4A-35, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD 20852. The presiding Administrative Law Judge will be Daniel Davidson. The hearing shall convene on December 8, 1975, at 9:30 a.m. Written requests for appearance must be filed with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, not later than November 15, 1975.

Published elsewhere in this issue of the FEDERAL REGISTER is a Notice of Prehearing Conference, issued by Judge Davidson, setting the prehearing conference for Monday, November 24, 1975, at 10 a.m. It is understood that at the prehearing conference, the Bureau of Drugs will move, pursuant to 21 CFR 314.204 and 314.220, for an order requiring the advance submission of all documentary evidence to be offered at the hearing, such submission to be made no later than December 1, 1975.

The hearing will be open to the public. Only those who requested a hearing (Edison, and Edward Ford) will be parties. Any interested person who is not a party may appear at and participate in the hearing and shall have the right to present evidence and file pleadings relevant to the hearing, so long as such person(s) file a request for appearance not later than November 15, 1975.

Dated: October 30, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

REGIONAL ADMINISTRATORS, ET AL.

Redelegation of Authority Regarding Property Disposition

The redelegation of authority by the Assistant Secretary for Housing Management published at 35 FR 16106, Octo-

V 40 N 214
NOV 5 75
XUM

ber 14, 1970, as amended, is further amended in the following respects:

1. A new section F is added to read as follows:

Sec. F. *Additional authority redelegated.* The Chief, Contracting Section, and the Supervisory Contracting Specialist, in the Property Disposition Branch, Detroit Area Office, each is designated a contracting officer and is authorized to exercise the authorities redelegated in paragraph 8 of section A.

2. The present section F is redesignated section G and is revised to read as follows:

Sec. G. *Exercise of redelegated authority.* Redelegations of authority in sections A through F shall not be construed to modify or otherwise affect the administrative and supervisory powers of the Regional Administrator, Area Director, and Insuring Office Director, or any of them, to whom a delegate is responsible.

(Secretary's delegation of authority to redelegate published at 36 FR 5005, March 16, 1971.)

Effective date. This amendment to the redelegation of authority is effective November 5, 1975.

H. R. CRAWFORD,
Assistant Secretary for Housing Management.

[Docket No. D-75-381]

ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT-FHA COMMISSIONER

Designation and Delegation of Authority

David S. Cook, the Assistant Secretary for Housing Production and Mortgage Credit-FHA Commissioner, is designated as the Secretary's liaison with the Federal National Mortgage Association and is authorized to exercise the regulatory power and authority conferred on the Secretary by section 309(h) and other provisions of the National Housing Act with respect to all matters regarding the Association. The authority conferred by this delegation may not be redelegated.

(Sec. 7(d) of the Department of HUD Act, 42 U.S.C. 3535(d); Title III of the National Housing Act, 12 U.S.C. 1716, et seq.)

This designation supersedes the designation effective May 13, 1974 (39 FR 17115, May 13, 1974).

Effective date. This designation and delegation is effective on November 5, 1975.

CARLA A. HILLS,
Secretary of Housing and Urban Development.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

AIRPORT NOISE POLICY

Public Hearings

The Federal Aviation Administration will hold a series of public hearings on its airport noise policy. These hearings will afford interested persons the opportunity to present views, data, and arguments regarding the subjects and issues stated in a general notice published in the FEDERAL REGISTER on July 9, 1975 (40 FR 28844). In addition to the afternoon sessions of the hearings, evening sessions are provided to accommodate the general public.

The hearings for the months of November and December were listed at 40 FR 48961 on October 20, 1975. In addition, the hearings will also be conducted at the following times and locations:

Nov. 21, 1975—Harrisburg, Pennsylvania: Convening at 1 p.m. and 6 p.m. at the Hershey Motor Lodge and Convention Center, Trinidad Room, West Chocolate Avenue and University Drive, Hershey, Pennsylvania.

Dec. 5, 1975—Detroit, Michigan: Convening at 1 p.m. and 6 p.m. at Oakland Community College, Room 409, Bldg. J, 27055 Orchard Lake Road, Farmington, Michigan.

The hearings will be informal in nature and will be conducted by a designated representative of the Administrator.

Since the hearings will not be evidentiary or judicial in nature, there will be no cross-examination or other adjudicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given the opportunity to do so at the conclusion of the presentations in the same order in which initial statements are made.

Interested persons are invited to attend the hearings and to participate by making oral or written statements concerning the respective topics, their substance and issues. Written statements should be submitted in duplicate and will be made a part of the record of proceedings. Persons wishing to make oral statements at the hearings must notify the FAA that they desire to be heard, and indicate the amount of time requested for their initial statements. Presentations will be scheduled on a first-come-first-served basis, as time may permit. Requests to receive additional information should be made as follows:

For the hearings in Harrisburg, write or call:

Public Affairs Officer, Eastern Region (AEA-5), Federal Aviation Administration, Federal Building, JFK International Airport, Jamaica, New York 11430; (212) 995-9684.

For the hearings in Detroit, write or call:

Public Affairs Officer, Great Lakes Region (AGL-5), Federal Aviation Administration, 2300 E. Devon Avenue, Des Plaines, Illinois 60018; (312) 694-4427.

In addition to materials presented at the hearing, persons not participating in the hearings are invited to submit written comments on the airport noise policy in accordance with the notice published in the FEDERAL REGISTER on July 9, 1975.

Such communications should be addressed to:

Federal Aviation Administration: Associate Administrator for Policy Development and Review, 600 Independence Avenue SW., Washington, D.C. 20591, Attention: Airport Noise Policy Proceedings.

The closing date for submitting written comments is January 1, 1976. All comments will be available for examination both before and after the closing date for comments.

The general notice (40 FR 28844, July 9, 1975) regarding the FAA's airport noise policy identifies a number of possible airport use-restriction options which may be considered for inclusion in an airport noise relief program. In addition, the FAA identified four potential policy options and their implications. Those policy options are as follows:

1. Airport proprietor actions unconstrained by the FAA.

2. Airport proprietor completely constrained by the FAA with a correlated development of a Federal airport noise abatement plan.

3. Airport proprietor to establish a noise abatement plan.

4. Continue the present policy.

The notice presents analysis of the respective options and contains the material that is the subject of these public hearings. While all comments are of interest, the FAA specifically invites statements or comments regarding the policy options in terms of the specific questions stated in the notice.

Before taking final action regarding its airport noise policy, the FAA will consider the statements presented at the hearings and all written comments submitted.

Transcripts of each hearing will be made and anyone may purchase copies from the reporter. A transcript of each hearing will be available for examination in the office of the Associate Administrator for Policy Development and Review, Room 1000W, 800 Independence Avenue SW., Washington, D.C.

Since the hearings contained in this notice have been previously announced in their respective localities in which they will be held, it is determined that publication of the notice of public hearing in the FEDERAL REGISTER less than 15 days before the first hearing is reasonable under 44 U.S.C. 1508.

Issued in Washington, D.C. on October 30, 1975.

FREDERICK A. MEISTER,
Associate Administrator for Policy Development and Review (Acting).

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, November 19, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E Street NW., and will consist of continued discussions on future comparability adjustments for the statutory pay systems, defined in section 5301 of title 5, United States Code, of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent.

RICHARD H. HALL,
Advisory Committee Management Officer for the President's Agent.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-50046; FRL 452-8]

BAYVET CORP.

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Bayvet Corporation, Shawnee Mission, Kansas 66201. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 11556-EUP-1) allows the use of 4.19 pounds of the insecticide fenthion on approximately 300 swine to control hog lice (*Haematopinus suis*). The program is authorized only in the States of Arkansas, Iowa, Kansas, Kentucky, Minnesota, Nebraska, Oklahoma, South Dakota, Texas, and Virginia. The experimental use permit is effective from October 20, 1975, to October 20, 1976. A permanent tolerance has been established for residues of the active ingredient in or on the meat, fat, or meat byproducts of hogs.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: October 31, 1975.

MARTIN H. ROGOFF,
Acting Director, Registration Division.

[OPP-50045; FRL 452-7]

NEW YORK STATE AGRICULTURAL EXPERIMENT STATION

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to the New York State Agricultural Experiment Station, Highland, New York 12528. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 37787-EUP-1) allows the use of 5.5 pounds of the fungicide oxytetracycline hydrochloride on up to 1500 trees to control the causal agent of "X" disease of peaches. The program is authorized only in the States of Connecticut and New York. The experimental use permit is effective from October 17, 1975, to October 17, 1976. A temporary tolerence has been established for residues of the active ingredient in or on the raw agricultural commodity peaches.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: October 31, 1975.

MARTIN H. ROGOFF,
Acting Director, Registration Division.

[FRL 452-1]

NORTH CAROLINA

Approval of the State Program for Control of Discharges of Pollutants to Navigable Waters

Notice is given hereby that the U.S. Environmental Protection Agency (EPA) has granted the State of North Carolina's request for approval of its program for controlling discharges of pollutants to navigable waters in accordance with the National Pollutant Discharge Elimination System (NPDES), pursuant to section 402(b) of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251; the Act).

Section 402 of the Act established the NPDES program, under which the Administrator of EPA may issue permits for the discharge of a pollutant upon the condition that the discharge meets the applicable requirements of the Act. Section 402(b) provides that any State desiring to administer its own permit program for discharges into navigable waters within its jurisdiction may submit its proposed program to the Administrator. If the Administrator determines that the State has adequate authority to carry out the requirements of the Act, he shall approve the submitted program and suspend the issuance of permits as to those navigable waters subject to the program. Guidelines specifying procedural and other elements for State NPDES programs appear at 40 CFR Part 124 (as amended by 38 FR 18000, July 5, 1973, and 38 FR 19894, July 24, 1973).

On December 17, 1974, North Carolina submitted a program for carrying out its proposed NPDES program. Subsequently, the State sought and was granted extensions so that certain legislative and other defects could be cured. On April 30, 1975, EPA conducted a public hearing on the proposed approval in Raleigh, North Carolina. After a review of the North

V40-214 NOV 5 75 XUM

Carolina program, the accompanying legal certification, and all comments submitted by the public during and following the public hearing, the Administrator determined that the State's authority was adequate to carry out the requirements of the Act, and so informed Governor James E. Holshouser, Jr. in a letter dated October 19, 1975.

As of October 20, 1975, the North Carolina NPDES permit program is being administered by the North Carolina Department of Natural and Economic Resources (DNR), 217 W. Jones St., Raleigh, North Carolina 27611 (telephone (919) 829-4984). Mr. James E. Harrington is the DNR's Secretary. The North Carolina program is being administered in accordance with North Carolina statutes and regulations and a Memorandum of Agreement between North Carolina and EPA's Region IV Office, 1421 Peachtree Street, NE., Atlanta, Georgia 30309 (telephone (404) 526-5727). All pertinent documents are available for inspection at the DNR, at EPA's Atlanta, Georgia, Regional Office and at EPA's Headquarters in Room 3201, Waterside Mall, 401 M. Street, SW., Washington, D.C. 20460.

OCTOBER 30, 1975.

STANLEY W. LEGRO,
Assistant Administrator for Enforcement.

[FR Doc.75-29778 Filed 11-4-75;8:45 am]

[OPP-50044; FRL 452-6]

Issuance of Experimental Use Permit
UNION CARBIDE CORP.

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Union Carbide Corporation, Washington, D.C. 20006. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1016-EUP-33) allows the use of 82,000 gallons of the fungicide propionic acid on 16 to 32 piles of corn, containing 15,000 to 200,000 bushels each, to control fungi. The program is authorized only in the States of Colorado, Kansas, Nebraska, and Texas. The experimental use permit is effective from October 15, 1975, to October 15, 1976. A permanent tolerance has been established for residues of the active ingredient in or on corn.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: October 31, 1975.

MARTIN H. ROGOFF,
Director, Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20617; FCC 75-1150]

CANADA/UNITED STATES CHANNELING ARRANGEMENTS FOR THE WEST COAST, GREAT LAKES AND ST. LAWRENCE SEAWAY

Notice of Inquiry

By the Commission: Commissioner Reid absent.

In the matter of proposed Canada/United States channeling arrangements for the West Coast, Great Lakes and St. Lawrence Seaway, and the East Coast for Appendix 18 maritime mobile correspondence frequencies.

1. Notice of Inquiry is hereby given.

2. On February 18-19, 1975, a meeting was held in Ottawa between representatives of the United States and Canada for the purpose of discussing and agreeing on matters affecting Maritime Telecommunications. At that meeting tentative agreement was achieved on arrangements for allotment between Canada and the United States of VHF Appendix 18 frequencies for public correspondence. These arrangements are contained in the working papers set forth in the appendix.

3. The purpose of this Notice is to elicit views from the public regarding these arrangements before these arrangements are implemented by an exchange of letters between the Commission and the Canadian Department of Communications. The Commission emphasizes that once these arrangements are made with Canada, substantive or material changes to what has been arranged will not be subject to reconsideration in a future rule making proceeding to implement these proposed arrangements.

4. Pursuant to the applicable procedures set forth in Section 1.415 of the Commission's rules, interested persons may file comments on or before November 28, 1975, and reply comments on or before December 8, 1975. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding.

5. In accordance with the provisions of Section 1.419 of the Commission's rules, an original and 11 copies of all statements, briefs or comments shall be furnished the Commission. All comments received in response to this Notice of Inquiry will be available for public inspection in the Docket Reference Room in the Commission's Offices in Washington, D.C.

Adopted: October 15, 1975.

Released: October 28, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

WORKING PAPER NO. 1

CANADA/U.S.A. CHANNELLING ARRANGEMENT FOR WEST COAST VHF MARITIME MOBILE PUBLIC CORRESPONDENCE

1. The provisions of this arrangement apply to waters of the State of Washington and of the Province of British Columbia within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This channelling arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations: channels 24, 84, 25, 85, 26, 86, 27, 87, and 28.

3. Shore-based stations (Note 1) may be established by either country in accordance with the provisions of this arrangement without prior coordination with the other country. There shall, however, prior to implementation, be an exchange of information in respect of the establishment of new stations or a change in technical parameters of existing stations.

4. Shore-based stations proposed for establishment which are not in accordance with the provisions of this arrangement shall be subject to prior coordination in accordance with the provisions of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz. Such stations shall not be protected from interference or cause interference to existing or future stations which are established in accordance with the provisions of this arrangement.

5. Existing stations shall comply with the provisions of this arrangement within 12 months after it becomes effective.

Note 1: In the U.S.A., a shore-based station is a coast station.

6. Definitions and Conditions:

a. *Public correspondence sector:* a distinct geographical area to which is allotted primary, supplementary and local channels. Channels shall be assigned in accordance with Annexes A and B.

b. *Primary channel:* a channel intended to cover the greater portion of a public correspondence sector. It may provide some coverage of an adjacent sector but must not cause harmful interference beyond the adjacent sector.

c. *Supplementary channel:* a channel intended to improve coverage of a portion of a sector poorly covered by a primary channel or to relieve traffic congestion on a primary channel. It must not cause harmful interference beyond the adjacent sector.

d. *Local channel:* a low-power channel designed to provide local coverage of certain bays, inlets and ports where coverage of primary or supplementary channels is poor or where heavy traffic loading warrants it. It must not cause harmful interference to primary or supplementary channels or to local channels in other sectors.

7. Technical Characteristics of Shore-based Stations:

a. For primary and supplementary channels the maximum transmitter power shall be 50 watts and the maximum ERP shall be 125 watts. Antennas shall be sited no higher than necessary to provide the desired coverage within the sector.

b. For local channels the ERP shall not exceed 10 watts. Low siting, directive antennas and natural topography shall be employed to confine coverage to the local area and, in any event, to prevent harmful interference to channels in other sectors.

c. For station design purposes the tolerable interference level shall be considered as a received signal of —107 dBm (—137 dBW) from a vertical dipole located 30 feet above the water.

8. In authorizing the establishment of shore-based stations without coordination under the provisions of this arrangement, each Administration shall ensure that the station coverage and interference range have been computed in accordance with sound engineering practices.

9. In the event that harmful interference is experienced by a station operating in accordance with this arrangement, the following steps shall be taken:

a. The operator of the station affected by the interference shall report the details of the situation to his Administration and, at the same time, shall approach the operator of the station causing the interference in an attempt to resolve the problem between the two operating agencies.

b. The Administration shall inform the other Administration of the report but, at this time, make no request for mitgating action.

c. Should a satisfactory resolution be obtained between the two operating agencies, each shall report the results to its Administration and, at the same time, seek authorization for any consequential technical changes to the station.

d. Failing a satisfactory resolution of the problem between the two operating agencies, the operator of the station affected by the interference shall so inform his Administration which will file a harmful interference report with the other Administration and request mitigation of the interference.

e. Either Administration can request that coordinated tests be carried out to confirm the existence, nature and extent of the interference.

10. This arrangement, which is subject to periodic review at the request of either Administration, supersedes the provisions set forth in the Canada/U.S.A. exchanges of letters dated December 10 and 16, 1965, and January 9 and June 8, 1973, insofar as they pertain to the use of the public correspondence channels stipulated in paragraph 2 above, in the area described in paragraph 1 above.

WORKING PAPER NO. 2

CANADA/U.S.A. VHF CHANNELLING ARRANGEMENT FOR MARITIME MOBILE PUBLIC CORRESPONDENCE ON THE GREAT LAKES AND THE ST. LAWRENCE SEAWAY

1. The provisions of this arrangement apply to the waters of the Great Lakes and the St. Lawrence Seaway within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations:

Channels	Ship stations	Coast stations
24	157.200	161.8
84	157.225	161.825
25	157.250	161.850
85	157.275	161.875
26	157.300	161.900
86	157.325	161.925
27	157.350	161.950
87	157.375	161.975
28	157.400	162.000
88	157.425	162.025

3. In considering that:

(a) U.S. operational requirements can be satisfied by 5 channels.

(b) Canadian operational requirements can be satisfied by 4 channels.

(c) Canada and the U.S.A. will use one shared channel, the following channelling arrangement is agreed: Canadian channels: 24, 85, 27, 88,[1] U.S. channels: 84, 25, 86, 87, 28,[2] Shared channel. 26.

4. In adopting the above arrangement, it is understood that each Administration has complete flexibility in making use of its channels within the frequency coordination zone; that the option provided by footnotes 1 and 2 should not be exercised unless the proposed assignment cannot be accommodated on a channel allotted under the plan; that an assignment made under the provisions of footnotes 1 or 2 should not be a far to future

[1] Also assignable to United States stations within the frequency coordination zone, following successful coordination with Canada.

[2] Also assignable to Canadian stations within the frequency coordination zone, following successful coordination with the United States.

[3] Changes to existing assignments and new assignments within the frequency coordination zone of either country are subject to prior coordination with the other Administration.

V40-214 NOV 5 75 XUM

utilization of the channel by the Administration to which it is alloted under this arrangement; and that such an assignment will be vacated if requested by the Administration to which the channel is allotted.

5. This arrangement, which is subject to periodic review at the request of either Administration, supersedes the provisions set forth in the Canada/U.S.A. exchanges of letters dated December 10 and 16, 1965, and January 9 and June 8, 1973, insofar as they pertain to the use of the public correspondence channels stipulated in paragraph 3 above, in the area described in paragraph 1 above.

WORKING PAPER #2A

CANADA/USA CHANNELLING ARRANGEMENT FOR EAST COAST VHF MARITIME MOBILE PUBLIC CORRESPONDENCE

1. The provisions of this arrangement apply to the Canadian and U.S.A. east coast waters including the St. Lawrence River east of the St. Lawrence Seaway within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations:

Channels	Ship stations	Coast stations
24	157.200	161.8
84	157.225	161.825
25	157.250	161.850
85	157.275	161.875
26	157.300	161.900
86	157.325	161.925
27	157.350	161.950
87	157.375	161.975
28	157.400	162.000
88	157.425	162.025

3. In considering that:
(a) U.S. operational requirements can be satisfied by 5 channels.
(b) Canadian operational requirements can be satisfied by 4 channels.
(c) Canada and the U.S.A. will use one shared channel; the following channelling arrangement is agreed: Canadian channels: 24, 85, 27, 88,[1] U.S. channels: 84, 25, 86, 87, 28,[2] Shared channel: 26.[3]

4. In adopting the above arrangement, it is understood that each Administration has complete flexibility in making use of its channels within the frequency coordination zone; that the option provided by footnotes 1 and 2 should not be exercised unless the proposed assignment cannot be accommodated on a channel allotted under the plan; that an assignment made under the provisions of footnotes 1 or 2 should not be a bar to future utilization of the channel by the Administration to which it is alloted under this arrangement; and that such an assignment will be vacated if requested by the Administration to which the channel is allotted.

5. This arrangement, which is subject to periodic review at the request of either Administration, supersedes the provisions set forth in the Canada/U.S.A. exchanges of letters dated December 10 and 16, 1965, and January 9 and June 8, 1973, insofar as they pertain to the use of the public correspondence channels stipulated in paragraph 3 above, in the area described in paragraph 1 above.

APPENDIX

WORKING PAPER NO. 1

CANADA/U.S.A. CHANNELLING ARRANGEMENT FOR WEST COAST VHF MARITIME MOBILE PUBLIC CORRESPONDENCE

1. The provisions of this arrangement apply to waters of the State of Washington and of the Province of British Columbia within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This channelling arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations: channels 24, 84, 25, 85, 26, 86, 27, 87, and 28.

3. Shore-based stations[1] may be established by either country in accordance with the provisions of this arrangement without prior coordination with the other country. There shall, however, prior to implementation, be an exchange of information in respect of the establishment of new stations or a change in technical parameters of existing stations.

4. Shore based stations proposed for establishment which are not in accordance with the provisions of this arrangement shall be subject to prior coordination in accordance with the provisions of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz. Such stations shall not be protected from interference or cause interference to existing or future stations which are established in accordance with the provisions of this arrangement.

5. Existing stations shall comply with the provisions of this arrangement within 12 months after it becomes effective.

6. Definitions and Conditions:

a. *Public correspondence sector:* a distinct geographical area to which is allotted primary, supplementary and local channels. Channels shall be assigned in accordance with Annexes A and B.

b. *Primary channel:* a channel intended to cover the greater portion of a public correspondence sector. It may provide some coverage of an adjacent sector but must not cause harmful interference beyond the adjacent sector.

c. *Supplementary channel:* a channel intended to improve coverage of a portion of a sector poorly covered by a primary channel or to relieve traffic congestion on a primary channel. It must not cause harmful interference beyond the adjacent sector.

d. *Local channel:* a low-power channel designed to provide local coverage of certain bays, inlets and ports where coverage of primary or supplementary channels is poor or where heavy traffic loading warrants it. It must not cause harmful interference to primary or supplementary channels or to local channels in other sectors.

7. Technical Characteristics of Shore-based Stations:

a. For primary and supplementary channels the maximum transmitter power shall be 50 watts and the maximum ERP shall be 125 watts. Antennas shall be sited no higher than necessary to provide the desired coverage within the sector.

b. For local channels the ERP shall not exceed 10 watts. Low siting, directive antennas and natural topography shall be employed to confine coverage to the local area and, in any event, to prevent harmful interference to channels in other sectors.

c. For station design purposes the tolerable interference level shall be considered as a received signal of —107 dBm (—137 dBW) from a vertical dipole located 30 feet above the water.

8. In authorizing the establishment of shore-based stations without coordination under the provisions of this arrangement, each Administration shall ensure that the station coverage and interference range have been computed in accordance with sound engineering practices.

9. In the event that harmful interference is experienced by a station operating in accordance with this arrangement, the following steps shall be taken:

a. The operator of the station affected by the interference shall report the details of the situation to his Administration and, at the same time, shall approach the operator of the station causing the interference in an attempt to resolve the problem between the two operating agencies.

b. The Administration shall inform the other Administration of the report but, at this time, make no request for mitigating action.

c. Should a satisfactory resolution be obtained between the two operating agencies, each shall report the results to its Administration and, at the same time, seek authorization for any consequential technical changes to the station.

d. Failing a satisfactory resolution of the problem between the two operating agencies, the operator of the station affected by the interference shall so inform his Administration which will file a harmful interference report with the other Administration and request mitigation of the interference.

e. Either Administration can request that coordinated tests be carried out to confirm the existence, nature and extent of the interference.

10. This arrangement, which is subject to periodic review at the request of either

[1] Also assignable to United States stations within the frequency coordination zone, following successful coordination with Canada.
[2] Also assignable to Canadian stations within the frequency coordination zone, following successful coordination with the United States.
[3] Changes to existing assignments and new assignments within the frequency coordination zone of either country are subject to prior coordination with the other Administration.

[1] In the U.S.A., a shore-based station is a coast station.

Administration, supersedes the provisions set forth in the Canada/U.S.A. exchanges of letters dated December 10 and 16, 1965, and January 9 and June 8, 1973, insofar as they pertain to the use of the public correspondence channels stipulated in paragraph 3 above, in the area described in paragraph 1 above.

WORKING PAPER NO. 2

CANADA/U.S.A. VHF CHANNELLING ARRANGEMENT FOR MARITIME MOBILE PUBLIC CORRESPONDENCE ON THE GREAT LAKES AND THE ST. LAWRENCE SEAWAY

1. The provisions of this arrangement apply to the waters of the Great Lakes and the St. Lawrence Seaway within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations:

Channels	Ship stations	Coast stations
24	157.200	161.8
84	157.225	161.825
25	157.250	161.850
85	157.275	161.875
26	157.300	161.900
86	157.325	161.925
27	157.350	161.950
87	157.375	161.975
28	157.400	162.000
88	157.425	162.025

3. In considering that:

(a) U.S. operational requirements can be satisfied by 5 channels.

(b) Canadian operational requirements can be satisfied by 4 channels.

(c) Canada and the U.S.A. will use one shared channel, the following channelling arrangement is agreed: Canadian channels: 24, 85, 27, 88,[1] U.S. channels: 84, 25, 86, 87, 28,[2] Shared channel: 26.[3]

4. In adopting the above arrangement, it is understood that each Administration has complete flexibility in making use of its channels within the frequency coordination zone; that the option provided by footnotes 1 and 2 should not be exercised unless the proposed assignment cannot be accommodated on a channel allotted under the plan; that an assignment made under the provisions of footnotes 1 or 2 should not be a bar to future utilization of the channel by the Administration to which it is allotted under this arrangement; and that such an assignment will be vacated if requested by the Administration to which the channel is allotted.

5. This arrangement, which is subject to periodic review at the request of either Administration, supersedes the provisions set forth in the Canada/U.S.A. exchanges of letters dated December 10 and 16, 1965, and January 9 and June 8, 1973, insofar as they pertain to the use of the public correspondence channels stipulated in paragraph 3 above, in the area described in paragraph 1 above.

WORKING PAPER #2A

CANADA/USA CHANNELLING ARRANGEMENT FOR EAST COAST VHF MARITIME MOBILE PUBLIC CORRESPONDENCE

1. The provisions of this arrangement apply to the Canadian and U.S.A. east coast waters including the St. Lawrence River east of the St. Lawrence Seaway within the coordination boundaries of "Arrangement A" of the Canada/U.S.A. Frequency Coordination Agreement above 30 MHz.

2. This arrangement applies to the following public correspondence channels of Appendix 18 of the International Radio Regulations:

Channels	Ship stations	Coast stations
24	157.200	161.8
84	157.225	161.825
25	157.250	161.850
85	157.275	161.875
26	157.300	161.900
86	157.325	161.925
27	157.350	161.950
87	157.375	161.975
28	157.400	162.000
88	157.425	162.025

3. In considering that:

(a) U.S. operational requirements can be satisfied by 5 channels.

(b) Canadian operational requirements can be satisfied by 4 channels.

(c) Canada and the U.S.A. will use one shared channel; the following channelling arrangement is agreed: Canadian channels: 24, 85, 27, 88 [1] U.S. channels: 84, 25, 86, 87, 28 [2] Shared channel: 26.[3]

In adopting the above arrangement, it is understood that each Administration has complete flexibility in making use of its channels within the frequency coordination zone; that the option provided by footnotes 1 and 2 should not be exercised unless the proposed assignment cannot be accommodated on a channel allotted under the plan; that an assignment made under the provisions of footnotes 1 or 2 should not be a bar to future utilization of the channel by the Administration to which it is allotted under this arrangement; and that such an assignment will be vacate dif requested by the

[FCC 75-1193; Docket No. 20288]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Order Modifying Procedures and Extending Time

In the matter of American Telephone and Telegraph Co. investigation into the lawfulness of Tariff F.C.C. No. 267, offering a dataphone digital service among five cities.

1. The Trial Staff of the Common Carrier Bureau has requested an extension of the deadline established for the filing of proposed findings of fact and conclusions of law in the above-captioned proceeding from November 14, 1975 to January 19, 1976. Additionally, it requests extension of the deadline for the filing of replies to the proposed findings and conclusions from December 12, 1975 to March 1, 1976. Finally, the Trial Staff asks us to authorize such further extensions as may prove necessary. The dates here appealed were established by the presiding Administrative Law Judge pursuant to paragraph 37 of our designation Order in this docket, released December 16, 1974 (50 F.C.C. 2d 501, 516).

2. In support of its request the Trial Staff states that in mid-June and mid-July the two Trial Staff attorneys with primary responsibility for this proceeding left the Commission. The three attorneys comprising the new Staff for this matter are said to require a great deal of time to familiarize themselves with the case adequately, in light of the voluminous and complex record developed to date. The Trial Staff views January 19, 1976 as a conservative, optimistic estimate of the time required properly to prepare and submit proposed findings and conclusions. The Trial Staff further states that none of the other participants in the hearing conference held September 19, 1975 objected to the requested extension of time.[1]

3. The Trial Staff indicates that it is authorized to inform the Commission that both of the presiding Judges believe the Trial Staff's proposed extended dates are reasonable and meeting them would require a "concerted effort" by all parties. The Judges also authorized the Trial Staff to state that the proposed extensions of time would be required to produce "reasoned" proposed findings and conclusions, while the date as set might elicit "ill considered and poorly developed" proposals. Because of the constraints in our designation Order, the requested extensions must be acted upon by us, rather than the Judges. As a result, the Judges permitted the instant appeal.

4. Upon careful consideration of the arguments advanced by the Trial Staff in support of its requests, we conclude that it has shown good cause for the extensions of time for the filing of proposed findings and replies. We reiterate our continuing desire, however, to see this matter concluded as expeditiously as possible.

5. Accordingly, it is ordered, That the procedures established in Paragraph 37 of our Memorandum Opinion and Order, 50 F.C.C. 2d 501, 516 are modified and that the dates for the filing of proposed findings of fact and conclusions of law and replies thereto in the above-captioned proceeding are extended to January 19, 1976 and March 1, 1976 respectively.

Adopted: October 21, 1975.

Released: October 29, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary,

[FR Doc.75-29711 Filed 11-4-75;8:45 am]

[Docket No. 20622; File No. BPH-8924 etc.]

GAINESVILLE MEDIA, INC. ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Gainesville Media, Inc., Gainesville, Florida, Docket No. 20622, File No. BPH-8924 (Requests: 100.9 MHz, Channel No. 265; 3 kW (H&V); 300 feet); Gainesville Broadcasting, Inc., Gainesville, Florida, Docket No. 20623, File No. BPH-9194 (Requests: 100.9 MHz, Channel No. 265; 3 kW (H&V); 300 feet); University City Broadcasting Co., Gainesville, Florida, Docket No. 20624, File No. BPH-9197 (Requests: 100.9 MHz, Channel No. 265; 3 kW (H&V); 300 feet); for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it the above-captioned applications which are mutually exclusive in that they seek the same channel in Gainesville, Florida.

2. In its demographic description of Gainesville, Gainesville Media, Inc., notes that manufacturing makes "a substantial contribution to the [Gainesville] economy." However, the only community leader interviewed who appears to represent manufacturers is described as "George Linsey, III Public Utilities Division, Gainesville." Even if Mr. Linsey's position with this organization were provided, as required by question and answer 20 of the Commission's Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), this lone contact would not constitute adequate representation of this significant group within the Gainesville community. Accordingly, an appropriate issue will be specified.

3. According to Gainesville Broadcasting, Inc. [GBI], the combined enrollment in the educational institutions in Gainesville totals more than 50,000. Four student leaders were interviewed. However, these interviews were conducted more than six months prior to the filing of the application, and therefore cannot be included in GBI's efforts. See Primer, supra, question and answer 15. As a result, GBI has failed to contact any leaders of this significant group, and an appropriate issue will be specified.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by Gainesville Media, Inc., to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

2. To determine the efforts made by Gainesville Broadcasting, Inc., to ascertain the community needs and interests of the area to be served and the means by which the applicant proposes to meet those needs and interests.

3. To determine which of the proposals would, on a comparative basis, best serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if any, of the applications should be granted.

6. It is further ordered, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually, or if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

Adopted: October 15, 1975.

Released: October 30, 1975.

[Docket Nos. 20613, 20614; File Nos. BPH-9255, BPH-9339]

JERSEY SHORE BROADCASTING CORP. AND RAAB COMMUNICATIONS, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Jersey Shore Broadcasting Corp. Ship Bottom, New Jersey (Docket No. 20613, File No. BPH-9255) (Requests: 100.1 MHz, Channel No. 261; 3 kW (H&V), 300 feet); RAAB Communications, Inc. Ship Bottom, New Jersey (Requests: 100.1 MHz, Channel No. 261; 3 kW (H&V), 300 feet); for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau acting pursuant to delegated authority, has before it the two above-captioned applications which are mutually exclusive in that they seek the same channel in Ship Bottom, New Jersey.

2. Each applicant requests authority, as provided in § 73.210(a)(3) of the rules, to locate the main studio of its facility at the transmitter site, outside of the community of license. As the proposed location would, in each case, be readily accessible to residents of Ship Bottom, and, further, be protected from adverse winter weather conditions common to Long Beach Island proper, the Commission will authorize the location of the main studio at either of the proposed transmitter sites.

3. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. Acordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine which of the proposals would, on a comparative basis, better serve the public interest.

2. To determine, in light of the evidence adduced pursuant to the foregoing issue, which of the applications should be granted.

5. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

6. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: October 10, 1975.

Released: October 29, 1975.

FEDERAL MARITIME COMMISSION

CRUISE LINES INTERNATIONAL ASSOCIATION

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to Section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before November 25, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the

V 40 214
NOV 5 75
XUM

commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed for approval by:

Mr. William J. Armstrong, Acting Administrator, Cruise Lines International Association, 17 Battery Place, New York, New York 10004.

Agreement No. 10072 between the parties identified hereafter, establishes a Conference to be known as Cruise Lines International Association which will supersede Agreement No. 10071 which is a cooperative working arrangement under the same name, Cruise Lines International Association. Upon approval of proposed Agreement No. 10072, Agreement No. 10071 will be terminated. Also upon approval of proposed Agreement No. 10072 the Trans-Pacific Passenger Conference (Agreement No. 131) and the International Passenger Ship Association (Agreement No. 9856) will be terminated. Also to be terminated upon approval of proposed Agreement No. 10072 are Agreement No. 10010 (which permits joint promotional and educational activities) and Agreement No. 10070 (which permits discussions relating to the possibility of their reorganization, including the creation of new entities) between the Trans-Pacific Passenger Conference and the International Passenger Ship Association.

Agreement No. 10072 includes the following:

1. Articles.
2. Rules Affecting Travel Agencies.
3. Agency Appointment Agreement.

The Articles of the proposed agreement cover name, purpose and organization; scope; membership; advertising and promotion; travel agents; self-policing and compliance with law.

The Rules Affecting Travel Agencies cover standards for appointment of travel agencies; remuneration; employment of prior defaulters prohibited; ticketing and remittances; advertising and promotion; changes affecting agencies; termination of agency relationship; review; review board and notices.

The Agency Appointment Agreement is an agreement between Cruise Lines International Association, acting as agent for the members of the Association, and travel agents.

The parties to this Agreement are:

Baltic Steamship Co.
Black Sea Shipping Co.
Chandris Lines, Chandris Cruises by Chandris, Incorporated.
Commodore Cruise Line Ltd.
Costa Line, Inc.
Cunard Line Limited.
Epirotiki Lines.
Hellenic Mediterranean Lines.
Holland America Cruises.
Home Lines.
Italian Line.

[Independent Ocean Freight Forwarder License No. 1592]

ECCA FREIGHT SYSTEMS, INC.

Order of Revocation

On October 10, 1975, ECCA Freight Systems, Inc., One World Trade Center, New York, New York 10048 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 1592 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders Commission Order No. 201.1 (Revised) § 5.01(b) (dated 6/30/75);

It is ordered, That Independent Ocean Freight Forwarder License No. 1592 issued to ECCA Freight Systems, Inc. be and is hereby revoked effective October 10, 1975, without prejudice to reapply for a license in the future.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon ECCA Freight Systems, Inc.

LEROY F. FULLER,
Director, Bureau of Certification and Licensing.

[FR Doc.75-29722 Filed 11-4-75;8:45 am]

[Docket No. 75-47]

KOREA EXPRESS U.S.A., INC.

Order of Hearing on Petition for License as an Independent Ocean Freight Forwarder

Korea Express U.S.A., Inc. (Korea U.S.A.), One World Trade Center, Suite 1729, New York, New York 10048, filed an application for a license as an independent ocean freight forwarder pursuant to section 44, Shipping Act, 1916.

During the course of the Commission's investigation of the applicant it was disclosed that Korea U.S.A. is wholly owned by The Korea Express Co., Ltd. (TKECO). TKECO in turn is related to Dong-Ah Construction Industrial Co., Ltd. and Dong-Ah Kaiser Company through common directors and ownership. TKECO, Dong-Ah Construction Industrial Co., Ltd and Dong-Ah Kaiser Company appear to be shippers, consignees, sellers or purchasers of shipments moving by oceangoing common carriers from the United States to foreign countries and appear to have a beneficial interest in such shipments.

The relationship between the applicant on the one hand and TKECO, Dong-Ah Construction Industrial Co., Ltd. and Dong-Ah Kaiser Company on the other hand, appears to create a relationship between the applicant and shippers, consignees, sellers and purchasers of shipments which is prohibited under sections 1 and 44, Shipping Act, 1916, and the Commission's General Order 4. These provisions only permit licensing of persons who are not shippers or consignees or sellers or purchasers of shipments to foreign countries and are not directly or indirectly controlled by such shippers or consignees or by any person having a beneficial interest therein.

Pursuant to § 510.8 of the Commission's General Order 4 (46 CFR 510.8), the Commission, on July 7, 1975, advised the applicant of its intent to deny the application for the reasons set out hereinabove. In accordance with General Order 4 an applicant may upon receipt of such advice request a hearing on the application.

By letter dated August 14, 1975, Korea U.S.A. through counsel filed an amended application requesting that a restricted independent ocean freight forwarder license be issued to the applicant with the forwarding authority to encompass only the movement of military goods consigned to the Republic of Korea or any agencies or ministries thereof for use by the armed forces of Korea.

The amended application seeking a restricted license apparently is an attempt to remove any possibility of Korea U.S.A. handling shipments in which its affiliate companies have any interest. This would remove the possibility of any direct or indirect rebate being paid as a result of Korea U.S.A. collecting ocean freight brokerage on shipments made by its affiliated companies.

The Commission specifically rejected this concept of a limited license in License No. 790—North American Van Lines, 14 FMC 215 (1971), wherein the majority stated at Page 222 that:

> Shipper control negates the Commission's authority . . . to issue a license . . . regardless of any condition that the licensee may propose.

Even if the applicant only handled Korean Government cargo the applicant would still not appear to meet the definition of an independent ocean freight forwarder as the shipper/consignee relationship between the applicant and its affiliated companies would still exist.

Now, therefore, *it is ordered*, Pursuant to section 44, Shipping Act, 1916, (46 U.S.C. 841b) § 510.8 of the Commission's General Order 4 (46 CFR 510.8), that a hearing is hereby ordered to afford Korea Express U.S.A., Inc. the opportunity to demonstrate that the foregoing information and/or reasons do not warrant finding that the applicant does not qualify for a license as an independent ocean freight forwarder within the meaning of section 44, Shipping Act, 1916, and of the Commission's General Order 4 (46 CFR Part 510).

It is further ordered, That Korea Express U.S.A., Inc. be hereby made a petitioner in this proceeding pursuant to Rule 3(a) of the Commission's Rules of Practice and Procedure (46 CFR 502.41).

It is further ordered, That this proceeding be assigned for public hearing and an initial decision before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined by the presiding Administrative Law Judge on or before April 30, 1976.

It is further ordered, That notice of this Order be published in the FEDERAL REGISTER and that a copy thereof and notice of hearing be served upon petitioner.

It is further ordered, That any persons other than petitioner who desire to become a party to this proceeding and to participate therein, shall file a petition to intervene in accordance with Rule 5(1) of the Commission's Rules of Practice and Procedure (46 CFR 502.72).

It is further ordered, That all further notices issued by or on behalf of the Commission in this proceeding, including notice and time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-29724 Filed 11-4-75;8:45 am]

[Docket No. 75-46]

U.S. MIAMI-CARIBBEAN/PUERTO RICO TRADES

Order of Investigation and Hearing Regarding Possible Violations of the Shipping Act 1916, and the Intercoastal Shipping Act, 1933

In November 1974, the Commission's staff commenced an investigation of non-vessel operating common carriers (NVOCCs) operating from the Port of Miami in the U.S. South Atlantic-Caribbean/Puerto Rico trades [1] to determine whether any NVOCC serving this trade was engaged in the practice of overdeclaring the weight or measure of individual shipments received from their customers for billing purposes, and underdeclaring or misdescribing the contents of trailerloads of cargo to vessel operating common carriers serving Miami to receive the benefit of a lower tariff rate. In the course of the investigation, bills of lading related to the movement of containerized cargo for NVOCCs by Sea-Land Service, Inc., Trailer Ship Line and TMT Trailer Ferry were obtained for the period July through September 1974.

The documents furnished by the three carriers disclosed that trailerload shipments (as indicated in parentheses) had been transported during the above period for the account of the following NVOCCs: Transconex, Inc. (90), Meteoro Express, Inc. (50), Twin Express, Inc. (40), Econocaribe Consolidators, Inc. (39), Sea-Trailer Express, Inc. (21), Marine Trailer Transport (10), Drake Motor Lines, Drake Marine Division (6). After receipt of this information, each of the foregoing NVOCCs was contacted and requested to furnish shipping documents issued by them to their customers for a selected number of shipments during the period July through September 1974.

Shipping documents in the form of bills of lading, cargo manifests and/or warehouse receipts were obtained from the NVOCCs for 62 of the 256 shipments. Forty-five of the 62 shipments for which some documentation was furnished were shipments for the account of the three largest NVOCCs. Of these 45 shipments, complete documentation for 19 shipments was received by the Commission's staff and examined in detail. As to these 19 shipments, all appear to contain discrepancies between the cargo description, weight and/or measure as shown on the ocean carriers' bills of lading and/or the shipping documents issued by the NVOCCs for the same shipment. As for the 17 shipments out of the 62 which involved trailerload shipments by the other NVOCCs in the subject trades, the available documentation appears to indicate that on 2 of the shipments, NVOCCs had issued individual bills of lading and invoices on a cubic measurement basis which exceeded the actual cubic capacity of the trailers and on 9 of the remaining 15 shipments, NVOCCs issued bills of lading on a cubic measurement basis which appear to be in excess of 85 percent of the actual capacity of the trailer. Documentation showing utilization exceeding 85 percent is noteworthy since 85 percent of the actual capacity of a trailer was acknowledged by both NVOCC and ocean carrier representatives as being the usable cubic capacity of a trailer for most shipments. In all, 42 of the 62 shipments for which documentation was available appear to contain one or more of the above noted discrepancies.

Over-declaring the weight or measure of a domestic offshore shipment in addition to charging a higher rate than would otherwise be applicable to such a shipment and thereby increasing a shipper's transportation cost, results in a violation of Section 2, Intercoastal Shipping Act, 1933 and/or Section 18(a), Shipping Act, 1916. The same practice in the foreign commerce of the United States violates Section 18(b) the Shipping Act, 1916. Underdeclaring the weight or measure of cargo or misdescribing cargo to the underlying ocean carrier to obtain a lower freight than would otherwise be applicable, violates the first paragraph of Section 16 of the Shipping Act, 1916.

It appears from the high number of variances in the descriptions, weights and measures found on separate shipping documents covering the same shipments of trailerload cargo that the NVOCCs serving the Port of Miami in the subject trades may have violated the provisions of the Shipping Act, 1916 and the Intercoastal Shipping Act, 1933, as specified herein, and that these apparent violations are widespread.

Good cause appearing, it is the determination of the Commission that a proceeding should be instituted pursuant to Section 22 of the Shipping Act, 1916, to determine whether NVOCC's operating in the Port of Miami during the period July, 1974 to present have been in compliance, and if not, the extent of any non-compliance, with the provisions of the Shipping Act, 1916 and the Intercoastal Shipping Act, 1933, as specified herein.

It is therefore ordered, That pursuant to Section 22 of the Shipping Act, 1916, a proceeding is hereby instituted to determine whether the non-vessel operating common carriers set forth in Appendix A have violated the provisions of the Shipping Act, 1916 and/or the Intercoastal Shipping Act, 1933, as set forth below.

It is further ordered, That pursuant to Section 16 of the Shipping Act, 1916, a determination shall be made as to whether any of the non-vessel operating common carriers set forth in Appendix A and serving the Port of Miami in the subject trades obtained or are obtaining transportation by water for property at less than the rates and charges which would otherwise be applicable during the period July 1, 1974 to the effective date of this Order.

It is further ordered, That pursuant to 18(b) of the Shipping Act, 1916 and/or Section 2 of the Intercoastal Shipping Act, 1933, a determination shall be made as to whether any of the non-vessel operating carriers set forth in Appendix A serving Miami in the subject trades, charged a greater or lesser compensation for the transportation of property or for any service in connection therewith than the rates and charges filed and effective during the period July 1, 1974 to the effective date of this Order.

It is further ordered, That pursuant to Section 17 and/or 18(a) of the Shipping Act, 1916, a determination shall be made as to whether any of the non-vessel operating carriers set forth in Appendix A failed to establish and/or observe and enforce just and reasonable rates, fares, charges, regulations or practices connected with the receiving, handling, transporting, storing and delivery of less-than-containerload shipments in the trade between the Port of Miami and ports in the Caribbean and Puerto Rico during the period July 1, 1974 to the effective date of this Order.

It is further ordered, That Drake Motor Lines, Inc., Econocaribe Consolidators, Inc., Marine Trailer Transport, Inc., Meteoro Express, Inc., Sea Trailer Express, Inc., Transconex, Inc., and Twin Express, Inc. are hereby made respondents to this proceeding.

It *is further ordered*, That this matter be assigned for public hearing and

[1] Appendix A and Appendix B, respectively list the non-vessel operating carriers and vessel operating carriers serving the subject trades from July 1, 1974.

V 40 214
NOV 5 75
XUM

decision by an Administrative Law Judge of the Commission's Office of Administrative Law Judges, and that the hearing commence on or before April 30, 1976.

It is further ordered, That (1) copy of this Order be forthwith served upon the respondents named herein and upon the Commission's Bureau of Hearing Counsel, and published in the FEDERAL REGISTER; and (2) the respondents and Hearing Counsel be duly served with notice of time and place of the hearing.

It is further ordered, That any person other than respondents and Hearing Counsel having an interest and desiring to participate in this proceeding shall file a petition for leave in accordance with Rule 5(1) (46 CFR 502.72) of he Commission's Rules of Practice and Procedure.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. ER76-171]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Notice of Filing of Initial Rate Schedule

OCTOBER 30, 1975.

Take notice that on October 9, 1975, Central Vermont Public Service Corporation (Company) tendered for filing a Purchase Power Contract between Company and Vermont Electric Cooperative, Inc. (Customer) dated October 2, 1975.

Service under the rate schedule is provided to commence November 1, 1975. Pursuant to section 35.11 of the Commission's Regulations, the Company requests a waiver of the 30 day notice requirement. Company states that such a waiver is appropriate in order to permit initiation of service concurrently with the beginning of a power year under the NEPOOL agreement and because negotiations were only recnetly completed. Company adds that if a waiver is granted, it will not affect purchasers of the Company under other rate schedules.

Company states that service to be furnished under this rate schedule consists of a continuing 5-year sale by the Company to the Customer of unreserved system capacity in amounts as specified by the Customer. The rate under which service is to be rendered is the average cost of the Company's capacity and energy, excluding system power purchases from the Power Authority of the State of New York from the St. Lawrence and Niagara projects.

Company reports that it has mailed copies of the rate schedule to the Customer and the Public Service Board of the State of Vermont.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 5, 1975.[1] Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-29834 Filed 11-4-75;8:45 am]

[Docket No. ER76-172]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Notice of Filing of Initial Rate Schedule

OCTOBER 30, 1975.

Take notice that on October 9, 1975, Central Vermont Public Service Corporation (Company), tendered for filing a Power Transmission Contract between Company and Vermont Electric Cooperative, Inc. (Customer) dated October 2, 1975. Service under the rate schedule is provided to commence as of June 1, 1975. Pursuant to Section 35.11 of the Commission's Regulations the Company requests a waiver of the 30 day notice requirement. Company states that this request is made so that there will be a rate available for the transmission of power over the Company's facilities, which power was purchased by the Customer from Northeast Utilities, Inc., which purchase has an effective date of June 1, 1975. Company further states that if the waiver is not granted, there would be no rate available to the Customer respecting the transmission of the Northeast power purchased by the Customer; and if waiver is granted, it will not affect any other wholesale customer of the Company under other rate schedules.

Company states that the service to be furnished under this rate schedule consists of the transmission of capacity and associated energy contracted for by the Customer on or after the effective date of the agreement whether such power and associated energy is being purchased or sold by the Customer.

Company reports that it has mailed copies of the rate schedule to Customer and the Public Service Board of the State of Vermont.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 5, 1975.[1] Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9454]

THE PUBLIC SERVICE CO. OF NEW MEXICO

Notice of Further Extension of Procedural Dates

OCTOBER 28, 1975.

On October 21, 1975, The City of Gallup filed a motion to extend the procedural dates fixed by order issued July 31, 1975, as most recently modified by notice issued September 26, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Intervenor Testimony, November 4, 1975.
Service of Company Rebuttal, November 18, 1975.
Hearing, December 2, 1975 (10 a.m. e.s.t.).

KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

[Temporary Regulation F-360]

FEDERAL PROPERTY MANAGEMENT REGULATIONS

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an electric and natural gas rate increase proceeding.

2. *Effective date.* This regulation is effective October 16, 1975.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is hereby delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a proceeding involving the Pacific Gas and Electric Company before the California Public Utilities Commission (Application Nos. 55509 and 55510), concerning proposed increases in electric and natural gas rates.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

DWIGHT A. INK,
Acting Administrator of General Services.

OCTOBER 29, 1975.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-87)]

NASA SPACE PROGRAM ADVISORY COUNCIL (SPAC)

Applications Committee November 21, 1975, Meeting

The NASA SPAC Applications Committee will meet on November 21, 1975, at the Headquarters of the National Aeronautics and Space Administration. The meeting will be held in room 226-A of Federal Office Building 10B, 600 Independence Avenue, S.W., Washington, D.C., 20546. Members of the public will be admitted to the meeting beginning at 9:30 a.m. on a first come first served basis up to the seating capacity of the room, which can accommodate about 35 persons. The approved agenda for the meeting is noted below:

The NASA SPAC Applications Committee serves in an advisory capacity only. It is concerned with the total range of applications of space-derived, space-related technology including communications, meteorology, earth resources survey (includes agriculture/forestry, cartography, geography, geology/hydrology, oceanography), earth and ocean physics, solar energy conversion, space processing, and other technology applications. Currently, the Committee comprises 7 members, and a recording secretary, Louis B. C. Fong, who can be contacted for further information at (202) 755-8620.

The following is the approved agenda and schedule for the November 21, 1975, meeting of the SPAC Applications Committee:

1. *Chairman's remarks.*

2. *Shuttle payload review.* NASA's current Shuttle payload planning will be presented. Committee members will be asked for their comments and/or suggestions on NASA's plans and for their recommendations on any additional payloads with particular emphasis on those which demonstrate the practical value of space.

3. *Implications of the "Outlook for Space" study for the applications program.* The conclusions and recommendations of the NASA "Outlook for Space" study are being assessed both in terms of their relationship to the Applications Program and the recommendations of the National Research Council-Space Applications Board (NRC-SAB) 1974 Applications Summer Study entitled, "Practical Applications of Space Systems." Committee members will be asked to advise NASA on its current activities and plans relating to the recommendations of both studies.

4. *The tracking and data relay satellite system (TDRSS) in relation to the Earth resource survey data distribution.* When TDRSS becomes a reality, a number of policy and programmatic issues will be raised depending upon what approach NASA uses in its distribution of ERS data to both the United States and the international community.

5. *Earth science and earth applications.* It is timely to discuss Earth science and its relationship to Earth Applications. The views of committee members will be solicited.

WILLIAM W. SNAVELY,
Assistant Administrator for the Office of DOD, and Interagency Affairs, National Aeronautics and Space Administration.

OCTOBER 30, 1975.

[FR Doc.75-29698 Filed 11-4-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON INSPECTION AND ENFORCEMENT ACTIVITIES

Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittee on Inspections and Enforcement Activities will hold a meeting on November 21, 1975, in Room 1046, 1717 H Street, N.W., Washington, D.C. 20555. The purpose of this meeting is to continue discussion of third-party inspection and the roles of inspection and examination organizations in relation to nuclear safety.

The agenda for subject meeting shall be as follows:

Friday, November 21, 1975 8:30 a.m. The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to explore their preliminary opinions, based upon their independent knowledge of inspection and examination practices and organizations, regarding the matters which should be covered during the following open meeting in order to formulate a Subcommittee report and recommendations of the full Committee.

9 a.m. until the conclusion of business. The Subcommittee will meet in open session to hold discussions with invited participants and members of the NRC Staff on topics pertinent to examination and inspection of safety related systems of nuclear power plants. At the conclusion of the open session, the Subcommittee may caucus in a closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the matter is ready for review by the full Committee. During the session Subcommittee members and consultants will discuss their final opinions and recommendations on these matters.

I have determined, in accordance with Subsection 10(d) of Public Law 92-463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing a readily reproducible copy to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than November 14, 1975 to Mr. Gary Quittschreiber, ACRS, NRC, Washington, D.C. 20555 will normally be received in time to be considered at this meeting.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identify-

V 40 214 NOV 5 75 XUM

ing the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on November 20, 1975 to the Office of the Executive Director of the Committee (telephone 202/634–1374, Attn: Mr. Gary Quittschreiber) between 8:15 a.m. and 5 p.m., e.s.t.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) A copy of the transcript of the open portion of the meeting will be available for inspection on or after November 28, *975 at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555. Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555 after February 23, 1976. Copies may be obtained upon payment of appropriate charges.

JOHN C. HOYLE,
Advisory Committee Management Officer.

OCTOBER 30, 1975.

[FR Doc.75–29676 Filed 11–4–75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON THE TYRONE ENERGY PARK, UNIT 1

Meeting

In accordance with the purposes of Sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the ACRS Subcommittee on the Tyrone Energy Park, Unit 1, will hold a meeting on November 21, 1975 at the Ramada Inn, 2704 Craig Road, Eau Claire, WI 54701. The purpose of this meeting is to develop information to be considered by the ACRS in its review of the application of Northern States Power Company for a construction permit for the Tyrone Energy Parks, Nuclear Unit 1, which is a Standardized Nuclear Unit Power Plant System (SNUPPS) design.

The agenda for subject meeting shall be as follows:

Friday, November 21, 1975, 8:30 a.m. The Subcommittee will meet in closed Executive Session, with any of its consultants who may be present, to explore their preliminary opinions, based upon their independent review of safety reports, regarding matters which should be considered during the open session in order to formulate a Subcommittee report and recommendations to the full Committee.

9 a.m. until the conclusion of business. The Subcommittee will meet in open session to hear presentations and hold discussions with the NRC Staff and representatives of Northern States Power Company regarding design features and site-related aspects of the application for a construction permit as well as other matters relating to review of the Safety Analysis Report.

At the conclusion of the open session, the Subcommittee will caucus in a brief, closed session to determine whether the matters identified in the initial closed session have been adequately covered and whether the project is ready for review by the full Committee. During the session Subcommittee members and consultants will discuss their final opinions and recommendations on these matters. Upon conclusion of this caucus, the Subcommittee will meet again in brief open session to announce its determination.

In addition to these closed deliberative sessions, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring with the NRC Staff and Applicant matters involving proprietary information, particularly with regard to specific features of the plant design and plans related to plant security.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that it is necessary to conduct the above closed sessions to protect the free interchange of internal views in the final stages of the Subcommittee's deliberative process (5 U.S.C. 552(b)(5)) and to protect confidential proprietary or plant security information (5 U.S.C. 552(b)(4)). Separation of factual material from individuals' advice, opinions, and recommendations while closed Executive Sessions are in progress is considered impractical.

Practical considerations may dictate alterations in the above agenda or schedule. The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by providing 15 readily reproducible copies to the Subcommittee at the beginning of the meeting. Comments should be limited to safety related areas within the Committee's purview.

Persons desiring to mail written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments postmarked no later than November 13, 1975 to Mr. R. Muller, ACRS, NRC, Washington, D.C. will normally be received in time to be considered at this meeting.

Background information concerning items to be considered at this meeting can be found in documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555 and at the University of Wisconsin Stout Library, Menomonie, WI 54751.

(b) Those persons wishing to make an oral statement at the meeting should make a written request to do so, identifying the topics and desired presentation time so that appropriate arrangements can be made. The Committee will receive oral statements on topics relevant to the Committee's purview at an appropriate time chosen by the Chairman of the Subcommittee.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on November 19, 1975 to the Office of the Executive Director of the Committee (telephone 202/634–1413, Atten: Mr. R. Muller) between 8:15 a.m. and 5 p.m., e.s.t.

(d) Questions may be propounded only by members of the Subcommittee and its consultants.

(e) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(f) Persons with agreements or orders permitting access to proprietary information, other than plant security information, may attend portions of ACRS meetings where this material is being discussed upon confirmation that such agreements are effective and relate to the material being discussed.

The Executive Director of the ACRS should be informed of such an agreement at least three working days prior to the meeting so that the agreement can be confirmed and a determination can be made regarding the applicability of the agreement to the material that will be discussed during the meeting. Minimum information provided should include information regarding the date of the agreement, the scope of material included in the agreement, the project or projects involved, and the names and titles of the persons signing the agreement. Additional information may be requested to identify the specific agreement involved. A copy of the executed agreement should be provided to Mr. R. Muller of the ACRS Office, prior to the beginning of the meeting.

(g) A copy of the transcript of the open portion of the meeting will be available for inspection on or after November 28, 1975 at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555, and at the University of Wisconsin Stout Library, Menomonie, WI 54751. Copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., N.W., Washington, D.C. 20555 after February 23, 1976. Copies may be obtained upon payment of appropriate charges.

JOHN C. HOYLE,
Advisory Committee Management Officer.

OCTOBER 30, 1975.

[Docket No. 50–261]

CAROLINA POWER & LIGHT CO.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 14 to Facility Operating License No. DPR–23 issued to Carolina Power & Light Company which revised Technical Specifications for operation of the H. B. Robinson Steam Electric Plant Unit No. 2, located in Darlington County, Hartsville, South Carolina. The amendment is effective as of its date of issuance.

The amendment revises provisions in the Technical Specifications relating to the surveillance technique employed for examining certain welds in the inservice inspection program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated October 10, 1975, (2) Amendment No. 14 to License No. DPR–23, with Change No. 39 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Hartsville Memorial Library, Home & Fifth Avenue, Hartsville, South Carolina.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 29th day of October, 1975.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch 4, Division of Reactor Licensing.

[FR Doc.75–29674 Filed 11–4–75;8:45 am]

[Docket No. 50–409]

DAIRYLAND POWER COOPERATIVE (LA CROSSE BOILING WATER REACTOR)

Determination with Respect to Request for Variance from the Interim Acceptance Criteria

On August 5, 1974, the Atomic Energy Commission's Regulatory staff (now NRC staff) issued to Dairyland Power Cooperative (the licensee) a Determination (38 FR 29217, August 14, 1975) which granted a variance extending the time until November 1, 1975, for the La Crosse Boiling Water Reactor (the facility) to achieve compliance with the Commission's Interim Acceptance Criteria (IAC) for Emergency Core Cooling Systems for Light-Water Power Reactors set forth in the Commission's Interim Policy Statement (36 FR 12247, June 29, 1971).

By letter dated October 10, 1975, the licensee requested that the November 1, 1975 date for achieving compliance with the IAC for the facility be extended to March 1, 1976. A Notice of Request for Variance and request for public comment thereon is being published in the FEDERAL REGISTER concurrently with this Determination. The licensee's request stated that due to equipment delays and forecasted energy needs in the area, application of the IAC to the facility is not practicable by November 1, 1975.

The NRC staff desires to carefully review the request for variance. The licensee's October 10, 1975 request (received 15 days prior to the November 1, 1975 deadline for achieving compliance with the IAC) does not permit sufficient time for public comment and careful consideration of the licensee's request. Under ordinary circumstances, the NRC staff may have required the licensee to cease operation of the facility on November 1, pending completion of its review and consideration of the request for variance. However, in view of the finding by the NRC staff (discussed below) that there is reasonable assurance that extending the November 1 date to November 21, 1975 will not adversely affect the health and safety of the public, cessation of operation of the licensee's facility on November 1, is not warranted during the interim period needed to complete the review.

There is reasonable assurance that the operation of this facility for an additional period of approximately three weeks will not adversely affect the health and safety of the public. Based on operating experience with the facility since promulgation of the IAC, primary reliance on the conservative design practices utilized by this facility will continue to afford suitable protection to the health and safety of the public. In addition, the augmented inservice inspection requirement of the IAC, which will continue in effect, will provide further assurance during this interim period until November 21, 1975. The likelihood of a loss of coolant accident during this period of time, based on operating experience to date, is so small that it can be considered to be negligible. In view of the foregoing, there is reasonable assurance that operation of the facility until November 21, 1975, will not adversely affect the health and safety of the public.

Accordingly, based on the foregoing considerations, the date by which operation of the facility must be brought into conformity with the IAC is hereby extended through November 21, 1975.

Dated at Bethesda, Maryland this October 29, 1975.

For the Nuclear Regulatory Commission.

EDSON G. CASE,
Acting Director, Office of Nuclear Reactor Regulation.

[FR Doc.75–29672 Filed 11–4–75;8:45 am]

[Docket No. 50–409]

DAIRYLAND POWER COOPERATIVE

Request for Variance

The Dairyland Power Cooperative (the licensee), is authorized by Provisional Operating License No. DPR–45 to operate a nuclear power reactor identified as the La Crosse Boiling Water Reactor (the facility), located in Vernon County, Wisconsin, at steady-state power levels up to 165 MWt.

By letter dated October 10, 1975, the licensee has requested a variance to extend the time until March 1, 1976, for achieving compliance with the Commission's Interim Acceptance Criteria (IAC) (36 FR 12247, June 29, 1971) for emergency core cooling systems for light-water reactors. A variance extending the time until November 1, 1975, was previously granted by the Commission in its Determination with Respect to Request for Variance from the Interim Acceptance Criteria dated August 5, 1975 (39 FR 29217, August 14, 1975). On October 29, 1975, the Commission issued a Determination (published concurrently with this Notice) extending the November 1, 1975 date for compliance with the IAC to November 21, 1975, for the purpose of providing additional time to perform its evaluation and providing interested persons with an opportunity for comment.

Notice is hereby given that the Commission is considering the requested variance which would extend the November 1, 1975 deadline for achieving compliance for the facility. The variance may be granted upon a finding that good cause has been shown, and that there is reasonable assurance that the granting of the variance will not adversely affect the health and safety of the public. The Commission will consider and issue a determination, together with supporting reasons, with respect to the request for a variance. In that connection, the Commission invites the submission of views and comments by any interested

V 40 214 NOV 5 75 XUM

persons. Such views and comments should be submitted in writing, addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, not later than November 19, 1975.

A copy of the licensee's October 10, 1975, request and related correspondence and documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and the La Crosse Public Library, 800 Main Street, La Crosse, Wisconsin 54601.

Dated at Bethesda, Maryland, this October 29, 1975.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch #4, Division of Reactor Licensing.

Reconstitution of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787 (a), the Chairman of the Atomic Safety and Licensing Appeal Panel has reconstituted the Atomic Safety and Licensing Appeal Board for this proceeding to consist of the following members:

Alan S. Rosenthal, Chairman, Michael C. Farrar, Member, Dr. W. Reed Johnson, Member.

Dated: October 29, 1975.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.75-29677 Filed 11-4-75;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 6.7, "Preparation of an Environmental Report to Support a Rule Making Petition Seeking an Exemption for a Radionuclide-Containing Product," provides assistance to petitioners in their development of environmental reports required by the Commission's regulations.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 6.7 will, however, be particularly useful in evaluating the need for an early revision if received by January 5, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 29th day of October 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director, Office of Standards Development.

POSTAL RATE COMMISSION

[Docket No. R76-1; Order No. 84]

POSTAL RATE AND FEE CHANGES, 1975

Order Establishing Hearing Dates and Other Procedural Matters

OCTOBER 30, 1975.

On October 22, 1975, the Commission held a prehearing conference in this proceeding. At that conference, a hearing schedule was discussed, as well as various substantive and procedural problems raised by the parties. All parties present at the conference had an opportunity to express their views.

Chairman DuPont, the presiding officer, made a number of rulings during the course of the prehearing conference. In addition, he deferred ruling on several procedural issues raised. The Commission has reviewed the record of the conference and the deferred issues will now be resolved. (*See* Attachments A and B.) Also, for the convenience of all parties, the major rulings already made have been compiled and restated. (*See* Attachment B.) [1]

In addition there are three other matters warranting discussion at this time.

(1) The matter of fees for special services was raised by the Officer of the Commission (OOC) at the prehearing conference. The Officer of the Commission made a motion that the Postal Service be directed to file prepared testimony, sponsored by a witness, in order to support the proposed increase in fees for special services (Tr. 1/97). We need not review our position on jurisdiction over fees for special services. That position was made clear in the Commission's Opinion and Recommended Decision in Docket No. R74-1 (PRC Op. R74-1, App. F, p. 2), and Order No. 84 in this proceeding.[2] Consistent with our position that we have jurisdiction over fees for special services, we are granting the OOC's motion and will order that the Postal Service present evidence to support the increase in special service fees, as shown in Attachment I to its Request for a Recommended Decision (Docket No. R76-1). That evidence should be filed with the Commission by November 14, 1975.

(2) On its own motion, the Commission has also decided to impose an additional evidentiary requirement upon all parties who submit alternative rate proposals covering less than all the classes and subclasses of mail. In the past, parties have typically ignored the "ripple effect" of rate changes they have proposed. For example, a party proposing a reduction in the rates for second class regular rate publications normally would not explain how the lost revenues would be recovered from other classes of mail in order to meet the overall revenue requirement. All parties are put on notice that in the future such rate proposals, unaccompanied by at least a general showing of how the revenue require

[1] Also appended to this order is the hearing schedule for the duration of the proceedings (Attachment A), a list of pending legal memorandums due from certain parties (Attachment C), a revised matrix of participants and the classes of mail in which they have an interest (Attachment D), and a corrected list of team captains (Attachment E).

[2] Order No. 84 made fees for special services an issue in this case and also directed the parties' attention to the Postal Service's unilaterally-initiated rulemaking proceedings to change certain special rates and fees. 40 Fed. Reg. 43232 (September 19, 1975).

ment will be met,[3] will necessarily be accorded less evidentiary weight. In presenting evidence of this nature parties should assume, but not necessarily agree, that the Postal Service's revenue requirement is correct as presented in its evidence herein.

(3) At the prehearing conference, it was agreed that preliminary cross-examination of Postal Service witnesses be deferred until the parties had exhausted their attempts to obtain information by way of informal discovery (Tr. 1/106-107). At the next prehearing conference, which we have scheduled for November 25, 1975, there will be a further opportunity for preliminary cross-examination. Parties wishing to engage in such cross-examination should file a request with the Commission, with service on all parties, stating the reasons preliminary cross- examination is necessary. Requests should be filed by November 18, 1975.

The Commission orders:

(A) The Postal Service will file by November 14, 1975, testimony sponsored by a witness to support its proposed changes in rates and fees for special service as shown in Appendix I to its Request for a Recommended Decision in this docket.

(B) A further prehearing conference will be held on November 25, 1975.

(C) Requests for preliminary cross-examination should be filed by November 18, 1975.

(D) The rulings shown in Attachment B hereto are affirmed and adopted.

By the Commission.

[SEAL] JAMES R. LINDSAY,
Secretary.

ATTACHMENT A

HEARING SCHEDULE FOR DURATION OF PROCEEDINGS—DOCKET R76-1

Month/Date/Year	*Procedural Stage*
November 25, 1975	Second Prehearing Conference.
December 8, 1975	Completion of all discovery directed to the Postal Service. (Answers due 12/15/75 or 20 days after filing of the interrogatory, whichever is earlier.)
December 29, 1975	Filing of the case-in-chief of each participant (including that of OOC).
January 5, 1976	Conferences for the purpose of clarification of each participant's case.
January 12, 1976	Beginning of hearings, *i.e.*, cross-examination, on the Postal Service's case-in-chief.
January 28, 1976	Completion of all discovery directed to the intervenors. (Answers due 2/17/76 or 20 days after filing of the interrogatory, whichever is earlier.)
February 6, 1976	Completion of evidentiary hearings as to the Service's case-in-chief.
February 24, 1976	Beginning of evidentiary hearings as to the case-in-chief of each participant.
March 1, 1976	Rebuttal evidence of the Postal Service and each participant. (No discovery to be permitted on this rebuttal evidence; only oral cross-examination.)
March 12, 1976	Completion of the evidentiary hearings as to the case-in-chief of each participant.
March 15, 1976	Beginning of evidentiary hearing on rebuttal evidence.
March 30, 1976	Close of the evidentiary record.
April 30, 1976	Initial briefs filed.
May 10, 1976	Reply briefs filed.
May 17, 1976	Oral argument.

ATTACHMENT B

MAJOR RULINGS BY THE PRESIDING OFFICER CULLED FROM THE TRANSCRIPT OF THE OCTOBER 22, 1975 PREHEARING CONFERENCE [4]

(1) The question of periodic reporting of data by the Postal Service, as raised by the OOC on page 13, item IV of his Prehearing Statement, is not an issue in this case (Tr. 1/11).

(2) As a general proposition, the Commission does not favor the consolidation of rate issues and classification issues (Tr. 1/16). *See also* PRC Op. R71-1, 1-282-83.

(3) The three-day rule for notice of oral cross-examination and the serving of written cross-examination is still operative. *See* Order No. 83 (Tr. 1/21).

(4) The Commission does not at this time intend to issue a tentative decision (Tr. 1/22-23). *See* C.F.R. § 3001.5(e), § 3001.39(b), 5 U.S.C. 557(b).

(5) The possibility of appropriations under 39 U.S.C. § 2004 or appropriations under H.R. 8603 is not an issue in this case (Tr. 1/23).

(6) With respect to informal discovery procedures and the requirement that the Postal Service file with the Commission a listing of information given to parties in response to informal requests, *Order No. 83 is operative.* Order No. 83, p. 10 (Tr. 1/45).

(7) Testimony of witnesses from previous PRC rate cases may be incorporated by reference ("designation"), subject to appropriate objection. Other parties may incorporate other portions of *that* witness' testimony from the same case or incorporate *another* witness' testimony in rebuttal to the designated witness (known as "counter-designation").

All designations must be submitted by November 12; counter-designations by December 1; and objections to designations and counter-designations by December 15. Parties are urged to stipulate evidence in advance of the hearing. Only two copies for the record must be provided when the testimony is offered. However, parties without access to the official record of previous rate cases may make special requests for actual copies of the proffered testimony from the movant (Tr. 1/48). Generally, special requests should be avoided inasmuch as copies of the hearing records in prior rate cases are readily available in printed form pursuant to 39 U.S.C. 3625(e).

These copies, provided by the Public Printer, should be the source for the two "record copies" herein and for the related annotations.

(8) The burden of proof with respect to any given rate is on the proponent of that rate. *See Pan Am.-Grace Airways Mail Rates,* 11 C.A.B. 535, 542-43 (1950); *Re Public Service Co-ordinated Transport,* 5 N.J. 196, 74 A. 2d 580 (1950). This principle also applies to intervenors who propose a rate different from that proposed by the Postal Service. (*See* Tr. 1/84).[5]

(9) Preliminary motions to strike portions of the Postal Service's testimony are due on November 3, 1975 (Tr. 1/75).

(10) Objections to written cross-examination may be presented orally at the written cross-examination is offered into evidence (*See* Tr. 1/75-78).

ATTACHMENT C

LEGAL MEMORANDA DUE FROM VARIOUS PARTIES [6]

Party Principally Concerned	*Subject*
(1) OOC (Tr. 1/12-15)	Data necessary to implement PRS's decision in Docket No. R74-1.
(2) ABP (Tr. 1/16)	Consolidation of rate and classification issues for controlled circulation.
(3) All parties affected (Tr. 1/46-47)	Designation of evidence from Docket No. MC73-1 (references should be to the PRC hearing record since it has not yet been printed by the Public Printer).
(4) OOC, USPS (Tr. 1/86-92)	The use of library reference materials as evidence.

[3] Ideally, rate proposals would cover all classes and subclasses of mail, showing volume changes and the total dollars involved in unit rate changes for each class and subclass. We realize, of course, that some parties do not have the resources to make this type of presentation. Accordingly, a statement of how loss revenue will be met by class and subclass of mail—in terms of dollars and *exclusive* of unit rates—would constitute a satisfactory showing of the "ripple effect."

[4] Including rulings that were deferred.

[5] The presiding officer, in response to a question, stated the Commission is adopting the burden of proof principle which normally applies to administrative ratemaking proceedings. Ruling 8 above is a restatement of that principle as it applies to PRC proceedings.

[6] All memoranda are due by November 6, 1975. Replies by November 17, 1975.

Notice of Application

MASSACHUSETTS MUTUAL LIFE INSURANCE CO.

[(812-3846) Rel. No. 9010]

OCTOBER 30, 1975.

Notice is hereby given that Massachusetts Mutual Life Insurance Company ("Applicant"), 1295 State Street, Springfield, Massachusetts 01111, a mutual life insurance company organized under the laws of the Commonwealth of Massachusetts, filed an application on August 4, 1975, and an amendment thereto on October 28, 1975, pursuant to Section 17(d) of the Investment Company Act of 1940 ("Act") and Rule 17d-1 thereunder for an order of the Commission permitting Applicant to engage in the transaction described below. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant acts as investment adviser to MassMutual Corporate Investors, Inc. (the "Fund"), a non-diversified, closed-end management investment company registered under the Act. Applicant wishes to purchase a 15-year, $900,000 9¾% Mortgage Loan (the "Mortgage") made by a commercial bank to William R. Moore, Jr. and Mary E. Moore, husband and wife, d/b/a Eight & Proctor Investment Company, a general partnership ("Mortgagor"). The Mortgage provided construction financing and is secured by a warehouse and food proces-

V 40 214
NOV 5 75
XUM

sing building located near Greensboro, North Carolina which is to be leased by Mortgagor for 25 years to Golden State Foods Corporation, a California corporation ("Golden State"). William R. Moore, Jr. is President and owner of approximately 52% of the outstanding stock of Golden State. As the Mortgagor and Golden State are under the common control of William R. Moore, Jr., they are affiliated persons within the meaning of Section 2(a)(3) of the Act.

Pursuant to an Order of the Commission ("Order") issued on August 19, 1971 (Investment Company Act Release No. 6690), Applicant is permitted to invest concurrently for its general account in each issue of securities purchased by the Fund at direct placement, and to exercise warrants, conversion privileges, and other rights at the same time. This Order is subject to several conditions. One condition generally requires that purchases at direct placement of securities, which would be consistent with the investment policies of the Fund, be shared equally by Applicant and the Fund. Another condition requires that, after Applicant and the Fund have invested concurrently in the securities of an issuer, neither Applicant nor the Fund, unless otherwise permitted by order of the Commission, shall acquire any further interest in an issuer or in any affiliated person of an issuer or in securities issued by such issuer or affiliated person other than interests in all respects identical.

The policies of the Fund set forth in its Registration Statement under the Act specify that the principal investments of the Fund will be long-term obligations, and occasionally preferred stocks, purchased directly from issuers, provided that such obligations and stocks have "equity features" such as accompanying shares of common stock or rights to acquire or to convert such long-term obligations or preferred stocks into such shares. The Mortgage does not have any accompanying equity features and, therefore, would not be an investment permitted by the investment policies of the Fund.

Applicant believes that the Mortgage would be an attractive investment but Applicant and the Fund each presently hold $2,250,000 of 9½% Senior Notes due June 15, 1989, and $750,000 of 7½% due Convertible Subordinated Notes due June 15, 1989, issued by Golden State.

Thus, since Applicant and the Fund own securities of Golden State, an affiliate of the Mortgagor, and as the Mortgage would not be an appropriate investment for the Fund, Applicant cannot comply with the condition of the Order that it and the Fund acquire further identical interests in Golden State or its affiliates. Therefore, Applicant has applied for an order of the Commission pursuat to Section 17(d) of the Act and Rule 17d–1 thereunder permitting the acquisition by Applicant of the Mortgage in accordance with other conditions imposed in the Order.

Rule 17d–1 adopted by the Commission under Section 17(d) of the Act provides that an affiliated person of a registered investment company or an affiliated person of such an affiliated person may not effect any transaction in which such investment company is a joint participant without the permission of the Commission. In passing upon applications for orders granting such permission, the Commission is required to consider whether the participation of the investment company in such joint enterprise or arrangement on the basis proposed is consistent with the provisions, policies, and purposes of the Act and the extent to which such participation is on a basis different from, or less advantageous than, that of other participants.

Applicant submits that the issuance of the Mortgage is not disadvantageous to the Fund and is consistent with the provisions, policies and purposes of the Act. Accordingly, Applicant requests an order pursuant to Section 17(d) of the Act and Rule 17d–1 thereunder permitting the issuance of the Mortgage subject to the conditions imposed in the Commission order.

Notice is further given that any interested person may, not later than November 24, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be modified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following November 24, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-29692 Filed 11-4-75;8:45 am]

[Release 34-11772; File No. S7-597]

SECURITIES INFORMATION PROCESSORS

Notice of Applications for Exemptions from Registration

Notice is hereby given that Quotron Systems, Inc. ("Quotron"), P. C. Service Corp. ("Service Corp."), and Bunker Ramo Incorporated ("Bunker Ramo") have applied, pursuant to Section 11A(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78k–1(b)(1), for exemptions from registration as securities information processors. Quotron, Service Corp., and Bunker Ramo were identified in Commission Release No. 34–11673 (September 23, 1975) as parties which each appear to be performing the functions of a securities information processor on an exclusive basis on behalf of a national securities exchange or registered securities association. Section 11A(b)(1) of the Act requires the registration by December 1, 1975, of each securities information processor which is an exclusive processor within the definition of Section 3(a)(22)(B) of the Act.

While Section 11A(b)(3) of the Act requires the Commission, only upon the filing of an application for registration, to publish notice of the filing, the Commission believes it is desirable also to give notice of these applications for exemptions from registration so that interested persons may be afforded an opportunity to submit written data, views and arguments concerning such applications. Accordingly, copies of the applications for exemptions by Quotron, Service Corp. and Bunker Ramo are available for public inspection in the Commission's Public Reference Room at 1100 L Street, N.W., Washington, D.C. 20549.

All persons interested in submitting written data, views and arguments concerning these applications should submit them in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 not later than November 19, 1975. Comments should address whether the grant of any such exemption from registration would be consistent with the public interest, the protection of investors, and the purposes of Section 11A of the Act, including the maintenance of fair and orderly markets in securities and the removal of impediments to and perfection of the mechanism of a national market system. Comments should also address whether the grant, or failure to grant, any such exemption would impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. All communications should refer to File No. S7–597 and will be available for public inspection in the Commission's Public Reference Room.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 29, 1975.

[FR Doc.75-29694 Filed 11-4-75;8:45 am]

[Release No. 34-11770; File No. SR-MCC-75-2]

MIDWEST CLEARING CORP.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on October 24, 1975, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

It is the intention of Midwest Clearing Corporation (MCC) to expand its services to its members to include the trade recording, comparison, and settlement of Over-The-Counter (OTC) securities. Specifically, to record, compare and settle OTC issues, MCC will do the following: increase its eligibility list by 6,000 issues, establish a direct communications link with Pacific Clearing Corporation (PCC) whereby MCC will send all OTC trade input to PCC for comparison—PCC will compare and either keep the trade, send it to National Clearing Corporation (NCC), or back to MCC, depending on which corporation the participant has chosen for settlement, adopt standard reports and procedures for OTC clearance and settlement identical to those in place between PCC and NCC; develop interfaced communications between NCC and MCC for coordinaiton of support services necessary to effect and efficient interface. It is believed that the above program will fully encourage greater participation by broker/dealers, banks and other institutions in OTC settlement in a national clearing system.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed change is to permit MCC to enable its members who so choose to record, compare, and settle OTC trades, as well as the listed security traders in MCC. In so doing, it is expected that the members using this service will receive the following benefits: simplification of the settlement process and reconciliation; reduction of costs; complete netting of money and security position; improved control over accounts; interest savings; and reduction in some cases of correspondent trade clearing charges. Relative to MCC, the following is an estimate of the impact which the proposed rule change will have:

(i) MCC has adequate computer communications personnel and facilities capacity, and flexibility to currently handle a minimum of 300% of the forecasted OTC trade volume and security handling. It is estimated that within 90 days this capacity could be increased to handle 600% of the expected volume. MCC, since it will combine OTC with listed trades for money settlement, has systems for the safeguarding of securities and funds in its custody or control which have been previously passed upon by the Commission. No changes to these systems are anticipated in connection with the handling of OTC securities. MCC has clearly demonstrated through past performance its ability to insure compliance by its participants. The activity does not change that ability. MCC recording, comparing, and clearing OTC trades is entirely consistent with Section 17A of the Act. This action will encourage greater participation in a national clearing system since MCC has exclusive members that are members of no other OTC clearing organization. It will also enable MCC to fully interface with other organizations such as PCC and NCC who now perform this function. These activities promote prompt and accurate clearance and settlement of securities transactions, reduce costs, use advanced data processing and communications techniques, and facilitate the linking of all clearance and settlement systems along with the development of uniform standards and procedures for clearance and settlement.

(v) Based upon its fees, variety of supportive services, and promptness and accuracy of reporting mechanism, it is believed that MCC has the most efficient system available today for the clearing and settlement of security transactions. Therefore, it is believed this change will encourage a healthy, competitive environment for OTC settlement.

It is the intent of MCC to interface with PCC and NCC for the comparison of OTC trades and thereby encouraging cooperation and removing impediments to the perfection of a national market system.

Through personal interviews, questionnaires, and correspondence initiated by members, MCC has been asked by its members to increase its services to include the recording, comparison, and settlement of OTC trades.

It is expected that the proposed rule change will increase the competition for participants' activity between PCC, NCC, and MCC. In some cases it will provide an alternative to an existing service. As stated above, MCC has been requested by its members to add this service. It is anticipated that this increased competition is in harmony with the Act and should lead to greater benefits through the further development of innovative services and competitive pricing to the participants. Conversely, should MCC fail to enter this area of business, its viability could be negatively affected by not having a competitive breadth of services with which to compete with other clearing organizations.

On or before December 10, 1975, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) By order approve such proposed rule change, or

(b) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 26, 1975.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 29, 1975.

UNITED STATES RAILWAY ASSOCIATION

[USRA Docket No. 76–22]

ERIE LACKAWANNA RAILWAY CO.

Proposed Interim Abandonment

The Trustees in Bankruptcy of the Erie Lackawanna Railway Company propose to abandon two portions of the New Hartford Spur, a line of railroad located in Oneida County, New York, and have made a request to the United States Railway Association ("USRA") for the authorization required for that purpose under Section 304(f) of the Regional Rail Reorganization Act of 1973 ("the Act"), Pub. L. 93–236.

Section 304(f) provides:

After [January 2, 1974], no railroad in reorganization may discontinue service or abandon any line of railroad other than in accordance with the provisions of [the Act], unless it is authorized to do so by the Association and unless no affected State or local or regional transportation authority reasonably opposes such action, notwithstanding any provision of any other Federal law, the constitution or law of any State, or decision or order of or the pendency of any proceeding before any Federal or State court, agency, or authority.

The portion of the New Hartford Spur sought to be abandoned extend from milepost 273.18 to milepost 272.25 and from milepost 271.40 to milepost 271.286, a distance of 1.12 miles, all in the Town of New Hartford, Oneida County, New York.

There are no stations on this line.

In support of its request, Erie Lackawanna asserts that:

1. Abandonment is sought in order to assist the State of New York in carrying out highway construction.

2. Although it would be possible to accommodate the highway construction by replacing the existing overpass with a larger bridge, it would be much cheaper to obtain trackage rights over an adjacent Penn Central line and build necessary track connections at State expense.

3. Rail service to Erie Lackawanna's sole customer on the line, Mohawk Container Company also will be continued.

4. Penn Central has sought abandonment authority in Docket No. 75–118 to accommodate the highway construction but will continue to serve its existing shipper by trackage rights over Erie Lackawanna and track connections.

5. No passenger service or overhead traffic is handled.

The request was accompanied by exhibits providing more detailed information.

To assist USRA in its analysis and disposition of this request, all affected or

V40 I214
NOV 5 75
XUM

interested parties are invited to submit written statements, views, arguments or comments either favoring or opposing the discontinuance proposal.

Any such submissions must identify, by its Docket No., the request to which it relates, and must be filed with the Docket Clerk, United States Railway Association, Room 2222, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20595, by December 17, 1975, to enable timely consideration by USRA. The docket containing the original application and all submissions received shall be available for public inspection at that address between 8:30 a.m. and 5 p.m., Monday through Friday at the office of the New York Department of Transportation, 1220 Washington Avenue, Albany, New York, between 8 a.m. and 4 p.m., Monday through Friday and at the offices of the Erie Lackawanna Railway, Foot of St. Joseph Street, Utica, New York, between 8 a.m. and 5 p.m., Monday through Friday.

In addition to this publication, Erie Lackawanna, shall by November 3, 1975, furnish a copy of this notice and invitation for written submission, to known shippers on the portions of the New Hartford Spur sought to be abandoned, to each creditor holding an obligation secured by that property, and to each labor union whose members are employed on that part of its line. It shall also post and prominently display a copy of this notice at each station along that line, continually during the period from November 3, 1975 to December 17, 1975.

This action is taken pursuant to Section 304(f) of the Regional Rail Reorganization Act of 1973, Pub. L. 93–236.

Copies of this notice have been sent by USRA to the Governor of New York, the New York Department of Transportation, the Board of Legislatures of Oneida County, the Mayor of New York Mills, N.Y., the Mayor of New Hartford, N.Y., the Town Supervisor of New Hartford, N.Y., the Director of the Rail Services Planning Office, the President of the National Rail Passenger Corporation, and also to newspapers and radio and television broadcasting stations servicing the area involved.

Publication of this notice does not mean that the Association has reached any conclusion as to merits of the application. The Association will consider the application in the light of the public comments received and the requirements and purposes of the Act before making a decision. The Association will deny any application which a State or local or regional transportation authority reasonably opposes, or where the authorization requested is inconsistent with the requirements and purposes of the Act; it will grant the application if that action is consistent with the requirements and purposes of the Act.

Dated at Washington, D.C. this 24th day of October 1975.

JAMES A. HAGEN,
President, United States Railway Association.

[FR Doc.75-29751 Filed 11-4-75;8:45 am]

[USRA Docket No. 75-118]

PENN CENTRAL TRANSPORTATION CO.

Proposed Interim Abandonment

The Trustees in Bankruptcy of the Penn Central Transportation Company ("Penn Central") propose to abandon a portion of the West Shore Secondary Track a line of railroad at New York Mills, Oneida County, New York, and have made a request to the United States Railway Association ("USRA") for the authorization required for that purpose under Section 304(f) of the Regional Rail Reorganization Act of 1973 ("the Act"), Pub. L. 93–236.

Section 304(f) provides:

After [January 2, 1974], no railroad in reorganization may discontinue service or abandon any line of railroad other than in accordance with the provisions of [the Act], unless it is authorized to do so by the Association and unless no affected State or local or regional transportation authority reasonably opposes such action, notwithstanding any provision of any other Federal law, the constitution or law of any State, or decision or order of or the pendency of any proceeding before any Federal or State court, agency, or authority.

The portion of the West Shore Secondary Track sought to be abandoned extends from milepost 233.6 to milepost 234.3, a distance of 0.7 miles in New York Mills, Oneida County, New York.

This line serves a non agency station at New York Mills, New York.

In support of its request, Penn Central asserts that:

1. Abandonment of this line is sought in order to assist the State of New York in carrying out highway construction.

2. Although it would be possible to accommodate the highway construction by replacing the existing overpass with a larger bridge, it would be much cheaper to obtain trackage rights over an adjacent Erie Lackawanna line and build necessary track connections at State expense.

3. Rail service to Penn Central's sole shipper, Niagara Mohawk Power Company, will be continued by means of these arrangements.

4. Erie Lackawanna Railway has also sought abandonment authority in Docket 76–22 to accommodate the highway construction but will continue to serve an existing shipper.

5. Alternate transportation service will be available from the numerous motor carriers in the area.

6. No passenger service or overhead traffic is handled.

The request was accompanied by exhibits providing more detailed information.

To assist USRA in its analysis and disposition of this request, all affected or interested parties are invited to submit written statements, views, arguments or comments either favoring or opposing the discontinuance proposal.

Any such submissions must identify, by its Docket No., the request to which it relates, and must be filed with the Docket Clerk, United States Railway Association, Room 2222, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20595, by December 17, 1975, to enable timely consideration by USRA. The docket containing the original application and all submissions received shall be available for public inspection at that address between 8:30 a.m. and 5 p.m. Monday through Friday, at the offices of the New York Department of Transportation, 1220 Washington Avenue, Albany, New York, between 8 a.m. and 4 p.m. and the Division Superintendent's Office of the Penn Central Transportation Company, Union Station, 325 E. Main Street, Utica, New York, between 8 a.m. and 5 p.m. Monday through Friday.

In addition to this publication, Penn Central, shall by November 3, 1975, furnish a copy of this notice and invitation for written submission, to known shippers on the portion of the West Shore Secondary Track sought to be abandoned, to each creditor holding an obligation secured by that property, and to each labor union whose members are employed on that part of its line. It shall also post and prominently display a copy of this notice at each station along that line, continually during the period from November 3, 1975 to December 17, 1975.

This action is taken pursuant to Section 304(f) of the Regional Rail Reorganization Act of 1973, Pub. L. 93–236.

Copies of this notice have been sent by USRA to the Governor of New York, the New York Department of Transportation, the Board of Legislatives of Oneida County, the Mayor of New York Mills, New York, the Mayor of the Village of New Hartford, New York, the Town Supervisor of New Hartford, New York, the Director of the Rail Services Planning Office, the Chairman of the Interstate Commerce Commission, the President of the National Rail Passenger Corporation, and also to newspapers and radio and television broadcasting stations servicing the area involved.

Publication of this notice does not mean that the Association has reached any conclusion as to merits of the application. The Association will consider the application in the light of the public comments received and the requirements and purposes of the Act before making a decision. The Association will deny any application which a State or local or regional transportation authority reasonably opposes, or where the authorization requested is inconsistent with the requirements and purposes of the Act; it will grant the application if that action is consistent with the requirements and purposes of the Act.

Dated at Washington, D.C. this 24th day of October 1975.

JAMES A. HAGEN,
President, United States Railway Association.

[FR Doc.75-29752 Filed 11-4-75;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

[TA-W-266]

A. GUARACINO, SONS

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of A. Guaracino, Sons, Philadelphia, Pennsylvania (TA–W–266). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with hand-felling of men's coats produced by A. Guaracino, Sons or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-29738 Filed 11-4-75;8:45 am]

[TA-W-129]

ALLIANCE MANUFACTURING COMPANY, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–129: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 27, 1975 in response to a worker petition received on August 27, 1975 which was filed by the International Union of Electrical Radio and Machine Workers on behalf of workers formerly producing fractional horsepower motors at the Shenandoah, Virginia plant of Alliance Manufacturing Company, Inc., Alliance, Ohio.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 41571) on September 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Alliance Manufacturing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separate, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

3. that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at the Shenandoah plant declined 8 percent from 1973 to 1974. Average employment increased 7 percent from the first quarter of 1975 to the second quarter of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Shenandoah plant declined 6 percent from 1973 to 1974. Production declined 11 percent from the first quarter of 1975 to the second quarter of 1975.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of fractional horsepower motors decreased from 44.2 million units in 1973 to 41.8 million units in 1974. Subfractional motors, a category of fractional motors, are used in household appliances and consumer electronics products and are not separately identified in the Tariff Schedules of the United States.

Fractional horsepower motor sales are generally dependent on economic conditions of the automobile industry. When automobile sales fell in late 1974, automotive accessory motor producers lost a major segment of their market. Some automotive accessory motor manufacturers turned to household appliance markets (Alliance's market) to replace lost sales. These manufacturers lowered prices in order to gain entry to the household appliance motor market. Alliance began losing sales in late 1974 and early 1975 to these domestic producers.

Major customers of Alliance were afforded the luxury of having several manufacturers to choose from when some automotive accessory motor manufacturers shifted to the sub-fractional motor market for consumer products. Alliance's customers shifted purchases to some of these domestic manufacturers rather than foreign sources because of the need for quick replacement parts and efficient serviceability.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with fractional horsepower motors produced at the Shenandoah, Virginia plant of Alliance Manufacturing Company, Inc. did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 29th day of October, 1975.

JAMES F. TAYLOR,
Certifying Officer, Director, Planning and Evaluation.

[FR Doc.75-29728 Filed 11-4-75;8:45 am]

[TA-W-125]

AMERADA HESS CORP.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–125: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed on behalf of workers formerly handling oil products including gasoline and heating oil at the State Street, First Reserve and Second Reserve Terminals of Amerada Hess.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40886) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Amerada Hess, the Department of Commerce, the International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are

V 40 214
NOV 5 75
XUM

threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined in the first half of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales by volume of petroleum products by Amerada Hess declined 6 percent in the first half of 1975 compared to the first half of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

More than 80 percent of the crude oil processed in Amerada Hess' refineries is purchased from foreign sources. Evidence developed in the course of the investigation shows that State Street, First Reserve and Second Reserve Terminals do not refine crude oil but only act as storage facilities for refined petroleum. The utilization of these facilities is a function of the domestic demand for petroleum products of Amerada Hess. As domestic demand fell, Hess imports declined 6 percent and a decision was made to consolidate storage operations. The separation of workers from employment at the Second Reserve Terminal resulted from decreased domestic demand. The evidence further indicates that the closing of the Port Reading, N.J. Refinery of Amerada Hess resulted from the inability to expand the refinery because of lengthy litigation initiated by environmental groups.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with petroleum products including gasoline and heating oil handled by the State Street, First Reserve and Second Reserve terminals did not contribute importantly to the total or partial separations of the workers at such terminals.

Signed at Washington, D.C. this 29th day of October 1975.

JAMES F. TAYLOR,
Certifying officer,
Director, Planning and Evaluation.

[TA-W-130(B)]

AUSTINTOWN COIL PLANT OF THE GENERAL ELECTRIC CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-130(B): investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 27, 1975 in response to a worker petition received on August 26, 1975 which was filed by the International Union of Electrical, Radio and Machine Workers (AFL-CIO), on behalf of workers formerly producing coils for incandescent lamps at the Austintown, Ohio Coil Plant of the General Electric Company.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 41573) on September 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the General Electric Company, its customers, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 21 percent in the first eight months of 1975 compared to the like period in 1974. Average weekly hours increased 17 percent in the first eight months of 1975 compared to the like period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Austintown Coil Plant increased 12 percent in the first months of 1975 compared to the same period in 1974. Shipments increased eight percent in the first eight months of 1975 compared to the first eight months of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of coils used for the manufacture of incandescent lamps are a negligible amount within the U.S. tariff category for "electrical articles and parts, not elsewhere classified." The fragile nature and small size of finished coils plus the special packaging and handling required to prevent damage during shipping make the importing of coils impractical and unprofitable.

The evidence developed in the Department's investigation indicates that the separation of employees working at the Austintown Coil Plant was not caused by an increase in competitive imports. G.E. did not import coils but did import incandescent lamps like those G.E.-made lamps which contained Austintown's coils. Such imports declined absolutely and relatively from 1973 and 1974.

As a captive supplier of coils for G.E. lamp plants, operations at the Austintown plant were dependent on G.E.'s incandescent lamp business. Company lamp sales were adversely affected in late 1973 and in 1974 by the energy crisis and the general economic recession. In early 1975 when lamp inventories had declined and the lamp market had stabilized, G.E. lamp sales and coil production at Austintown both began to rise.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the coils for incandescent lamps produced at the Austintown, Ohio Coil Plant of the General Electric Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 25th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-120]

BEKAERT STEEL WIRE CORP.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-120: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 25, 1975 in response to a worker petition received on August 25, 1975 which was filed by the International Union of Radio, Electrical and Machine Workers on behalf of workers formerly producing bead wire, tire cord and hose reinforcing wire at the Rome, Georgia plant of Bekaert Steel Wire Corporation.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40887) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Bekaert Steel Wire Corporation, information and publications of the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers declined 4 percent in the first half of 1975 compared to the like period in 1974. Average weekly hours increased 3 percent in the first half of 1975 compared to the like period of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales and production of bead wire increased 28 percent and 30 percent respectively, in the first half of 1975 compared to the like period in 1974.

Sales of hose reinforcing wire increased 5 percent in the first half of 1975 compared to the like period of 1974. Production of hose reinforcing wire declined 7 percent in the first half of 1975 compared to the like period in 1974.

Sales of tire cord declined 7 percent in the first half of 1975 compared to the like period in 1974. Production of tire cord increased 9 percent in the first half of 1975 compared to the like period of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at the Rome plant of Bekaert Steel Wire Corporation decreased from 20,161 tons in the first half of 1974 to 18,261 tons in the first half of 1975. The ratios of imports to domestic consumption and shipments increased from 3.31 percent and 3.39 percent, respectively in the first half of 1974 to 4.92 percent and 5.14 percent in the first half of 1975.

Evidence developed in the Department's investigation indicates that the separations of workers at the Rome plant were attributable to gearing up for anticipated increased sales which did not materialize. Company imports of like or directly competitive products with those produced at the Rome plant declined as a proportion of total domestic sales of Bekaert. From 1972 through the first half of 1975, Bekaert has continually reduced its reliance on foreign production for domestic sales.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with bead wire, tire cord and hose reinforcing wire produced at the Rome, Georgia plant did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 29th day of October 1975.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-128]

BENDIX CORP.

Notice of Determination Concerning Eligibility to Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-128: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 27, 1975 in response to a worker petition received on August 27, 1975 which was filed by the United Auto Workers on behalf of workers formerly producing components for airbrake systems at the Elyria, Ohio plant of the Bendix Corporation.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 41571) on September 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Bendix Corporation, its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers at the Elyria plant declined 42 percent in the first half of 1975 compared to the first half of 1974. Average weekly hours declined 12 percent in the first half of 1975 compared to the first half of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales at the Elyria plant declined 19 percent in fiscal year 1975 compared to fiscal year 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of air brake valve components and other non-compressor components are listed under the Tariff schedule basket category of automotive parts and accessories not elsewhere classified.

The ratios of imports of these components to domestic production and consumption increased from 13.3 percent and 14.6 percent, respectively in the first six months of 1974 to 14.1 percent and 17.0 percent in the first six months of 1975.

Imports of compressors decreased from $3.9 million in the first six months of 1974 to $1.0 million in the first six months of 1975. The ratios of imports of compressors to domestic production and consumption declined from 22.2 percent and 19.0 percent respectively in the first six months of 1974 to 9.4 and 9.5 percent in the first six months of 1975.

The evidence developed by the Department's investigation indicates that the separation of workers engaged in employment related to the production of air brake valves and other non-compressor air brake components was caused by the increase of competitive imports from Bendix's foreign production facility. In terms of the fiscal 1973 base year, company imports of these components increased 43 percent and 11 percent in fiscal 1974 and fiscal 1975, respectively.

The evidence further developed by the Department's investigation indicates that the separation of workers engaged in employment related to the production of compressors at the Elyria plant was caused by increased production of compressors at other domestic facilities of the company.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with air brake valves and

V40-214
NOV 5 75
XUM

other non-compressor components produced at the Elyria, Ohio plant of the Bendix Corporation contributed importantly to the total or partial separations of the workers of that plant. I further conclude that increases of imports like or directly competitive with compressors produced at the Elyria, Ohio plant did not contribute importantly to the total or partial separation of workers at that plant. In accordance with the provisions of the provisions of the Act I make the following certification:

All hourly and salaried workers engaged in employment related to the production of air brake valves and other non-compressor air brake components at the Elyria, Ohio plant of the Bendix Corporation who become totally or partially separated from employment on or after December 29, 1974, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 25th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

CERTIFICATION OF STATES TO THE SECRETARY OF THE TREASURY

In accordance with the provisions of section 3304(c) of the Internal Revenue Code of 1954 (26 U.S.C. 3304(c)), I hereby certify the following named States to the Secretary of the Treasury for the 12-month period ending October 31, 1975, in regard to the unemployment compensation laws of those States which heretofore have been approved under the Federal Unemployment Tax Act.

Alabama	Montana
Alaska	Nebraska
Arizona	Nevada
Arkansas	New Hampshire
California	New Jersey
Colorado	New Mexico
Connecticut	New York
Delaware	North Carolina
Distri t of Columbia	North Dakota
Florida	Ohio
Georgia	Oklahoma
Hawaii	Oregon
Idaho	Pennsylvania
Illinois	Puerto Rico
Indiana	Rhode Island
Iowa	South Carolina
Kansas	South Dakota
Kentucky	Tennessee
Louisiana	Texas
Maine	Utah
Maryland	Vermont
Massachusetts	Virginia
Michigan	Washington
Minnesota	West Virginia
Mississippi	Wisconsin
Missouri	Wyoming

Signed at Washington, D.C. this 31st day of October, 1975.

JOHN T. DUNLOP,
Secretary of Labor.

[TA-W-263]

DELUCA SPORTSWEAR

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of DeLuca Sportswear, Philadelphia, Pennsylvania (TA-W-263). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with leisure suits produced by DeLuca Sportswear or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-29736 Filed 11-4-75;8:45 am]

[TA-W-268]

FULTON CLOTHES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Fulton Clothes, Inc., Philadelphia, Pennsylvania (TA-W-268). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with women's suits produced by Fulton Clothes, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[FR Doc.75-29737 Filed 11-4-75;8:45 am]

[TA-W-155]

HARRISBURG MANUFACTURING CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-155; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 18, 1975 in response to a worker petition received on September 18, 1975 which was filed by the United Shoe Workers of America on behalf of workers producing women's footwear at the Harrisburg Manufacturing Company, Harrisburg, Arkansas, a wholly owned subsidiary of Johansen Brothers Shoe Company, St Louis, Missouri.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 44367) on September 26, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Johansen Brothers Shoe Company, its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, the American Footwear Association and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATION

The average number of production workers at the Harrisburg Manufacturing Company declined 4.6 percent in the fourth quarter of 1974 from the fourth quarter of 1973 and 18 percent in the first half of 1975 compared to the like period of 1974. Average weekly hours declined 25 percent in the first six months of 1975 compared to the first six months of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales by the parent company Johansen Brothers Shoe Company declined 36 percent in the first half of 1975 compared to the first half of 1974. Production of women's footwear at the Harrisburg, Arkansas plant declined 30 percent in the first half of 1975 compared to the like period in 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at the Harrisburg Manufacturing Company increased from 73 million pairs in 1970 to 76 million pairs in 1974. The ratios of imports to consumption and production increased from 37.5 percent and 59.9 percent, respectively in 1972 to 40.6 percent and 68.5 percent in 1974.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in employment related to the production of women's footwear at the Harrisburg Manufacturing Company was caused by the increase of competitive imports. Customers reduced or discontinued purchases of shoes produced at the Harrisburg plant in favor of lower priced imports. Reduced sales of women's footwear by Johansen led to rapidly declining production at the Harrisburg, Arkansas plant in late 1974 and the first six months of 1975. The company responded to reduced sales and production both by reducing the workforce and by reducing hours of employment in the latter part of 1974 and the first half of 1975.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's footwear produced at the Harrisburg Manufacturing Company contributed importantly to the total or partial separation of the workers of the firm. In accordance with the provisions of the Act I make the following certification:

All hourly, piecework, and salaried workers of the Harrisburg, Arkansas plant of Harrisburg Manufacturing Company who became totally or partially separated from employment on or after October 3, 1974 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of October 1975.

JAMES F. TAYLOR,
Director Planning and Evaluation Staff.

[FR Doc.75-29734 Filed 11-4-75;8:45 am]

[TA-W-124]

JOHANSEN BROTHERS SHOE CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-124; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 25, 1975, in response to a worker petition received on August 25, 1975, which was filed by the Boot and Shoe Workers Union on behalf of workers producing uppers for women's footwear at Johansen Brothers Shoe Company, St. Louis, Missouri.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 40888) on September 4, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Johansen Brothers Shoe Company, its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, the American Footwear Association and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

A significant number or proportion of the workers at the Johansen Brothers Shoe Company became totally or partially separated in the fourth quarter of 1974 and the first half of 1975. Employment declined 6 percent in the last quarter of 1974 compared to the last quarter of 1973. Employment declined 20 percent in the first six months of 1975 compared to the first six months of 1974. Average weekly hours worked dropped 21 percent in the first six months of 1975 compared to the first six months of 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales by Johansen Brothers Shoe Company declined 36 percent in the first half of 1975 compared to the first half of 1974. Production of uppers at the St. Louis plant is directly related to the production of women's shoes at Johansen Brothers' two plants in Arkansas. Production at the Corning plant declined 44 percent in the first half of 1975 compared to the first half of 1974. Production at the Harrisburg plant fell 30 percent in the first half of 1975 compared to the like period in 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at Johansen Brothers two shoe plants increased from 73,000,000 units in 1970 to 76,000,000 units in 1974. The ratios of imports to domestic consumption and production increased from 37.5 percent and 59.9 percent, respectively in 1972 to 40.6 percent and 68.5 percent, respectively in 1974.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in employment related to the production of uppers for women's footwear at Johansen Brothers Shoe Company was caused by

V 40 214
NOV 5 75
XUM

the increase of competitive imports. The uppers production unit of Johansen Brothers Shoe Company is a captive supplier for the two Arkansas shoe plants also owned by Johansen Brothers. Customers reduced or discontinued purchases of Johansen shoes in favor of lower price imports. Reduced sales of women's footwear by Johansen led to rapidly declining production at the two Arkansas plants and the St. Louis plant in late 1974 and the first six months of 1975. The company responded to reduced sales and production both by reducing the workforce and by reducing hours of employment in the latter part of 1974 and the first half of 1975.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with women's footwear produced at the Johansen Brothers Shoe Company contributed importantly to the total or partial separation of the workers of the firm. In accordance with the provisions of the Act I make the following certification:

All hourly, salaried and piecework employees engaged in the production of uppers for women's shoes at the St. Louis plant of the Johansen Brothers Shoe Company who became totally or partially separated from employment on or after November 30, 1974 are eligible to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 29th day of October 1975.

JAMES F. TAYLOR,
Certifying Officer
Director, Planning and Evaluation.

[TA-W-265]

KEYSTONE UNIFORM MFG. COMPANY, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Keystone Uniform Mfg. Company, Inc., Philadelphia, Pennsylvania (TA-W-265). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with police, fire, and high school band uniforms produced by Keystone Uniform Mfg. Company, Inc. or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number of proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-264]

MICHAEL, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Michael, Incorporated, Philadelphia, Pennsylvania (TA-W-264). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with coats for the government (military) produced by Michael, Incorporated, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

PURITAN CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Puritan Company, Lansdale, Pennsylvania (TA-W-269). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits produced by Puritan Company, or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

[TA-W-267]

SCOTESE BROTHERS

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On October 24, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America, on behalf of the workers and former workers of Scotese Brothers, Philadelphia, Pennsylvania (TA-W-267). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with boys' and men's clothing produced by Scotese Brothers or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of Section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 17, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave., NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 24th day of October 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

STATE UNEMPLOYMENT COMPENSATION LAWS; CERTIFICATION

In accordance with the provisions of paragraph (1) of section 3303(b) of the Internal Revenue Code of 1954 (26 U.S.C. 3303(b)(1)), I hereby certify the unemployment compensation laws of the following named States which heretofore have been certified pursuant to paragraph (3) of section 3303(b), to the Secretary of the Treasury for the 12-month period ending October 31, 1975.

Alabama	Montana
Alaska	Nebraska
Arizona	Nevada
Arkansas	New Hampshire
California	New Jersey
Colorado	New Mexico
Connecticut	New York
Delaware	North Carolina
District of Columbia	North Dakota
Florida	Ohio
Georgia	Oklahoma
Hawaii	Oregon
Idaho	Pennsylvania
Illinois	Rhode Island
Indiana	South Carolina
Iowa	South Dakota
Kansas	Tennessee
Kentucky	Texas
Louisiana	Utah
Maine	Vermont
Maryland	Virginia
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Mississippi	Wyoming
Missouri	

Signed at Washington, D.C., this 31st day of October, 1975.

JOHN T. DUNLOP,
Secretary of Labor.

[TA-W-130(A)]

YOUNGSTOWN LAMP PLANT OF THE GENERAL ELECTRIC CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-130(A): investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 27, 1975 in response to a worker petition received on August 26, 1975 which was filed by the International Union of Electrical, Radio and Machine Workers (AFL-CIO) on behalf of workers formerly producing incandescent lamps at the Youngstown, Ohio Lamp Plant of the General Electric Company.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 41573) on September 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the General Electric Company, its customers, the U.S. Department of Commerce, the International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) that a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) that sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of production workers decreased 5 percent in the first eight months of 1975 compared to the like period in 1974. Average weekly hours rose eight percent in the first eight months of 1975 compared with the same period in 1974.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Youngstown plant increased 28 percent in the first eight months of 1975 compared to the same period in 1974. Shipments increased 22 percent in the first eight months of 1975 compared to the first eight months of 1974.

INCREASED IMPORTS CONTRIBUTED IMPORTANTLY

Imports of articles like or directly competitive with those produced at the Youngstown plant decreased 32 percent from 186.8 million units in 1973 to 126.3 million units in 1974. The ratios of imports to domestic consumption and imports to production declined from 9.9 percent and 10.8 percent respectively in 1973 to 7.7 percent and 8.2 percent in 1974.

The evidence developed in the Department's investigation indicates that the separation of employees working at the Youngstown plant was not caused by an increase in competitive imports. G.E. imported incandescent lamps like those made at Youngstown; however, these imports declined absolutely and relatively from 1973 to 1974.

Operations at Youngstown were dependent on G.E.'s total incandescent lamp business. Total G.E. lamp sales were adversely affected in late 1973 and 1974 by the energy crisis and the general economic recession. In early 1975 when lamp inventories had declined and the domestic lamp market had stabilized, production at Youngstown and total G.E. lamp sales began to rise.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the incandescent lamps

V40-214
NOV 5 75
XUM

produced at the Youngstown, Ohio Lamp Plant of the General Electric Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 25th day of October 1975.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for Trade and Adjustment Policy.

CONSUMER PRODUCT SAFETY COMMISSION

TRI-FOAM SLEEP PRODUCTS, INC.

Commencement of Enforcement Proceeding and Prehearing Conference

Tri-Foam Sleep Products, Inc., a corporation, and Samuel Sidroff, individually and as an officer of the corporation.

Notice is hereby given that a prehearing conference[1] in the above-entitled matter will be held on November 7, 1975, 10 a.m., pursuant to an order served by Administrative Law Judge Paul N. Pfeiffer. This notice is given pursuant to the Consumer Product Safety Commission's Proposed and Interim Rules of Practice for Adjudicative Proceedings published on July 23, 1974 (39 FR 26848) and which governs adjudicative proceedings in this matter.

A Notice of Enforcement[1] has been prepared by the Commission's staff, issued by the Commission and served upon Tri-Foam Sleep Products, Inc., and Samuel Sidroff, individually and as an officer of the corporation (the respondents) as required by the above referenced Rules. In this Notice of Enforcement the staff alleges that respondent's are now and have been engaged in the manufacturing for sale, sale and offering for sale, in commerce, and have introduced, delivered for introduction, transported and caused to be transported in commerce, and have sold or delivered after sale or shipment in commerce, products, as the terms "commerce" and "product", are defined in the Flammable Fabrics Act. These products fail to conform to the requirements of an applicable standard as required by section 3(a) of the Flammable Fabrics Act (15 U.S.C. 1192).

Among such products mentioned above are mattresses manufactured by respondents which are subject to the Standard for the Flammability of Mattresses, FF 4-72, but which were not manufactured and sold in conformance with all of the requirements of the Standard in that respondents, after the effective date of the Standard, (a) failed to affix reequired warning labels to mattresss manufactured from June 22, 1973 through Dcember 22, 1973, (b) since December 23, 1973, failed to carry out required flammability tests on the mattresses, and (c) failed to maintain required records pertaining to the manufacture, flammability testing and sal of the mattresses. This defect may also be an unfair method of competition and an unfair and deceptive act within the intent and meaning of section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

The docket in this matter is available in the Office of the Secretary of the Commission. Any person, other than the respondents, who desires to become a party to the procedures, to partcilpate in the prehearing conference, or to testify at the hearing, may request to do so by writing to the Honorable Paul N. Pfeiffer, Administrative Law Judge, Consumer Product Safety Commission, Room 1000, Washington, D.C. 20207 or by telephoning (202) 634-7171 by close of business November 6, 1975.

Dated: October 31, 1975.

SADYE E. DUNN,
Secretary, Commission

INTERSTATE COMMERCE COMMISSION

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

OCTOBER 30, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 60186 (Sub-No. 51G), (Correction), filed January 28, 1974, published in the FEDERAL REGISTER issue of February 20, 1975 and republished as corrected this issue. Applicant: NELSON FREIGHTWAYS, INC., 47 East Street, Rockville, Conn. 06066. Applicant's representative: Edward G. Villalon, Suite 1032, Pennsylvania Building, Pennsylvania Avenue and 13th Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (1) between points in New Hampshire, on the one hand, and, on the other, points in Maine, and those in Worcester, Springfield and Lowell, Mass., (2) between Albany, N.Y., Waterbury and South Windsor, Conn., and Hackensack and Cherry Hill, N.J., on the one hand, and, on the other, points in New York (except those on and east of New York Highway 112). Pennsylvania, Delaware, Maryland and the District of Columbia, and (3) between points in Maine and New Hampshire, on the one hand, and, on the other, points in New York (except those on and east of New York Highway 112). The purpose of this filing is to eliminate the gateways of Worcester, Springfield and Lowell, Mass., Albany, N.Y., Hackensack and Cherry Hill, N.J. and South Windsor and Waterbury, Conn. The purpose of this republication is to state that the correct number is MC 60186 (Sub-No. 51G), in lieu of the previously published number of MC 60186 (Sub-No. 51).

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commissioner under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before November 17, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 19227 (Sub-No. E6), filed April 2, 1974. Applicant: LEONARD BROS. TRUCKING CO., INC., P.O. Box 52062, Miami, Fla. 33152. Applicant's representative: J. Fred Dewhurst, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *commodities*, (except boats), and (except oil field equipment) the transportation of which because of their size or weight require the use of special equipment, and (2) *self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts and supplies in connection therewith, between points in that part of Texas south of Culberson, Reeves, Pecos, Crockett, Sutton, Kimble, Mason, Llano, Burnet, Travis, Lee, Burleson, Bryan, Grimes, Montgomery, San Jacinto, Polk, Tyler, Jasper and Newton counties, on the one hand, and, on the other, points in that part of Alabama east and south of Cherokee, Calhoun, Talladega, Coosa, Autauga, Lowndes, Wilcox, Monroe, Conecuh and Escambia Counties, Connecticut, Delaware, that part of Georgia east and south of Fannin, Murray, Gordon and Floyd Counties, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, that part of New York east and south of Wayne, Seneca, Yates and Steuben Counties, that part of North Carolina east and south of Swain, Graham and Cherokee Counties, that part of Pennsylvania east and south of Potter, Elk, Jefferson, Indiana, Westmoreland and Fayette Counties, Rhode Island, South Carolina, that part of Tennessee east and south of Hawkins, Hamblen, Jefferson and Sevlea Counties, Vermont, that part of Virginia east and south of Buchanan, Dickenson and Scott Counties, that part of West Virginia east and south of Monongalia, Marion, Harrison, Lewis, Braxton, Clay, Kanawha, Boone, Logan and Mingo Counties, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Pensacola, Fla.

No. MC 49052 (Sub-No. E17) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER July 15, 1975. Applicant: MACON TRADING POST, INC., 103 Cherry St., Macon, Ga. 31208. Applicant's representative: Thomas R. Kingsley, 1819 H St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Lee, Macon, Russell, Bullock, Barbour, Pike, Coffee, Dale, Henry, Covington, Geneva and Houston Counties, Ala., on the one hand, and, on the other, *points in Kentucky;* between points in Alabama in and south of Lee, Macon, Elmore, Montgomery, Lowndes, Butler, Conecuh, Escambia, Baldwin and Mobile Counties, on the one hand, and, on the other, points in Kentucky, *in and east of Meade, Hardin, Larue, Green, Adair, and Cumberland Counties;* between points in Alabama in and south of Lee, Macon, Elmore, Autauga, Lowndes, Wilcox, Clarke, and Washington Counties, on the one hand, and, on the other, points in Kentucky in and east of McCreary, Pulaski, Lincoln, Garrard, Jessamine, Woodford, Scott, Owen, Gallatin and Boone Counties; and, between points in Dallas, Marengo, and Choctaw Counties, Ala., on the one hand, and, on the other, points in Kentucky in and east of Whitley, Laurel, Rockcastle, Madison, Jessamine, Fayette, Scott, Owen, Gallatin, and Boone Counties. The purpose of this filing is to eliminate the gateway of Muscogee County, Ga. The purpose of this correction is to clarify the territorial descriptions.

No. MC 49052 (Sub-No. E23), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER August 12, 1975. Applicant: MACON TRADING POST, INC., 103 Cherry St., Macon, Ga. 31208. Applicant's representative: Thomas R. Kingsley, 1819 H. St., N.W., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Lee, Macon, Russell, Bullock, Barbour, Pike, Coffee, Dale, Henry, Covington, Geneva and Houston Counties, Ala., on the one hand, and, on the other, *points in Kentucky;* between points in Alabama in and south of Lee, Macon, Elmore, Montgomery, Lowndes, Butler, Conecuh, Escambia, Baldwin and Mobile Counties, on the one hand, and, on the other, points in Kentucky, *in and east of Meade, Hardin, Larue, Green, Adair, and Cumberland Counties;* between points in Alabama in and south of Lee, Macon, Elmore, Autauga, Lowndes, Wilcox, Clarke, and Washington Counties, on the one hand, and, on the other, points in Kentucky in and east of McCreary, Pulaski, Lincoln, Garrard, Jessamine, Woodford, Scott, Owen, Gallatin and Boone Counties; and, between points in Dallas, Marengo, and Choctaw Counties, Ala., on the one hand, and, on the other, points in Kentucky in and east of Whitley, Laurel, Rockcastle, Madison, Jessamine, Fayette, Scott, Owen, Gallatin, and Boone Counties. The purpose of this filing is to eliminate the gateway of Muscogee County, Ga. The purpose of this correction is to clarify the territorial descriptions.

No. MC 61825 (Sub-No. E621), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and Steel products*, between points in Monroe County, Ohio within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Berkeley, Jefferson, and Morgan Counties, W. Va. The purpose of this filing is to eliminate the gateway of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E621 previously published as E613.

No. MC 61825 (Sub-No. E622), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Jefferson County, Ohio, on the one hand, and, on the other, points in Pennsylvania except points in Allegheny, Crawford, Mercer, Armstrong, Erie, Venango, Beaver, Forest, Warren, Butler, Greene, Washington, Clarion, and Lawrence Counties. The purpose of this filing is to eliminate the gateway of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E622 previously published as E614.

No. MC 61825 (Sub-No. E623), (Corrected), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Westmoreland County, Pa., within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Boone, Lincoln, Pleasants, Wayne, Cabell, Logan, Putnam, Wirt, Jackson, Mason, Ritchie, Wood, Kanawha, Mingo, and Roane Counties, W. Va. The purpose of this filing is to eliminate the gateway of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E623 previously published as E615.

No. MC 61825 (Sub-No. E624), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Columbiana County, Ohio, on the one hand, and on the other, points in Pennsylvania (except points in Allegheny, Armstrong, Beaver, Butler, Cameron, Clarion, Clearfield, Crawford, Clinton, Elk, Erie, Forest, Indiana, Jefferson, Lawrence, McKean, Mercer, Potter, Venango, Warren, Washington, and Wes moreland Counties). The purpose of this filing is to eliminate the gateways of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E624 previously published as E616.

No. MC 61825 (Sub-No. E625), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Westmoreland County, Pa., within 50 miles of Steubenville, Ohio, on the one hand, and, on the other, points in Boone, Lincoln, Pleasants, Wayne, Cabell, Logan, Putnam, Wirt, Jackson, Mason, Ritchie, Wood, Kanawha, Mingo, and Roane Counties, W. Va. The purpose of this filing is to eliminate the gateway of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E624 previously published as E615.

No. MC 61825 (Sub-No. E624), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORP., P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Columbiana County, Ohio, on the one hand, and on the other, points in Pennsylvania (except points in Allegheny, Armstrong, Beaver, Butler, Cameron, Clarion, Clearfield, Crawford, Clinton, Elk, Erie, Forest, Indiana, Jefferson, Lawrence, McKean, Mercer, Potter, Venango, Warren, Washington, and Wes moreland Counties). The purpose of this filing is to eliminate the gateways of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E624 previously published as E616.

No. MC 64932 (Sub-No. E625), (Correction), filed June 3, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROGERS CARTAGE CO., 10735 S. Cicero Ave., Oak Lawn, Ill. 60453. Applicant's representative: W. F. Farrell, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *liquid chemicals*, in bulk, in tank vehicles, from the plant sites of Baird Chemical Industries, Inc., located at or near Mapleton, Ill., to those points in Kentucky on and west of a line beginning at the Illinois-Kentucky State line and extending along Kentucky Highway 91 to junction U.S. Alternate Highway 41, to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of St. Louis, Mo. The purpose of this correction is to reflect the appropriate Sub-No. E625 previously published as E139.

No. MC 65941 (Sub-No. E34), filed February 2, 1975. Applicant: TOWER LINES, INC., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: G. V. Thieroff, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *roof deck* (except commodities which because of size or weight require the use of special equipment), (A) from points in Ashtabula, Lake, Geauga, Trumbull, Cuyahoga, Summit and Portage Counties, Ohio, to points in New York east of U.S. Highway 81; (B) from points in Ohio to points

an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No MC 60186 (Sub-No. 51C), (Correction), filed January 28, 1974, published in the FEDERAL REGISTER issue of February 20, 1975 and republished as corrected this issue. Applicant: NELSON FREIGHTWAYS, INC., 47 East Street, Rockville, Conn 06066 Applicant's representative: Edward G. Villalon, Suite 1032, Pennsylvania Building, Pennsylvania Avenue and 13th Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 19227 (Sub-No. E6), filed April 2, 1974. Applicant: LEONARD BROS. TRUCKING CO., INC., P.O. Box 52062, Miami, Fla. 33152. Applicant's representative: J. Fred Dewhurst, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *commodities*, (except boats), and (except oil field equipment) the transportation of which because of their size or weight require the use of special equipment, and (2) *self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts and supplies in connection therewith, between points in that part of Texas south of Culberson, Reeves, Pecos, Crockett, Sutton, Kimble, Mason, Llano, Burnet, Travis, Lee, Burleson, Bryan, Grimes, Montgomery, San Jacinto, Polk, Tyler, Jasper and Newton counties, on the one hand, and, on the other, points in that part of Alabama east and south of Cherokee, Calhoun, Talladega, Coosa, Autauga, Lowndes, Wilcox, Monroe, Conecuh and Escambia

Kentucky, in and east of Hardin, Larue, Green, Adair, and Cumberland Counties; between points in Alabama in and south of Lee, Macon, Elmore, Autauga, Lowndes, Wilcox, Clarke, and Washington Counties, on the one hand, and, on the other, points in Kentucky in and east of McCreary, Pulaski, Lincoln, Garrard, Jessamine, Woodford, Scott, Owen, Gallatin and Boone Counties; and, between points in Dallas, Marengo, and Choctaw Counties, Ala., on the one hand, and, on the other, points in Kentucky in and east of Whitley, Laurel, Rockcastle, Madison, Jessamine, Fayette, Scott, Owen, Gallatin, and Boone Counties. The purpose of this filing is to eliminate the gateway of Muscogee County, Ga. The purpose of this correction is to clarify the territorial descriptions.

No. MC 49052 (Sub-No. E23), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER August 12, 1975. Applicant: MACON TRADING POST, INC., 103 Cherry St., Macon, Ga. 31208. Applicant's representative: Thomas R. Kingsley, 1819 H. St., N.W., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Lee, Macon, Russell, Bullock, Barbour, Pike, Coffee, Dale, Wetton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E621 previously published as E613.

No. MC 61825 (Sub-No. E622), (Correction), filed May 13, 1974. Published in FEDERAL REGISTER October 21, 1975. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, between points in Jefferson County, Ohio, on the one hand, and, on the other, points in Pennsylvania except points in Allegheny, Crawford, Mercer, Armstrong, Erie, Venango, Beaver, Forest, Warren, Butler, Greene, Washington, Clarion, and Lawrence Counties. The purpose of this filing is to eliminate the gateway of Weirton, W. Va. The purpose of this correction is to reflect the appropriate Sub-No. E622 previously published as E614.
